Sudan – Complex Emergency

Situation Report #6, Fiscal Year (FY) 2007

December 15, 2006

Note: The last situation report was dated December 1, 2006.

BACKGROUND

In 2006, Sudan continues to cope with the effects of conflict, displacement, and insecurity. The formation of the joint Government of National Unity (GNU) was a requirement of the Comprehensive Peace Agreement (CPA) that the former Government of Sudan and the Sudan People’s Liberation Movement (SPLM) signed in January 2005, officially ending Africa’s longest running civil war. During the 21-year conflict, fighting, famine, and disease killed more than 2 million people, forced an estimated 600,000 people to seek refuge in neighboring countries, and displaced 4 million people within Sudan—the largest internally displaced person (IDP) population in the world. The U.N. estimated that hundreds of thousands of displaced persons returned to Southern Sudan during 2005 and 2006, taxing scarce resources and weak infrastructure.

A separate conflict in the western region of Darfur entered its fourth year, despite a peace agreement between the GNU and one faction of the Sudan Liberation Army (SLA), signed in May 2006. Fighting among armed opposition group factions, Sudanese Armed Forces (SAF), and militias has persisted in 2006, displacing hundreds of thousands of civilians and preventing the return of others. The complex emergency in Darfur has affected approximately 4 million people, including 2 million IDPs, and approximately 234,000 refugees in eastern Chad. In eastern Sudan, the GNU and the Eastern Front opposition group signed a peace agreement on October 14, 2006, aiming to end the low-level violence and prevent tensions from erupting into widespread conflict.

The U.S. Government (USG) is the leading international donor to Sudan and has contributed more than \$2 billion for humanitarian programs in Sudan and eastern Chad since FY 2004. The USG continues to lead the international effort to support implementation of the CPA, while simultaneously providing for the humanitarian needs of conflict-affected populations throughout the country.

NUMBERS AT A GLANCE		SOURCE
IDPs in Sudan	Total: 6,200,000 From Southern Sudan: 3.7 million In Darfur: 2 million	UNHCR ¹ —November 2005 OCHA ² —November 2006 OCHA—October 2006
Sudanese Refugees	Total: 234,000 In Chad	UNHCR—November 2006
Sudanese Refugees	Total: 350,000 In Uganda, Ethiopia, Democratic Republic of the Congo (DRC), Kenya, Central African Republic, Egypt, and Eritrea	UNHCR—November 2006
Refugees in Sudan	Total: 170,000 From Eritrea, Ethiopia, Uganda, DRC, and others	UNHCR—November 2006

Total FY 2007 USAID Humanitarian Assistance to Sudan and Eastern Chad.....\$213,349,600³
Total FY 2007 USG Humanitarian Assistance to Sudan and Eastern Chad.....\$213,349,600
Total FY 2006 and FY 2007 USG Humanitarian Assistance to Sudan and Eastern Chad\$989,714,816

CURRENT SITUATION IN DARFUR

El Fasher and Kutum Evacuations. On December 5, the U.N. relocated 135 non-essential U.N. and non-governmental organization (NGO) workers from El Fasher, North Darfur, to Khartoum. The evacuation followed a confrontation between members of Arab militias and the SLA faction led by Minni Minawi in the town’s livestock market on December 4. Staff members from five USAID NGO partners were among those relocated. As of December 15, most humanitarians have

returned to El Fasher, according to USAID staff. Despite the December 5 relocation, most USAID programs in El Fasher continued to operate, primarily with national staff. However, humanitarian programs in Zam Zam camp, south of El Fasher, are suspended following the carjacking of an NGO partner vehicle inside the camp on December 14.

¹ Office of the U.N. High Commissioner for Refugees (UNHCR)

² U.N. Office for the Coordination of Humanitarian Affairs (OCHA)

³ Humanitarian assistance to date in FY 2007 represents food aid contributions. Please see the funding chart at the end of this report for details.

On December 8, two USAID partners relocated staff from Kutum, North Darfur, to El Fasher and Khartoum, after armed men fired on a humanitarian agency guesthouse in Kutum town on the evening of December 7. USAID-funded nutrition, health, and water, sanitation, and hygiene programs serve more than 100,000 people in Kutum town and two nearby IDP camps. Despite the reduction in staff, programs in Kutum also continue to operate.

Humanitarian Staff Evacuate Ed Daein, South Darfur. Following increasing insecurity in Ed Daein locality and town, 30 humanitarian staff evacuated Ed Daein on December 9. Remaining agencies are operating only with essential staff, while some agencies have withdrawn entirely from Ed Daein. USAID's three NGO partners in Ed Daein provide health, food security, agriculture, and water, sanitation, and hygiene services to approximately 160,000 conflict-affected individuals in Ed Daein locality. In addition, the U.N. World Food Program (WFP) has reduced staff in Ed Daein.

Attacks on Vehicles Affect USAID Partners. On December 12, the U.N. reported that 10 to 15 vehicles were stolen from aid agencies in Darfur during the previous week and expressed concern that the continuation of this trend could further constrain NGO operations. Since December 7, attacks on vehicles have affected six USAID partners. The most serious incident occurred on December 9, when unidentified armed men attacked a commercial truck near Sirba, West Darfur. The truck was traveling from El Geneina, West Darfur, to Sirba to deliver a one-month supply of medicine for USAID-supported health clinics that serve more than 40,000 people. According to the African Union Mission in Sudan, 22 people died and 10 others were injured. On December 10, armed men on camels hijacked two vehicles belonging to another USAID NGO partner on the road between Muhajeriya and Seleah, South Darfur. As a result, the organization has suspended travel on this road, affecting the NGO's water projects and IDP programs.

Attack on NGO Compound in Khor Abeche, South Darfur. On December 7, unidentified assailants entered the compound of a USAID NGO partner in Khor Abeche. The assailants stole three vehicles and beat 8 of the 13 staff members present. The organization's food security, agriculture, health, nutrition, and water, sanitation, and hygiene programs benefit approximately 35,000 people in the area.

Humanitarian Assessment in South Darfur. From November 30 to December 2, a USAID team, led by USAID's Office of U.S. Foreign Disaster Assistance (USAID/OFDA) Deputy Director, traveled to Nyala, South Darfur, to assess the current status of the humanitarian response. The team visited Otash, Kalma, and Gereida IDP camps to observe USAID-funded programs. The team concluded that the Darfur humanitarian response will remain in an emergency

phase during FY 2007 and that insecurity will continue to prevent the return of IDPs and refugees to their areas of origin.

Food Assistance. During November, WFP distributed rations to more than 2.6 million individuals, reaching 95 percent of targeted beneficiaries. However, due to persistent insecurity, WFP was unable to reach approximately 102,000 people in Darfur—63,000 in North Darfur and 39,000 in South Darfur. Insecurity also prevented distributions to approximately 275,000 beneficiaries in October. In November, WFP distributed food in volatile parts of Darfur during a brief period of relative security using pre-positioned commodities.

Income-Generation Workshops in Dreige IDP Camp. On November 28, USAID's Office of Transition Initiatives (USAID/OTI) staff visited Dreige IDP camp, near Nyala, South Darfur, to observe USAID/OTI-funded program activities. In the camp, a local organization is implementing a series of four workshops, which began in November, to train camp residents on market analysis, cost benefit analysis, marketing, and accounting. The workshops, funded through the U.S. Secretary of State's Initiative to Combat Violence against Women, are part of a pilot project aiming to reduce violence against women by increasing women's access to income-generating opportunities. Participants are primarily internally displaced women who are often exposed to the threat of violence while collecting firewood on the outskirts of IDP camps, as well as young men who are farmers and market vendors.

Aid in Eastern Chad. Insecurity in the towns of Abeche, Biltine, and Guereda in eastern Chad continues to disrupt the delivery of humanitarian aid to Chadian IDPs and Sudanese refugees, according to the U.N. In the last two weeks, Chadian armed opposition groups have briefly occupied several towns in eastern Chad. A USAID partner in Guereda reports that as a result of ongoing instability, aid workers continue to evacuate the town. On December 5, WFP announced the suspension of all WFP non-emergency activities in eastern Chad. Additionally, the U.N. reported that insecurity is also hampering U.N. World Health Organization (WHO) operations.

CURRENT SITUATION IN NON-DARFUR SUDAN

Health in Malakal, Upper Nile State. On December 12, a humanitarian team returned to Malakal to assess the situation following the fighting involving the Sudan People's Liberation Army (SPLA), SAF, and pro-SAF militia during the week of November 27. The team reported that the situation in Malakal town had returned to normal and that the current humanitarian situation remained unchanged despite the fighting. NGOs and U.N. agencies plan to respond to suspected cholera cases in Malakal. USAID partner GOAL will identify potential cholera cases, provide oral re-hydration, and promote health education. USAID partner Adventist Development and Relief Agency (ADRA) plans to focus

Malakal cash-for-work programs to assist people affected by the recent fighting. Other organizations plan to build emergency water treatment systems.

Food Security. In November, the USAID-funded Famine Early Warning Systems Network (FEWS NET) reported that despite food losses caused by insecurity, flooding, and dry spells, the 2006 agricultural season in Southern Sudan was an overall success. The main agricultural season of the western and eastern flood plains of the Nile and Sobat rivers ended in September. According to FEWS NET, although the 2006 harvest performed better than the 2005 harvest, food security worsened in many areas. The deterioration in food security is due to a combination of population returns and insecurity, particularly in and around Juba, Central Equatoria State, and Malakal.

USG HUMANITARIAN ASSISTANCE

On October 16, 2006, U.S. Chargé d'Affaires Cameron R. Hume renewed the Sudan disaster declaration for FY 2007. The U.S. Mission in Sudan has declared disasters due to the complex emergency on an annual basis since 1987.

In FY 2006, USAID/OFDA contributed more than \$177 million in Sudan and eastern Chad to provide a full range of emergency humanitarian interventions, reduce conflict, and improve local capacity to reintegrate IDPs returning to their home communities. USAID/OFDA awarded more than \$69 million to 28 NGO and U.N. partners for emergency programs in non-Darfur Sudan in the sectors of health; food security and agriculture; water sanitation, and hygiene; income generation; nutrition; protection; capacity building; and coordination. In Darfur, USAID/OFDA provided more than \$104 million in FY 2006 to 28 NGO and U.N. partners for multi-sector interventions to assist IDPs and vulnerable populations. USAID/OFDA also supported returns of IDPs to their

places of origin. In eastern Chad, USAID/OFDA provided more than \$3.8 million to seven NGO and U.N. partners to support host communities and IDPs.

In response to the Sudan complex emergency, USAID's Office of Food for Peace (USAID/FFP) contributed nearly 476,000 metric tons (MT) of food assistance in FY 2006, valued at approximately \$457.8 million. To date in FY 2007, USAID/FFP contributed 211,060 MT of food assistance valued at \$213.3 million to the complex emergency in Sudan and Eastern Chad. USAID/FFP provided contingency rations to implementing partners in areas where returnees were expected and continues to closely monitor and respond to food needs throughout the country.

The overall goal of USAID/OTI in Sudan is to strengthen Sudanese confidence and capacity to address the causes and consequences of political marginalization, violence, and instability under the framework of the CPA.

USAID/OTI currently has five implementing partners in Sudan. In FY 2006, USAID/OTI provided approximately \$34 million in support of Sudan programs.

The Department of State's Bureau of Population, Refugees, and Migration (State/PRM) provided \$113 million in assistance to Sudanese populations affected by the complex emergency in 2006. State/PRM supports protection and assistance programs for more than 220,000 Sudanese refugees in Chad in partnership with UNHCR, the U.N. Children's Fund (UNICEF), WFP, the International Federation of the Red Cross and Red Crescent Societies (IFRC), and a broad range of NGOs. State/PRM also works with UNHCR, the International Committee of the Red Cross (ICRC), and NGOs to support the return of refugees and IDPs in Southern Sudan and protect conflict-affected populations in Darfur.
