

Table B – Part B
Previously Identified Issue and Noncompliance

Issue	State Submission	OSEP Analysis	Required Action
<p>The conclusion of OSEP's February 25, 2005 letter responding to Iowa's FFY 2002 Part B APR required the State to submit either documentation that it ensured correction of noncompliance identified through monitoring within a reasonable period of time, not to exceed one year of identification, including the results of the corrective action plan tracking database, or a plan to ensure correction of this noncompliance, as soon as possible, but not later than one year from the date OSEP accepts the plan. In the November 14, 2005 letters responding to OSEP's July 2005 verification visit to IDE and to the FFY 2003 Part B APR, OSEP informed IDE that OSEP could not verify that IDE ensures correction of noncompliance as soon as possible, but no later than one year from identification, as required by 20 U.S.C. 1232d(b)(3)(E), 20 U.S.C. 1412(a)(11) and 34 CFR §300.600. OSEP required IDE to submit with its SPP, or within 60 days of the date of that letter, the results of its verification visits ensuring that improvement plans are implemented within a time period not to exceed one year of identification, as well as the analysis of its data tracking the timeliness of completion of corrective actions.</p>	<p>On January 5, 2006, IDE submitted the requested documentation that was also submitted in the SPP ensuring compliance for indicator 15.</p>	<p>OSEP appreciates the State's efforts in addressing this issue.</p>	<p>OSEP looks forward to reviewing data in the APR, due February 1, 2007, demonstrating continuing compliance with this requirement.</p>
