Select Area Fisheries Evaluation Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of floodplain or floodway involvement.

SUMMARY: This notice announces BPA's proposal to place fish net pens, pilings, and floating docks in floodplains or floodways located in various bays, sloughs, channels, and tributaries of the lower Columbia River. The goal of this program is to determine the feasibility of creating or expanding select area, known stock fisheries in the Columbia River basin to allow harvest of strong anadromous salmonid stocks while providing greater protection of depressed fish stocks. In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements, BPA will prepare a floodplain assessment and will perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected floodplain or floodways. The assessment will be included with the revised Finding of No Significant Impact (FONSI) being prepared for the proposed project in accordance with the requirements of the National Environmental Policy Act. A floodplain statement of findings will be included in any finding of no significant impact that may be issued following the completion of the revised FONSI.

DATES: Comments are due to the address below no later than March 20, 1998.
