

## **Rating Criteria Suggestions**

Degree of Impact on Environment

Frequency of Impact Occurring

Probability of Impact going Undetected

Duration of Impact

Potential for Legal and Regulatory Non-Compliance

Potential to Impact on Human Health

Potential for Wasted Materials

Location of Impact

Public Perception Issue

Pollution Prevention Opportunity

Alternatives Available

Natural Resource Depletion

Solid Waste Generation

Releases to Air, Land, and Water

Nuisance (odor, traffic, light, noise)

Toxicity

Potential Reduction in Waste, Emissions, or Releases
