To Whom It May Concern:

Shame on you. The SEC's sole purpose for existing is to protect the investing public from fraud, not protect the market manipulators. Manipulation is fraud!! And the SEC protects this!? If the SEC doesn't correct this injustice & bring to justice the guilty, I will work to dissolve the SEC for 'why do we need you for then? To screw us?'

Stop allowing illegal 'naked' short selling & arrest those doing it. The whole world is beginning to realize that our markets are rigged by a secret cabal. Stop it.

Sincerely,

John Chimbor
