

(see § 10.303). However, OWCP can authorize treatment for the following conditions, even though such treatment is designed, in part, to prevent further injury:

(a) Complications of preventive measures which are provided or sponsored by the agency, such as an adverse reaction to prophylactic immunization.

(b) Actual or probable exposure to a known contaminant due to an injury, thereby requiring disease-specific measures against infection. Examples include the provision of tetanus antitoxin or booster toxoid injections for puncture wounds; administration of rabies vaccine for a bite from a rabid or potentially rabid animal; or appropriate measures where exposure to human immunodeficiency virus (HIV) has occurred.

(c) Conversion of tuberculin reaction from negative to positive following exposure to tuberculosis in the performance of duty. In this situation, the appropriate therapy may be authorized.

(d) Where injury to one eye has resulted in loss of vision, periodic examination of the uninjured eye to detect possible sympathetic involvement of the uninjured eye at an early stage.

§ 10.314 Will OWCP pay for the services of an attendant?

Yes, OWCP will pay for the services of an attendant up to a maximum of \$1,500 per month, where the need for such services has been medically documented. In the exercise of the discretion afforded by 5 U.S.C. 8111(a), the Director has determined that, except where payments were being made prior to January 4, 1999, direct payments to the claimant to cover such services will no longer be made. Rather, the cost of providing attendant services will be paid under section 8103 of the Act, and medical bills for these services will be considered under § 10.801. This decision is based on the following factors:

(a) The additional payments authorized under section 8111(a) should not be necessary since OWCP will authorize payment for personal care services under 5 U.S.C. 8103, whether or not such care includes medical services, so long as the personal care services have

been determined to be medically necessary and are provided by a home health aide, licensed practical nurse, or similarly trained individual.

(b) A home health aide, licensed practical nurse, or similarly trained individual is better able to provide quality personal care services, including assistance in feeding, bathing, and using the toilet. In the past, provision of supplemental compensation directly to injured employees may have encouraged family members to take on these responsibilities even though they may not have been trained to provide such services. By paying for the services under section 8103, OWCP can better determine whether the services provided are necessary and/or adequate to meet the needs of the injured employee. In addition, a system requiring the personal care provider to submit a bill to OWCP, where the amount billed will be subject to OWCP's fee schedule, will result in greater fiscal accountability.

§ 10.315 Will OWCP pay for transportation to obtain medical treatment?

The employee is entitled to reimbursement of reasonable and necessary expenses, including transportation needed to obtain authorized medical services, appliances or supplies. To determine what is a reasonable distance to travel, OWCP will consider the availability of services, the employee's condition, and the means of transportation. Generally, 25 miles from the place of injury, the work site, or the employee's home, is considered a reasonable distance to travel. The standard form designated for Federal employees to claim travel expenses should be used to seek reimbursement under this section.

§ 10.316 After selecting a treating physician, may an employee choose to be treated by another physician instead?

(a) When the physician originally selected to provide treatment for a work-related injury refers the employee to a specialist for further medical care, the employee need not consult OWCP for approval. In all other instances, however, the employee must submit a written request to OWCP with his or her
