(4) Of the total quantity of producer milk received during the month (including diversions but excluding the quantity of producer milk received from a handler described in §1000.9(c) of this chapter or which is diverted to another pool plant), the handler diverted to nonpool plants not more than 60 percent in each of the months of August through February and 70 percent in each of the months of March through July.

(5) Diverted milk shall be priced at the location of the plant to which diverted;

(6) Any milk diverted in excess of the limits set forth in paragraph (d)(3) of this section shall not be producer milk. The diverting handler shall designate the dairy farmer deliveries that shall not be producer milk. If the handler fails to designate the dairy farmer deliveries which are ineligible, producer milk status shall be forfeited with respect to all milk diverted to nonpool plants by such handler; and

(7) The delivery day requirement in paragraphs (d)(2) and (d)(3) of this section and the diversion percentages in paragraph (d)(4) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and

arguments. Any decision to revise an applicable percentage must be issued in writing at least one day before the effective date.
