§ 1030.30

(1) Milk of a dairy farmer shall not be eligible for diversion unless at least one day's production of such dairy farmer is physically received as producer milk at a pool plant during the first month the dairy farmer is a producer. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval or as a result of the handler of the dairy farmer's milk failing to pool the milk under any order), the dairy farmer's milk shall not be eligible for diversion unless at least one day's production of the dairy farmer has been physically received as producer milk at a pool plant during the first month the dairy farmer is re-associated with the market;

(2) The quantity of milk diverted by a handler described in §1000.9(c) may not exceed 90 percent of the producer milk receipts reported by the handler pursuant to §1030.30(c) provided that not less than 10 percent of such receipts are delivered to plants described in §1030.7(c)(1)(i) through (iii). These percentages are subject to any adjustments that may be made pursuant to §1030.7(g); and

(3) The quantity of milk diverted to nonpool plants by the operator of a pool plant described in §1030.7(a) or (b) may not exceed 90 percent of the Grade A milk received from dairy farmers (except dairy farmers described in §1030.12(b)) including milk diverted pursuant to §1030.13; and

(4) Diverted milk shall be priced at the location of the plant to which diverted.

(e) Producer milk shall not include milk of a producer that is subject to inclusion and participation in a marketwide equalization pool under a milk classification and pricing program imposed under the authority of a State government maintaining marketwide pooling of returns.
