BILLING CODE 3410-EN-P

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Southern Washington County Watershed Protection Project; Washington County, ID

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice

that an environmental impact statement is not being prepared for the Southern Washington County Watershed Protection Project, Washington County, Idaho.

FOR FURTHER INFORMATION CONTACT:

Richard Sims, State Conservationist, Natural Resources Conservation Service, 9173 W. Barnes Dr., Suite C, Boise, Idaho 83709-1574, telephone (208) 378-5700.

SUPPLEMENTARY INFORMATION: The Plan/Environmental Assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national adverse impacts affecting the quality of the human environment. As a result of these findings, Richard Sims, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The Southern Washington County Watershed Protection Project consists of a system of land treatment measures designed to address the problems associated with degradation of ground water quality and surface water quality in the Weiser and Snake Rivers. Benefits will be realized from reduced groundwater contamination by reducing deep leaching of nutrients and pesticides to the Western Snake River Plain Aquifer (Southern Washington County), protection of long-term soil productivity, reduced irrigation-induced erosion and reduced sediment, nutrient, pesticide and pathogen delivery to the Weiser and Snake Rivers and area tributaries. Planned treatment practices include: irrigation system-gated pipe (with surge), micro (drip) irrigation, tail water recovery systems, sprinkler re-nozzle, sprinkler systems, irrigation water management (moisture sensors and meters) and sediment basins. Management practices include: conservation crop rotation, irrigation water management, nutrient management, anionic polyacrylamide PAM erosion control, pest management, prescribed grazing, residue management (mulch till and seasonal), and straw mulch.

The Notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the plan/environmental assessment is on file and may be reviewed by contacting Mr. Richard Sims. The FONSI has been sent to various Federal, State, and local agencies, and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the address stated above. No

administrative action on the proposal will be initiated until 30 days after the date of this publication in the **Federal Register**.

(This action is listed in the Catalog of Federal Domestic Assistance under No. 10.904, Watershed Protection and Flood Prevention, and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials.)

Dated: March 7, 2006.

Mark Weatherstone,

Acting State Conservationist.

I. Funding Opportunity

The provision of broadband transmission service is vital to the

economic development, education, health, and safety of rural Americans. The purpose of the Community Connect Grant Program is to provide financial assistance in the form of grants to eligible applicants that will provide currently unserved areas, on a "community-oriented connectivity" basis, with broadband transmission service that fosters economic growth and delivers enhanced educational, health care, and public safety services. USDA Rural Development will give priority to rural areas that it believes have the greatest need for broadband transmission services, based on the criteria contained herein.

Grant authority will be used for the deployment of broadband transmission service to extremely rural, lower-income communities on a "community-oriented connectivity" basis. The "community-oriented connectivity" concept will stimulate practical, everyday uses and applications of broadband facilities by cultivating the deployment of new broadband transmission services that improve economic development and provide enhanced educational and health care opportunities in rural areas. Such an approach will also give rural communities the opportunity to benefit from the advanced technologies that are necessary to achieve these goals. Please see 7 CFR 1739, subpart A for specifics.

This notice has been formatted to conform to a policy directive issued by the Office of Federal Financial Management (OFFM) of the Office of Management and Budget (OMB), published in the **Federal Register** on June 23, 2003. This Notice does not change the Community Connect Grant Program regulation (7 CFR 1739, subpart A).

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 9-2006]

Foreign-Trade Zone 149—Freeport, Texas, Expansion of Manufacturing Authority—Subzone 149C, ConocoPhillips, Sweeny, TX

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Brazos River Harbor Navigation District (Port Freeport), grantee of FTZ 149, requesting authority on behalf of ConocoPhillips (COP), to expand the scope of manufacturing activity conducted under zone procedures within Subzone 149C at the COP oil refinery complex in Sweeny, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 6, 2006.

Subzone 149C (205,000 BPD capacity 1,300 employees) was approved by the Board in 1997 for the manufacture of fuel products and certain petrochemical feedstocks and refinery by-products (Board Order 920, 62 FR 51830, October 3, 1997, as amended by Board Order 1116, 65 FR 52696, 8/30/00).

The subzone consists of six sites (2,095 acres) in Brazoria County: *Site 1*—(1,315 acres) main refinery and petrochemical complex located at 6215 Texas State Highway 35 at Farm Market Road 524, south of Sweeny; *Site 2*—(160 acres) Freeport I Terminal and storage facility (1.6 million barrel storage capacity) located at County Road 731, some 28 miles southeast of the refinery; *Site 3*—(183 acres) six crude oil storage tanks (2.4 million barrel capacity) at Jones Creek Terminal located at 6215 State Highway 36, some 17 miles southeast of the refinery; *Site 4*: (34 acres) San Bernard Terminal and storage facility (207,000 barrel capacity), located at County Road 378, 5 miles southeast of the refinery; *Site 5*: (403 acres) Clemens Terminal underground LPG storage (12.8 million barrel capacity), located at County Road 314, 15 miles east of the refinery; and *Site 6*: a six mile, 6" pipeline that ties into an existing COP pipeline to facilitate the movement of product from the subzone to their customer BASF. The expansion request involves modifications and upgrades to units within the refinery to increase the overall crude distillation capacity of the refinery to 260,000 BPD. No additional feedstocks or products have been requested.

Zone procedures would exempt the increased production from customs duty

payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the customs duty rates for certain petrochemical feedstocks (duty-free) by admitting foreign crude oil in non-privileged foreign status. The application indicates that the savings from zone procedures help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been appointed examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions Via Express/Package Delivery Services: Foreign-Trade-Zones Board, U.S. Department of Commerce, Franklin Court Building - Suite 4100W, 1099 14th St. NW., Washington, DC 20005; or
2. Submissions Via the U.S. Postal Service: Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB - Suite 4100W, 1401 Constitution Ave. NW., Washington, DC 20230.

The closing period for their receipt is May 15, 2006. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 30, 2006).

A copy of the application and accompanying exhibits will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at the first address listed above, and at the U.S. Department of Commerce, Export Assistance Center, 15600 John F. Kennedy Blvd., Suite 530, Houston, TX 77032.

Dated: March 6, 2006.

Dennis Puccinelli,

Executive Secretary.
