Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS
PART 121—FOOD ADDITIVES

Picloram

In response to a food additive petition (FAP 4H5052) submitted jointly by the Montana Department of Agriculture, Helena, MT 59601, and the North Dakota Department of Agriculture, Bismarck, ND 58501, a notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of May 6, 1974 (39 FR 15879), proposing establishment of the herbicide picloram (4-amino-3,5,6-trichloropicolinic acid) in flour at 1 part per million and in milled fractions (except flour) at 2 parts per million resulting from application of the herbicide to growing barley and wheat.

No requests for referral to an advisory committee were received. One comment was received from the State of Nebraska, Department of Agriculture, requesting that the proposed tolerances for picloram be extended to cover residues in the same processed foods resulting from the same use pattern in Nebraska.

It is concluded that the proposal reflecting this change be adopted. (For a related document, see this issue of the FEDERAL REGISTER, page 22146.)

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, and 348).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348 (d)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), part 121 is amended by adding the following new section to Subpart D:

§ 121.1256 Picloram.

The following interim tolerances are established for residues of the herbicide picloram (4-amino-3,5,6-trichloropicolinic acid) resulting from application of 2,4-D-picloram mixtures to growing barley and wheat during the 1974 growing season in the States of Montana, Nebraska, and North Dakota:

2 parts per million in milled fractions (except flour) of barley and wheat.

1 part per million in flour of barley and wheat.

Any person who will be adversely affected by the foregoing order may at any time on or before July 22, 1974, file with

the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on June 20, 1974.

(Sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d))

Dated: June 14, 1974.

HENRY J. KOPF,
*Deputy Assistant Administrator
for Pesticide Programs.*
