

§ 636.5

(c) All other land except as provided in paragraph (b) of this section is eligible.

§ 636.5 Establishing priority for enrollment in WHIP.

(a) In response to national and regional needs, the Chief may limit program implementation in any given year to specific geographic areas or to address specific habitat development needs of targeted species of special concern.

(b) The State Conservationist, in consultation with the State Technical Committee, may limit implementation of WHIP to address unique species, habitats, or special geographic areas of the State. Subsequent cost-share agreement offers that would complement previous cost-share agreements due to geographic proximity of the lands involved or other relationships may receive priority consideration for participation.

(c) NRCS will evaluate the applications and make enrollment decisions based on the wildlife habitat need using some or all of the following criteria:

- (1) Contribution to resolving an identified habitat problem of national, regional, or state importance;
- (2) Relationship to any established wildlife or conservation priority areas;
- (3) Duration of benefits to be obtained from the habitat development practices;
- (4) Self-sustaining nature of the habitat development practices;
- (5) Availability of other partnership matching funds or reduced funding request by the person applying for participation;
- (6) Estimated costs of wildlife habitat development activities; and
- (7) Other factors determined appropriate by NRCS to meet the objectives of the program.

(d) Notwithstanding the criteria set forth in paragraph (c) of this section, the State Conservationist, in consultation with the State Technical Committee, may deny an application if it is not cost effective or does not sufficiently meet program requirements:

7 CFR Ch. VI (1-1-05 Edition)

§ 636.6 Cost-share payments.

(a) NRCS may share the cost with a participant for implementing the practices as provided in the WHDP; NRCS shall offer to pay no more than 75 percent of the cost of establishing such practices. The cost-share payment to a participant shall be reduced proportionately below 75 percent to the extent that direct Federal financial assistance is provided to the participant from sources other than NRCS, except for certain cases that merit additional cost-share assistance to achieve the intended goals of the program, as determined by the State Conservationist.

(b) Cost-share payments may be made only upon a determination by the NRCS that an eligible practice or an identifiable unit of the practice has been established in compliance with appropriate standards and specifications. Identified practices may be implemented by the participant or other designee.

(c) Cost-share payments may be made for the establishment and installation of additional eligible practices, or the maintenance or replacement of an eligible practice, but only if NRCS determines the practice is needed to meet the objectives of the program, or that the failure of the original practice was due to reasons beyond the control of the participant.

§ 636.7 The Wildlife Habitat Development Plan (WHDP).

(a) The participant develops a WHDP with the assistance of NRCS or other public or private natural resource professionals, and the WHDP is approved by the participant, NRCS, and the local conservation district. A WHDP encompasses the parcel of land that has the wildlife habitat conditions that are of concern to the participant.

(b) The WHDP forms the basis for the agreement and is incorporated therein. The WHDP includes a schedule for installation of the wildlife habitat development practices, maintenance, and related requirements to maintain the habitat for the life of the cost-share agreement.

(c) The WHDP may be modified in accordance with § 636.9.
