

Figure 1. Index map showing photographic coverage. Nearly complete coverage is provided by Lunar Orbiter IV moderate-resolution frames 8, 44*, 52, 94*, 130*, 166*, and 193, and by Lunar Orbiter V moderate-resolution frames 21, 22*, 26*, 30*, 43, and 65. Soviet Zond spacecraft photographs (Rodionov and others, 1971, 1977) were not available.

* Not plotted; covers large area centered on corresponding high-resolution frame.
