

Appendix table 7-15

Public assessment of astrology or fortune telling, by country/region: 2001 or 2004

(Percent)

	Astrology U.S. (2004)	Astrology EU-15 (2001)	Fortune telling China (2001)	Fortune telling and Sa-Ju South Korea (2004)
Very scientific	6	na	1	3
Sort of scientific.....	26	53	10	34
Scientific subtotal	32	53	11	37
Not at all scientific	66	39	74	63
Do not know	2	8	15	na

na = not applicable

EU = European Union

NOTES: Responses to: *Would you say that astrology is very scientific, sort of scientific, or not at all scientific?* For United States, China, and South Korea, "scientific subtotal" is a sum of "very scientific" and "sort of scientific." EU-15 questions said, *rather scientific* and *not very scientific*.
