Dear Transportation Service Providers (TSPs):

This Request for Offers (RFO) transmits the Special Filing Instructions (SFI) for the submission of rate offers for the General Services Administration (GSA) Standard Tender of Service (STOS), General Freight Traffic Management Program traffic. Rate offers filed in response to this RFO will be in accordance with the terms and conditions of the GSA STOS and this RFO and its SFI. Please note that in some instances this RFO and its SFI will deviate from and will supersede those published in the STOS, General Freight Tender of Service No. 1-F (GSA TOS No. 1-F), supplements and reissues thereto. Rate offers accepted in response to this RFO and its SFI will be for the filing period of May 1, 2004, through April 30, 2005.

Traffic to be included under this RFO and its SFI will be freight-all-kinds (FAK) shipments moving via closed van for all less than truckload (LTL) (0 pounds to 10,000 pounds) shipments and all truckload (TL) (20,000 pounds to 40,000 pounds and over) shipments which fall into one or more of the three categories identified in Section 1 of this RFO and its SFI. Rate offers are being requested for the following types of traffic:

- General Freight rate offers (Section 8);
- Intrastate Alaska rate offers (Section 8);
- US Postal Service (USPS) rate offers (Section 9);
- Reserved (Section 10)
- Fire Suppression Support Service rate offers (Section 11);
- Agency Specific Non-Alternating rate offers (Section 12);
- US Mint rate offers (Section 13)
- Federal Aviation Administration, Oklahoma City, OK, rate offers (Section 14);
- Agency Specific Alternating rate offers (Section 15).

All rate offers submitted in response to this RFO and its SFI must be submitted to GSA in accordance with Sections 16 and 17 - **NO PAPER RATE OFFERS** will be accepted. In addition, only those common/contract carriers, rail carriers, freight forwarders, and brokers and shippers agents/Intermodal Marketing Companies (including each of their underlying carriers which they represent) who have met the established approval requirements for participation in GSA's Freight Management Program may submit rate offers in accordance with this RFO and its SFI. Only those Rate Filing Service Providers (firms which offer to those approved to participate in GSA's Freight Management Program the service of submitting to GSA rate offers in accordance with this RFO and its SFI) who have a valid Trading Partner Agreement on file with GSA's Freight Program Management Office (FPMO) and have met all other approval requirements established by GSA can submit rate offers in accordance with Sections 16 and 17 of this RFO and its SFI on behalf of approved firms. Only those Tariff Publishing Agents who have a valid Trading Partner Agreement on file with the FPMO and have met all other approval requirements established by GSA may act as a Tariff Publishing Agent on behalf of approved firms.

Please note the following significant items:

1. Section 9, The United States Postal Service (USPS) Non-Alternating Standing Route Order (SRO) USPCN will continue for the next year. However due to the USPS restructuring annual shipment volume the USPS will not renew SRO's. The USPS will continue using GSA's General rates.

2. Section 10, The Non-Alternating SRO for the Western Distribution Center (WDC) French Camp, CA Freight-all- Kinds (FAK) has been Reserved due to a 90 day rate extension. The WDC has been testing new automation since August of 2003. This automation tracks the center's inventory while preparing shipping documents. The WDC is experiencing difficulty in the generation of accurate shipping documents for transportation of cargo. To allow the WDC time to refine this process, reconcile shipping discrepancies, and regain the efficiencies, GSA has extended the WDC rates set to expire on April 30, 2004. TSP's that currently have rates on file for the WDC French Camp, Ca FAK will be receiving a notice to extend rates. The extension is for a 90 day period and will expire on July 29, 2004. Prior to the extended expiration date, GSA will be requesting new rates for the WDC for the effective dates of July 30, 2004 through April 30, 2005.

3. Section 14, The Federal Aviation Administration (FAA) Non-Alternating SRO's have incorporated 5 new SRO codes for Hot Shots and Specialized Equipment. Please review the requirements carefully as some TSP's will not qualify for rate submission for the Hot Shot SRO's (FAAHS & FAABH).

If you have any questions please contact Carey DeForest of my staff at (816) 823-3646 or via e-mail at carey.deforest@gsa.gov.

Sincerely,

Ed Hodges

TERMS AND CONDITIONS

GENERAL: The following 2004 - 2005 Request for Offers (RFO) and Special Filing Instructions (SFI) are provided in addition to the terms and conditions of the General Services Administration's (GSA), General Freight Traffic Management Programs, [Standard Tender of Service \(STOS\)](#), [General Freight Tender of Service No. 1-F \(GSA TOS No. 1-F\)](#), dated December 4, 2001, supplements and reissues thereto; however, certain provisions and requirements of this RFO and SFI may deviate from and supersede those published in the STOS, GSA TOS No. 1-F.

Traffic to be included under this RFO and SFI will be freight-all-kinds (FAK) shipments, moving via closed van for all less than truckload (LTL) (0 pounds to 10,000 pounds) shipments and all truckload (TL) (20,000 pounds to 40,000 pounds and over) shipments which fall into one or more of the following three (3) categories:

2. Non-alternating Standing Route Order (SRO) rate offers where SRO is defined as the normal, repetitive movement of two or more shipments per month of specific items between specified points. The non-alternating SRO rate offers being requested will apply specifically to those agencies/locations identified in [Sections 9, 11, 12, 13, 14-2, & 14-3](#) of this RFO and SFI and WILL NOT alternate with any other accepted rate offer and the accepted rates and charges MAY NOT be used in the construction of combination through rates, charges or other provisions. Rate offers may only be submitted for non-alternating SRO rate requests when specifically requested and/or authorized by GSA; and
3. Alternating SRO rate offers where SRO is defined as the normal, repetitive movement of two or more shipments per month of specific items between specified points. The alternating SRO rate offers being requested will apply specifically to those agencies/locations identified in [Sections 14-1 and 15](#) of this RFO and SFI and MAY alternate with any other accepted rate offer and the accepted rates and charges MAY be used as factors in the construction of combination through rates, charges or other provisions.

Failure to comply with paragraph 1-3 above, could temporarily suspend all or part of your rates!

1-4. **OPTION TO EXTEND:** The Government reserves the right to extend the expiration date of all or part of the rate offers accepted in accordance with this RFO and it SFI for up to ninety (90) days.

1-5. **TERMINATION:**

A. The following provision will apply in addition to **Item 18e** of the **Optional Form 280 (rev 6/2003)**:

1. Accepted rate offers may be terminated upon determination that a Carrier has failed to satisfactorily respond to a show cause notice; and

2. Accepted rate offers may be terminated by the Government immediately upon the debarment or suspension of the Carrier in accordance with the **Code of Federal Regulations (CFR) 41-105-68**;

B. Upon termination of the rate offer under **1-5.A.1 and/or 2.**, above, the Carrier shall be paid any sum due the Carrier for services performed under this RFO and SFI to the date of such termination; and in the event of partial termination, shall be paid in accordance with the terms of this rate offer for any services furnished under the portion of the rate offer that is not terminated; provided, however, any such payments shall be without prejudice to any claim which the Government may have against the Carrier and the Government shall have the right to offset any such claims against such payment.

1-6. **TERMINATION FOR CONVENIENCE OF THE GOVERNMENT:** The Government, by written notice, may terminate all or part of the rate offers accepted in accordance with this RFO and SFI, in whole or in part, when it is in the Government's best interest. 1-7. **AGENCY/LOCATION SPECIFIC CONTACTS:** Questions with regard to specific customer agencies/locations should be directed to the agency's/location's appropriate National Account Manager Office. For information relating to the identification of the National Account Manager Offices, please visit our website at: <http://www.moveit.gsa.gov> and select the link "Contact Us". For customer agencies/locations, you can run a mailing list in TMSS for current customer agencies/locations participating in GSA's Freight Management Program.

1-8. **GENERAL CONTACTS:** General questions with regard to this RFO and SFI should be directed to Carey DeForest at (816) 823-3646, by facsimile at (816) 823-3656, or by e-mail at carey.deforest@gsa.gov.

SECTION 2 EVALUATION AND ACCEPTANCE

2-1. **EVALUATION:** All submitted rate offers which have been determined to be acceptable in accordance with this Request for Offers (RFO), Special Filing Instructions (SFI), and the General Services Administration's (GSA) Freight Management Program will be evaluated by the Freight Program Management Office (FPMO) based on price only. Price will be determined by calculating both the price of the line-haul transportation and the price of the accessorial service(s) (Item Numbers identified in the **GSA National Rules Tender 100-D** containing rates or charges) requested by the customer agency for each cost comparison requested. Individual agencies may use other methods of evaluation such as prior performance; however, the FPMO will provide accepted rate information according to paragraph **2-2**, below.

2-2. ACCEPTANCE: Accepted rate offers will be listed in GSA's TMSS on Freight Cost Comparisons for Federal Agencies use, based on price. The listing of firms on individual cost comparisons will be based on the anticipated shipping date, the origin of the shipment, the destination of the shipment, the weight of the shipment, the number of miles between the origin and destination of the shipment, and any accessorial services requested by the customer agency. Firms with applicable rates for the requested shipment will be listed on the cost comparison in cost ascending order. Please note that in the case of brokers and shippers agents/Intermodal Marketing Companies that the broker's name and/or the shippers agent's/Intermodal Marketing Company's name and not the names of underlying carriers will be identified on the cost comparison. However, when rate information is made available either to a Tariff Publishing Agent or to GSA's Office of Transportation Audits in the absence of a Tariff Publishing Agent, rate information will be submitted in the name of a broker's and/or a shipper agent's/Intermodal Marketing Company's underlying carriers and not in the name of the broker and/or the shipper agent/Intermodal Marketing Company. If the occasion arises when two or more firms have offered the exact same rate offer (both for transportation and the requested accessorial services), then the firms will be listed on the cost comparisons in alphabetical order according to the firms' names.

PLEASE NOTE: GSA and other participating agencies may consider other factors when routing shipments other than just price. As a result, the listing of firms on a cost comparison is for viewing/verification purposes only and does not guarantee any traffic will be awarded.

SECTION 3 LETTER OF INTENT CERTIFICATION

By the submission of a rate offer to the General Services Administration (GSA) in accordance with this Request for Offers (RFO), and Special Filing Instructions (SFI), the submitting firm certifies that:

I have read and will comply with all the provisions contained in this RFO and SFI dated **March 12, 2004**, as well as any supplements, changes, and/or reissues thereto and the GSA Standard Tender of Service (STOS), GSA [General Freight Tender of Service No. 1-F](#), the GSA [National Rules Tender No. 100-D](#), and the GSA [Baseline Rate Publication No. 1000-D](#), all effective December 4, 2001 as well as any supplements, changes, and/or reissues thereto and I further certify that the company for which rate offers have been submitted has the operating authority and insurance required by [Item 1-6](#) (See Below) and [Section 2](#) of the GSA [General Freight Tender of Service No. 1-F](#).

If a firm utilizes [Item 1125](#), Substituted Service – Rail for Motor, of the GSA [National Rules Tender No. 100-D](#) for shipments moving under this Request for Offers (RFO) and Special Filing Instructions (SFI), the submission of a rate offer(s) constitutes agreement to the terms and conditions of [Item 1125](#) and that rates submitted include for the proper blocking and bracing by the carrier for Trailer-On-Flat-Car (TOFC) or Road Railer movement to preclude damage to the material.

SECTION 6 TERMS AND CONDITIONS FOR BILLS OF LADING ISSUED FOR GOVERNMENT SHIPMENTS

[Section 6](#) of this Request for Offers (RFO) and Special Filing Instructions (SFI) supersedes [Item 1-10](#), “Application of the Terms and Conditions of the Government Bill of Lading” of the Standard Tender of Service (STOS), [General Freight Tender of Service No. 1-F](#). Per this RFO and its SFI, all Government shipments handled pursuant to the STOS will be subject to the terms/conditions contained in [41 CFR §§102-117 and 102-118](#). SECTION 7 BASIS FOR DETERMINING APPLICABLE DISTANCE/MILEAGE

[Section 7](#) of this Request for Offers (RFO) and its Special Filing Instructions (SFI) supersedes all mileage references in the Standard Tender of Service (STOS), to include the [General Freight Tender of Service No. 1-F](#), the [National Rules Tender No. 100-D](#), and the [Baseline Rate Publication No. 1000-D](#), with regard to determining applicable mileage/distance or Governing Publications. Per this RFO and SFI, auditing of freight shipments identified herein and handled pursuant to the STOS will be based on mileage provided by [ALK Technologies, Inc., 5 digit Zip Code, Version 18 \(coincides with PC*Miler 18\)](#). [ALK Technologies, Inc., 5 digit Zip, Version 18](#) will be used to determine highway mileages for all surface freight shipments between any two locations within the Contiguous United States (CONUS) (i.e., the lower 48 states and the District of Columbia). Exceptions to the use of ALK Technologies, Inc., mileage are domestic non-express small package shipments. The TSP industry will be notified of any future Version updates. Below is the basis to be used when constructing mileage for shipments moving within the contiguous United States:

GENERAL: borders closed, shortest mileage, ferry on.
OW/OD: borders closed, practical miles, ferry on.

9-4. EVALUATION AND CONSIDERATION OF LESS THAN TRUCKLOAD (LTL) TRAFFIC:

A. TRAFFIC/RATES: Carriers can assume that shipments will average 700 pounds per shipment. The USPS will allow carriers to provide through rates for interlined shipments for points within a state that the carrier does not service directly; however, the origin carrier will be accountable for the quality of service for the interlined shipments and will be required to make any interline settlements. Delivering interline carriers will not be allowed to collect the line-haul freight charges.

B. EVALUATION: In all instances the USPS reserves the right to divide traffic among several carriers if a single carrier is unable to provide the desired service. Please provide us your best rate for the states you are interested in serving and you will be given preference for serving all 48 states plus the District of Columbia but you will not be excluded if you do not serve the entire U.S. However if you bid on a state, you or an interline carrier must serve all points in that state at the rate provided. This means for some origin points the USPS will take the option to use more than one carrier to service "All Points". Evaluation of carrier service will be the sole responsibility of the USPS. In assigning traffic, the USPS will consider the following:

1. Past carrier performance;
2. Availability of carrier provided, personal computer-based, bill of lading preparation software;
3. Ability to accept shipment information and submit freight invoices via electronic data interchange;

4. Level of rates offered.

9-5. USPS CONTACT: Questions concerning USPS freight, please call (202) 268-2123. For USPS past due freight bills or payment processing questions, please call (215) 931-5152.

SECTION 13
AMENDED March 25, 2004,
IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDERS (SRO) TRAFFIC FOR
THE SUBMISSION OF UNITED STATES MINT RATE OFFERS
MINOR COIN

13-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC: Listed below is the United States Mint locations for which the General Services Administration (GSA) is requesting non-alternating SRO rate offers. Rates will only be accepted for the origins/destinations identified below. Rates may be, but are not required to be, submitted for all origins/destinations requested. (Please refer to [Section 16](#) for complete formatting instructions.)

13-2. GENERAL: Traffic to be included under this RFO and its SFI will be Minor coin (cents and nickels) moving via closed van (No Refrigerated Trailers) for truckload (TL) (20,000 pounds to 44,840 pounds) shipments. TL rate offers will be applicable only to interstate shipments moving in the Contiguous United States (CONUS) and the identified intrastate shipments within CONUS. Non-Alternating rate offers will be accepted for the following two U.S. Mint facilities:

1. The United States Mint, **Denver, CO**; and
2. The United States Mint, **Philadelphia, PA**

A. MINOR COIN: Rate offers covering shipments of minor coins shall be single factor rates, i.e., with complete pick up and delivery charges, including transfer of lading, if required, published as an all-inclusive **TL cents per mile rate** with a **Minimum TL Charge**. All normal and reasonable charges, including but not limited to the furnishing of pallet-handling or power unloading equipment and extra labor, if normally required as stated in the Enclosure 1 to this RFO and its SFI must also be included in the single factor rate. Only those charges for services which are not normally or routinely required, such as costs for overtime delivery or the furnishing of special unloading equipment (e.g., crane) in extraordinary circumstances, may be shown as separate.

The following provisions are required by the government in rate offers that provide for the transportation of the United States minor coin (cents and nickels) in closed bags, in bins, or on pallets as property of, or transported at the expense of, the United States Government. By submission of a rate offer(s) to the General Services Administration (GSA) in accordance with this Request for Offers (RFO) and its Special Filing Instructions (SFI), the submitting Transportation Service Provider (TSP) agrees to the incorporation of the following specifications in all accepted rate offers:

“GSA/United States Mint Specifications (minor and foreign coin) dated July 1, 1984, amended September 1, 1991, is by reference made a part of this rate offer.”

If the “Uniform Tender of Rates and/or Charges for Transportation Services” Optional Form 280 is used, this statement will be included in Block 17B entitled “Description of Service and Governing Publication.”

13-3. EQUIPMENT REQUIRED: Shipments shall be made in fully enclosed and secured vehicles (use of refrigerated trailers are prohibited). The Government does not require that seals be applied, nor is exclusive use of the vehicle required unless such exclusive use is specifically authorized by appropriate notation on the bill of lading. However, TSPs are encouraged to apply seals for internal security monitoring.

13-4. CONTROL AND SAFEGUARDING DURING TRANSIT: Shipments shall move without undue delay, and shall remain under constant surveillance from origin to destination including interchange with connecting carrier(s). Shipments shall be deemed to be under constant surveillance if, while the vehicle is not in motion, doors giving access to the cargo are under actual observation by responsible TSP personnel. Vehicles transporting shipments may be held over during transit at TSP terminals with appropriate minimal security (e.g. closed with night watchman, fenced in with electronic surveillance, operating with supervisory knowledge of trailer’s contents). Constant observation of the vehicle is not

required if the power unit is disconnected and the trailer is parked in such a manner that doors giving access to the cargo cannot be opened without movement of the trailer and frequent visual or electronic surveillance is maintained.

13-5. FEDERAL RESERVE BANK AND MINT SECURITY PROVISIONS: All U.S. Mint delivery personnel shall have his/her reliability established through a reasonably comprehensive background check by his/her respective TSP, including a fingerprint report from a law enforcement agency. All Mint delivery personnel shall be provided with photo identification credentials by the TSP. Prior to the date of any shipment, the contractor (TSP) shall make arrangements with the appropriate U.S. Mint Police representatives at shipping locations for necessary security clearance of his/her personnel.

Due to increased security at the Federal Reserve Banks all TSP's wishing to carry minor coin for the United States Mint must fax the following information to the consignee 24 hours in advance of arrival:

- Name of TSP
- Name of driver
- Tractor and Trailer number(s) along with license plate number and state of issue

****All delivery personnel must have TSP issued ID cards with their photo affixed to them****

13-6. REPORTING OF DELAYS AND/OR PROBLEMS: TSPs shall establish adequate controls over coin movements through appropriate notification to its relay stations and terminals to permit prompt telephone reports of delays or difficulties involving these shipments. All delays and difficulties shall be reported immediately to the United States Mint facility originating the shipment. In addition, any delay, such as theft, vehicular accident, or any other problem resulting in a delay of 24 hours or more shall be reported promptly to the United States Mint, Transportation Division, 801 9th Street, Washington, DC 20220 (tel. (202) 354-7450). After the TSP has actual delivery with the consignee, any delay in performing such delivery shall be reported immediately to the consignee. Except in cases where actual delivery has been scheduled, the TSP is not required to notify the consignee in the event of difficulties and/or delay.

13-7. TIME OF PICK UP AND DELIVERY: The TSP shall coordinate the establishment of acceptable pick up and delivery hours with the shipping and receiving facilities. Pick up and delivery at banks of the Federal Reserve System and facilities of the Mint shall be made during regular working hours unless other arrangements have been made. All TSPs that utilize the services of a sub-contracted carrier or truck's that do not display the signage of the contracted carrier, must fax at least 24 hours in advance the actual name of the sub-contracted carrier to the appropriate Mint originating facility (see 13-18). All drivers must receive clearance, in advance, from the United States Mint Police before entry into the Mint facility or onto Mint property.

13-8. LOADING AND UNLOADING:

A. PALLETIZED SHIPMENTS: Shipment of coin to be transported on pallets will be loaded in the TSP's conveyance by the Mint facility originating the shipment. The TSP will ensure that stacking of coin on pallets and placement of pallets within the vehicle(s) is suitable for transportation. The TSP shall perform all blocking and bracing required to secure the load.

B. DELIVERY: The delivering TSP will unload palletized and non-palletized shipments in accordance with the directions indicated in Enclosure 1 in accordance with the directions of the consignee. Normal receiving conditions and delivery requirements for each consignee are contained in Enclosure 1. Major and repetitive differences in actual delivery requirements from those stated in Enclosure 1 should be reported in writing to the General Services Administration. Deliveries of coin shipments are made under secure conditions, which routinely involve opening of secured area and arranging for a guard to be present. Consignees shall be notified prior to tender of delivery so that these arrangements can be scheduled. Should delivery be attempted without prior notice to consignee, any loss of time or redelivery will be at no expense to the government.

13-9. GOVERNMENT FURNISHED EQUIPMENT: The TSP shall carefully examine any Mint or Federal Reserve Bank furnished fixtures or equipment and become familiar with their condition and manner of operation prior to use. If the TSP claims defect in any such fixture or equipment, written notice shall be given to the United States Mint,

Transportation Division, 801 9th Street, Washington, DC 20220. Failure to give such notice shall be construed as a waiver of such condition or defect. The TSP agrees to be solely liable for all such damages that may result from its use of Mint or Federal Reserve Bank furnished equipment.

13-10. RATES AND CHARGES:

A. MINOR COIN: Rate offers covering shipments of minor coins shall be single factor rates, i.e., with complete pick up and delivery charges, including transfer of lading, if required, published as an all-inclusive truckload cents per mile rate offer with a minimum truckload charge. **All normal and reasonable charges, including but not limited to the furnishing of pallet-handling or power unloading equipment and extra labor, if normally required as stated in Enclosure 1 must also be included in the single factor rate.** Only those charges for services which are not normally or routinely required, such as costs for overtime delivery or the furnishing of special unloading equipment (e.g., crane) in extraordinary circumstances, may be shown as separate.

The appropriate Interstate Commerce Commission or State regulatory authority number(s) shall be included on the tender of rates and charges. If the shipment is not regulated, this exemption shall be shown on the tender.

The TSP will secure at its expense the necessary permits, franchises, licenses, or other authorities for effecting shipments.

13-13. VALUATION AND LIABILITY FOR LOSS AND DAMAGE:

A. MINOR COIN: Face value of United States Minor Coin (cents and nickels) is up to \$76,000 per truckload of cents, and \$180,000 per truckload of nickels. B. LIABILITY OF TSP: The origin TSP accepts full responsibility for the face value of United States minor coin and replacement costs of pallets tendered to it, from acceptance of the coin at origin to delivery at final destination, regardless of the TSPs participating in the movement, and agrees to indemnify the Government at these respective values in the event of loss or damage. If for any reason a shipment of United States minor coin should exceed \$180,000 value per truckload, the TSP is not relieved of responsibility for additional valuation. Should the value exceed \$180,000 per truckload, the TSP will be so advised no later than time of request for pick up of the shipment.

13-14. INSURANCE REQUIREMENTS AND EVIDENCE OF INSURANCE:

A. GENERAL: TSPs should furnish a copy of the following provisions to their insurance company,

agent, or broker for assistance in preparing acceptable policies for the movement of minor coins. All insurance shall be written with companies who are licensed and bonded, and all policies shall include such provisions as may be required by GSA and the U.S. Mint to cover the assumption of risk by the TSP. Each policy shall include a provision that, in the event of loss and damage, the claim will be settled on the basis of the face value of the United States minor coin and the replacement value pallets. Any payment for loss or damage shall be made to the U.S. Mint, U.S. Treasury Department, 801 9th Street NW, Washington, DC 20220, unless otherwise directed by an authorized official of the U.S. Mint. Each insurance policy shall include a provision to furnish GSA a ten (10) days notice of cancellation of the policy. Evidence of renewal of any policy shall be furnished GSA not less than (10) days prior to the expiration of the existing coverage.

If the Insurance coverage required herein cannot be provided without excluding coverage for infidelity or dishonesty of employees, the insurance will not be acceptable for the movement of coin unless such exclusion in the policy is supplemented and covered by a fidelity bond covering infidelity and dishonesty of TSP's employees in the amount of \$225,000. In such case the fidelity bond shall include the same ten (10) day cancellation notice to GSA as required in the insurance policy and a complete duplicate countersigned copy of the fidelity bond so endorsed shall be furnished GSA.

C. EVIDENCE OF INSURANCE: The only acceptable evidence of insurance coverage for minor coin shall be either a complete duplicate countersigned copy of the original policy or policies (primary and excess coverage), including all endorsements thereto, endorsed to include the required "Coin Coverage Endorsement," or, in lieu thereof, a manually countersigned "Certificate of Insurance" complete and sufficient in all details to reflect the actual coverage under the policy or policies, and including the "Coin Coverage Endorsement" and any other endorsements which affect said coverage. A separate policy or Certificate of Insurance covering only minor and/or foreign coin will be acceptable. All references to rates and premiums may be deleted from copies of policies furnished. AMENDED SECTION 16
FILE FORMAT REQUIREMENTS

16-1. FILE FORMAT REQUIREMENTS FOR THE SUBMISSION OF ELECTRONIC RATE OFFERS: TSP's submitting rate offers for the General filing **MUST** submit their rate offers electronically via the File Transfer Protocol (FTP) per instructions located in Section 17. TSP's utilizing the FTP rate filing capabilities of the for the submission of rates into the Transportation Management Services Solution (TMSS) must adhere to the file format requirements identified in this Section when creating rate offers for submission. Rate offers received which do not conform to these format requirements will be found unacceptable. Please note that Sections 8 - 16 can provide general information to those TSP's utilizing TMSS to create their rate offers.

16-2. HEADER RECORD FORMAT REQUIREMENTS: In addition to each TSPs rate records, for all rate offers filed in accordance with this RFO TSPs must file ONE SET of the following "F Records" at the beginning of EVERY RATE FILE submitted to GSA.

➤ **Important Amendment:**

Mandatory E-mail Address: Booking office e-mails contained in the rate offer have become **MANDATORY** for the purpose of online booking within TMSS;

The TSP must provide an Email address and are encouraged to provide a fax number for each rate record. The e-mail address provided in the rate record will be used by TMSS for automated booking notification. The e-mail is expected to be associated with the booking office at the route level. If no such e-mail can be provided at the route level, a corporate level e-mail should be provided in this record. For automated booking notifications to be sent by TMSS to the TSP's, the government will consider offering a system-to-system level information exchange between TMSS and the TSP's system, in lieu of sending a booking request via e-mail. TSP's interested in this feature of TMSS are required to contact GSA's program office (FBL) at (703) 605-5618 and the Government will evaluate such requests for implementation.

NOTE: When the rate file is complete, it MUST be saved as an unformatted ASCII (Text Only) flat file (e.g. no tab characters, etc.) before attempting to transfer the file.

SECTION 17
RATE SUBMISSION SPECIAL INSTRUCTIONS

17-1. SUBMISSION INSTRUCTIONS: All electronic rate transmissions submitted in accordance with Sections 8, 9, 11, 12, 13, 14,15, and 16 of this Request and its Special Filing Instructions (SFI) **MUST** be via the rate filing capabilities of TMSS or via the Internet, utilizing the File Transfer Protocol (FTP). Below are the instructions for accessing the FTP.

NOTE: If your company intends to transmit its rate offer(s) via FTP without utilizing the services of a Rate Filing Service Provider (RFSP) or Tariff Publishing Agent (TPA) and your company does not already have an assigned **User ID and Password** under GSA’s Freight Management Program, you will need to notify the Central Zone Office in order to receive a User ID and Password to access the FTP. Requests for a User ID and Password may be emailed or faxed to the attention of Carey DeForest at carey.deforest@gsa.gov, or (816) 823-3656. The response from GSA assigning your company a User ID and Password will either be emailed or faxed, so please be sure to include your company’s email address or facsimile number when submitting your request. Please be aware that it will take several days upon the receipt of your request to process and assign a User ID and Password.

A. **FORMAT REQUIREMENTS:** Electronic format requirements as set out in this Request and its SFI must be strictly adhered to. Submissions received from TSP’s, Rate Filing Service Providers, or Tariff Publishing Agents not conforming to format requirements identified in Sections 8, 9, 11, 12, 13, 14, 15, 16 and 17 will be found unacceptable.

B. FILE PREPARATION:

In order to transfer the file via the FTP, the file must be saved and transmitted as an unformatted ASCII (TEXT ONLY) flat file (i.e. no tab characters, etc.). The file must not have a top, bottom, right, or left margin.

Note: The type of software you will be utilizing will determine what must be done to prepare the file for transmission.

17-2. FILE NAMING CONVENTION:

Implementation of the Transportation Management Services Solution (TMSS) has created the need for the development of a File Naming Convention. This File Naming Convention applies to any initial, new, late, or supplemental rate offer(s) transmitted in accordance with this Request and SFI. Extensions (.FRT) to file names are NOT permitted.

FILE NAME	MAXIMUM POSITIONS	POSITIONS	CONTENTS
Prefix	3	1-3	Must be FRT
TSP’s SCAC	4	1-4	RFSP: If transmitting rates on behalf of a TSP, enter TSP’s SCAC. Do not append any characters if the SCAC assigned to you is less than four (4) positions.
Rate File Number	3	5-8	A running serial number starting with 001
Extension			File Extensions will NOT be supported.

Examples of filenames for SCAC with different number of positions:

File name where assigned SCAC has four positions: FRT**ABCD**001 where ‘ABCD’ is the SCAC

File name where assigned SCAC has three positions: FRT**ABC**001 where ‘ABC’ is the SCAC

File name where assigned SCAC has two positions: FRT**AB**001 where ‘AB’ is the SCAC

The TSP can send one or more files for rate filing. The TSP can send one or more rate types in a single file. It is strongly recommended that the number of files be kept to a minimum by combining multiple rate types. Irrespective of the number of files transmitted a 3-digit file number is required.

Examples of multiple filenames for a SCAC:

TSP transmitting only one file: File Name: FRT**ABCD**001

TSP transmitting two files: First File Name: FRT**ABCD**001, Second File Name: FRT**ABCD**002

TSP transmitting three files: First File Name: FRT**ABCD**001, Second File Name: FRT**ABCD**002, Third File Name: FRT**ABCD**003.

If as a TSP, RFSP, or TPA, you are unsure as to your TSP's SCAC/RFSP Code (up to 4 positions) or TPA code (up to 4 positions) in GSA's Freight Management Program, please contact Carey DeForest at (816) 823-3646 or via e-mail at carey.deforest@gsa.gov, respectively, for verification.

The file naming convention identified above MUST be strictly adhered to. Failure to do so will result in the rate offer(s) not being picked up from your TSP's directory on the FTP and/or automatic rejection of the rate offer(s).

Furthermore, if your company submits multiple rate files on the same day, files named the same will be overwritten; therefore, it is extremely important that files submitted on the same day have different names.

17-3. ACCESSING THE FTP:

GSA is unable to provide specific instructions on how to access the FTP, how to upload a file onto the FTP, how to download a file from the FTP, or how to move around in the FTP due to the fact that accessing and operating within the FTP are dependent upon the type of FTP software utilized by a TSP. Consequently, a TSP will need to contact their FTP provider for assistance. FTP utilities such as WS_FTP95LE are widely used and could serve the purpose, however, GSA does not mandate these products and you are free to choose your own FTP software. Listed below is information GSA can provide. The address to GSA's FTP directory and two different methods (there are others) by which to access a TSP's individual directory in which a TSP's rate file(s) will need to be uploaded.

A. FTP ADDRESS:

Existing user codes/passwords will be carried over from ITMS to TMSS. However, the letters FTP will prefix the new user codes. Example: If your existing user code was ABCD the new user code will be FTPABCD. The password will remain the same.

The FTP server address to be used for transmitting files to TMSS is: 159.142.4.2

B. DIRECTORY ACCESS:

Once you have placed a file within your TSP's directory using FTP, you may verify that your companies file was successfully transmitted. If the file doesn't appear in your directory, you will need to "Upload" the file again. This will only assist you in verifying that your rate offer/file was transferred successfully and WILL NOT verify that the contents of your rate offer/file have been formatted correctly.

17-4. CONFIRMING RATE TRANSMISSIONS:

At the end of each business day during the rate filing period, an automated process will search for rate files from TSPs and process them. An email confirmation acknowledging the receipt and processing of the file will be sent to the TSP's email address OR the RFSP's email address if an RFSP has filed on behalf of the TSP. The email will contain the number of records processed and the number of errors encountered. In order to receive timely notifications on the outcome of file processing it is essential that a correct email address be kept on file. Error files will be generated and placed in the TSP's or RFSP's FTP directory and will be named as FRTSCAC999ERR where SCAC is the SCAC of the TSP (Not the RFSP), 999 is the original file number assigned by the TSP. You need to connect to FTP to download the error file/s, if any. If appropriate, TSP's will receive notification of rate filing deficiencies in accordance with Section 1, Paragraph 1-4.B. of this Request and \SFI.

of the file. The email will contain the number of records processed and the number of errors encountered. If a firm's rate offer is submitted in accordance with this Request and SFI by a Rate Filing Service Provider or a Tariff Publishing Agent, the Rate Filing Service Provider or the Tariff Publishing Agent will be notified of the deficiencies and not the TSP. Corrected rate offers **must be** resubmitted no later than **April 12, 2004**. In those instances where corrections are not received by **April 12, 2004**, rate offers will be considered unacceptable and the firm will not be allowed to re-file.

Rate offers submitted in accordance with the supplemental filing period must be strictly adhered to.

Please note, supplemental filings WILL NOT be accepted for [Section 10](#) Western Distribution Center, French Camp, CA (FAK), [Section 11](#) Western Distribution Center, French Camp, CA (Fire Suppression Support Service Traffic) & [Section 14-2](#) "Hot Shots" & [Section 14-3](#) "Specialized Equipment" for Federal Aviation Administration, Oklahoma City, OK.

1-3. APPLICABILITY OF RATE OFFERS: By submission of a rate offer to GSA for the traffic identified in this RFO and SFI, the offeror agrees that it can and will service all points within each origin state and destination state for which a rate is offered. By submission of a rate offer to GSA for the non-alternating SRO's and alternating SRO's freight traffic

identified in this RFO and SFI, the offeror agrees that it can and will service the identified origin facility(ies) or all points in an identified origin state(s) and all points within each identified destination state or destination city for which a rate is offered.

Failure to comply with paragraph 1-3 above, could temporarily suspend all or part of your rates!

1. Accepted rate offers may be terminated upon determination that a Carrier has failed to satisfactorily respond to a show cause notice; and

2. Accepted rate offers may be terminated by the Government immediately upon the debarment or suspension of the Carrier in accordance with the [Code of Federal Regulations \(CFR\) 41-105-68](#);

B. Upon termination of the rate offer under [1-5.A.1 and/or 2.](#), above, the Carrier shall be paid any sum due the Carrier for services performed under this RFO and SFI to the date of such termination; and in the event of partial termination, shall be paid in accordance with the terms of this rate offer for any services furnished under the portion of the rate offer that is not terminated; provided, however, any such payments shall be without prejudice to any claim which the Government may have against the Carrier and the Government shall have the right to offset any such claims against such payment.

1-6. TERMINATION FOR CONVENIENCE OF THE GOVERNMENT: The Government, by written notice, may terminate all or part of the rate offers accepted in accordance with this RFO and SFI, in whole or in part, when it is in the Government's best interest. If a rate offer(s) is terminated, the Government shall be liable only for payment for services rendered before the effective date of the termination.

1-7. AGENCY/LOCATION SPECIFIC CONTACTS: Questions with regard to specific customer agencies/locations should be directed to the agency's/location's appropriate National Account Manager Office. For information relating to the identification of the National Account Manager Offices, please visit our website at: <http://www.moveit.gsa.gov> and select the link "Contact Us". For customer agencies/locations, you can run a mailing list in TMSS for current customer agencies/locations participating in GSA's Freight Management Program.

1-8. GENERAL CONTACTS: General questions with regard to this RFO and SFI should be directed to Carey DeForest at (816) 823-3646, by facsimile at (816) 823-3656, or by e-mail at carey.deforest@gsa.gov.

SECTION 2 EVALUATION AND ACCEPTANCE

2-1. EVALUATION: All submitted rate offers which have been determined to be acceptable in accordance with this Request for Offers (RFO), Special Filing Instructions (SFI), and the General Services Administration's (GSA) Freight Management Program will be evaluated by the Freight Program Management Office (FPMO) based on price only. Price will be determined by calculating both the price of the line-haul transportation and the price of the accessorial service(s) (Item Numbers identified in the [GSA National Rules Tender 100-D](#) containing rates or charges) requested by the customer agency for each cost comparison requested. Individual agencies may use other methods of evaluation such as prior performance; however, the FPMO will provide accepted rate information according to paragraph [2-2](#), below.

2-2. ACCEPTANCE: Accepted rate offers will be listed in GSA's TMSS on Freight Cost Comparisons for Federal Agencies use, based on price. The listing of firms on individual cost comparisons will be based on the anticipated shipping date, the origin of the shipment, the destination of the shipment, the weight of the shipment, the number of miles between the origin and destination of the shipment, and any accessorial services requested by the customer agency. Firms

with applicable rates for the requested shipment will be listed on the cost comparison in cost ascending order. Please note that in the case of brokers and shippers agents/Intermodal Marketing Companies that the broker's name and/or the shippers agent's/Intermodal Marketing Company's name and not the names of underlying carriers will be identified on the cost comparison. However, when rate information is made available either to a Tariff Publishing Agent or to GSA's Office of Transportation Audits in the absence of a Tariff Publishing Agent, rate information will be submitted in the name of a broker's and/or a shipper agent's/Intermodal Marketing Company's underlying carriers and not in the name of the broker and/or the shipper agent/Intermodal Marketing Company. If the occasion arises when two or more firms have offered the exact same rate offer (both for transportation and the requested accessorial services), then the firms will be listed on the cost comparisons in alphabetical order according to the firms' names.

PLEASE NOTE: GSA and other participating agencies may consider other factors when routing shipments other than just price. As a result, the listing of firms on a cost comparison is for viewing/verification purposes only and does not guarantee any traffic will be awarded.

SECTION 3 LETTER OF INTENT CERTIFICATION

By the submission of a rate offer to the General Services Administration (GSA) in accordance with this Request for Offers (RFO), and Special Filing Instructions (SFI), the submitting firm certifies that:

I have read and will comply with all the provisions contained in this RFO and SFI dated **March 12, 2004**, as well as any supplements, changes, and/or reissues thereto and the GSA Standard Tender of Service (STOS), GSA [General Freight Tender of Service No. 1-F](#), the GSA [National Rules Tender No. 100-D](#), and the GSA [Baseline Rate Publication No. 1000-D](#), all effective **December 4, 2001** as well as any supplements, changes, and/or reissues thereto and I further certify that the company for which rate offers have been submitted has the operating authority and insurance required by [Item 1-6](#) (See Below) and [Section 2](#) of the GSA [General Freight Tender of Service No. 1-F](#).

[Item 1-6](#) of the GSA [General Freight Tender of Service No. 1-F](#) reads as follows:

Common motor carriers or brokers, freight forwarders, rail carriers, shippers agents, or shippers associations shall possess the required carrier or Interstate Commerce Commission (ICC) broker operating authority and maintain cargo as well as public liability insurance as required by Federal, State and local regulatory agencies."

SECTION 4 SUBSTITUTED SERVICE – RAIL FOR MOTOR

If a firm utilizes [Item 1125](#), Substituted Service – Rail for Motor, of the GSA [National Rules Tender No. 100-D](#) for shipments moving under this Request for Offers (RFO) and Special Filing Instructions (SFI), the submission of a rate offer(s) constitutes agreement to the terms and conditions of [Item 1125](#) and that rates submitted include for the proper blocking and bracing by the carrier for Trailer-On-Flat-Car (TOFC) or Road Railer movement to preclude damage to the material.

SECTION 5 TERMS & CONDITIONS OF THE UNIFORM TENDER OF RATES &/OR CHARGES FOR TRANSPORTATION SERVICES

SECTION 6

TERMS AND CONDITIONS FOR BILLS OF LADING ISSUED FOR GOVERNMENT SHIPMENTS

[Section 6](#) of this Request for Offers (RFO) and Special Filing Instructions (SFI) supersedes [Item 1-10](#), “Application of the Terms and Conditions of the Government Bill of Lading” of the Standard Tender of Service (STOS), [General Freight Tender of Service No. 1-F](#). Per this RFO and its SFI, all Government shipments handled pursuant to the STOS will be subject to the terms/conditions contained in [41 CFR §§102-117 and 102-118](#). These terms and conditions have been incorporated into the Optional Form 280 (OF280). Therefore, any shipment moving under an accepted rate offer submitted on an OF280 is automatically subject to the Government’s shipping “terms and conditions.” In accordance with [Section 5](#) of this RFO and SFI, rate offers accepted in accordance with this RFO and SFI are also automatically subject to the Government’s shipping “terms and conditions.” The bill of lading for any such shipment must contain the statement “This is a U.S. Government shipment.” For a complete description of the Government’s shipping terms/conditions, please visit <http://www.gpoaccess.gov/cfr/> search for “[Transportation Management](#)” (41 CFR § 102-117) or “[Transportation Payment and Audit](#)” (41 CFR § 102-118), as appropriate.

SECTION 7

BASIS FOR DETERMINING APPLICABLE DISTANCE/MILEAGE

[Section 7](#) of this Request for Offers (RFO) and its Special Filing Instructions (SFI) supersedes all mileage references in the Standard Tender of Service (STOS), to include the [General Freight Tender of Service No. 1-F](#), the [National Rules Tender No. 100-D](#), and the [Baseline Rate Publication No. 1000-D](#), with regard to determining applicable mileage/distance or Governing Publications. Per this RFO and SFI, auditing of freight shipments identified herein and handled pursuant to the STOS will be based on mileage provided by [ALK Technologies, Inc., 5 digit Zip Code, Version 17 \(coincides with PC*Miler 17\)](#). [ALK Technologies, Inc., 5 digit Zip, Version 17](#) will be used to determine highway mileages for all surface freight shipments between any two locations within the Contiguous United States (CONUS) (i.e., the lower 48 states and the District of Columbia). Exceptions to the use of ALK Technologies, Inc., mileage are domestic non-express small package shipments. The TSP industry will be notified of any future Version updates. Below is the basis to be used when constructing mileage for shipments moving within the contiguous United States:

GENERAL: borders closed, shortest mileage, ferry on.

OW/OD: borders closed, practical miles, ferry on.

For a full description of Default Settings, please refer to : <http://dtod-mtmc.belvoir.army.mil>. Once there, follow the links “Industry” and then “PC*Miler Default Settings.”

SECTION 9
IDENTIFICATION NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC FOR THE
SUBMISSION OF UNITED STATES POSTAL SERVICE RATE OFFERS

9-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO): Listed below is the United States Postal Service (USPS) location for which the General Services Administration (GSA) is continuing the two-year non-alternating SRO rate offers. For the USPS traffic identified below, any approved firm may submit a rate offer for the identified Standing Route Order (SRO) traffic by the due dates identified in [Paragraph 1-2.A-E](#). Rates may be, but are not required to be, submitted for all destination requested. Those firms that want to submit rate offers for points outside CONUS should submit a paper rate offer(s) directly to the USPS. (Please refer to [Section 16](#) for specific formatting instructions).

All rate offers **MUST** be submitted as a B2 rate record. (Please refer to [Section 16](#).) **NO** truck load rate offers will be accepted.

IDENTIFICATION OF **TWO-YEAR**, NON-ALTERNATING AGENCY CODE: Accepted rate offers will automatically expire **April 30, 2005**.

Two Year, Non-Alternating USPS SROs				
Origin	Destinations	Agency Code	Commodity	Types of Rates Requested
Schwab Safe Co., Cannelton, IN 47520	All Points in CONUS including Intrastate	USPCN	Safes	Less Than Truckload

9-2. EVALUATION AND CONSIDERATION OF LESS THAN TRUCKLOAD (LTL) TRAFFIC:

A. TRAFFIC/RATES: Carriers can assume that shipments will average 700 pounds per shipment. The USPS will allow carriers to provide through rates for interlined shipments for points within a state that the carrier does not service directly; however, the origin carrier will be accountable for the quality of service for the interlined shipments and will be required to make any interline settlements. Delivering interline carriers will not be allowed to collect the line-haul freight charges.

B. EVALUATION: In all instances the USPS reserves the right to divide traffic among several carriers if a single carrier is unable to provide the desired service. Please provide us your best rate for the states you are interested in serving and you will be given preference for serving all 48 states plus the District of Columbia but you will not be excluded if you do not serve the entire U.S. However if you bid on a state, you or an interline carrier must serve all points in that state at the rate provided. This means for some origin points the USPS will take the option to use more than one carrier to service "All Points". Evaluation of carrier service will be the sole responsibility of the USPS. In assigning traffic, the USPS will consider the following:

1. Past carrier performance;
2. Availability of carrier provided, personal computer-based, bill of lading preparation software;
3. Ability to accept shipment information and submit freight invoices via electronic data interchange;
4. Level of rates offered.

9-3. USPS CONTACT: Questions concerning USPS freight, please call (202) 268-2123. For USPS past due freight bills or payment processing questions, please call (215) 931-5152.

SECTION 10
IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC FOR THE
WESTERN DISTRIBUTION CENTER FRENCH CAMP, CA

11-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC: The Non-Alternating SRO for the Western Distribution Center (WDC) French Camp, CA Freight-all- Kinds (FAK) has been Reserved due to a 90 day rate extension. The WDC has been testing new automation since August of 2003. This automation tracks the center's inventory while preparing shipping documents. The WDC is experiencing difficulty in the generation of accurate shipping documents for transportation of cargo. To allow the WDC time to refine this process, reconcile shipping discrepancies, and regain the efficiencies, GSA has extended the WDC rates set to expire on April 30, 2004. The extension is for a 90 day period and will expire on July 29, 2004. Prior to the extended expiration date, GSA will be requesting new rates for the WDC for the effective dates of July 30, 2004 through April 30, 2005.

Please note that separate rate offers **MUST** be submitted for each Destination Service Area under the WDC (Please refer to [Section 16](#)). If the origin/destination is a particular city or cities, the accepted rate offer will only be applicable to the identified city or cities and not the entire state in which the city or cities are located. All rate offers **MUST** be submitted as a cents-per-mile with a minimum charge per vehicle used – a C3 rate record **MUST** be used (Please refer to [Section 16](#). **NO** less-than-truckload rate offers will be accepted.

12-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC: Listed below are the Federal civilian agencies/locations for which the General Services Administration (GSA) is requesting **non-alternating** SRO rate offers. Please note that information provided below with regard to “Estimated Annual Tonnage and/or # of Shipments Annually” is provided as an estimate of the traffic volume and shall not be interpreted as a guarantee to the firm that traffic will amount to these quantities. The Government makes no guarantee that these quantities or any quantities will be shipped. Failure of estimates to materialize will not constitute a basis for rate adjustments. Please note a **SEPARATE** rate offer **MUST** be submitted for **EACH** non-alternating SRO identified for which a firm intends to submit a rate offer. If the origin/destination is a particular city or cities, the accepted rate offer will only be applicable to the identified city or cities and not the entire state in which the city or cities are located. SECTION 13
IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDERS (SRO) TRAFFIC FOR
THE SUBMISSION OF UNITED STATES MINT RATE OFFERS
(MINOR COIN & PALLET RETURN)

13-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC: Listed below is the United States Mint locations for which the General Services Administration (GSA) is requesting non-alternating SRO rate offers. Rates will only be accepted for the origins/destinations identified below. Rates may be, but are not required to be, submitted for all origins/destinations requested. (Please refer to [Section 16](#) for complete formatting instructions.)

13-2. GENERAL: Traffic to be included under this RFO and its SFI will be Minor coin (cents and nickels) moving via closed van (No Refrigerated Trailers) for truckload (TL) (20,000 pounds to 44,840 pounds) shipments. TL rate offers will be applicable only to interstate shipments moving in the Contiguous United States (CONUS) and the identified intrastate shipments within CONUS. Non-Alternating rate offers will be accepted for the following two U.S. Mint facilities:

1. The United States Mint, **Denver, CO**; and
2. The United States Mint, **Philadelphia, PA**

A. MINOR COIN: Rate offers covering shipments of minor coins shall be single factor rates, i.e., with complete pick up and delivery charges, including transfer of lading, if required, published as an all-inclusive **TL cents per mile rate** with a **Minimum TL Charge**. All normal and reasonable charges, including but not limited to the furnishing of pallet-handling or power unloading equipment and extra labor, if normally required as stated in the Enclosure 1 to this RFO and its SFI must also be included in the single factor rate. Only those charges for services which are not normally or routinely required, such as costs for overtime delivery or the furnishing of special unloading equipment (e.g., crane) in extraordinary circumstances, may be shown as separate.

The following provisions are required by the government in rate offers that provide for the transportation of the United States minor coin (cents and nickels) in closed bags, in bins, or on pallets as property of, or transported at the expense of, the United States Government. By submission of a rate offer(s) to the General Services Administration (GSA) in accordance with this Request for Offers (RFO) and its Special Filing Instructions (SFI), the submitting Transportation Service Provider (TSP) agrees to the incorporation of the following specifications in all accepted rate offers:

“GSA/United States Mint Specifications (minor and foreign coin) dated July 1, 1984, amended September 1, 1991, is by reference made a part of this rate offer.”

If the “Uniform Tender of Rates and/or Charges for Transportation Services” Optional Form 280 is used, this statement will be included in Block 17B entitled “Description of Service and Governing Publication.”

13-3. EQUIPMENT REQUIRED: Shipments shall be made in fully enclosed and secured vehicles (use of refrigerated trailers are prohibited). The Government does not require that seals be applied, nor is exclusive use of the vehicle required unless such exclusive use is specifically authorized by appropriate notation on the bill of lading. However, TSPs are encouraged to apply seals for internal security monitoring.

13-4. CONTROL AND SAFEGUARDING DURING TRANSIT: Shipments shall move without undue delay, and shall remain under constant surveillance from origin to destination including interchange with connecting carrier(s). Shipments shall be deemed to be under constant surveillance if, while the vehicle is not in motion, doors giving access to the cargo are under actual observation by responsible TSP personnel. Vehicles transporting shipments may be held over during transit at TSP terminals with appropriate minimal security (e.g. closed with night watchman, fenced in with electronic surveillance, operating with supervisory knowledge of trailer’s contents). Constant observation of the vehicle is not

required if the power unit is disconnected and the trailer is parked in such a manner that doors giving access to the cargo cannot be opened without movement of the trailer and frequent visual or electronic surveillance is maintained.

13-5. FEDERAL RESERVE BANK AND MINT SECURITY PROVISIONS: All U.S. Mint delivery personnel shall have his/her reliability established through a reasonably comprehensive background check by his/her respective TSP, including a fingerprint report from a law enforcement agency. All Mint delivery personnel shall be provided with photo identification credentials by the TSP. Prior to the date of any shipment, the contractor (TSP) shall make arrangements with the appropriate U.S. Mint Police representatives at shipping locations for necessary security clearance of his/her personnel.

Due to increased security at the Federal Reserve Banks all TSP's wishing to carry minor coin for the United States Mint must fax the following information to the consignee 24 hours in advance of arrival:

- Name of TSP
- Name of driver
- Tractor and Trailer number(s) along with license plate number and state of issue

****All delivery personnel must have TSP issued ID cards with their photo affixed to them****

13-6. REPORTING OF DELAYS AND/OR PROBLEMS: TSPs shall establish adequate controls over coin movements through appropriate notification to its relay stations and terminals to permit prompt telephone reports of delays or difficulties involving these shipments. All delays and difficulties shall be reported immediately to the United States Mint facility originating the shipment. In addition, any delay, such as theft, vehicular accident, or any other problem resulting in a delay of 24 hours or more shall be reported promptly to the United States Mint, Transportation Division, 801 9th Street, Washington, DC 20220 (tel. (202) 354-7450). After the TSP has actual delivery with the consignee, any delay in performing such delivery shall be reported immediately to the consignee. Except in cases where actual delivery has been scheduled, the TSP is not required to notify the consignee in the event of difficulties and/or delay.

13-7. TIME OF PICK UP AND DELIVERY: The TSP shall coordinate the establishment of acceptable pick up and delivery hours with the shipping and receiving facilities. Pick up and delivery at banks of the Federal Reserve System and facilities of the Mint shall be made during regular working hours unless other arrangements have been made. All TSPs that utilize the services of a sub-contracted carrier or truck's that do not display the signage of the contracted carrier, must fax at least 24 hours in advance the actual name of the sub-contracted carrier to the appropriate Mint originating facility (see 13-18). All drivers must receive clearance, in advance, from the United States Mint Police before entry into the Mint facility or onto Mint property.

13-8. LOADING AND UNLOADING:

A. PALLETIZED SHIPMENTS: Shipment of coin to be transported on pallets will be loaded in the TSP's conveyance by the Mint facility originating the shipment. The TSP will ensure that stacking of coin on pallets and placement of pallets within the vehicle(s) is suitable for transportation. The TSP shall perform all blocking and bracing required to secure the load.

B. DELIVERY: The delivering TSP will unload palletized and non-palletized shipments in accordance with the directions indicated in Enclosure 1 in accordance with the directions of the consignee. Normal receiving conditions and delivery requirements for each consignee are contained in Enclosure 1. Major and repetitive differences in actual delivery requirements from those stated in Enclosure 1 should be reported in writing to the General Services Administration. Deliveries of coin shipments are made under secure conditions, which routinely involve opening of secured area and arranging for a guard to be present. Consignees shall be notified prior to tender of delivery so that these arrangements can be scheduled. Should delivery be attempted without prior notice to consignee, any loss of time or redelivery will be at no expense to the government.

13-9. GOVERNMENT FURNISHED EQUIPMENT: The TSP shall carefully examine any Mint or Federal Reserve Bank furnished fixtures or equipment and become familiar with their condition and manner of operation prior to use. If the TSP claims defect in any such fixture or equipment, written notice shall be given to the United States Mint,

Transportation Division, 801 9th Street, Washington, DC 20220. Failure to give such notice shall be construed as a waiver of such condition or defect. The TSP agrees to be solely liable for all such damages that may result from its use of Mint or Federal Reserve Bank furnished equipment.

13-10. RATES AND CHARGES:

A. MINOR COIN: Rate offers covering shipments of minor coins shall be single factor rates, i.e., with complete pick up and delivery charges, including transfer of lading, if required, published as an all-inclusive truckload cents per mile rate offer with a minimum truckload charge. **All normal and reasonable charges, including but not limited to the furnishing of pallet-handling or power unloading equipment and extra labor, if normally required as stated in Enclosure 1 must also be included in the single factor rate.** Only those charges for services which are not normally or routinely required, such as costs for overtime delivery or the furnishing of special unloading equipment (e.g., crane) in extraordinary circumstances, may be shown as separate.

The appropriate Interstate Commerce Commission or State regulatory authority number(s) shall be included on the tender of rates and charges. If the shipment is not regulated, this exemption shall be shown on the tender.

The TSP will secure at its expense the necessary permits, franchises, licenses, or other authorities for effecting shipments.

13-13. VALUATION AND LIABILITY FOR LOSS AND DAMAGE:

A. MINOR COIN: Face value of United States Minor Coin (cents and nickels) is up to \$76,000 per truckload of cents, and \$180,000 per truckload of nickels. Total face value of the shipment shall be determined by the U.S. Mint, and shall be documented on the face of the accompanying Bill of Lading, and will normally not exceed \$180,000 per truckload.

B. LIABILITY OF TSP: The origin TSP accepts full responsibility for the face value of United States minor coin and replacement costs of pallets tendered to it, from acceptance of the coin at origin to delivery at final destination, regardless of the TSPs participating in the movement, and agrees to indemnify the Government at these respective values in the event of loss or damage. If for any reason a shipment of United States minor coin should exceed \$180,000 value per truckload, the TSP is not relieved of responsibility for additional valuation. Should the value exceed \$180,000 per truckload, the TSP will be so advised no later than time of request for pick up of the shipment.

13-14. INSURANCE REQUIREMENTS AND EVIDENCE OF INSURANCE:

A. GENERAL: TSPs should furnish a copy of the following provisions to their insurance company,

agent, or broker for assistance in preparing acceptable policies for the movement of minor coins. Should the coin insurance coverage of an otherwise acceptable TSP be cancelled, expire, or lapse for any reason, the TSP will not be used for the movement of coin until acceptable evidence of reinstated coverage is furnished to the U.S. Mint.

All insurance shall be written with companies who are licensed and bonded, and all policies shall include such provisions as may be required by GSA and the U.S. Mint to cover the assumption of risk by the TSP. Each policy shall include a provision that, in the event of loss and damage, the claim will be settled on the basis of the face value of the United States minor coin and the replacement value pallets. Any payment for loss or damage shall be made to the U.S. Mint, U.S. Treasury Department, 801 9th Street NW, Washington, DC 20220, unless otherwise directed by an authorized official of the U.S. Mint. Each insurance policy shall include a provision to furnish GSA a ten (10) days notice of cancellation of the policy. Evidence of renewal of any policy shall be furnished GSA not less than (10) days prior to the expiration of the existing coverage.

If the Insurance coverage required herein cannot be provided without excluding coverage for infidelity or dishonesty of employees, the insurance will not be acceptable for the movement of coin unless such exclusion in the policy is supplemented and covered by a fidelity bond covering infidelity and dishonesty of TSP's employees in the amount of \$225,000. In such case the fidelity bond shall include the same ten (10) day cancellation notice to GSA as required in the insurance policy and a complete duplicate countersigned copy of the fidelity bond so endorsed shall be furnished GSA.

C. EVIDENCE OF INSURANCE: The only acceptable evidence of insurance coverage for minor coin shall be either a complete duplicate countersigned copy of the original policy or policies (primary and excess coverage), including all endorsements thereto, endorsed to include the required "Coin Coverage Endorsement," or, in lieu thereof, a manually countersigned "Certificate of Insurance" complete and sufficient in all details to reflect the actual coverage under the policy or policies, and including the "Coin Coverage Endorsement" and any other endorsements which affect said coverage. A separate policy or Certificate of Insurance covering only minor and/or foreign coin will be acceptable. All references to rates and premiums may be deleted from copies of policies furnished. SECTION 17
RATE SUBMISSION SPECIAL INSTRUCTIONS

17-1. SUBMISSION INSTRUCTIONS: All electronic rate transmissions submitted in accordance with Sections 8, 9, 11, 12, 13, 14,15, and 16 of this Request and its Special Filing Instructions (SFI) **MUST** be via the rate filing capabilities of TMSS or via the Internet, utilizing the File Transfer Protocol (FTP). Below are the instructions for accessing the FTP.

NOTE: If your company intends to transmit its rate offer(s) via FTP without utilizing the services of a Rate Filing Service Provider (RFSP) or Tariff Publishing Agent (TPA) and your company does not already have an assigned **User ID and Password** under GSA’s Freight Management Program, you will need to notify the Central Zone Office in order to receive a User ID and Password to access the FTP. Requests for a User ID and Password may be emailed or faxed to the attention of Carey DeForest at carey.deforest@gsa.gov, or (816) 823-3656. The response from GSA assigning your company a User ID and Password will either be emailed or faxed, so please be sure to include your company’s email address or facsimile number when submitting your request. Please be aware that it will take several days upon the receipt of your request to process and assign a User ID and Password.

A. **FORMAT REQUIREMENTS:** Electronic format requirements as set out in this Request and its SFI must be strictly adhered to. Submissions received from TSP’s, Rate Filing Service Providers, or Tariff Publishing Agents not conforming to format requirements identified in Sections 8, 9, 11, 12, 13, 14, 15, 16 and 17 will be found unacceptable.

B. FILE PREPARATION:

In order to transfer the file via the FTP, the file must be saved and transmitted as an unformatted ASCII (TEXT ONLY) flat file (i.e. no tab characters, etc.). The file must not have a top, bottom, right, or left margin.

Note: The type of software you will be utilizing will determine what must be done to prepare the file for transmission.

17-2. FILE NAMING CONVENTION:

Implementation of the Transportation Management Services Solution (TMSS) has created the need for the development of a File Naming Convention. This File Naming Convention applies to any initial, new, late, or supplemental rate offer(s) transmitted in accordance with this Request and SFI. Extensions (.FRT) to file names are NOT permitted.

FILE NAME	MAXIMUM POSITIONS	POSITIONS	CONTENTS
Prefix	3	1-3	Must be FRT
TSP’s SCAC	4	1-4	RFSP: If transmitting rates on behalf of a TSP, enter TSP’s SCAC. Do not append any characters if the SCAC assigned to you is less than four (4) positions.
Rate File Number	3	5-8	A running serial number starting with 001
Extension			File Extensions will NOT be supported.

Examples of filenames for SCAC with different number of positions:

File name where assigned SCAC has four positions: FRT**ABCD**001 where ‘ABCD’ is the SCAC

File name where assigned SCAC has three positions: FRT**ABC**001 where ‘ABC’ is the SCAC

File name where assigned SCAC has two positions: FRT**AB**001 where ‘AB’ is the SCAC

The TSP can send one or more files for rate filing. The TSP can send one or more rate types in a single file. It is strongly recommended that the number of files be kept to a minimum by combining multiple rate types. Irrespective of the number of files transmitted a 3-digit file number is required.

Examples of multiple filenames for a SCAC:

TSP transmitting only one file: File Name: FRT**ABCD**001

TSP transmitting two files: First File Name: FRT**ABCD**001, Second File Name: FRT**ABCD**002

TSP transmitting three files: First File Name: FRT**ABCD**001, Second File Name: FRT**ABCD**002, Third File Name: FRT**ABCD**003.

If as a TSP, RFSP, or TPA, you are unsure as to your TSP's SCAC/RFSP Code (up to 4 positions) or TPA code (up to 4 positions) in GSA's Freight Management Program, please contact Carey DeForest at (816) 823-3646 or via e-mail at carey.deforest@gsa.gov, respectively, for verification.

The file naming convention identified above MUST be strictly adhered to. Failure to do so will result in the rate offer(s) not being picked up from your TSP's directory on the FTP and/or automatic rejection of the rate offer(s).

Furthermore, if your company submits multiple rate files on the same day, files named the same will be overwritten; therefore, it is extremely important that files submitted on the same day have different names.

17-3. ACCESSING THE FTP:

GSA is unable to provide specific instructions on how to access the FTP, how to upload a file onto the FTP, how to download a file from the FTP, or how to move around in the FTP due to the fact that accessing and operating within the FTP are dependent upon the type of FTP software utilized by a TSP. Consequently, a TSP will need to contact their FTP provider for assistance. FTP utilities such as WS_FTP95LE are widely used and could serve the purpose, however, GSA does not mandate these products and you are free to choose your own FTP software. Listed below is information GSA can provide. The address to GSA's FTP directory and two different methods (there are others) by which to access a TSP's individual directory in which a TSP's rate file(s) will need to be uploaded.

A. FTP ADDRESS:

Existing user codes/passwords will be carried over from ITMS to TMSS. However, the letters FTP will prefix the new user codes. Example: If your existing user code was ABCD the new user code will be FTPABCD. The password will remain the same.

The FTP server address to be used for transmitting files to TMSS is: 159.142.4.2

B. DIRECTORY ACCESS:

Once you have placed a file within your TSP's directory using FTP, you may verify that your companies file was successfully transmitted. If the file doesn't appear in your directory, you will need to "Upload" the file again. This will only assist you in verifying that your rate offer/file was transferred successfully and WILL NOT verify that the contents of your rate offer/file have been formatted correctly.

17-4. CONFIRMING RATE TRANSMISSIONS:

At the end of each business day during the rate filing period, an automated process will search for rate files from TSPs and process them. An email confirmation acknowledging the receipt and processing of the file will be sent to the TSP's email address OR the RFSP's email address if an RFSP has filed on behalf of the TSP. The email will contain the number of records processed and the number of errors encountered. In order to receive timely notifications on the outcome of file processing it is essential that a correct email address be kept on file. Error files will be generated and placed in the TSP's or RFSP's FTP directory and will be named as FRTSCAC999ERR where SCAC is the SCAC of the TSP (Not the RFSP), 999 is the original file number assigned by the TSP. You need to connect to FTP to download the error file/s, if any. If appropriate, TSP's will receive notification of rate filing deficiencies in accordance with Section 1, Paragraph 1-4.B. of this Request and \SFI.

9-2. EVALUATION AND CONSIDERATION OF LESS THAN TRUCKLOAD (LTL) TRAFFIC:

A. **TRAFFIC/RATES:** Carriers can assume that shipments will average 700 pounds per shipment. The USPS will allow carriers to provide through rates for interlined shipments for points within a state that the carrier does not service directly; however, the origin carrier will be accountable for the quality of service for the interlined shipments and will be required to make any interline settlements. Delivering interline carriers will not be allowed to collect the line-haul freight charges.

B. **EVALUATION:** In all instances the USPS reserves the right to move traffic on internal sources or divide traffic among several carriers if a single carrier is unable to provide the desired service. Please provide us your best rate for the states you are interested in serving and you will be given preference for serving all 48 states plus the District of Columbia but you will not be excluded if you do not serve the entire U.S. However if you bid on a state, you or an interline carrier must serve all points in that state at the rate provided. This means for some origin points the USPS will take the option to use more than one carrier to service "All Points". Evaluation of carrier service will be the sole responsibility of the USPS. In assigning traffic, the USPS will consider the following:

1. Past carrier performance;
2. Availability of carrier provided, personal computer-based, bill of lading preparation software;
3. Ability to accept shipment information and submit freight invoices via electronic data interchange;
4. Level of rates offered.

9-3. **USPS CONTACT:** Questions concerning USPS freight, please call (202) 268-2123. For USPS past due freight bills or payment processing questions, please call (215) 931-5152.

AMENDED SECTION 13
IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDERS (SRO) TRAFFIC FOR
THE SUBMISSION OF UNITED STATES MINT RATE OFFERS
(MINOR COIN)

13-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC: Listed below is the United States Mint locations for which the General Services Administration (GSA) is requesting non-alternating SRO rate offers. Rates will only be accepted for the origins/destinations identified below. Rates may be, but are not required to be, submitted for all origins/destinations requested. (Please refer to [Section 16](#) for complete formatting instructions.)

13-2. GENERAL: Traffic to be included under this RFO and its SFI will be Minor coin (cents and nickels) moving via closed van (No Refrigerated Trailers) for truckload (TL) (20,000 pounds to 44,840 pounds) shipments. TL rate offers will be applicable only to interstate shipments moving in the Contiguous United States (CONUS) and the identified intrastate shipments within CONUS. Non-Alternating rate offers will be accepted for the following two U.S. Mint facilities:

1. The United States Mint, **Denver, CO**; and
2. The United States Mint, **Philadelphia, PA**

A. MINOR COIN: Rate offers covering shipments of minor coins shall be single factor rates, i.e., with complete pick up and delivery charges, including transfer of lading, if required, published as an all-inclusive **TL cents per mile rate** with a **Minimum TL Charge**. All normal and reasonable charges, including but not limited to the furnishing of pallet-handling or power unloading equipment and extra labor, if normally required as stated in the Enclosure 1 to this RFO and its SFI must also be included in the single factor rate. Only those charges for services which are not normally or routinely required, such as costs for overtime delivery or the furnishing of special unloading equipment (e.g., crane) in extraordinary circumstances, may be shown as separate.

The following provisions are required by the government in rate offers that provide for the transportation of the United States minor coin (cents and nickels) in closed bags, in bins, or on pallets as property of, or transported at the expense of, the United States Government. By submission of a rate offer(s) to the General Services Administration (GSA) in accordance with this Request for Offers (RFO) and its Special Filing Instructions (SFI), the submitting Transportation Service Provider (TSP) agrees to the incorporation of the following specifications in all accepted rate offers:

“GSA/United States Mint Specifications (minor and foreign coin) dated July 1, 1984, amended September 1, 1991, is by reference made a part of this rate offer.”

If the “Uniform Tender of Rates and/or Charges for Transportation Services” Optional Form 280 is used, this statement will be included in Block 17B entitled “Description of Service and Governing Publication.”

13-3. EQUIPMENT REQUIRED: Shipments shall be made in fully enclosed and secured vehicles (use of refrigerated trailers are prohibited). The Government does not require that seals be applied, nor is exclusive use of the vehicle required unless such exclusive use is specifically authorized by appropriate notation on the bill of lading. However, TSPs are encouraged to apply seals for internal security monitoring.

13-4. CONTROL AND SAFEGUARDING DURING TRANSIT: Shipments shall move without undue delay, and shall remain under constant surveillance from origin to destination including interchange with connecting carrier(s). Shipments shall be deemed to be under constant surveillance if, while the vehicle is not in motion, doors giving access to the cargo are under actual observation by responsible TSP personnel. Vehicles transporting shipments may be held over during transit at TSP terminals with appropriate minimal security (e.g. closed with night watchman, fenced in with electronic
