

North Carolina Part C FFY 2006 SPP/APR Response Table

Monitoring Priorities and Indicators	Status of APR Data/SPP Revision Issues	OSEP Analysis/Next Steps
<p>1. Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner.</p> <p>[Compliance Indicator]</p>	<p>The State revised the improvement activities for this indicator in its SPP and OSEP accepts those revisions.</p> <p>The State's FFY 2006 reported data for this indicator are 92%. These data represent progress from the revised FFY 2005 data of 73%.</p> <p>The State did not meet its FFY 2006 target of 100%.</p> <p>The State reported that eight of 14 findings of noncompliance identified in FFY 2005 related to this indicator were corrected in a timely manner. For the uncorrected noncompliance, the State reported that it issued a corrective action plan with specific steps and strategies, requiring intensive progress reporting to the lead agency. The lead agency will provide focused technical assistance and conduct on-site visits to collect and validate data as well as ensure progress is being made.</p>	<p>OSEP could not determine if the State corrected the remaining noncompliance identified in FFY 2004 related to the timely service provision requirements in 34 CFR §§303.340(c), 303.342(e) and 303.344(f)(1). The State reported that noncompliance identified in FFY 2005 with the timely service provision requirements was partially corrected. The State must demonstrate, in the FFY 2007 APR, due February 1, 2009, that the uncorrected noncompliance identified in FFY 2004 and FFY 2005 was corrected.</p> <p>The State must also review its improvement activities and revise them, if appropriate, to ensure they will enable the State to provide data in the FFY 2007 APR, due February 1, 2009, demonstrating that the State is in compliance with the timely service provision requirements, including reporting correction of the noncompliance identified in the FFY 2006 APR.</p>
<p>2. Percent of infants and toddlers with IFSPs who primarily receive early intervention services in the home or programs for typically developing children.</p> <p>[Results Indicator]</p>	<p>The State's FFY 2006 reported data for this indicator are 98.5%. The State's data reflect a high level of performance for this indicator. The State met its FFY 2006 target of 96.5%.</p>	<p>The State's actual target data for provision of services to infants and toddlers in natural environments are at or greater than 95%. There is no expectation that an increase in that percentage is necessary. OSEP appreciates the State's efforts to improve performance and expects that the State is monitoring to ensure that IFSP teams are making service setting decisions on an individualized basis and in compliance with 34 CFR §§303.12, 303.18, and 303.344(d)(1)(ii).</p>
<p>3. Percent of infants and toddlers with IFSPs who demonstrate</p>	<p>The State's FFY 2006 reported progress data for this indicator are:</p>	<p>The State reported the required progress data and improvement activities. The State must</p>
