

List of Compliance Assistance Tools for Construction Sites

This table contains a list of compliance assistance tools developed by EPA, states, and other organizations for the construction sector. For each tool, the table lists the name of the assistance tool, the URL where it can be found, and an indication of the environmental focus area(s) that the tool addresses. While EPA has tried to be as comprehensive as possible in developing this table, this table is likely not a complete list of compliance assistance tools available for this sector. In addition, this table does not provide information on the level of detail included in each tool. EPA does not endorse or guarantee the accuracy or completeness of the tools included in this table. Always check with the applicable regulatory agency for specific regulatory requirements.

The information in this table has been integrated into a searchable database—the Electronic Compendium of Compliance Assistance Tools (E-CCAT). You can find this database at <http://www.epa.gov/clearinghouse/ECCAT>.

This table includes items that EPA identified as of 21 March 2003. EPA will periodically update this table to include new items as necessary. All tools listed in the table are also included in EPA's Compliance Assistance Clearinghouse (<http://www.epa.gov/clearinghouse/>).

List of Compliance Assistance Tools for Construction Sites

DOCUMENT TITLE	ENVIRONMENTAL FOCUS													LOCATION	
	Storm Water		Wetlands		Hazardous/Toxic Waste			Nonhazardous Construction and Demolition Waste Minimization	Air			Green Building	Endangered Species Act		
	Storm Water Discharge Permit	Storm Water Mgmt for Const. Activities (inc. P2 plans and BMPs)	Erosion/Sediment Control	Wetlands Permitting	Wetlands Mitigation	Hazardous Construction and Demolition Waste and Oils	Asbestos		Lead-Based Paint	Dust Control	Transportation Conformity		Permits/Other Issues		Habitat Conservation Plans/ Incidental Take Permits
