SSA Publication No. 13-11700
July 2004

Preface

The *Supplement* is a major resource for data on our nation's social insurance and welfare programs. The majority of the statistical tables present information about programs administered by the Social Security Administration—the Old-Age, Survivors, and Disability Insurance programs, known collectively as Social Security, and the Supplemental Security Income program. In addition, data are presented on the major health care programs—Medicare and Medicaid—and income maintenance programs, including Workers' Compensation, Unemployment Insurance, Temporary Disability Insurance, Black Lung benefits, veterans' benefits, Food Stamps, Temporary Assistance for Needy Families, and Low-Income Home Energy Assistance. The *Supplement* also includes program summaries and legislative histories that help users of the data understand these programs.

The *Supplement* has been published annually since 1940. Decisions affecting the future of Social Security are facilitated by the availability of relevant data over a long period. The data provide a base for research, policy analysis, and proposals for changing the programs. In addition to meeting the Social Security Administration's information needs, the *Supplement* strengthens the agency's ability to respond to requests for program data from congressional committees, government agencies at all levels, and the research community.

The *Supplement* is prepared by Social Security Administration staff from various components throughout the agency and by many individuals from other federal agencies. I would like to express my thanks to them for their contributions. The inside cover includes a list of the persons and agencies contributing to this edition.

General comments or questions about this report are welcome and should be directed to Rona M. Blumenthal at 410-965-0163 or rona.m.blumenthal@ssa.gov. For specific questions about the data, please call the contact listed on each table.

This report is available on our Web site at <http://www.socialsecurity.gov/policy>. For additional copies, please telephone 202-358-6274 or e-mail op.publications@ssa.gov.

Tables

Section 2. History of Program Provisions and SSA Administrative Data

Old-Age, Survivors, and Disability Insurance

Coverage, Financing, and Insured Status

2.A1	Covered employment and self-employment provisions, by year enacted	2.1
2.A2	Noncontributory wage credit provisions, by year enacted	2.3
2.A3	Annual maximum taxable earnings and contribution rates, 1937–2003	2.4
2.A4	Maximum annual amount of contributions, 1937–2003	2.5
2.A5	Tax credits enacted in 1983	2.6
2.A6	Appropriations from general revenues and interfund borrowing provisions, by type of transaction and year enacted	2.6
2.A7	Insured status (benefit eligibility) provisions, by eligibility concept and year enacted	2.7

Benefit Computation and Automatic Adjustments

2.A8	Factors for indexing earnings, 1951–2003	2.9
2.A9	Indexed earnings for workers with maximum earnings, 1951–2003	2.11
2.A10	Average monthly wage and average indexed monthly earnings provisions, by year enacted	2.12
2.A11	Formulas for computing PIA from AIME, cost-of-living adjustments, and minimum PIA for workers who were first eligible in 1979 or later, by year of first eligibility	2.13
2.A11.1	Computation of PIA based on Windfall Elimination Provision (WEP), by year enacted	2.14
2.A12	Special minimum PIA (formula applies to years of coverage), by year enacted	2.15
2.A13	Formulas enacted in 1977 for computing maximum family benefit from PIA and cost-of-living adjustments for workers who were first eligible in 1979 or later, by year of first eligibility	2.17
2.A14	Formulas for computing maximum family benefit and cost-of-living adjustments for workers first eligible for disability benefits in 1979 or later, by year of enactment	2.17
2.A16	Formulas for computing primary insurance amount (PIA) from average monthly wage (AMW) based on earnings after 1950, and percentage increases in PIA	2.18
2.A17	Minimum primary insurance amount (PIA) and maximum family benefit for workers who attained age 62, were first eligible for disabled-worker benefits, or died before 1979	2.20
2.A17.1	Full retirement age and maximum reduction of retired-worker benefits, by year of birth	2.21
2.A18	Automatic adjustment provisions	2.22
2.A19	Illustrative benefit growth: Cumulative effect of statutory and automatic increases in benefits using a 100 dollar base benefit	2.24

Benefit Types and Levels

2.A20	Monthly benefits for retired and disabled workers	2.26
2.A21	Monthly benefits for spouses and children of retired and disabled workers	2.27
2.A22	Monthly benefits for survivors of deceased workers	2.29
2.A23	Monthly benefits for transitionally insured workers and their spouses and surviving spouses, aged 72 before 1969	2.33
2.A24	Monthly benefits for individuals and couples insured for special age-72 (Prouty) benefits	2.34
2.A25	Lump-sum benefits and vocational rehabilitation services, by type of benefit	2.35
2.A26	Monthly benefit amount for selected beneficiary families with first eligibility in 2002, by average indexed monthly earnings for stipulated yearly wage levels, effective December 2002	2.36

2.A27	Minimum and maximum monthly retired-worker benefits payable to individuals who retired at age 62, by year they attained age 62, 1957–2003	2.37
2.A28	Minimum and maximum monthly retired-worker benefits payable to individuals who retired at age 65, by year they attained age 65, 1940–2003	2.38

Effect of Current Earnings and Taxation of Benefits

2.A29	Earnings (retirement) test, by year enacted	2.40
2.A30	Monthly earnings guidelines for substantial gainful activity, 1961–2003	2.42
2.A31	Taxation of Social Security benefits	2.43
2.A32	Taxation of Social Security benefits: Examples	2.44

History of SSI, Medicare, and Medicaid Provisions

Supplemental Security Income

2.B1	Federal benefit rates, by living arrangement, 1974–2003	2.45
------	---	------

Medicare

2.C1	Medicare cost sharing and premium amounts, 1966–2004	2.46
------	--	------

Medicaid

2.C2	Federal medical assistance percentage and enhanced federal medical assistance percentage, by state or other area, 2002–2004	2.47
------	---	------

SSA Administrative Data

Offices and Staff

2.F1	Number of SSA offices, 2002	2.48
2.F2	Number of SSA employees and percentage with selected characteristics by grade, September 30, 2002	2.48
2.F3	Number of work years, fiscal years 1993–2002	2.48

Claims Workloads

2.F4	Number of Old-Age and Survivors Insurance claims, fiscal year 2002	2.49
2.F5	Number of Disability Insurance claims, fiscal year 2002	2.49
2.F6	Number of Supplemental Security Income claims, fiscal year 2002	2.49

Service Delivery

2.F7	Accuracy rates and use of 800 telephone number, fiscal years 1998–2002	2.50
------	--	------

Hearings and Appeals

2.F8	Workload of SSA's Administrative Law Judges (ALJs), fiscal years 2001–2003	2.51
2.F9	Number of hearing receipts, dispositions, and end-of-year pending cases, fiscal years 2002–2003	2.51
2.F10	Discontinued	
2.F11	Number of SSA Appeals Council cases, fiscal years 2001–2003	2.51

Section 3. Social Welfare and the Economy

Social Welfare Expenditures (Discontinued)

3.A1	Discontinued	
3.A3	Discontinued	
3.A4	Discontinued	

Employment and Earnings

3.B3	Federal minimum wage rates under the Fair Labor Standards Act of 1938 and average hourly earnings and average weekly hours for production workers in manufacturing, selected years 1938–2002	3.1
------	--	-----

Interprogram Data

3.C3	Contributions to the Social Security and Medicare trust funds, by program and source, selected years 1965–2002	3.2
3.C4	Average monthly amount of Social Security and selected public assistance programs, December 1950–2002	3.3
3.C5	Population aged 65 or older receiving Social Security (OASDI) benefits, Supplemental Security Income (SSI) payments, or both, by state, December 1940–2002, selected years	3.4
3.C6	Number and percentage of Social Security (OASDI) beneficiaries also receiving federally administered Supplemental Security Income (SSI) payments, by type of OASDI benefit and SSI eligibility category, December 2002	3.6
3.C6.1	Number of persons aged 18–64 receiving Social Security (OASDI) benefits or federally administered Supplemental Security Income (SSI) payments based on disability, by type of benefit, December 1978–2002	3.7
3.C7	Number of persons aged 15 or older with Social Security (OASDI) benefits or Supplemental Security Income (SSI) in March 2002, by sex, age, and race, and average annual benefit in 2001	3.8
3.C8	Number of persons aged 15 or older with Social Security (OASDI) benefits or Supplemental Security Income (SSI) and number and percentage of Hispanic origin in March 2002, by age and sex, and average annual benefit in 2001	3.9

Poverty

3.E1	Weighted average poverty thresholds for nonfarm families, by size, 1959–2002	3.10
3.E2	Number and percentage of poor persons, by age, at end of selected years 1959–2001	3.11
3.E3	Shares of money income from earnings and other sources for aged and nonaged families, 2001	3.12
3.E4	Current living arrangements of persons aged 65 or older, by sex and poverty status, March 2002	3.13
3.E6	Percentage distribution of aged families receiving Social Security benefits, by share of income from benefits and race, 2001	3.14
3.E8	Poverty guidelines for families of specified size, 1965–2003	3.15

Section 4–6. Old-Age, Survivors, and Disability Insurance

Trust Funds

4.A1	Old-Age and Survivors Insurance, selected years 1937–2002	4.1
4.A2	Disability Insurance, 1957–2002	4.2
4.A3	Combined OASI and DI, 1957–2002	4.3
4.A4	Total annual benefits paid, by type of benefit and trust fund, and as a percentage of personal income, selected years 1937–2002	4.4
4.A5	Total annual benefits paid from OASI trust fund, by type of benefit, selected years 1937–2002	4.5
4.A6	Total annual benefits paid from DI trust fund, by type of benefit, 1957–2002	4.6

Covered Workers

4.B1	Number of workers with taxable earnings, amount of earnings, and Social Security numbers issued, selected years 1937–2002	4.7
4.B2	Number with taxable earnings and amount of earnings, by type of earnings, 1951–2002	4.8
4.B3	Number of workers and median annual earnings, by type of earnings and sex, selected years 1937–2001	4.9
4.B4	Percentage of workers with earnings below annual maximum taxable, by sex, selected years 1937–2001	4.10
4.B5	Number of workers, by sex and age, selected years 1937–2001	4.11
4.B6	Median earnings of workers, by sex and age, selected years 1937–2001	4.12
4.B7	Number of wage and salary workers, by sex and amount of taxable earnings, 1992–2001	4.13
4.B8	Number of self-employed workers, by sex and age, selected years 1951–2001	4.14
4.B9	Number of self-employed workers, by sex and amount of taxable earnings, 1992–2001	4.15
4.B10a	Number of workers with Social Security (OASDI) taxable earnings, amount taxable, and contributions, by state or other area and type of earnings, 2000	4.16
4.B10b	Number of workers with Social Security (OASDI) taxable earnings, amount taxable, and contributions, by state or other area and type of earnings, 2001	4.17
4.B11	Number of workers with Social Security (OASDI) taxable earnings, amount taxable, and contributions, by type of earnings, selected years 1937–2002	4.18
4.B12a	Number of workers with Medicare Part A (HI) taxable earnings, amount taxable, and contributions, by state or other area and type of earnings, 2000	4.19
4.B12b	Number of workers with Medicare Part A (HI) taxable earnings, amount taxable, and contributions, by state or other area and type of earnings, 2001	4.20

Insured Workers

4.C1	Estimated number, by insured status, December 31, 1940–2003	4.21
4.C2	Estimated number, insured status, sex, and age, December 31, 1970–2003, selected years	4.22
4.C5	Estimated size of the population in the Social Security area and percentage fully insured, by sex and age, 1999–2003	4.24
4.C6	Period life table, 2000	4.25

Benefits in Current-Payment Status

Summary

5.A1	Number and average monthly benefit, by type of benefit and race, December 2002	5.1
5.A1.1	Number and average monthly benefit for retired workers, by sex, age, and race, December 2002	5.2

5.A1.2	Number and average monthly benefit for disabled workers, by sex, age, and race, December 2002	5.4
5.A1.3	Number and average monthly benefit for spouses, by marital status, basis of entitlement, age, and race, December 2002	5.7
5.A1.4	Number and average monthly benefit for children, by type of benefit, age, and race, December 2002	5.10
5.A1.5	Number and average monthly benefit for widowed mothers and fathers, by age, sex, marital status, and race, December 2002.	5.13
5.A1.6	Number and average monthly benefit for nondisabled widow(er)s, by sex, age, marital status, and race, December 2002.	5.14
5.A1.7	Number and average monthly benefit for disabled widow(er)s, by age, sex, marital status, and race, December 2002.	5.15
5.A1.8	Number and average monthly benefit for parents, by age, sex, and race, December 2002 . . .	5.15
5.A3	Number and average monthly benefit, with reduction for early retirement, by type of benefit, sex, age, and race, December 2002	5.16
5.A4	Number and total monthly benefits, by trust fund and type of benefit, December 1940–2002, selected years.	5.20
5.A5	Number and average age, by type of benefit, December 2002	5.21
5.A6	Number and average monthly benefit, by age, sex, type of benefit, and race, December 2002	5.21
5.A7	Number and average monthly benefit for women, by type of benefit, basis of entitlement, and race, December 2002	5.22
5.A8	Number, average primary insurance amount, and average monthly benefit for persons with benefits based on special minimum primary insurance amount, by type of benefit and sex, December 2002.	5.23
5.A10	Number and average monthly benefit for beneficiaries aged 60 or older, by sex, type of benefit, and age, December 2002	5.24
5.A14	Number and percentage distribution of women aged 62 or older, by basis of entitlement, type of benefit, and dual entitlement status, December 1960–2002, selected years	5.25
5.A15	Number and average monthly benefit for women aged 65 or older, by basis of entitlement, type of benefit, and dual entitlement status, December 2002.	5.25
5.A16	Number and average monthly benefit for adult beneficiaries, by sex, type of benefit, and age, December 2002.	5.26
5.A17	Number and average monthly benefit for disabled beneficiaries, by type of benefit, December 1957–2002	5.27

Retired Workers

5.B1	Number, average primary insurance amount, and average monthly benefit without reduction for early retirement and with delayed retirement credit, by age and sex, December 2002	5.28
5.B2	Number, average primary insurance amount, and average monthly benefit without reduction for early retirement and without delayed retirement credit, by age and sex, December 2002	5.29
5.B3	Number and average monthly benefit before and after delayed retirement credit, by age and sex, December 2002	5.30
5.B4	Number, percentage, and average monthly benefit, by year of entitlement as retired worker and sex, December 2002	5.31
5.B5	Number, average age, and percentage distribution, by sex and age, December 1940–2002, selected years	5.32
5.B6	Number and percentage distribution with and without reduction for early retirement, by monthly benefit and sex, December 2002	5.33
5.B7	Number and percentage distribution with and without reduction for early retirement, by primary insurance amount and sex, December 2002	5.34
5.B8	Number and average monthly benefit with and without reduction for early retirement, by sex, December 1956–2002, selected years	5.35
5.B9	Number and percentage distribution, by sex, monthly benefit, and age, December 2002.	5.36

Retired Workers and Dependents

5.C1	Number and percentage distribution, by primary insurance amount and type of benefit, December 2002	5.38
5.C2	Average monthly benefit, by type of benefit and sex, December 1940–2002, selected years	5.39

Disabled Workers

5.D1	Number, percentage, and average monthly benefit, by year of entitlement as disabled worker and sex, December 2002	5.40
5.D2	Number and percentage distribution, by monthly benefit and sex, December 2002	5.41
5.D3	Number and total monthly benefits, by sex, December 1957–2002, selected years	5.41
5.D4	Number, average age, and percentage distribution, by sex and age, December 1957–2002, selected years	5.42
5.D4.1	Number and percentage distribution of disabled beneficiaries, by diagnostic group and type of beneficiary, December 2002	5.43
5.D5	Number and percentage distribution, by diagnostic group, and sex, December 2002	5.44
5.D6	Number and percentage distribution, by sex, diagnostic group, and age, December 2002	5.45

Disabled Workers and Dependents

5.E1	Number and percentage distribution, by primary insurance amount and type of benefit, December 2002	5.46
5.E2	Average monthly benefit, by type of benefit, sex, and age, December 1957–2002, selected years	5.46

Dependents and Survivors

5.F1	Number of wives and husbands and total monthly benefits, by type of benefit, December 1950–2002, selected years	5.47
5.F3	Percentage distribution of wives with entitlement based on age, by monthly benefit and age, December 2002	5.48
5.F4	Number of children and total monthly benefits, by type of benefit, December 1940–2002, selected years	5.49
5.F6	Average monthly benefit for survivors, by type of benefit, December 1940–2002, selected years	5.50
5.F7	Number and percentage distribution of survivors, by primary insurance amount and type of benefit, December 2002	5.51
5.F8	Number of widow(er)s and total monthly benefits, by type of benefit, December 1950–2002	5.52
5.F9	Number, percentage, and average monthly benefit, by year of entitlement as nondisabled widow(er), December 2002	5.53
5.F10	Number, percentage, and average monthly benefit, by year of entitlement as disabled widow(er), December 2002	5.53
5.F11	Percentage distribution of nondisabled widows, by monthly benefit and age, December 2002	5.54
5.F12	Number of widowed and surviving divorced mothers and fathers and total monthly benefits, by type of benefit, December 1950–2002, selected years	5.55
5.F13	Number and average monthly benefit for nondisabled widows aged 65 or older, by age, reduction status, and limitation of benefit, December 2002	5.56

Retired Workers with Dual Entitlement

5.G1	Percentage distribution of persons receiving both a retired-worker and a secondary benefit without and with reduction for early retirement, by sex and primary insurance amount, December 2002	5.57
------	--	------

5.G2	Number receiving both a retired-worker and a secondary benefit, by sex and type of secondary benefit, December 1952–2002	5.58
5.G3	Number receiving both a retired-worker and a secondary benefit and average monthly benefit, by type of secondary benefit, December 2002.	5.59
5.G4	Number receiving both a retired-worker and a secondary benefit, average monthly benefit, and retired-worker benefit as a percentage of combined benefit, December 2002	5.59
5.G5	Percentage distribution, by total combined monthly benefit and retired-worker benefit, December 2002	5.60

Beneficiary Families

5.H1	Number and average monthly family benefit for selected family groups, December 1945–2002, selected years.	5.61
5.H2	Number, average primary insurance amount, and average monthly family benefit for selected family groups, December 2002	5.62
5.H3	Percentage distribution of retired-worker and disabled-worker families, by monthly benefit for selected family groups, December 2002	5.63
5.H4	Percentage distribution of survivor families, by monthly benefit for selected family groups, December 2002	5.64

Geographic Data

5.J1	Estimated total benefits paid, by state or other area and program, 2002	5.65
5.J2	Number, by state or other area, program, and type of benefit, December 2002	5.66
5.J3	Number and total monthly benefits for beneficiaries aged 65 or older, by state or other area and sex, December 2002	5.67
5.J4	Total monthly benefits, by state or other area, program, and type of benefit, December 2002	5.68
5.J5	Number, by state or other area and age, December 2002	5.69
5.J5.1	Number, by state or other area, race, and sex, December 2002	5.70
5.J6	Percentage distribution of monthly benefit for retired workers, by state or other area and monthly benefit, December 2002	5.71
5.J8	Percentage distribution of disabled workers, by state or other area and monthly benefit, December 2002	5.72
5.J9	Percentage distribution of nondisabled widow(er)s, by state or other area and monthly benefit, December 2002	5.73
5.J10	Number of children, by state or other area and type of benefit, December 2002.	5.74
5.J11	Number and total monthly benefits for beneficiaries in foreign countries, December 2002	5.75
5.J12	Number of disabled workers, by state or other area and diagnostic group, December 2002	5.76
5.J13	Percentage distribution of disabled workers, by state or other area and diagnostic group, December 2002	5.77
5.J14	Number, average monthly benefit, and median monthly benefit, by state or other area and type of disabled beneficiary, December 2002.	5.78

Direct Deposit

5.K1	Number and percentage of beneficiaries and average monthly benefit, by state or other area and direct deposit status, December 2002.	5.79
------	--	------

With Representative Payee

5.L1	Number of beneficiaries with a representative payee as a percentage of all beneficiaries, by type of beneficiary and age, December 2002	5.80
------	---	------

International Agreements

5.M1	Number of beneficiaries and average monthly benefit under U.S. totalization agreements, by country and type of benefit, December 1983–2002, selected years	5.81
------	--	------

Benefits Awarded

Summary

6.A1	Number, by type of benefit, 1940–2002	6.1
6.A2	Average primary insurance amount for retired workers and average monthly benefit for retired and disabled workers, and nondisabled widows, by type of benefit and sex, selected years 1940–2002	6.2
6.A3	Number and average monthly benefit, by type of benefit, sex, age, basis of entitlement, and race, 2002	6.3
6.A4	Number and average monthly benefit for retired and disabled workers, by age in month of award and sex, 2002	6.5
6.A5	Number and average monthly benefit with reduction for early retirement, by type of benefit, age in month of award, and sex, 2002	6.6
6.A6	Number, percentage distribution, and average monthly benefit for retired and disabled workers, by state or other area, 2002	6.7

Retired Workers

6.B1	Number of initial awards to retired workers aged 62–64, average primary insurance amount, average monthly benefit, and number of months benefits withheld due to earnings, by sex and age in month of award, 2002	6.8
6.B3	Number and percentage distribution with and without reduction for early retirement, by sex and monthly benefit, 2002	6.9
6.B4	Number and percentage distribution with and without reduction for early retirement, by sex and primary insurance amount, 2002	6.11
6.B5	Number, average age, and percentage distribution, by sex and age, selected years 1940–2002	6.13

Disabled Workers

6.C1	Number and percentage distribution, by monthly benefit and sex, 2002	6.14
6.C2	Number, average age, and percentage distribution, by sex and age, selected years 1957–2002	6.15
6.C3	Number and percentage distribution, by diagnostic group, sex, and age, 2002	6.16
6.C7	Number of applications, awards, ratio of awards to applications, and awards per 1,000 insured workers, selected years, 1960–2002	6.17

Dependents and Survivors

6.D1	Number of wives and husbands, by type of benefit, selected years 1950–2002	6.18
6.D3	Number and average monthly benefit for wives and husbands, by basis of entitlement, age in month of award, and sex, 2002	6.19
6.D4	Number of children, by type of benefit, selected years 1940–2002	6.20
6.D5	Number and average monthly benefit for children, by type of benefit and age in month of award, 2002	6.22
6.D6	Number of mothers and fathers, by type of benefit, 1950–2002	6.23
6.D7	Number and average monthly benefit for widow(er)s, by age in month of award and sex, 2002	6.24
6.D8	Number of widow(er)s, by type of benefit, 1950–2002	6.25
6.D9	Number and average amount of lump-sum death payment awards, 1940–2001	6.25

Benefits Withheld

6.E1	Number and percentage distribution of retired workers with benefits withheld, by monthly benefit, reduction for early retirement, and sex, December 2002	6.26
6.E4	Number of beneficiaries with benefits withheld, by reason for withholding payment and type of benefit, December 2002	6.27
6.E5	Number of wives, husbands, and children with benefits withheld, by reason for withholding payment and type of benefit, December 2002.	6.27

Benefits Terminated

6.F1	Number of benefits terminated, by type, 1940–2002	6.28
6.F2	Number, by reason for termination and type of benefit, 2002.	6.29
6.F3	Number of wives, husbands, and children, by reason for termination and type of benefit, 2002	6.29

Section 7. Supplemental Security Income

Summary

7.A1	Number of recipients of federally administered payments, total payments, and average monthly payment, by source of payment, eligibility category, and age, December 2002	7.1
7.A2	Number of individuals and couples receiving federally administered payments, total payments, and average monthly payment, by source of payment and eligibility category, December 2002.	7.1
7.A3	Number of recipients, by eligibility category and source of payment, January 1974 and December 1975–2002, selected years	7.2
7.A4	Total payments, by eligibility category and source of payment, selected years 1974–2002	7.3
7.A5	Average monthly payment, by eligibility category and source of payment, December 1975–2002, selected years.	7.4
7.A8	Number of federally administered awards, by eligibility category and age, 1974–2002.	7.5
7.A9	Number of recipients of federally administered payments, by eligibility category and age, December 1974–2002	7.6

State Data

7.B1	Number of recipients of federally administered payments, December 2002, and total payments for calendar year 2002, by state or other area and eligibility category, 2002.	7.7
7.B2	Number of recipients of state-administered supplementation, December 2002, and total payments for calendar year 2002, by state and eligibility category, 2002	7.8
7.B3	Number of recipients of federally administered payments and average monthly payment, by state or other area, December 2002	7.9
7.B7	Total payments, by state or other area and source of payment, 2002	7.10
7.B8	Number of blind and disabled recipients of federally administered payments under age 18, by state or other area, December 2002	7.11
7.B9	Number of federally administered awards, by state or other area, eligibility category, and age, 2002.	7.12

Benefit Distributions

7.C1	Number and percentage distribution of adult individuals and persons under age 18 receiving federal SSI payments, by monthly payment and eligibility category, December 2002	7.13
7.C2	Number and percentage distribution of couples receiving federal SSI payments, by monthly payment and eligibility category, December 2002	7.13

Other Income Sources

7.D1	Persons receiving federally administered payments and other income and their average monthly income, by type of income, eligibility category, and age, December 2002	7.14
7.D2	Percentage of persons receiving both federally administered payments and Social Security benefits, average monthly amount of benefits, by state or other area, eligibility category, and age, December 2002	7.15

Recipient Characteristics

7.E2	Percentage distribution of federally administered awards, by sex, age, and eligibility category, 2002	7.16
7.E3	Number and percentage distribution of recipients of federally administered payments, by sex, age, and eligibility category, December 2002	7.17
7.E4	Number and percentage distribution of persons with representative payees receiving federally administered payments, by eligibility category and age, December 2002	7.18
7.E5	Number and percentage distribution of persons receiving federally administered payments, by living arrangement, eligibility category, and age, December 2002	7.18
7.E6	Number of noncitizens receiving federally administered payments as a percentage of SSI recipients, by eligibility category, December 1982–2002, selected years	7.18

Disability

7.F1	Number and percentage distribution of blind and disabled persons under age 65 receiving federally administered payments and not transferred from prior state programs, by diagnostic group, December 2002	7.19
7.F2	Percentage distribution of blind and disabled recipients of federally administered payments under age 65, by sex, diagnostic group, and age, December 2002	7.20
7.F3	Number of section 1619(a) and section 1619(b) participants, selected months, 1982–2002	7.21
7.F4	Number of section 1619(a) and section 1619(b) participants, by age, sex, and types and amounts of earned and unearned income, December 2002	7.22
7.F5	Number of section 1619(a) and section 1619(b) participants and their average monthly earnings, by state or other area, December 2002	7.23

Program Trends

- About 46.4 million persons received Social Security benefits for December 2002, an increase of 567,000 (1.2 percent) since December 2001. Seventy percent were retired workers and their spouses and children, and another 15 percent were survivors of deceased workers. Sixteen percent were disabled workers and their spouses and children.
- Seventy-two percent of the 29.2 million retired workers received reduced benefits because of entitlement prior to full retirement age. Relatively more women (75 percent) than men (69 percent) received reduced benefits.
- The number of beneficiaries aged 65 or older rose from 31.9 million in 1997 to 33.2 million in 2002 (4.1 percent). Beneficiaries aged 85 or older increased at a greater rate during the 5-year period (10.2 percent) from 3,783,000 in 1997 to 4,170,000 in 2002. In 2002, 40,100 centenarians were receiving Social Security.
- More than 19 million women aged 65 or older received benefits for December 2002. About 7.2 million (37.2 percent) were entitled solely to a retired-worker benefit, and another 5.7 million (29.4 percent) were dually entitled to a retired-worker benefit and a wife's or widow's benefit. About 6.4 million (33.3 percent) were receiving wife's or widow's benefits only.
- Over 3 million children under age 18 received benefits, including 1,350,500 children of deceased workers, 1,422,000 children of disabled workers, and 270,200 children of retired workers.
- About 6.5 million persons received benefits based on disability—5,544,000 disabled workers, 744,500 disabled adult children, and 207,400 disabled widows and widowers. In addition, 151,600 spouses and 1,466,200 minors and student children of disabled workers received benefits.
- The leading causes of disability for disabled workers were mental disorders other than mental retardation (28 percent), and musculoskeletal conditions (24 percent). About 10 percent had circulatory conditions, and an additional 10 percent had diseases of the nervous system and sense organs.
- Average monthly benefits for December 2002, including the 1.4 percent COLA increase, were \$895 for retired workers, \$834 for disabled workers, and \$861 for nondisabled widows and widowers. Among retired workers, benefits averaged \$1,008 for men and \$774 for women. For disabled workers, average benefits were \$935 for men and \$709 for women.
- Average monthly family benefits for December 2002 were \$1,614 for a widowed mother or father and children; \$1,401 for a disabled worker, wife, and children; and \$1,769 for a retired worker, wife, and children.
- Total OASDI benefit payments for calendar year 2002 were \$453.8 billion. Payments from the OASI trust fund were \$388.1 billion—an increase of 4.2 percent from the \$372.3 billion paid in 2001.
- Benefit payments from the DI trust fund, from which benefits are paid to disabled workers, their spouses, and children, increased by 10.2 percent from \$59.6 billion in 2001 to \$65.7 billion in 2002.
- OASDI benefit awards in calendar year 2002 totaled 4,335,700, including 1,812,600 to retired workers, 433,900 to their spouses and children and 873,900 to survivors of insured workers. Benefits were awarded to 750,000 disabled workers and to 465,400 of their spouses and children.

b. Includes 151,989 persons receiving state supplementation only.

Program Trends

- In December 2002, 6,787,900 persons received federally administered SSI payments—99,400 more than the previous year. Of the total, 1,995,300 (29.4 percent) were aged 65 or older; 3,877,800 (57.1 percent) were blind or disabled aged 18-64; and 914,800 (13.5 percent) were blind or disabled under age 18.
- The number of blind or disabled aged 18-64 rose by 66,300 (1.7 percent) between December 2001 and December 2002, while the number under age 18 increased by 33,000 (3.7 percent).
- During 2002, 818,100 persons were awarded federally administered payments, an increase of 6.2 percent from the previous year. Of the 2002 awards, 533,500 went to blind or disabled recipients aged 18-64, 169,100 to those blind or disabled under age 18, and 115,500 to recipients aged 65 or older.
- Total SSI payments were \$34.6 billion in 2002, up 4.6 percent from 2001. Federal SSI payments in 2002 were \$29.9 billion (an increase of 4.2 percent over the previous year). Federally administered state supplementation totaled \$3.8 billion (an increase of 10.4 percent); state-administered supplementation totaled \$848.0 million, a decrease of 5.3 percent from the previous year's totals.
- In 2002, the leading causes of disability among the blind or disabled between the ages of 18 and 64 and those under age 18 were mental disorders and mental retardation. Among recipients between the ages of 18 and 64, 22.8 percent had mental retardation as the primary diagnosis, and 34 percent were diagnosed with another mental disorder. These conditions were also the most frequent diagnoses for blind or disabled under age 18.

Social Security (Old-Age, Survivors, and Disability Insurance)

The Old-Age, Survivors, and Disability Insurance (OASDI) program provides monthly benefits to qualified retired and disabled workers and their dependents, and to survivors of insured workers. Eligibility and benefit amounts are determined by the worker's contributions to Social Security. Benefits are paid as an earned right to workers, their families, and their survivors. There is no means test to qualify for benefits.

At the end of December 2002, 46.4 million people were receiving benefits at a rate exceeding \$37 billion each month (over \$454 billion annually). According to the latest Social Security Trustees Report, these cash benefits comprised 4.4 percent of the nation's gross domestic product. During the same year, approximately 153 million employees and self-employed workers, along with employers, contributed \$532.5 billion to the OASDI trust funds—through which contributions are credited and benefits are paid.

Social Security benefits are essential to the economic well-being of millions of individuals. Social Security pays benefits to more than 90 percent of those 65 or older. It is the major source of income (providing 50 percent or more of total income) for 65 percent of the beneficiaries. It contributes 90 percent or more of income for one-third of the beneficiaries and is the only source of income for 20 percent of them.

Contributions and Trust Funds

A person contributes to Social Security either through payroll taxes or self-employment taxes under the Federal Insurance Contributions Act (FICA) or the Self-Employed Contributions Act (SECA). Employers match the employee contribution, while self-employed workers pay an amount equal to the combined employer-employee contributions. (Self-employed workers receive a special tax deduction to ease the impact of paying the higher rate.) There is a maximum yearly amount of earnings subject to OASDI taxes, \$87,000 in 2003. There is no upper limit on taxable earnings for Medicare Hospital Insurance. Employees whose contributions exceed the maximum taxable amount because they worked for more than one employer can receive refunds of excess FICA payments when they file their tax returns.

Taxes are allocated to the Old-Age (Retirement) and Survivors Insurance (OASI), the Disability Insurance (DI), and the Hospital Insurance (HI) Trust Funds. In addition to the taxes on covered earnings, OASI and DI trust fund revenues include interest on trust fund securities, income from taxation of OASI and DI benefits, certain technical transfers, and gifts or bequests. By law, the OASI and DI trust funds may only be disbursed for:

1. Monthly benefits for workers and their families.
2. Vocational rehabilitation services for disabled beneficiaries.
3. Administrative costs (currently less than 1 percent of expenditures).
4. The lump-sum death payment to eligible survivors.

Revenue received from FICA payments is transferred to the U.S. Treasury. FICA revenue in excess of outlays is used to purchase special interest-bearing Treasury bonds. These securities remain assets of the trust funds until needed to cover Social Security costs.

Structure and Organization

The OASDI program is administered by the Social Security Administration (SSA), which became an independent agency in 1995. The Commissioner of Social Security serves a 6-year term following appointment by the President and confirmation by the Senate. A bipartisan Social Security Advisory Board serves to review existing laws and policies and commissions studies and issues recommendations intended to anticipate changing circumstances. The President appoints three of the seven board members and Congress appoints the other four members.

The Social Security Administration is headquartered in Baltimore, Maryland. Major headquarter components include the National Computer Center that contains SSA's mainframe computers that drive our systems, much of the executive staff for policy, programs, and systems, as well as field support components. SSA's field structure is divided into 10 geographic regions containing over 1,300 field installations in communities throughout the country. Office sizes range from large urban offices with 50 or more employees to remote resident stations staffed by one or two individuals. Each region is headed by a Regional Commissioner and staffed with specialists to handle regional administrative tasks and to assist field offices with operational issues. In addition, there are teleservice centers servicing all regions. While physically located within the various regions, each teleservice center manages the public's Social Security business from throughout the nation using state-of-the-art communications systems. Seven program service centers provide service and support for the field offices in some aspects of Social Security's workloads.

Tables 2.F1–2.F11 provide SSA administrative data on the agency's national workforce (**Tables 2.F1–2.F3**), claims workloads (**Tables 2.F4–2.F6**), delivery of services (**Table 2.F7**), and its hearings and appeals operations (**Tables 2.F8–2.F11**).

Significant Program Changes

Program changes occur through legislation or (in areas where authority is delegated to the Commissioner) through regulation.

Changes are often implemented in phases and often entail recurring annual changes beyond the initial enactment date or year of first implementation. Rather recent changes with a significant and recurring impact are discussed below.

Elimination of Annual Earnings Test for Persons Reaching Full Retirement Age

Public Law 106-182, The Senior Citizen's Freedom to Work Act of 2000, enacted April 7, 2000, eliminated the earnings test beginning with the month a beneficiary attains full retirement age (FRA). Elimination of this earnings test is effective for taxable years ending after December 31, 1999.

The earnings limit that applies in the year of attainment of FRA is based on the limits previously established for persons at FRA through age 69—\$30,000 in 2002, and \$30,720 in 2003. Benefits are withheld at the rate of \$1 for every \$3 of earnings above these exempt amounts. In determining earnings for purposes of the annual earnings test under this legislation, only earnings before the month of attainment of FRA will be considered. The legislation also permits retired workers to earn delayed retirement credits for any months between the attainment of full retirement age and age 70 for which the worker requests that benefits not be paid.

Public Law 106-182 did not change the annual exempt amount for beneficiaries who are under FRA throughout the year, which continued to be pegged to increases in the average wage. This amount increased from \$11,280 in 2002 to \$11,520 in 2003. Withholding for beneficiaries subject to this earnings test is at \$1 for each \$2 of earnings over the exempt amounts. Proposed rules were published August 25, 2003.

Work Incentives Improvement Act

The Ticket to Work and Work Incentives Improvement Act, Public Law 106-170, was enacted on December 17, 1999. This legislation provides major enhancements to SSA's programs that assist disabled beneficiaries who attempt to return to work. It provides beneficiaries more choices in vocational rehabilitation and other support services and offers expanded health care for beneficiaries who are no longer eligible for cash benefits due to work. Effective October 1, 2000, the Act offers extended Medicare coverage to beneficiaries who return to work and offers buy-in for Medicaid coverage.

The Ticket to Work provisions of this legislation are being phased in over a 3-year period. The Ticket to Work will emphasize and encourage rehabilitation efforts and will

pay private employment service providers for helping beneficiaries achieve specific work-related goals. These providers are called Employment Networks. Most disability beneficiaries will receive a Ticket that they may use to obtain vocational rehabilitation, job training, or other support services. Individuals may take their ticket to any of the Employment Networks that offer services in their communities, or to the State Vocational Rehabilitation Agency. During the first phase, which began in February 2002, SSA distributed tickets to beneficiaries in 13 states. In the second phase, which began in November 2002, SSA distributed tickets to beneficiaries in 20 more states and the District of Columbia. And during the third phase, which is scheduled to begin in November 2003, SSA will distribute tickets in the remaining 17 states, along with American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the Virgin Islands. Also beginning January 1, 2001, former beneficiaries may have their benefits resumed if the benefits were terminated because of work, their work activity ends within 5 years of the month their benefits stopped and they are still disabled.

Regulatory Increases in Substantial Gainful Activity and in Trial Work Period Amounts

Effective July 1, 1999, the Social Security Administration raised from \$500 to \$700 the amount of monthly earnings for a nonblind disabled individual to be considered engaging in substantial gainful activity (SGA). Effective January 1, 2001, the top SGA level was raised to \$740 per month, with the provision that ongoing SGA levels will be automatically adjusted annually based on increases in the national average wage index. Effective January 1, 2003, the level is \$800 per month.

The SGA threshold is part of the definition of disability that requires an individual to be unable to engage in substantial gainful activity to be eligible for benefits. Earnings of more than the top SGA level will ordinarily demonstrate that an individual is engaged in SGA. Earnings of less than \$800 per month will ordinarily demonstrate that an individual is not engaged in SGA.

A different definition of SGA applies to blind persons receiving Social Security disability benefits. Increases in the SGA amount for blind individuals have long been pegged to increases in the national average wage index and thus were not affected by the 1999 or subsequent rule changes. The level for blind individuals increased from \$1,300 in 2002 to \$1,330 in 2003.

New rules also affect the trial work period (TWP). The TWP allows disability beneficiaries to test their ability to work for at least 9 months. During the TWP, beneficiaries may earn any amount and still receive full benefits. The monthly level at which earnings count toward the 9-month TWP was raised from \$200 to \$530 effective January 1, 2001, with future increases pegged to the national average wage index. Effective January 1, 2003, the level is \$570.

After completion of 9 trial work months, the SGA level is used to determine whether earnings are substantial or not. If earnings fall below the SGA level, full benefits generally continue. If earnings are higher than the SGA level, cash benefits are usually suspended while medical benefits continue.

Table 2.A30 provides related historical data on disability program earnings guidelines, including reference to recent changes in thresholds for determining SGA.

Coverage and Financing

In 2003, about 153 million persons will work in employment or self-employment covered under the OASDI program. In recent years, coverage has become nearly universal for work performed in the United States, including American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Approximately 96 percent of the American workforce are covered by OASDI. Workers excluded from coverage fall into five major categories:

1. Civilian federal employees hired before January 1, 1984,
2. Railroad workers (who are covered under the railroad retirement system, which is coordinated with Social Security),
3. Certain employees of state and local governments who are covered under their employers' retirement systems,
4. Domestic workers and farm workers whose earnings do not meet certain minimum requirements (workers in industry and commerce are covered regardless of the amount of earnings), and
5. Persons with very low net earnings from self-employment, generally under \$400 annually.

Table 2.A1 outlines the history of coverage provisions and **Table 2.A2** provides a history of provisions regarding noncontributory wage credits, mostly for military service.

For most employees, taxes are withheld from wages beginning with the first dollar earned. The exceptions are domestic employees, election workers, and agricultural workers. In 2003, a domestic employee must earn \$1,400 from any single employer in a calendar year before FICA is withheld. Most election workers must earn \$1,200 in 2003 before FICA is withheld. Most agricultural workers wages are covered if the employer pays more than \$2,500 in total wages in a year or if the individual worker earns over \$150 in a year from a single employer.

Employees, their employers, and the self-employed each pay taxes on earnings in covered employment and self-employment up to an annual maximum taxable amount for OASDI. There is no upper limit on taxable earnings for Medicare Hospital Insurance (HI). The OASDI maximum taxable amount—\$87,000 in 2003—is updated automatically each year in relation to increases in the national average annual wage. The current FICA tax rate applicable to both employees and employers is 6.2 percent for OASDI (5.30 percent for OASI and 0.9 percent for DI) and 1.45 percent for HI.

See **Table 2.A3** for annual amounts of maximum taxable earnings and contribution rates. **Table 2.A4** shows historical annual maximum amounts of contributions by employees and self-employed persons.

A self-employed person pays the combined employee-employer rate of 12.4 percent for OASDI and 2.9 for HI under the Self-Employment Contributions Act (SECA). Two deduction provisions reduce the SECA and income tax liability of self-employed persons. The intent of these provisions is to treat the self-employed in much the same manner as employees and employers are treated for purposes of FICA and income taxes. The first provision allows a deduction from net earnings from self-employment equal to the amount of net earnings before the deduction, times one-half the SECA tax rate. The effect of this deduction is intended to be analogous to the treatment of the FICA tax paid by the employer, which is disregarded as remuneration to the employee for FICA and income tax purposes. The second provision allows an income tax deduction, equal to one-half of the amount of the SECA tax paid, which is designed to reflect the income tax deductibility of the employer's share of the FICA tax.

Table 2.A5 describes income tax credits for 1984–1989 intended to cushion the impact of increases in FICA and SECA taxes enacted in 1983. The SECA tax credits were replaced, effective 1990, by the deduction provisions described above. **Table 2.A6** outlines the history of provisions regarding appropriations from general revenues and interfund borrowing.

Insured Status

To become eligible for his or her benefit and benefits for family members or survivors, a worker must earn a minimum number of credits based on work in covered employment or self-employment. These credits are described as quarters of coverage. In 2003, a quarter of coverage (QC) is credited for each \$890 in annual covered earnings, up to a maximum of four QCs for the year. Earnings of \$3,560 or more in 2003 will give the worker four QCs regardless of when the money is actually earned or paid during the year. The amount of earnings required for a QC is adjusted auto-

matically each year in proportion to increases in the average wage level.

Fully Insured

Eligibility for most types of benefits requires that the worker be fully insured. To be fully insured a worker must have a number of QCs at least EQUAL to the number of calendar years elapsing between age 21 (or 1950 if later) and the year in which he or she reaches age 62, becomes disabled, or dies—whichever occurs first. Under this requirement, workers who reach age 62 in 1991 or later need the maximum number of 40 QCs to be fully insured. For workers who become disabled or die before age 62, the number of QCs needed for fully insured status depends on their age at the time the worker becomes disabled or dies. A minimum of 6 QCs is required regardless of age.

Currently Insured

If a worker dies before achieving fully insured status, benefits can still be paid to qualified survivors if the worker was "currently insured" at the time of death. Survivors benefits are potentially payable to a worker's children and to a widow(er) with the deceased worker's children in care.) To be currently insured, the worker must have earned 6 QCs in the 13 quarters ending with the quarter of death (that is, 6 of the last 13 quarters, including the quarter in which death occurred).

Disability Insured

To qualify for disability benefits, a nonblind worker must have recent work activity as well as being fully insured. Under the test involving recent work experience, a nonblind worker who becomes age 31 or later must have earned at least 20 QCs among the 40 calendar quarters ending with the quarter in which the disability began. In general, workers disabled at ages 24 through 30 must have earned QCs in one-half of the calendar quarters elapsing between age 21 and the calendar quarter in which the disability began. Workers under age 24 need 6 QCs in the 12-quarter period ending with the quarter of disability onset. Workers who qualify for benefits based on blindness need only be fully insured. Special rules may apply if the worker had a prior period of disability.

Table 2.A7 summarizes the basic provisions concerning insured status.

International Agreements

The President is authorized to enter into international Social Security agreements (also called "totalization" agreements) to coordinate the U.S. Old-Age, Survivors, and Disability Insurance (OASDI) program with comparable programs of other countries. The United States currently has Social Security agreements in effect with 20 countries.

Social Security agreements and supplementary agreements, effective dates

Australia	2002	Italy	1978, 1986
Austria	1991, 1997	Korea	2001
Belgium	1984	Luxembourg	1993
Canada	1984, 1997	Netherlands	1990, 2003
Chile	2001	Norway	1984, 2003
Finland	1992	Portugal	1989
France	1988	Spain	1988
Germany	1979, 1988, 1996	Sweden	1987
Greece	1994	Switzerland	1980, 1989
Ireland	1993	United Kingdom	1985, 1997

International Social Security agreements have two main purposes. First, they eliminate dual Social Security coverage, the situation that occurs when a person from one country works in another country and is required to pay Social Security taxes to both countries on the same earnings. Each agreement includes rules that assign a worker's coverage to only one country.

The second goal of the agreement is to help fill gaps in benefit protection for workers who have divided their careers between the United States and another country. Such workers may fail to qualify for Social Security benefits from one or both countries because they have not worked long enough to meet minimum eligibility requirements. Under an agreement, these workers and their family members may qualify for a partial U.S. benefit based on "totalized" (that is, combined) credits from both countries. Similarly, workers may qualify for partial benefits from the foreign country based on totalized credits.

Table 5.M1 shows the number of beneficiaries receiving totalization payments and their average benefits.

Benefit Computation and Automatic Adjustment Provisions

PIA Computation

The primary insurance amount (PIA) is the monthly benefit amount payable to the worker upon retirement at full retirement age or upon entitlement to disability benefits. The PIA is also the base figure from which monthly benefit amounts payable to the worker's family members or survivors are determined. The PIA is derived from the worker's annual taxable earnings, averaged over a period that encompasses most of the worker's adult years. Until the late 1970s, the average monthly wage (AMW) was the earnings measure generally used. For workers first eligible for benefits after 1978, average indexed monthly earnings (AIME) have replaced the AMW as the usually applicable earnings measure. The PIA computation based on AIME currently involves the following three steps:

1. Indexing of earnings. The worker's annual taxable earnings after 1950 are updated, or indexed, to reflect the general earnings level in the indexing year—the second calendar year before the year in which the worker is first eligible; that is, first reaches age 62, becomes disabled, or dies. Earnings in years after the indexing year are not indexed but instead are counted at their actual value. A worker's earnings for a given year are indexed by multiplying them by the following ratio (indexing factor): The average wage in the national economy for the indexing year, divided by the corresponding average wage figure for the year to be indexed.

Table 2.A8 shows the indexing factors applicable to the earnings of workers who were first eligible in 1990–2003. **Table 2.A9** shows indexed earnings for workers first eligible in 1996–2003 who had maximum taxable earnings in each year after 1950. For a detailed description of an AIME computation, see Appendix D, "Computing a Retired-Worker Benefit."

2. Determining AIME. The period used to calculate AIME equals the number of full calendar years elapsing between age 21 (or 1950, if later) and the year of first eligibility, usually excluding the lowest 5 years. Workers disabled before age 47 have from zero to 4 excluded years from the computation. At an absolute minimum, 2 years are used to compute AIME. The actual years used in the computation (the "computation years") are the years of highest indexed earnings after 1950, including any years before age 22 or after age 61 as well as the year of disability or death. AIME is calculated as the sum of indexed earnings in the computation period, divided by the number of months in that period.

Table 2.A10 provides a historical outline of provisions related to AIME and AMW and describes variations in the number of dropout years. **Tables 2.A15** and **2.A16** describe AMW benefit computations based on the worker's nonindexed earnings after 1936 and 1950, respectively. (Very few persons currently being awarded benefits have PIAs computed under these old-start or new-start computation methods. These methods, particularly the new-start method shown in Table 2.A16, are more frequently applicable in earnings recomputations for workers who reached age 62 before 1979.)

3. Computing the PIA. The formula used to compute the PIA from AIME is weighted to provide a higher PIA-to-AIME ratio for workers with comparatively low earnings. The formula applies declining percentage conversion rates to three AIME brackets. For workers who reach age 62, become disabled, or die in 2003, the formula provides a PIA equal to the sum of:

90 percent of the first \$606 of AIME, plus
32 percent of the next \$3,047 of AIME, plus
15 percent of AIME over \$3,653.

Beginning with the first year of eligibility, the PIA is increased by cost-of-living adjustments (COLAs).

Table 2.A11 shows the PIA formula and first applicable COLA for workers first eligible in 1979 or later.

The dollar amounts defining the AIME brackets are referred to as "bend points." These bend points (as described in Table 2.A11) are updated automatically each year in proportion to increases in the national average wage level. This automatic adjustment ensures that benefit levels for successive generations of eligible workers will keep up with rising earnings levels, thereby assuring consistent rates of earnings replacement from one generation of beneficiaries to the next.

The benefit formula applicable to a worker depends on the year of eligibility (or death) rather than on the year benefits are first received. Thus the PIA of a worker retiring at FRA in 2003 is calculated using the benefit formula that applies to all workers first eligible in 2000 (the "year of attainment" of age 62). The PIA derived from that formula is then increased by the COLAs effective for December, 2000, 2001 and 2002 to obtain the PIA effective at FRA. Subsequent recomputations of the worker's benefit, including additional earnings not originally considered, delayed retirement credits or additional COLA increases, all refer to the basic computation that originally applied, based on the year of attainment.

Beginning in 1981, benefits have been rounded to the next lower ten cents at each step in the computation. The final benefit payment is rounded to the next lower dollar amount (if not already an even dollar). Prior to 1981, benefits were paid in ten-cent increments after rounding up to the next dime in each computation step.

A cost-of-living increase in benefits generally is established each year if the consumer price index for urban wage earners and clerical workers (CPI-W), prepared by the Department of Labor, indicates a percentage increase (after rounding) of at least 0.1 percent between two specified quarters. The arithmetical mean of the CPI-W for July, August, and September in the year of determination is compared with the arithmetical mean of the CPI-W for the later of (a) July, August, and September in the year in which the last effective cost-of-living increase was established or (b) the 3 months of the calendar quarter in which the effective month of the last general benefit increase occurred. The percentage increase in the CPI-W, rounded to the nearest 0.1 percent, represents the size of the increase in benefits, effective for December of the year in which the determination is made.

Under certain conditions, depending on the size of the combined OASDI trust funds relative to estimated disbursements, the applicability and size of a cost-of-living adjustment may be determined under an alternative method, called the "stabilizer provision." In no case, however, are benefits reduced below the level of benefits in the year of determination. Historically, this provision has never been triggered.

Table 2.A18 presents a history of provisions relating to the automatic adjustment of benefits, including a description of the stabilizer provision. In addition, the Table includes a summary history and description of provisions relating to the annual automatic adjustment of (1) the maximum amount of taxable and creditable earnings, (2) the dollar amount needed to establish a quarter of coverage, (3) the bend points defining the AIME brackets in the PIA formula and the PIA brackets in the maximum family benefit formula, and (4) the exempt amounts under the earnings (retirement) test.

All of these adjustments are linked to increases in the level of the national average annual wage, rather than to increases in the CPI. **Table 2.A19** illustrates the cumulative effect of statutory and automatic increases in benefits for workers who have been in benefit status over varying time periods.

Alternative PIA Computation Provisions

Special minimum PIA. Workers with low earnings but steady attachment to the workforce over most of their adult years may qualify for monthly benefits based on the special minimum PIA computation. This computation does not depend on the worker's average earnings, but on the number of coverage years—years in which the worker had earnings equal to or above a specified amount. The level of the special minimum PIA is the same for workers having the same number of coverage years, regardless of age or year of first eligibility. Increases in the special minimum PIA are linked to cost-of-living adjustments (COLAs).

See **Table 2.A12** for additional information on the special minimum PIA.

Windfall Elimination Provision (WEP). The WEP affects persons who receive a pension based on noncovered work after 1956 and Social Security benefits. First eligibility for the noncovered pension and Social Security benefits must be after December 31, 1985 for WEP to apply. WEP reduces the Social Security PIA upon which OASDI benefits are based and affects all benefits paid on that record, except survivors. The WEP reduction ceases when entitlement to the pension payment ends, the wage earner dies, or the wage earner earns a total of 30 years of substantial Social Security earnings. The WEP reduction amount is never more than one-half of the noncovered pension.

A WEP PIA is generally based on 40 percent of the first bend point instead of 90 percent as with the regular PIA:

Example: A retired worker with a noncovered pension of \$2,000 a month and less than 20 years of covered employment attains age 62 in 2003.

Normal PIA, based on AIME of \$800.

$$\$606 \times .90 = \$545.40$$

$$\$194 \times .32 = \$62.08$$

$$\text{PIA} = \$607.40$$

WEP PIA, based on AIME of \$800.

$$\$606 \times .40 = \$242.40$$

$$\$194 \times .32 = \$62.08$$

$$\text{PIA} = \$304.40$$

If a worker has more than 20 years of substantial covered earnings, the WEP PIA begins to increase. With the 21st year of substantial covered earnings, the first bend point percentage is increased by 5 percentage points. This rate of increase applies for each additional year of substantial covered earnings, through the 30th year of substantial earnings at which point WEP no longer applies. After 23 years of substantial coverage, for example, the first bend point percentage would be 55 percent. Thirty years of substantial earnings would yield a first bend point percentage of 90 percent (the normal percentage of the first bend point).

Examples of pensions subject to WEP are U.S. Civil Service Retirement System annuities, retirement benefits based on foreign earnings, and state and local pensions based on noncovered earnings.

Table 2.A11.1 provides more detail about the WEP computation and contains the amounts of substantial earnings for years after 1990. Substantial earnings for earlier years are listed in **Table 2.A12**.

Family maximum provisions. Monthly benefits payable to the worker and family members or to the worker's survivors are subject to a maximum family benefit amount. The family maximum level for retired-worker families or survivor families usually ranges from 150 percent to 188 percent of the worker's PIA. The maximum benefit for disabled-worker families is the smaller of (1) 85 percent of AIME (or 100 percent of PIA, if larger) or (2) 150 percent of the PIA.

Like the formula for determining the PIA, the maximum family benefit formula applicable to a worker depends on the year of first eligibility (that is, the year of attainment of age 62, onset of disability, or death). Once the worker's maximum family benefit amount for the year of first eligibility is determined, it is updated in line with the COLAs.

For information on family maximum provisions, as described here, see **Table 2.A13** (comparison of family maximums to the PIAs on which they are based) and **Table 2.A14** (disability family maximums). **Table 2.A17** shows the maximum family benefit amounts applicable in cases of first eligibility before 1979.

Benefit Types and Levels

Retired and Disabled Workers

The full retirement age (FRA) is the earliest age at which an unreduced retirement benefit is payable (sometimes referred to as the "normal retirement age"). The age for full retirement benefits is scheduled to rise gradually from age 65 to age 67, with the first incremental increase affecting workers who reached age 62 in the year 2000. Workers over age 62 who retire before FRA can receive reduced benefits. The monthly rate of reduction from the full retirement benefit (that is, the PIA) is 5/9 of 1 percent a month for the first 36 months immediately preceding FRA. The reduction rate is 5/12 of 1 percent a month for any additional months. The maximum overall reduction for early retirement will have risen from 20 percent to 30 percent by 2022, when age 67 becomes the full retirement age.

If a disabled worker receives a reduced retirement benefit for months before disability entitlement, the disability benefit is reduced by the number of months for which he or she received the reduced benefit.

For workers who postpone their retirement beyond the full retirement age, benefits are increased for each month of nonpayment beyond that age and age 70. This increase is called a "delayed retirement credit," and is potentially available for any or all months following attainment of the full retirement age (maximum of 60 months for persons who attained age 65 prior to 2003). The annual rate of increase for delayed retirement credits is 7 percent for workers who reach age 62 in 2002, and 7 1/2 percent for workers who reach age 62 in 2003 and 2004. The rate will rise to 8 percent for workers reaching age 62 in 2005 or later.

Spouses and Children of Workers

Spouses receive 50 percent of the worker's PIA (regardless of the worker's actual benefit amount), if the spouse has attained the full retirement age at entitlement to spousal benefits. The spouse of a retired or disabled worker can elect monthly benefits as early as age 62. These benefits are reduced at the rate of 25/36 of 1 percent a month for the first 36 months immediately preceding FRA and 5/12 of 1 percent for each additional month. The maximum overall reduction for early retirement will have risen from 25 percent to 35 percent by 2022, when age 67 becomes the full

retirement age (FRA) for spouses attaining age 62 in that year.

Children of retired or disabled workers are also eligible to receive monthly benefits. The term "child" refers to a child under the age of 18, a child aged 18–19 attending elementary or secondary school full time, or to an adult child, aged 18 or older, who was disabled prior to age 22. In addition, young spouses (that is, those under the age of 62) who care for a worker's entitled child may also be eligible. For purposes of defining young spouses' benefits, the term "child" refers to a child under age 16, or to an adult child of the worker who was disabled prior to age 22. Children of retired or disabled workers can receive up to 50 percent of the worker's PIA, as can young spouses. (The benefit of a young spouse is not reduced for age.) Monthly benefits payable to the spouse and children of a retired or disabled worker are limited to a family maximum amount, as discussed earlier.

Benefits are payable to unmarried divorced spouses of retirement age who were married at least 10 years to the worker. A divorced spouse benefit is excluded from family maximum provisions. Divorced spouses age 62 or older and divorced for 2 or more years (after marriage of 10 or more years) may be independently entitled on the record of the ex-spouse if the ex-spouse could be entitled if he or she applied.

Survivors Benefits

Widows and widowers of fully insured workers are eligible for unreduced benefits at full retirement age (FRA). As with retired workers and spouses, widow(er)s' FRA will gradually increase to age 67. Widows and widowers can elect reduced monthly benefits at age 60 or, if disabled, as early as age 50. Surviving divorced spouses can also receive benefits if married to the worker for at least 10 years and not remarried before age 60 (age 50 if disabled).

For survivors whose full benefit retirement age is 65, the monthly rate of reduction for the first 60 months immediately preceding FRA is 19/40 of 1 percent of the worker's PIA, with a maximum reduction of 28.5 percent at age 60. For survivors whose full benefit retirement age is over 65, the amount of reduction for each month prior to FRA is adjusted accordingly to ensure that the maximum reduction at age 60 remains 28.5 percent of the worker's PIA.

Benefits for widows and widowers are increased if the deceased worker delayed retirement beyond the FRA. In these cases, the survivor benefits include any delayed retirement credits the deceased worker had earned. Conversely, if the worker had elected early retirement, widow(er)s' benefits are limited for widow(er)s first entitled to survivors benefits at age 62 or later. For these beneficiaries, the benefit is the higher of 82.5 percent of the worker's PIA or the amount the worker would be receiving if still

alive. Disabled widow(er)s ages 50–60 receive the age 60 widow's rate (71.5 percent of PIA) regardless of their age at the time of entitlement.

Children of deceased workers and mothers and fathers under FRA are eligible to receive monthly benefits up to 75 percent of the worker's PIA if the worker died either fully or currently insured. Mothers and fathers must be caring for the worker's entitled child who is either under age 16 or disabled. A dependent parent aged 62 or older is eligible for monthly benefits equal to 82.5 percent of the worker's PIA. Each of two dependent parents can qualify for benefits equal to 75 percent of the deceased worker's PIA. Monthly benefits payable to survivors are reduced to conform to the family maximum benefit payable on the deceased worker's account. Benefits for a surviving divorced spouse, however, are disregarded when computing the maximum family benefit.

See **Table 2.A20** for more information on the increases in the full (or normal) retirement age for workers. **Table 2.A21** describes age-related reductions for dependent beneficiaries, as does **Table 2.A22** (widow(er)s). Additionally, **Tables 2.A23** and **2.A24** show the history of legislation relating to special monthly benefits payable to certain persons born before January 2, 1900. **Table 2.A25** summarizes the history of certain OASDI benefits other than monthly benefit payments. **Table 2.A26** presents illustrative monthly benefit amounts for selected beneficiary families, based on hypothetical earnings histories representing five different earnings levels. **Table 2.A27** shows minimum and maximum monthly benefits payable to retired workers retiring at age 62 in various years beginning with 1957 (the first full year benefits became available at age 62). **Table 2.A28** shows minimum and maximum monthly benefits payable to retired workers retiring at age 65 in various years beginning with 1940.

Provisions for Railroad Retirement Board Beneficiaries

The OASDI tables do not include a number of persons receiving Railroad Retirement benefits who would be eligible for Social Security benefits had they applied. The reason they have not applied is that receipt of a Social Security benefit would reduce their Railroad Retirement benefit by a like amount. The number of persons is not available but is estimated to be less than 100,000.

The Railroad Retirement Act of 1974, effective January 1, 1975, provided that the regular annuity for employees with 10 or more years of railroad service who retired after December 31, 1974, will consist of two components.

Public Law 107-90 (the 2001 amendments to the Railroad Retirement Act of 1974) effective January 1, 2002, revised the railroad service work requirement. The railroad service work requirement is 10 or more years of railroad

service or, effective January 1, 2002, at least 5 years of railroad service after December 31, 1995. The two components are unchanged:

- Tier 1. A basic Social Security level component equivalent to what would be paid under the Social Security Act on the basis of the employee's combined railroad and nonrailroad service, reduced by the amount of any monthly benefit under OASDI actually paid on the basis of nonrailroad work; and
- Tier 2. A "private pension" component payable over and above the Social Security equivalent, calculated on the basis of the number of years of railroad service.

Effect of Current Earnings on Benefits

Beneficiaries under the full retirement age (FRA) with earnings in excess of certain exempt amounts may have all or part of their benefits withheld as a result of the annual earnings test (AET) provisions of the Social Security Act. For those at or above FRA, however, there have been recent changes to AET provisions. Amendments in 1996 eased the impact of AET provisions, while changes in 2000 removed the AET altogether for beneficiaries FRA or older. Public Law 104-121, enacted March 29, 1996, substantially raised the exempt amounts under the annual earnings test for persons who have reached full retirement age. These amounts are \$12,500 in 1996; \$13,500 in 1997; \$14,500 in 1998; \$15,500 in 1999; \$17,000 in 2000; \$25,000 in 2001; and \$30,000 in 2002. After 2002, the annual exempt amount is indexed to the growth in average wages. In 2003, the indexed amount is \$30,720. Benefits are withheld at the rate of \$1 in benefits for every \$3 of earnings above the FRA exempt amount. Public Law 106-182, enacted April 7, 2000, eliminated the earnings test beginning with the month a beneficiary reaches FRA. In determining annual earnings for purposes of the annual earnings test, only earnings before the month of attainment of FRA will be counted.

Public Laws 104-121 and 106-182 did not change the annual exempt amount for beneficiaries who are under FRA throughout the year. This annual amount continues to be pegged to increases in average wages. The amount was \$11,280 in 2002 and is \$11,520 in 2003. When the annual earnings limit affects working beneficiaries under FRA, benefits are withheld at the rate of \$1 for every \$2 of earnings above the exempt amount.

Individuals have the option to receive reduced benefits under a monthly earnings test if it is to their advantage to do so. This option is usually exercised in the first year of retirement, because in that year the monthly test permits payment for some months even if the annual earnings limit is greatly exceeded. Under the monthly test, beneficiaries receive a full monthly benefit for months in which they do not earn over an amount equal to 1/12 of the annual earn-

ings limit. The monthly earnings test is applied to the self-employed based on hours they work instead of monthly earnings. Generally, beneficiaries are eligible for the monthly earnings test in only one year.

Table 2.A29 provides historical detail on the retirement test.

Beneficiaries entitled on the basis of their own disability—disabled workers, disabled adult children, and disabled widow(er)s—are not subject to the earnings test. Substantial earnings by disabled beneficiaries, however, may indicate that they are able to do work that constitutes substantial gainful activity (SGA) and are therefore no longer disabled. Although other factors are considered, numerical earnings thresholds are used in a determination of SGA.

Table 2.A30 provides historical thresholds for determining substantial gainful activity (SGA).

Taxation of Benefits

Up to 85 percent of Social Security benefits may be subject to federal income tax depending on the beneficiary's income, marital status, and filing status. The definition of income for this provision is as follows: Adjusted gross income (before Social Security or Railroad Retirement benefits are considered), plus tax-exempt interest income, with further modification of adjusted gross income in some cases involving certain tax provisions of limited applicability among the beneficiary population, plus one-half of Social Security and Tier 1 Railroad Retirement benefits.

For married beneficiaries filing jointly with adjusted gross income under \$32,000 a year, no Social Security benefits are subject to taxation. If adjusted gross income exceeds \$32,000 but is under \$44,000, the amount of benefits included in gross income is the lesser of one-half of income over \$32,000. If a couple's adjusted gross income exceeds \$44,000, the amount of benefits included in gross income is 85 percent of income over \$44,000 plus the lesser of \$6,000 or one-half of benefits. However, no more than 85 percent of benefits are subject to income tax. The income thresholds for single beneficiaries are \$25,000 and \$32,000.

If members of a married couple are filing separately, they do not have a minimum threshold if they lived together any time during the tax year. The amount of benefits included in gross income is the lesser of 85 percent of Social Security or Tier 1 Railroad Retirement benefits, or 85 percent of all income as defined above. Like all matters dealing with tax liability, taxation of Social Security benefits fall under the jurisdiction of the Internal Revenue Service.

Table 2.A31 shows the history of provisions related to taxation of Social Security benefits. **Table 2.A32** offers examples to illustrate when benefits are taxable and the amount subject to taxation.

Supplemental Security Income

Program Overview

The Supplemental Security Income (SSI) program provides income support to persons aged 65 or older, blind or disabled adults, and blind or disabled children. Eligibility requirements and federal payment standards are nationally uniform. The 2003 federal SSI benefit rate for an individual living in his or her own household and with no other countable income is \$552 monthly; for a couple (with both husband and wife eligible), the SSI benefit rate is \$829 monthly.

Payments under SSI began in January 1974. It replaced the former federal-state adult assistance programs in the 50 states and the District of Columbia. Under SSI each eligible person is provided a monthly cash payment based on a statutory federal benefit rate. Since 1975, these rates have been increased by the same percentage, as the cost-of-living increases in OASDI benefits. If an individual or couple is living in another person's household and is receiving both food and shelter from the person in whose household they are living, the federal benefit rate is reduced by one-third. This is done instead of determining the actual dollar value of the in-kind support and maintenance.

For institutionalized persons, the eligibility requirements and payment standards depend on the type of institution. With some exceptions, inmates of public institutions are ineligible for SSI. For persons institutionalized for a complete calendar month, a maximum federal SSI payment of \$30 per month applies where (1) the institution receives a substantial part of the cost of the person's care from the Medicaid program, or (2) the institution receives payments from private health insurance on behalf of a recipient under age 18. Other eligible persons in institutions may receive up to the full federal benefit rate.

The federal payment is based on the individual's countable income. The first \$20 monthly in OASDI benefits or other earned or unearned income is not counted. Also excluded is \$65 monthly of earnings plus one-half of any earnings above \$65. For example, a person living in his or her own household, whose sole income is a \$200 monthly OASDI benefit, would receive \$372 in federal SSI payments:

$$\$552 - (\$200 - \$20) = (\$552 - \$180) = \$372.$$

A person whose income consists of \$500 in gross monthly earnings would receive \$344.50 in federal SSI payments:

$$\begin{aligned} ((\$500 - \$85) / 2) &= \$207.50 \text{ countable earnings} \\ \text{FBR } \$552 - \$207.50 &= \$344.50 \text{ federal SSI} \end{aligned}$$

Individuals generally are not eligible for SSI if they have resources in excess of \$2,000 (or \$3,000 for a couple). Certain resources are excluded, most commonly a home, an automobile, and household goods and personal effects of reasonable value. States have the option to supplement the federal SSI payment for all or selected categories of persons, regardless of previous state program eligibility.

SSI: History Of Provisions

Basic Eligibility Requirements

1972 (Public Law 92-603, enacted October 30). An individual may qualify for payments on the basis of age, blindness, or disability.

Aged: Any person aged 65 or older.

Blind: Any person with 20/200 or less vision in the better eye with the use of correcting lenses, or with tunnel vision of 20 degrees or less. An individual transferred from a state Aid to the Blind (AB) program is eligible if he/she received such state aid in December 1973 and continues to meet the October 1972 state definition of blindness.

Disabled: Any person unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment expected to result in death or that has lasted or can be expected to last for a continuous period of at least 12 months. For a child under age 18, eligibility is based on disability of severity comparable with that of an adult. An individual transferred from a state Aid to the Permanently and Totally Disabled (APTD) program to SSI is also eligible if he/she received such state aid in December 1973 and continues to meet the October 1972 state definition of disability.

1973 (Public Law 93-233, enacted December 31). Only persons who had received APTD before July 1973 and were on the rolls in December 1973 may receive SSI on the basis of the state definition of disability; those who became eligible for state aid from July to December 1973 must meet the federal definition of disability.

1980 (Public Law 96-265, enacted June 9). A disabled recipient who loses federal SSI eligibility because of earnings at the substantial gainful activity level may continue to receive a special benefit under section 1619 and retain eligibility for Medicaid under Title XIX of the Social Security Act. This special benefit status may continue as long as the recipient has the disabling

impairment and meets all nondisability SSI eligibility criteria. states have the option of supplementing this special benefit.

This provision of the law was in effect from January 1, 1981, through December 31, 1983. Beginning in January 1984, under a 1-year demonstration project, this provision was continued for persons already eligible for either regular SSI payments or special monthly benefits.

1984 (Public Law 98-460, enacted October 9). The special benefit and Medicaid provisions of the 1980 legislation were extended through June 30, 1987 (retroactive to January 1, 1984).

1986 (Public Law 99-643, enacted November 10). The special benefit and Medicaid provisions of the 1980 amendments are made permanent. The provisions were amended effective July 1, 1987, with significant modifications to simplify administration and to allow free movement between regular SSI disability payments and either the special cash benefit or Medicaid eligibility under section 1619. The distinction between a disabled person eligible for regular SSI payments and one eligible for 1619(a) is that the latter has several months with gross earnings above the SGA level. Previously, section 1619(a) status required completion of a trial work period and the determination that the work was SGA.

1996 (Public Law 104-193, enacted August 22). For individuals under age 18, the “comparable severity” standard is eliminated and replaced with a requirement that a child be considered disabled if he/she has a medically determinable impairment that results in “marked and severe functional limitations,” and meets the existing statutory duration requirement. The law also eliminates references to “maladaptive behaviors” in the Listing of Impairments for children, and discontinues the use of individualized functional assessments for children.

SSI eligibility is prohibited for an individual in any month during which such an individual is a fugitive felon, fleeing prosecution, or violating state or federal conditions of probation or parole. In addition, SSI eligibility is prohibited for 10 years for those convicted of fraudulently claiming residence to obtain benefits simultaneously in two or more states.¹

1. This last provision was repealed in 1999 by Public Law 106-169 and replaced with a provision providing for nonpayment of benefits for up to 24 months for knowingly making false or misleading statements regarding material facts.

Other Eligibility Provisions

Citizenship and Residence

1972 (Public Law 92-603, enacted October 30). The individual must reside within one of the 50 states or the District of Columbia and be a citizen or an alien lawfully admitted for permanent residence or permanently residing in the United States under color of law. Persons living outside the United States for an entire calendar month lose their eligibility for such a month.

1976 (Public Law 94-241, enacted March 24). Eligibility for SSI is extended to residents of the Northern Mariana Islands, effective January 9, 1978.

1980 (Public Law 96-265, enacted June 9). The income and resources of the immigration sponsors of aliens applying for SSI are considered in determining eligibility for and the amount of payment. After allowances for the needs of the sponsor and his/her family, the remainder is deemed available for the support of the alien applicant for a 3-year period after admission to the United States for permanent residence. This provision does not apply to those who become blind or disabled after admission, to refugees, or to persons granted political asylum. (See section “Deeming of Income and Resources” for subsequent changes to sponsor-to-alien deeming provisions.)

1989 (Public Law 101-239, enacted December 19). SSI eligibility is continued for a disabled or blind child who was receiving SSI benefits while living in the United States and is now living with a parent who is a member of the U.S. Armed Forces assigned to permanent duty ashore outside the United States, but not where the parent is stationed in Puerto Rico or the territories and possessions of the United States.

1993 (Public Law 103-66, enacted August 10). Above provision made applicable where the parent is a member of the U.S. Armed Forces and stationed in Puerto Rico or the territories and possessions of the United States.

1996 (Public Law 104-193, enacted August 22). Prohibits SSI eligibility for anyone who is not a U.S. citizen or national unless they are in a “qualified alien” category and meet one of certain exceptions such as lawful permanent residents who earn or can be credited with 40 qualifying quarters of earnings, certain refugee type categories eligible for up to 5 years of time limited eligibility, or active duty U.S. military or veterans and their spouses and children. Extends eligibility for aliens receiving SSI as of August 22, 1996 (the enactment date of the law) for 1 year after the enactment date for those aliens found ineligible under the new standards.

(Public Law 104-208, enacted September 30). Amends Public Law 104-193 to add to the list of “qualified aliens” certain noncitizens (and their children) who have been battered or subjected to extreme cruelty by

a spouse or parent or a member of the spouse's or parent's family living in the same household.

1997 (Public Law 105-18, enacted June 12). Extends eligibility for aliens receiving SSI as of August 22, 1996, until September 30, 1997, for those found ineligible under the new alien standards of Public Law 104-193.

(Public Law 105-33, enacted August 5). Further amends Public Law 104-193 to add Cuban and Haitian entrants, and the child of a parent who has been battered or subjected to extreme cruelty, to the list of qualified aliens. Provides that Cuban and Haitian entrants and Amerasian immigrants qualify for time limited eligibility, and increases the time limit from 5 to 7 years for all time-limited categories. Additional exceptions are added for qualified aliens: (1) lawfully residing in the United States and receiving SSI benefits on August 22, 1996; and (2) lawfully residing in the United States on August 22, 1996 and meeting the definition of blind or disabled in the Social Security Act.

Certain noncitizen American Indians are excepted from the alien nonpayment provisions of Public Law 104-193.

Extends eligibility for "nonqualified aliens" receiving SSI as of August 22, 1996, until September 30, 1998.

1998 (Public Law 105-306, enacted October 28). Permanently extends eligibility of all remaining "nonqualified aliens" who were receiving SSI benefits when Public Law 104-193 was enacted on August 22, 1996.

2000 (Public Law 106-386, enacted October 28). Noncitizens, regardless of their immigration status, may be eligible for SSI to the same extent as refugees, if they are determined to be victims of "severe forms of trafficking in persons."

Other Benefits

1980 (Public Law 96-272, enacted June 17). SSI applicants and recipients are not required as a condition of eligibility to elect to receive Veterans Administration pensions under the Veterans and Survivors' Pension Improvement Act of 1978 if the state of residence lacks a medically-needy program under Title XIX.

Drug Addiction and Alcoholism (DA&A)

1972 (Public Law 92-603, enacted October 30). Any disabled individual who has been medically determined to be an alcoholic or drug addict must accept appropriate treatment, if available, in an approved facility and demonstrate compliance with conditions and requirements for treatment.

SSI payments are required to be made through a representative payee—another person or public or private

agency designated by SSA to manage the recipient's benefit on his/her behalf.

1994 (Public Law 103-296, enacted August 15). Any individual who is receiving SSI based on a disability where drug addiction or alcoholism is a contributing factor material to the finding of disability must comply with the DA&A treatment requirements. The individual must accept appropriate treatment when it is available and comply with the conditions and terms of treatment. Instances of noncompliance with the requirements result in progressively longer payment suspensions. Before payments can resume, the individual must demonstrate compliance for specific periods; 2 months, 3 months, and 6 months, respectively, for the first, second, third, and subsequent instances of noncompliance. An individual who is not in compliance with the DA&A treatment requirements for 12 consecutive months shall not be eligible for payments; however, this does not prevent such individuals from reapplying and again becoming eligible for payments.

SSI disability payments based on DA&A are also limited to a total of 36 benefit months (beginning March 1995) regardless of whether appropriate treatment is available. Months for which benefits are not due and received do not count towards the 36-month limit.

Payments based on DA&A must be made to a representative payee. Preference is required to be given to community based nonprofit social service agencies and federal, state, or local government agencies in representative payee selection. These agencies when serving as payees for individuals receiving payments based on DA&A may retain the lesser of 10 percent of the monthly benefit or \$58 (indexed to the consumer price index (CPI)) as compensation for their services.

Establishment of one or more referral and monitoring agencies for each state is required.

1996 (Public Law 104-121, enacted March 29). An individual is not considered disabled if DA&A is a contributing factor material to a finding of disability.

Applies DA&A representative payee requirements enacted under Public Law 103-296 to disabled SSI recipients who have a DA&A condition and are incapable of managing their benefits. In addition, these recipients shall be referred to the appropriate state agency administering the state plan for substance abuse treatment.

Institutionalization

1972 (Public Law 92-603, enacted October 30). An individual who is an inmate of a public institution is ineligible for SSI payments unless the institution is a facility approved for Medicaid payments and is receiving such payments on behalf of the person. Under *regulations*,

the Medicaid payment must represent more than 50 percent of the cost of services provided by the facility to the individual.

1976 (Public Law 94-566, enacted October 20). An inmate of a publicly operated community residence serving no more than 16 persons may, if otherwise eligible, receive SSI.

1983 (Public Law 98-21, enacted April 20). Payments may be made to persons who are residents of public emergency shelters for the homeless for a period of up to 3 months in any 12-month period.

1986 (Public Law 99-643, enacted November 10). Effective July 1, 1987, disabled or blind recipients who were receiving special SSI payments or had special SSI recipient status under section 1619 in the month preceding the first full month of institutionalization, may receive payments based on the full federal benefit rate for the initial 2 full months of institutionalization, if they reside in certain public medical, psychiatric, or Medicaid facilities or in private Medicaid facilities.

1987 (Public Law 100-203, enacted December 22). Effective January 1, 1988, payments may be made to persons who are residents of public emergency shelters for the homeless, for up to 6 months in a 9-month period.

Effective July 1, 1988, continued payment of SSI benefits for up to 3 months is permitted, at the rate that was applicable in the month prior to the first full month of institutionalization, for individuals whose expected institutional stay on admission is not likely to exceed 3 months, as certified by a physician, and for whom the receipt of benefits is necessary to maintain living arrangements to which they may return.

1996 (Public Law 104-193, enacted August 22). Effective December 1996, institutionalized children under age 18 whose private health insurance is making payments to the institution may receive no more than \$30 per month in federal SSI.

Vocational Rehabilitation and Treatment

1972 (Public Law 92-603, enacted October 30). Blind or disabled individuals receiving federal SSI benefits who are under age 65 must be referred to the state agency providing services under the Vocational Rehabilitation Act and must accept the services offered. States are reimbursed for the cost of services.

1976 (Public Law 94-566, enacted October 20). Blind or disabled children under age 16 must be referred to the state agency administering crippled children's services or to another agency designated by the state. States are reimbursed for the cost of services.

Of funds provided for these services, at least 90 percent must be used for children under age 6 or for those who have never attended public schools.

1980 (Public Law 96-265, enacted June 9). Disabled SSI recipients who medically recover while enrolled in approved vocational rehabilitation programs of state VR agencies may continue to receive benefits during their participation in such programs if the Commissioner of Social Security determines that continuation in the program will increase the probability that they leave the rolls permanently.

1981 (Public Law 97-35, enacted August 13). Funding no longer provided under Title XVI for medical, social, developmental, and rehabilitative services to disabled or blind children.

Reimbursement for the cost of rehabilitation services will only be made if the services result in the recipient's return to work for a continuous period of 9 months. The work must be at the substantial gainful activity earnings level.

1984 (Public Law 98-460, enacted October 9). Authorizes the reimbursement of states for the cost of VR services provided to individuals who (1) continue to receive benefits after medical recovery because they are participating in a state VR program or (2) refuse, without good cause, to continue in or cooperate with the VR program in which they had been participating.

1987 (Public Law 100-203, enacted December 22). Extends the provision for continuation of payments to disabled SSI recipients who have medically recovered while enrolled in an approved vocational rehabilitation program to include blind SSI recipients.

1990 (Public Law 101-508, enacted November 5). Reimbursement authorized for the cost of vocational rehabilitation services provided in months in which the individual was not receiving federal SSI payments, if:

- SSI recipient status for Medicaid eligibility purposes was retained under work incentive provisions, or
- Benefits were in suspense² status (for a reason other than cessation of disability or blindness), or
- Federally administered state supplementation was received.

Extends benefit continuation provision to disabled SSI recipients who medically recover while participating in a non-state VR program.

1999 (Public Law 106-170, enacted December 17). Establishes a Ticket to Work and Self-Sufficiency program that will provide SSI (and OASDI) disability beneficia-

2. Recipients who have lost eligibility for SSI benefits for fewer than 13 consecutive months are in suspended payment status.

ries with a ticket that can be used to obtain vocational rehabilitation services, employment services, or other support services, from an employment network (EN) of their choice.

An EN chooses one of the two EN payment options at the time it submits an application to SSA to become an EN. The chosen payment system will apply to all beneficiaries served. An EN can elect to receive payment under the:

- Outcome payment system, under which it can receive payment for up to 60 outcome payment months; or
- Outcome-milestone payment system, under which it can receive payment for up to four milestones in addition to outcome payments. These milestones must occur before the EN enters the first month for which it is eligible for an outcome payment. Four milestone payments plus 60 months of reduced outcome payments equal 85 percent of the total that would be available if the EN chose the outcome payment system.

The four milestones are based on gross earnings exceeding the substantial gainful activity level for specified months. An outcome payment month is any month in which SSA does not pay any federal cash disability cash benefits to a beneficiary because of work or earnings.

Continuing Disability Reviews and Eligibility Redeterminations

1994 (Public Law 103-296, enacted August 15). During each of fiscal years 1996, 1997, and 1998, requires SSA to conduct continuing disability reviews (CDRs) on a minimum of 100,000 SSI recipients. In addition, during the same period, requires SSA to redetermine the SSI eligibility of at least one-third of all child SSI recipients who reach age 18 after April 1995 during the 1-year period following attainment of age 18. Redeterminations for persons turning age 18 could count toward the 100,000 CDR requirement.

1996 (Public Law 104-193, enacted August 22). Repeals the requirement that SSA redetermine the eligibility of at least one-third of all child SSI recipients who reach age 18 after April 1995 during the 1-year period following attainment of age 18.

Requires a CDR:

- At least once every 3 years for SSI recipients under age 18 who are eligible by reason of an impairment that is likely to improve, and
- Not later than 12 months after birth for recipients whose low birth weight is a contributing factor material to the determination of their disability.

Requires eligibility redetermination for all child SSI recipients eligible for the month before the month in which they attain age 18.

Requires redetermination of eligibility for children considered disabled based on an individual functional assessment and/or consideration of maladaptive behavior.

Requires the representative payee of a child SSI recipient whose continuing eligibility is being reviewed to present evidence that the recipient is receiving treatment that is considered medically necessary and available for the condition which was the basis for providing SSI benefits.

1997 (Public Law 105-33, enacted August 5). Modifies provision of Public Law 104-193 to extend from 12 to 18 months the period for redetermining the disability of children under age 18 under the new childhood disability standard.

Modifies provision of Public Law 104-193 to permit SSA to schedule a CDR for a disabled child for whom low birth weight is a contributing factor material to the determination of disability, at a date after the child's first birthday if the Commissioner determines the impairment is not expected to improve within 12 months of the child's birth.

Modifies provision of Public Law 104-193 to provide SSA the authority to make redeterminations of disabled childhood recipients who attain age 18, more than 1 year after the date such recipient attains age 18.

1999 (Public Law 106-170, enacted December 17). Prohibits the initiation of a CDR during the period that a recipient is "using a ticket" under the Ticket to Work program.

Deeming of Income and Resources

1972 (Public Law 92-603, enacted October 30). Deeming occurs when the income and resources of certain family members living in the same household with the SSI recipient are considered in determining the amount of the SSI payment. These family members are the ineligible spouse of an adult recipient and the ineligible parents of a child recipient under age 21.

After deduction of personal allocations for the spouse (or parents) and for ineligible children in the home, and after application of income exclusions, any remaining income of the spouse (or parents) is added to the income of the eligible person.

1980 (Public Law 96-265, enacted June 9). Children aged 18 or older are not subject to parental deeming.

Sponsor's income and resources deemed to an alien for 3 years.

1989 (Public Law 101-239, enacted December 19). Disabled children receiving home care services under state Medicaid programs, who are ineligible for SSI because of deeming of parental income, and who received SSI benefits limited to \$30 while in a medical treatment facility, may receive the \$30 monthly allowance that would be payable if the recipient were institutionalized.

1993 (Public Law 103-152, enacted November 24). Sponsor-to-alien deeming period extended from 3 years to 5 years, effective January 1, 1994, through September 30, 1996.

Considers an ineligible spouse or parent who is absent from the household due to active military service to be a member of the household for deeming purposes.

1996 (Public Law 104-193, enacted August 22). Deeming of income and resources from an immigration sponsor to a noncitizen continues until citizenship, with exceptions for those who earn, or can be credited with, 40 qualifying quarters of earnings. Effective for those whose sponsor signs a new legally enforceable affidavit of support.

(Public Law 104-208, enacted September 30). Amends Public Law 104-193 to add two exceptions to the sponsor-to-alien deeming:

- Provides that if the noncitizen is indigent and would be unable to obtain food and shelter without SSI benefits even after receiving support from the sponsor, then only the amount of income and resources actually provided by the sponsor will be counted for a 12-month period after a determination of indigence; and
- Provides that in certain cases, deeming would not apply for a 12-month period (with some options for extension) if the noncitizen (or his/her children) has been battered or subjected to extreme cruelty by family members.

1997 (Public Law 105-33, enacted August 5). Amends Public Law 104-208 to add an additional exception to sponsor-to-alien deeming when the parent of a noncitizen has been battered or subjected to extreme cruelty by family members.

Federal Benefit Rates

Basic benefit standards are used in computing the amount of federal SSI payments. Benefit levels differ for individuals and couples living in households and for persons in Medicaid institutions. Individuals or couples living in their own households receive the full federal benefit. If an individual or couple is living in another person's household and receiving support and maintenance there, the federal benefit is reduced by one-third. The federal benefit rates for persons in households are increased annually to reflect

increases in the cost of living. Legislation affecting the level of federal benefit rates since the inception of the SSI program are summarized in Table 2.B1.

Windfall Offset

1980 (Public Law 96-265, enacted June 9). Offset (by reduction of retroactive Social Security benefits) to prevent persons whose initial OASDI payment is retroactive from receiving more in total benefits than if they were paid the benefits when regularly due.

1984 (Public Law 98-617, enacted November 8). Offset provision expanded to allow for reduction of retroactive SSI benefits and to apply in cases of OASDI benefit reinstatement.

Proration of Benefit

1982 (Public Law 97-248, enacted September 3). Benefit for first month of eligibility to be prorated by the number of days in the month for which an application has been filed and there is eligibility.

1996 (Public Law 104-193, enacted August 22). Changes the effective date of an SSI application to the first day of the month following the date on which the application was filed or on which the individual first becomes eligible, whichever is later. This, in effect, eliminates prorated payments in initial claims.

Retrospective Monthly Accounting

1981 (Public Law 97-35, enacted August 13). Changes the method of computing the SSI benefit to one under which the benefit amount is computed on a monthly basis and is based on income and other characteristics in the previous (or second previous) month.

1984 (Public Law 98-369, enacted July 18). Changes the method of computing the SSI benefit to persons receiving Title II payments. The effect of the increased Title II income at the time of the cost-of-living increase is not delayed as it otherwise would be.

1987 (Public Law 100-203, enacted December 22). Provides an exception to retrospective monthly accounting so that amounts received under Aid to Families with Dependent Children (AFDC), foster care, refugee cash assistance, Cuban-Haitian entrant assistance, or general and child welfare assistance provided by the Bureau of Indian Affairs are counted only in the month received.

1993 (Public Law 103-66, enacted August 10). Changes the method of computing the SSI benefit to persons receiving the value of the one-third reduction. The effect of the increased value at the time of the cost-of-living increase is not delayed as it otherwise would be. Effective January 1995.

Uncashed Checks

1981 (Public Law 97-35, enacted August 13). States that have federally administered supplements to be credited their share of SSI checks that remain unnegotiated for 180 days.

1987 (Public Law 100-86, enacted August 10). SSI checks now unnegotiable after 1 year. States are credited their share of SSI checks after 1 year rather than 180 days.

Rounding of Payment Amounts

1982 (Public Law 97-248, enacted September 3). Cost-of-living adjustments in the federal SSI benefit and income eligibility levels are to be rounded to the next lower whole dollar, after the adjustment is calculated. Subsequent cost-of-living adjustments will be calculated on the previous year's benefit standard before rounding.

Penalties Resulting in Nonpayment of Benefits for False or Misleading Statements

1999 (Public Law 106-169, enacted December 14). Provides for the nonpayment of OASDI and SSI benefits (6, 12 and 24 months, respectively, for the first, second, and third or subsequent violations) for individuals found to have knowingly made a false or misleading statement of material fact for use in determining eligibility for benefits.

Exclusions from Income

General Exclusions

1972 (Public Law 92-603, enacted October 30). The first \$60 of earned or unearned income per calendar quarter for an individual or couple; the next \$195 and one-half the remainder of quarterly earned income. Unearned income includes Social Security benefits, other government or private pensions, veterans' benefits, and workers' compensation.

1981 (Public Law 97-35, enacted August 13). The first \$20 of earned or unearned income per month for an individual or couple; the next \$65 and one-half the remainder of monthly earned income. Unearned income includes Social Security benefits, other government or private pensions, veterans' benefits, and workers' compensation.

2000 (Public Law 106-554, enacted December 21). Earnings of persons defined as Social Security statutory employees are treated as self-employment income for SSI purposes.

Special Exclusions

1972 (Public Law 92-603, enacted October 30). Any amount of tax rebate issued to an individual by any

public agency that is based on either real property or food purchase taxes.

Grants, scholarships, and fellowships used to pay tuition and fees at an educational institution.

Income required for achieving an approved self-support plan for blind or disabled persons.

Work expenses of blind persons.

For blind persons transferred from state programs to SSI, income exclusions equal to the maximum amount permitted as of October 1972 under the state programs.

Irregularly or infrequently received income totaling \$60 or less of unearned income and \$30 of earned income in a calendar quarter.

Payment for foster care of ineligible child residing in recipient's home through placement by a public or private nonprofit child care agency.

One-third of any payment received from an absent parent for the support of a child eligible for SSI.

Certain earnings of a blind or disabled child under age 22 regularly attending an educational institution.

State or local government cash payments based on need and designed to supplement SSI payments.

1976 (Public Law 94-331, enacted June 30). Disaster assistance from income for 9 months and application of one-third reduction for 6 months for certain victims of disasters occurring between January 1, 1976, and December 31, 1976.

(Public Law 94-566, enacted October 20). Any assistance based on need (including vendor payments) made to or on behalf of SSI recipients, which is paid and wholly funded by state or local governments.

The value of assistance provided under certain federal housing programs.

1977 (Public Law 95-113, enacted September 29). Food stamps, federally donated food, and the value of free or reduced price food for women and children under the Child Nutrition Act and National School Lunch Act.

(Public Law 95-171, enacted November 12). Provisions for exclusions for support and maintenance under the Disaster Relief and Emergency Assistance Act of 1974 extended on a permanent basis. Effective January 1, 1978.

1980 (Public Law 96-222, enacted April 1). Earned income tax credit treated as earned income (temporarily excluded from 1975 through 1980).

(Public Law 96-265, enacted June 9). Remunerations received in sheltered workshops and work activity cen-

ters are considered earned income and qualify for earned income exclusions.

Impairment-related work expenses paid by the individual (including cost for attendant care, medical equipment, drugs, and services necessary to control an impairment) are deducted from earnings when determining if an individual is engaging in substantial gainful activity. Impairment-related work expenses are excluded in calculating income for benefit purposes if initial eligibility for benefits exists on the basis of countable income without applying this exclusion.

1981 (Public Law 97-35, enacted August 13). Modifies provision under which irregularly or infrequently received income is excluded to conform to change from quarterly to monthly accounting; amounts excludable: \$20 or less of unearned income and \$10 of earned income in a month.

1982 (Public Law 97-377, enacted December 21). From December 18, 1982, to September 30, 1983, certain home energy assistance payments are excluded if a state agency certified that they are based on need.

1983 (Public Law 97-424, enacted January 6). Support or maintenance assistance (including home energy assistance) provided in kind by a nonprofit organization or in cash or in kind by certain providers of home energy is excluded if the state determines that the assistance is based on need. Provision is applicable through September 1984.

Certain home energy assistance payments are excluded if a state agency certified that the assistance is based on need. Provision is applicable through June 1985.

1984 (Public Law 98-369, enacted July 18). The 1983 provisions for support and maintenance and home energy assistance continue to October 1, 1987.

1986 (Public Law 99-498, enacted October 17). Educational assistance used for educational expenses under the Higher Education Act of 1965 as amended.

1987 (Public Law 100-203, enacted December 22). The 1983 provisions for support and maintenance and home energy assistance made permanent.

Excludes death payments (for example, proceeds from life insurance) from SSI income determinations to the extent they were spent on last illness and burial.

Modifies the 1982 resource exclusion for burial funds to extend the exclusion to any burial fund of \$1,500 or less maintained separately from all other assets, thereby allowing interest to be excluded from income if retained in the fund.

1988 (Public Law 100-383, enacted August 10). Restitution payments made to Japanese internees and relocated Aleutians.

1989 (Public Law 101-239, enacted December 19). Interest on agreements representing the purchase of an excluded burial space.

Payments from the Agent Orange Settlement.

Value of a ticket for domestic travel received as a gift and not cashed.

1990 (Public Law 101-508, enacted November 5). Earned income tax credit (including the child health insurance portion).

Payments received from a state-administered fund established to aid victims of crime.

Impairment-related work expenses excluded from income in determining initial eligibility for benefits.

Payments received as state or local government relocation assistance.

Payments received under the Radiation Exposure Compensation Act.

Redefines as earned income, royalties earned in connection with any publication of the individual's work and honoraria received for services rendered (previously defined as unearned income).

1993 (Public Law 103-66, enacted August 10). Hostile fire pay to members of the uniformed services.

Payments received as state or local government relocation assistance made permanent.

1994 (Public Law 103-286, enacted August 1). Payments to victims of Nazi persecution.

1998 (Public Law 105-285, enacted October 27). Funds made available to an SSI recipient by a state or local government or a nonprofit organization as part of the Individual Development Account demonstration project.

(Public Law 105-306, enacted October 28). In-kind gifts to children with life-threatening conditions by tax-exempt organizations not converted to cash.

The first \$2,000 annually of cash gifts by tax-exempt organizations to, or for the benefit of, individuals under age 18 with life-threatening conditions.

(Public Law 105-369, enacted November 12). Payments made under the Ricky Ray Hemophilia Relief Fund Act of 1998.

2000 (Public Law 106-554, enacted December 21). Interest on funds deposited in an individual development account.

Any adjustments made to prior payments from other federal programs to account for the error in the computation of the consumer price index during 1999.

2001 (Public Law 107-16, enacted June 7). The refundable child tax credit is excluded in determining eligibility for means-tested programs, including SSI.

Resources

1972 (Public Law 92-603, enacted October 30). Countable resources limited to \$1,500 or less for an individual and to \$2,250 or less for a couple.

1984 (Public Law 98-369, enacted July 18). Limit on countable resources raised by \$100 a year for individuals and \$150 a year for couples, beginning in calendar year 1985 through 1989. The respective limits would become \$2,000 for an individual and \$3,000 for a couple in 1989 and thereafter.

1999 (Public Law 106-169, enacted December 14). Includes generally in the countable resources of an individual the assets of a trust which could be used for the benefit of the individual or spouse.

General Exclusions

1972 (Public Law 92-603, enacted October 30). A home of reasonable value—established *by regulation* as not exceeding a fair-market value of \$25,000 (\$35,000 in Alaska and Hawaii).

Personal effects and household goods of reasonable value established *by regulation* as not exceeding a total market value of \$1,500.

An automobile of reasonable value—established *by regulation* as not exceeding a market value of \$1,200.

An automobile may be excluded, regardless of value, if the individual's household uses it for employment or medical treatment or if it is modified to be operated by or for transportation of a handicapped person.

Life insurance with face value of \$1,500 or less.

1976 (Public Law 94-569, enacted October 20). The recipient's home, regardless of value, is excluded from consideration in determining resources.

1977 (Public Law 95-171, enacted November 12). Assistance received under the Disaster Relief and Emergency Assistance Act of 1974 for 9 months following receipt.

1979. Reasonable value for an automobile increased *by regulation* to \$4,500 of current-market value; personal goods and household effects increased to \$2,000 of equity value.

1982 (Public Law 97-248, enacted September 3). The value, within prescribed limits, of a burial space for the recipient, spouse, and immediate family is excluded. In addition, \$1,500 each (less the value of already excluded life insurance and any amount in an irrevoca-

ble burial arrangement) may be set aside for the burial of the recipient and spouse.

1984 (Public Law 98-369, enacted July 18). The unspent portion of any retroactive Title II or Title XVI payment is excluded for 6 months following its receipt, and the individual must be given written notice of the time limit on the exclusion.

1985. *Regulations* permit exclusion, regardless of value, of an automobile needed for essential transportation or modified for a handicapped person. The \$4,500 current market value limit applies only if no automobile could be excluded based on the nature of its use.

1987 (Public Law 100-203, enacted December 22). Provides for suspension of the 1980 transfer of assets provision, in any month that it is determined that undue hardship would result.

Real property that cannot be sold for the following reasons: it is jointly owned; its sale would cause the other owner(s) undue hardship due to loss of housing; its sale is barred by a legal impediment; or the owner's reasonable efforts to sell have been unsuccessful.

Temporarily extends the 1984 exclusion of retroactive Title II and Title XVI benefits from 6 months to 9 months (the longer exclusion applies to benefits paid in fiscal years 1988 and 1989).

1988 (Public Law 100-707, enacted November 23). Removes the time limit for exclusion of disaster assistance.

Special Exclusions

1972 (Public Law 92-603, enacted October 30). Assets of a blind or disabled individual that are necessary to an approved plan of self-support.

Tools and other property essential to self-support (PESS), within reasonable limits. Shares of nonnegotiable stock in regional or village corporations held by natives of Alaska.

For persons transferred from state programs to SSI, resource exclusions equal to the maximum amount permitted as of October 1972 under the state program.

1988 (Public Law 100-383, enacted August 10). Restitution payments made to Japanese internees and relocated Aleutians.

1989 (Public Law 101-239, enacted December 19). Specifies that no limitation can be placed on property essential to self-support used in a trade or business, or by an individual as an employee (including the tools of a tradesperson and the machinery and livestock of a farmer).

Payments from the Agent Orange Settlement.

1990 (Public Law 101-508, enacted November 5). Earned income tax credit excluded for the month following the month the credit is received.

Payments received from a state-administered fund established to aid victims of crime excluded for a 9-month period. Individual not required to file for such benefits.

Payments received as state or local government relocation assistance excluded for a 9-month period. (The provision expired 3 years after its effective date.)

Payments received under the Radiation Exposure Compensation Act.

1993 (Public Law 103-66, enacted August 10). Makes permanent the 9-month exclusion of payments received as state or local government relocation assistance.

1994 (Public Law 103-286, enacted August 1). Payments to victims of Nazi persecution.

1996 (Public Law 104-193, enacted August 22). Dedicated financial institution accounts required to be established for large past-due benefits for disabled individuals under age 18 with a representative payee.

1998 (Public Law 105-285, enacted October 27). Funds made available to an SSI recipient by a state or local government or a nonprofit organization as part of the Individual Development Account demonstration project.

(Public Law 105-306, enacted October 28). In-kind gifts to children with life-threatening conditions by tax-exempt organizations not converted to cash.

The first \$2,000 annually of cash gifts by tax-exempt organizations to, or for the benefit of, individuals under age 18 with life-threatening conditions.

(Public Law 105-369, enacted November 12). Payments made under the Ricky Ray Hemophilia Relief Fund Act of 1998.

2000 (Public Law 106-554, enacted December 21). Funds deposited by an individual in an individual development account and the interest on those funds.

2001 (Public Law 107-16, enacted June 7). The refundable child tax credit in the month of receipt and in the following month.

Transfer-of-Assets Penalties

1980 (Public Law 96-611, enacted December 28). Assets transferred for less than fair market value for the purpose of establishing eligibility for benefits under the Social Security Act are counted as resources for 24 months after transfer.

1988 (Public Law 100-360, enacted July 1). Removes the transfer-of-assets penalty for transfers made July 1, 1988, or later.

1999 (Public Law 106-169, enacted December 14). Provides a penalty under the SSI program for the disposal of resources at less than fair market value. The penalty is a loss of benefits for up to 36 months. A formula is provided to determine the number of months.

Presumptive and Emergency Payments and Interim Assistance Reimbursement

Presumptive Payments

1972 (Public Law 92-603, enacted October 30). A person applying on the basis of disability who meets all other criteria of eligibility, and is likely to be disabled, may receive payments for 3 months pending the disability determination.

1976 (Public Law 94-569, enacted October 20). Presumptive payment provision was extended to persons applying on the basis of blindness.

1990 (Public Law 101-508, enacted November 5). Extends the period for receipt of payments to 6 months.

Emergency Advance Payments

1972 (Public Law 92-603, enacted October 30). Any applicant who can be presumed to meet the criteria of eligibility, but has not yet been determined eligible, and who is faced with a financial emergency may receive an immediate cash advance of up to \$100.

1987 (Public Law 100-203, enacted December 22). Increases the maximum emergency advance payment amount to the maximum amount of the regular federal SSI monthly benefit rate plus, if any, the federally administered state supplementary payment.

1996 (Public Law 104-193, enacted August 22). Applicants who have a financial emergency may receive an emergency advance payment in the month of application, which, effective with this law, is always prior to the first month of eligibility. These advance payments are recouped by proportional reductions in the recipient's first 6 months of SSI benefits.

Interim Assistance Reimbursement

1974 (Public Law 93-368, enacted August 7). SSA may enter into agreements with the states to repay them directly for assistance payments made to an SSI applicant while his/her claim is being adjudicated. The repayment is made from the first check due to the individual. This legislation expires June 30, 1976.

1976 (Public Law 94-365, enacted July 14). The authority to repay the state for interim assistance is made permanent.

1987 (Public Law 100-203, enacted December 22). Extends interim assistance reimbursement to situations in which payments are made by states or political subdivisions to persons whose SSI payments were suspended or terminated and who subsequently are found to be eligible for such benefits. Also clarifies that the payment from which the interim assistance reimbursement is paid must be the first payment of benefits relating to the interim period.

Medicaid Eligibility

1972 (Public Law 92-603, enacted October 30). States can provide Medicaid coverage to all recipients of SSI payments. Alternatively, they can limit coverage by applying more restrictive criteria from the state Medicaid plan in effect on January 1, 1972.

States can accept SSA determination of eligibility or make their own determination.

1976 (Public Law 94-566, enacted October 20). Preserves the Medicaid eligibility of recipients who become ineligible for cash SSI payments due to the cost-of-living increases in Social Security benefits.

1980 (Public Law 96-265, enacted June 9). Blind or disabled recipients under age 65 no longer eligible for either regular or special SSI payments because of their earnings may retain SSI recipient status for Medicaid eligibility purposes under the following conditions: (1) they continue to have the disabling impairment, (2) they meet all nondisability eligibility criteria except for earned income, (3) they would be seriously inhibited from continuing employment without Medicaid services, and (4) their earnings are insufficient to provide a reasonable equivalent of SSI payments and Medicaid.

In states that do not provide Medicaid coverage categorically to all SSI recipients, qualification for Medicaid benefits depends on the state's specific eligibility and program requirements.

The Medicaid provision of the 1980 legislation was in effect from January 1, 1981, through December 31, 1983. Under a 1-year demonstration project, beginning January 1, 1984, this provision was continued for persons already eligible for regular or special SSI payments or for retention of Medicaid eligibility.

1984 (Public Law 98-460, enacted October 9). Medicaid provision of 1980 legislation extended through June 30, 1987 (retroactive to January 1, 1984).

1986 (Public Law 99-272, enacted April 7). Restores Medicaid eligibility for some disabled widow(er)s who became ineligible for SSI when their Title II benefits increased in 1984 because of a change in the Social Security disabled widow(er)s benefits reduction factor.

1986 (Public Law 99-643, enacted November 10). The SSI recipient status for Medicaid eligibility provision of the 1980 amendments is made permanent.

Effective July 1, 1987, certain expenses are excluded from earnings when determining sufficiency of earnings to establish SSI recipient status eligibility for Medicaid purposes:

- Impairment-related work expenses of disabled persons,
- Work expenses of blind persons,
- Income required for achieving an approved self-support plan, and
- The value of publicly funded attendant care services.

Effective July 1, 1987, preserves the Medicaid eligibility of recipients who become ineligible for SSI payments because of entitlement to, or an increase in, Social Security disabled adult child benefits on or after the effective date.

Effective July 1, 1987, requires all states to provide Medicaid coverage for recipients in special SSI status (either receiving special SSI payments or in the special recipient status described for 1980) if they received Medicaid coverage the month before special SSI status.

1987 (Public Law 100-203, enacted December 22). Effective July 1, 1988, restores or preserves the Medicaid eligibility of persons aged 60 or older who are eligible for Social Security benefits as widows or widowers (but not eligible for Medicare) and who become ineligible for SSI payments or state supplementation because of the receipt of old-age or survivors insurance benefits under Social Security.

1990 (Public Law 101-508, enacted November 5). Age limit for retention of SSI recipient status for Medicaid eligibility purposes (1980 and subsequent work incentive provisions, above) is eliminated.

Preserves the Medicaid eligibility of SSI recipients who become ineligible for payments when they become entitled to Social Security disabled widow(er)s benefits following the revised definition used for their disability.

1997 (Public Law 105-33, enacted August 5). Requires states to continue Medicaid coverage for disabled children who were receiving SSI payments as of August 22, 1996 and would have continued to be eligible for such payments except that their eligibility terminated because they did not meet the revised SSI childhood disability standard established under Public Law 104-193.

State Supplementation

1972 (Public Law 92-603, enacted October 30). States are given the option of providing supplementary payments both to recipients transferred from the state program and to those newly eligible for SSI.

States may either administer the payments themselves or have the Social Security Administration make payments on their behalf. When state supplementary payments are federally administered, the Social Security Administration makes eligibility and payment determinations for the state and assumes administrative costs.

“Hold harmless” protection, which limits a state’s fiscal liability to its share of OAA, AB, and APTD expenditures for calendar year 1972, is provided to states electing federal administration of their supplementary plans. This provision applies only to supplementary payments that do not, on the average, exceed a state’s “adjusted payment level.” (The adjusted payment level is the average of the payments that individuals with no other income received in January 1972; it may include the bonus value of food stamps. Adjustments are provided for payments that had been below state standards.)

1973 (Public Law 93-66, enacted July 9). Provides for mandatory state supplementation as assurance against reduction of income for persons who received state assistance in December 1973 and were transferred to SSI. These supplementary payments must equal the difference between (1) the amount of the state assistance payment that the individual received in December 1973 plus other income and (2) his/her federal SSI payment plus other income.

1976 (Public Law 94-585, enacted October 21). After June 30, 1977, when the federal SSI payment level is increased by a cost-of-living increase, such an increase will be excluded in calculating the “hold harmless” amount.

Requires states to maintain state supplementation payments at the level of December 1976 (“maintenance of payments”) or to continue to pay in supplements the same total annual amounts (“maintenance of expenditures”) when the federal SSI payment level is increased and thereby pass through any increases in federal benefits without reducing state supplements.

1982 (Public Law 97-248, enacted September 3). Begins a 3-year phase out of “hold harmless” protection. Effective with fiscal year 1985, Wisconsin and Hawaii (the only remaining “hold harmless” states) assumed the full cost of their supplementary payments.

1983 (Public Law 98-21, enacted April 20). Federal pass-through law is adjusted (1) by substituting the state supplementary payment levels in effect in March 1983 for those in effect in December 1976 as the levels that

states must maintain in complying with the pass-through requirements, and (2) with regard to the \$20 (individual) and \$30 (couple) increase in the federal SSI standard in July 1983, by requiring states to pass through only as much as would have been required if the SSI cost-of-living adjustment had been made in July 1983.

1987 (Public Law 100-203, enacted December 22). Provides for federal administration of state supplements to residents of medical institutions.

Provides for required pass through of \$5 increase in federal rate for persons whose care in institutions is paid in substantial part by Medicaid.

1993 (Public Law 103-66, enacted August 10). Requires states to pay fees for federal administration of their state supplementation payments. The fees are \$1.67 for each monthly supplementary payment in fiscal year 1994, \$3.33 in fiscal year 1995, and \$5.00 in fiscal year 1996. Fees for subsequent fiscal years will be \$5.00 or another amount determined by the Commissioner to be appropriate. The Commissioner may charge the states additional fees for services they request that are beyond the level customarily provided in administering state supplementary payments.

1997 (Public Law 105-33, enacted August 5). Revises the schedule of per-payment fees for federal administration of state supplementation for fiscal years 1998 (\$6.20) through 2002 (\$8.50) and provides a formula for determining the fee beyond fiscal year 2002.

1999 (Public Law 106-170, enacted December 17). A state which has an agreement with SSA to administer its supplementation payments, must remit both payments and fees prior to the SSI payment date.

2000 (Public Law 106-554, enacted December 21). Changes the effective date of above provision from 2009 to 2001.

Overpayment Recovery

1984 (Public Law 98-369, enacted July 18). Limits the rate of recovering overpayments from monthly payments to the lesser of (1) the monthly payment or (2) 10 percent of a recipient’s monthly income. Permits a higher or lower adjustment at the request of the recipient subject to the agreement of the Commissioner. The limit does not apply if fraud, willful misrepresentation, or concealment of material information was involved on the part of the recipient or spouse in connection with the overpayment.

Waives recovery of certain overpayments due to amount of excess resources of \$50 or less.

Provides temporary authority for the recovery of overpayments from tax refunds.

1988 (Public Law 100-485, enacted October 13). Grants permanent authority to recover overpayments from tax refunds.

1998 (Public Law 105-306, enacted October 28). Authorizes SSA to collect SSI overpayments by offsetting Social Security benefits, with a maximum monthly offset of no more than 10 percent of the Social Security benefit.

1999 (Public Law 106-169, enacted December 14). Makes representative payees liable for an SSI overpayment caused by a payment made to a recipient who has died, and requires SSA to establish an overpayment control record under the representative payee's Social Security number.

Requires SSA to recover SSI overpayments from SSI lump-sum amounts by withholding at least 50 percent of the lump-sum payment or the amount of the overpayment, whichever is less.

Extends all of the debt collection authorities currently available for the collection of overpayments under the OASDI program to the SSI program.

2001 (Public Law 107-16, enacted June 7). Subjects one-time tax refund payments provided under this Act to overpayment recovery under tax refund offset provisions.

Medicare

The following are brief summaries of complex subjects. They should be used only as overviews and general guides to the Medicare and Medicaid programs. The views expressed herein do not necessarily reflect the policies or legal positions of the Centers for Medicare & Medicaid Services or the Department of Health and Human Services (DHHS). These summaries do not render any legal, accounting, or other professional advice, nor are they intended to explain fully all of the provisions or exclusions of the relevant laws, regulations, and rulings of the Medicare and Medicaid programs. Original sources of authority should be researched and utilized.³

Overview

Title XVIII of the Social Security Act, designated "Health Insurance for the Aged and Disabled," is commonly known as Medicare. As part of the Social Security Amendments of 1965, the Medicare legislation established a health insurance program for aged persons to complement the retirement, survivors, and disability insurance benefits under Title II of the Social Security Act.

When first implemented in 1966, Medicare covered most persons age 65 or over. In 1973, the following groups also became eligible for Medicare benefits: persons entitled to Social Security or Railroad Retirement disability cash benefits for at least 24 months, most persons with end-stage renal disease (ESRD), and certain otherwise non-covered aged persons who elect to pay a premium for Medicare coverage. The Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 (Public Law 106-554) allowed persons with Amyotrophic Lateral Sclerosis (Lou Gehrig's Disease) to waive the 24-month waiting period.

Medicare has traditionally consisted of two parts: Hospital Insurance (HI), also known as Part A, and Supplementary Medical Insurance (SMI), also known as Part B. A new, third part of Medicare, sometimes known as Part C, is the Medicare+Choice program, which was established by the Balanced Budget Act (BBA) of 1997 (Public Law 105-33) and which expanded beneficiaries' options for participation in private-sector health care plans. When Medicare began on July 1, 1966, approximately 19 million people enrolled. In 2003, over 41 million people are enrolled in one or both of Parts A and B of the Medicare program, and 5 million of them have chosen to participate in a Medicare+Choice plan.

3. These summaries were prepared by Earl Dirk Hoffman, Jr., Barbara S. Klees, and Catherine A. Curtis, Office of the Actuary, Centers for Medicare & Medicaid Services, 7500 Security Blvd., Baltimore, MD 21244. The authors wish to express their gratitude to Mary Onnis Waid, who originated these summaries and diligently prepared them for many years prior to her retirement.

Coverage

Hospital Insurance (HI) is generally provided automatically, and free of premiums, to persons age 65 or over who are eligible for Social Security or Railroad Retirement benefits, whether they have claimed these monthly cash benefits or not. Also, workers and their spouses with a sufficient period of Medicare-only coverage in federal, state, or local government employment are eligible beginning at age 65. Similarly, individuals who have been entitled to Social Security or Railroad Retirement disability benefits for at least 24 months, and government employees with Medicare-only coverage who have been disabled for more than 29 months, are entitled to HI benefits. HI coverage is also provided to insured workers with end-stage renal disease (ESRD) (and to insured workers' spouses and children with ESRD), as well as to some otherwise ineligible aged and disabled beneficiaries who voluntarily pay a monthly premium for their coverage. In 2002, the HI program provided protection against the costs of hospital and specific other medical care to about 40 million people (34 million aged and 6 million disabled enrollees). HI benefit payments totaled \$149.9 billion in 2002.

The following health care services are covered under Medicare's HI program:

- Inpatient hospital care coverage includes costs of a semi-private room, meals, regular nursing services, operating and recovery rooms, intensive care, inpatient prescription drugs, laboratory tests, X-rays, psychiatric hospitals, inpatient rehabilitation, and long-term care (LTC) hospitalization when medically necessary, as well as all other medically necessary services and supplies provided in the hospital. An initial deductible payment is required of beneficiaries who are admitted to a hospital, plus copayments for all hospital days following day 60 within a benefit period (described later).
- Skilled nursing facility (SNF) care is covered by HI only if it follows within 30 days (generally) of a hospitalization of 3 days or more and is certified as medically necessary. Covered services are similar to those for inpatient hospital but also include rehabilitation services and appliances. The number of SNF days provided under Medicare is limited to 100 days per benefit period (described later), with a copayment required for days 21–100. HI does not cover nursing facility care if the patient does not require skilled nursing or skilled rehabilitation services.
- Home health agency (HHA) care is covered by both HI and SMI. The BBA transferred from HI to SMI those home health services furnished on or after January 1, 1998, that are unassociated with a hospital or skilled nursing facility stay. HI will continue to cover the first

100 visits following a 3-day hospital stay or a skilled nursing facility stay; SMI covers any visits thereafter. Home health care under HI and SMI has no copayment and no deductible.

HHA care, including care provided by a home health aide, may be furnished part-time by a HHA in the residence of a home-bound beneficiary if intermittent or part-time skilled nursing or certain other therapy or rehabilitation care is necessary. Certain medical supplies and durable medical equipment (DME) may also be provided, though beneficiaries must pay a 20 percent coinsurance for DME, as required under SMI of Medicare. There must be a plan of treatment and periodical review by a physician. Full-time nursing care, food, blood, and drugs are not provided as HHA services.

- Hospice care is a service provided to terminally ill persons with life expectancies of 6 months or less who elect to forgo the standard Medicare benefits for treatment of their illness and to receive only hospice care for it. Such care includes pain relief, supportive medical and social services, physical therapy, nursing services, and symptom management. However, if a hospice patient requires treatment for a condition that is not related to the terminal illness, Medicare will pay for all covered services necessary for that condition. The Medicare beneficiary pays no deductible for the hospice program but does pay small coinsurance amounts for drugs and inpatient respite care.

An important HI component is the benefit period, which starts when the beneficiary first enters a hospital and ends when there has been a break of at least 60 consecutive days since inpatient hospital or skilled nursing care was provided. There is no limit to the number of benefit periods covered by HI during a beneficiary's lifetime; however, inpatient hospital care is normally limited to 90 days during a benefit period, and copayment requirements (detailed later) apply for days 61–90. If a beneficiary exhausts the 90 days of inpatient hospital care available in a benefit period, he or she can elect to use days of Medicare coverage from a non-renewable "lifetime reserve" of up to 60 (total) additional days of inpatient hospital care. Copayments are also required for such additional days.

All citizens (and certain legal aliens) age 65 or over, and all disabled persons entitled to coverage under HI, are eligible to enroll in the SMI program on a voluntary basis by payment of a monthly premium. Almost all persons entitled to HI choose to enroll in SMI. In 2002, the SMI program provided protection against the costs of physician and other medical services to about 38 million people (33 million aged and 5 million disabled). SMI benefits totaled \$111.0 billion in 2002.

The SMI program covers the following services and supplies:

- Physicians' and surgeons' services, including some covered services furnished by chiropractors, podiatrists, dentists, and optometrists. Also covered are the services provided by these Medicare-approved practitioners who are not physicians: certified registered nurse anesthetists, clinical psychologists, clinical social workers (other than in a hospital or skilled nursing facility), physician assistants, and nurse practitioners and clinical nurse specialists in collaboration with a physician.
- Services in an emergency room or outpatient clinic, including same-day surgery, and ambulance services.
- Home health care not covered under HI.
- Laboratory tests, X-rays, and other diagnostic radiology services, as well as certain preventive care screening tests.
- Ambulatory surgical center services in a Medicare-approved facility.
- Most physical and occupational therapy and speech pathology services.
- Comprehensive outpatient rehabilitation facility services, and mental health care in a partial hospitalization psychiatric program, if a physician certifies that inpatient treatment would be required without it.
- Radiation therapy; renal (kidney) dialysis and transplants; heart, lung, heart-lung, liver, pancreas, and bone marrow transplants; and, as of April 2001, intestinal transplants.
- Approved durable medical equipment for home use, such as oxygen equipment and wheelchairs, prosthetic devices, and surgical dressings, splints, and casts.
- Drugs and biologicals that cannot be self-administered, such as hepatitis B vaccines and immunosuppressive drugs (certain self-administered anticancer drugs are covered).

To be covered, all services must be either medically necessary or one of several prescribed preventive benefits. SMI services are generally subject to a deductible and coinsurance (see next section). Certain medical services and related care are subject to special payment rules, including deductibles (for blood), maximum approved amounts (for Medicare-approved physical, speech, or occupational therapy services performed in settings other than hospitals), and higher cost-sharing requirements (such as those for outpatient treatments for mental illness).

It should be noted that some health care services are not covered by Medicare. Noncovered services include long-term nursing care, custodial care, and certain other health care needs, such as dentures and dental care, eyeglasses, hearing aids, and most prescription drugs. These services are not a part of the Medicare program unless they

are a part of a private health plan under the Medicare+Choice program.

Medicare+Choice (Part C) is an expanded set of options for the delivery of health care under Medicare. While all Medicare beneficiaries can receive their benefits through the original fee-for-service (FFS) program, most beneficiaries enrolled in both HI and SMI can choose to participate in a Medicare+Choice plan instead. Organizations that seek to contract as Medicare+Choice plans must meet specific organizational, financial, and other requirements. Following are the primary Medicare+Choice plans:

- Coordinated care plans, which include health maintenance organizations (HMOs), provider-sponsored organizations (PSOs), preferred provider organizations (PPOs), and other certified coordinated care plans and entities that meet the standards set forth in the law.
- Private, unrestricted FFS plans, which allow beneficiaries to select certain private providers. For those providers who agree to accept the plan's payment terms and conditions, this option does not place the providers at risk, nor does it vary payment rates based on utilization.

These Medicare+Choice plans are required to provide at least the current Medicare benefit package, excluding hospice services. Plans may offer additional covered services and are required to do so (or return excess payments) if plan costs are lower than the Medicare payments received by the plan.

Program Financing, Beneficiary Liabilities, and Provider Payments

All financial operations for Medicare are handled through two trust funds, one for the Hospital Insurance (HI) program and one for the Supplementary Medical Insurance (SMI) program. These trust funds, which are special accounts in the U.S. Treasury, are credited with all receipts and charged with all expenditures for benefits and administrative costs. The trust funds cannot be used for any other purpose. Assets not needed for the payment of costs are invested in special Treasury securities. The following sections describe Medicare's financing provisions, beneficiary cost-sharing requirements, and the basis for determining Medicare reimbursements to health care providers.

Program Financing

The HI program is financed primarily through a mandatory payroll tax. Almost all employees and self-employed workers in the United States work in employment covered by the HI program and pay taxes to support the cost of benefits for aged and disabled beneficiaries. The HI tax rate is 1.45 percent of earnings, to be paid by each employee and a matching amount by the employer for each employee, and 2.90 percent for self-employed persons. Beginning in 1994,

this tax is paid on all covered wages and self-employment income without limit. (Prior to 1994, the tax applied only up to a specified maximum amount of earnings.) The HI tax rate is specified in the Social Security Act and cannot be changed without legislation.

The HI trust fund also receives income from the following sources: (1) a portion of the income taxes levied on Social Security benefits paid to high-income beneficiaries; (2) premiums from certain persons who are not otherwise eligible and choose to enroll voluntarily; (3) reimbursements from the general fund of the U.S. Treasury for the cost of providing HI coverage to certain aged persons who retired when the HI program began and thus were unable to earn sufficient quarters of coverage (and those federal retirees similarly unable to earn sufficient quarters of Medicare-qualified federal employment); (4) interest earnings on its invested assets; and (5) other small miscellaneous income sources. The taxes paid each year are used mainly to pay benefits for current beneficiaries.

The SMI program is financed through premium payments (\$66.60 per beneficiary per month in 2004) and contributions from the general fund of the U.S. Treasury. Beneficiary premiums are generally set at a level that covers 25 percent of the average expenditures for aged beneficiaries. Therefore, the contributions from the general fund of the U.S. Treasury are the largest source of SMI income. The SMI trust fund also receives income from interest earnings on its invested assets, as well as a small amount of miscellaneous income. Beneficiary premiums and general fund payments are redetermined annually, to match estimated program costs for the following year.

Capitation payments to Medicare+Choice plans are financed from the HI and SMI trust funds in proportion to the relative weights of HI and SMI benefits to the total benefits paid by the Medicare program.

Beneficiary Payment Liabilities

Fee-for-service beneficiaries are responsible for charges not covered by the Medicare program and for various cost-sharing aspects of both HI and SMI. These liabilities may be paid (1) by the Medicare beneficiary; (2) by a third party, such as an employer-sponsored retiree health plan or private "Medigap" insurance; or (3) by Medicaid, if the person is eligible. The term "Medigap" is used to mean private health insurance that pays, within limits, most of the health care service charges not covered by Parts A or B of Medicare. These policies, which must meet federally imposed standards, are offered by Blue Cross and Blue Shield (BC/BS) and various commercial health insurance companies.

For beneficiaries enrolled in Medicare+Choice plans, the beneficiary's payment share is based on the cost-sharing structure of the specific plan selected by the beneficiary, since each plan has its own requirements. Most plans have lower deductibles and coinsurance than are required

of fee-for-service beneficiaries. Such beneficiaries pay the monthly Part B premium and may, depending on the plan, pay an additional plan premium.

For hospital care covered under HI, a fee-for-service beneficiary's payment share includes a one-time deductible amount at the beginning of each benefit period (\$876 in 2004). This deductible covers the beneficiary's part of the first 60 days of each spell of inpatient hospital care. If continued inpatient care is needed beyond the 60 days, additional coinsurance payments (\$219 per day in 2004) are required through the 90th day of a benefit period. Each HI beneficiary also has a "lifetime reserve" of 60 additional hospital days that may be used when the covered days within a benefit period have been exhausted. Lifetime reserve days may be used only once, and coinsurance payments (\$438 per day in 2004) are required.

For skilled nursing care covered under HI, Medicare fully covers the first 20 days of SNF care in a benefit period. But for days 21–100, a copayment (\$109.50 per day in 2004) is required from the beneficiary. After 100 days of SNF care per benefit period, Medicare pays nothing for SNF care. Home health care has no deductible or coinsurance payment by the beneficiary. In any HI service, the beneficiary is responsible for fees to cover the first 3 pints or units of nonreplaced blood per calendar year. The beneficiary has the option of paying the fee or of having the blood replaced.

There are no premiums for most people covered by the HI program. Eligibility is generally earned through the work experience of the beneficiary or of his or her spouse. However, most aged people who are otherwise ineligible for premium-free HI coverage can enroll voluntarily by paying a monthly premium, if they also enroll in SMI. For people with fewer than 30 quarters of coverage as defined by SSA, the 2004 HI monthly premium rate is \$343; for those with 30 to 39 quarters of coverage, the rate is reduced to \$189. Voluntary coverage upon payment of the HI premium, with or without enrolling in SMI, is also available to disabled individuals for whom cash benefits have ceased due to earnings in excess of those allowed for receiving cash benefits.

For SMI, the beneficiary's payment share includes the following: one annual deductible (currently \$100); the monthly premiums; the coinsurance payments for SMI services (usually 20 percent of the medically allowed charges); a deductible for blood; certain charges above the Medicare-allowed charge (for claims not on assignment); and payment for any services that are not covered by Medicare. For outpatient mental health treatment services, the beneficiary is liable for 50 percent of the approved charges.

Provider Payments

For HI, before 1983, payments to providers were made on a reasonable cost basis. Medicare payments for most in-

patient hospital services are now made under a reimbursement mechanism known as the prospective payment system (PPS). Under PPS, a specific predetermined amount is paid for each inpatient hospital stay, based on each stay's diagnosis-related group (DRG) classification. In some cases the payment the hospital receives is less than the hospital's actual cost for providing the HI-covered inpatient hospital services for the stay; in other cases it is more. The hospital absorbs the loss or makes a profit. Certain payment adjustments exist for extraordinarily costly inpatient hospital stays. Payments for skilled nursing care, home health care, inpatient rehabilitation, and long-term hospital care are made under separate prospective payment systems. Payments for psychiatric hospital care are currently reimbursed on a reasonable cost basis, but a prospective payment system is expected to be implemented in the near future, as required by the Balanced Budget Act (BBA).

For SMI, before 1992, physicians were paid on the basis of reasonable charge. This amount was initially defined as the lowest of (1) the physician's actual charge; (2) the physician's customary charge; or (3) the prevailing charge for similar services in that locality. Beginning January 1992, allowed charges were defined as the lesser of (1) the submitted charges, or (2) the amount determined by a fee schedule based on a relative value scale (RVS). Payments for DME and clinical laboratory services are also based on a fee schedule. Most hospital outpatient services are reimbursed on a prospective payment system, and home health care is reimbursed under the same prospective payment system as HI.

If a doctor or supplier agrees to accept the Medicare-approved rate as payment in full ("takes assignment"), then payments provided must be considered as payments in full for that service. The provider may not request any added payments (beyond the initial annual deductible and coinsurance) from the beneficiary or insurer. If the provider does not take assignment, the beneficiary will be charged for the excess (which may be paid by Medigap insurance). Limits now exist on the excess that doctors or suppliers can charge. Physicians are "participating physicians" if they agree before the beginning of the year to accept assignment for all Medicare services they furnish during the year. Since Medicare beneficiaries may select their doctors, they have the option to choose those who participate.

Medicare payments to Medicare+Choice plans are based on a blend of local and national capitated rates, generally determined by the capitation payment methodology described in section 1853 of the Social Security Act. Actual payments to plans vary based on demographic characteristics of the enrolled population. New "risk adjusters" based on demographics and health status are currently being phased in to better match Medicare capitation payments to the expected costs of individual beneficiaries.

Claims Processing

Medicare's HI and SMI fee-for-service claims are processed by non-government organizations or agencies that contract to serve as the fiscal agent between providers and the federal government. These claims processors are known as intermediaries and carriers. They apply the Medicare coverage rules to determine the appropriateness of claims.

Medicare intermediaries process HI claims for institutional services, including inpatient hospital claims, SNFs, HHAs, and hospice services. They also process outpatient hospital claims for SMI. Examples of intermediaries are BC/BS (which utilize their plans in various states) and other commercial insurance companies. Intermediaries' responsibilities include the following:

- Determining costs and reimbursement amounts.
- Maintaining records.
- Establishing controls.
- Safeguarding against fraud and abuse or excess use.
- Conducting reviews and audits.
- Making the payments to providers for services.
- Assisting both providers and beneficiaries as needed.

Medicare carriers handle SMI claims for services by physicians and medical suppliers. Examples of carriers are the BS plans in a state, and various commercial insurance companies. Carriers' responsibilities include the following:

- Determining charges allowed by Medicare.
- Maintaining quality-of-performance records.
- Assisting in fraud and abuse investigations.
- Assisting both suppliers and beneficiaries as needed.
- Making payments to physicians and suppliers for services that are covered under SMI.

Quality improvement organizations (QIOs; formerly called peer review organizations, or PROs) are groups of practicing health care professionals who are paid by the federal government to generally oversee the care provided to Medicare beneficiaries in each state and to improve the quality of services. QIOs educate other health care professionals and assist in the effective, efficient, and economical delivery of health care services to the Medicare population. The ongoing effort to combat monetary fraud and abuse in the Medicare program was intensified after enactment of the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191), which created the Medicare Integrity Program. Prior to this 1996 legislation, CMS was limited by law to contracting with its current carriers and fiscal intermediaries to perform payment safeguard activities.

The Medicare Integrity Program provided CMS with stable, increasing funding for payment safeguard activities, as well as new authorities to contract with entities to perform specific payment safeguard functions.

Administration

The Department of Health and Human Services (HHS) has the overall responsibility for administration of the Medicare program. Within HHS, responsibility for administering Medicare rests with CMS. SSA assists, however, by initially determining an individual's Medicare entitlement, by withholding Part B premiums from the Social Security benefit checks of beneficiaries, and by maintaining Medicare data on the master beneficiary record, which is SSA's primary record of beneficiaries. The Internal Revenue Service in the Department of the Treasury collects the HI payroll taxes from workers and their employers.

A Board of Trustees, composed of two appointed members of the public and four members who serve by virtue of their positions in the federal government, oversees the financial operations of the HI and SMI trust funds. The Secretary of the Treasury is the managing trustee. The Board of Trustees reports to Congress on the financial and actuarial status of the Medicare trust funds on or about the first day of April each year.

State agencies (usually state Health Departments under agreements with CMS) identify, survey, and inspect provider and supplier facilities and institutions wishing to participate in the Medicare program. In consultation with CMS, these agencies then certify the facilities that are qualified.

Data Summary

The Medicare program covers 95 percent of our nation's aged population, as well as many people who are on Social Security because of disability. In 2002, HI covered about 40 million enrollees with benefit payments of \$149.9 billion, and SMI covered about 38 million enrollees with benefit payments of \$111.0 billion. Administrative costs were under 2 percent of HI and under 2 percent of SMI disbursements for 2002. Total disbursements for Medicare in 2002 were \$265.7 billion.

Note: Medicare enrollment data are based on estimates prepared for the 2003 annual report of the Medicare Board of Trustees to Congress (available on the Web at <http://www.cms.hhs.gov/publications/trusteesreport>). Medicare benefits, administrative costs, and total disbursements for 2002 are actual amounts for the calendar year, as reported by the Department of the Treasury.

Medicare: History of Provisions

Insured Status

Entitlement to Hospital Insurance Benefits

1965. Individual aged 65 or older entitled to monthly benefits under the Social Security or Railroad Retirement program, or aged 65 before 1968, or 3 quarters of coverage (QC) after 1965 and before attainment of age 65.

1967. 3 QC for each year after 1966 and before attainment of age 65.

1972. Disabled individual, under age 65, entitled to disability benefits for 24 consecutive months under the Social Security or Railroad Retirement program (excludes spouses and children of disabled individuals). Individual under age 65 who has end stage renal disease (ESRD) and who is either fully or currently insured, or is entitled to monthly benefits under the Social Security or Railroad Retirement program or is the spouse or dependent child of such an insured individual or beneficiary. Entitlement begins on the first day of the third month following the initiation of a course of renal dialysis and ends with the 12th month following the month in which either the dialysis terminates or the individual has a renal transplant.

Individual aged 65 or older enrolled in the SMI program who is not otherwise entitled to HI benefits, upon voluntary participation with payment of Hospital Insurance premium.

1980. Individual who would be entitled to monthly benefits under the Social Security or Railroad Retirement program if application were made.

Disabled individual under age 65 entitled to disability benefits for at least 24 months, not necessarily consecutive, under the Social Security or Railroad Retirement program.

Medicare coverage extended for up to 36 months for disabled individuals whose disability continues, but whose monthly benefit ceased because they engaged in substantial gainful activity.

Second waiting period eliminated if a former disabled-worker beneficiary becomes entitled again within 5 years (7 years for disabled widows and widowers and disabled children aged 18 or older).

1982. Federal employees covered under HI based on QC for earnings as federal employees and/or based on deemed QC for earnings as federal employees before 1983.

1983. Employees of nonprofit organizations, effective January 1, 1984.

1986. Mandatory coverage for state and local government employees not covered under Social Security and hired after March 31, 1986.

1987. Second waiting period eliminated if a former disabled beneficiary becomes entitled again (no time limit).

1989. Disabled individuals under age 65 who are no longer entitled to Social Security disability benefits because their earnings exceeded the substantial gainful activity level have the option to purchase Medicare coverage by paying the HI and SMI premiums.

2000. The 24-month waiting period (otherwise required for an individual to establish Medicare eligibility on the basis of a disability) is waived for persons with amyotrophic lateral sclerosis, effective July 1, 2001.

Entitlement to Supplementary Medical Insurance Benefits

1965. U.S. resident (citizen or lawfully admitted alien with 5 years continuous residence) aged 65 or older or any individual entitled to HI benefits, upon voluntary participation with payment of SMI premium.

1972. Individual under age 65 entitled to HI benefits, upon voluntary participation with payment of SMI premium.

Medicare Benefits

HI and SMI

1965. Requires that Medicare be secondary payer to benefits provided by liability insurance policies or under no-fault insurance.

1981. Requires that Medicare be secondary payer to employer-based group health plans for beneficiaries entitled to Medicare solely due to end stage renal disease (ESRD) for up to 12 months.

1982. For workers and their spouses aged 65-69, Medicare is the secondary payer when benefits are provided under an employer-based group health plan (applicable to employers with 20 or more employees who sponsor or contribute to the group plan).

Health maintenance organizations (HMOs) will be authorized as providers of benefits. The Secretary of Health and Human Services must certify the prospective payment mechanism for HMOs before implementation.

1984. Medicare secondary payer provisions are extended to spouses aged 65-69 of workers under age 65 whose employer-based group health plan covers such spouses.

For HMOs, includes medical and other health services furnished by clinical psychologists.

1985. Provides payment for liver transplant services.

1986. Extends the working age secondary payer provision to cover workers and their spouses beyond age 69.

For HMOs that offered organ transplants as a basic health service on April 15, 1985, such services may be offered from October 1, 1985, through April 1, 1988.

For disabled individuals who are covered by employer-based health plans (with at least 100 employees), Medicare is the secondary payer, effective for 1987-1991.

1987. Requires HMOs/competitive medical plans that cease to contract with Medicare to provide or arrange supplemental coverage of benefits related to preexisting conditions for the lesser of 6 months or the duration of an exclusion period.

Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

Clarifies that the secondary payer provision for disabled individuals covered under employer-based health plans for employers with at least 500 employees applies to employers who are government entities.

1990. Requires that Medicare be the secondary payer to employer-based group health plans for beneficiaries entitled to Medicare solely due to ESRD for up to 18 months (extended from 12 months), effective February 1, 1991, to January 1, 1996.

The secondary payer provision for disabled beneficiaries covered under large employer plans (see 1986); effective through September 30, 1995.

1993. The secondary payer provision for disabled beneficiaries covered under large employer plans is effective through September 30, 1998.

The secondary payer provision for beneficiaries with ESRD applies to all beneficiaries with end stage renal disease, not only those entitled to Medicare solely on the basis of it. The extension to include the first 18 months of an individual's entitlement on the basis of ESRD is effective through September 30, 1998.

1997. Established an expanded set of options for the delivery of health care under Medicare, referred to as Medicare+Choice. All Medicare beneficiaries can receive their Medicare benefits through the original fee-for-service program. In addition, most beneficiaries can choose instead to receive their Medicare benefits through one of the following Medicare+Choice plans: (1) coordinated care plans (such as HMOs, provider-sponsored organizations, and preferred provider organizations); (2) Medical Savings Account (MSA)/High Deductible plans (through a demonstration available for up to 390,000 beneficiaries); or (3) private fee-for-

service plans. Except for MSA plans, all Medicare+Choice plans are required to provide the current Medicare benefit package (excluding hospice services) and any additional health services required under the adjusted community rate (ACR) process. MSA plans provide Medicare benefits after a single high deductible is met, and enrollees receive an annual deposit in their Medical Savings Account. Transition rules for current Medicare HMO program also provided.

The provision making Medicare the secondary payer for disabled beneficiaries covered under large employer plans, previously scheduled to expire September 30, 1998, made permanent.

The provision making Medicare secondary payer for the first 12 months of entitlement due to ESRD, which had been extended on a temporary basis (through September 30, 1998) to include the first 18 months of entitlement, has been extended, permanently, to include the first 30 months of entitlement on the basis of ESRD.

Hospital Insurance

1965. In each benefit period, inpatient hospital services, 90 days. Includes semiprivate accommodations, operating room, hospital equipment (including renal dialysis), laboratory tests and X-ray, drugs, dressings, general nursing services, and services of interns and residents in medical osteopathic or dentistry training. Inpatient psychiatric hospital care limited to 190-day lifetime maximum. Outpatient hospital diagnostic services. Post-hospital extended-care services, 100 days (including physical, occupational, and speech therapy). Post-hospital home health services, 100 visits. Deductible and coinsurance provisions (see Table 2.C1).

1967. Lifetime reserve of 60 additional days of inpatient hospital services. Outpatient hospital diagnostic services transferred to SMI.

1972. Services of interns and residents in podiatry training.

1980. Unlimited home health visits in a year. Requirement for prior hospitalization eliminated. Home health services provided for up to 4 days a week and up to 21 consecutive days.

Alcohol detoxification facility services.

1981. Part A coinsurance is based on the deductible for the calendar year in which services are received rather than the deductible in effect at the time the beneficiary's spell of illness began, starting in 1982.

Alcohol detoxification facility services eliminated.

1982. Beneficiaries expected to live 6 months or less may elect to receive hospice care benefits instead of other Medicare benefits. May elect maximum of two 90-day

and one 30-day hospice care periods, effective November 1, 1983, to October 1, 1986.

1984. For durable medical equipment provided by home health agencies, the payment amount is reduced from 100 percent of costs to 80 percent of reasonable charges.

1986. Set the Part A deductible for 1987 at \$520 with resulting increases in cost sharing. Increased the Part A deductible annually by the applicable percentage increase in the hospital prospective payment rates.

Hospice care benefit (enacted in 1982) made permanent.

1987. Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

1988. Enrollee pays annual hospital deductible (set at \$560 for 1989) and Medicare pays balance of covered charges, regardless of the number of days of hospitalization (except for psychiatric hospital care, which is still limited by 190-day lifetime maximum).

The number of days in a skilled nursing facility changed to 150 per year. Deletes the requirement for a prior hospital stay of 3 or more consecutive days.

Expands home health care to provide care for less than 7 days per week and up to 38 consecutive days.

Hospice care extended beyond 210 days when beneficiary is certified as terminally ill.

All 1988 provisions became effective January 1, 1989.

1989. The spell of illness and benefit period coverage of laws prior to 1988 return to the determination of inpatient hospital benefits in 1990 and later. After the deductible is paid in benefit period, Medicare pays 100 percent of covered costs for the first 60 days of inpatient hospital care. Coinsurance applies for the next 30 days in a benefit period.

The requirement for a prior hospital stay of 3 or more consecutive days is reinstated for skilled nursing facility services. Coverage returns to 100 days post-hospital care per spell of illness with a daily coinsurance rate in effect for days 21 through 100.

Home health services return to a limit of 21 consecutive days of care. Provision providing for home health care for fewer than 7 days per week continued due to a court decision.

Hospice care is returned to a lifetime limit of 210 days.

1990. Hospice care is extended beyond 210 days when beneficiary is certified as terminally ill.

1997. Home health services not associated with a hospital or skilled nursing facility stay for individuals enrolled in both HI and SMI are transferred from the HI program to the SMI program, effective January 1998. The HI program will continue to cover the first 100 visits following a hospital stay of at least 3 consecutive days or a skilled-nursing facility stay. The cost to the SMI trust fund of the transferred services will phase in over a 6-year period (that is, the HI trust fund will transfer funds to the SMI trust fund during that period).

Limits on the number of hours and days that home health care can be provided have been clarified. "Part time" now defined as skilled nursing and home health aide services (combined) furnished any number of days per week, for less than 8 hours per day and 28 or fewer hours per week. "Intermittent" now defined as skilled nursing care provided for fewer than 7 days each week, or less than 8 hours each day (combined) for 21 days or less.

Hospice benefit periods are restructured to include two 90-day periods, followed by an unlimited number of 60-day periods.

Medicare coverage provided for a number of prevention initiatives, most of which covered under SMI program. HI program affected mainly by two of the initiatives: (1) annual prostate cancer screening for male beneficiaries aged 50 or older, effective January 1, 2000; and (2) colorectal screening procedures, including fecal-occult blood tests and flexible sigmoidoscopies, for beneficiaries age 50 or older, colonoscopy for beneficiaries at high risk for colorectal cancer, and other procedures, including screening barium enemas under certain circumstances.

2000. The homebound benefit is clarified to specify that beneficiaries who require home health services may attend adult day-care for therapeutic, psychosocial, or medical treatment and still remain eligible for the home health benefit. Homebound beneficiaries may also attend religious services without being disqualified from receiving home health benefits.

Effective July 1, 2001, the 24-month waiting period (otherwise required for an individual to establish Medicare eligibility on the basis of a disability) is waived for persons with amyotrophic lateral sclerosis. The entitlement to Medicare begins with the first month of the Social Security Administration's determination of eligibility for Disability Insurance benefits.

There were no changes in 2001 affecting beneficiaries.

Supplementary Medical Insurance

1965. Physician and surgeon services. In-hospital services of anesthesiologists, pathologists, radiologists, and psychiatrists. Limited dental services. Home health ser-

vices, 100 visits in calendar year. Other medical services including various diagnostic tests, limited ambulance services, prosthetic devices, rental of durable medical equipment used at home (including equipment for dialysis), and supplies used for fractures. For deductible and coinsurance provisions, see Table 2.C1.

Beginning in 1966, the beneficiary pays a \$50 deductible, with a 3-month carryover provision.

1967. Outpatient hospital diagnostic services transferred from HI. Includes physical therapy services in a facility. Purchase of durable medical equipment.

1972. Physical therapy services furnished by a therapist in his or her office or individual's home (calendar year limit of \$100). Chiropractor services (limited to manual manipulation of the spine). Outpatient services include speech pathology services furnished in, or under arrangements with, a facility or agency. Services of a doctor of optometry in furnishing prosthetic lenses.

Beginning in 1973, the beneficiary pays a \$60 deductible.

1977. Services in rural health clinics.

1980. Home health services. Deductible applicable to home health services is eliminated, effective July 1, 1981.

Facility costs of certain surgical procedures performed in freestanding ambulatory surgical centers.

Increase in annual limit for outpatient therapy from \$100 to \$500.

Recognizes comprehensive outpatient rehabilitation facilities as Medicare providers.

1981. Beginning in 1982, the beneficiary pays a \$75 deductible, with the carryover provision eliminated.

1984. Hepatitis B and pneumococcal vaccines and blood clotting factors and necessary supplies are included as Part B benefits. Debridement of mycotic toenails is limited.

For outpatient physical therapy services, includes services of a podiatrist. For outpatient ambulatory surgery, includes services of a dentist and podiatrist furnished in his or her office.

1986. Includes vision care services furnished by an optometrist.

For occupational therapy services, includes services furnished in a skilled nursing facility (when Part A coverage has been exhausted), in a clinic, rehabilitation agency, public health agency, or by an independently practicing therapist.

Includes outpatient (in addition to previously covered inpatient) immunosuppressive drugs for 1 year after covered transplant.

Includes occupational therapy services provided in certain delivery settings.

For ambulatory surgical procedures performed in ambulatory surgical centers, hospital outpatient departments, and certain physician offices, the Part B coinsurance and deductible are no longer waived.

1987. Increases the maximum payment for mental health services and includes outpatient mental health services provided by ambulatory hospital-based or hospital-affiliated programs under the supervision of a physician.

Services provided by clinical social workers when furnished by risk-sharing health maintenance organizations/competitive medical plans, physician assistants in rural health manpower shortage areas, clinical psychologists in rural health clinics and community mental health centers, and certified nurse-midwives.

Coverage of outpatient immunosuppressive drugs (see 1986) is broadened/clarified to include prescription drugs used in immunosuppressive therapy.

Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

1988. Beginning January 1, 1990, the beneficiary pays a \$75 deductible and 20-percent coinsurance, but once out-of-pocket expenses for the deductible and coinsurance exceed \$1,370, Medicare pays 100 percent of allowable charges for remainder of year.

Beginning in 1991, Medicare pays 50 percent of the cost of outpatient prescription drugs above \$600. When fully implemented in 1993, Medicare will pay 80 percent of prescription drug costs above a deductible that assumes that 16.8 percent of Part B enrollees will exceed the deductible.

Certain prescription drugs administered in an outpatient or home setting, including immunosuppressive drugs (previously covered for 1 year after a covered transplant), home intravenous drugs, and certain others, will be covered in 1990 under a new prescription drug provision.

1989. Provisions enacted in 1988 and to begin in 1990 and 1991 are repealed and benefits are restored to levels in effect prior to January 1, 1989.

Limits on mental health benefits eliminated in 1990. Coverage extended to services of clinical psychologists and social workers.

The annual payment limits of \$500 per beneficiary for outpatient physical therapy services and outpatient

occupational therapy services, each, are raised to \$750, for 1990 and later. (See 1980.)

1990. Beginning in 1991, routine mammography screenings are covered.

The Part B deductible is set at \$100 in 1991 and subsequent years.

Beginning in 1992, physicians' services are reimbursed on a fee-schedule basis.

1993. Includes coverage of oral, self-administered anticancer drugs.

Lengthens the coverage period for immunosuppressive drugs after a transplant to 18 months in 1995, 24 months in 1996, 30 months in 1997, and 36 months thereafter. (See 1986.)

The annual payment limits of \$750 per beneficiary for outpatient physical therapy services and outpatient occupational therapy services, each, are raised to \$900 for 1994 and later. (See 1989.)

1997. Home health services not associated with a hospital or skilled nursing facility stay for individuals enrolled in both HI and SMI are transferred from the HI program to the SMI program, effective January 1998. The HI program will continue to cover the first 100 visits following a hospital stay of at least 3 consecutive days or a skilled nursing facility stay. The cost to the SMI trust fund of the transferred services will phase in over a 6-year period, while the cost of the home health services will phase into the SMI premium over 7 years.

Coverage provided for a number of prevention initiatives, including (1) annual screening mammograms for female beneficiaries age 40 or older, with SMI deductible waived; (2) screening pap smear and pelvic exam (including clinical breast exam) every 3 years or annually for beneficiaries at higher risk, with SMI deductible waived; (3) annual prostate cancer screening for male beneficiaries aged 50 or older, effective January 1, 2000; (4) colorectal screening procedures, including fecal-occult blood tests and flexible sigmoidoscopies, for beneficiaries aged 50 or older, colonoscopy for beneficiaries at high risk for colorectal cancer, and other procedures, including screening barium enemas under certain circumstances; (5) diabetes outpatient self-management training in nonhospital-based programs (previously covered in hospital-based programs only) and blood glucose monitors and testing strips for all diabetics (previously provided for insulin-dependent diabetics only), effective July 1, 1998; (6) procedures to identify bone mass, detect bone loss, or determine bone quality for certain qualified beneficiaries, at frequencies determined by the Secretary of HHS, effective July 1, 1998.

Beginning January 1999, an annual beneficiary limit of \$1,500 will apply to all outpatient physical therapy services, except for services furnished by a hospital outpatient department. A separate \$1,500 limit will also apply to outpatient occupational therapy services, except for services furnished by hospital outpatient departments. Beginning with 2002, these caps will be increased by the percentage increase in the Medical Economic Index. (See 1993.)

1999. The coverage period for immunosuppressive drugs after a transplant is lengthened to 44 months, for individuals who exhaust their 36 months of coverage in 2000. For those exhausting their 36 months of coverage in 2001, at least 8 more months will be covered. (The Secretary of HHS will specify the increase, if any, beyond 8 months.) For those exhausting their 36 months of coverage in 2002, 2003, or 2004, the number of additional months may be more or less than 8. (The Secretary will specify the increase for each of these years.) (See 1993.)

The annual payment limits of \$1,500 per beneficiary for outpatient physical services and outpatient occupational therapy services, each, for services furnished by independent practitioners (that is, not by a hospital outpatient department), are suspended for 2000 and 2001. (See 1997.)

2000. Coverage for screening pap smears and pelvic exams (including a clinical breast exam) is provided every 2 years (increased from every 3 years) beginning July 1, 2001. (Annual coverage continues for beneficiaries at higher risk, and SMI deductible continues to be waived.) (See 1997.)

Annual coverage of glaucoma screenings is provided for certain high-risk beneficiaries, effective January 1, 2002.

Screening colonoscopies are covered for all beneficiaries, not just those at high risk, beginning July 1, 2001. For persons not at high risk, a screening colonoscopy is covered 10 years after a previous one, or 4 years after a screening flexible sigmoidoscopy. (See 1997.)

Coverage is provided for medical nutrition therapy services under certain circumstances for beneficiaries who have diabetes or a renal disease, effective January 1, 2002.

The amount of a beneficiary's copayment for a procedure in a hospital outpatient department is limited, beginning April 1, 2001, to the hospital inpatient deductible applicable for that year. Also, the Secretary of HHS must reduce the effective copayment rate for outpatient services to a maximum rate of 57 percent in 2001 (for services received after April 1); 55 percent in 2002 and 2003; 50 percent in 2004; 45 percent in 2005; and 40 percent in 2006 and later.

Time and budget limitations are removed on the coverage of immunosuppressive drugs, making coverage of these drugs a permanent benefit for beneficiaries who have received a covered organ transplant. (See 1999.)

The annual payment limits of \$1,500 per beneficiary for outpatient physical therapy services and outpatient occupational therapy services, each, for services provided by independent practitioners (that is, not by a hospital outpatient department), which were suspended for 2000 and 2001, are also suspended for 2002. (See 1999.)

The homebound benefit is clarified to specify that beneficiaries who require home health services may attend adult day-care for therapeutic, psychosocial, or medical treatment and still remain eligible for the home health benefit. Homebound beneficiaries may also attend religious services without being disqualified from receiving home health benefits.

Effective July 1, 2001, the 24-month waiting period (otherwise required for an individual to establish Medicare eligibility on the basis of a disability) is waived for persons with amyotrophic lateral sclerosis. The entitlement to Medicare begins with the first month of the Social Security Administration's determination of eligibility for Disability Insurance benefits.

There were no changes in 2001 affecting beneficiaries.

Medicare Financing

Hospital Insurance Taxes

See Table 2.A3.

Appropriations from General Revenues

1965. For HI costs attributable to transitionally insured beneficiaries.

For HI costs attributable to noncontributory wage credits granted for military service prior to 1957 (see Table 2.A2).

For the SMI program, an amount equal to participant premiums.

1972. For cost of SMI not met by enrollee premiums.

1982. For HI costs attributable to beneficiaries having transitional entitlement based on Medicare-qualified federal employment.

1983. For HI taxes on noncontributory wage credits granted for military service (a) from the inception of HI program through 1983 and (b) on a current basis, annually, beginning in 1984 (see Table 2.A2).

Participant Premiums

See also Table 2.C1.

1965. SMI enrollee premium rate (originally \$3 per month) to be established annually such as to pay one-half of program costs.

1972. SMI enrollee premium rate increase limited to rate of increase in OASDI cash benefits.

HI premium (originally \$33 per month) to be established annually. Only individuals not otherwise entitled to HI but desiring voluntary participation need to pay the HI premium.

1983. SMI enrollee premiums for July 1983 to December 31, 1983, frozen at premium level of June 30, 1983. Premiums for January 1, 1984, to December 31, 1985, set to cover 25 percent of aged program costs.

1984. SMI enrollee premiums for January 1, 1986, to December 31, 1987, will be set to cover 25 percent of aged program costs. Increases in the SMI premium may not exceed the dollar amount of the Social Security cost-of-living adjustment.

For calculating the amount of SMI premium surcharge for individuals from age 65 up to age 70 not previously enrolled in SMI, the number of years an individual did not enroll because of coverage by employer group health insurance will not be taken into account.

1985. Extends through calendar year 1988 the requirement that SMI premiums be set to cover 25 percent of aged program costs and that increases in the SMI premium may not exceed the dollar amount of the Social Security cost-of-living adjustment.

Premium-paying individuals who do not purchase Part A coverage within a specific time after becoming eligible because of age are subject to a 10-percent penalty for each 12 months they are late in enrolling. There is a cutoff on the length of time these individuals will have to pay an enrollment penalty. The 10-percent premium penalty would be limited to twice the number of years enrollment was delayed. Therefore, if enrollment were delayed 1 year, the penalty would be assessed for 2 years. Individuals in this category and already enrolled will have the length of time the higher premium was paid credited to them.

1987. Extends through calendar year 1989 the provisions requiring that the SMI premium be set to cover 25 percent of aged program costs, prohibiting any increase in the premium if there is no Social Security cost-of-living adjustment, and continuing to hold beneficiaries harmless from Social Security check reductions as a result of a premium increase.

-
- 1988.** Increases in the SMI premium may not exceed the dollar amount of the Social Security cost-of-living adjustments for 1989 and beyond.
- 1989.** Extends through calendar year 1990 the requirement that SMI premiums be set to cover 25 percent of aged program costs.
- 1990.** The SMI premium are \$29.90 in 1991; \$31.80 in 1992; \$36.60 in 1993; \$41.10 in 1994; and \$46.10 in 1995.
- 1993.** SMI enrollee premiums for January 1, 1996, to December 31, 1998, will be set to cover 25 percent of aged program costs.
- 1997.** The SMI premium is permanently set at 25 percent of program costs.

Income from Taxation of OASDI Benefits

- 1993.** The additional income tax revenues resulting from the increase in the taxable percentage applicable to OASDI benefits (an increase from 50 percent to 85 percent, see Table 2.A31) are transferred to the HI trust fund.

Interfund Borrowing

- 1981.** See Table 2.A6.
- 1983.** See Table 2.A6.

Medicaid

The following are brief summaries of complex subjects. They should be used only as overviews and general guides to the Medicare and Medicaid programs. The views expressed herein do not necessarily reflect the policies or legal positions of the Centers for Medicare & Medicaid Services or the Department of Health and Human Services (DHHS). These summaries do not render any legal, accounting, or other professional advice, nor are they intended to explain fully all of the provisions or exclusions of the relevant laws, regulations, and rulings of the Medicare and Medicaid programs. Original sources of authority should be researched and utilized.

Overview

Title XIX of the Social Security Act is a federal/state entitlement program that pays for medical assistance for certain individuals and families with low incomes and resources. This program, known as Medicaid, became law in 1965 as a cooperative venture jointly funded by the federal and state governments (including the District of Columbia and the Territories) to assist states in furnishing medical assistance to eligible needy persons. Medicaid is the largest source of funding for medical and health-related services for America's poorest people.

Within broad national guidelines established by federal statutes, regulations, and policies, each state (1) establishes its own eligibility standards; (2) determines the type, amount, duration, and scope of services; (3) sets the rate of payment for services; and (4) administers its own program. Medicaid policies for eligibility, services, and payment are complex and vary considerably, even among states of similar size or geographic proximity. Thus, a person who is eligible for Medicaid in one state may not be eligible in another state, and the services provided by one state may differ considerably in amount, duration, or scope from services provided in a similar or neighboring state. In addition, state legislatures may change Medicaid eligibility, services, or reimbursement during the year.

Basis of Eligibility and Maintenance Assistance Status

Medicaid does not provide medical assistance for all poor persons. Under the broadest provisions of the federal statute, Medicaid does not provide health care services even for very poor persons unless they are in one of the groups designated below. Low income is only one test for Medicaid eligibility for those within these groups; their resources also are tested against threshold levels (as determined by each state within federal guidelines).

States generally have broad discretion in determining which groups their Medicaid programs will cover and the

financial criteria for Medicaid eligibility. To be eligible for federal funds, however, states are required to provide Medicaid coverage for certain individuals who receive federally assisted income-maintenance payments, as well as for related groups not receiving cash payments. In addition to their Medicaid programs, most states have additional "state-only" programs to provide medical assistance for specified poor persons who do not qualify for Medicaid. Federal funds are not provided for state-only programs. The following enumerates the mandatory Medicaid "categorically needy" eligibility groups for which federal matching funds are provided:

- Individuals are generally eligible for Medicaid if they meet the requirements for the Aid to Families with Dependent Children (AFDC) program that were in effect in their state on July 16, 1996, or—at state option—more liberal criteria.
- Children under age 6 whose family income is at or below 133 percent of the federal poverty level (FPL).
- Pregnant women whose family income is below 133 percent of the FPL (services to these women are limited to those related to pregnancy, complications of pregnancy, delivery, and postpartum care).
- Supplemental Security Income (SSI) recipients in most states (some states use more restrictive Medicaid eligibility requirements that pre-date SSI).
- Recipients of adoption or foster care assistance under Title IV of the Social Security Act.
- Special protected groups (typically individuals who lose their cash assistance due to earnings from work or from increased Social Security benefits, but who may keep Medicaid for a period of time).
- All children born after September 30, 1983, who are under age 19, in families with incomes at or below the FPL.
- Certain Medicare beneficiaries (described later).

States also have the option of providing Medicaid coverage for other "categorically related" groups. These optional groups share characteristics of the mandatory groups (that is, they fall within defined categories), but the eligibility criteria are somewhat more liberally defined. The broadest optional groups for which states will receive federal matching funds for coverage under the Medicaid program include the following:

- Infants up to age 1 and pregnant women not covered under the mandatory rules whose family income is no more than 185 percent of the FPL (the percentage amount is set by each state).

- Children under age 21 who meet the AFDC income and resources requirements that were in effect in their state on July 16, 1996.
- Institutionalized individuals eligible under a "special income level" (the amount is set by each state, up to 300 percent of the SSI federal benefit rate).
- Individuals who would be eligible if institutionalized but who are receiving care under home and community-based services waivers.
- Certain aged, blind, or disabled adults who have incomes above those requiring mandatory coverage, but below the FPL.
- Recipients of state supplementary income payments.
- Certain working-and-disabled persons with family income less than 250 percent of the FPL who would qualify for SSI if they did not work.
- TB-infected persons who would be financially eligible for Medicaid at the SSI income level if they were within a Medicaid-covered category (however, coverage is limited to TB-related ambulatory services and TB drugs).
- Certain uninsured or low-income women who are screened for breast or cervical cancer through a program administered by the Centers for Disease Control. The Breast and Cervical Cancer Prevention and Treatment Act of 2000 (Public Law 106-354) provides these women with medical assistance and follow-up diagnostic services through Medicaid.
- "Optional targeted low-income children" included within the State Children's Health Insurance Program (SCHIP) established by the Balanced Budget Act (BBA) of 1997 (Public Law 105-33).
- "Medically needy" persons (described below).

The medically needy (MN) option allows states to extend Medicaid eligibility to additional persons. These persons would be eligible for Medicaid under one of the mandatory or optional groups, except that their income and/or resources are above the eligibility level set by their state. Persons may qualify immediately or may "spend down" by incurring medical expenses that reduce their income to or below their state's MN income level.

Medicaid eligibility and benefit provisions for the medically needy do not have to be as extensive as for the categorically needy, and may be quite restrictive. Federal matching funds are available for MN programs. However, if a state elects to have a MN program, there are federal requirements that certain groups and certain services must be included; that is, children under age 19 and pregnant women who are medically needy must be covered, and prenatal and delivery care for pregnant women, as well as ambulatory care for children, must be provided. A state

may elect to provide MN eligibility to certain additional groups and may elect to provide certain additional services within its MN program. As of August 2002, 36 states have elected to have a MN program and are providing at least some MN services to at least some MN beneficiaries. All remaining states utilize the "special income level" option to extend Medicaid to the "near poor" in medical institutional settings.

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193)—known as the "welfare reform" bill—made restrictive changes regarding eligibility for SSI coverage that impacted the Medicaid program. For example, legal resident aliens and other qualified aliens who entered the United States on or after August 22, 1996 are ineligible for Medicaid for 5 years. Medicaid coverage for most aliens entering before that date and coverage for those eligible after the 5-year ban are state options; emergency services, however, are mandatory for both of these alien coverage groups. For aliens who lose SSI benefits because of the new restrictions regarding SSI coverage, Medicaid can continue only if these persons can be covered for Medicaid under some other eligibility status (again with the exception of emergency services, which are mandatory). Public Law 104-193 also affected a number of disabled children, who lost SSI as a result of the restrictive changes; however, their eligibility for Medicaid was reinstated by Public Law 105-33, the BBA.

In addition, welfare reform repealed the open-ended federal entitlement program known as Aid to Families with Dependent Children (AFDC) and replaced it with Temporary Assistance for Needy Families (TANF), which provides states with grants to be spent on time-limited cash assistance. TANF generally limits a family's lifetime cash welfare benefits to a maximum of 5 years and permits states to impose a wide range of other requirements as well—in particular, those related to employment. However, the impact on Medicaid eligibility is not expected to be significant. Under welfare reform, persons who would have been eligible for AFDC under the AFDC requirements in effect on July 16, 1996 generally will still be eligible for Medicaid. Although most persons covered by TANF will receive Medicaid, it is not required by law.

Title XXI of the Social Security Act, known as the State Children's Health Insurance Program (SCHIP), is a new program initiated by the BBA. In addition to allowing states to craft or expand an existing state insurance program, SCHIP provides more federal funds for states to expand Medicaid eligibility to include a greater number of children who are currently uninsured. With certain exceptions, these are low-income children who would not qualify for Medicaid based on the plan that was in effect on April 15, 1997. Funds from SCHIP also may be used to provide medical assistance to children during a presumptive eligibility period for Medicaid. This is one of several options from

which states may select to provide health care coverage for more children, as prescribed within the BBA's Title XXI program.

Medicaid coverage may begin as early as the third month prior to application—if the person would have been eligible for Medicaid had he or she applied during that time. Medicaid coverage generally stops at the end of the month in which a person no longer meets the criteria of any Medicaid eligibility group. The BBA allows states to provide 12 months of continuous Medicaid coverage (without reevaluation) for eligible children under the age of 19.

The Ticket to Work and Work Incentives Improvement Act of 1999 (Public Law 106-170) provides or continues Medicaid coverage to certain disabled beneficiaries who work despite their disability. Those with higher incomes may pay a sliding scale premium based on income.

Scope of Medicaid Services

Title XIX of the Social Security Act allows considerable flexibility within the states' Medicaid plans. However, some federal requirements are mandatory if federal matching funds are to be received. A state's Medicaid program must offer medical assistance for certain basic services to most categorically needy populations. These services generally include the following:

- Inpatient hospital services.
- Outpatient hospital services.
- Prenatal care.
- Vaccines for children.
- Physician services.
- Nursing facility services for persons aged 21 or older.
- Family planning services and supplies.
- Rural health clinic services.
- Home health care for persons eligible for skilled-nursing services.
- Laboratory and X-ray services.
- Pediatric and family nurse practitioner services.
- Nurse-midwife services.
- Federally qualified health-center (FQHC) services, and ambulatory services of an FQHC that would be available in other settings.
- Early and periodic screening, diagnostic, and treatment (EPSDT) services for children under age 21.

States may also receive federal matching funds to provide certain optional services. Following are the most common of the 34 currently approved optional Medicaid services:

- Diagnostic services.

- Clinic services.
- Intermediate care facilities for the mentally retarded (ICFs/MR).
- Prescribed drugs and prosthetic devices.
- Optometrist services and eyeglasses.
- Nursing facility services for children under age 21.
- Transportation services.
- Rehabilitation and physical therapy services.
- Home and community-based care to certain persons with chronic impairments.

The BBA included a state option known as Programs of All-inclusive Care for the Elderly (PACE). PACE provides an alternative to institutional care for persons aged 55 or older who require a nursing facility level of care. The PACE team offers and manages all health, medical, and social services and mobilizes other services as needed to provide preventive, rehabilitative, curative, and supportive care. This care, provided in day health centers, homes, hospitals, and nursing homes, helps the person maintain independence, dignity, and quality of life. PACE functions within the Medicare program as well. Regardless of source of payment, PACE providers receive payment only through the PACE agreement and must make available all items and services covered under both Titles XVIII and XIX, without amount, duration, or scope limitations and without application of any deductibles, copayments, or other cost sharing. The individuals enrolled in PACE receive benefits solely through the PACE program.

Amount and Duration of Medicaid Services

Within broad federal guidelines and certain limitations, states determine the amount and duration of services offered under their Medicaid programs. States may limit, for example, the number of days of hospital care or the number of physician visits covered. Two restrictions apply: (1) limits must result in a sufficient level of services to reasonably achieve the purpose of the benefits; and (2) limits on benefits may not discriminate among beneficiaries based on medical diagnosis or condition.

In general, states are required to provide comparable amounts, duration, and scope of services to all categorically needy and categorically related eligible persons. There are two important exceptions: (1) Medically necessary health care services that are identified under the EPSDT program for eligible children, and that are within the scope of mandatory or optional services under federal law, must be covered even if those services are not included as part of the covered services in that state's Plan; and (2) states may request "waivers" to pay for otherwise uncovered home and community-based services (HCBS) for Medicaid-eligible persons who might otherwise be institutionalized. As long as the services are cost effective, states

have few limitations on the services that may be covered under these waivers (except that, other than as a part of respite care, states may not provide room and board for the beneficiaries). With certain exceptions, a state's Medicaid program must allow beneficiaries to have some informed choices among participating providers of health care and to receive quality care that is appropriate and timely.

Payment for Medicaid Services

Medicaid operates as a vendor payment program. States may pay health care providers directly on a fee-for-service basis, or states may pay for Medicaid services through various prepayment arrangements, such as health maintenance organizations (HMOs). Within federally imposed upper limits and specific restrictions, each state for the most part has broad discretion in determining the payment methodology and payment rate for services. Generally, payment rates must be sufficient to enlist enough providers so that covered services are available at least to the extent that comparable care and services are available to the general population within that geographic area. Providers participating in Medicaid must accept Medicaid payment rates as payment in full. States must make additional payments to qualified hospitals that provide inpatient services to a disproportionate number of Medicaid beneficiaries and/or to other low-income or uninsured persons under what is known as the "disproportionate share hospital" (DSH) adjustment. During 1988–1991, excessive and inappropriate use of the DSH adjustment resulted in rapidly increasing federal expenditures for Medicaid. Under legislation passed in 1991, 1993, and again within the BBA of 1997, the federal share of payments to DSH hospitals was somewhat limited. However, the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act (BIPA) of 2000 (Public Law 106-554) increased DSH allotments for 2001 and 2002 and made other changes to DSH provisions that resulted in increased costs to the Medicaid program.

States may impose nominal deductibles, coinsurance, or copayments on some Medicaid beneficiaries for certain services. The following Medicaid beneficiaries, however, must be excluded from cost sharing: pregnant women, children under age 18, and hospital or nursing home patients who are expected to contribute most of their income to institutional care. In addition, all Medicaid beneficiaries must be exempt from copayments for emergency services and family planning services.

The federal government pays a share of the medical assistance expenditures under each state's Medicaid program. That share, known as the Federal Medical Assistance Percentage (FMAP), is determined annually by a formula that compares the state's average per capita income level with the national income average. States with a higher per capita income level are reimbursed a smaller share of their costs. By law, the FMAP cannot be lower than 50 percent or higher than 83 percent. In fiscal year

(FY) 2003, the FMAPs varied from 50 percent in twelve states to 76.62 percent in Mississippi, and averaged 56.6 percent overall. The BBA also permanently raised the FMAP for the District of Columbia from 50 percent to 70 percent and raised the FMAP for Alaska from 50 percent to 59.8 percent through 2000. The BIPA of 2000 further adjusted Alaska's FMAP to a higher level for FY 2001–2005. The Jobs and Growth Tax Relief Reconciliation Act of 2003 (Public Law 108-27), in order to bring about state fiscal relief in the current troubled economy, has made three temporary modifications to the states' FMAP calculation: (1) the FMAP for the last two quarters of 2003 will equal the greater of the current law FMAPs for 2002 or 2003; (2) the FMAP for the first three quarters of 2004 will equal the greater of the current law FMAPs for 2003 or 2004; and (3) for the last two quarters of 2003 and first three quarters of 2004, the newly calculated (under 1 and 2 above) FMAP will increase by 2.95 percentage points. The federal government pays states a higher share for children covered through the SCHIP program. This "enhanced" FMAP averages about 70 percent for all states, compared to the general Medicaid average of 56.6 percent.

The federal government also reimburses states for 100 percent of the cost of services provided through facilities of the Indian Health Service, provides financial help to the twelve states that furnish the highest number of emergency services to undocumented aliens, and shares in each state's expenditures for the administration of the Medicaid program. Most administrative costs are matched at 50 percent, although higher percentages are paid for certain activities and functions, such as development of mechanized claims processing systems.

Except for the SCHIP program, the Qualifying Individuals (QI) program (described later), and DSH payments, federal payments to states for medical assistance have no set limit (cap). Rather, the federal government matches (at FMAP rates) state expenditures for the mandatory services, as well as for the optional services that the individual state decides to cover for eligible beneficiaries, and matches (at the appropriate administrative rate) all necessary and proper administrative costs. The Medicare, Medicaid, and SCHIP Balanced Budget Refinement Act of 1999 (as incorporated into Public Law 106-113, the appropriations bill for the District of Columbia for FY 2000) increased the amount that certain states and the territories can spend on DSH and SCHIP payments, respectively. The BIPA set upper payment limits for inpatient and outpatient services provided by certain types of facilities.

Summary and Trends

Medicaid was initially formulated as a medical care extension of federally funded programs providing cash income assistance for the poor, with an emphasis on dependent children and their mothers, the disabled, and the elderly. Over the years, however, Medicaid eligibility has been

incrementally expanded beyond its original ties with eligibility for cash programs. Legislation in the late 1980s assured Medicaid coverage to an expanded number of low-income pregnant women, poor children, and to some Medicare beneficiaries who are not eligible for any cash assistance program. Legislative changes also focused on increased access, better quality of care, specific benefits, enhanced outreach programs, and fewer limits on services.

In most years since its inception, Medicaid has had very rapid growth in expenditures. This rapid growth has been due primarily to the following factors:

- The increase in size of the Medicaid-covered populations as a result of federal mandates, population growth, and economic recessions.
- The expanded coverage and utilization of services.
- The DSH payment program, coupled with its inappropriate use to increase federal payments to states.
- The increase in the number of very old and disabled persons requiring extensive acute and/or long-term health care and various related services.
- The results of technological advances to keep a greater number of very low-birth-weight babies and other critically ill or severely injured persons alive and in need of continued extensive and very costly care.
- The increase in drug costs and the availability of new expensive drugs.
- The increase in payment rates to providers of health care services, when compared to general inflation.

As with all health insurance programs, most Medicaid beneficiaries incur relatively small average expenditures per person each year, and a relatively small proportion incurs very large costs. Moreover, the average cost varies substantially by type of beneficiary. National data for 2000, for example, indicate that Medicaid payments for services for 21.6 million children, who constitute 50 percent of all Medicaid beneficiaries, average about \$1,290 per child (a relatively small average expenditure per person). Similarly, for 9.6 million adults, who comprise 22 percent of beneficiaries, payments average about \$1,930 per person. However, certain other specific groups have much larger per-person expenditures. Medicaid payments for services for 4.1 million aged, constituting 10 percent of all Medicaid beneficiaries, average about \$11,345 per person; for 7.5 million disabled, who comprise 18 percent of beneficiaries, payments average about \$10,040 per person. When expenditures for these high- and lower-cost beneficiaries are combined, the 2000 payments to health care vendors for 42.8 million Medicaid beneficiaries average \$3,935 per person.

Long-term care is an important provision of Medicaid that will be increasingly utilized as our nation's population ages. The Medicaid program paid for over 41 percent of the

total cost of care for persons using nursing facility or home health services in 2001. National data for 2000 show that Medicaid payments for nursing facility services (excluding ICFs/MR) totaled \$34.4 billion for more than 1.7 million beneficiaries of these services—an average expenditure of \$20,220 per nursing home beneficiary. The national data also show that Medicaid payments for home health services totaled \$3.1 billion for more than 995,000 beneficiaries—an average expenditure of \$3,135 per home health care beneficiary. With the percentage of our population who are elderly or disabled increasing faster than that of the younger groups, the need for long-term care is expected to increase.

Another significant development in Medicaid is the growth in managed care as an alternative service delivery concept different from the traditional fee-for-service system. Under managed care systems, HMOs, prepaid health plans (PHPs), or comparable entities agree to provide a specific set of services to Medicaid enrollees, usually in return for a predetermined periodic payment per enrollee. Managed care programs seek to enhance access to quality care in a cost-effective manner. Waivers may provide the states with greater flexibility in the design and implementation of their Medicaid managed care programs. Waiver authority under sections 1915(b) and 1115 of the Social Security Act is an important part of the Medicaid program. Section 1915(b) waivers allow states to develop innovative health care delivery or reimbursement systems. Section 1115 waivers allow statewide health care reform experimental demonstrations to cover uninsured populations and to test new delivery systems without increasing costs. Finally, the BBA provided states a new option to use managed care. The number of Medicaid beneficiaries enrolled in some form of managed care program is growing rapidly, from 14 percent of enrollees in 1993 to 58 percent in 2002.

More than 42.8 million persons received health care services through the Medicaid program in FY 2000 (the last year for which beneficiary data are available). In FY 2002, total outlays for the Medicaid program (federal and state) were \$258.2 billion, including direct payment to providers of \$185.8 billion, payments for various premiums (for HMOs, Medicare, etc.) of \$45.1 billion, payments to disproportionate share hospitals of \$15.4 billion, and administrative costs of \$11.9 billion. Outlays under the SCHIP program in FY 2002 were \$5.4 billion. With no changes to either program, expenditures under Medicaid and SCHIP are projected to reach \$425 billion and \$7.5 billion, respectively, by FY 2008.

The Medicaid-Medicare Relationship

Medicare beneficiaries who have low incomes and limited resources may also receive help from the Medicaid program. For such persons who are eligible for full Medicaid coverage, the Medicare health care coverage is supplemented by services that are available under their state's

Medicaid program, according to eligibility category. These additional services may include, for example, nursing facility care beyond the 100-day limit covered by Medicare, prescription drugs, eyeglasses, and hearing aids. For persons enrolled in both programs, any services that are covered by Medicare are paid for by the Medicare program before any payments are made by the Medicaid program, since Medicaid is always the "payer of last resort."

Certain other Medicare beneficiaries may receive help with Medicare premium and cost-sharing payments through their state Medicaid program. Qualified Medicare Beneficiaries (QMBs) and Specified Low-Income Medicare Beneficiaries (SLMBs) are the best-known categories and the largest in numbers. QMBs are those Medicare beneficiaries who have resources at or below twice the standard allowed under the SSI program, and incomes at or below 100 percent of the FPL. For QMBs, Medicaid pays the Hospital Insurance (HI) and Supplementary Medical Insurance (SMI) premiums and the Medicare coinsurance and deductibles, subject to limits that states may impose on payment rates. SLMBs are Medicare beneficiaries with resources like the QMBs, but with incomes that are higher, though still less than 120 percent of the FPL. For SLMBs, the Medicaid program pays only the SMI premiums. A third category of Medicare beneficiaries who may receive help consists of disabled and working individuals. According to the Medicare law, disabled and working individuals who previously qualified for Medicare because of disability, but

who lost entitlement because of their return to work (despite the disability), are allowed to purchase Medicare HI and SMI coverage. If these persons have incomes below 200 percent of the FPL but do not meet any other Medicaid assistance category, they may qualify to have Medicaid pay their HI premiums as Qualified Disabled and Working Individuals (QDWIs).

For Medicare beneficiaries with incomes that are above 120 percent and less than 175 percent of the FPL, the BBA establishes a capped allocation to states, for each of the 5 years beginning January 1998, for payment of all or some of the Medicare SMI premiums. These beneficiaries are known as Qualifying Individuals (QIs). Unlike QMBs and SLMBs, who may be eligible for other Medicaid benefits in addition to their QMB/SLMB benefits, the QIs cannot be otherwise eligible for medical assistance under a state plan. The payment of this QI benefit is 100 percent federally funded, up to the state's allocation.

CMS estimates that Medicaid currently provides some level of supplemental health coverage for about 6.5 million Medicare beneficiaries.

Note: Medicaid data are based on the projections of the Mid-Session Review of the President's Fiscal Year 2004 Budget and are consistent with data received from the states on the Forms HCFA-2082, HCFA-37, and HCFA-64.

Unemployment Insurance

Through federal and state cooperation, unemployment insurance programs are designed to provide benefits to regularly employed members of the labor force who become involuntarily unemployed and who are able and willing to accept suitable employment. Workers in all 50 states, the District of Columbia, Puerto Rico, and the Virgin Islands are covered under unemployment insurance programs.

To induce states to enact unemployment insurance laws, the Social Security Act of 1935 provided a tax offset incentive. A uniform national tax was imposed on payrolls of industrial and commercial employers who employed eight or more workers in 20 or more weeks in a calendar year. Employers who paid taxes to a state with an approved unemployment insurance law could credit (offset) up to 90 percent of the state tax against the federal tax. This insured that employers in states without an unemployment insurance law would not have an advantage competing with similar businesses in states with such a law because they would still be subject to the federal payroll tax, and their employees would not be eligible for benefits.

In addition, the Social Security Act authorized grants to states to meet the costs of administering the state systems. By July 1937, all 48 states, the then territories of Alaska and Hawaii, and the District of Columbia had passed unemployment insurance laws. Later, Puerto Rico adopted its own program, which was incorporated in 1961 into the federal-state system. A similar program for workers in the Virgin Islands was added in 1978.

If employers are to receive an offset against federal taxes and if states are to receive federal grants for administration, federal law requires state unemployment insurance programs to meet certain requirements. These requirements are intended to assure that a state participating in the program has an unemployment insurance system that is fairly administered and financially secure.

One requirement is that all contributions collected under state laws be deposited in the unemployment trust fund of the U.S. Treasury Department. The fund is invested as a whole, but each state has a separate account to which its deposits and its share of interest on investments are credited. At any time, a state may withdraw money from its account in the trust fund, but only to pay benefits. Thus, unlike the situation in the majority of states having workers' compensation and temporary disability insurance laws, unemployment insurance benefits are paid exclusively through a public fund. Private plans cannot be substituted for the state plan.

Aside from federal standards, each state has major responsibility for the content and development of its unemployment insurance law. The state itself decides the

amount and duration of benefits (except for certain federal requirements concerning federal-state Extended Benefits), the contribution rates (with limitations), and, in general, the eligibility requirements and disqualification provisions. The states also directly administer the programs collecting contributions, maintaining wage records (where applicable), taking claims, determining eligibility, and paying benefits to unemployed workers.

Coverage

Originally, coverage had been limited to employment covered by the Federal Unemployment Tax Act (FUTA), which relates primarily to industrial and commercial workers in private industry. However, several federal laws added substantially to the number and types of workers protected under the state programs, such as the Employment Security Amendments of 1970 and the Unemployment Compensation Amendments of 1976.

Private employers in industry and commerce are subject to the law if they have one or more individuals employed on 1 day in each of 20 weeks during the current or preceding year, or if they paid wages of \$1,500 or more during any calendar quarter in the current or preceding year.

Agricultural workers are covered on farms with a quarterly payroll of at least \$20,000 or employing 10 or more employees in 20 weeks of the year. Domestic employees in private households are subject to FUTA if their employer pays wages of \$1,000 or more in a calendar quarter. Excluded from coverage are workers employed by their families and the self-employed.

Before 1976, employment in state and local governments and nonprofit organizations were exempt from FUTA. However, as a result of federal legislation enacted in 1976, most employment in these groups must now be covered by state law as a condition for securing federal approval of the state law. Under this form of coverage, local government and nonprofit employers have the option of making contributions as under FUTA or of reimbursing the state for benefit expenditures actually made. Elected officials, legislators, members of the judiciary, and the state National Guard are still excluded, as are employees of nonprofit organizations that employ fewer than four workers in 20 weeks in the current or preceding calendar year. Many states have extended coverage beyond that provided by federal legislation.

Through special federal legislation, federal civilian employees and ex-servicemembers of the armed forces were brought under the unemployment insurance system. Benefits for those persons are financed through federal funds but are administered by the states and paid in accor-

dance with the provisions of the state laws. A separate unemployment insurance law enacted by Congress covers railroad workers.

Amendments to FUTA made in 2000 added Indian tribes to the set of entities for whom coverage is required, although they are not liable for FUTA taxes. As a result, workers performing services for tribes are now potentially eligible to receive Unemployment Insurance benefits. Coverage is required when service is performed for any Indian tribe, band, nation, or other organized group community which is recognized as eligible for federal assistance because of their status as Indians. The same permissible exclusion from coverage that is applicable to other governmental entities also applies to services performed for Indian tribes. If an Indian tribe fails to make payments to states as required, the tribe loses its FUTA exemption and may lose coverage.

Eligibility for Benefits

Unemployment benefits are available as a matter of right (without a means test) to unemployed workers who have demonstrated their attachment to the labor force by a specified amount of recent work or earnings in covered employment. All workers whose employers contribute to or make payments in lieu of contributions to state unemployment funds, federal civilian employees, and ex-service-members are eligible if they are involuntarily unemployed, able to work, available for work, and actively seeking work. Workers must also meet the eligibility and qualifying requirements of the state law and be free from disqualifications. Workers who meet these eligibility conditions may still be denied benefits if they are found to be responsible for their own unemployment.

Work Requirements

A worker's monetary benefit rights are based on his or her employment in covered work over a prior reference period called the "base period," and these benefit rights remain fixed for a "benefit year." In most states, the base period is the first 4 quarters of the last 5 completed calendar quarters preceding the claim for unemployment benefits.

Benefits

Under all state laws, the weekly benefit amount—that is, the amount payable for a week of total unemployment—varies with the worker's past wages within certain minimum and maximum limits. In most states, the formula is designed to compensate for a fraction of the usual weekly wage, normally about 50 percent, subject to specified dollar maximums.

Three-fourths of the laws use a formula that computes weekly benefits as a fraction of wages in one or more quarters of the base period. Most commonly, the fraction is taken of wages in the quarter during which wages were

highest because this quarter most nearly reflects full-time work. In most of these states, the same fraction is used at all benefit levels. The other laws use a weighted schedule that gives a greater proportion of the high-quarter wages to lower paid workers than to those earning more.

Each state establishes a ceiling on the weekly benefit amount, and no worker may receive an amount larger than the ceiling. The maximum may be either a fixed dollar amount or a flexible amount. Under the latter arrangement, which has been adopted in 35 jurisdictions, the maximum is adjusted automatically in accordance with the weekly wages of covered employees.

Twelve states provide additional allowances for certain dependents. They all include children under ages 16, 18, or 19 (and, generally, older if incapacitated); 8 states include a nonworking spouse; and 2 states consider other dependent relatives. The amount allowed per dependent varies considerably by state but generally is \$24 or less per week and, in the majority of states, the amount is the same for each dependent.

All but 13 states require a waiting period of 1 week of total unemployment before benefits can begin. Four states pay benefits retroactively for the waiting period if unemployment lasts a certain period or if the employee returns to work within a specified period.

Except for two jurisdictions, states provide a statutory maximum duration of 26 weeks of benefits in a benefit year. However, jurisdictions vary the duration of benefits through various formulas.

Extended Benefits

In the 1970s, a permanent federal-state program of Extended Benefits (EB) was established for workers who exhaust their entitlement to regular state benefits during periods of high unemployment. The program is financed equally from federal and state funds. Employment conditions in an individual state trigger Extended Benefits. This happens when the unemployment rate among insured workers in a state averages 5 percent or more over a 13-week period, and is at least 20 percent higher than the rate for the same period in the 2 preceding years. If the insured unemployment rate reaches 6 percent, a state may by state law disregard the 20-percent requirement in initiating Extended Benefits. Once triggered, Extended Benefit provisions remain in effect for at least 13 weeks. When a state's benefit period ends, Extended Benefits to individual workers also end, even if they have received less than their potential entitlement and are still unemployed. Further, once a state's benefit period ends, another statewide period cannot begin for at least 13 weeks.

State law determines most eligibility conditions for Extended Benefits and the weekly benefit payable. However, under federal law a claimant must have had 20 weeks in full-time employment (or the equivalent in insured

wages) and must meet special work requirements. A worker who has exhausted his or her regular benefits is eligible for a 50-percent increase in duration of benefits for a maximum of 13 weeks of Extended Benefits. There is, however, an overall maximum of 39 weeks of regular and Extended Benefits. Extended Benefits are payable at the same rate as the weekly amount under the regular state program.

Prior to the 1992 legislation, the EB program was based on the insured unemployment rate (IUR)—the number of unemployed workers receiving benefits in a state as a percentage of the number of persons in unemployment—insurance covered employment in that state. By definition, the IUR does not include workers who have exhausted their benefits but are still unemployed.

The 1992 legislation (P.L. 102-318) provided states the option of adopting an additional formula for triggering the permanent Extended Benefits program. Effective March 1993, states had the option of amending their laws to use alternative total unemployment rate triggers in addition to the current insured unemployment rate triggers. Under this

option, Extended Benefits would be paid when (1) the state's seasonally adjusted total unemployment rate for the most recent 3 months is at least 6.5 percent, and (2) that rate is at least 110 percent of the state average total unemployment rate in the corresponding 3-month period in either of the 2 preceding years.

States triggering on to the Extended Benefits program under other triggers would provide the regular 26 weeks of unemployment benefits in addition to 13 weeks of Extended Benefits, (which is the same number of weeks of benefits provided previously). In addition, states that have chosen the total unemployment rate option will also amend their state laws to add an additional 7 weeks of Extended Benefits (for a total of 20 weeks) where the total unemployment rate is at least 8 percent and is 110 percent of the state's total unemployment rate for the same 3 months in either of the 2 preceding years. As of April 20, 2003, Extended Benefits were payable for 13 weeks in Alaska, Oregon, and Washington.

Workers' Compensation

Workers' compensation was the first form of social insurance to develop widely in the United States. It is designed to provide cash benefits and medical care when employees suffer work-related injuries or illnesses, and survivor benefits to the dependents of workers whose deaths result from a work-related incident. In exchange for receiving benefits, workers who receive workers' compensation are generally not allowed to bring a tort suit against their employers for damages of any kind.

The federal government was the first to establish a workers' compensation program, covering its civilian employees with an act that was passed in 1908 to provide benefits for workers engaged in hazardous work. The remaining federal workforce was covered in 1916. Nine states enacted workers' compensation laws in 1911. By 1920, all but 7 states and the District of Columbia had workers' compensation laws.

Today each of the 50 states, the District of Columbia, Puerto Rico, and the Virgin Islands has its own program. The federal government covers its employees through its own program. It also administers the Longshore and Harbor Workers' Compensation Act, enacted in 1927, which covers longshore and harbor workers throughout the United States.

Coal miners suffering from pneumoconiosis, or "black lung" disease, are covered by the Black Lung Benefits Act of 1972, with the initial benefits enacted as part of the Coal Mine Health and Safety Act of 1969. Under this program, monthly cash benefits are payable to miners disabled by black lung disease and to their dependents or survivors. Medical benefits are also payable on the basis of a diagnosis of pneumoconiosis.

The Energy Employees Occupational Illness Compensation Program Act of 2000 instituted a new program that covers employees, contractors, and subcontractors of the Department of Energy (DOE) for exposure to beryllium and the contraction of chronic beryllium disease. In addition, employees of private companies providing beryllium to DOE are covered. Employees' survivors also receive cash benefits.

This same act also covers employees disabled or killed by cancers that developed after beginning employment at a DOE or an atomic weapons facility, as long as the cancer was at least "as likely as not" related to this employment, subject to a number of guidelines relating to radiation exposure, type of cancer, and other relevant factors. It also provides benefits for silica-related diseases and to uranium miners and their survivors who have received lump sum payments under the Radiation Exposure Compensation Act, and establishes an Office of Worker Advocacy in the

U.S. Department of Energy to deal with other claims of work-related occupational disease.

Coverage

In 2001, state and federal workers' compensation laws covered about 127.0 million employees. Covered payroll in 2001—that is, total wages paid to covered workers—was \$4.6 trillion.

Common exemptions from coverage are domestic service, agricultural employment, small employers, and casual labor. However, 39 programs have some coverage for agricultural workers, and 25 programs have some coverage for domestic workers.

Many programs exempt employees of nonprofit, charitable, or religious institutions. The coverage of state and local public employees differs widely from one state program to another.

Two other major groups outside the coverage of workers' compensation laws are railroad employees engaged in interstate commerce and seamen in the U.S. Merchant Marine. These workers have health insurance and short-term and long-term cash benefit plans that cover disabilities whether or not the conditions are work-related. In addition, under federal laws these workers retain the right to bring tort suits against their employers for negligence in the case of work-related injuries or illness.

The programs are compulsory for most private employment, except in Texas, where it is elective. That is, in Texas employers may accept or reject coverage under the law. If they reject it, they lose the customary common-law defenses against suits by employees in private industry.

Benefits

The benefits provided under workers' compensation include periodic cash payments and medical services to the worker during the period of disablement for the disabling condition. They also include death and funeral benefits to the workers' survivors. Lump-sum settlements are permitted under most programs.

Approximately three-fourths of all workers' compensation cases involve only medical benefits. Cash wage replacement benefits are categorized according to the duration and severity of the worker's disability.

Temporary and Permanent Total Disability

A large majority of compensation cases involving cash payments involve temporary total disability. That is, the employee is unable to work at all while he or she is recov-

ering from the injury but the worker is expected to recover. When workers' lost time exceeds the waiting period (3 to 7 days, depending on the state) they receive a percentage of their weekly wages—typically two-thirds—up to a maximum weekly amount. The maximum generally being set at some percentage of the states average weekly wage, ranging from 66 2/3 percent to 200 percent but typically 100 percent.

In some cases, workers return to work prior to the date they reach maximum medical improvement and thus have reduced responsibilities and an accompanying lower salary. In those cases they receive temporary partial disability benefits.

After the date of maximum medical improvement, if a disability is severe enough, the worker receives permanent total disability benefits. Very few workers compensation cases are found to have permanent total disabilities.

Permanent Partial Disability

If the permanent disability of a worker is only partial and may or may not lessen work ability, permanent partial disability benefits are payable. The system for determining benefits in these cases is very complex and varies significantly across jurisdictions. Some states provide benefits based on an impairment rating scheme. The level of impairment, often expressed as a percentage of total disability, is used to determine the benefit amount. Some states provide benefits based on the loss of earning capacity. They use impairment ratings with modifications based on vocational factors, such as the worker's education, job experience, and age. Other states use systems that attempt to compensate workers for actual lost wages.

Death Benefits

Generally, compensation is related to earnings and to the number of dependents payable to the survivors of workers who die from a work-related illness or injury. Benefits are capped in 26 states.

Medical Benefits

All compensation acts require that medical aid be furnished to workers suffering from a work-related injury or illness without delay, whether or not the condition entails work interruption. This care includes first-aid treatment, physician services, surgical and hospital services, nursing, medical drugs and supplies, appliances, and prosthetic devices. Care is typically provided with no co-payment from the worker.

A few state laws contain provisions for nominal contributions by the covered employee for hospital and medical benefits.

Financing

Workers' compensation programs are financed almost exclusively by employers and are based on the principle that the cost of work-related accidents is a business expense. Depending on state laws, employers can purchase insurance from a private carrier or state fund, or they can self-insure. No program relies on general taxing power to finance workers' compensation. Employers in most programs are permitted to carry insurance against work accidents with commercial insurance companies or to qualify as self-insurers by giving proof of financial ability to carry their own risk. In 7 jurisdictions, however, commercial insurance is not allowed. In four of these areas, including Puerto Rico and the Virgin Islands, employers must insure with an exclusive state fund, and in three others, they must either insure with an exclusive state insurance fund or self-insure. In 19 jurisdictions, state funds have been established that compete with private insurance carriers. Federal employees are provided protection through a federally financed and operated system.

Program Highlights

Benefit payments under workers' compensation programs increased 3.5 percent in 2001 to \$49.4 billion, from the 2000 figure of \$47.7 billion. When compared to covered wages, benefits grew by just 1.0 percent from \$1.06 to \$1.07 per \$100 of covered wages.

In 2001, medical benefits accounted for \$22.0 billion, and wage loss compensation for \$27.4 billion. The latter amount includes payments to disabled workers and the survivors of deceased workers.

The \$49.4 billion for workers' compensation benefit payments in 2001 includes over \$870 million in benefits for the Black Lung program. This program is described separately (see Tables 9.D1–9.D3).

The employers' cost of providing workers' compensation coverage generally varies according to risk, industrial classification, and experience rating. Nationally, in 2001, such costs were approximately \$1.39 per \$100 of covered wages, or about \$504 for each of the 127.0 billion protected employees.

The year 2001 is the first year since 1992 that benefits grew faster than wages. It is the first year since 1993 that employer costs increased relative to covered wages.

CONTACT: Virginia Reno (202) 452-8097.

Temporary Disability Insurance

Five states, Puerto Rico, and the railroad industry have social insurance programs that partially compensate for the loss of wages caused by temporary nonoccupational disability or maternity. Those programs are known as temporary disability insurance (TDI) because the duration of the payments is limited.

Federal law does not provide for a federal-state system of short-term disability comparable to the federal-state system of unemployment insurance. However, the Federal Unemployment Tax Act (FUTA) was amended in 1946 to permit states where employees made contributions under the unemployment insurance program to use some or all of these contributions for the payment of disability benefits (but not for administration). Three of the nine states that could have benefited by this provision for initial funding for TDI took advantage of it: California, New Jersey, and Rhode Island. The first state law was enacted by Rhode Island in 1942, followed by legislation in California and the railroad industry in 1946, New Jersey in 1948, and New York in 1949. Then came a hiatus of two decades before Puerto Rico and Hawaii passed laws in 1968 and 1969, respectively.

The five state temporary disability insurance laws and the Puerto Rico law cover most commercial and industrial wage and salary workers in private employment if the employer has at least one worker. In no state is coverage under TDI identical with that of the unemployment insurance program. Principal occupational groups excluded are domestic workers, family workers (parent, child, or spouse of the employer), government employees, and the self-employed. State and local government employees are included in Hawaii, and the other state programs generally provide elective coverage for some or all public employees.

Agricultural workers are covered to varying degrees in California, Hawaii, New Jersey, and Puerto Rico, but they are not covered in other jurisdictions. The California law permits self-employed individuals to elect coverage on a voluntary basis. Workers employed by railroads, railroad associations, and railroad unions are covered by TDI under the national system included in the Railroad Unemployment Insurance Act.

The methods used for providing this protection vary. In Rhode Island, the coverage is provided through an exclusive, state-operated fund into which all contributions are paid and from which all benefits are disbursed. In addition, covered employers may provide supplemental benefits in any manner they choose. The railroad program is also exclusively publicly operated in conjunction with its unemployment insurance provisions.

In California, New Jersey, and Puerto Rico, coverage is provided through a state-operated fund, but employers are

permitted to "contract out" of the state fund by purchasing group insurance from commercial insurance companies, by self-insuring, or by negotiating an agreement with a union or employees' association. Coverage by the state fund is automatic unless or until an employer or the employees take positive action by substituting a private plan that meets the standards prescribed in the law and is approved by the administering agency. Premiums (in lieu of contributions) are then paid directly to the private plan, and benefits are paid to the workers affected.

The Hawaii and New York laws require employers to provide their own disability insurance plans for their workers by setting up an approved self-insurance plan, by reaching an agreement with employees or a union establishing a labor-management benefit plan, or by purchasing group insurance from a commercial carrier. In New York, the employer may also provide protection through the State Insurance Fund, which is a state-operated competitive carrier. Both Hawaii and New York operate special funds to pay benefits to workers who become disabled while unemployed or whose employers have failed to provide the required protection. In other jurisdictions, benefit payments for the disabled unemployed are made from the regular state-operated funds.

Eligibility for Benefits

To qualify for benefits, a worker must fulfill certain requirements regarding past earnings or employment and must be disabled as defined in the law. In addition, claimants may be disqualified if they received certain types of income during the period of disability.

Earnings or Employment Requirements

A claimant must have a specified amount of past employment or earnings to qualify for benefits. However, in most jurisdictions with private plans, the plans either insure workers immediately upon their employment or, in some cases, require a short probationary period of employment, usually from 1 to 3 months. Upon cessation of employment after a specified period, workers generally lose their private plan coverage and must look to a state-created fund for such protection.

Disability Requirements

The laws generally define disability as inability to perform regular or customary work because of a physical or mental condition. Stricter requirements are imposed for disability during unemployment in New Jersey and New York. All the laws pay full benefits for disability due to pregnancy.

Disqualifying Income

All the laws restrict payment of disability benefits when the claimant is also receiving workers' compensation payments. However, the statutes usually contain some exceptions to this rule (for example, if the workers' compensation is for partial disability or for previously incurred work disabilities).

The laws differ with respect to the treatment of sick leave payments. Rhode Island pays disability benefits in full even though the claimant draws wage continuation payments. New York deducts from the benefits any payment from the employer or from a fund contributed to by the employer, except for benefits paid pursuant to a collective bargaining agreement. In California, New Jersey, and Puerto Rico, benefits plus paid sick leave for any week during disability may not exceed the individual's weekly earnings before their disablement. Railroad workers are not eligible for TDI benefits while they receive sick leave pay.

In all seven TDI systems, as with unemployment insurance, weekly benefit amounts are related to a claimant's previous earnings in covered employment. In general, the benefit amount for a week is intended to replace at least one-half the weekly wage loss for a limited time. All the laws, however, specify minimum and maximum amounts payable for a week. The maximum duration of benefits varies from 26 to 52 weeks. Hawaii, New York, and Puerto Rico provide for benefits of a uniform duration of 26 weeks for all claimants; California and the railroad program have maximum benefit periods of 52 weeks; New Jersey, 26 weeks; and Rhode Island, 30 weeks. Under the railroad program, duration of benefits varies from 26 weeks to 52 weeks, based on the total number of years of employment in the industry. In the other jurisdictions, limited pre-disability "base period" wages reduce benefit duration. A noncompensable waiting period of a week or 7 consecutive days of disability (4 days for railroad workers) is generally required before the payment of benefits for subsequent weeks.

The statutory provisions described above govern the benefits payable to employees covered by the state-operated plans. In those states where private plans are permitted to participate, those provisions represent standards against which the private plan can be measured (in accordance with provisions in the state law).

Financing and Administration

Under each of the laws, except for that governing the railroad program, employees may be required to contribute to the cost of the temporary disability benefit. In five of the jurisdictions (all but California and Rhode Island), employers are also required to contribute. In general, the government does not contribute.

Five of the seven TDI programs are administered by the same agency that administers unemployment insurance. Under those five programs, the unemployment insurance administrative machinery is used to collect contributions, to maintain wage records, to determine eligibility, and to pay benefits to workers under the state-operated funds. The New York law is administered by the state Workers' Compensation Board, and the Hawaii law is administered separately in the Department of Labor and Industrial Relations.

By way of contrast, claims in New York and Hawaii are filed with and paid by the employer, the insurance carrier, or the union health and welfare fund that is operating the private plan. The state agency limits its functions with respect to employed workers to exercising general supervision over private plans, to setting standards of performance, and to adjudicating disputed claims arising between claimants and carriers. A similar situation applies to claimants under private plans in California, New Jersey, and Puerto Rico.

Black Lung Benefits

The Black Lung benefit program established by the Federal Coal Mine Health and Safety Act of 1969 provides monthly benefit payments to coal miners totally disabled as a result of pneumoconiosis, to the widows of coal miners who died as a result of pneumoconiosis, and to their dependents. The Social Security Administration (SSA) was responsible for the payment and administration of these Part B benefits (miner, survivor, and dependent) with respect to claims filed through June 30, 1973 (and certain survivor cases, before December 31, 1973).

On October 1, 1997, responsibility for maintenance and payment of Part B was transferred from SSA to the Department of Labor (DOL); SSA, however, maintains responsibility for conducting formal hearings necessary to resolve contested issues with respect to Part B claims. Only data on these Part B claims are reported on in this *Supplement*. Part C claims are reported in the *OWCP Annual Report to Congress*, U.S. Department of Labor, Office of Workers' Compensation Programs.

Under the Black Lung Benefits Act of 1972, DOL was assigned jurisdiction over Part C benefits, generally claims filed July 1, 1973, and later. Different financing provisions are applicable to these claims.

Legislation enacted on November 2, 2002 (P.L. 107-275), transferred permanently the responsibility for all Black Lung claims (Parts B and C) to the Office of Workers' Compensation Programs (OWCP) of the Department of Labor. The Social Security Administration will only continue to handle a small number of pending Part B appeals cases on a reimbursable basis.

The basic Black Lung benefit rate is set by law at 37 1/2 percent of the monthly pay rate for federal employees in the first step of grade GS-2. The basic rate to a

miner or widow may be increased according to the number of qualified dependents—50 percent of the basic benefit rate if one dependent qualifies, 75 percent for two dependents, and 100 percent for three or more dependents.

Since Black Lung payments are tied directly to federal employee salary scales, increases are automatically payable when federal salaries are increased. Reflecting a 3.1 percent adjustment, monthly benefit rates effective January 1, 2003, are:

- Miner or widow, \$534.60
- Miner or widow and 1 dependent, \$801.90
- Miner or widow and 2 dependents, \$935.50
- Miner or widow and 3 or more dependents (family benefit), \$1,069.20

If a miner or surviving spouse is receiving workers' compensation, unemployment compensation, or disability insurance payments under state law, the Black Lung benefit is offset by the amount being paid under these other programs.

The 1972 amendments extended benefit payments to full orphans, parents, brothers, and sisters of deceased miners. Under earlier law, survivor payments were limited to widows and their dependent children (if the miner and spouse were both deceased, no benefits were payable to surviving children). The 1972 amendments also expanded coverage to include surface as well as underground coal miners.

Veterans' Benefits

A variety of programs and benefits are available to servicemembers and veterans of military service: disability payments, educational assistance, health care, vocational rehabilitation, survivor and dependents benefits, life insurance, burial benefits, special loan programs, and hiring preference for certain jobs. Most of the veterans programs are administered by the Department of Veterans Affairs (VA).

Monetary Benefits

Two major cash benefit programs are available for veterans. The first program provides benefits to veterans with service-connected disabilities and, on the veteran's death, benefits are available for eligible surviving spouses, children, and dependent parents. These benefits are payable regardless of other income or resources. The second program provides benefits to needy veterans who have non-service-connected disabilities. These benefits are means tested.

Compensation for Service-connected Disabilities

Disability compensation is a monetary benefit paid to veterans who are disabled by injury or disease incurred in or aggravated during active military service. Individuals discharged or separated from military service under dishonorable conditions are generally not eligible for compensation payments. The amount of monthly compensation depends on the degree of disability, rated as the percentage of normal function lost. Payments in 2003 range from \$104 a month for a 10-percent disability to \$2,193 a month for total disability. Veterans who have at least a 30-percent service-connected disability are entitled to an additional dependent's allowance. The amount is based on the number of dependents and degree of disability.

Pension for Non-service-connected Disabilities

Monthly benefits are provided to wartime veterans with limited income and resources who are totally and permanently disabled because of a condition not attributable to their military service. To qualify for these pensions, a veteran must have served in one or more of the following designated war periods: The Mexican Border Period, World War I, World War II, the Korean Conflict, the Vietnam Era, or the Gulf War. The period of service must have lasted at least 90 days, and the discharge or separation cannot have been dishonorable. Service less than 90 days is acceptable if the veteran was discharged with a service-connected disability.

Pension payments are reduced by countable income. Some medical and other expenses are allowed as deductions from countable income. Veterans aged 65 years or older who meet service, net worth, and income require-

ments are eligible for pension, regardless of current physical condition.

Effective December 1, 2002, maximum benefit amounts for non-service-connected disabilities range from \$807 per month for a veteran without a dependent spouse or child to \$1,597 per month for a veteran who is in need of regular aid and attendance and who has one dependent. For each additional dependent child, the pension is raised by \$136 per month.

Benefits for Survivors

The dependency and indemnity compensation (DIC) program provides monthly benefits to the surviving spouse, children (under age 18, disabled, or students), and certain parents of service persons or veterans who die as the result of an injury or disease incurred while in or aggravated by active duty or training, or from a disability otherwise compensable under laws administered by the Department of Veterans Affairs.

DIC payments may also be authorized for survivors of veterans who were totally disabled by service-connected conditions at the time of death, even though their service-connected disabilities did not cause their deaths.

Eligibility for survivor benefits based on a non-service-connected death of a veteran with a service-connected disability requires a marriage of at least a 1-year duration before the veteran's death. A surviving spouse is generally required to have lived continuously with the veteran from marriage until his or her death. Entitlement for death benefits ends with the surviving spouse's remarriage, but may be restored upon termination of the remarriage.

The monthly benefit amount payable to surviving spouses of veterans, who died before January 1, 1993, depends on the last pay rate of the deceased service person or veteran. In 2003, for pay grades E-1 through E-6, a flat monthly rate of \$948 is paid to surviving spouses. Monthly benefits for grades E-7 through E-9 range between \$980 and \$1,165. For veterans who died after January 1, 1993, surviving spouses receive a flat \$948 a month. An additional \$204 a month will be paid to supplement the basic rate if the deceased veteran had been entitled to receive 100-percent service-connected compensation for at least 8 years immediately preceding death. The amounts payable to eligible parents are lower and depend on: (1) the number of parents eligible, (2) their income, and (3) their marital status.

Pensions for Non-service-connected Death

Pensions are paid based on need to surviving spouses and dependent children (under age 18, disabled or students) of deceased veterans of the wartime periods specified in the

disability pension program. For a pension to be payable, the veteran generally must have met the same service requirements established for the non-service-connected disability pension program, and the surviving spouse must meet the same marriage requirements as under the dependency and indemnity compensation program.

The pension amount depends on the composition of the surviving family and the physical condition of the surviving spouse. In 2002, pensions range from \$541 a month for a surviving spouse without dependent children to \$1,032 a month for a spouse who is in need of regular aid and attendance and who has a dependent child. The pension is raised by \$137 a month for each additional dependent child. Pension payments are reduced by countable income. Some medical and other expenses are allowed as deductions from countable income.

Hospitalization and Other Medical Care

The Department of Veterans Affairs (VA) provides a nationwide system of health care through a system of hospitals and community-based outpatient clinics to eligible veterans.

Enrollment and Provision of Hospitalization and Outpatient Medical Care to Veterans

To receive health care, veterans generally must be enrolled with the VA and may apply for enrollment at any time. Veterans do not have to be enrolled if they (1) have a service-connected disability of 50 percent or more; (2) want care for a disability that the military determined was incurred or aggravated in the line of duty but that the VA has not yet rated during the 12-month period following discharge; or (3) want care for a service-connected disability.

Enrolled veterans and those not subject to enrollment are eligible to receive comprehensive medical benefits, which includes basic and preventive care.

Eligibility Requirements

Basic eligibility for hospital care and outpatient medical services are based on a veteran's character of discharge from active military service. Veterans discharged prior to September 7, 1980, for other than dishonorable conditions have basic eligibility for care. However, veterans discharged after September 7, 1980, must have completed 24 consecutive months of active duty service. Reservists who were called or ordered to active duty may also be eligible for care as a veteran if they complete the full period for which they were called or ordered to active duty. The 24-month minimum service time requirement does apply to veterans who were discharged for reasons of early-out under Title 38, U.S.C. 1173, discharged for a disability incurred or aggravated in the line of duty, awarded VA compensation or is in need of care for an adjudicated service-connected disability.

Care for Dependents and Survivors

The dependents and survivors of certain veterans may be eligible for medical care under the Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA) if not eligible for medical care under Tricare or Medicare. Tricare (formerly known as CHAMPUS) is the health program administered by the Department of Defense for dependents of active duty personnel and military retirees and their dependents.

Beneficiaries covered by CHAMPVA may be treated at Department facilities when space is available. Usually, however, the person with CHAMPVA coverage is treated at a community hospital of his or her choice. The Department of Veterans Affairs pays for a part of the bill and the beneficiary is responsible for any required co-payment.

Nursing Home Care

A veteran seeking nursing home care must meet the established eligibility requirements for admission to a Department of Veterans Affairs nursing home. The Veterans Millennium Health Care and Benefits Act (Public Law 106-117, passed by Congress on November 30, 1999) made amendments to the original authority for nursing home placement. The new law requires that the VA:

- Provide nursing home care to any veteran in need of such care for a service-connected disability;
- Provide nursing home care to any veteran who is in need of such care and who has a service-connected disability rated at 70 percent or greater;
- Provide nursing home care, either directly or through contracts when clinically indicated for eligible veterans;
- Facilities will determine the need for nursing home care based on a comprehensive interdisciplinary assessment.

Other Medical Benefits

Other Department of Veterans Affairs programs and medical benefits are available to certain veterans. Veterans do not need to be enrolled in the VA health care system to be eligible for any of the following benefits, although there may be restrictions: domiciliary care, alcohol and drug dependency treatment; prosthetic appliances; modification in certain veterans' homes when so ordered by his or her physician, subject to cost limitations; compensation and pension examinations; care as part of a VA-approved research project; readjustment counseling and treatment for Vietnam veterans; sexual trauma counseling for veterans suffering from trauma of a sexual nature during active military service; counseling; vocational rehabilitation counseling; special registry examinations and dental care.

Educational Assistance

The post-Vietnam Veterans' Educational Assistance Program (VEAP) is a voluntary contributory matching program for persons entering service after December 31, 1976. To be eligible, the servicemember must have initially contributed to VEAP before April 1, 1987. The Montgomery GI Bill-Active Duty program provides education benefits for individuals entering military service on or after July 1, 1985, and for certain other individuals. Service members entering active duty have their basic pay reduced \$100 a month for

the first 12 months of their service unless they specifically elect not to participate. An educational assistance program is also available for individuals who enter the Selected Reserve on or after July 1, 1985.

The Department of Veterans Affairs also pays educational assistance for dependents if a veteran is permanently and totally disabled from a service-related cause, or dies as a result of service, or while completely disabled from service-related causes.

Temporary Assistance for Needy Families

On August 22, 1996, The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 became law. This comprehensive, bipartisan legislation changed the nation's welfare system into one requiring work in exchange for time-limited assistance. It created the Temporary Assistance for Needy Families (TANF) program, which replaced the Aid to Families with Dependent Children (AFDC), Emergency Assistance (EA), and Job Opportunities and Basic Skills Training (JOBS) programs. The law marks the end of federal entitlement to assistance. In TANF, states and territories operate programs, and Indian tribes have the option to run their own programs. States, territories, and tribes each receive a block grant allocation, and states must maintain a historical level of state spending known as maintenance of effort. The basic block grant provides states and tribes \$16.5 billion in federal funds each year, through 2002. This amount covers benefits, administrative expenses, and services targeted to needy families.

The 1996 law offers states great flexibility in designing individual state TANF programs. Unless expressly provided under the statute, the federal government may not regulate the conduct of states.

States may use TANF funds in any manner "reasonably calculated to accomplish the purposes of TANF." The purposes are assisting needy families so that children can be cared for in their own homes; reducing dependency of needy parents by promoting job preparation, work, and marriage; preventing out-of-wedlock pregnancies, and encouraging the formation and maintenance of two-parent families.

Program Features

Work Requirements

With few exceptions, recipients must work as soon as job ready, or no later than 2 years after coming on assistance. In fiscal year 1997, each state had to ensure that 25 percent of all families in the state were engaged in work activities. This percentage increased to 50 percent in FY 2002. Minimum participation rates for two-parent families started at 75 percent in FY 1997 and increased to 90 percent. (If a state reduces its caseload, without restricting eligibility, it can receive a caseload reduction credit. This credit reduces the minimum participation rates the state must achieve.) During 1997 and 1998, single parents had to participate in work activities for at least 20 hours per week; by FY 2000, they had to participate at least 30 hours per week. Two-parent families had to participate in work activities for at least 35 or 55 hours per week, depending upon the circumstances. Failure to participate in work requirements can result in a reduction or a termination of benefits to the family. However, states cannot penalize single par-

ents with a child under 6 for failing to meet work requirements if they cannot obtain child care. A state may exempt single parents with children under the age of 1 from the work requirements and disregard these individuals in the calculation of participation rates for up to 12 months.

Work Activities

Activities that count towards a state's participation rates are unsubsidized or subsidized employment, on-the-job training, work experience, community service, job search, vocational training, job skills training related to work, or education directly related to work; satisfactory secondary school attendance; and providing child care services to individuals who are participating in community service. However, no more than 12 months of vocational training, no more than 6 total weeks of job search, and no more than 4 consecutive weeks of job search may count. Further, effective in FY 2000, no more than 30 percent of those meeting the participation rates may count toward the work requirement on the basis of participation in vocational training or by being a teen parent in secondary school.

Five-Year Time Limit

Families with an adult who has received federally funded assistance for a total of 5 years (or less at state option) are not eligible for cash aid under the TANF program. States may extend assistance beyond 60 months to up to 20 percent of their caseload. They may also elect to provide assistance to families beyond 60 months using state-only funds, or they may provide services to families that reach the time limit using Social Services Block Grants.

State Maintenance of Effort Requirements

The TANF block grant program has an annual cost-sharing requirement, referred to as "maintenance of effort," or MOE. Every fiscal year each state must spend a certain minimum amount of its own money to help eligible families in ways that are consistent with the purposes of the TANF program. The required MOE amount is based on an "applicable percentage" of the state's (non-federal) expenditures on AFDC and the AFDC-related programs in 1994. The applicable percentage depends on whether the state meets its minimum work participation rate requirements for that fiscal year. A state that does not meet the required minimum work participation rate requirements must spend at least 80 percent of the amount it spent in 1994. A state that meets its minimum work participation rate requirements must spend at least 75 percent of the amount it spent in 1994.

In addition to the federal TANF block grant funding, needy states with economic problems may request federal

funds from the Contingency Fund. The Contingency Fund has a more rigorous MOE requirement.

Additional Funding

Bonuses to reward high performance and reduce out-of-wedlock births. Through FY 2003, \$1 billion is available to states for high performance bonuses for achieving program goals, such as moving welfare recipients into jobs. There is a separate \$100 million annual appropriation for bonuses to the 5 states that have the greatest success in reducing their out-of-wedlock birth rates, while also reducing their abortion rates.

Contingency fund, supplemental grants, and loans.

There is a contingency fund of \$2 billion available over 5 years to states experiencing economic downturns. There are two additional funds: a \$800 million fund available over 4 years to provide supplemental grants for states with high population growth and historically low welfare spending and a \$1.7 billion federal loan fund.

Penalties

The Department of Health and Human Services (HHS) may reduce a state's block grant if it fails to do any of the following:

- Satisfy work requirements. A penalty of 5 percent accrues in the first year. The penalty amount increases 2 percent per year for each consecutive failure. The penalty is adjusted based on degree of failure. The maximum penalty is 21 percent.
- Comply with 5-year limit on assistance. Failure to comply results in a 5 percent penalty.
- Meet the state's basic maintenance of effort requirements. The penalty is based on the amount of the state's under-spending. The state also loses its Welfare-to-Work funds.
- Meet the state's contingency fund MOE requirement. The penalty is a reduction of the state's federal TANF grant by the amount of contingency funds received and not remitted.
- Reduce recipient grants for refusing to participate in work activities without good cause. A penalty of between 1 percent and 5 percent is assessed based on the degree of noncompliance. Maintain assistance when a single custodial parent with a child under six cannot obtain child care. Failure to comply results in a penalty of 5 percent.
- Submit required data reports. A penalty of 4 percent accrues.
- Comply with paternity establishment and child support enforcement requirements. Failure to comply results in a penalty of up to 5 percent.

- Participate in the Income and Eligibility Verification System. A penalty of up to 2 percent accrues.
- Repay a federal loan on time. The penalty will be based on the amount unpaid.
- Use funds appropriately. Misuse of funds can result in states being penalized for the amount misused. If this misuse is found to be intentional, an additional penalty of 5 percent will be assessed.
- Replace federal penalty reductions with additional state funds. This provision results in a penalty of up to 2 percent and requires states to contribute state funds to make up for any reductions in federal funds due to penalties.

The total penalty assessed against a state in a given year may not exceed 25 percent of a state's block grant allotment. In some situations, states may avoid penalties (1) if they demonstrate that they had reasonable cause for failing to meet the program requirements or (2) if they develop a corrective compliance plan, receive approval of their plan, and correct or discontinue the violation.

Personal Employability Plans

States must make an initial assessment of a recipient's skills. States may develop personal responsibility plans for each recipient to identify the education, training, and job placement services needed to move into the workforce.

Teen Parent Live-At-Home and Stay-In-School Requirement

Unmarried minor parents must participate in educational and training activities and live with a responsible adult or in an adult-supervised setting in order to receive assistance. States are responsible for assisting in locating adult-supervised settings for teens who cannot live at home.

State Plans

The Department of Health and Human Services (HHS) reviews state plans for completeness only. States must allow for a 45-day comment period on the state plan by local governments and private organizations and consult with them. The state plan must have "objective criteria" for eligibility and benefits that are "fair" and "equitable." The plan must explain appeal rights.

Job Subsidies

The law allows states to create jobs by taking money that is now used for welfare checks and using it to create community service jobs, provide income subsidies, or provide hiring incentives for potential employers.

Waivers

States that received approval for welfare reform waivers before January 1, 1997, have the option to operate their cash assistance program under some or all of these waivers, until the waivers expire.

Effective Dates

States had until July 1, 1997, to submit state plans and begin implementing TANF, although they had the option to implement earlier.

HHS published final regulations covering the state TANF programs on April 12, 1999. These regulations took effect October 1, 2000.

Tribal Programs

Federally recognized Indian tribes may apply directly to HHS to operate a TANF block grant program. Eligible tribes include the federally recognized tribes in the lower 48 states and 13 designated entities in Alaska (that is, the 12 Alaska Native regional nonprofit associations and Matlakatla). TANF allotments for Indian tribes are based upon previous state expenditures of federal dollars in AFDC,

Emergency Assistance (EA), and JOBS on tribal members in fiscal year 1994. Tribal TANF programs could be implemented as early as July 1, 1997. Like states, Indian tribes can use their TANF funding in any manner reasonably calculated to accomplish the purposes of TANF. They have broad flexibility to determine eligibility, method of assistance, and benefit levels. Unlike state plans, the federal government approves tribal plans. Tribes and HHS must reach agreement on time limits, work requirements, and minimum participation rates.

In addition to authorizing tribes to administer TANF, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 replaced the former tribal JOBS program with the Native Employment Works (NEW) program. The NEW program provides funding for tribes and intertribal consortia to design and administer tribal work activities that meet the unique employment and training needs of their populations while allowing tribes and states to provide other TANF services.

HHS published final regulations for the tribal TANF and NEW programs on February 18, 2000.

CONTACT: Bettie McClure (202) 401-5032.

Food Stamps

Overview

The Food Stamp program provides a means for persons with no or little income to obtain a nutritionally adequate diet. The program issues monthly allotments of coupons that are redeemable at retail food stores, or provides benefits through electronic benefit transfer (EBT). Eligibility and allotments are based on household size, income, assets, and other factors.

Households without income receive an amount equal to 100 percent of the June monthly cost of the Thrifty Food Plan (TFP—a nutritionally adequate diet) for a reference family of four adjusted for household size and economies of scale. This amount is updated every October for the new fiscal year to account for food price increases.

As of October 2003, an eligible four-person household in the continental United States with no income receives \$471 per month in food stamps. Households with income receive food stamps valued at the difference between the maximum allotment and 30 percent of their income, after certain allowable deductions.

To qualify for food stamps, a household must have:

1. Less than \$2,000 in disposable assets (\$3,000, if one member is aged 60 or older or is disabled),
2. Gross income below 130 percent of the poverty guidelines for the household size, and
3. Net income of less than 100 percent of the poverty guidelines' allowable deductions.

Households with a person aged 60 or older or a disabled person receiving either Supplemental Security Income (SSI), Social Security (OASDI), state general assistance, or veterans' disability benefits (or interim disability assistance pending approval of any of the above programs) may have gross income exceeding 130 percent of the poverty guidelines if the income is lower than 100 percent of the poverty guidelines allowable deductions.

One- and two-person households that meet the applicable standard receive at least \$10 a month in food stamps.

All households in which all members receive Temporary Assistance for Needy Families (TANF) or SSI are categorically eligible for food stamps.

Net income is computed by subtracting the following deductions from monthly gross income:

1. Twenty percent of earned income.
2. Standard deduction of \$134 for fiscal year 2002 for households with one to four members, \$147 for house-

holds with five members, and \$168 for households with six or more members.

3. Amount paid for dependent care (up to \$200 a month for each child under age 2 and \$175 for all other dependents) while the dependent's caretaker is working or looking for work.
4. Out-of-pocket medical expenses in excess of a \$35 deductible for a person aged 60 or older or a disabled person. If more than one person in the household is aged or disabled, \$35 is subtracted once before deducting combined medical expenses.
5. Legally owed child support payments.
6. Excess shelter expenses, which are total shelter costs including utilities minus 50 percent of income after all the above deductions have been subtracted. Effective October 1, 2002, the limit was \$367. The limit does not apply to households with an aged or disabled member.

Households are certified to receive food stamps for varying lengths of time, depending on their income sources and individual circumstances. Recertification is required at least annually. Households whose sole income is from SSI payments or Social Security benefits are certified for a 12-month period, although states may request a waiver allowing for a 24-month certification period for these households. Households must report monthly income or expense changes of \$25 or more or other changes in circumstances that would affect eligibility.

Families with income or food loss resulting from disaster situations such as tornadoes or floods may be eligible for food stamps for up to 1 month if they meet the special disaster income and asset limits.

Special provisions allow the homeless, drug addicts, alcoholics, blind, or disabled residents in certain group living arrangements, residents of shelters for battered spouses and children, and persons aged 60 or older to use their coupons for meals prepared at a nonprofit facility. The elderly and homeless may also use their coupons to purchase concession-priced meals from authorized restaurants.

Households with members who are elderly (aged 60 or older), disabled, or lack transportation to the food stamp office may be certified for food stamps through a telephone interview or a home visit.

Initiated on a pilot basis in 1961, the Food Stamp program was formally established by the Food Stamp Act of 1964, with 22 states operating 43 projects, serving 350,000 people. The Food Stamp Act of 1977, as amended (P.L. 95-113), has been extended to all 50 states, the District of Columbia, Guam, and the Virgin Islands. Authorization for

this program extends through September 30, 2002. (Since July 1982, Puerto Rico receives a block grant for nutrition assistance rather than participating in the Food Stamp program.)

The Food Stamp program is administered nationally by the Food and Nutrition Service of the Department of Agriculture (USDA) and operates through local welfare offices and the nation's food marketing and banking systems. Since August 1, 1980, persons receiving or applying for SSI payments have been permitted to apply for food stamps through local Social Security district offices. The federal government, through general revenues, pays the entire cost of the food stamp benefits, but federal and state agencies share administrative costs.

An average of 18.9 million persons per month participated in the Food Stamp program each month during the first eight months of fiscal year 2002 (the period from October 2001 through May 2002). The average monthly value of food stamps per person was about \$79.75, and the total value of benefits issued during the first eight months of the year was \$12.1 billion. Total federal government costs for this program were \$13.1 billion.

History of Provisions

The Food Stamp Act of 1984 (P.L. 88-525) established the Food Stamp program. Originally, participants were required to purchase food stamp coupons. The difference between the face value of the coupons and the amount the participant paid was known as the "bonus value." The amount paid for coupons varied according to household income.

Amendments to the 1964 Act, enacted in 1971 (P.L. 91-671), established uniform national eligibility standards and uniform national benefit levels, required family allotments large enough to purchase a nutritionally adequate diet, provided free food stamps to the poorest recipients, required automatic cost-of-living increases in food stamp allotments, and established work-registration requirements for able-bodied adult household members up to age 65 (except students and those needed at home to care for children under age 18).

The Agriculture and Consumer Protection Act of 1973 (P.L. 93-86) expanded the program (while phasing out the family food distribution program), provided for semi-annual allotments of coupon adjustments, and broadened the categories of persons eligible to participate. This legislation extended the program nationwide, requiring all states to participate in the Food Stamp program.

The Food and Agricultural Act of 1977 (P.L. 95-113) made sweeping changes to the Food Stamp program. It eliminated the purchase requirement and allowed households to receive only the bonus portion of their coupon allotments. Deductions from income were limited to a standard deduction, a 20-percent earnings deduction, and a combined excess shelter and child care deduction. The

poverty guidelines became the new eligibility limits and, for the first time, households receiving Aid to Families with Dependent Children (AFDC) or SSI payments were required to meet asset and income limits. The work registration requirements were tightened for students and for caretakers, whose children now had to be under age 12. Parents of children aged 12 or older were required to register for work. However, the age at which the registration exemption for older persons became effective was lowered from age 65 to age 60.

The Food Stamp Act Amendments of 1979 (P.L. 96-58) provided a medical deduction to elderly and disabled persons, removed the limit on their shelter deduction, and tightened fraud provisions.

Legislation enacted in 1980 provided for an annual, rather than semi-annual, adjustment to benefit levels and the amount of the standard deduction. This legislation also restricted student eligibility.

The Omnibus Budget Reconciliation Act (P.L. 97-35) and the Food Stamp and Commodity Distribution Amendments of 1981 (P.L. 97-98) mandated further changes in the Food Stamp program. For the first time, a gross income eligibility standard was applied to all households not containing an aged or disabled person. The earnings deduction was lowered to 18 percent. The updates to the TFP to account for inflation were postponed until October 1982 and the deduction limits were postponed until July 1983. For new participants, benefits for the first month were prorated from the day the application was filed. Boarders and persons who take part in strikes were excluded from the program and the definition of what constitutes a household was tightened. Provisions facilitating claims and overpayment collection and fraud recovery were also enacted.

The program in Puerto Rico was replaced by a block grant. Monthly reporting and retrospective accounting systems were made mandatory for all states effective October 1983. Households composed solely of all aged or disabled persons, as defined above, were exempted from the monthly reporting requirements, and migrant households were exempted from both requirements.

Further revisions were made by the Food Stamp Amendments of 1982 (P.L. 97-252). The maximum allotment was reduced from 100 percent to 99 percent of the TFP and adjustments to the standard and shelter deductions were delayed until October 1, 1983. (P.L. 98-473 restored maximum food stamp allotments to the full cost of the TFP beginning November 1, 1984.) A net income limit for nonelderly and nondisabled households was added to the existing gross income limit. Benefit computations and adjustments were rounded down to the nearest dollar, and new restrictions were placed on the use of the Standard Utility Allowance for the excess shelter expense deduction. At the same time, the definition of disability for food stamp purposes was expanded to include those persons receiving

certain veterans' payments, and annual cost-of-living adjustments to SSI payments and Social Security benefits were not counted in determining food stamp amounts for 3 months.

The Food Stamp program authorization was extended for 5 years by the Food Security Act of 1985 (P.L. 99-198). Among the revisions enacted, the definition of disability for food stamp purposes was again extended to include recipients of state supplementary SSI payments, government disability benefits, and Railroad Retirement disability payments.

Households in which all members receive AFDC or SSI were made categorically eligible for food stamps. The earned income, child care, excess shelter cost deductions, and asset limits were increased as of May 1986. Portions of the income received under the Job Training Partnership Act were now considered countable income. Further, all states were required to implement an employment and training program for food stamp recipients by April 1987.

The Hunger Prevention Act of 1988 (P.L. 100-435) made several changes in the program. It raised the maximum food stamp allotments and established allotments as specified percentages of the TFP as of the preceding June. For fiscal year 1989, the allotments were 100.65 percent of the TFP for June 1988; for fiscal year 1990, they were 102.05 percent of the TFP for June 1989; and for fiscal years 1991 and on, they are to be 103.00 percent of the TFP.

Other provisions of the 1988 legislation required states to institute prospective budgeting for households not required to report monthly and retrospective budgeting for households reporting monthly. It extended disability status to individuals who receive interim assistance pending the receipt of Supplemental Security Income, Social Security, or state disability payments, and allowed the elderly, disabled, and those without transportation to apply for food stamps via telephone interviews. It required states to process Food Stamp applications jointly with AFDC and general assistance applications. It raised the dependent-care deduction from \$160 per household to \$160 per dependent. It made permanent an amendment in the Homeless Eligibility Clarification Act that exempts residents of shelters from ineligibility as residents of institutions.

Several provisions of the 1988 legislation also affect persons in farming. Households with farm income and expenses were given the option of averaging irregular farm-related expenses and farm income over 12 months and excluding as resources the value of farm land, equipment, and supplies for a period of 1 year after a household member ceases to be self-employed in farming.

The Mickey Leland Memorial Domestic Hunger Relief Act of 1990 (P.L. 101-624) reauthorized the Food Stamp program and the Nutrition Assistance Program in Puerto Rico with no major changes through fiscal year 1995.

Legislation enacted in 1992 prevented a one-time decrease of food stamp allotments for the year beginning October 1, 1992, even though the cost of the TFP had declined slightly.

The Omnibus Budget Reconciliation Act of 1993 (Mickey Leland Childhood Hunger Relief Act, P.L. 103-66) made a number of program revisions including the following.

- The earnings of elementary or high school students who were aged 21 or younger were disregarded.
- Households that had breaks in participation of less than a month were allowed to receive a full month's benefit for the period of the break.
- The children of drug addicts and alcoholics living in treatment centers were permitted to qualify for food stamps.
- Food stamp households participating in demonstration projects were permitted to accumulate up to \$10,000 in resources.
- The shelter cap was raised to \$231 beginning July 1, 1994, then to \$247 beginning October 1995, and was to be eliminated entirely on January 1, 1997.
- The deduction for care of a child or other dependent was raised to \$200 per month for a child under age 2, and \$175 per month for all other dependents, effective September 1, 1994.
- State agencies were given the option to provide deductions for legally binding child support payments made to persons outside the household, effective September 1, 1994. This deduction became mandatory October 1, 1995.
- The definition of a food stamp household was simplified to allow adult siblings who lived together and adult children who lived with their parents to form separate households if they purchased or prepared food separately.
- The amount of the Fair Market Value of a household's first vehicle that is excluded from the asset test was increased from \$4,500 to \$4,550, effective September 1, 1995. The limit was to have been raised to \$5,000, effective October 1, 1996, and indexed thereafter.

Legislation enacted in 1994 primarily provided means to combat fraud in the coupon redemption process.

Legislation enacted in 1995 prevented a one-time decrease of food stamp allotments in Alaska for the year beginning October 1, 1994, even though the cost of the TFP for Alaska had declined slightly.

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193) made sweeping changes to the Food Stamp program. The following addi-

tional restrictions were placed on the eligibility of certain low-income persons.

- Legal immigrants became ineligible for benefits, unless they met one of the following criteria: were naturalized citizens, had worked and paid taxes in the country for 40 quarters (or were the spouse or minor child of someone who had met the work requirement), had served in the U.S. armed forces (or were the spouse or child of a veteran) or were refugees, asylees, or persons granted a stay of deportation when admitted and have lived in the United States for less than 5 years. Legal immigrants currently receiving benefits were allowed to receive benefits until their first recertification after April 1, 1997, or until August 22, 1997, whichever date came first.
- Time limits were imposed for childless unemployed adults aged 18–50. Those who are not disabled are limited to receiving 3 months of benefits in any 36-month period, unless they are working 20 hours per week, participating in a work training program for at least 20 hours per week, or participating in work fare. States may request waivers for areas with at least 10-percent unemployment or insufficient jobs.

Other key provisions included the following:

- The maximum allotment was set at 100 percent of the Thrifty Food Plan, effective October 1, 1996.
- The standard deduction was frozen at \$134.
- The excess shelter deduction cap was set at \$250, effective January 1, 1997 (instead of being lifted), to be raised to \$275 on October 1, 1998, and to \$300 on October 1, 2000.
- The earnings of elementary or high school students aged 18–21 were counted again.
- Households with breaks in participation of less than a month received prorated benefits for the period of the break.
- Adult children under age 22 living with their parents were counted in the same household as their parents.
- The amount of Fair Market Value for a household's first vehicle that is excluded from the asset test was frozen at \$4,650, effective October 1, 1996.
- State and local energy assistance was counted as income.
- Recipients could be disqualified or given sanctions for a variety of reasons, such as failure to pay child support, receipt of multiple benefits, or failure to meet work requirements.
- States were permitted to operate a simplified Food Stamp program for households in which all household members participate in the state's Temporary Assis-

tance for Needy Families program. In the simplified Food Stamp program, states may utilize their TANF rules to determine Food Stamp program benefits, provided the TANF rules do not increase the aggregate cost of the Food Stamp program.

- States were required to implement Electronic Benefit Transfer (EBT) systems for issuing benefits before October 1, 2002, unless USDA granted a waiver.

The Balanced Budget Act of 1997 (P.L. 105-33) increased funds for the Food Stamp Employment and Training program, restricted the use of these funds, and made them available until spent. States were required to earmark 80 percent of these funds to provide work or training programs to childless, unemployed, able-bodied 18–50 year olds. The Act also allowed states to grant discretionary exemptions from the time limits for up to 15 percent of a state's unwaived caseload of childless, unemployed, able-bodied 18–50 year olds.

The Agricultural Research, Extension, and Education Reform Act of 1998 (P.L. 105-185) partially restored benefits to legal immigrants. Those who were lawfully residing in the United States on August 22, 1996, and are either: (1) blind or disabled (using the Food Stamp Act definition of "disability"), (2) aged 65 or older on August 22, 1996, or (3) under the age of 18 were eligible for benefits effective November 1, 1998. In addition, refugees and asylees were made eligible for the first 7 years after admittance into the United States (extended from 5 years). Members of Hmong or Highland Laotian tribes aiding U.S. personnel during the Vietnam War, and their spouses or unmarried dependent children were made eligible. Cross-border Native Americans were also made eligible. Other provisions reduced the funding for Employment and Training Programs by \$100 million in 1999 and by \$45 million in 2000 and reduced payments for Food Stamp program administrative costs.

The Electronic Benefit Transfer (EBT) Interoperability and Portability Act of 2000 (P.L. 106-71) required states to make their EBT systems interoperable across state lines by October 2, 2002.

The Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriation Act, 2001 (P.L. 106-387) made the following changes to the Food Stamp program:

- Effective July 2001, at state option, state agencies could substitute TANF vehicle rules in place of food stamp vehicle rules provided that the TANF vehicle rules were more liberal.
- Effective March 2001, for households whose certification period began on or after March 1, 2001, the maximum excess shelter deduction limit rose to \$340 and was to be adjusted for inflation on October 1, 2002, and every year after.

The Farm Security and Rural Investment of 2002, H.R. 107-171, reauthorized the Food Stamp program through September 30, 2007. It contained the following provisions:

- Effective April 1, 2003, legal immigrants with 5 years residency in the United States became eligible for food stamps. Effective October 1, 2003, eligibility was extended to legal immigrants under age 18, regardless of date of arrival in the United States.
- The current fixed standard deduction was replaced with a deduction that varies according to household size (with larger households receiving larger deductions) and is adjusted annually.
- The resource limit for households with a disabled member was increased from \$2,000 to \$3,000, consistent with the resource limit for households with elderly members.
- The requirement that federal costs for electronic benefit transfer systems not exceed the costs of paper coupon systems was eliminated.
- The Quality Control System, which historically measured payment accuracy, was substantially changed, with the liability threshold raised to 105 percent of the national average for 2 consecutive years. The current incentive system was replaced by bonuses for states demonstrating high or most improved performance.

This legislation also provided states with a number of options:

- States could extend from 3 months to 5 months the period of time that households leaving TANF could receive food stamps without recertification. The benefit amount would be equal to the amount received by the household prior to the household leaving TANF, with adjustments made for the loss of TANF income.
- States could exclude certain types of income that were excluded under the state's TANF plan. States could exclude types of resources that were excluded under the state's TANF or Medicaid programs.
- States could disregard reported changes in deductions during certification periods unless the changes were associated with a new residence or earned income.
- States could use the full standard utility allowance (SUA) rather than a prorated SUA for households sharing living quarters.
- States could treat child support payments to nonhousehold members as an income exclusion rather than a deduction.
- States could extend semi-annual reporting of changes to all households not exempt from periodic reporting.

Low-Income Home Energy Assistance Program

The Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35), signed into law by the President on August 13, 1981, authorized seven block grants to be administered by the Department of Health and Human Services (HHS).⁴ As one of HHS' block grants, the Low-Income Home Energy Assistance Program (LIHEAP) is administered by the Administration for Children and Families' Office of Community Services (<http://www.acf.hhs.gov/programs/liheap>). Title XXVI of the Act authorized LIHEAP for fiscal years 1982–1984. Title VI of the Human Services Reauthorization Act of 1984 (P.L. 98-88) reauthorized and amended LIHEAP for fiscal years 1985–1986. Title V of the Human Services Reauthorization Act of 1986 (P.L. 99-425) reauthorized and amended LIHEAP for fiscal years 1987–1990. Title VII of the Augustus F. Hawkins Human Services Reauthorization Act of 1990 (P.L. 101-501) reauthorized and amended LIHEAP for fiscal years 1991–1994. Title XX of the National Institutes of Health Revitalization Act of 1993 (P.L. 103-43) reauthorized LIHEAP for fiscal year 1995. Title III of the Human Services Amendments of 1994 (P.L. 103-252) reauthorized and amended LIHEAP for fiscal years 1995–1999.⁵ Title III of the Coats Human Services Reauthorization Act of 1996 (P.L. 105-285) reauthorized and amended LIHEAP for fiscal years 2000–2004. No new provisions became effective in fiscal year 2001.

Under LIHEAP, grants are provided to grantees to assist eligible households to meet the costs of home energy. In addition to the 50 states and the District of Columbia, grants were provided in fiscal year 2001 to 128 Indian tribes or tribal organizations and 5 insular areas.

In accordance with the Act, the Secretary of HHS has left maximum policy discretion to the grantees. The federal information collection and reporting requirements for grantees were substantially reduced to require only information essential to federal administration and congressional oversight. Grantee decisions, directed by public participation in the development of grant applications, largely replaced federal regulations in shaping the program for fiscal years 1982–2001.

Funding

In addition to appropriating LIHEAP funds for FY 2000, the FY 2000 Consolidated Appropriations Act (Public Law 106-113) signed by the President on November 29, 1999, appropriated advance block grant funds of \$1.1 billion for

FY 2001. Those advance funds became available on October 1, 2000, the beginning of FY 2001.

LIHEAP emergency contingency funds were available in FY 2001. Under the terms of the contingency fund provision, the President could request all, part, or none of the emergency contingency funds for FY 2001; could distribute any amount so requested to all LIHEAP grantees or to just a portion of them; and could use the regular block grant formula or a different formula. As described below, there were three sources of emergency contingency funds available for FY 2001. The first two funds were released to assist low income households facing significant price increases in heating oil, natural gas, and propane prices in the winter.

- The Emergency Supplemental Act of 2000 (Public Law 106-46), signed into law on July 13, 2000, appropriated \$600 million in LIHEAP emergency contingency funds to be available to HHS until expended (no-year funds). The President released \$444.35 million of the funds in FY 2000.
- The President released the remaining \$155.65 million in FY 2001 on December 18, 2000. Half of the funds was awarded to the states, Indian tribes or tribal organizations, and the insular areas based on the LIHEAP block grant formula. The other half was distributed based on the LIHEAP block grant formula weighted by the relative percentage of low income households in each state that used fuel oil, natural gas, and propane for home heating.
- The Consolidated Appropriations Act for FY 2001 (Public Law 106-554), signed into law on December 21, 2000, appropriated \$300 million for FY 2001 for LIHEAP emergency contingency funds. The President released the \$300 million on December 30, 2000. These funds were distributed to all grantees in the same manner in which the \$155.65 million was distributed.
- The Supplemental Appropriations Act of 2001 (Public Law 107-20), signed into law on July 24, 2001, appropriated an additional \$300 million in LIHEAP energy emergency contingency funds to remain available to HHS until expended (no-year funds). None of the additional \$300 million was released in FY 2001.

Fiscal year 2001 LIHEAP funds were distributed approximately as follows:

- \$1.36 billion in block grants to the 50 states and the District of Columbia;
- \$12.5 million in direct block grants to 128 Indian tribes and tribal organizations;

4. Effective in fiscal year 1987 the Primary Care Block Grant was repealed by the Health Services Amendment Act of 1985 (P.L. 99-80) enacted April 26, 1986.

5. The 1994 amendments provided that up to 25 percent of leveraging incentive funds may be set aside for the Residential Energy Assistance Challenge (REACH) program.

- \$1.9 million in block grants to the Commonwealth of Puerto Rico, Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands;
- \$451 million in emergency contingency funds to 50 states and the District of Columbia, \$4.0 million to 128 Indian tribes and tribal organizations, and \$308 thousand to the Commonwealth of Puerto Rico, Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands;
- \$19.2 million in leveraging incentive awards to 37 states, \$1.4 million in leveraging incentive awards to 30 Indian tribes and tribal organizations; and \$23 thousand in leveraging incentive awards to the Commonwealth of the Northern Mariana Islands;
- \$4.5 million in REACH program awards to 5 states, \$1.2 million to 8 Indian tribes and tribal organizations, \$150 thousand to the Commonwealth of the Northern Mariana Islands, and \$1.0 million to 12 states for second and third year REACH administrative costs; and
- \$0.3 million for training and technical assistance.

The funds appropriated for LIHEAP provide payments to eligible households for heating or cooling costs and for home energy crises. Up to 15 percent of the available funds may be used for low-cost residential weatherization or other energy-related home repairs. Grantees can request from HHS a waiver to allow up to 25 percent of available funds to be spent for low cost residential weatherization or other energy-related home repairs.

To receive grants in each of the three fiscal years, each grantee had to submit an application consisting of signed assurances by its chief executive officer and a plan describing how the grantee would carry out those assurances. In the assurances, the grantee agreed to:

- Use funds only for the purposes of the statute;
- Make payments only to eligible low-income households;
- Conduct outreach activities;
- Coordinate LIHEAP activities with similar and related programs;
- Provide, in a timely manner, that the highest level of assistance will be furnished to those households with the lowest incomes and highest energy costs in relation to income, taking into account family size, except that the grantee may not differentiate between categorically eligible and income eligible households;

- Give consideration to agencies that have previously managed the program when designating local agencies to carry out the purposes of the program;
- Assure that energy suppliers receiving benefits directly on behalf of eligible households not treat assisted households adversely;
- Treat owners and renters equitably;
- Use not more than 10 percent of its allotment for planning and administration;
- Establish fiscal control and accounting procedures for proper disbursement of and accounting for federal funds, establish procedures for monitoring assistance provided, and prepare an annual audit;
- Permit and cooperate with federal investigations;
- Provide for public participation in the development of its plan;
- Provide an opportunity for a fair administrative hearing to individuals whose claims for assistance are denied or not acted on with reasonable promptness;
- Cooperate with HHS in collecting and reporting data under section 2610 of the statute;
- Provide outreach and intake through additional state and local government entities or community-based organizations under certain circumstances; and
- Use no more than 5 percent of funds to encourage and enable households to reduce their home energy needs.

Eligibility

The unit of eligibility for energy assistance is the household, defined as any individual or group of individuals who are living together as one economic unit for which residential energy is customarily purchased in common, either directly or through rent. The Act limits payments to those households with incomes under the greater of 150 percent of the income guidelines or 60 percent of the state's median income or to those households with members receiving benefits from the Temporary Assistance for Needy Families (TANF) program, SSI, Food Stamps, or needs-tested veterans' benefits. No household may be excluded from eligibility on the basis of income alone if household income is less than 110 percent of the poverty guidelines. Grantees are permitted to set more restrictive criteria as well.

Payments

Grantees make fuel assistance payments directly to eligible households or to home energy suppliers on behalf of eligible households. Payments can be provided in cash, fuel, prepaid utility bills, or as vouchers, stamps, or coupons that can be used in exchange for energy supplies. Payments

are to vary in such a way that the highest level of assistance is furnished to households with the lowest incomes and highest energy costs in relation to income, taking into account family size.

Tables

Table 2.A1—Covered employment and self-employment provisions, by year enacted

Year enacted	Coverage election or waiver	Provision
1935	...	All workers in commerce and industry (except railroads) under age 65 in the continental United States, Alaska, and Hawaii and on American vessels. (Covered after 1936.)
1939	...	Age restriction eliminated.
1946	...	Railroad and Social Security earnings combined to determine eligibility for and amount of survivors benefits.
1950	...	Regularly employed farm and domestic workers. Nonfarm self-employed (except members of professional groups). Federal civilian employees not under a federal retirement system. U.S. citizens employed outside the United States by American employers. Workers in Puerto Rico and the Virgin Islands (effective January 1, 1951).
	Elective by employer	State and local government employees not under a state and local government retirement system. Termination permitted 2 years after giving notice if group has 5 years of coverage when notice is given.
	Elective by employer and employee	Employees (other than members of the clergy) of nonprofit organizations (upon election by employer, each current employee given a choice as to coverage; new employees are covered). Nonprofit organizations permitted to terminate coverage 2 years after giving notice, if the organization has 8 years of coverage when notice is given.
1951	...	Railroad workers with less than 10 years of service, for all benefits. (After October 1951, coverage retroactive to 1937.)
1954	...	Farm self-employed. Professional self-employed except lawyers, dentists, physicians, and members of other medical groups (taxable years ending after 1954). Additional regularly employed farm and domestic workers. Homeworkers.
	Elective by employer	U.S. citizens employed outside the United States by a foreign subsidiary of an American employer.
	Elective by employer and employee	State and local government employees (except fire fighters and police personnel) under a state or local government retirement system (coverage provided at state's option; a majority of the eligible employees must vote in favor). See above (elective by employer, 1950) for termination rule.
	Elective by individual	Members of the clergy and of religious orders not under a vow of poverty.
1956	...	Members of the uniformed services on active duty or on active duty for training. Remainder of professional self-employed except physicians (taxable years ending after 1955). Farm landlords who materially participate in farm operations.
	Elective by employer and employee	Fire fighters and police personnel in designated states. State and local government employees under a state or local government retirement system in designated states may be divided into two systems, one excluding employees not desiring coverage (new employees covered).
1960	...	U.S. citizens employed in United States by foreign governments or international organizations. Parents working for children (except domestic or casual labor). Workers in Guam and American Samoa.
1965	...	Interns. Self-employed physicians (taxable years ending on or after December 31, 1965). Tips for employee tax only.
	Elective by individual	Members of certain religious sects may obtain exemptions from self-employed coverage (retroactive to 1951).
1967	Elective by employer and employee	Fire fighters under state and local government retirement system (under a majority favorable vote) and only if governor of state certifies Social Security protection.
	Subject to waiver by individual	Members of the clergy and of religious orders not under a vow of poverty are covered automatically, but they can choose to be exempt on grounds of conscience or religious principles. Taxable years ending after 1967.
1972	Elective by employer	Members of a religious order who are subject to a vow of poverty. Retroactivity allowed for 5 years but not earlier than January 1, 1968.
1977	Elective by individual	Members of the clergy and of religious orders who filed an application for exemption from coverage may revoke the exemption if the revocation is filed before the due date of the individual's federal income tax return for the first taxable year beginning after December 20, 1977.
1982	...	Federal employees—Hospital Insurance (Part A) program only, effective January 1, 1983.
1983	...	Federal employees newly hired after December 31, 1983, including executive, legislative, and judicial branch employees, and also including those hired before January 1, 1984, with a break in service lasting more than 365 days. Excludes re-employed annuitants hired before January 1, 1984.
	...	Legislative branch employees hired before 1984 who were not participating in the Civil Service Retirement System on December 31, 1983.
	...	Members of Congress, the President, the Vice President, sitting federal judges, and most executive-level political appointees of the federal government.
	...	Employees of nonprofit organizations.
	...	U.S. residents employed outside the United States by American employers.
	Elective by employer	U.S. residents employed outside the United States by a foreign affiliate of an American employer.
	...	Employees of nonprofit organizations placed under compulsory coverage; nonprofit organizations prohibited from terminating coverage of their employees on or after March 31, 1983.
	Elective by employer or by employer and employee	States prohibited from terminating coverage of employees (after April 20, 1983) and permitted to reinstate coverage for a terminated group.
1984	...	Rehired federal employees whose previous service was covered.
	...	Persons exercising reemployment rights to noncovered federal employment retain exemption after a period (not limited to 365 or fewer days) of military or national guard service or work for an international organization.
	...	Generally, all legislative branch employees except those who were participating on December 31, 1983, and are also currently participating in the Civil Service Retirement System or another federal retirement system.
	...	Employees of nonprofit organizations who are also participating on a mandatory basis in the Civil Service Retirement System are treated like federal employees for Social Security tax and coverage purposes. They are therefore not covered unless hired on or after January 1, 1984, or reemployed after a break in service of more than 365 days.
	Elective by employer	Churches or church-related organizations may elect irrevocably to have services performed by their employees excluded from covered employment. Their employees are then treated as self-employed for Social Security purposes.
1986	...	State and local government employees hired after March 31, 1986—Hospital Insurance (Part A) program only.
	Elective by individual	Members of the clergy and of religious orders who filed an application for exemption from coverage may revoke the exemption if the revocation is filed before the due date of the individual's federal income tax return for the first taxable year beginning after October 22, 1986.

2.A OASDI: Coverage, Financing, and Insured Status

Table 2.A1—Covered employment and self-employment provisions, by year enacted—Continued

Year enacted	Coverage election or waiver	Provision
1987	...	Members of uniformed services reserve components on inactive duty training. Irregularly employed farm workers (if employer's annual expenditures for farm labor is at least \$2,500). Services performed in trade or business of spouse or by children aged 18 or older in trade or business of parent. For employers, the full amount of covered tips.
1990	...	State and local government employees not under a state or local government retirement system. Exceptions: (1) students employed by the educational institution they attend and (2) election workers paid less than the mandated amount (\$100), unless either group covered under a state's Section 218 agreement.
1994	...	Threshold for exclusion of wages paid to election workers raised from \$100 to \$1,000 annually beginning January 1, 1995, and will be indexed for wage increases each year after December 31, 1999.
	...	Police and fire fighters under a public retirement system can be covered for Social Security in all states.
	...	Threshold for coverage of domestic employees' earnings raised from \$50 per calendar quarter to \$1,000 per calendar year per employer; amount subject to annual automatic adjustments. Domestic workers no longer covered for years in which they were under age 18, unless they are no longer in school and domestic employment is their principal occupation. Coverage of earnings of domestic workers on farms becomes subject to new annual threshold for domestic workers instead of annual threshold for agricultural employees.

Table 2.A2—Noncontributory wage credit provisions, by year enacted

Year enacted	Provision
1946	Fully insured status and average monthly wage of \$160 for World War II veterans who died within 3 years after discharge.
1950	Wage credits of \$160 per month of military service during World War II period (September 16, 1940–July 24, 1947).
1952	Wage credits of \$160 per month of military service to December 31, 1953.
1953	Wage credits of \$160 per month of military service to June 30, 1955.
1954	Wage credits of \$160 per month of military service to March 31, 1956.
1956	Wage credits of \$160 per month of military service to December 31, 1956.
1967	For uniformed services, wage credits of \$100 for each \$100 (or fraction thereof) of basic pay not in excess of \$300 per calendar quarter, beginning in 1968.
1972	For uniformed services, wage credits of \$300 per calendar quarter of service after 1956. (Supersedes 1967 provision.) For U.S. citizens of Japanese ancestry, wage credits for the period they were interned by the U.S. government during World War II period (December 7, 1941–December 31, 1946) and were aged 18 or older.
1977	For uniformed services, wage credits of \$100 for each \$300 of basic pay up to maximum credit of \$1,200 per calendar year after 1977.
2002	For uniformed services, deemed wage credits are eliminated for all years after calendar year 2001. Deemed wage credits will continue to be given for appropriate earnings for periods prior to calendar year 2002.

- a. Based on automatic adjustment, under 1972 legislation (as modified by 1973 legislation), in proportion to increases in average wage level.
- b. Includes tax credit, see Table 2.A5.
- c. Based on automatic adjustment, under 1972 legislation (as modified by 1973 legislation), using a transitional rule, specified by the Omnibus Budget Reconciliation Act (OBRA) of 1989, for computing a "deemed" average annual wage for 1988, 1989, and 1990.
- d. Based on 1990 legislation.
- e. Upper limit on earnings subject to HI taxes was repealed by OBRA 1993.

Table 2.A6—Appropriations from general revenues and interfund borrowing provisions, by type of transaction and year enacted

Year enacted	Provision
Appropriations from general revenues	
1935	Annual appropriations to the old-age reserve account to provide payments; direct appropriation to pay for administrative expenses.
1939	Trust fund created from which benefits and administrative expenses were to be paid.
1944	General authorization to finance benefits and payments.
1947	For cost of gratuitous military service wage credits.
1950	General authorization repealed.
1951	Railroad interchange provisions enacted.
1956	For cost of gratuitous military service wage credits.
1966	For cost of transitional uninsured monthly benefits for those aged 72 and older with fewer than 3 quarters of coverage.
1972	For cost of gratuitous wage credits for Japanese-American internees.
1983	A lump-sum payment to the OASDI trust funds equal to (1) the present value of the estimated additional benefits arising from the gratuitous military service wage credits for service before 1957 and (2) the amount of the combined employer-employee OASDI taxes on the gratuitous wage credits for service after 1956 and before 1984 but less any amounts previously transferred. After 1983, the trust funds will be reimbursed on a current basis for employer-employee taxes on such wage credits for service after 1983. A lump-sum payment to the OASDI trust funds representing the amount of uncashed benefit checks (including interest) issued in the past. In the future, the trust funds will be credited on a regular basis. All transfers made for uncashed benefit checks will be subject to the annual appropriation process. Transfers in each year from the Treasury Department to the OASDI trust funds of amounts equal to income tax receipts attributable to inclusion of Social Security benefits in taxable income. For tax credits for part of the 1984 employment FICA tax and part of the tax on self-employment income under SECA for 1984–1989, see Table 2.A5.
1993	Transfers in each year from the Treasury Department to the HI trust fund of amounts equal to income tax receipts attributable to the increased portions of Social Security benefits included in taxable income under the 1993 Act.
Interfund borrowing	
1981	Interfund borrowing permitted among OASI, DI, and HI trust funds as needed until December 31, 1982. For all or part of any loan to be repaid, the managing trustee determines if assets of borrowing trust fund(s) are sufficient for that purpose. Interest with respect to any outstanding loan balance at a rate equal to the rate earned by lending trust fund is transferred from time to time.
1983	Interfund borrowing reauthorized among OASI, DI, and HI trust funds for calendar years 1983–1987, with provisions for scheduled repayment, no later than December 31, 1989, of principal and interest (including amounts borrowed in 1982). No borrowing permitted from any fund that has been reduced to specified levels.

Disability definition																																																					
1954	Inability to engage in substantial gainful activity because of any medically determinable permanent physical or mental impairment.																																																				
1965	Disability lasting at least 12 months. For blind persons aged 55–64, inability to engage in usual occupation.																																																				
1967	Disability that precludes engagement in any substantial gainful work existing in the national economy. For surviving spouse, disability precludes any gainful activity.																																																				
1990	More restrictive definition for surviving spouse eliminated.																																																				
Period of disability																																																					
1954	Continuous period of at least 6 months as defined above or of blindness.																																																				
1972	At least 5 months of disability.																																																				
Fully insured																																																					
1935	Cumulative wages of \$2,000 and employment in each of 5 years after 1936 and before attainment of age 65.																																																				
1939	QC equal to one-half the quarters elapsed after 1936 (or quarter in which age 21 attained) and before quarter of death or attainment of age 65. Minimum 6 QC, maximum 40 QC.																																																				
1950	Elapsed period measured after 1950 (QC earned at any time are used).																																																				
1954	Period of disability excluded from elapsed period. Alternatively, QC earned in all quarters after 1954 and before quarter in which age 65 attained (minimum 6 QC).																																																				
1956	Elapsed period measured to age 62 for women. Alternatively, QC earned in all except 4 quarters after 1954 and before quarter in which age 65 attained (62 for women).																																																				
1960	QC reduced to one-third the elapsed quarters.																																																				
1961	QC equal to years elapsed after 1950 (or year age 21 attained) and before year of death or age 65 (62 for women).																																																				
1972	Elapsed period for men reaching age 62 after 1972, measured to age 62 or to 1975, if later.																																																				
1983	Any person aged 55 or older on January 1, 1984, and employed by a nonprofit organization to whose employees coverage is extended solely by reason of the new compulsory coverage provision will be deemed fully insured upon subsequently acquiring 6 QC if aged 60 or older on January 1, 1984; 8 QC if aged 59; 12 QC if aged 58; 16 QC if aged 57; and 20 QC if aged 55 or 56.																																																				
Currently insured																																																					
1939	6 QC earned in 12 quarters before quarter of death.																																																				
1946	6 QC earned in preceding 13 quarters, including quarter of death.																																																				
1950	Including quarter of retirement added.																																																				
1954	Including quarter of disablement added.																																																				

(Continued)

2.A OASDI: Coverage, Financing, and Insured Status

Table 2.A7—Insured status (benefit eligibility) provisions, by eligibility concept and year enacted—Continued

Year enacted	Provision
Disability insured	
1954	20 QC earned in last 40 quarters, including quarter of disablement, and currently insured.
1956	Fully insured requirement added.
1958	Currently insured requirement eliminated.
1960	Alternatively, 20 QC earned before quarter of disablement (not necessarily in last 40 quarters) but QC earned in all quarters after 1950, with minimum of 6 QC.
1965	Alternatively, for blind under age 31, QC earned in one-half the quarters elapsed after age 21, with minimum of 6 QC. For blind under age 24, 6 QC earned in preceding 12 quarters.
1967	For all disabled under age 31, same alternative.
1972	For blind, requirement for recent QC eliminated.
1983	For those who become disabled again at age 31 or older and who were previously disabled before age 31, same alternative as that for those under age 31.
Transitionally insured	
1965	Same as fully insured, but minimum reduced to 3 QC.
Requirement for special age-72 monthly benefit	
1966	3 QC for each year elapsed after 1966 and before attainment of age 72. (No QC if aged 72 before 1968.)

2.A OASDI: Benefit Computation and Automatic Adjustments

Table 2.A10—Average monthly wage and average indexed monthly earnings provisions, by year enacted

Year enacted	Provision
Average monthly wage (AMW)	
1939	Computed using creditable earnings after 1936 and before year of death or retirement, divided by months after 1936 and before quarter of death or retirement, excluding months before age 22 in quarters not covered.
1950	Alternatively, computed using creditable earnings after 1950 (or year aged 21, if later) and before year of death, year of retirement, or subsequent year (or year age 65 attained if then insured), divided by number of months in those years.
1954	Earnings and months in 4 years may be excluded in all cases; 5 years if worker has 20 quarters of coverage. Period of disability may be excluded.
1956	Earnings and months in 5 years may be excluded in all cases. Computation period may end at age 62 for women then insured.
1960	Earnings may be used for any year after 1950 and before year of retirement but including year of death, with the number of years equal to the years elapsed after 1955 (or year age 26 attained) and before year of death or age 65 attained (62 for women). Same method may be used for earnings after 1936 and years elapsed after 1941.
1972	Number of years for men reaching age 62 after 1972, measured to age 62 or to 1975, if later.
1977	For workers who attain age 62, become disabled, or die after 1978, excludes earnings in year of attainment of age 62 and later, computed using creditable earnings after 1936. For workers who attain age 62 after 1978 and before 1984, excludes earnings in year of attainment of age 62 and later, computed using creditable earnings after 1950.
Average indexed monthly earnings (AIME)	
1977	For workers who attain age 62, become disabled, or die after 1978, AIME is computed by using indexed earnings after 1950 for the same computation period applicable in calculating the AMW. Indexed earnings for a given year equal actual creditable earnings multiplied by the national average wage for the second year before worker attains age 62, becomes disabled, or dies, divided by the national average wage for the given year, except that for years after the second year before the worker attains age 62, becomes disabled, or dies, indexed earnings equal actual creditable earnings.
1980	For disabled workers, the number of years of earnings used equals the number of years elapsed after 1950 (or year age 21 attained, if later) and before year of disability, minus dropout years equal to one-fifth of the number of elapsed years rounded to the next lower integer (to a maximum of 5 dropout years). However, the number of years of earnings used is at least 2. <i>Effective for initial entitlement after June 1980.</i> Disabled workers who receive less than 3 dropout years under the one-fifth rule may be credited with additional dropout years based on child care, up to a total of 3 dropout years. (To receive this credit, a worker must have had no earnings in that year and have been living with a child under age 3.) However, the number of years of earnings used is at least 2. <i>Effective for July 1981.</i>
1983	For workers who die after 1978 but before attaining age 62, indexed earnings for a given year equal actual creditable earnings, multiplied by the national average wage for the earlier of (1) the year in which the worker reached or would have reached age 60 or (2) the second year before the survivor becomes eligible for aged or disabled widow(er) benefits, and then divided by the national average wage for the given year. This computation method applies only if it results in a higher benefit. <i>Effective for surviving spouses newly eligible after 1984.</i>

2003	606	3,047	3,653	December 2003	...	^d

- a. For workers who attained age 62 in the 1979–1983 period, the PIA cannot be less than that derived from the PIA table in effect in December 1978 (approximated by the PIA formula in Table 2.A16) based on provisions in effect before 1979 but excluding earnings after year aged 61 in computations of AMW and including any general benefit increase after year aged 61.
- b. The 1977 amendments provided for annual automatic adjustments of bend points (AIME brackets) in benefit formula in proportion to increases in average wage level. As a result, separate formulas are applicable to workers who were first eligible in successive calendar years. The legislation also froze the minimum PIA at \$122.
- c. Not subject to automatic adjustments until earlier of year of attainment of age 65 or year of first receipt of benefits.
- d. The minimum PIA was eliminated by 1981 legislation for workers who attain age 62 or die after 1981 (after 1991 for members of certain religious orders). August 1981 legislation would have eliminated the minimum PIA effective March 1982 for workers who attained age 62 before November 1981 or who died (before attaining age 62) before March 1982; for all others, the minimum would have been eliminated effective November 1981. This legislation was superseded by December 1981 legislation that restored the minimum PIA for workers who attained age 62 or died (before attaining age 62) before 1982.
- e. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

SOURCES: Social Security Act of 1935 (the Act), as amended through December 31, 2002; regulations issued under the Act; and precedential case decisions (rulings). a. Reduction in PIA will not be greater than one-half of the periodic payment based on noncovered employment performed after 1956.

b. See Table 2.A12. Before 1991, a year of substantial coverage for WEP was the same amount as for the minimum PIA (25 percent of the "old law" contribution and benefit base). For 1991 and following, a year of substantial coverage under WEP provisions remains 25 percent of the old law base, while the criterion for computing the special minimum PIA was changed to 15 percent of the base.

Table 2.A12—Special minimum PIA (formula applies to years of coverage), by year enacted—Continued

Year enacted	Number of years of coverage	PIA computation
1990	After 1990, the number of years with creditable earnings equal to at least 15 percent of what the annual taxable maximum would have been if the statutory increases in the maximum under the 1977 amendments had not been enacted (the "old law" contribution and benefit base), that is: ⁶	...
	<i>Year</i>	<i>Amount (dollars)</i>
	1991	5,940
	1992	6,210
	1993	6,435
	1994	6,750
	1995	6,795
	1996	6,975
	1997	7,290
	1998	7,605
	1999	8,055
	2000	8,505
	2001	8,955
	2002	9,450
	2003	9,675

- a. The amount effective for a given month applies, as of that month, to all workers from the date of entitlement to benefits.
- b. Provision for future automatic cost-of-living increases of amount per year of coverage (and maximum amount), beginning with the June 1979 increase.
- c. Factors were obtained by applying cost-of-living increases to initial 1979 factor of \$11.50 and rounding each one to nearest cent. An approximate PIA may be computed by multiplying factor in year of entitlement by the number of years of coverage in excess of 10 with a maximum of 20. Actual PIAs are published yearly in the *Federal Register*.
- d. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.
- e. For 1991 and following, a year of substantial coverage under the Windfall Elimination Provision remains 25 percent of the old law base, while the criterion for the special minimum PIA was changed to 15 percent of the base.

SOURCES: Social Security Act of 1935 (the Act), as amended through December 31, 2002; regulations issued under the Act; and precedential case decisions (rulings). Specific laws, regulations, rulings, legislation, and a link to the *Federal Register* can be found at <http://www.socialsecurity.gov/regulations/index.htm>. Social Security Administration, "Cost-of-Living Increase and Other Determinations for 2003," *Federal Register*, vol. 67, no. 207 (October 25, 2002).

NOTES: Alternative PIA applicable when it exceeds the regularly computed PIA. The usual rates of actuarial reduction apply for retirement before the full retirement age. No delayed retirement credits are applicable to the benefit derived from the special minimum PIA. However, the resulting retirement benefit will be raised if necessary to equal the benefit derived from the regularly computed PIA plus any delayed retirement credits.

... = not applicable.

Social Security Administration, "Cost-of-Living Increase and Other Determinations for 2003," *Federal Register*, vol. 67, no. 207 (October 25, 2002).

NOTES: The 1977 amendments provided for annual automatic adjustments of bend points (PIA brackets) in the maximum family benefit formula in proportion to increases in the average wage level. As a result, separate formulas are applicable to workers first eligible in successive calendar years.

Eligible workers are those who attained age 62 or died in the given year.

Table 2.A14—Formulas for computing maximum family benefit and cost-of-living adjustments for workers first eligible for disability benefits in 1979 or later, by year of enactment

Eligibility year	Formula
	Enacted in 1977^a
1979 ^b	150% of first \$230 of PIA + 272% of next \$102 of PIA + 134% of next \$101 of PIA + 175% of PIA over \$433 ^c
1980 ^b	150% of first 248 of PIA + 272% of next \$110 of PIA + 134% of next 109 of PIA + 175% of PIA over 467 ^c
	Enacted in 1980^d
1979 or later	Smaller of (1) 85% of the AIME (or 100% of PIA, if larger) and (2) 150% of PIA ^e

a. The 1977 amendments provided for annual automatic adjustments of bend points (PIA brackets) in maximum family benefit formula in proportion to increases in average wage level. As a result, separate formulas are applicable to workers first eligible in successive calendar years.

b. Applicability of formula limited to workers with initial entitlement before July 1980, as a result of 1980 amendments.

c. Calculated amount subject to cost-of-living adjustments beginning with the one effective for June of the year of first eligibility.

d. Formula for computing maximum family benefit revised effective for workers with initial entitlement in or after July 1980. New formula remains unchanged for workers eligible in successive calendar years because it has no bend points requiring adjustments.

e. Calculated amount subject to cost-of-living adjustments beginning with the one effective in year of first eligibility (or in 1981, if later).

Percentage increase in PIA	2.6	2.9	2.1	1.3	^m 2.5	3.5	2.6	1.4

- a. Applied to first \$100 of AMW.
- b. Applied to next \$200 of AMW.
- c. Applied to next \$190 before 1955 and to next \$240 effective for January 1955.
- d. Applied to next \$150 effective for January 1973 and to next \$350 effective for January 1974.
- e. Applied to next \$100 before January 1975.
- f. Average increase in benefits of about 77 percent—from 100 percent at the lowest level to 50 percent at the highest level.
- g. Increase of 12.5 percent or \$5, if larger.
- h. Average increase of about 13 percent, with minimum increase of \$5.
- i. Increase of 7 percent or \$3, if larger.
- j. Increase of 7 percent or \$4, if larger.
- k. Increase effective in two steps: 7 percent for March–May and 4 percent for June.
- l. Beginning June 1975 all benefit increases are based on automatic cost-of-living adjustments.
- m. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

	December 2002	331.00	414.2% of first \$436 + 206.9% of next \$191 ^b	...

a. Based on earnings; subject to reduction if claimed before age 65.

b. For AMW of \$628 or more, 175 percent of PIA.

c. Superseded by 1973 legislation.

d. Beginning in 1975, minimum PIA and percentages in maximum family benefit formula are subject to automatic cost-of-living increases. (Superseded 1972 legislation for automatic increases beginning in 1974.)

e. Superseded by 1981 legislation that restored the minimum PIA for these groups.

f. Minimum PIA eliminated by 1981 legislation.

g. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

2.A OASDI: Benefit Computation and Automatic Adjustments

Table 2.A18—Automatic adjustment provisions

Year enacted	Provision
	<i>Quarter of coverage</i>
1977	Mandatory annual determination, beginning in 1978, as to whether or not an adjustment is required in the amount of wages and self-employment earnings an individual needs in order to be credited with a quarter of coverage (QC) in the succeeding year. The amount required for a QC is the product of \$250 (in effect in 1978) multiplied by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for 1976 (see Table 2.A8 for average annual wages after 1950). The resulting product, rounded to the nearest multiple of \$10, is the new amount required for a QC. In no case, however, is the new amount reduced below the amount in effect in the year of determination.
	<i>Maximum amount of taxable and creditable earnings</i>
1972	The 1972 Act (as modified by the 1973 legislation) mandated a determination in 1974, and in every subsequent year in which a cost-of-living benefit increase is established, as to whether or not an adjustment is required in the maximum amount of annual earnings that will be taxed and credited toward benefits. The determination in the years after 1975 is made by multiplying the "maximum" in effect in the year of determination by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for the year before the most recent year in which an automatic determination was made that resulted in an increase or in which an increase in the maximum was enacted. (See Table 2.A8 for annual amounts of the average wage after 1950). The resulting product, rounded to the nearest multiple of \$300, is the new maximum amount of taxable and creditable earnings, effective with respect to remuneration paid after the year of determination and with respect to taxable years beginning after that year. In no case, however, is the maximum reduced to an amount below the maximum in the year of determination.
1976	In the 1974 and 1975 determinations, the quotient was the average wage for the year of determination, estimated from data for the first calendar quarter, divided by the corresponding amount for the year before the year of determination. Public Law 94-202 (signed January 2, 1976) revised the adjustment method by increasing by a year the lag in average wages used in the computation. Thus, for example, the 1976 determination was based on the percentage increase in the average wage from 1974 to 1975.
1977	Statutory in lieu of automatic increases in the maximum instituted for 1979, 1980, and 1981. Also, for purposes of establishing a "year of coverage" used in the computation of the special minimum PIA, annual maximum taxable and creditable earnings after 1978 are the amounts that would have been determined under the automatic adjustment provisions if the statutory increases in the maximum under the 1977 Act had not been enacted (see Table 2.A12).
1989	Automatic increases in the maximum for 1990, 1991, and 1992 determined under a transitional rule, specified by the Omnibus Budget Reconciliation Act of 1989, for computing "deemed" average annual wage for 1988, 1989, and 1990. The purpose of the legislation was to include contributions to certain "deferred compensation" plans, most importantly section 401(k) pension plans, in the average annual average wage.
1994	The determination for years after 1994 is made by multiplying \$60,600, the "maximum" for 1994, by the following quotient: the national average wage index for the year before the year in which the determination is made, divided by the national average wage index for 1992. (See Table 2.A8 for annual amounts of the national average wage index.) The resulting product, rounded to the nearest \$300, is the new maximum amount of taxable and creditable earnings, effective with respect to remuneration paid in (and taxable years beginning in) the year following the year the determination is made. In no case, however, is the new maximum reduced to an amount below the maximum in the year of determination.
	<i>Benefits Computation</i>
1977	New benefit computation method based on average indexed monthly earnings (AIME) after 1950, effective for workers first eligible after 1978. Provision for automatic adjustment of the dollar amounts, or bend points, defining (1) the AIME brackets in the PIA formula (see Table 2.A11) and (2) the PIA brackets in the maximum family benefit formula (see Table 2.A13). New bend points are established by multiplying the bend points in effect in 1979—\$180 and \$1,085 for the PIA formula and \$230, \$332, and \$433 for the maximum family benefit formula—by the following quotient: the national average wage for the second year before the year for which the determination was made, divided by the average wage for 1977 (see Table 2.A8 for average annual wages after 1950). The resulting products, rounded to the nearest dollar, are the new bend points.
1980	Modified maximum family benefit formula applicable to workers with initial entitlement to disability benefits in or after July 1980 (see Table 2.A14). New formula for disabled workers has no bend points subject to automatic adjustment.
	<i>Cost-of-living increase</i>
1972	Under the original provisions (based on 1972 and 1973 legislation), the arithmetical mean of the consumer price index (CPI) for January, February, and March in the year of determination was compared with the arithmetical mean of the CPI for the later of (a) January, February, and March of the year in which the last effective cost-of-living increase was established or (b) the 3 months of the calendar quarter in which the effective month of the last general benefit increase occurred. (Before the introduction, in 1977, of the alternative CPI series for "all urban consumers," or the CPI-U, the CPI-W was referred to as the CPI.) If the percentage increase in the CPI, rounded to the nearest one-tenth of 1 percent, was at least 3.0 (the triggering requirement), a cost-of-living benefit increase was established and the level of benefits was increased by the same percentage, effective for June of the year in which the determination was made.
1983	The 1983 Act moved the effective date for a cost-of-living benefit increase from June to December, beginning in 1983, and eliminated the "triggering requirement" for the 1983 increase only. Effective with the determination made in 1984, the two periods used in calculating the CPI-W percentage increase were shifted from the first to the third quarter. The 1983 Act also introduced an alternative method for determining the size of a cost-of-living adjustment. This method, called the stabilizer provision, is applied when the ratio of the combined OASDI trust fund assets to estimated outgo falls below a certain percentage. The "triggering" percentage is 15 percent for 1985–1988 and 20 percent for years after 1988. Under these circumstances, the cost-of-living adjustment is based on the lesser of the CPI-W percentage increase determined above or the increase in average wages. The latter increase is the percentage, rounded to the nearest one-tenth of 1 percent by which the national average wage for the year before the year of determination exceeds the average wage for the year before the most recent year in which either a cost-of-living increase or a general benefit increase occurred. (See Table 2.A8 for the annual amount of the average wage after 1950 and footnote a in that table for the underlying data sources.) The 1983 legislation also included a provision for making up any benefit increases that are based on a lower wage increase rather than on the increase in the cost of living. When the fund ratio is greater than 32 percent, additional increases will be provided so that benefits are increased to the level at which they would have been if all increases had been based on the CPI-W. (See Table 2.A19 for the cumulative effect of statutory and automatic increases in benefits.)
1986	Triggering requirement eliminated for cost-of-living increases in and after 1986 by P.L. 99-509 (signed October 21, 1986).
2001	The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

2.A OASDI: Benefit Computation and Automatic Adjustments

Table 2.A18—Automatic adjustment provisions—Continued

Year enacted	Provision
Earnings test	
1972	The 1972 Act (as modified by the 1973 Acts) mandated a determination in 1974, and in every subsequent year in which a cost-of-living increase is established, as to whether or not an adjustment in the exempt amount—the amount of earnings permitted without reduction in benefits—is required. The determination in the years after 1975 is made by multiplying the monthly exempt amount in effect in the year of determination by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for the year before the most recent year in which an automatic determination was made that resulted in an increase or in which an increase in the exempt amount was enacted. (See Table 2.A8 for annual amounts of the average wage after 1950.) The resulting product, rounded to the nearest multiple of \$10, is the new monthly exempt amount, effective with respect to remuneration paid after the year of determination and with respect to taxable year beginning after that year. In no case, however, is the new exempt amount reduced below the exempt amount in the year of determination. The new annual exempt amount is determined by multiplying the new monthly amount by 12.
1976	In the 1974 and 1975 determinations, the quotient was the average wage for the year of determination, estimated from data for the first calendar quarter, divided by the corresponding amount for the year before the year of determination. Public Law 94-202 (signed January 2, 1976) revised the adjustment method by increasing by a year the lag in average wages used in the computation. Thus, for example, the 1976 determination was based on the percentage increase in the average wage from 1974 to 1975.
1994	The determination for years after 1994 is made by multiplying the monthly exempt amounts in effect for 1994 (\$930 for beneficiaries who have, \$670 for beneficiaries who have not yet, reached "full retirement age"; see footnote <i>f</i> in Table 2.A29) by the following quotient: the national average wage for the year before the year in which the determination is made, divided by the national average wage for 1992. (See Table 2.A8 for annual amounts of the national average wage.) The resulting products, rounded to the nearest \$10, are the new monthly exempt amounts effective for the year following the year the determination is made. The new annual exempt amounts are determined by multiplying the new monthly amounts by 12.
1996	Public Law 104-121, enacted March 29, 1996, suspended the automatic indexing of the exempt amounts through the year 2002 for workers aged 65–69. It legislated ad hoc increases in the annual exempt amounts to \$12,500 in 1996; \$13,500 in 1997; \$14,500 in 1998; \$15,500 in 1999; \$17,000 in 2000; \$25,000 in 2001; and \$30,000 in 2002. Thereafter, the exempt amounts will increase automatically based on the annual increase in the national average wage as under the 1994 legislation.
2000	Public Law 106-182, enacted April 7, 2000, eliminated the earnings test beginning with the month a beneficiary reaches full retirement age (FRA). The annual earnings test that applies in the year of attainment of FRA is based on the annual limits established under P.L. 104-121 (including the \$1 for \$3 withholding rate). In determining annual earnings for purposes of the annual earnings test under this legislation, only earnings before the month of attainment of FRA will be considered. Public Law 106-182 did not change the annual exempt amount for beneficiaries who are under FRA throughout the year, which continues to be pegged to increases in the average wage.

a. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

Table 2.A21—Monthly benefits for spouses and children of retired and disabled workers

Year enacted	Age	Percentage of PIA	Condition or qualification
Wife			
1939	65 or older	50	Fully insured.
1956	62–64	...	Reduced 25/36 of 1% for each month under age 65.
1967	Maximum \$105.
1969	Maximum eliminated.
1977	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982.
1983	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
	65 and 2 months–67	...	Beginning in year 2000, the age at which 50% of PIA is payable will be gradually increased (see Table 2.A20).
	62–66	...	Reduced 25/36 of 1% for each of the first 36 months under the age at which 50% of PIA is payable, plus 5/12 of 1% for each of up to 24 earlier months of benefit receipt.
1984	Noncovered pension offset limited to two-thirds of such pension.
Divorced wife			
1965	65 or older	...	Fully insured. Dependent. Married 20 years. Not counted toward family maximum.
	62–64	...	Reduced 25/36 of 1% for each month under age 65.
1967	Maximum \$105.
1969	Maximum eliminated.
1972	Dependency requirement eliminated.
1977	Married 10 years.
	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982 and married 20 years.
1983	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
	Can be independently entitled to benefits if divorced for 2 years or more (after marriage of 10 or more years) and worker could be entitled to benefits if he applied. Effective with benefits for months after December 1984.
	65 and 2 months–67	...	Beginning in year 2000, the age at which 50% of PIA is payable will be gradually increased (see Table 2.A20).
	62–66	...	Reduced 25/36 of 1% for each of the first 36 months under the age at which 50% of PIA is payable, plus 5/12 of 1% for each of up to 24 earlier months of benefit receipt.
1984	Noncovered pension offset limited to two-thirds of such pension.
Wife (mother)			
1950	Under 65	...	Fully insured. Caring for eligible child.
1965	Eligible child excludes student aged 18–21.
1967	Maximum \$105.
1969	Maximum eliminated.
1977	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982.
1981	Eligible child excludes nondisabled child aged 16–17.
1983	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1984	Noncovered pension offset limited to two-thirds of such pension.
Child			
1939	Under 18	...	Fully insured. ^a
1965	18–21	...	Full-time student.
1972	Benefits extended to end of quarter or semester in which 22nd birthday occurs while undergraduate student.
	Includes grandchild under certain circumstances.
1981	18–22	...	Student benefits eliminated (to be phased out gradually for those entitled before May 1982), except for elementary or secondary school students under age 19.
1996	Stepchildren must be dependent on worker.
Disabled child			
1956	18 or older	...	Fully insured. ^a Disabled before age 18.
1972	Disabled before age 22.
	Includes grandchild under certain circumstances.

Table 2.A22—Monthly benefits for survivors of deceased workers—Continued

Year enacted	Age	Percentage of PIA	Condition or qualification
Disabled surviving divorced wife			
1967	50–59	82.5	Fully insured. Dependent. Married 20 years. Not counted toward family maximum. Reduced 13 1/3%, plus 43/198 of 1% for each month under age 62.
1972	...	100	Reduced 28 1/2%, plus 43/240 of 1% for each month under age 60.
	Dependency requirement eliminated.
1977	Increased by any delayed retirement increment husband (or former husband) would be receiving.
	Married 10 years.
	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982 and married 20 years.
1983	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
	Additional reduction for each month under age 60 eliminated.
1984	Noncovered pension offset limited to two-thirds of such pension.
Widowed mother			
1939	Under 65	75	Fully or currently insured. Caring for eligible child.
1965	Eligible child excludes student over age 18.
1977	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982.
1981	Eligible child excludes nondisabled child aged 16–17.
1983	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1984	Noncovered pension offset limited to two-thirds of such pension.
Surviving divorced mother			
1950	Under 65	75	Fully or currently insured. Caring for eligible child. Dependent. Not counted toward family maximum.
1965	Eligible child excludes student over age 18.
1972	Dependency requirement eliminated.
1977	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982.
1981	Eligible child excludes nondisabled child aged 16–17.
1983	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1984	Noncovered pension offset limited to two-thirds of such pension.
Child			
1939	Under 18	50	Fully or currently insured. ^a Student aged 16–17.
1946	Student requirement eliminated.
1950	Plus 25% of PIA divided among the children.
1960	...	75	Additional 25% of PIA eliminated.
1965	Full-time student.
1972	Benefits extended to end of quarter or semester in which 22nd birthday occurs while undergraduate student.
	Includes grandchild under certain circumstances.
1981	18–22	...	Student category eliminated (to be phased out gradually for those entitled before May 1982), except for elementary or secondary school students under age 19.
1996	Stepchildren must be dependent on worker.
Disabled child			
1956	18 or older	50	Fully or currently insured. ^a Disabled before age 18. Plus 25% of PIA divided among the children.
1960	...	75	Additional 25% of PIA eliminated.
1972	Disabled before age 22.
	Includes grandchild under certain circumstances.
Parent			
1939	65 or older	50	Fully insured. Dependent. No surviving widow or child under age 18.
1946	No surviving eligible widow or child.
1950	...	75	...
1956	62–64	...	Women.
1958	No-other-survivor requirement eliminated.
1961	62 or older	82.5	75% each if two parents.

Year enacted	Age	Percentage of PIA	Condition or qualification
Widower			
1950	65 or older	75	Fully and currently insured. Dependent.
1961	62 or older	82.5	...
1967	Currently insured requirement eliminated.
1972	65 or older	100	Limited, if wife retired before age 65, to amount wife would be receiving if still living, but not less than 82 1/2% of PIA.
	60–64	...	Reduced 19/40 of 1% for each month under age 65. In addition, for a widower aged 62–64 whose wife retired before age 65, limited to amount she would be receiving if still living, but not less than 82 1/2% of PIA.
1977	Dependency requirement eliminated.
	Increased by any delayed retirement increment wife would be receiving.
	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982, dependent, and not remarried before age 60.
	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1983	65 and 2 months–67	...	Beginning in year 2000, the age at which 100% of PIA is payable will be gradually increased (see Widow).
	60–66	...	The percent of reduction for each month depends on the age at which 100% of PIA is payable. The percentage is adjusted so that the total reduction, in equal monthly steps, is always 28 1/2% at age 60.
1984	Noncovered pension offset limited to two-thirds of such pension.
Disabled widower			
1967	50–61	82.5	Fully insured. Dependent. Reduced 5/9 of 1% per month between ages 60–62, plus 43/198 of 1% for each month under age 60.
1972	50–59	100	Reduced 28 1/2%, plus 43/240 of 1% for each month under age 60. Disability requirement eliminated for ages 60–61.
	Dependency requirement eliminated.
1977	Increased by any delayed retirement increment wife would be receiving.
	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982, dependent, and not remarried before age 60.
	Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1983	Additional reduction for each month under age 60 eliminated.
1984	Noncovered pension offset limited to two-thirds of such pension.
Surviving divorced husband			
1980 ^b	65 or older	100	Fully insured. Married 10 years. Increased by any delayed retirement credit former wife would be receiving. Limited, if former wife retired before age 65, to amount she would be receiving if still living, but not less than 82 1/2% of PIA. Not counted toward family maximum. Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset).
	60–64	...	Reduced 19/40 of 1% for each month under age 65. In addition, for a widower aged 62–64 whose wife retired before age 65, limited to amount she would be receiving if still living, but not less than 82 1/2% of PIA.
	Noncovered pension offset provision not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1983	65 and 2 months–67	...	Beginning in year 2000, the age at which 100% of PIA is payable will be gradually increased (see Widow).
	60–66	...	The percent of reduction for each month depends on the age at which 100% of PIA is payable. The percentage is adjusted so that the total reduction, in equal monthly steps, is always 28 1/2% at age 60.
1984	Noncovered pension offset limited to two-thirds of such pension.
Disabled surviving divorced husband			
1980 ^b	50–59	100	Fully insured. Married 10 years. Increased by any delayed retirement credit former wife would be receiving. Reduced 28 1/2%, plus 43/240 of 1% for each month under age 60. Not counted toward family maximum. Reduced by full amount of pension payable based on own earnings in noncovered employment (noncovered pension offset).
	Noncovered pension offset provision not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
	Additional reduction for each month under age 60 eliminated.
1984	Noncovered pension offset limited to two-thirds of such pension.
Widowed father			
1975 ^c	Under 65	75	Fully or currently insured. Caring for eligible child under age 18.
1977	Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982.
1981	Eligible child excludes nondisabled child aged 16–17.
1983	Noncovered pension offset provision not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1984	Noncovered pension offset to two-thirds of such pension.

2.A OASDI: Benefit Types and Levels

Table 2.A22—Monthly benefits for survivors of deceased workers—Continued

Year enacted	Age	Percentage of PIA	Condition or qualification
Surviving divorced father			
1979 ^d	Under 65	75	Fully or currently insured. Caring for eligible child under age 18. Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset).
1981	Eligible child excludes nondisabled child aged 16–17.
1983	Noncovered pension offset provision not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983.
1984	Noncovered pension offset limited to two-thirds of such pension.

a. Under 1939 Act, generally not available to child of married female worker. Under 1950 Act, available if female worker is fully and currently insured; currently insured requirement eliminated by 1967 Act.

b. Oregon District Court decision in *Ambrose v. Harris*, July 17, 1980. Statutory change enacted in 1983.

c. Supreme Court decision in *Weinberger v. Wiesenfeld*, March 19, 1975. Statutory change enacted in 1983.

d. Western District Court decision in *Yates v. Califano*, January 28, 1979. Statutory change enacted in 1983.

	December 2002	...	226.80	...

a. Monthly benefit reduced by amount of any government pension excluding workers' compensation benefits and veterans' compensation for service-connected disability or death. Not available for persons receiving assistance.

b. Provision for future automatic cost-of-living adjustments.

c. Suspended by 1973 legislation.

d. Beginning June 1975, subject to automatic cost-of-living adjustments. Benefits no longer available to persons receiving payments under Supplemental Security Income program.

e. Separate rate for couples eliminated. Rate for individuals applied to all beneficiaries.

f. Effective for applications after November 5, 1990.

g. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

Table 2.A25—Lump-sum benefits and vocational rehabilitation services, by type of benefit

Year enacted	Provision
<i>Lump-sum refund</i>	
1935	Persons not insured at age 65 eligible for lump-sum refund equal to 3.5 percent of cumulative wage credits.
1939	Lump-sum refund eliminated.
<i>Lump-sum death payment</i>	
1935	Under age 65: 3.5 percent of cumulative wage credits. Aged 65 or older and fully insured: 3.5 percent of cumulative wage credits, less monthly benefits received.
1939	Fully and currently insured: 6 times PIA if no survivor eligible for monthly benefits.
1950	3 times PIA for all deaths.
1954	3 times PIA with maximum of \$255.
1981	Payable only to a widow or widower who was living with the worker at time of the death or to a widow, widower, or children eligible for monthly benefits. Amount of lump sum fixed at \$255.
<i>Vocational rehabilitation services</i>	
1965	Available to selected disabled individuals. Costs of services payable from OASDI trust funds to state vocational rehabilitation agencies. Reimbursement in any year may not exceed 1 percent of the total amount of OASDI disability benefits disbursed in the prior year.
1972	Maximum annual reimbursement increased to 1.25 percent for fiscal year ending June 30, 1973, and 1.50 percent thereafter.
1981	Reimbursement from trust funds for cost of rehabilitation services made if the services result in the disabled individual's return to work (performance of substantial gainful activity for 9 consecutive months).
1999	Enhancements including expanded beneficiary choice of service providers and extended health care for beneficiaries who return to work.

2.A OASDI: Benefit Types and Levels

Table 2.A26—Monthly benefit amount for selected beneficiary families with first eligibility in 2002, by average indexed monthly earnings for stipulated yearly wage levels, effective December 2002 (in dollars)

Beneficiary family	Federal minimum wage ^a	75% of average wage	Average wage ^b	150% of average wage	Maximum taxable earnings ^c
Retired-worker families^d					
Average indexed monthly earnings	1,257.00	2,011.00	2,681.00	3,928.00	5,499.00
Primary insurance amount	756.00	1,000.60	1,218.00	1,560.40	1,799.40
Maximum family benefit	1,134.00	1,786.30	2,224.90	2,731.50	3,149.70
Monthly benefit amount for retired worker claiming benefits at age 62					
Worker alone	585.00	775.00	943.00	1,209.00	1,394.00
Worker with spouse claiming benefits at—					
Age 65 or older	963.00	1,275.00	1,552.00	1,989.00	2,293.00
Age 62	859.00	1,137.00	1,384.00	1,774.00	2,046.00
Survivor families^e					
Average indexed monthly earnings	1,027.00	2,013.00	2,684.00	4,026.00	6,534.00
Primary insurance amount	681.40	1,001.30	1,219.00	1,575.30	1,956.80
Maximum family benefit	1,022.10	1,788.20	2,226.20	2,757.60	3,425.10
Monthly benefit amount for survivor of worker deceased at age 40					
1 surviving child	511.00	750.00	914.00	1,181.00	1,467.00
Widowed mother or father and 1 child	1,022.00	1,500.00	1,828.00	2,362.00	2,934.00
Widowed mother or father and 2 children	1,020.00	1,788.00	2,226.00	2,757.00	3,423.00
Disabled-worker families^f					
Average indexed monthly earnings	1,163.00	2,011.00	2,682.00	4,023.00	6,321.00
Primary insurance amount	725.50	1,000.60	1,218.40	1,574.90	1,924.40
Maximum family benefit ^g	1,002.30	1,500.90	1,827.60	2,362.40	2,886.60
Monthly benefit amount for disabled worker age 50					
Worker alone	725.00	1,000.00	1,218.00	1,574.00	1,924.00
Worker, spouse, and 1 child	1,001.00	1,500.00	1,826.00	2,360.00	2,886.00

a. Annual earnings are calculated by multiplying the federal minimum wage by 2,080 hours (see Table 3.B3). Increases in the minimum wage during the year are prorated.

b. See Table 2.A8.

c. See Table 2.A9.

d. Assumes the worker began to work at age 22, retired at age 62 in 2002 with maximum reduction, and had no prior period of disability.

e. Assumes the deceased worker began to work at age 22, died in 2002 at age 40, had no earnings in that year, and had no prior period of disability.

f. Assumes the worker began to work at age 22, became disabled at age 50 in 2002, had no earnings in that year, and had no prior period of disability.

g. The 1980 Amendments to the Social Security Act provide for a different family maximum amount in disability cases. For disabled workers entitled after June 1980, the maximum is the smaller of (1) 85 percent of the worker's AIME (or 100 percent of the PIA, if larger) or (2) 150 percent of the PIA.

2003	^e	^e	1,404.30	1,404.30

- a. Assumes the worker began to work at age 22, retired at the beginning of the year, had no prior disability, and received the maximum reduction. Through 1999 the assumed reduction was 36 months at 5/9 of 1 percent per month or 20 percent. In 2001, with the increase in the full retirement age to 65 and 2 months, the reduction increased to 20.008333 percent (see Table 2.A20). In 2002 the full retirement age increased to 65 and 4 months for a maximum reduction to 21.66667 percent. In 2002 the full retirement age increased to 65 and 6 months for a maximum reduction of 22.5 percent. In 2003 the full retirement age increased to 65 and 8 months for a maximum reduction of 23.33333 percent.
- b. Final benefit amount payable after Supplementary Medical Insurance (SMI) premium or any other deduction is rounded to next lower \$1.
- c. Effective February 1968.
- d. Derived from transitional guarantee computation based on 1978 PIA table.
- e. Minimum PIA eliminated by 1981 legislation for workers who attain age 62 in 1982 or later. (The minimum is retained until 1991 for members of religious orders who were under a vow of poverty, provided that the order had elected Social Security coverage before December 29, 1981.)
- f. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

a. Assumes the worker began to work at age 22, retired at the beginning of the year, had no earnings after retirement, and had no prior period of disability.

b. Final benefit amount payable after Supplementary Medical Insurance (SMI) premium or any other deduction is rounded to next lower \$1.

c. Effective for February 1968.

d. Derived from transitional guarantee computation based on 1978 PIA table.

e. Minimum PIA eliminated by 1981 legislation for workers who attain age 62 in 1982 or later. (The minimum is retained until 1991 for members of religious orders who are under a vow of poverty, provided that the order had elected Social Security coverage before December 29, 1981.)

f. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

g. Effective for workers retiring at age 65 in 2003, the age at which one can receive an unreduced benefit—the full retirement age (FRA)—has been raised from 65 to 65 and 2 months. Workers retiring at age 65 receive a benefit of \$1,721.70. Those entitled at age 65 and 2 months receive a benefit of \$1,741.10. See Table 2.A17.1 for reduction factors.

	2001	25,000	^m 2,083.33	\$1 for each \$3 of earnings above \$25,000
	2002	30,000	2,500.00	\$1 for each \$3 of earnings above \$30,000
	2003	30,720	2,560.00	\$1 for each \$3 of earnings above \$30,720

- a. Earnings of retired-worker beneficiary affect total monthly family benefit. Earnings of dependent or survivor beneficiary affect only his or her benefit. However, effective January 1985, earnings of retired-worker beneficiary do not affect benefit to divorced spouse who has been divorced at least 2 years. Effective for benefits after December 1990, the 2-year requirement is waived, if the worker was entitled to benefits before the divorce.
- b. Monthly test for self-employment income is defined in terms of substantial services. For taxable years beginning after December 31, 1977, monthly test eliminated for both wage and self-employment income except that each individual may use monthly test for 1 grace year, usually the year of retirement.
- c. Applied to self-employment income only.
- d. Special provisions for earnings in noncovered employment outside the United States.
- e. Became effective due to automatic adjustment provisions mandated by 1972 and 1973 legislation.
- f. Full retirement age is 65 for beneficiaries who attain age 62 (age 60 for widow(er)s) before 2000, gradually increasing to age 67 for beneficiaries who attain age 62 in 2022 or later.
- g. Discretionary increase included in 1977 legislation.
- h. Actual amount is \$1,041.66 2/3.
- i. Actual amount is \$1,208.33 1/3.
- j. Actual amount is \$1,291.66 2/3.
- k. Public Law 106-182, enacted April 7, 2000, eliminated the earnings test beginning with the month a beneficiary reaches full retirement age (FRA). The annual earnings test that applies in the year of attainment of FRA is based on the annual limits established under P.L. 104-121 (including the \$1 for \$3 withholding rate). In determining annual earnings for purposes of the annual earnings test under this legislation, only earnings before the month of attainment of FRA will be considered. Public Law 106-182 did not change the annual exempt amount for beneficiaries who are under FRA throughout the year, which continues to be pegged to increases in the average wage.
- l. Actual amount is \$1,416.66 2/3.
- m. Actual amount is \$2,083.33 1/3.

a. Earnings above the maximum amount ordinarily demonstrate SGA; earnings below the minimum amount show that SGA has not occurred. When earnings are between the minimum and maximum, other factors are considered.

b. The 1977 amendments provided that, effective 1978, earnings of blind beneficiaries would be evaluated under different SGA guidelines than nonblind beneficiaries.

c. Pre-1978 guidelines are the same as those applicable to nonblind beneficiaries.

d. Annual amounts were determined by automatic adjustments linked to increases in average wage level. The amounts equal the monthly exempt amounts under the earnings test applicable to beneficiaries who have reached full retirement age (see Table 2.A29 for the 1983–1995 amounts).

e. Computed as follows: Nonblind SGA amount for 2000, multiplied by the ratio of the 2001 national average wage index to the 1998 index. Rounding is to the nearest multiple of \$10. (Had this computation produced a lower SGA level than the 2002 level, the 2002 level would have been used.)

f. Computed as follows: Blind SGA amount for 1994, multiplied by the ratio of the 2001 national average wage index to the 1992 index. Rounding is to the nearest multiple of \$10. (Had this computation produced a lower SGA level than the 2002 level, the 2002 level would have been used.)

SOURCES: Social Security Act of 1935 (the Act), as amended through December 31, 2002; regulations issued under the Act; and precedential case decisions (rulings). Specific laws, regulations, rulings, legislation, and a link to the *Federal Register* can be found at <http://www.socialsecurity.gov/regulations/index.htm>. Social Security Administration, "Cost-of-Living Increase and Other Determinations for 2003," *Federal Register*, vol. 67, no. 207 (October 25, 2002).

NOTES: Earnings are net of any wage subsidies and impairment-related expenses.

SGA guidelines for self-employed individuals differ from the guidelines for wage earners.

Self-employment activity is generally examined in terms of time spent and degree of effort, as compared with that of nondisabled self-employed individuals.

2.A OASDI: Effect of Current Earnings and Taxation of Benefits

Table 2.A31—Taxation of Social Security benefits

Year enacted	Individuals or couples with income exceeding (dollars)—	Benefits included in gross income	Effective for taxable years—
Married filing jointly			
1983	32,000	Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits or one-half of income over 32,000	Ending after December 31, 1983
1993	32,000 but not 44,000	Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits or one-half of income over 32,000	Beginning after December 31, 1993
	44,000	Lesser of 85 percent of Social Security and Tier 1 Railroad Retirement benefits or the sum of 6,000 plus 85 percent of income over 44,000	Beginning after December 31, 1993
Married filing separate returns ^a			
1983	0	Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits or one-half of income	Ending after December 31, 1983
1993	0	Lesser of 85 percent of Social Security and Tier 1 Railroad Retirement benefits or 85 percent of income	Beginning after December 31, 1993
Individuals in all other filing categories			
1983	25,000	Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits or one-half of income over 25,000	Ending after December 31, 1983
1993	25,000 but not 34,000	Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits or one-half of income over 25,000	Beginning after December 31, 1993
	34,000	Lesser of 85 percent of Social Security and Tier 1 Railroad Retirement benefits or 85 percent of income over 34,000	Beginning after December 31, 1993

a. Includes only married taxpayers filing separately who lived with their spouse at any time during the tax year; married individuals filing separately who did not live with their spouse are treated the same as unmarried individuals.

SOURCES: Social Security Act of 1935 (the Act), as amended through December 31, 2002; regulations issued under the Act; and precedential case decisions (rulings). Specific laws, regulations, rulings, legislation, and a link to the *Federal Register* can be found at <http://www.socialsecurity.gov/regulations/index.htm>. Taxation of Social Security benefits is governed by the Internal Revenue Service Code. IRS describes the rules governing taxation of Social Security benefits in IRS publication 915, available at <http://www.irs.gov/pub/irs-pdf/p915.pdf>.

NOTES: Income is defined as modified adjusted gross income, plus 50 percent of Social Security and Tier 1 Railroad Retirement benefits. Modified adjusted gross income is adjusted gross income (before Social Security or Railroad Retirement benefits are considered), plus tax-exempt interest income, with further modification of adjusted gross income in some cases involving certain tax provisions of limited applicability among the beneficiary population.

Social Security and Tier 1 Railroad Retirement benefits include workers' compensation benefits to the extent they cause a reduction in Social Security or Tier 1 Railroad Retirement disability benefits.

40,000	8,000	4,000	44,000	34,000	10,000	...	8,500	4,000	6,800	...	6,800

- a. Adjusted gross income (before Social Security or Railroad Retirement benefits are considered), plus tax-exempt interest income, with further modification of adjusted gross income in some cases involving certain tax provisions of limited applicability among the beneficiary population.
- b. Social Security and Tier 1 Railroad Retirement benefits, including workers' compensation benefits to the extent they cause a reduction in either of these two types of benefits.
- c. For married couples filing joint returns, up to 50 percent of benefits are subject to income tax if gross income is over \$32,000 but less than \$44,000. If gross income is less than \$32,000, none of the Social Security benefits will be taxable. If gross income exceeds \$44,000, up to 85 percent of Social Security benefits will be taxable income. Similar lower and upper level thresholds or "base amounts" for single individuals are \$25,000 and \$34,000. There is no similar threshold or base amount for married individuals who live together but file separate returns (for example, up to 85 percent of Social Security benefits in those cases may be considered taxable income).
- d. Includes only married taxpayers filing separately who lived with their spouse at any time during the tax year; married individuals filing separately who did not live with their spouse are treated the same as unmarried individuals.

<i>Receiving institutional care covered by Medicaid ^g</i>			
1972	January 1, 1974	25.00	50.00
1987	July 1, 1988	30.00	60.00

a. For those without countable income. These payments are reduced by the amount of countable income of the individual or couple.

b. Includes persons in private institutions whose care is not provided by Medicaid.

c. Superseded by 1973 provision.

d. Mechanism established for providing cost-of-living adjustments.

e. General benefit increase.

f. Benefits originally paid in 2000 and through July 2001 were based on federal benefit rates of \$512.00 and \$530.00, respectively. Pursuant to P.L. 106-554, monthly payments beginning in August 2001 were effectively based on the higher \$531 amount. Lump-sum compensation payments were made based on an adjusted benefit rate for months prior to August 2001.

g. Must be receiving more than 50 percent of the cost of the care from Medicaid (Title XIX of the Social Security Act).

SOURCES: Social Security Act of 1935 (the Act), as amended through December 31, 2002; regulations issued under the Act; and precedential case decisions (rulings). - a. The HI and SMI deductible and coinsurance amounts begin in January unless otherwise noted. The HI and SMI monthly premium amounts were effective in July through 1983 and in January for 1984 and succeeding years.
- b. Premium paid for voluntary participation of individuals aged 65 or older not otherwise entitled to Hospital Insurance and of certain disabled individuals who have exhausted other entitlement.
- c. Beginning in July 1973 for the disabled.
- d. Benefit not provided.
- e. Professional inpatient services of pathologists and radiologists not subject to deductible or coinsurance, beginning in April 1968.
- f. Beginning in April 1968.
- g. Home health services not subject to coinsurance, beginning in January 1973.
- h. Monthly premium for July and August 1973 was reduced to \$5.80 and \$6.10, respectively, by the Cost of Living Council.
- i. Home health services not subject to deductible.
- j. Professional inpatient services of pathologists and radiologists not subject to deductible or coinsurance, beginning in April 1968, but only when physician accepts assignment.
- k. Effective October 1, 1982, professional inpatient services of pathologists and radiologists are subject to deductible and coinsurance.
- l. Unlike all other years, the 1989 deductible was applied on an annual, rather than a benefit period, basis. Once the deductible was paid by the beneficiary, Medicare paid the balance of expenses for covered hospital services, regardless of the number of days of hospitalization (except for psychiatric hospital care, which was still limited by the 190-day lifetime maximum).
- m. The coinsurance amount in 1989 was equal to 20 percent of the estimated national average daily cost of covered skilled nursing facility care, rather than 1/8 of the inpatient hospital deductible. The beneficiary paid the coinsurance amount for the first 8 days of care in 1989, rather than for days of care 21 to 100 in a benefit period as in all other years. Skilled nursing facility benefits were available for up to 150 days of care per year in 1989, rather than for up to 100 days of care per benefit period as in all other years.
- n. Includes the standard monthly SMI premium and a supplemental monthly flat premium under the Medicare Catastrophic Coverage Act of 1988. Amount shown is for most Part B enrollees. Residents of Puerto Rico and other territories and commonwealths, as well as persons enrolled in Part B only, paid different supplemental flat premiums resulting in a smaller premium than that shown.
- o. A reduced premium is available to individuals aged 65 or older who are not otherwise entitled to HI but who have (or who were married to, widowed, or divorced from a spouse for certain periods of time who has or had) at least 30 quarters of Social Security coverage. The reduced premium is \$184, \$183, \$188, \$187, \$170, \$170, \$166, \$165, \$175, \$174, and \$189 for 1994 to 2004, respectively.

a. Section 1905 (b) of the Social Security Act specifies the method to be used to compute the federal medical assistance percentage. From this section the following formula is derived: $N = 3\text{-year average national per capita personal income}$; $S = 3\text{-year average state per capita personal income}$. Federal medical assistance percentage: $\text{State share} = (S^2/N^2) \times 45$ or $(45/N^2) \times S^2$; $\text{Federal share} = 100 - \text{state share}$ with 50–83 percent limits.

b. This is the Title XXI enhanced federal medical assistance percentage rate specified in section 2105(b) of the Act. The enhanced federal medical assistance percentage is limited to no more than 85%.

c. Effective October 1, 2001, through September 30, 2002.

d. Effective October 1, 2002, through September 30, 2003.

e. Effective October 1, 2003, through September 30, 2004.

f. For purposes of section 1118 of the Social Security Act, the federal medical assistance percentage used under titles I, X, XIV, and XVI, and part A of title IV will be 75%.

a. For year in which minimum wage rate changes were effective.

b. The 1938 act was applicable generally to employees engaged in interstate commerce or in the production of goods for interstate commerce.

c. The 1961 amendments extended coverage primarily to employees in large retail and service trades as well as local transit, construction, and gasoline service station employees.

d. The 1966 amendments extended coverage to state and local government employees of hospitals, nursing homes, and schools, and to employees of laundries, dry cleaners, large hotels and motels, restaurants, and farms. Subsequent amendments extended coverage to the remaining federal, state, and local employees not protected in 1966, to certain workers in retail and service trades previously exempted, and to certain domestic workers in private household employment.

e. A training wage may be paid for a period of 90 days to an employee who has not attained age 20. The training wage was \$3.35 per hour effective April 1, 1990, and \$3.61 per hour effective April 1, 1991, through March 31, 1993. Effective October 1, 1996, the training wage is \$4.25 per hour.

a. For OASI, DI, and HI contribution rates and wage base, see Table 2.A3. Beginning in 1952 (1959 for DI, 1968 for HI) employer and employee contributions differ by estimated amount of refunds of employee tax overpayments and, beginning in 1966, by employee tax on tips. For SMI premium rates, see Table 2.C1.

b. Beginning in July 1973, aged ineligible may voluntarily enroll for HI.

c. Includes premiums paid on behalf of eligibles by state governments under "buy-in" arrangements.

a. Data from Bureau of Labor Statistics, consumer price index for all urban consumers (CPI-U) for all items (1982–1984 = 100).
b. For 1940–1973, data refer to Old-Age Assistance program. Beginning January 1974, the Supplemental Security Income program superseded the Old-Age Assistance program in the 50 states and the District of Columbia.
c. Effective July 1, 1997, the Temporary Assistance for Needy Families (TANF) block grant program replaced the Aid to Families with Dependent Children (AFDC) program. Beginning in 1997, payments include services.
d. Revised data.

SOURCES: Social Security Administration, Supplemental Security Record, and the Department of Health and Human Services, 100 percent data.

a. Includes persons receiving OASDI, SSI, or both.

b. The number of OASDI disabled adult child beneficiaries aged 18–64 also receiving SSI was estimated based on the number of such beneficiaries aged 18 or older for the same year and on the comparative size of the two groups at the end of 1988.

c. December data for OASDI disabled beneficiaries also receiving SSI were not available. Instead, the average of the September 1989 and March 1990 numbers was used.

a. Poverty status based on money income of all family members after receipt of Social Security and any other cash transfer payments.

b. Received by individuals or any family member at any time during 2000. Most individuals or families received more than one type of income during the year.

c. Social Security may include more than one type of income during the year.

d. Unemployment insurance, workers' compensation, or veterans' payments.

e. Less than 0.05 percent.

a. Aged family members who are neither the family householder nor the spouse of the householder. Official poverty classification is based on combined income of all related persons living together. Persons in this group are classified here on the basis of official poverty criteria for family income and on a comparison of their own income with official poverty criteria for elderly persons maintaining their own households. The hidden poor are other relatives in nonpoor households whose own income is below the official poverty line for unrelated individuals or married couples.

SOURCE: U.S. Census Bureau, Current Population Survey, public-use file of the March 2002 Income Supplement.

NOTES: Living arrangements as of March 2002.

Poverty status in 2001 as reflected by income of unrelated individual or family money income for year compared with official poverty income criterion for families of appropriate size and composition.

Table includes civilian noninstitutionalized population residing in the 50 states and the District of Columbia.

For a discussion of standard errors of estimated numbers and percentages, see U.S. Census Bureau, *Current Population Reports*, Series P-60.

a. The guidelines are effective from the date of issuance (unless otherwise specified by a particular program using them).

b. Add this amount for each additional family member. Before 1973, increments between some of the smaller family sizes differed from the increment shown in the table. Beginning in 1973, the increment has been the same for all family sizes in each year's set of guidelines.

SOURCE: Department of Health and Human Services, *Federal Register*, vol. 68, no. 26, February 7, 2003, pp. 6456–6458.

NOTES: Except for Alaska and Hawaii. Guidelines for Alaska and Hawaii since 1980 are:

Year	Alaska		Hawaii	
	1 person	Increment	1 person	Increment
1980	4,760	1,520	4,370	1,400
1981	5,410	1,720	4,980	1,580
1982	5,870	1,920	5,390	1,770
1983	6,080	2,100	5,600	1,930
1984	6,240	2,170	5,730	2,000
1985	6,560	2,250	6,040	2,070
1986	6,700	2,350	6,170	2,160
1987	6,860	2,380	6,310	2,190
1988	7,210	2,450	6,650	2,250
1989	7,480	2,550	6,870	2,350
1990	7,840	2,680	7,230	2,460
1991	8,290	2,820	7,610	2,600
1992	8,500	2,980	7,830	2,740
1993	8,700	3,080	8,040	2,820
1994	9,200	3,100	8,470	2,850
1995	9,340	3,200	8,610	2,940
1996	9,660	3,280	8,910	3,010
1997	9,870	3,400	9,070	3,130
1998	10,070	3,500	9,260	3,220
1999	10,320	3,520	9,490	3,240
2000	10,430	3,630	9,590	3,340
2001	10,730	3,780	9,890	3,470
2002	11,080	3,850	10,200	3,540
2003	11,210	3,930	10,330	3,610

Separate figures for Alaska and Hawaii reflect Office of Economic Opportunity administrative practice beginning in the 1966–1970 period. The U.S. Census Bureau, producer of the primary version of the poverty measure (the poverty thresholds), does not produce separate figures for Alaska and Hawaii.

Before 1983, the guidelines shown are for nonfarm families only.

a. Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957–2001, if such credits were considered to be covered wages.

b. Includes payments (1) in 1947–1951 and in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; (2) in 1971–1982, for costs of deemed wage credits for military service performed after 1956; and (3) in 1968 and later, for costs of benefits to certain uninsured persons who attained age 72 before 1968.

c. Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in October 1973, the figures shown include relatively small amounts of gifts to the fund. Figures for 1983–1986 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983–1990, interest paid from the trust fund to the general fund of the Treasury on advance tax transfers is reflected. The amount shown for 1985 includes an interest adjustment of \$88 million on unnegotiated checks issued before April 1985.

d. Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.

e. Amount equals total receipts less total expenditures, plus amounts borrowed or less amounts repaid under interfund borrowing provisions.

f. Less than \$500,000.

a. Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957–2001, if such credits were considered to be covered wages.

b. Includes payments (1) in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; and (2) in 1971–1982, for costs of deemed wage credits for military service performed after 1956.

c. Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in July 1974, the figures shown include relatively small amounts of gifts to the fund. Figures for 1983–1986 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983–1990, interest paid from the trust fund to the general fund of the Treasury on advance tax transfers is reflected. The amount shown for 1985 includes an interest adjustment of \$14.8 million on unnegotiated checks issued before April 1985.

d. Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.

e. Less than \$500,000.

f. Amount equals total receipts less total expenditures, less amounts loaned or plus amounts repaid under interfund borrowing provisions.

g. Reflects \$195 million in transfers from the DI trust fund to the general fund of the Treasury to correct estimated amounts transferred for calendar years 1984 and 1985.

a. Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957–2001, if such credits were considered to be covered wages.

b. Includes payments (1) in 1947–1951 and in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; (2) in 1971–1982, for costs of deemed wage credits for military service performed after 1956; and (3) in 1968 and later, for costs of benefits to certain uninsured persons who attained age 72 before 1968.

c. Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in October 1973, the figures shown include relatively small amounts of gifts to the fund. Figures for 1983–1986 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983–1990, interest paid from the trust fund to the general fund of the Treasury on advance tax transfers is reflected. The amount shown for 1985 includes an interest adjustment of \$102.8 million on unnegotiated checks issued before April 1985.

d. Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.

e. Amount equals total receipts less total expenditures, plus amounts borrowed or less amounts repaid under interfund borrowing provisions.

f. Less than \$500,000.

- a. Relates to wage and salary workers for 1937–1950. Beginning in 1951, includes self-employment. See Table 2.A3 for annual maximum taxable earnings.
 b. Excludes railroad account numbers. Since program began, 414 million Social Security numbers have been issued. Some individuals have been issued more than one number.
 c. Workers reported with first taxable earnings under program in specified year. During 1937–2001, 309.5 million different persons reported with taxable earnings.
 d. Total wages, including estimated amounts above taxable limit, for 1937–1950. Beginning in 1951, also includes reported total net earnings of self-employed persons.
 e. Preliminary data.
 f. Taxable earnings are preliminary estimates based on Social Security data; employment data are preliminary estimates based on data from Bureau of Labor Statistics.
 g. Preliminary estimates based on data from Bureau of Labor Statistics and the Bureau of Economic Analysis.
 h. Data not available.

SOURCES: Social Security Administration, Master Earnings File, 1 percent sample; Bureau of Labor Statistics; and Bureau of Economic Analysis.

a. Workers with earnings in both wage and salary employment and self-employment are counted in each type of employment but only once in the total.

b. Not covered before 1951.

c. Preliminary data.

d. For all workers, medians relate to combined earnings from wage and salary employment and self-employment. For all wage and salary workers, medians relate to wages and salaries only.

- State designation based primarily on employee end-of-year residence, obtained from employer wage reports filed via magnetic media. State designation based on location of employer for reports filed via paper.
- Workers with earnings in both wage and salary employment and self-employment are counted in each type of employment but only once in the total. National and state totals and subtotals are unduplicated counts of workers in each type of employment.
- Annual maximum taxable earnings for Social Security (OASDI) from a single employer or from self-employment were \$76,200 in 2000.
- For 2000 earnings, paid at the rate of 6.2 percent of taxable wages by both employees and employers, 6.2 percent of taxable tips by employees, and 12.4 percent of self-employment income by self-employed workers. Data are unadjusted for multi-employer tax refunds.
- Persons employed in American Samoa, Guam, Northern Mariana Islands, and Virgin Islands; U.S. citizens employed abroad by U.S. employers; persons employed on U.S. oceanborne vessels; and workers with unknown residence.

a. State designation based primarily on employee end-of-year residence, obtained from employer wage reports filed via magnetic media. State designation based on location of employer for reports filed via paper.

b. Workers with earnings in both wage and salary employment and self-employment are counted in each type of employment but only once in the total. National and state totals and subtotals are unduplicated counts of workers in each type of employment.

c. Annual maximum taxable earnings for Social Security (OASDI) from a single employer or from self-employment were \$80,400 in 2001.

d. For 2001 earnings, paid at the rate of 6.2 percent of taxable wages by both employees and employers, 6.2 percent of taxable tips by employees, and 12.4 percent of self-employment income by self-employed workers. Data are unadjusted for multi-employer tax refunds.

e. Persons employed in American Samoa, Guam, Northern Mariana Islands, and Virgin Islands; U.S. citizens employed abroad by U.S. employers; persons employed on U.S. oceanborne vessels; and workers with unknown residence.

a. Workers with earnings in both wage and salary employment and self-employment are counted in each type of employment but only once in the total.

b. See Table 2.A3 for annual maximum taxable earnings.

c. See Table 2.A3 for contribution rates.

d. Unadjusted for multi-employer tax refunds. Unadjusted for tax credits. See Table 2.A5 for information on tax credits.

e. Preliminary data.

f. Taxable earnings are preliminary estimates based on Social Security data; employment data are preliminary estimates based on data from Bureau of Labor Statistics and the National Income and Product Accounts.

g. Preliminary estimates based on data from Bureau of Labor Statistics and Bureau of Economic Analysis.

- a. State designation based primarily on employee end-of-year residence, obtained from employer wage reports filed via magnetic media. State designation based on location of employer for reports filed via paper.
- b. Workers with earnings in both wage and salary employment and self-employment are counted in each type of employment but only once in the total. National and state totals and subtotals are unduplicated counts of workers in each type of employment.
- c. No annual maximum taxable earnings amount for Medicare.
- d. For 2001 earnings, paid at the rate of 1.45 percent of taxable wages by both employees and employers, 1.45 percent of taxable tips by employees, and 2.9 percent of self-employment income by self-employed workers.
- e. Persons employed in American Samoa, Guam, Northern Mariana Islands, and Virgin Islands; U.S. citizens employed abroad by U.S. employers; persons employed on U.S. oceanborne vessels; and workers with unknown residence.

a. Percentage of population aged 20 or older and fully insured.

b. Less than 0.5 percent.

SOURCE: U.S. Census Bureau.

NOTES: Population in the Social Security area includes residents of the 50 states and the District of Columbia adjusted for net census undercount; civilian residents of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands; federal civilian employees and persons in the armed forces abroad and their dependents; crew members of merchant vessels; and all other U.S. citizens abroad.

Population estimates are subject to revision.

a. Includes 152,770 persons of unknown race. In years prior to 1993, persons of unknown race were included with White.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

d. Includes special age-72 beneficiaries.

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Joseph Bondar (410) 965-0162.

a. Includes 35,620 persons of unknown race.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Joseph Bondar (410) 965-0162.

a. Includes 8,370 persons of unknown race.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Joseph Bondar (410) 965-0162.

a. Includes 27,080 persons of unknown race.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Joseph Bondar (410) 965-0162.

Table 5.A1.5—Number and average monthly benefit for widowed mothers and fathers, by age, sex, marital status, and race, December 2002

Age, sex, and marital status	All races ^a		White		Black		Other ^b	
	Number ^c	Average monthly benefit (dollars)	Number	Average monthly benefit (dollars)	Number	Average monthly benefit (dollars)	Number	Average monthly benefit (dollars)

Men	11,130	546.30	7,600	555.70	2,020	540.40	1,430	502.50

a. Includes 1,790 persons of unknown race.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTES: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

... = not applicable.

a. Includes 680 persons of unknown race.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Provisions for Railroad Retirement beneficiaries are described in the section Social Security (Old-Age, Survivors, and Disability Insurance).

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Joseph Bondar (410) 965-0162.

a. Includes 41,380 persons of unknown race.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

a. Includes 73,000 persons of unknown race. In years prior to 1993, persons of unknown race were included with White.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Excludes parents, special age-72 beneficiaries, and disabled adult children receiving benefits because of a childhood disability.

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

a. AIDS/HIV records are counted in the infectious and parasitic diseases group. Before 1990, those records were included in the Other group.

b. The diagnosis for disabled children typically was not recorded on the Master Beneficiary Record (MBR) until 1984. Many beneficiaries entitled before that date are still on the rolls today.

c. Less than 0.05 percent.

a. Aged 62 or older. Includes wives aged 65 or older with children.

b. Under age 65 with entitled children in their care.

c. Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18. For mothers and fathers caring for a child who was at least 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.

d. Excludes wives with both disabled and nondisabled children in their care.

- a. Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18. For mothers and fathers caring for a child who was at least age 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.
- b. Excludes mothers and fathers who had both disabled and nondisabled entitled children in their care.
- c. Less than \$500.

a. Includes 152,770 persons of unknown race.

b. Includes Asians and Pacific Islanders, American Indians and Alaska Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries among those three groups is not available.

c. Includes beneficiaries with unknown state code.

SOURCE: Social Security Administration, Master Beneficiary Record, 10 percent sample.

NOTE: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

CONTACT: Rona Blumenthal (410) 965-0163 or Shirley Turpin (410) 965-0181.

a. Includes 4,300 persons of unknown race.

b. Benefits awarded before the December increase are converted to the December rates before computation of the averages.

c. Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.

d. Average benefits are not shown for fewer than 500 beneficiaries.

SOURCE: Social Security Administration, Master Beneficiary Record, 1 percent sample.

NOTES: Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.

a. Classification based on impairment codes established by SSA.

b. Effective 1999, the Listing of Impairments (which describes medical conditions and specific findings that SSA considers severe enough to show that an individual is disabled without having to consider the remaining steps of the sequential evaluation process) was changed to eliminate awards based solely on obesity.

a. Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18. For mothers and fathers caring for a child who was at least age 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.

b. Excludes mothers and fathers who had both disabled and nondisabled entitled children in their care.

c. January–November.

d. Includes December 1958.

a. Includes blind participants. Of the 82,177 participants in December 2002, 1,386 were blind.

b. Data not available.

SOURCE: Social Security Administration, Supplemental Security Record, 100 percent data.

NOTES: When the substantial gainful activity (SGA) level is periodically raised, SSI recipients with earnings below the increased SGA level become eligible for regular SSI benefits rather than the special cash payments under section 1619(a). This change in status is reflected in the decreases in 1619(a) participants shown in 1990, June 1999, June 2001, December 2001, and December 2002.

- a. Other income includes recoveries of amounts reimbursed from the trust fund which are not obligations of the trust fund, receipts from the fraud and abuse control program, and a small amount of miscellaneous income.
- b. Includes costs of Peer Review Organizations from 1983 to 2001 (beginning with the implementation of the Prospective Payment System on October 1, 1983), and costs of Quality Improvement Organizations beginning in 2002.
- c. Includes costs of experiments and demonstration projects. Beginning in 1997, includes fraud and abuse control expenses, as provided for by P.L. 104-91.
- d. No transfer was made in 1976 because of the change in transfer dates from December to March. The 1977 transfer was for benefits and administrative expenses during the 15-month period beginning July 1976 and ending September 1977.
- e. No transfer was made in 1977 because of the change in transfer dates from August to June. The 1978 transfer was for contributions during the 15-month period beginning July 1976 and ending September 1977.
- f. Includes \$2 million in reimbursement from general revenues for costs arising from the granting of deemed wage credits to persons of Japanese ancestry who were interned during World War II.
- g. For 1982, assets exclude \$12,437 million loaned to the OASI trust fund under the interfund borrowing provisions of the law. Repayments of \$1,824 million and \$10,613 million were made in 1985 and 1986, respectively.
- h. The lump-sum general revenue transfer, as provided for by section 151 of P.L. 98-21.
- i. Includes the lump-sum general revenue adjustment of -\$805 million, as provided for by section 151 of P.L. 98-21.
- j. Includes the lump-sum general revenue adjustment of -\$1,100 million, as provided for by section 151 of P.L. 98-21.
- k. Includes \$1,805 million transfer from the Supplementary Medical Insurance (SMI) catastrophic coverage reserve fund, as provided for by P.L. 102-394.
- l. Includes the lump-sum general revenue adjustment of -\$2,366 million, as provided for by section 151 of P.L. 98-21.
- m. Includes monies transferred to the SMI trust fund for home health agency costs, as provided for by P.L. 105-33.
- n. Includes the lump-sum general revenue adjustment of -\$1,177 million, as provided for by section 151 of P.L. 98-21.

- a. The financial status of the program depends on both the assets and the liabilities of the program.
- b. General fund matching payments, plus certain interest-adjustment items.
- c. Other income includes recoveries of amounts reimbursed from the trust fund that are not obligations of the trust fund and other miscellaneous income.
- d. Includes costs of Peer Review Organizations from 1983 through 2001 and costs of Quality Improvement Organizations beginning in 2002.
- e. Section 708 of Title VII of the Social Security Act modified the provisions for the delivery of Social Security benefit checks when the regularly designated delivery day falls on a Saturday, Sunday, or legal public holiday. Delivery of benefit checks normally due January 1982 occurred on December 31, 1981. Consequently, the SMI premiums withheld from the checks (\$264 million) and the associated general revenue contributions (\$883 million) were added to the SMI trust fund on December 31, 1981. These amounts are excluded from the premium income and general revenue income for calendar year 1982.
- f. Delivery of benefit checks normally due January 1988 occurred on December 31, 1987. Consequently, the SMI premiums withheld from the checks (\$692 million) and the associated general revenue contributions (\$2,178 million) were added to the SMI trust fund on December 31, 1987. These amounts are excluded from the premium income and general revenue income for calendar year 1988; see footnote e.
- g. Includes the impact of the Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360).
- h. Catastrophic coverage premiums—\$1.5 billion—not distributed between aged and disabled enrollees are included in total.
- i. Delivery of benefit checks normally due January 1993 occurred on December 31, 1992. Consequently, the SMI premiums withheld from the checks (\$1,089 million) and the associated general revenue contributions (\$3,175 million) were added to the SMI trust fund on December 31, 1992. These amounts are excluded from the premium income and general revenue income for calendar year 1993; see footnote e.
- j. Includes the impact of the transfer to the HI trust fund of the SMI catastrophic coverage reserve fund on March 31, 1993, as specified in P.L. 102-394. Actual benefit payments for 1993 were \$53,979 million and the amount transferred was \$1,805 million.
- k. Delivery of benefit checks normally due January 1999 occurred on December 31, 1998. Consequently, the SMI premiums withheld from the checks (\$1,512 million) and the associated general revenue contributions (\$4,711 million) were added to the SMI trust fund on December 31, 1998. These amounts are excluded from the premium income and general revenue income for calendar year 1999; see footnote e.
- l. Benefit payments less monies transferred from the HI trust fund for home health agency costs, as provided for by P.L. 105-33.

a. The Balanced Budget Act of 1997, enacted on August 5, 1997, specified that effective January 1998, coverage for the majority of home health services not associated with a hospital or skilled nursing facility will be transferred from the Hospital Insurance (HI) program to the Supplementary Medical Insurance (SMI) program. The HI program will cover the first 100 home health agency visits following a hospital or skilled nursing facility stay of at least 3 days. From July 1981 to December 1997, home health agency services were almost exclusively provided by the HI program. For more information, refer to the 1998 HI and SMI trust fund reports.

b. Hospice utilization is combined in the Part A home health services.

SOURCE: Centers for Medicare & Medicaid Services.

NOTE: Data for persons enrolled as of July 1 are 100 percent and include Health Maintenance Organization (HMO) beneficiaries. Calendar year utilization for persons served and amounts reimbursed are inflated to represent 100 percent and exclude HMO services.

a. Period for which the claim was incurred.

b. Included in total, but not shown separately, are some bills and charges for which type of service is unknown.

c. Due to Balanced Budget Act provisions, beginning in 1998 Part A now has a 100-visit limit and additional home health services will be billed under Part B.

d. Where both medical and surgical charges are included on a single bill, the highest-priced service is the determining factor in classifying the bill.

e. Data not available due to programmatic problems. Total for all services excluded independent laboratory services and all other services.

f. Data are no longer available.

g. Includes physician or supplier allowed charges as determined by the carrier and amounts actually billed by providers for outpatient hospital and home health services.

h. Amount reimbursed to or on behalf of the beneficiary—generally 80 percent of the allowed charges, once the beneficiary has satisfied the deductible in the current year. Some radiology and pathology services are reimbursed at a 100 percent rate, regardless of the beneficiary's deductible status.

SOURCE: Centers for Medicare & Medicaid Services.

NOTES: Includes only bills for which reimbursements were made by carriers or intermediaries and recorded in Centers for Medicare & Medicaid Services records before March 28, 2003.

. . . = less than 1,000.

a. Beginning in fiscal year 1991, "Nursing facility services" category combines "Intermediate care facility, All other" and "Skilled nursing facility services," which were previously separate. Data under "Nursing facility services" prior to 1991 reflect "Skilled nursing facility services."

b. Excludes recipients in Puerto Rico and the Virgin Islands. Data are not available.

SOURCE: Data before 1998 HCFA-Form 2082 and data onward from 1999 Medicaid Statistical Information Systems, MSIS, Centers for Medicare & Medicaid Services.

NOTES: Fiscal year 1977 began in October 1976 and was the first year of the new federal cycle. Before 1977, the fiscal year began in July.

Beginning in fiscal year 1980, recipients' categories do not add to unduplicated total because of the small number of recipients that are in more than one category during the year. Beginning in 1998, several new medical services were combined with "Other" (excludes unknowns).

a. Based on average covered employment in 12-month period.

b. Contributions, penalties, and interest from employers and contributions from employees in states taxing workers. Adjusted to exclude refunds of contributions and dishonored checks. Excludes state and local government employees covered on reimbursable basis.

c. Adjusted to exclude voided benefit checks and for transfers under interstate combined-wage plan. Excludes Extended Benefits and Emergency Unemployment Compensation.

d. Estimated data. As a percentage of taxable payroll. Standard contribution rate for most states, 2.7 percent. Excludes state and local jurisdictions covering state and local government employees on a reimbursable basis.

e. Total wages earned in covered employment during all pay periods ended within the year.

f. Includes dependents' allowances for states that provide such benefits.

g. Based on average total weekly wage in current year.

h. Percentages based on first payments for 12-month period.

SOURCES: Department of Labor, Employment and Training Administration and Bureau of Labor Statistics; based on data submitted by state agencies.

NOTE: Except where noted excludes data for federal employees and for ex-servicemembers; includes data for state and local government employees where covered by state law after 1955.

CONTACT: Thomas Stengle (202) 693-2991.

a. Total costs to employers who purchase insurance from private carriers and state funds consist of premiums written in the calendar year plus the payments made under deductible provisions. For self-insured employers, the costs include benefit payments and administrative costs.

b. Cash and medical benefits paid by self-insurers.

c. Net cash and medical benefits paid during calendar year by private insurance companies under standard workers' compensation policies.

d. Net cash and medical benefits paid by competitive and exclusive state funds and federal benefits including: those paid under the Federal Employees' Compensation Act for civilian employees; the portion of the Black Lung benefit program that is financed by employers; and a portion of benefits under the Longshore and Harbor Workers' Compensation Act that are not reflected in state data, namely, benefits paid by self-insured employers and by special funds under the LHWCA.

SOURCES: National Academy of Social Insurance estimates based on data received from state agencies, the Department of Labor, A.M. Best Company, and the National Council on Compensation Insurance.

NOTE: Beginning in 1959, includes Alaska and Hawaii.

CONTACT: Virginia Reno (202) 452-8097.

- a. States with exclusive funds (Nevada, North Dakota, Ohio, Washington, West Virginia, and Wyoming) also have small amounts of benefits paid by private carriers. This results from two sources: companies with group policies that overlap states and the fact that some companies include excess workers' compensation coverage in their reports of workers' compensation benefits to A.M. Best Company.
- b. Self-insurance includes individual self-insurers and group self-insurance.
- c. Medical percentages based on data provided by the National Council on Compensation Insurance.
- d. Medical percentage based on the weighted average of states where medical data were available.
- e. Federal benefits include those paid under the Federal Employees' Compensation Act for civilian employees; the portion of the Black Lung benefit program that is financed by employers; and a portion of benefits under the Longshore and Harbor Workers' Compensation Act that are not reflected in state data, namely, benefits paid by self-insured employers and special funds under the LHWCA.

a. Statutory programs providing short-term cash benefits to employees unable to work because of nonoccupational illness or injury.

b. State cost of administering state program and of supervising private plans.

c. Benefits and beneficiary data are for periods paid or terminated in 2000.

d. Data not available.

e. Includes data not shown separately for special fund for workers whose disability begins during unemployment. In 2000, the fund paid \$47,386 in benefits.

f. State fiscal year data.

g. Estimated data.

h. Data are for calendar year (January 1–December 31).

i. First \$7,000 of earnings of each employee, which was paid by the employer during the calendar year.

j. For workers whose disability begins during unemployment.

k. Includes State Insurance Fund of \$11.4 million.

l. Includes medical, surgical, and hospital benefits amounting to \$61.9 million paid under approved plans.

m. For 14-day registration period.

n. For benefit year 1999–2000 (July 1, 1999–June 30, 2000).

o. Single system of contributions and administrative operations for railroad unemployment insurance and temporary disability; collections amounted to \$48.5 million and administrative expenses to \$15.7 million for the system in 2000.

p. Of this amount, \$40.7 million was for regular benefits and \$4 million for extended benefits.

a. Thirty-four states had converted to TANF as of January 1, 1997; eight phased in over the next 5 months; the remaining 12 waited until July 1, 1997.
 b. Reporting initiated July 1969. Number of states with program: 1969–1970, 23; 1971, 24; 1972, 27; 1973–1975, 29; 1976–1978, 26; 1979, 24; 1980–1984, 27; 1985–1986, 28; 1987, 29; 1988, 30; 1989, 31; 1990, 33; 1991, 34; 1992, 34; 1993, 35; 1994, 49; 1995, 50; 1996, 51; and 1997, 34. Program ended June 30, 1997.
 c. TANF expenditures include cash payments and services.
 d. Excludes family count and expenditures for states providing only partial data.
 e. 1998 was the first full year under the TANF data reporting system for all states.

SOURCE: Department of Health and Human Services.

NOTES: Includes nonmedical vendor payments. Includes Alaska and Hawaii, beginning in 1943; Puerto Rico and the Virgin Islands, beginning in October 1950; and Guam, beginning in July 1959.

a. That portion of the food stamp allotment, before the elimination of the purchase requirement, represented the government's share of total food stamps received. Since January 1979, only the bonus portion of the total food stamp allotment is received by participants.

b. Excludes participants and benefits under the Puerto Rico Nutrition Assistance Program after July 1, 1982.

c. Revised data.

SOURCE: Department of Agriculture, Food and Nutrition Service.

NOTE: Between 1974 and 1979, Supplemental Security Income (SSI) recipients were made ineligible for food stamps in California, Massachusetts, Wisconsin, and selected counties in New York and Virginia because those areas supplemented SSI payments in amounts that included the value of food stamps. As of 1983 and 1992, SSI recipients were returned to the Food Stamp program in Massachusetts and Wisconsin, respectively, when those states chose to stop including a value for food stamps in the SSI supplement.

Appendixes

A. Sampling Variability	A.1
B. OASDI Benefit Award Data	B.1
C. Poverty Data	C.1
D. Computing a Retired-Worker Benefit	D.1

Appendix A: Sampling Variability

A substantial number of tables in sections 5 and 6 present OASDI award and current-pay benefit data based on 1 percent and 10 percent sample files drawn from the Social Security Administration's administrative records. In addition, Tables 4.B1–4.B12 on the taxable earnings of OASDI workers are based on 1 percent administrative record samples, and Tables 7.A8, 7.B9, and 7.E2 on SSI awards are based on 10 percent administrative record samples.

Because of sampling variability, estimates based on sample data may differ from the figures that would have been obtained had all, rather than specified samples, of the records been used. The standard error is a measure of the sampling variability. About 68 percent of all possible probability samples selected with the same specifications will give estimates within one standard error of the figure obtained from a compilation of all records. Similarly, approximately 90 percent will give estimates within 1.645 standard errors, about 95 percent will give estimates within two standard errors, and about 99 percent will give estimates within two and one-half standard errors. The standard error of an estimate depends on the design elements such as the method of sampling, sample size, and the estimation process.

Because of the large number of data cells tabulated from the sample files, it is not practical to calculate the standard error for every possible cell. However, standard errors for a large number of cells were estimated. These estimates were used to fit regression curves to provide estimates of approximate standard errors associated with tabulated counts and proportions.

The tables showing the sampling variability provide a general order of magnitude for similar estimates from the various sample files. Table A-1 presents approximate standard errors for the estimated number of persons from the 1 percent and the 10 percent files. The reliability of an estimated percentage depends on both the size of the percentage and on the size of the total on which the percentage is based. Data in Table A-2 provide approximations of the standard errors of the estimated percentage of persons in the 1 percent and 10 percent files. The standard errors are expressed in percentage points and the bases shown are in terms of inflated data.

Appendix B: OASDI Benefit Award Data

OASDI benefit award data in the *Annual Statistical Supplement* are derived mainly from two sources:

- **100 percent award data:** The Master Beneficiary Record (MBR) is the major administrative data base for the Social Security program. It is used for the calculation of benefits and the maintenance of information about beneficiaries. Each month, when the MBR is updated, a record of award actions is created. This record is used to prepare award data on a 100 percent basis. Data available each month include types of benefits awarded, sex of beneficiary, and the monthly benefit amounts payable. These data are used to update the time-series tables.
- **Award data from the OASDI 1 percent sample:** This source provides monthly award data based on a 1 percent sample derived from the MBR. The 12 monthly files are combined to produce an annual file. The 1 percent sample is used to prepare award tables, which show detailed data by age, sex, and type of benefit, and distributions by benefit amount. Award data from the 1 percent sample are similar to the data described above. An important difference, however, is the treatment of dual entitlement.

When a retired-worker beneficiary subsequently becomes dually entitled to a secondary benefit as a wife, husband, or widow or widower, the secondary benefit is counted as an award in the 100 percent data. In contrast, award data based on the OASDI 1 percent sample do not count the secondary benefit as an award when both benefits are paid from the same trust fund.

When dual entitlements are counted as awards, the number of awardees is increased and the monthly amount awarded is lowered. The person has already been counted as having received an award when he or she became entitled to the retired-worker benefit and is counted again upon entitlement to the secondary benefit. The average benefit amount is lowered because the amount recorded for the award for the dually entitled person is only the difference between the amount of the retired-worker benefit and the amount of the secondary benefit.

Appendix C: Poverty Data

Table 3.E1 presents weighted average poverty thresholds for families in the United States for 1959–2001. Table 3.E2 presents data on the number and percentage of people in poverty in the United States for 1959–2000. Tables 3.E3, 3.E4, and 3.E6 present more detailed data on people and families in poverty in the United States during 2000. (Both poverty thresholds and poverty population data are issued by the U.S. Census Bureau.) Table 3.E8 presents poverty guidelines by family size for the contiguous United States, Alaska, and Hawaii for 1965–2002. (Poverty guidelines are issued by the U.S. Department of Health and Human Services.)

Poverty thresholds are used primarily for statistical purposes—producing statistics on the number of Americans in poverty. Poverty guidelines are used for administrative purposes—for example, to determine whether a person or family is financially eligible for assistance or services under certain federal government programs (not including cash public assistance). Both thresholds and guidelines are sets of dollar figures that vary by family size and (in the case of the thresholds) family composition.

The poverty thresholds were developed in 1963–1964 by Mollie Orshansky of the Social Security Administration as a measure of income inadequacy. The poverty definition was modified in 1969 and 1981 by federal interagency committees. The thresholds were based on food expenditure/income patterns (from the Department of Agriculture's 1955 Household Food Consumption Survey) and the costs of the Department of Agriculture's economy food plan for families of different sizes and compositions. (See Joseph Dalaker, U.S. Census Bureau, "Poverty in the United States: 1998," *Current Population Reports: Consumer Income*, Series P60-207, September 1999, Appendix A, for an explanation of the poverty definition.) While the poverty thresholds in some sense represent families' needs, the official poverty measure should be interpreted as a statistical yardstick rather than as a complete description of what people and families need to live.

The poverty thresholds have become the basis for the official statistics on the extent of poverty in the United States, which are issued annually by the Census Bureau in the Current Population Reports series. The thresholds are adjusted annually for price changes using the annual average consumer price index (CPI-U). (See U.S. Bureau of the Census, "Revision in Poverty Statistics, 1959 to 1968," *Current Population Reports: Special Studies*, Series P-23, No. 28, August 1969; and Directive No. 14, "Definition of Poverty for Statistical Purposes," *Statistical Policy Handbook*, U.S. Department of Commerce, Office of Federal Statistical Policy and Standards, 1978.)

The poverty guidelines are a simplified version of the poverty thresholds; there are separate sets of guidelines for the two noncontiguous states (Hawaii and Alaska). The

guidelines are used for determining whether a person or family is financially eligible for assistance or services under certain federal programs. Authorizing legislation or regulations for specific programs indicate whether a program uses the poverty guidelines as one of several eligibility criteria, uses a modification of the guidelines (for example, 125 percent or 185 percent of the guidelines), or uses them for the purpose of setting priorities in providing assistance or services.

Since 1973, the guidelines have been computed from the poverty thresholds by increasing the most recently published weighted average poverty thresholds by the percentage change in the CPI-U over the past year (more precisely, from the next most recent calendar year to the most recent calendar year) and rounding the figure for a family of four up to the next highest multiple of \$50. Figures for all family sizes over and under four persons are computed by adding or subtracting equal dollar amounts derived from the average difference between poverty lines (rounded to the nearest multiple of \$20).

The poverty thresholds were calculated using data (the 1955 Household Food Consumption Survey) that defined income as after-tax money income; accordingly, the thresholds were intended to be applied to data on money income. The National Research Council's Panel on Poverty and Family Assistance put great emphasis on the principle of consistency in poverty measurement—that the definition of family resources (income) used should be consistent with the concept underlying the poverty thresholds. (For a discussion of this principle, see *Measuring Poverty: A New Approach*, Constance F. Citro and Robert T. Michael (eds.), Washington, D.C., National Academy Press, 1995, pp. 4, 9-10, 37-40, 65-66, 98, 203-206, and 227-231. This important report proposed a new approach for developing an official poverty measure for the United States.) According to the Panel's principle of consistency, it would be inappropriate to apply the current poverty thresholds (calculated using an income definition of after-tax money income) to an income distribution that used an income definition of money income plus selected noncash benefits.

As noted above, the poverty thresholds were developed in 1963–1964 by Mollie Orshansky of the Social Security Administration. In May 1965—just over a year after the Johnson Administration had initiated the War on Poverty—the Office of Economic Opportunity adopted Orshansky's thresholds as a working or quasi-official definition of poverty. At that time, the thresholds comprised a matrix of 124 detailed poverty thresholds based on the total number of family members, the number of family members who were related children under age 18, the sex of the family householder, the age of the individual or family householder (for one- and two-person units only), and whether the family lived on a farm.

In 1969, a federal interagency committee made two changes in the poverty definition: the thresholds would be annually updated by the consumer price index instead of by the per capita cost of the economy food plan, and farm poverty thresholds would be set at 85 percent rather than 70 percent of corresponding nonfarm thresholds. (Poverty threshold and poverty population figures for prior years were retabulated retrospectively on this basis.) In August 1969, the Bureau of the Budget designated the poverty thresholds with these revisions as the federal government's official statistical definition of poverty.

In 1981, several other changes recommended by another interagency committee were made in the poverty definition: (1) elimination of separate thresholds for farm families, (2) elimination (through appropriate averaging) of separate thresholds for female-householder and "all other" families, and (3) extension of the poverty matrix to make the largest family size category "nine persons or more" rather than "seven or more persons." (See U.S. Bureau of the Census, "Characteristics of the Population Below the Poverty Level: 1980," *Current Population Reports: Consumer Income*, Series P-60, No. 133, July 1982, pp. 2-5, 9, and 186.) As a result of these changes, the current matrix of poverty thresholds used by the Census Bureau to determine the poverty status of families and unrelated individuals consists of a set of 48 detailed thresholds arranged in a two-dimensional matrix by family size (number of family members, ranging from one person, that is, an unrelated individual, to nine or more persons) cross-classified by the presence and number of family members who are related children under age 18 (from no children to eight or more children present). Unrelated individuals and two-person families are further differentiated by the age of the individual or family householder (under age 65 and aged 65 or older).

The current official definition of poverty is over 30 years old. In 1990, Congress requested a study of the official U.S. poverty measure by the National Research Council (NRC) to provide a basis for a possible revision of the poverty measure. In 1992, the NRC's Committee on National Statistics appointed a Panel on Poverty and Family Assistance to conduct this study. In 1995, the Panel published its report of the study, *Measuring Poverty: A New Approach*, Constance F. Citro and Robert T. Michael (eds.), Washington, D.C., National Academy Press, 1995. In the report, the Panel proposed a new approach for developing an official poverty measure for the United States—although it did not propose a specific set of dollar figures. The Panel's proposed approach focused on three major areas: new poverty thresholds, a new and consistent definition of family resources (income), and data sources.

In July 1999, the Census Bureau, in collaboration with the Bureau of Labor Statistics, released a report, *Experimental Poverty Measures: 1990 to 1997 (P60-205)* that examined the effects of different resource definitions and

thresholds on poverty and which estimated several experimental poverty rates based on the NRC panel's recommendations. That report and subsequent updates are available on the Census Bureau poverty measurement Web page at <http://www.census.gov/hhes/www/povmeas.html>.

Data on the poverty population and on family and personal income are collected in the Current Population Survey Annual Social and Economic Supplement (CPS ASEC), formerly known as the March Supplement. Following the standard Census Bureau definition, the family is defined as two or more persons related by birth, marriage, or adoption and residing together. "Income" refers to money income before federal, state, or local personal income taxes and excludes capital gains and lump-sum payments; however, public income transfers are included. Money income does not reflect that many families receive noncash benefits such as employee use of business transportation and facilities, employer-paid health insurance and other employer-supported fringe benefits, Medicare, Medicaid, food stamps, and housing assistance. Many farm families receive benefits in the form of rent-free housing or goods produced and consumed by the family.

Every year between February and April, the sample of U.S. households interviewed in the monthly CPS is asked to provide information on household members' incomes during the preceding calendar year. Survey experience indicates that respondents tend to underreport their income in household surveys. Underreporting is most pronounced for dividends, interest, and workers' compensation; less pronounced for veterans' payments, public assistance, and private pensions; and modest for Social Security and other federal retirement programs. The proportion of nonresponses to CPS income questions is greater among middle income and higher income families than among lower income families.

Because the CPS sample size, content, and procedures changed several times, some differences in the data over time may in part reflect these methodological changes, not just changes in the population. Important changes to the CPS methodology took place for data years 1976, 1979, 1980, 1987, 1988, 1992, 1994, 1995, and 2000. A summary of these changes and references for more information about them appear below. The report numbers, "P60-#" refer to the Current Population Reports, Consumer Income series.

For details about how questionnaire changes and file processing changes affected the data, see Welniak, Edward, "Effects of the March Current Population Survey's New Processing System on Estimates of Income and Poverty," *Proceedings of the American Statistical Association*, 1990.

Further details about CPS methodology may be found in Technical Paper 63RV, available at <http://www.bls.census.gov/cps/tp/tp63.htm>.

If you need to find additional poverty data, you may browse the U.S. Census Bureau poverty Web site at <http://www.census.gov/hhes/www/poverty.html>, or contact the U.S. Census Bureau's Housing and Household Economic Statistics Division Information Staff at (301) 763-3242 or e-mail hhes-info@census.gov.

For further information about technical changes to the poverty measure, contact Joe Dalaker at (301) 763-3213 or e-mail joseph.dalaker@census.gov.

For further information about the statistical reliability of the CPS estimates, contact dsmd_s&a@census.gov.

Year	Methodological change	Reference
1959	First year for which poverty data are available. The poverty measure was developed in 1963–1964.	P60-210, Appendixes.
1969	Modification of poverty measure. Bureau of the Budget prescribed the new measure as the official poverty measure for statistical use in federal agencies.	P60-68, pp. 11–12.
1976–1987	For wide income intervals, Pareto interpolation was used to compute median income. Before 1976 and after 1987, linear interpolation was used.	P60-166, p. 93.
1979	"Householder" concept first implemented, replacing "head" concept—the husband is no longer automatically the family reference person. Secondary families (people who are related to each other but not the householder) are tallied separately from "families." Change in universe—income questions no longer asked of 14-year-olds. Poverty universe changed—people under age 15 not living with any family members are excluded. (Previously, unrelated individuals under age 14 were excluded.)	P60-130, pp. 6–10.
1980	Modification of poverty measure (final approval in 1981). Estimates weighted using 1980 Census results.	P60-133, pp. 2–7.
1987	New CPS processing system.	P60-166, pp. 1, 14–17; Welniak, 1990 ASA proceedings.
1988	Linear interpolation used to compute median incomes.	P60-166, p. 93.
1992	Estimates first weighted using 1990 Census results.	P60-188, p. vii.
1994	Computer-assisted interviewing replaced pencil-and-paper interviewing.	P60-189, p. vii.
1994–1995	New CPS sample design.	P60-189, p. vii and Table D-3; P60-194, pp. v and xiii and Table D-3.
1995	Revised edit and allocation procedures for race groups.	P60-194, pp. v and xiii.
2000	Expansion of CPS sample interviewed from about 50,000 households to about 78,000 households nationwide. Poverty data for 2000 and 2001 from sample expansion first published in P60-219, Poverty in the United States: 2001. In the same report, data were weighted using Census 2000 results.	P60-219, Appendix B.
2002	For the first time, the 2003 CPS ASEC recorded multiple categories for respondents who identified themselves with more than one race. We do not know how people who reported more than one race in 2002 previously reported their race. Therefore, there is no single way to compare changes to poverty by race between 2001 and 2002. The "Asian or Pacific Islander" race category was divided into two groups: "Asians" and "Native Hawaiians and Other Pacific Islanders."	P60-222, pp. 2–3, 5.

Appendix D: Computing a Retired-Worker Benefit

Overview

This section provides instructions and a worksheet for computing a retired-worker benefit. The worksheet can be used for persons born in 1928 through 1941—that is, those who attained age 62 in 2003 or earlier and were under age 75 at the end of 2003. The worksheet assumes that the worker had no prior period of entitlement to disability benefits and also did not work after becoming entitled to retired-worker benefits.

The worksheet describes the various steps used in computing a benefit. The steps are based on the following Social Security program goals.

- *To provide a benefit based on lifetime earnings.* Benefits are related to earnings over a period of time that the worker could be expected to have worked in covered employment—from age 22 through age 61. The years of earnings considered are termed computation years. The worker's five lowest earnings years, including years of no earnings at all, are not considered in the computation. They are termed the drop out years.
- *To index lifetime earnings.* Earnings used in the computation are not the actual covered earnings, but an amount for each year which reflects earnings increases in average wage levels after the year the earnings were paid. This procedure is termed wage indexing. Currently, earnings are generally indexed to wage levels in the year the worker turns age 60. For example, for a person attaining age 62 in 2003, actual earnings in 1984 of \$20,000 are indexed to \$40,807.90, based on 2001 wage levels. Earnings after age 60 are included at their actual (nominal) value.
- *To replace a portion of the indexed earnings.* Indexed earnings are averaged over the number of computation years to calculate the average indexed monthly earnings (AIME). A benefit formula is applied to the AIME to produce the primary insurance amount (PIA), the amount payable to a worker who retires at the full retirement age (FRA). The benefit formula is weighted to provide a higher replacement of earnings for lower wage workers. The formula for persons age 62 in 2003 is 90 percent of the first \$606 of AIME; plus 32 percent of the next \$3,047; plus 15 percent of the AIME over \$3,653.
- *To permit early retirement.* Persons can retire as early as age 62, but the monthly benefit is reduced. The reduction is 5/9 of 1 percent for each of the first 36 months of entitlement immediately preceding the age at which 100 percent of PIA is payable (65 and 8 months in the year 2003 but scheduled to increase to age 67 by the year 2022), plus 5/12 of 1 percent for each of up to 24 earlier months. For a person aged 62

in 2003, the maximum reduction is 23 1/3 percent if the individual is entitled to benefits for all 44 months between 62 and 65 and 8 months.

- *To provide for price indexing after age 62.* Benefits are adjusted annually in December to reflect increases in the consumer price index (CPI-W). The 2002 benefit increase was 1.4 percent. These cost-of-living adjustments are applied to the benefit for each year after the person attained age 62—even if the person was not actually receiving benefits.
- *To give credit for earnings after age 61.* Earnings after age 61 (which are not indexed) can be substituted for earnings in earlier years if they result in a higher benefit. In addition, persons who do not receive benefits between the FRA and age 69 may receive increased benefits as a result of the delayed retirement credit (DRC) provision. The benefit is increased by a specified percentage for each month a benefit was not received (See Table 2.A20 for percentage increases).

Clarifying the Worksheet Procedure

Step 1 - Determining the Number of Computation Years

For persons who attain age 62 prior to 1991, the number of years used in the benefit computation equals the number of years after 1950 up to the year of attainment of age 62, minus 5 years. For workers who attain age 62 in 1991 or later, the number of computation years is 35.

Step 2 - Wage Indexing of Earnings

The following description and examples are provided for persons who wish to compute the index factors and indexed earnings. The indexing year is the second year prior to attainment of age 62. However, beneficiaries born on January 1 are deemed to have attained age 62 in the prior year, and consequently, the applicable indexing year, factors, and bend points are those for that year.

The average wage for the indexing year is divided by the average wage in each prior year to obtain the factor for each prior year. For example, a person attains age 62 in 2003. The indexing year is 2001. The average annual wage for 2001 was \$32,921.92. The average annual wage for 1990 was \$21,027.98. The amount, \$32,921.92 divided by \$21,027.98, yields a factor of 1.5656245.

The worker's actual earnings covered under Social Security in that year, up to the maximum earnings creditable, are multiplied by the indexing factor to obtain the indexed earnings. For example, actual covered earnings of \$10,000 in 1990, multiplied by 1.5656245, result in indexed earnings of \$15,656.25; actual earnings of \$51,300 (the maximum creditable) result in indexed earnings of \$80,316.54.

Step 3 - Computing the Average Indexed Monthly Earnings (AIME)

After the earnings in each year have been indexed, they are used in computing average indexed monthly earnings. The years of highest indexed earnings corresponding to the number of computation years are selected and totaled. This total is then divided by the number of months in the computation years. The result, rounded to the nearest lower dollar, is the average indexed monthly earnings.

For example, for a person attaining age 62 in 2003, the highest 35 years of indexed earnings are used. If the sum of these earnings equals \$400,000, the AIME is \$952 (\$400,000 divided by 420 = \$952.38, rounded to \$952).

Step 4 - Computing the Primary Insurance Amount (PIA)

The PIA, the amount from which all Social Security benefits payable on a worker's earnings record are based, is computed by applying a formula to the AIME. The formula consists of brackets in which 3 percentages are applied to amounts of AIME. The dollar amounts defining the brackets are called bend points, and the bend points are different for each calendar year of attainment of age 62. The PIA is rounded to the nearest lower ten cents.

For retired workers who attained age 62 in 2003, the bend points are \$606 and \$3,653. Thus the formula is 90 percent of the first \$606 of AIME; plus 32 percent of next \$3,047 of AIME; plus 15 percent of AIME above \$3,653. The following are examples of PIA computations for such workers with different AIME amounts.

Example 1 - AIME of \$300

PIA is \$270

Based on: 90 percent of \$300

Example 2 - AIME of \$952

PIA is \$656.12 rounded to \$656.10

Based on: 90 percent of \$606 (\$545.40); plus
32 percent of \$346 (\$110.72)

Example 3 - AIME of \$3,700

PIA is \$1,527.49 rounded to \$1,527.40

Based on: 90 percent of \$606 (\$545.40); plus
32 percent of \$3,047 (\$975.04); plus
15 percent of \$47 (\$7.05)

The above calculations are applicable to workers who attain age 62 in 2003. For workers who attained age 62 in prior years, the bend points will be different and the PIA must be increased to reflect cost-of-living adjustments between the year of attainment of age 62 and the year 2003. Worksheet 2 shows cost-of-living increase factors for 1979 through 2002. After the PIA is calculated for the year of attainment of age 62, cost-of-living increases are applied for each year through 2002. The result is the current 2003 PIA.

For example, a worker who attained age 62 in 2000 would receive cost-of-living adjustments for the years 2000–2002. The adjustments are cumulative, with each step rounded to the next lower dime. If the age 62 PIA was \$500, the cost-of-living adjustments would be:

2000: \$500 multiplied by 1.035 = \$517.50

2001: \$517.50 multiplied by 1.026 = \$530.90

2002: \$530.90 multiplied by 1.014 = \$538.30

\$538.30 would be the PIA effective December 2002.

Step 5 - Computation of the Monthly Benefit

The full PIA is payable to a worker who retires at age 65. However, beginning in the year 2000, the full retirement age, scheduled to be gradually raised to age 67 for workers attaining age 62 in 2022, began to be phased in. Workers can still retire as early as age 62, but the monthly benefit is reduced by 5/9 of 1 percent for each of the first 36 months of entitlement immediately preceding the full retirement age plus 5/12 of 1 percent for each of up to 24 earlier months. Workers attaining age 62 in 2003 have their benefits computed based on the full retirement age of 65 and 8 months. See Table 2.A17.1 to determine the full retirement age based on the year of birth as well as the reduction factors. For individuals electing benefits at exactly age 62 in the year 2003, the maximum reduction is 23 1/3 percent.

For example, in 2003 a worker with a PIA of \$500 would receive \$383.33 at age 62. The PIA is reduced by \$116.67, reflecting a reduction rate of 5/9 of 1 percent for each of 36 months and a rate of 5/12 of 1 percent for each of 8 months for a total reduction of 23 1/3 percent. After reduction of the PIA by \$116.67, the benefit amount is rounded down to the nearest lower dollar.

Instructions for computing a retired-worker benefit (only for workers attaining age 62 in years 1990–2003)

STEP 1.—Determining the Number of Computation Years		
1	Year of birth. (If your birthday is January 1, enter prior year.)	
2	Age "62" has been entered.	62
3	Add lines 1 and 2 to obtain year of attainment of age 62 (year of eligibility).	
4	Year of attainment of age 22. If 1951 or earlier, enter 1951 (If your birthday is January 1, enter prior year.)	
5	Subtract line 4 from line 3 (elapsed years).	
6	"5" (drop-out years) has been entered.	5
7	Subtract line 6 from line 5 (computation years—maximum 35).	
STEP 2.—Indexing of Earnings (Use Worksheet 1 for Steps 2 and 3.)		
8	Enter in column 2 your earnings in each year 1951 through 2002. If none, enter "0."	
9	Column 3 contains the maximum earnings creditable under Social Security for each year.	
10	Enter in column 4 the lower amount from columns 2 or 3 for each year.	
11	Enter in column 5 the indexing factors applicable to the year you attained age 62 (line 3) from Table 2.A8. (This table contains the indexing factors for persons attaining age 62 during the period 1990-2003.)	
12	Multiply column 4 by column 5 and enter results in column 6 in dollars and cents. These are your indexed earnings.	
STEP 3.—Computing the Average Indexed Monthly Earnings (AIME)		
13	Enter the number of computation years from line 7.	
14	Place an "X" in column 7 next to the highest indexed earnings corresponding with the number of computation years from line 13.	
15	Add all individual indexed earnings marked with an "X."	
16	Multiply line 13 (computation years) by 12 to obtain the number of months in the computation period.	
17	Divide line 15 by line 16.	
18	Round the result in line 17 to next lower dollar. This is your average indexed monthly earnings (AIME).	
STEP 4.—Computing the Primary Insurance Amount (PIA) (Use Worksheet 2 for Step 4.)		
19	Enter first bend point from Worksheet 2 based on year of attainment of age 62, or prior year if birthday is January 1.	
20	Enter second bend point from Worksheet 2.	
21	If your AIME (obtained in line 18) is equal to or less than line 19, complete lines 22–24; If greater than line 19 but less than or equal to line 20, complete lines 25–30; If greater than line 20, complete lines 31–37.	
22	Enter your AIME from line 18.	
23	"0.9" has been entered. If you receive a pension based on noncovered employment see Table 2.A11.1.	0.9
24	Multiply line 22 by line 23 and round to next lower dime to obtain your PIA at age 62. Continue with line 38.	
25	Enter your AIME from line 18.	
26	Multiply line 19 by 0.9. If you receive a pension based on noncovered employment see Table 2.A11.1.	
27	Subtract line 19 from line 25.	
28	"0.32" has been entered.	0.32
29	Multiply line 27 by line 28.	
30	Add lines 26 and 29 and round to next lower dime to obtain your PIA at age 62. Continue with line 38.	
31	Enter your AIME from line 18.	
32	Multiply line 19 by 0.9. If you receive a pension based on noncovered employment see Table 2.A11.1.	
33	Subtract line 19 from line 20 and multiply by 0.32.	
34	Subtract line 20 from line 31.	
35	"0.15" has been entered.	0.15
36	Multiply line 34 by line 35.	
37	Add lines 32, 33, and 36 and round to next lower dime to obtain your PIA at age 62. Continue with line 38.	

(Continued)

Instructions for computing a retired-worker benefit (only for workers attaining age 62 in years 1990–2003)—Continued

38	If you attained age 62 in 2003, skip to line 44. Otherwise you will need to adjust your PIA to reflect cost-of-living adjustments (COLAs) from the year you attained age 62 through 2002 by using lines 39–43 and Worksheet 2.	
39	Enter year of attainment of age 62 from line 3.	
40	Place an "X" corresponding to the year you attained age 62 in column 5, Worksheet 2.	
41	Place an "X" in column 5 (Worksheet 2) next to each subsequent year through 2002.	
42	Enter your age 62 PIA from either line 24, 30, or 37—here and in the first row of column 6, Worksheet 2.	
43	Beginning with first year marked, multiply your age 62 PIA by the corresponding factor (column 4), round to lower dime, and enter in column 6. The resulting PIA is then multiplied by the next factor and is again rounded to lower dime. Continue this process through 2002. Enter this last figure, which is your current PIA.	
STEP 5.—Computing the Monthly Benefit		
44	Enter your current PIA from either line 24, 30, 37, or 43.	
45	Using Table 2.A17.1, determine your full retirement age and enter here.	
46	If you retired at your full retirement age round PIA from line 44 to next lower dollar to obtain your monthly benefit.	
47	If you retired before the full retirement age enter your age at retirement including year and months.	
48	Subtract line 47 from line 45 and convert the result to months to determine the total number of reduction months.	
49	If line 48 is greater than 36 subtract 36 and enter the number here.	
50	"0.0055556" (the decimal equivalent of 5/9 of 1 percent—the monthly reduction factor for the first 36 months) has been entered.	0.0055556
51	"0.0041667" (the decimal equivalent of 5/12 of 1 percent—the monthly reduction factor for months above 36) has been entered.	0.0041667
52	Multiply line 48 (but not more than 36) by line 50 to obtain the percentage reduction for the first 36 months.	
53	Multiply line 49 by line 51 to obtain the percentage reduction for months in excess of 36.	
54	Add lines 52 and 53 to obtain the total percentage reduction.	
55	Multiply line 44 by line 54 to obtain the amount of benefit reduction.	
56	Subtract line 55 from line 44 and round to next lower dollar to obtain your monthly benefit.	

Worksheet 1: Indexing of earnings

Year	Your earnings	Maximum taxable earnings (dollars)	Lower of columns 2 or 3	Indexing factor	Column 4 times column 5	Highest indexed earnings
1	2	3	4	5	6	7
1951		3,600				
1952		3,600				
1953		3,600				
1954		3,600				
1955		4,200

2001	561	3,381	2.6	1.026		
2002	592	3,567	1.4	1.014		
2003	606	3,653		

a. The December 1999 cost-of-living adjustment (COLA) was originally determined to be 2.4 percent, based on the consumer price index (CPI). The underlying CPI was later recomputed by the Bureau of Labor Statistics; a 2.5 percent COLA would have been consistent with the recomputed CPI. Pursuant to P.L. 106-554, benefits were calculated and paid in August 2001 and later as if the December 1999 COLA had been 2.5 percent. Affected beneficiaries received a one-time payment to cover the shortfall that occurred before August 2001.

NOTE: ... = not applicable.

Curt Pauzenga (410) 965-7210.

Glossary

actuarial reduction (OASDI). Reduction in monthly benefit amount payable on—

1. Entitlement prior to full retirement age if the beneficiary is a retired worker, a wife or husband of a retired or disabled worker (with entitlement not based on caring for a child beneficiary), divorced spouse, a widow(er), or a surviving divorced spouse; or
2. Entitlement, in case of disability, at ages 50–59 if the beneficiary is a widow(er), or surviving divorced spouse. (For formulas used to compute the reduction, see "Benefit Types and Levels" in the section Social Security (Old-Age, Survivors, and Disability Insurance).)

administrative law judge—ALJ. An official of the Social Security

Administration's (SSA's) Office of Hearings and Appeals who is specially qualified by education and experience to hold hearings and make independent decisions regarding eligibility for SSA programs based on all the evidence and testimony. ALJs conduct impartial hearings and issue decisions to individuals who have appealed previous determinations by SSA. See also **administrative review process**.

administrative review process (OASDI and SSI). The procedures followed by the Social Security Administration (SSA) in determining one's right under Title II and Title XVI of the Social Security Act. The administrative review process consists of several steps, which must usually be requested within certain time periods, in the following order: initial determination, reconsideration, decision of the administrative law judge, and a review by SSA's Appeals Council.

1. *Initial determination.* A determination SSA makes about an individual's entitlement to benefits or about any other matter that gives that person a right to further administrative and/or judicial review.
2. *Reconsideration.* The first step in the administrative review process. When an individual disagrees with the initial determination, the individual may, within 60 days of receiving notice of the initial determination, ask SSA to reconsider the decision.
3. *Hearing before an administrative law judge (ALJ).* When an individual disagrees with the reconsidered determination, he or she may, within 60 days of receiving notice of the determination, request a hearing before an ALJ.
4. *Appeals Council review.* When an individual disagrees with the decision or dismissal of the ALJ, he or she may, within 60 days of receiving the hearing decision, request that the Appeals Council review that decision. The Appeals Council, within the Office of Hearings and Appeals, may deny or dismiss the request for review, or grant the request and either issue a decision or remand (return) the case to an ALJ. The Appeals Council may also review any ALJ action on its own motion within 60 days after the ALJ's action. The Appeals Council's decision or the hearing decision if the Council denies the request for review, represents SSA's final decision in the administrative review process. See **expedited appeals process** and **federal court review**.

adult (SSI). A person older than age 21, aged 18–21 who is not regularly attending school, or a person under 21 who is married or the head of a household.

age (OASDI). In tables showing beneficiaries in current-payment status, the age classification is based on the age of the person at his or her last birthday. In tables showing awards data, age is the beneficiary's age in the month of award or age in year of the award, as specified.

aged beneficiary (OASDI). A person who qualifies for benefits on the basis of age rather than on the basis of caring for a child or disability.

aged enrollee (Medicare). An individual, aged 65 or older, who is enrolled in the Medicare program.

aged person (SSI). A person aged 65 or older.

allowance (DI). A determination that a worker is entitled to a cash disability benefit award or to the establishment of a period of disability because of an inability to work by reason of any physical or mental impairment.

allowed charge (Medicare). An individual charge determined (approved amount) by a carrier for a covered medical service or supply.

annual maximum taxable limit (OASDI and HI). The dollar amount above which earnings in Social Security covered employment is neither taxable nor creditable for benefit computation purposes. (Also referred to as "contribution and benefit base," "annual creditable maximum," "maximum contribution and benefit base," "taxable maximum," and "maximum taxable.") Under the Hospital Insurance program, there is no upper limit on earnings subject to taxes. See Table 2.A3.

assigned claim (Medicare). A claim for which the physician or supplier agrees to accept the amount approved by Medicare as the total payment. The physician or supplier is paid 80 percent of the approved fee schedule (less any unmet deductible). The beneficiary can be charged only for the coinsurance, the remaining 20 percent of the approved amount. A participating physician or supplier agrees to accept assignment on all claims.

auxiliary benefit (OASDI). Monthly benefit payable to a spouse or child of a retired or disabled worker, or to a survivor of a deceased worker.

average. See **mean**.

average indexed monthly earnings—AIME (OASDI). The resulting average monthly earnings of a worker after indexing of actual earnings to reflect the value of the individual's previous earnings relative to national average earnings in the indexing year. A formula is then applied to this figure to compute the primary insurance amount (PIA) for most workers who attain age 62, become disabled, or die after 1978. The indexing year is the second year before the year in which the worker attains age 62, becomes disabled, or dies. Taxable earnings after the indexing year are included at their actual value. For widow(er)'s first eligible after December 1984, the indexing year applicable to the deceased worker's earnings may alternatively be the second year before the widow(er)'s date of eligibility for survivors benefits if it results in a higher benefit.

Earnings are indexed by multiplying the worker's taxable earnings for each year after 1950 through the indexing year by the average wages of all workers for the indexing year, and dividing by the average wages of all workers for the year being indexed. Once the earnings have been indexed, the AIME is computed by—

1. Determining the number of computation years—the number of years after 1950 (or the year of attainment of age 21, if later) and up to the year in which the worker attains age 62, becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2);
2. Selecting the actual computation years, based on highest indexed earnings from any years after 1950; and
3. Dividing the sum of indexed earnings in the computation years by the total number of months in the computation years.

For workers entitled to disability benefits after June 1980, the number of dropout years varies by the age attained in year of disability onset. The number is 0, 1, 2, 3, 4, and 5 for workers aged 26 or younger, 27–31, 32–36, 37–41, 42–46, and 47 or older, respectively. Effective for months after June 1981, however, disabled workers under age 37 may obtain up to 3 additional dropout years (3, 2, and 1, respectively, for those aged 26 or younger, 27–31, and 32–36) for which the worker had no earnings and was living with a child (of the worker or his or her spouse) under age 3.

average monthly wage—AMW (OASDI). The amount of earnings used as the basis for determining the primary insurance amount (PIA) for workers who attained age 62, became disabled, or died before 1979, and also under a transitional guarantee computation for workers who attained age 62 in 1979–1983 or survivors of such workers, if the resulting PIA is higher than under the AIME method. The AMW is computed by—

1. Determining the number of computation years—the number of years after 1950 (or the year of attainment of age 21, if later) and up to the year in which the worker attains age 62 (age 65 for men born before January 2, 1911, and the later of age 62 or the year 1975 for men born after January 1, 1911), becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2);
2. Selecting the actual computation years, based on highest earnings (up to the amount of the annual maximum taxable earnings in each year), from any years after 1950; and
3. Dividing the sum of earnings in the computation years by the total number of months in the computation years.

See the last paragraph under AIME for special dropout rules for disabled workers.

An alternative computation method takes into account the worker's earnings after 1936, if it yields a higher PIA.

award (OASDI). A determination that an individual is entitled to a specified type of benefit. An award action is processed adding the individual to the Social Security benefit rolls maintained for that type of benefit and is counted as an award in a particular month. Award actions are processed not only for new

beneficiaries but also for persons already on the rolls whose benefits in one category are terminated but who become entitled to another type of benefit. These actions are called conversions. When a disabled worker attains the full retirement age, the worker benefit and the benefits of spouses and children are converted to the retirement category. Upon the death of a disabled worker, benefits for children are converted to the survivor child category and benefits for spouses caring for these children are converted to widowed mothers and fathers benefits. Benefits for spouses of retired and disabled workers entitled because of age are converted to nondisabled widows and widowers benefits upon the death of the worker. The above conversions are counted in the award data. The benefits for children of retired workers that are converted to benefits for children of deceased workers upon the death of the worker are not counted in the award data.

base years (OASDI). For computing Social Security benefits, the years after 1950 up to the year a person is entitled to retirement or disability benefits. For a survivor's claim, the base years include the year of the worker's death.

bend points (OASDI). The dollar amounts defining the AIME (average indexed monthly earnings) or PIA (primary insurance amount) brackets in the benefit formulas. See Tables 2.A11 and 2.A13.

beneficiary (OASDI). A person who has been awarded benefits on the basis of his or her own or another's earnings record. The benefits may be either in current-payment status or withheld.

benefit period (Medicare). An alternate name for "spell of illness."

benefit reduction (OASDI). See **actuarial reduction**.

benefit termination (OASDI). See **termination**.

benefits in force (OASDI). The sum of the number of persons with benefits in current-payment status and persons with benefits withheld.

benefits withheld (OASDI). See **withholding**.

blind (OASDI and SSI). "Blindness" for Social Security purposes means either central visual acuity of 20/200 or less in the better eye with the use of a correcting lens, or a limitation in the fields of vision so that the widest diameter of the visual field subtends an angle of 20 degrees or less (tunnel vision).

Black Lung Benefits Program. Provides for monthly payments and medical treatment to coal miners totally disabled from pneumoconiosis (black lung disease) arising from employment in or around the nation's coal mines, augmented payments based on the number of miner's dependents, and payments to certain survivors of miners who died due to or while totally disabled from pneumoconiosis.

buy-in (Medicare). A Medicare beneficiary who is also eligible for Medicaid and for whom Part B (Supplementary Medical Insurance) premiums are paid by a state Medicaid program.

capitation (Medicare). A prospective payment method that pays the provider of service a uniform amount for each person served usually on a monthly basis. Capitation is used in managed care alternatives such as Health Maintenance Organizations.

carrier (Medicare). An entity that the Centers for Medicare & Medicaid Services contracts to process physician/other supplier claims and make payments for Part B (Supplementary Medical Insurance) services.

child (SSI). An unmarried blind or disabled person who is not the head of a household and who is either under age 18 or aged 18–21 and regularly attending school.

childhood disability benefit (OASDI). See **disabled child's benefit**.

child's benefit (OASDI). Monthly benefits payable to children of a retired or disabled worker or of a deceased worker who died either fully or currently insured. Benefits are payable to unmarried children under age 18 (up to age 19 if a full-time student attending elementary or secondary school) and to disabled children aged 18 or older who became disabled before age 22. Under certain circumstances, benefits can be paid to stepchildren, grandchildren, or adopted children. Benefits for disabled children may continue if they marry certain other Social Security beneficiaries.

claimant (OASDI and SSI). The person on whose behalf an application for benefits is filed.

coinsurance (Medicare). See **cost sharing**.

computation starting date (OASDI). December 31 of either 1936 or 1950. Taxable earnings after the applicable starting date are counted in computing average monthly earnings (only starting date of December 31, 1950 is applicable in computing average indexed monthly earnings).

consumer price index—CPI. A relative measure of inflation computed by the U.S. Department of Labor. The CPI charts the rise in costs for selected goods and services and is used to compute cost-of-living increases. In this report, all references to the CPI relate to the CPI for Urban Wage Earners and Clerical Workers (CPI-W).

continuing disability review (DI and SSI). A periodic review to determine if a disabled individual is still medically eligible to receive benefits.

contributions (OASDI and Medicare). The amount based on a percentage of earnings, up to an annual maximum, that must be paid by—

1. Employers and employees on wages from employment under FICA (Federal Insurance Contributions Act),
2. The self-employed on net earnings from self-employment under SECA (Self-Employment Contributions Act), and

-
3. States on the wages of state and local government employees covered under the Social Security Act through voluntary agreements under section 218 of the Act.

Generally, employers withhold contributions from wages, add an equal amount of contributions, and pay both on a current basis. Also referred to as "taxes." See Table 2.A3.

conversion of benefits (OASDI). See **awards (OASDI)**.

cost-of-living adjustment—COLA. Social Security benefits and Supplemental Security Income payments are increased each year to keep pace with increases in the cost of living (inflation). The consumer price index is used to compute COLA increases.

cost sharing (Medicare). The generic term that includes copayments, coinsurance, and deductibles.

Copayments—Flat fees, typically modest, that insured persons must pay for a particular unit of services, such as an office visit, emergency room visit, or the filing of a prescription.

Coinsurance—Portion of the costs paid by the beneficiary after meeting the annual deductible.

Deductibles—The annual amount payable by the beneficiary for covered services before Medicare makes reimbursement.

couple (SSI). See **eligible couple**.

covered earnings (OASDI). Earnings in employment covered by the OASDI programs.

covered employment (OASDI). All employment and self-employment creditable for Social Security purposes.

covered worker (OASDI). A person who has earnings creditable for Social Security purposes on the basis of services for wages in covered employment or on the basis of income from self-employment.

current-payment status (OASDI). Status of a beneficiary who is paid a benefit for a given month, with or without deductions, provided the deductions add to less than a full month's benefit. The amount shown is prior to deduction for the Medicare Part B (Supplementary Medical Insurance) premium. A benefit in current-payment status at the end of a month is usually payable in the following month.

deductible (Medicare). The amount paid by enrollees for covered services before Medicare makes reimbursements.

Hospital Insurance—Deductible applies to each new benefit period. It is determined each year by a formula specified by law, and approximates the current cost of a 1-day inpatient hospital stay.

Supplementary Medical Insurance—Deductible is the first \$100 of covered charges per calendar year.

deeming (SSI). Takes into account the income and resources of certain persons who live with an SSI recipient when determining the amount of the payment. These persons include the ineligible spouses of adult recipients, the ineligible parents of child recipients under age 18, and the immigration sponsor for certain noncitizens.

delayed retirement credit (OASDI). A credit that increases the benefit amount for certain individuals who did not receive benefits for months after attainment of the full retirement age but before age 70. Delayed retirement credit increases apply for benefits beginning January of the year following the year the individual attains full retirement age.

Each monthly credit serves as a basis for increasing the monthly benefit (unless the benefit is based on a special minimum primary insurance amount) by specified percentages that depend on the year the worker attains age 62. The monthly credit was 1/12 of 1 percent for workers who attained age 62 before 1979 and 1/4 of 1 percent for workers who attained age 62 from 1979 through 1986. The corresponding monthly credits for workers who attain age 62 after 1986 are shown in Table 2.A20. The increase is applicable to the worker's monthly benefit amount but not to his or her PIA, therefore, auxiliary benefits are generally not affected. However, a widow(er)'s benefit may be increased based on the credit that had been applied to the benefit of the deceased worker or for which the worker was eligible at the time of death.

dependents benefit (OASDI). Monthly benefit payable to a spouse or child of a retired or disabled worker.

diagnosis-related groups (Medicare). A classification system that groups patients according to diagnosis, type of treatment, age, and other relevant criteria. Under the prospective payment system, hospitals are paid a set fee for treatment of patients in a single diagnosis-related groups (DRG) category, regardless of the actual cost of care for the individual.

diagnostic group (OASDI and SSI). Classification of medical conditions, by body system, and identifies the medical condition(s) on which disability-related benefits are based. Prior to 1985, the coding of the primary and secondary diagnoses for OASDI and SSI claimants was in accordance with the *International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM)*, using 4-digit ICD-9 codes. In 1985, the Social Security Administration implemented a revised method to determine and enter impairment codes on administrative records. This revised approach provides for a modified impairment coding system, using three digits (followed by zero), loosely based on ICD-9. For research purposes, ICD-9 codes and SSA impairment codes are, typically, not identical. However, the diagnostic groupings shown in the statistical tables closely parallel the major ICD-9 disease classifications.

direct deposit (OASDI and SSI). A method of payment whereby beneficiaries have their monthly benefits sent electronically to financial institutions they designate. Also referred to as electronic funds transfer (EFT).

disability (DI). The inability to engage in substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months. Special rules apply for workers aged 55 or older whose disability is based on blindness.

The law generally requires that a person be disabled continuously for 5 full months before he or she can qualify for a disabled-worker benefit.

disability (SSI). The inability to engage in substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months. This 12-month requirement does not apply to the blind.

The SGA criterion does not apply to children under age 18. The standard for them is a medically determinable physical or mental impairment which results in marked and severe functional limitations.

disabled child's benefit (OASDI). A monthly benefit payable to a disabled person aged 18 or older—a son, daughter, or eligible grandchild of retired, deceased, or disabled worker—whose disability began before age 22. (Also referred to as "disabled adult child.")

disabled enrollee (Medicare). A person under age 65 who has been entitled to disability benefits under Title II of the Social Security Act or Railroad Retirement system for at least 2 years.

disabled surviving divorced husband's benefit (OASDI). See **widow(er)'s benefit**.

disabled surviving divorced wife's benefit (OASDI). See **widow(er)'s benefit**.

disabled widow(er)'s benefit (OASDI). See **widow(er)'s benefit**.

disabled-worker benefit (DI). A monthly benefit payable to a disabled worker under full retirement age insured for disability. Before November 1960, disability benefits were limited to disabled workers aged 50–64.

divorced husband's benefit (OASDI). See **husband's benefit**.

divorced wife's benefit (OASDI). See **wife's benefit**.

drug addiction and alcoholism (OASDI and SSI). Legislation enacted in 1996 eliminated drug addiction and alcoholism (DA&A) as a basis for entitlement to Social Security and SSI disability benefits, effective January 1, 1997. Individuals for whom drugs and/or alcohol is deemed a contributing factor material to the determination of disability cannot be entitled to disability benefits.

dual entitlement (OASDI). Entitlement to a worker (primary) benefit and a higher secondary, usually a spouses or widow(er)'s benefit. The primary benefit is paid in full but the secondary benefit is paid only in the amount by which it exceeds the primary benefit. If the two benefits are financed from the same

trust fund, the beneficiary is usually represented only once in the statistics, as a retired-worker or a disabled-worker beneficiary, and the benefit amount recorded is the larger amount associated with the auxiliary benefit. If the benefits are paid from different trust funds the beneficiary is represented twice, and the respective benefit amounts are recorded for each type of benefit.

durable medical equipment (Medicare). Includes certain medical supplies and such items as hospital beds and wheel chairs used in a patient's home.

early retirement (OASDI). Retirement prior to the full retirement age.

earnings (OASDI and Medicare). All wages from employment and net earnings from self-employment, whether or not taxable or covered.

earnings test (OASDI). The provision requiring the withholding of benefits if nondisabled beneficiaries under full retirement age have earnings in excess of certain exempt amounts. See Table 2.A29.

eligible couple (SSI). Two persons living together as married, both of whom are eligible for SSI.

eligible individual (SSI). An aged, blind, or disabled person eligible for SSI.

eligible worker (OASDI). For retirement benefits, an individual who meets the insured status and age requirements for benefits whether or not he or she has filed an application; for Disability Insurance benefits, an individual who meets the insured status requirements and has established a period of disability.

emergency advance payments (SSI). Payments available at initial application for individuals who need cash assistance before their first Supplemental Security Income payment arrives. This advance is withheld from the first check.

end stage renal disease (Medicare). Permanent kidney failure.

entitlement (OASDI). The state of meeting the applicable requirements for receipt of benefits, including the filing of an application. Entitlement can be retroactive and thus precede the date of award. The retroactive period can be 12 months for disabled workers, their spouses and children, and disabled widow(er)s. The maximum retroactive period for other types of benefits is 6 months. Retroactive benefits for months before full retirement age are not payable to a retired worker, a spouse or a widow(er) if a permanent reduction of the monthly benefit amount would result. However, persons filing for a widow(er)'s benefit in the month immediately following the month of the worker's death may elect a 1-month retroactivity, even if reduced benefits would result. A person can be entitled to more than one benefit simultaneously. See **dual entitlement**.

expedited appeals process (OASDI and SSI). This permits an individual to go directly to a federal district court after review of the initial determination without first completing the administrative review process, if the only dispute is

whether an applicable provision of the Social Security Act is constitutional. See **administrative review process**.

family benefit (OASDI). The sum of the individual monthly benefits payable to all the beneficiaries entitled on the basis of a single earnings record. See **maximum family benefit**.

family classification (OASDI). As used in statistical tables, the number and types of beneficiaries entitled to benefits on a single earnings record. Since the family classification is determined by the types of beneficiaries entitled, it can differ from actual family status. For example, a married couple is classified as a worker-and-spouse family if both persons are entitled on the earnings record of one of them. If both persons were entitled on their own earnings record they would be designated as two worker-only families.

father's benefit (OASDI). A monthly benefit payable to a widower or surviving divorced father if (1) the deceased worker on whose account the benefit is paid was either fully or currently insured at the time of death and (2) an entitled child of the worker in his care is under age 16 or is disabled.

federal benefit rates (SSI). The basic benefit standards used in computing the amount of federal SSI payments. Benefit levels differ for individuals and couples living in households and for persons in Medicaid institutions. Individuals or couples living in their own households receive the full federal benefit. The federal benefit is reduced by one-third, if an individual or couple is living in another person's household and receiving support and maintenance there. The federal benefit rates are increased annually to reflect increases in the cost of living.

federal court review (OASDI and SSI). When an individual disagrees with SSA's final decision he or she may request judicial review by filing a civil action in a federal district court. See **administrative review process**.

federally administered payments (SSI). Federal SSI payments and state supplementation payments issued by the Social Security Administration on behalf of the states.

federally administered state supplementation (SSI). Cash payments provided by a state and issued by the Social Security Administration, which is also responsible for the maintenance of payment records. See **state supplementation**.

Food Stamp Program. The program issues monthly allotments of coupons that are redeemable at retail food stores, or provides benefits through electronic benefit transfer to help individuals and families with little or no income to buy food.

full retirement age—FRA (OASI). The age at which a person may first become entitled to unreduced retirement benefits. For persons attaining age 62 before 2000, the full retirement age is 65. Beginning with an increase to 65 years and 2 months for persons reaching age 65 in 2003, FRA is increasing gradually to 67 for persons reaching that age in 2027 or later. The higher full retirement

age affects the benefit amount if a person chooses to receive reduced benefits. See Table 2.A17.1.

government pension offset (OASDI). A law that affects spouse's or widow(er)'s benefits. Benefits are subject to reduction by any government pensions payable to the spouse on the basis of his or her own earnings in noncovered employment. The offset reduces the Social Security benefit amount by two-thirds of the amount of the government pension.

gross domestic product—GDP. The total dollar value of all goods and services produced by labor and property located in the United States, regardless who supplies the labor or property.

health maintenance organization—HMO (Medicare). Competitive medical plans, including Medicare+Choice, that have contracts with the Centers for Medicare & Medicaid Services on a prospective capitation basis for providing health care to Medicare beneficiaries.

home health agency (Medicare and Medicaid). A public or private organization that provides skilled nursing services and other therapeutic services in the patient's home and that meets certain conditions to ensure the health and safety of the individual.

home health services (Medicare and Medicaid). Items furnished in a patient's home under the care of physicians. These services are furnished under a plan established and periodically reviewed by a physician. They include part-time or intermittent skilled nursing care; physical, occupational, or speech therapy; medical social services; medical supplies and appliances (other than drugs and biologicals); home health aid services; and services of interns and residents.

hospice (Medicare and Medicaid). A public agency or private organization that is primarily engaged in providing pain relief, symptom management, and supportive services to patients that are certified to be terminally ill. Medicare beneficiaries may elect to receive hospice care instead of standard Medicare benefits for terminal illnesses.

household (LIHEAP). Any individual or group of individuals who are living together as one economic unit and for whom residential energy is customarily purchased in common, or who make designated payments for energy in the form of rent.

husband's benefit (OASDI). Monthly benefit payable to a husband or a divorced husband (aged 62 or older) of a retired or disabled worker. See **spouse's benefit**.

independent laboratory services (Medicare). Diagnostic laboratory tests ordered by a physician and performed in a laboratory independent of a physician's office or a hospital.

inpatient hospital services (Medicare). Items and services furnished to an inpatient of a hospital by the hospital, including room and board, nursing and

related services, diagnostic and therapeutic services, and medical or surgical services.

institutionalization (Medicaid and SSI). Living arrangements for persons in public or private institutions when more than 50 percent of the cost of their care is met by the Medicaid program.

insured status (OASDI). The state of having sufficient quarters of coverage to meet the eligibility requirements for retired-worker or disabled-worker benefits or to permit the worker's spouse and children or survivors to establish eligibility for benefits in the event of his or her disability, retirement, or death. (For qualifications for insured status, see "Insured Status" in the section Social Security (Old-Age, Survivors, and Disability Insurance.))

interim assistance (SSI). Payments made by a state or local government to Supplemental Security Income applicants while their claims are being adjudicated. Repayment is made from the first SSI payment.

intermediary (Medicare). An organization, selected by providers of health care, that has an agreement with the Centers for Medicare & Medicaid Services to process and pay institutional claims and perform other functions under the program.

life expectancy. The average number of years of life remaining at each tabulated birthday. See **life table (period)**.

life table (period). A period life table represents the mortality experience of an entire population during a relatively short period of time, usually 1–3 years. Such tables are useful for analyzing changes in the mortality experienced by a population through time. The table refers to a cohort of 100,000 people with the same birthday who experience the rate of mortality, or probability of death within 1 year, shown in the table, throughout their lives.

lifetime reserve (Medicare). Nonrenewable 60 days of inpatient hospital care to draw on if the 90 covered days per benefit period are exhausted. Patients are required to pay a daily coinsurance amount equal to one-half of the inpatient hospital deductible for each lifetime reserve day.

limitation of widow(er)'s benefit (OASDI). The reduction of the widow(er)'s benefit due to the early retirement of the deceased spouse. The benefit for a nondisabled widow(er) is limited to the larger of 82 1/2 percent of the deceased spouse's primary insurance amount, or the amount to which the deceased spouse would have been entitled if he or she were still alive. Thus, receipt of benefits by a worker before the full retirement age will result in a reduction of benefits for a widow(er), even if the widow(er) became entitled after his or her own full retirement age. Tables showing data on reduction for early retirement for nondisabled widow(er)s do not include those with limited benefits unless they became entitled before their own full retirement age. See **widow(er)'s benefit**.

Low-Income Home Energy Assistance Program—LIHEAP. Federal program to assist low-income households with heating and cooling costs.

low-income households (LIHEAP). Households with income under the greater of 150 percent of the poverty guideline for their state or 60 percent of the state median income, or households with members receiving Temporary Assistance for Needy Families, Supplemental Security Income, Food Stamps, or certain needs-tested veterans' benefits.

lump-sum death benefit (OASDI). A one-time payment, generally \$255, payable on the death of a fully or currently insured worker. The lump sum is payable to the surviving spouse of the worker, under most circumstances, or if there is no spouse, to the worker's entitled children.

managed care (Medicare). Includes health maintenance organizations (HMOs), competitive medical plans (CMPs), and other plans that provide health services on a prepayment basis which is either based on cost or risk depending on the type of contract they have with Medicare. See also **Medicare+Choice**.

mandatory minimum state supplementation (SSI). Required by federal law for individuals converted to the Supplemental Security Income program from state assistance programs for the aged, blind, or disabled. This provision insures that monthly income will not be less than the amount received under the former state programs.

maximum family benefit (OASDI). The maximum monthly amount that can be paid on a worker's earnings record. Whenever the total of the individual monthly benefits payable to all the beneficiaries entitled on one earnings record exceeds the maximum, each dependents or survivors benefit is proportionately reduced to bring the total within the maximum. Benefits payable to divorced spouses or surviving divorced spouses are not reduced under the family maximum provision. Tables 2.A13, 2.A14, and 2.A17 give the formulas for computing the maximum family benefit.

maximum taxable (OASDI and Medicare). See **annual maximum taxable limit**.

mean. The arithmetic mean is calculated by dividing the sum of all of the values of a variable by the number of cases. The term "average" used in this publication refers to the arithmetic mean. See also **median**.

median. The median is a measure of central value which identifies that value that divides a distribution in half such that an equal number of cases fall below it as there are above it. See also **mean**.

Medicaid. A federal-state program that provides medical assistance for certain individuals and families with low incomes and limited resources.

medical savings account (Medicare). A plan that provides benefits after a single high deductible is met. Medicare makes an annual deposit to the medical savings account (MSA) and the beneficiary is expected to use that

money to pay for medical expenses below the annual deductible. MSAs are currently a test program.

medically needy (Medicaid). Persons who would be eligible for Medicaid under one of the program's mandatory or optional groups, except that their income or resources are above the eligibility level set by their state. The states may extend eligibility to these otherwise qualified persons by allowing them to "spend down" to Medicaid eligibility by incurring medical or remedial care expenses to offset their excess income, thereby reducing it to a level below the maximum allowed by that state's Medicaid plan.

Medicare. A federally administered health insurance program that covers the cost of hospitalization, medical care, and some related services for most persons aged 65 or older. Also covers persons receiving Social Security Disability Insurance payments for 2 years, and persons with end stage renal disease. Medicare consists of two separate but coordinated programs—Part A (Hospital Insurance) and Part B (Supplementary Medical Insurance).

Medicare+Choice. An expanded set of options for the delivery of health care under Medicare established by the Balanced Budget Act of 1997. Most Medicare beneficiaries can choose to receive benefits through the original fee-for-service program or through one of the following Medicare+Choice plans: (1) coordinated care plans (such as health maintenance organizations, provider sponsored organizations, and preferred provider organizations); (2) medical savings account/deductible plans (through a demonstration available to up to 390,000 beneficiaries); or (3) private fee-for-service plans.

Medicare economic index. An index that is often used in the calculation of the increases in the prevailing charge levels that help to determine allowed charges for physician services. In 1991 and later, this index is considered in connection with the update factor for the physician fee schedule.

Medigap (Medicare). A term used for private health insurance that pays, within limits, most of the health care service charges not covered by Part A (Hospital Insurance) or Part B (Supplementary Medical Insurance).

military wage credits (OASDI and Medicare). Credits recognizing that military personnel receive wages in kind (such as food and shelter) in addition to their basic pay and other cash payments. Noncontributory wage credits of \$160 are provided for each month of active military service from September 16, 1940, through December 31, 1956. For years after 1956, the basic pay of military personnel is covered under the Social Security program on a contributory basis. See Table 2.A2 for amounts of noncontributory wage credits for 1957–2001. Noncontributory wage credits were eliminated for all years after 2001.

minimum benefit (OASDI). The lowest benefit (before actuarial reduction) payable to a retired worker, a disabled worker, or a sole survivor of a deceased worker. The minimum benefit was eliminated for most workers who attain age 62, become disabled, or die after 1981.

monthly benefit (OASDI). The amount payable after reduction, if necessary, for age, family maximum, and other reasons but before any deduction for

supplementary medical insurance (SMI) premiums. Effective June 1982, the final benefit payment is rounded to the next lowest \$1 (if not already a multiple of \$1) after reduction for age, family maximum, and other reasons and after any deduction for SMI premiums. The tables in this publication reflect the monthly benefit credited (MBC) which is calculated as follows:

1. Subtract the SMI premium from the monthly benefit amount;
2. Round the above result down to the nearest whole dollar; and
3. Add back the SMI premium to the rounded result from 2 above.

For example, if a monthly benefit amount is \$895.00, and an SMI premium of \$58.70 is deducted, the MBC is \$894.70 (calculated as follows: $\$895.00 - \$58.70 = \$836.30$ rounded down to $\$836.00 + \$58.70 = \$894.70$).

mother's benefit (OASDI). A monthly benefit payable to a widow or surviving divorced mother if (1) the deceased worker on whose account the benefit is paid was either fully or currently insured at the time of his death and (2) the entitled child of the worker is in her care and is under age 16 or disabled.

nondisabled widow(er)'s benefit (OASDI). See **widow(er)'s benefit**.

nonpayment status (OASDI). See **withholding**.

normal retirement age (OASI). See **full retirement age**.

old-age benefit (OASI). See **retired-worker benefit**.

Old-Age, Survivors, and Disability Insurance—OASDI. The Social Security programs that pay monthly cash benefits to:

1. Retired worker (old-age) beneficiaries and their spouses and children and to survivors of deceased insured workers (OASI), and
2. Disabled-worker beneficiaries and their spouses and children and for providing rehabilitation services to the disabled (DI).

optional state supplementation (SSI). May be provided by states to bring the combined Supplemental Security Income and state payment to an amount more nearly commensurate with their costs of living than is the SSI payment alone.

outpatient services (Medicare). Services furnished to outpatients by a participating hospital for diagnosis or treatment of an illness or injury.

own household (SSI). A definition used to determine the federal benefit rates. Applies to adults who own their living quarters, are liable for the rent, pay their pro rata shares of household expenses, are living in households composed only of recipients of public income-maintenance payments, are placed by agencies in private households, and children living in their parent's household. See **federal benefit rates**.

parent's benefit (OASDI). Monthly benefit payable to a dependent parent aged 62 or older of a deceased fully insured worker.

payment status (OASDI). The state or condition of a benefit with respect to actual receipt by the beneficiary—that is, whether the benefit is in current-payment status or withheld.

peer review organization (Medicare). A group of practicing physicians and other health care professionals, paid by the federal government, to review the care given to Medicare patients.

physician services (Medicare). Services provided by an individual licensed under state law to practice medicine or osteopathy. Services provided by hospitals are not covered by this provision.

preferred provider organization (Medicare). An arrangement between a provider network and a health insurance or a self-insured employer. Providers generally accept payments less than traditional fee for service payments in return for a potentially greater share of the patient market. Preferred provider organization enrollees are not required to use the preferred providers, but are given financial incentives to do so, such as reduced coinsurance and deductibles. Providers do not accept financial risk for the management of care.

presumptive disability or blindness (SSI). For certain diagnoses, where there is high probability of a favorable medical determination of disability or blindness, payments may be made for up to 6 months before the formal determination if the applicant meets the other eligibility qualifications.

primary insurance amount—PIA (OASDI). The primary insurance amount is related to a worker's average monthly wage or average indexed monthly earnings. The PIA is used to compute all types of benefits payable on the basis of an individual's earnings record. Retired workers electing benefits at the full retirement age and disabled workers who did not receive a retirement benefit reduced for age receive a benefit equal to the PIA. Dependents and survivors of workers receive specified percentages of the PIA subject to the family maximum and entitlement before the full retirement age.

primary insurance amount formula (OASDI). The mathematical formula relating the primary insurance amount (PIA) to the AIME (average indexed monthly earnings) for workers who attain age 62, become disabled, or die after 1978. The PIA is equal to the sum of 90 percent of AIME up to the first bend point, plus 32 percent of AIME above the first bend point up to the second bend point, plus 15 percent of AIME in excess of the second bend point. Automatic benefit increases are applied beginning with the year of eligibility.

prospective payment system (Medicare). A method of reimbursement for hospitals that was implemented effective with hospital cost reporting periods beginning on or after October 1, 1983. Under this system, Medicare payment is made at a predetermined, specific rate for each discharge. All discharges are classified according to a list of diagnosis-related groups.

Prouty benefit (OASI). See **special age-72 benefit**.

provider (Medicare and Medicaid). *Medicare*—A provider is a facility, supplier, or physician who furnishes medical services. *Medicaid*—A provider is a person, group, or agency who provides covered services to enrollees.

Qualified Medicare Beneficiaries (Medicare and Medicaid). Qualified Medicare Beneficiaries are persons with incomes at or below 100 percent of the federal poverty level and resources at or below 200 percent of the Supplemental Security Income limit. Medicaid pays the Medicare (Parts A and B) premiums and the coinsurance and deductibles, subject to limits that states may impose on payment rates.

quarters of coverage (OASDI and Medicare). The crediting of coverage needed for insured status. A worker receives 1 quarter of coverage (up to a total of 4) for a designated amount of annual earnings reported from employment or self-employment. This dollar amount is subject to annual automatic increases in proportion to increases in average earnings. For amounts in years 1939 to present, see Table 2.A7. No more than 4 quarters of coverage may be credited for any calendar year, and no quarter of coverage is credited after the quarter in which death occurred or for a quarter entirely included in a period of disability.

Railroad Retirement. A federal insurance program designed for workers in the railroad industry. The provisions of the Railroad Retirement Act provide for a system of coordination and financial interchange between the Railroad Retirement program and the Social Security program.

reasonable cost (Medicare). Intermediaries and carriers use the Centers for Medicare & Medicaid Services guidelines to determine reasonable costs incurred by providers in furnishing covered services to enrollees. Reasonable cost is based on the actual cost of providing such services, including direct and indirect costs of providers and excluding any costs that are unnecessary in the efficient delivery of services covered by the Hospital Insurance program.

redetermination (SSI). The periodic review of eligibility for each Supplemental Security Income recipient to ensure that eligibility continues and that payments are in the proper amount.

reduction for early retirement (OASDI). See **actuarial reduction**.

representative payee (OASDI and SSI). A person designated by the Social Security Administration to receive monthly benefits on behalf of a beneficiary when such action appears to be in the beneficiary's best interest. A representative payee is appointed for an adult beneficiary when the beneficiary is physically or mentally incapable of managing his or her own funds. In addition, a payee is usually appointed to receive benefits on behalf of a child under age 18.

retired-worker (old-age) benefit (OASI). Monthly benefit payable to a fully insured retired worker aged 62 or older, or to a person entitled under the transitionally insured status provision in the law. Retired-worker benefit data do not include special age-72 benefits, unless indicated.

retirement age (OASI). The age at which an individual establishes entitlement to retirement benefits. See **full retirement age**.

retirement earnings test (OASDI). See **earnings test**.

secondary benefit (OASDI). Monthly benefit payable to a spouse or child of a retired or disabled worker, or to a survivor of a deceased worker.

Section 1619(a) (SSI). See **special cash payments**.

Section 1619(b) (SSI). See **special recipient status**.

self-employed (OASDI and HI). One who derives income from the operation of a partnership or nonincorporated trade or business.

skilled nursing facility (Medicare). An institution that has a transfer agreement with one or more participating hospitals, is primarily engaged in providing skilled nursing care and rehabilitative services to inpatients, and meets specific regulatory certification requirements.

Social Security number (OASDI and HI). A nine-digit number used to identify the record of earnings an individual has in employment or self-employment covered by Social Security and Medicare.

Social Security Act. Public Law 74-271, enacted August 14, 1935, with subsequent amendments. The Social Security Act consists of 20 titles, of which four have been repealed.

special age-72 benefit (OASI). Monthly benefit payable to men who attained age 72 before 1972 and to women who attained age 72 before 1970 and who do not have sufficient quarters of coverage to qualify for a retired-worker benefit under either the fully or the transitionally insured status provisions. (Also known as Prouty benefits.)

special cash payments (SSI). Continuing cash benefits for disabled individuals whose gross earned income is at the amount designated as the substantial gainful activity level. The person must continue to be disabled and meet all other eligibility rules.

special minimum PIA (OASDI). An alternative primary insurance amount (PIA) based on the worker's length (years) of covered employment. It is designed to help those who worked in covered employment for many years but had low earnings. See Table 2.A12 for computation of the special minimum PIA.

special recipient status (SSI). For Medicaid purposes, provides special status to working disabled or blind individuals when their earnings make them ineligible for cash payments.

Specified Low-Income Medicare Beneficiaries (Medicare and Medicaid). Persons who meet all Qualified Medicare Beneficiary requirements except that their incomes are slightly higher, though less than 120 percent of the

federal poverty level. Medicaid pays their Part B (Supplementary Medical Insurance) premium.

spell of illness (Medicare). A period of consecutive days beginning with the first day on which a beneficiary is furnished inpatient hospital or extended care services and ending with the close of the first period of 60 consecutive days thereafter in which the beneficiary is in neither a hospital or skilled nursing facility.

spouse's benefit (OASDI). Monthly benefit payable to a spouse or a divorced spouse of a retired or disabled worker under one of the following conditions:

1. The spouse is aged 62 or older or has an entitled child of the worker in his or her care who is under age 16 or is disabled; or
2. The divorced spouse is aged 62 or older and was married to the worker for 10 years before the divorce became final. Effective with benefits payable after December 1984, a divorced spouse of an eligible worker can be entitled to benefits if he or she meets the requirements for entitlement and has been divorced for at least 2 years, regardless of whether the worker has filed for benefits or has benefits withheld due to the earnings test. Effective with benefits payable beginning January 1991, the 2-year period is waived if the worker was entitled to benefits before the divorce. The earnings test will continue to apply to the divorced spouse's own earnings; or
3. Effective with benefits payable beginning January 1991, a deemed spouse (including a divorced deemed) spouse), regardless of whether the legal spouse is entitled to benefits on the same earnings record. A deemed spouse is a person who entered into an invalid ceremonial marriage in good faith.

state-administered supplementation (SSI). See **state supplementation**.

state supplementation (SSI). Payments to eligible persons made under state provisions. These payments may vary by the recipient's living situation and by geographic area within the state. The payments are federally and state administered.

student benefit (OASDI). Child's benefit payable to a full-time unmarried elementary or secondary school student aged 18–19. Student benefits end at age 19 or at the end of the current semester or quarter, whichever is later.

substantial gainful activity—SGA (DI and SSI). Remunerative work that is substantial, as determined from considering the amount of money earned, and or the number of hours worked, and the nature of the work. See Table 2.A30 for money amounts.

Supplemental Security Income—SSI. Program for the needy aged, blind, and disabled. Replaced the former federal-state programs of Old-Age Assistance, Aid to the Blind, and Aid to the Permanently and Totally Disabled.

surviving divorced father's benefit (OASI). See **father's benefit**.

surviving divorced mother's benefit (OASI). See **mother's benefit**.

surviving divorced spouse's benefit (OASI). See **widow(er)'s benefit**.

survivors benefit (OASI). Benefit payable to a survivor of a deceased insured worker.

suspended benefit (OASDI). A benefit not in current-payment status.

taxable earnings (OASDI and HI). Wages and/or self-employment income that is under the applicable annual maximum taxable limit.

taxable maximum (OASDI and HI). See **annual maximum taxable limit**.

taxable self-employment income (OASDI and HI). The maximum amount of net earnings from self-employment by an earner which, when added to any taxable wages, does not exceed the contribution and benefit base. For Hospital Insurance beginning in 1994, all net earnings from self-employment.

taxable wages (OASDI and HI). See **taxable earnings**.

taxes (OASDI and HI). See **contributions**.

technical entitlement. A technical entitlement occurs when a beneficiary is entitled to benefits on more than one earnings record but is eligible to receive benefits on only one earnings record. There are two types of technical entitlement: (1) Simultaneous technical entitlement: beneficiary is entitled to the same type of benefit on more than one earnings record; (2) Potential dual entitlement: the secondary benefit amount potentially exceeds the primary benefit, but reduction for age or family maximum causes the primary benefit to exceed the secondary benefit amount.

Temporary Assistance for Needy Families—TANF. Created by the Personal Responsibility and Work Opportunities Reconciliation Act of 1996, TANF provides assistance and work opportunities to needy families. Replaced Aid to Families with Dependent Children (AFDC), Emergency Assistance, and Job Opportunities and Basic Skills Training (JOBS) programs.

Temporary Disability Insurance—TDI. Sometimes called cash sickness benefits, TDI provides workers with partial compensation for loss of wages caused by temporary nonoccupational disability. Only five states, Puerto Rico, and the railroad industry have TDI laws.

termination (OASDI). Cessation of payment of a specific type of benefit because the beneficiary is no longer entitled to receive it. For example, benefits might terminate as a result of the death of the beneficiary, the recovery of a disabled beneficiary, or the attainment of age 18 by a child beneficiary. In some cases, the individual may become immediately entitled to another type of benefit (such as the conversion of a disabled-worker beneficiary at full retirement age to a retired-worker beneficiary).

totalization (OASDI). International agreements that coordinate the U.S. Social Security programs with the Social Security programs of other countries are called "totalization agreements."

Thrifty Food Plan (Food Stamp Program). A low-cost model diet plan based on the National Academy of Sciences' Recommended Dietary Allowances. Households are issued a monthly allotment of food stamps based on the Thrifty Food Plan.

trust fund (OASDI and Medicare). Four separate accounts in the U.S. Treasury in which are deposited the equivalent of taxes received under the Federal Insurance Contributions Act, the Self-Employment Contributions Act, contributions dealing with coverage of state and local government employees, any sums received under the financial interchange with the railroad retirement account, voluntary hospital and medical insurance premiums, and transfers of federal general revenues. Funds not withdrawn for current monthly or service benefits, the financial interchange, and administrative expenses are invested in interest-bearing federal securities, as required by law.

The interest earned is also deposited in the trust funds.

1. Old-Age and Survivors Insurance (OASI). The trust fund used for paying monthly benefits to retired-worker (old-age) beneficiaries and their spouses and children and to survivors of insured workers.
2. Disability Insurance (DI). The trust fund used for paying monthly benefits to disabled-worker beneficiaries and their spouses and children and for providing rehabilitation services to the disabled.
3. Hospital Insurance (HI). The trust fund used for paying part of the costs of inpatient hospital services and related post-hospital care for aged and disabled individuals who meet the eligibility requirements.
4. Supplementary Medical Insurance (SMI). The trust fund used for paying part of the costs of physicians' services, outpatient hospital services, and other related medical and health services for voluntarily insured aged and disabled individuals.

Unemployment Insurance. A federal-state coordinated program that provides partial income replacement to regularly employed members of the labor force who become involuntarily unemployed. All 50 states, the District of Columbia, Puerto Rico, and the Virgin Islands have unemployment insurance programs.

veterans' benefits. A variety of benefits and services to veterans and their dependents and survivors that include, but are not limited to disability compensation, benefits for survivors, health care benefits, and educational assistance and training.

widowed father's benefit (OASI). See **father's benefit**.

widowed mother's benefit (OASI). See **mother's benefit**.

widow(er)'s benefit (OASDI). Monthly benefit payable to a widow(er) or surviving divorced widow(er) of a worker fully insured at the time of death, if he

or she is (1) aged 60 or older or (2) aged 50–59 and has been disabled throughout a waiting period of 5 consecutive calendar months that began no later than 7 years after the month in which the worker died or after the end of his or her entitlement to benefits as a widowed mother or father.

A surviving divorced widow(er)'s marriage to a worker must have lasted 10 years before the divorce became final. Effective for benefits payable after December 1983, benefits are continued for disabled widow(er)s and surviving divorced widow(er)'s who remarry after the age of first eligibility for benefits.

Effective January 1991, benefits may be payable to a deemed widow(er), including a divorced deemed widow(er). A deemed widow(er) is a person who entered into an invalid ceremonial marriage in good faith.

wife's benefit (OASDI). A monthly benefit payable to a wife or divorced wife of a retired or disabled worker. See **spouse's benefit**.

windfall elimination provision—WEP (OASI and DI). A modified benefit formula for determining the primary insurance amount, which eliminates the windfall in benefits for individuals who have only minimal Social Security coverage and will receive a pension based on years of work in noncovered employment. This formula prevents a windfall to persons who unfairly benefit from provisions aimed at low-income workers. The change was phased in for workers eligible for retirement or Disability Insurance benefits and for a pension from noncovered employment beginning in 1986; became fully effective in 1990. See Table 2.A11.1

withholding (OASDI). Suspension of benefit payments until the condition(s) causing deductions are known to have ended. The suspension does not affect eligibility for Hospital Insurance benefits.

worker (OASDI). A person who has earnings creditable for Social Security purposes on the basis of services for wages in covered employment or on the basis of income from covered self-employment. Data on covered self-employment exclude self-employed persons who had no self-employment income taxable or creditable under Social Security because they had wages or salaries reaching the annual taxable maximum reported for the same year.

workers' compensation and public disability benefit offset (DI). A requirement that reduces the benefits to a disabled worker and dependents if the worker also receives workers' compensation (WC) or other public disability benefits (PDB). The reduction continues until the month the worker reaches age 65 or the month the WC/PDB payments stop, whichever comes first.

Abbreviations

AB	Aid to the Blind
ACF	Administration for Children and Families
AET	Annual earnings test
AFDC	Aid to Families with Dependent Children
AFDC-UP	Aid to Families with Dependent Children-Unemployed Parents
AIDS	Acquired immune deficiency syndrome
AIME	Average indexed monthly earnings
AMW	Average monthly wage
APTD	Aid to the Permanently and Totally Disabled
BBA	Balanced Budget Act of 1997
BC/BS	Blue Cross/Blue Shield
CDR	Continuing disability review
CHAMPVA	Civilian Health and Medical Program of the Department of Veterans Affairs
CLIA	Clinical Laboratory Improvement Act
CMP	Competitive medical plans
CMS	Centers for Medicare & Medicaid Services
COBRA	Consolidated Omnibus Budget Reconciliation Act
COLA	Cost-of-living adjustment
CPI-U	Consumer price index for all urban consumers
CPI-W	Consumer price index for urban wage earners and clerical workers
CPS	Current Population Survey
DA&A	Drug addiction and alcoholism
DI	Disability Insurance
DME	Durable medical equipment
DOE	Department of Energy
DOL	Department of Labor
DRG	Diagnosis-related group
EA	Emergency Assistance
EBT	Electronic benefit transfer
EPSDT	Early and Periodic Screening, Diagnostic, and Treatment program
ESRD	End stage renal disease
FERS	Federal Employees Retirement System

FFS	Fee for service
FICA	Federal Insurance Contributions Act
FMAP	Federal medical assistance percentage
FPL	Federal poverty level
FQHC	Federally qualified health center
FRA	Full retirement age
FUTA	Federal Unemployment Tax Act
FY	Fiscal year
GDP	Gross domestic product
HCBS	Home and community based services
HCFA	Health Care Financing Administration
HHA	Home health agency
HHS	Department of Health and Human Services
HI	Hospital Insurance
HIV	Human immunodeficiency virus
HMO	Health maintenance organization
ICF	Intermediate care facility
ICFs/MR	Intermediate care facilities for the mentally retarded
JOBS	Job Opportunities and Basic Skills Training
LIHEAP	Low-Income Home Energy Assistance Program
LTC	Long-term care
MBC	Monthly benefit credited
MBR	Master Beneficiary Record
MCCA	Medicare Catastrophic Coverage Act
MCCRA	Medicare Catastrophic Coverage Repeal Act
MN	Medically needy
MOE	Maintenance of effort
MSA	Medical savings account
NEW	Native Employment Works
NRC	National Research Council
OAA	Old-Age Assistance
OASDI	Old-Age, Survivors, and Disability Insurance
OASI	Old-Age and Survivors Insurance
OBRA	Omnibus Budget Reconciliation Act
OEO	Office of Economic Opportunity

OMB	Office of Management and Budget
PACE	Programs of all-inclusive care for the elderly
PESS	Property essential to self-support
PIA	Primary insurance amount
PIB	Primary insurance benefit
PPO	Preferred provider organization
PPS	Prospective payment system
PRO	Peer review organization
PSO	Provider-sponsored organization
QC	Quarter of coverage
QDWIS	Qualified disabled working individuals
QI	Qualified individual
QMB	Qualified Medicare beneficiary
REACH	Residential Emergency Assistance Challenge
RVS	Relative value scale
SCHIP	State Children's Health Insurance Program
SECA	Self-Employment Contributions Act
SGA	Substantial gainful activity
SIPP	Survey of Income and Program Participation
SLMB	Specified low-income Medicare beneficiary
SMI	Supplementary Medical Insurance
SNF	Skilled nursing facility
SSA	Social Security Administration
SSI	Supplemental Security Income
TANF	Temporary Assistance for Needy Families
TEFRA	Tax Equity and Fiscal Responsibility Act
TFP	Thrifty Food Plan
TWP	Trial work period
USDA	Department of Agriculture
VA	Department of Veterans Affairs
VEAP	Veterans' Educational Assistance Program
WEP	Windfall Elimination Provision
WIN	Work Incentive Program

B

Bend points in benefit formula (OASDI), 2A11, 2A13, 2A18

Beneficiaries and payments, currently payable (OASDI)
age, 5A1.1–5A1.8, 5A3, 5A6, 5A10, 5A15, 5A16
assets, 3E3
concurrent, OASDI and SSI, 3C5, 3C6, 3C6.1
earnings, 3E3
foreign countries, 5J11
Hispanic origin, 3C8
income, 3E3, 3E6, 3E8
sources, 3E3
international agreements, eligibility based on, 5M1
living arrangements, 3E3, 3E6
race, 3C7, 5A1.1–5A1.8, 5A3, 5A6, 5A7
representative payment, 5L1
sex, 3C8, 5A1.1–5A1.8, 5A3, 5A7, 5A10, 5A14–5A16
state data, 5J1–5J6, 5J8–5J10, 5J12–5J14
summary data, 3C6.1, 3C7, 3C8, 5A1.1–5A1.8, 5A3–5A8, 5A10
type of benefit (see Children (OASDI); Disabled widows and widowers; Disabled workers; Parents; Retired workers; Special age-72 beneficiaries; Widowed mothers and fathers; Widows and widowers, nondisabled; Wives and husbands)

Benefit computations (OASDI), 2A8–2A14, 2A16–2A18

Benefit rates (SSI), 2B1

Benefit types and levels (OASDI), qualifications and legal criteria for

- beneficiary families, 2A26
- children, 2A21, 2A22
- disabled workers, 2A20
- divorced beneficiaries, 2A21, 2A22
- illustrative monthly benefits, 2A26
- lump-sum awards, 2A25
- maximum and minimum, 2A27, 2A28
- parents, 2A22
- PIA, percentage of, 2A20–2A22
- retired workers, 2A20, 2A27, 2A28
- special age-72 beneficiaries, 2A24
- survivors, 2A22, 2A23, 2A26
- transitionally insured, 2A23
- vocational rehabilitation services, 2A25
- widowed mothers and fathers (OASDI), 2A22
- widows and widowers, 2A22–2A24
- wives and husbands, 2A21–2A24

Black Lung

- benefits, 9D1, 9D2
- hearing receipts, dispositions, claims pending, 2F9

Blind (SSI) (see Supplemental Security Income)

C

Centenarians (OASDI), 5J5

Children (AFDC) (see Aid to Families with Dependent Children)

Children (OASDI)

- age, 5A1.4, 5A5, 5A10, 6D5
- awards, 6A1, 6A3, 6D4, 6D5
- beneficiary families, 5H1–5H4
- benefit distributions, 5H3, 5H4
- benefits paid
 - annual, 4A5, 4A6
 - monthly, 5A4, 5A16, 5A17, 5F4, 5J4, 5J14
- benefits withheld, 6E4, 6E5
- disabled aged 18 or older, 3C6.1, 5A1.4, 5A10, 5A16, 5A17, 5C2, 5D4.1, 5E2, 5F4, 5F6, 5J14, 6D4
- foreign countries, 5J11
- of deceased workers, 5A1, 5A1.4, 5F4, 5F6, 5F7, 6D4
- of disabled workers, 5A1, 5A1.4, 5E1, 5E2, 5F4, 6D4
- of retired workers, 5A1, 5A1.4, 5C1, 5C2, 5F4, 6D4
- primary insurance amount, 5C1, 5E1, 5F7, 5H2
 - special minimum, 5A8
- qualifications for benefits, 2A21, 2A22
- race, 5A1, 5A1.4, 5A6, 6A3
- sex, 5A16
- state data, 5J2, 5J4, 5J10, 5J14
- students, aged 18-19, 5A1.4, 5C2, 5E2, 5F4, 5F6, 6D4
- terminations, 6F1–6F3
- under age 18, 5A1.4, 5C2, 5E2, 5F4, 5F6, 6D4

Children, blind or disabled (SSI) (see Supplemental Security Income)

Civil Service (see Government workers)

Claims workloads (OASDI and SSI), 2F4–2F6

Clergy (see Religious personnel)

Clinical Laboratory Improvement Act (CLIA) facilities (see Medicare)

Computations, benefit (OASDI), 2A10–2A14, 2A16–2A18

Concurrent beneficiaries (OASDI and SSI), 2F9, 3C5, 3C6, 3C6.1, 7D1, 7D2

Constant dollars (AFDC, OASDI, and SSI benefits), 3C4

Consumer price index (CPI), 2A18, 3C4, 3E1

Continuation of Medicaid coverage (1619b) (SSI), 7F3–7F5

Contribution rates (OASDI), 2A3, 2A5

Contributions (OASDI), 2A4, 4B10a–4B12b

Cost-of-living adjustments (OASDI and SSI), 2A11, 2A13, 2A14, 2A18, 2A19, 2B1

Covered workers (OASDI)

- age, 4B5, 4B6, 4B8
- categories of, 2A1
- coverage election or waiver, 2A1
- legislation affecting, 2A1
- median earnings, 4B3, 4B6
- new entrants, 4B1
- OASDHI contributions, 4B10a–4B12b
- self-employed, 2A1, 4B2–4B4, 4B8–4B12b
- sex, 4B3–4B9
- Social Security numbers issued, 4B1
- state data, 4B10a, 4B10b, 4B12a, 4B12b
- taxable earnings, amount reported, 4B1–4B3, 4B5, 4B10a–4B12b
- wage and salary, 4B2, 4B3, 4B7, 4B10a–4B12b
- with earnings above maximum taxable, 4B7, 4B9
- with earnings below maximum taxable, 4B4, 4B7, 4B9

Creditable earnings (OASDI) (see Taxable earnings (OASDI))

D

Death probability, 4C6

Delayed retirement credit (OASDI), 2A20, 2A22, 5B1–5B3

Denials (see Service delivery (OASDI and SSI))

Dependents and survivors (OASDI), 5F1–5F13

Diagnoses (OASDI), 5D4.1, 5D5, 5D6, 5J12, 5J13, 6C3

Diagnoses (SSI), 7F1, 7F2

Direct deposit (OASDI), 5K1

Disability, definition of (OASDI), 2A7

Disability determinations (see Service delivery (OASDI and SSI))

Disability Insurance (OASDI), 2F5, 2F9

Disability Insurance Trust Fund (OASDI) (see Trust funds)

Disabled adult children (see Children (OASDI), disabled, aged 18 or older)

Disabled beneficiaries (OASDI), 5A16, 5A17, 5J14 (see also Children (OASDI); Disabled widows and widowers; Disabled workers)

Disabled children (OASDI) (see Children (OASDI), disabled, aged 18 or older)

Disabled (SSI) (see Supplemental Security Income)

Disabled widows and widowers (OASDI)
age, 5A1.7, 5A5, 5A16, 6A3, 6D7
awards, 6A3, 6D7, 6D8
beneficiary families, 5H2, 5H4
benefit distributions, 5H4
benefits paid, monthly, 3C6.1, 5A16, 5A17, 5F8, 5J14
diagnostic group, 5D4.1
primary insurance amount, 5F7, 5H2
special minimum, 5A8
race, 5A1, 5A1.7, 5A7, 6A3
sex, 5A1.7, 5A7, 5A16, 5F6, 6A3, 6D8
state data, 5J14
surviving divorced, 5A1.7
year of entitlement, 5F10

Disabled workers (OASDI)
age, 5A1.2, 5A3, 5A5, 5A10, 5A16, 5D4, 5D6, 6A3, 6A4, 6C2, 6C3
applications, 6C7
awards, 6A1–6A5, 6C1–6C3, 6C7
beneficiary families, 5H1–5H3
benefit distributions, 5D2, 5H3, 5J8, 6C1
benefits paid
annual, 4A6
monthly, 3C6.1, 5A4, 5A16, 5A17, 5D3, 5J4, 5J14, 6A6
benefits withheld, 6E4, 6E5
diagnostic group, 5D4.1, 5D5, 5D6, 5J12, 5J13, 6C3
foreign countries, 5J11
primary insurance amount, 5E1, 5H2, 6A2
special minimum, 5A8
qualifications for benefits, 2A20
race, 5A1, 5A1.2, 5A3, 5A6, 5A7, 6A3
sex, 5A1.2, 5A3, 5A7, 5A10, 5A16, 5D3, 5D5, 5E2, 6A2–6A4, 6C3
state data, 5J2, 5J4, 5J8, 5J12–5J14, 6A6
terminations, 6F1, 6F2
with reduction for early retirement, 5A3, 6A5
year of entitlement, 5D1

Divorced beneficiaries (OASDI), 2A21, 2A22, 5A1.3, 5A1.5–5A1.7, 5F12, 6D3, 6D6, 6D7

Domestic employees (OASDI), 2A1

Dual entitlement (OASDI), 5A14, 5A15, 5G1–5G5

E

Early retirement (OASDI) (see Reduction for early retirement (OASDI))

Earnings of covered workers (OASDI) (see also Taxable earnings (OASDI))

amount of, 4B1–4B3, 4B7, 4B9, 4B10a, 4B10b, 4B12a, 4B12b
below annual maximum taxable amount, 4B4, 4B7, 4B9
median, by age and sex of worker, 4B3, 4B6
self-employed workers, 4B2–4B4, 4B9–4B12b
state data, 4B10a, 4B10b, 4B12a, 4B12b
wage and salary workers, 4B2, 4B3, 4B7, 4B10a–4B12b

Earnings test (OASDI)

amount permitted without reduction in benefits, 2A29
automatic adjustment of, 2A18
beneficiaries affected, 6B1, 6E4, 6E5

Emergency assistance, 9G1, 9G2

Employees (SSA) (see Offices and staff (SSA))

End stage renal disease (Medicare), 8B5, 8C3

Energy Assistance (see Low-Income Home Energy Assistance Program)

Entitlement year (OASDI), 5B4, 5D1, 5F9, 5F10

Excess payments (see Service delivery (OASDI and SSI))

Expectation of life, 4C6

F

Fair Labor Standards Act, 3B3

Families, beneficiary (OASDI), 2A26, 3E6, 5H1–5H4

Family maximum benefit (OASDI), 2A13, 2A14, 2A17, 2A26

Fathers (see Widowed mothers and fathers (OASDI))

Federal employees (see Government workers)

FICA taxes (see Contribution rates (OASDI))

Financing (OASDI), 2A3–2A6

Food Stamps, 9H1

Foreign countries (OASDI), 5J1–5J11, 5K1, 5M1

G

General revenue appropriations (OASDI), 2A6

Government pension offset (OASDI), 2A22, 2A23, 6E4, 6E5

Government workers, 2A1, 3C3

H

Health and medical programs, expenditures for (see Medicaid; Medicare)

Health insurance for the aged and disabled (see Medicare)

Hearing receipts, dispositions, claims pending (OASDI and SSI), 2F9

Hearings and appeals (OASDI), 2F1, 2F8, 2F9, 2F11

Hispanic origin, 3C8
