

ECD Publications 2000 to June 2006

BOOK CHAPTER

Nesnow, S. "Complex Mixtures of Chemical Carcinogens: Principles of Action and Human Cancer." Chapter 14 in: *Molecular Carcinogenesis and the Molecular Biology of Human Cancer*, D. Warshawsky and J. Landolph (Ed.), CRC Press, 2006.

Ross, J. A. "Binding of Carcinogens to DNA and Covalent Adducts DNA Damage PAH, Aromatic Amines, Nitro-Aromatic Compounds, and Halogenated Compounds." Chapter 4 in: *Molecular Carcinogenesis and the Molecular Biology of Human Cancer*, Warshawsky and J. Landolph (Ed.), CRC Press, 2006.

Rabinowitz, JR ; Little, SB ; Gifford, EM. "Molecular interaction potentials for the development of structure-activity relationships." In: *QSARs for Pollution Prevention, Toxicity Screening, Risk Assessment, and Web Development*, Chapter 7 John D. Walker, Ph.D. (Ed.), SETAC, 2003.

Richard, AM; and Williams, CR. "Public Sources of Mutagenicity and Carcinogenicity Data: Use in Structure-Activity Relationship Models ." In: *QSARs of Mutagens and Carcinogens* New York: CRC Press, Feb. 2003.

Claxton, LD; and George, SE. "Challenges and Approaches for Identifying Carcinogens in Contaminated Media." In: *Environmental Analysis of Contaminated Sites* Dr. Geoffrey I. Sunahara (Ed.), John Wiley & Sons Ltd., Jan. 2002.

Preston, RJ. "Genetic Toxicology." In: *Introduction to Biochemical Toxicology*, 3rd, Chapter 16 E. Hodgson; R. Smart (Ed.), John Wiley and Sons Inc., Feb. 2001.

Preston, RJ. "Genetic Toxicology." In: *Casarett & Doull's Toxicology: The Basic Science of Poisons*, Sixth, Chapter 9 Klaassen, CD; Amdur, MO; Doull, J (Ed.), McGraw-Hill Companies, Inc., July 2001.

Richard, AM; and Swartz, P. "Use of structure-activity relationships for probing biochemical mechanisms: glutathione transferase zeta conjugation of haloacids." In: *Biological Reactive Intermediates VI: Chemical & Biological Mechanisms in Susceptibility to & Prevention of Environmental Disease Advances in Experimental Medicine and Biology*, Vol. 500, Nov. 2001.

Zhong, CX; Wang, L; and Mass, MJ. "Arsenite exposure causes both hypomethylation and hypermethylation in human cell lines in culture at low concentrations." In: *Arsenic Exposure and Health Effects, Proceedings of the 4th International Symposium on Arsenic and Health Effects*, San Diego, CA, June 2000. WR Chappell, CO Abernathy and RL Calderon (Ed.), Nov. 2001.

Barratt, MD; Richard, A; and Benigni, R. "Predicting Toxicity from Chemical Structure." In: *Progress in the Reduction, Refinement & Replacement of Animal Experimentation*, 3rd World Congress on Alternatives & Animal Use in the Life Sciences, Bologna, Italy, Aug 29 -Sept 2, 1999. M. Balls, A.-M. vanZeller & M.E. Halder (Ed.), Elsevier Science B.V., Nov. 2000.

Richard, AM ; Bruce, R ; Greenberg, M. "SAR Methods Applied to Chemical Toxicity: Making Better Use of What We Have." In: *Progress in the Reduction, Refinement, and Replacement of Animal Experimentation*, 3rd World Congress on Alternatives and Animal Use in the Life Sciences, Bologna, Italy, 8/29-9/2/99. M Balls, AM van Zeller & ME Halder (Ed.), Elsevier Science B.V., Nov. 2000.

Carter, JH; Carter, WH; Richmond, RE; Nesnow, S; and DeAngelo, AB. "Transforming growth factor (TGFB) and TGFB -type II receptor expression during dichloroacetic acid-induced hepatocarcinogenesis." In: Safety of Water Disinfection; Balancing Chemical and Microbial Risks Craun, G.F. (Ed.), pp563-570. Washington, DC: ILSI Press.

Carter, WH; Carter, JH; Richmond, RE; DeAngelo, AB; and Nesnow, S. "Dichloroacetic acid alters cell proliferation and cell death (apoptosis) in premalignant hepatic lesions in B6C3F1 male mice." In: Safety of Water Disinfection: Balancing Chemical and Microbial Risks Craun, G.F. (Ed.), pp555-562. Washington, DC: ILSI Press.

JOURNAL

Bae, J.S., H. S. Freeman, and L. D. Claxton. Evaluation of New 2,2-Dimethyl-5,5-Dipropoxybenzidine- and 3,3-Dipropoxybenzidine-Based Direct Dye Analogs for Mutagenic Activity By Use of the Salmonella/Mammalian Mutagenicity Assay. *Mutation Research*, 603(2):173-185, (2006).

Chung, K., S. Chen, and L. D. Claxton. Review of the Salmonella Typhimurium Mutagenicity of Benzidine, Benzidine Analogues, and Benzidine-Based Dyes. *Mutation Research Reviews*, 612(1):58-76, (2006).
