DARFUR – Humanitarian Emergency

Fact Sheet #52, Fiscal Year (FY) 2005

September 23, 2005

Note: This report updates Fact Sheet #51, dated September 16, 2005.

DARFUR EMERGENCY – NUMBERS AT A GLANCE	SOURCE
----------------------------------------	--------

Conflict-Affected Persons in Darfur and Eastern Chad	3.4 million people	U.N. Office for the Coordination of Humanitarian Affairs (OCHA)
Internally Displaced Persons (IDPs) in Darfur	1.8 million people	ОСНА
Sudanese Refugees In Eastern Chad	200,000 people in camps	U.N. High Commissioner for Refugees (UNHCR)
Conflict-Affected Persons in Darfur Receiving Food Assistance	2.4 million people during August 1.9 million people during July	U.N. World Food Program (WFP)

CURRENT HUMANITARIAN SITUATION

Security

- On September 20, *jingaweit* reportedly entered Geneina, West Darfur, to confront Government of Sudan (GOS) police and take hostages, in retaliation for a September 19 incident in which GOS police killed one *jingaweit* and apprehended another during an attempted truck robbery outside Geneina. GOS police and *jingaweit* clashed in the Geneina city market, and police reportedly complied with demands to release the *jingaweit* arrested on September 19. The humanitarian community expressed concern about the precedent this may set.
- On September 19, the Sudan Liberation Movement/Army (SLM/A) attacked GOS forces in the South Darfur town of Shearia, resulting in an SLM/A takeover of the town. The Shearia attack prompted NGOs to evacuate the area, and media sources have reported conflicting information in recent days about whether the SLM/A remains in Shearia. A USAID Disaster Assistance Response Team (USAID/DART) member reported that the U.N. Department of Safety and Security (UNDSS) has suspended activity in some South Darfur SLM/A-held areas, including Shearia, Labado, and Muhajariya.
- According to U.N. and non-governmental organization (NGO) reports, on September 18, *jingaweit* attacked 10 villages in North Darfur, displacing thousands of residents and killing at least 18 civilians. Following the attacks, NGOs in ZamZam and Dali camps reported an influx of newly arrived IDPs. As of September 21, NGOs in ZamZam camp had registered 5,054 new IDPs from the villages of Tarne, Kunjara, Sindingo, Khazan Tunju, Tabit, Hashaba, Gadarik, Um Diresaga, Tokomari, and Um Laota. The U.N. World Food Program (WFP) agreed to deliver a one-month ration for all newly arrived households, and plans to verify registration lists before delivering additional rations in October. The U.N. Joint Logistics Center (UNJLC) plans to deliver a total of 600 to 700 baskets containing relief supplies. Newly arrived households were scheduled to receive the food ration, baskets, and shelter supplies in a targeted distribution. In Dali camp, near Tawilah, sheiks reported that 1,820 new IDPs from 8 villages arrived in Dali following the attacks. NGOs in Dali camp began registering new IDPs on September 22. One international NGO has suspended operations in the Tawilah area and another has withdrawn all staff except essential medical personnel.

• On September 18, suspected *jingaweit* attacked an African Union Mission in Sudan (AMIS) patrol at Sabun village, northwest of Shangil Tobayi, North Darfur. Two AMIS protection soldiers and the Justice and Equality Movement (JEM) representative to AMIS were wounded by gunfire.

New GOS Regulations

• This week, the new West Darfur *Wali* revoked blanket state travel permits for humanitarian workers and imposed stricter travel permit regulations, citing safety concerns. Humanitarian workers now must file for a permit for each trip outside of Geneina town. The new provisions reportedly also stipulate that NGOs must give 24-hour advance notice of a trip and submit a trip report to the GOS Humanitarian Aid Commission (HAC) within 48 hours of returning. The new regulations apply to all humanitarian workers, including those representing donor governments and U.N. agencies. In addition, the GOS HAC and the GOS Labor Office announced that GOS HAC and labor officials will participate in all humanitarian agency meetings and interviews pertaining to the recruitment or termination of Sudanese staff members, and will charge for the service.

Water and Sanitation

• In recent weeks, Oxfam has rehabilitated 400 of the 500 latrines destroyed during August flooding in Abu Shouk camp, North Darfur. During a recent visit to the camp, USAID/DART members observed that Abu Shouk's water supply appears to be in good condition. The camp's water system contains 25 hand pumps at 11 water points, and has supplied an average of 12 liters of water per person per day in September. According to the USAID/DART, Oxfam believes fewer IDPs have used the camp's water supply in September, as many IDPs have returned to farms to plant during the rainy season. Across the river in Al Salam camp, the water system supplies an average of 14.5 liters per person per day.

Health

• At the September 21 interagency health meeting in El Fasher, North Darfur, the U.N. World Health Organization (WHO) reported an increase in cases of whooping cough in North Darfur. New cases were recently reported in the areas of Kutum, Korma, and Musbat. Although the GOS Ministry of Health (MOH) currently vaccinates all children under 10 months in MOH clinics and hospitals, U.N. agencies and NGOs expressed concern that some children older than one year were never vaccinated. The U.N. Children's Fund (UNICEF) and WHO urged NGOs to continue routine vaccinations rather than awaiting a mass vaccination campaign. UNICEF also offered to provide NGOs with the cold boxes necessary for transporting vaccines. The Expanded Program for Immunization (EPI) working group plans to address the issue in an upcoming meeting.

Food Security

- In preparation for the 2005 agricultural season, U.N. Food and Agriculture Organization (FAO), a USAID/OFDA partner, distributed 275.5 metric tons (MT) of millet seeds, 14.5 MT of sorghum seeds, 9 MT of sesame seeds and 4,605 kg of assorted vegetable seeds throughout Darfur. In addition, FAO locally procured and distributed 400 donkey ploughs. The project assisted nearly 69,000 beneficiaries in Darfur and targeted IDPs, female-headed households, and the poorest host-community residents. FAO estimates crop production to be 26,850 MT, which is lower than planned as a result of crop failure and continuing insecurity.
- According to OCHA, approximately 20 to 30 percent of IDPs have left camps in North Darfur
 to plant during the rainy season. NGO reports indicate that some IDPs are farming just outside
 camps and returning in the evening, while other IDPs are remaining in villages overnight. WFP
 reported that in North and South Darfur, prices for sorghum and millet have fallen in recent
 weeks as a result of positive crop development indicators.

Darfur Humanitarian Emergency – September 23, 2005

PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for their humanitarian emergency response efforts in Darfur, Sudan can be found at www.interaction.org.
- USAID encourages cash donations because they: allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, warehouse space, etc); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; ensure culturally, dietary, and environmentally appropriate assistance.
- More information on making donations and volunteering can be found at:
 - O U.S. Agency for International Development: <u>www.usaid.gov</u> keyword: donations
 - o The Center for International Disaster Information: www.cidi.org or 703-276-1914
 - o InterAction: www.interaction.org -> "How You Can Help"
- Information on relief activities of the humanitarian community can be found at www.reliefweb.org

USAID/OFDA bulletins appear on the USAID web site at http://www.usaid.gov/our_work/humanitarian assistance/disaster assistance
