SUPPLEMENTARY INFORMATION:

I. Background

This project is a research activity of the Training and Technical Assistance for Providers (T-TAP) project. Funded by the Office of Disability and Employment Policy (ODEP) at the U.S. Department of Labor, T-TAP is a joint project of the Institute for Community Inclusion at the University of Massachusetts at Boston and Virginia Commonwealth University. The project provides a program of technical assistance and training that will be delivered and disseminated nationally to community-based providers including community rehabilitation providers and other public agencies who use the Fair Labor Standards Act (FLSA) section 14 (c) special minimum wage certificates. The overall goal of the T-TAP project is to assist community providers to increase access to regular wage employment in the competitive labor market. Collection of needs assessment data is necessary to identify barriers for organizations serving individuals with disabilities in finding integrated employment at a competitive rate.

The Cooperative Agreement's data collection component is authorized pursuant to Public Law 106-554, the Consolidated Appropriations Act of

2001, which established ODEP within the Department of Labor to bring a heightened and permanent focus for increasing the employment of persons with disabilities and to develop initiatives to "further the objective of eliminating employment barriers to the training and employment of people with disabilities." The Consolidated Appropriations Act of 2002, pursuant to Public Law 107-116, has reauthorized this authority.

The data collected from this survey will provide descriptive information on the current use of 14 (c) Special Wage Certificates by Community Rehabilitation Programs in the United States. Specifically, the survey will look at perceived organizational barriers to achieving competitive employment outcomes for individuals with significant disabilities. This will include organizations' perceived training and resource needs related to moving their programs from 14 (c) to integrated employment outcomes. The information generated by the survey will be used by ODEP for policy analysis and subsequent policy development and recommendations. In addition, T-TAP [VCU and ICI] will use the information to design and disseminate resources and training materials as well as provide technical assistance to Community Rehabilitation Programs (CRP). Part of disseminating this information will include writing journal articles, fact sheets, online seminars and web postings, conference presentations, or other literature that can be used by ODEP, T-TAP, CRPs, organizations, and others interested in facilitating competitive employment for individuals with disabilities.

SUPPLEMENTARY INFORMATION:

I. Background

The Health Insurance Portability and Accountability Act of 1996 (HIPAA), codified as part 7 of Title I of the Employee Retirement Security Act of 1974 (ERISA), was enacted to improve the portability and continuity of health care coverage for participants and beneficiaries of group health plans. In the interest of assuring compliance with part 7, HIPAA also added section 101(g) to ERISA permitting the Secretary of Labor (the Secretary) to require multiple employer welfare arrangements (MEWA) as defined in section 3(40) of ERISA to report to the Secretary in such form and manner as the Secretary might determine. To assist MEWAs and other entities with reporting, the Department published a final rule providing guidance for determining compliance and a form to be used for the annual report. Form M-1, the information collection provision of the regulation, is required to be filed by MEWAs and by other entities described in the regulation. The purpose of the information collection is to provide the Secretary with information to determine the extent to which the requirements of part 7 of ERISA are being carried out in

connection with the provision of benefits consisting of medical care.
