

This tab contains the aspects and impacts list for utilities.

Aspects and Impacts

Operation	Activity	Aspect	Impact
Utility Operation	Lighting (office, street lights, and athletic fields)	Waste fluorescent and halogen lights	Fill up landfill
			Hazardous waste (hg, pb, cd)
		New fluorescent and halogen lights	Deplete natural resources
			Hazardous waste
		Waste ballasts (may contain PCBs)	Fill up landfill
		Electricity used	Deplete natural resources
		Miscellaneous parts repair and replacement	Fill up landfill
			Deplete natural resources
		Paint removal/new paint	Contamination of surface water, groundwater, soil
			Deplete natural resources
	Degrade air quality		
	Fill up landfill		
	Bulb replacement	Hazardous waste	
		Fill up landfill	
	Heating	Natural gas used	Deplete natural resources
			Hazardous waste
		Hg-containing thermostats and switches	Contamination of surface water, groundwater, soil
			Fill up landfill
		Electricity used	Deplete natural resources
		VOCs from boilers	Degrade air quality
		Propane tanks	Degrade air quality
	Heating oil	Degrade air quality	
	Cooling (AC, refridgerator, ice makers)	Freon	Deplete ozone
Electricity used		Deplete natural resources
