

UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES

JUN 6 2008

Honorable Utoofili Aso Maga
Director
American Samoa Department of Health
Government of American Samoa
Pago Pago, American Samoa 96799

Dear Director Aso Mago:

Thank you for the timely submission of American Samoa's FFY 2006 Annual Performance Report (APR) and revised State Performance Plan (SPP) under Part C of the Individuals with Disabilities Education Act (IDEA), as amended in 2004. We also acknowledge the revisions to American Samoa's APR received on April 14, 2008. We appreciate the State's efforts in preparing these documents.

The Department has determined that, under IDEA sections 616(d) and 642, American Samoa needs assistance in meeting the requirements of Part C of the IDEA. The Department's determination is based on the totality of the State's data and information including the State's FFY 2006 APR and revised SPP, other State-reported data, and other publicly available information. See the enclosure entitled "How the Department Made Determinations under Sections 616(d) and 642 of the IDEA in 2008" for further details.

Specific factors affecting OSEP's determination of needs assistance for American Samoa included: (1) for Indicator 1, American Samoa reported 81% compliance with the timely service provision requirements; (2) for Indicator 7, American Samoa reported 85% compliance with the 45-day timeline requirements; (3) for Indicator 8A, American Samoa reported 84% compliance with IFSP transition content requirements; (4) for Indicator 8C, American Samoa reported 88% compliance with the timely transition conference requirements; and (5) American Samoa did not report correction of prior noncompliance for Indicators 1, 7, 8A, 8C and 9. OSEP also considered that all Department grants to the government of American Samoa are subject to Department-wide Special Conditions regarding the Single Audit Act, and fiscal management and accountability. These special conditions were attached to American Samoa's FFY 2007 Part C grant. For these reasons, we were unable to determine that American Samoa met requirements under IDEA sections 616(d) and 642. OSEP notes that American Samoa reported a high level of compliance for Indicator 8B. We hope that American Samoa will demonstrate in next year's APR that it meets requirements.

The enclosed table provides OSEP's analysis of the State's FFY 2006 APR and revised SPP and identifies, by indicator, OSEP's review of any revisions made by the State to its targets, improvement activities (timelines and resources) and baseline data in the State's

400 MARYLAND AVE., S.W., WASHINGTON, D.C. 20202

Our mission is to ensure equal access to education and to promote educational excellence throughout the Nation.

SPP. It also identifies, by indicator, the State's status in meeting its targets, whether the State's data reflect progress or slippage, and whether the State corrected noncompliance and provided valid and reliable data.

The State's determination for the FFY 2005 APR also was needs assistance. In accordance with sections 616(e) and 642 of the IDEA, if a State is determined to need assistance for two consecutive years, the Secretary must take one or more of the following actions: 1) Advise the State of available sources of technical assistance that may help the State address the areas in which the State needs assistance; 2) Direct the use of State-level funds on the area or areas in which the State needs assistance; or 3) Identify the State as a high-risk grantee and impose special conditions on the State's Part C grant award. Pursuant to these requirements, the Secretary is advising the State of available sources of technical assistance related to Indicator 1 (services in a timely manner), Indicator 7 (45-day timeline), Indicator 8 (early childhood transition), and Indicator 9 (timely correction of noncompliance). A list of sources of technical assistance related to the SPP/APR indicators is available by clicking on the "Technical Assistance Related to Determinations" box on the opening page of the SPP/APR Planning Calendar website at <http://spp-apr-calendar.rrfcnetwork.org/>. You will be directed to a list of indicators. Click on specific indicators for a list of centers, documents, web seminars and other sources of relevant technical assistance for that indicator.

For the indicators listed above, your State must report with its FFY 2007 APR submission (due February 1, 2009) on: 1) the technical assistance sources from which the State received assistance and 2) what actions the State took as a result of that technical assistance. The extent to which your State takes advantage of available technical assistance for these indicators may affect the actions we take under sections 616 and 642 should your State not be identified as meets requirements next year. We encourage States to take advantage of available sources of technical assistance in other areas as well, particularly if the State is reporting low compliance data for an indicator.

As required by sections 616(e)(7) and 642, the State must notify the public that the Secretary of Education has taken the above enforcement action. This notification must be sufficient to notify the public within the State and may include such mechanisms as posting on the agency's website, distribution through the media and distribution through public agencies.

Finally, if you included revisions to baseline, targets or improvement activities in your APR submission, and OSEP accepted those revisions, please ensure that you update your SPP accordingly and that the updated SPP is made available to the public.

OSEP is committed to supporting American Samoa's efforts to improve results for infants and toddlers with disabilities and their families and looks forward to working with your State over the next year. If you have any questions, would like to discuss this further, or want to request technical assistance, please do not hesitate to call Brenda Wilkins, your OSEP State Contact, at 202-245-6920.

Sincerely,

William W. Knudsen
