3000 DEFENSE PENTAGON
WASHINGTON, DC 20301-3000

Dear Conference Participant,

I would like to thank everyone who attended the 2004 DoD Conservation Conference August 22-27 in Savannah, Georgia. Your participation ensured our most successful conference ever. We had an overwhelming turnout with over 500 participants representing DoD, the services, federal and state agencies, contractors, and non-profit organizations.

The conference owes its success to the informative presentations of the many speakers, poster presenters, and computer demonstration presenters. Field trips organized by the Army and Marine Corps were a great way to end the week.

I would also like to thank the conference steering group who developed the conference agenda and arranged for speakers, a process over a year in the making!

Of course, the conference would not have happened at all without the planning and logistical assistance of Designers and Planners, Inc. Finally, the service provided by the hotel staff at the Savannah Marriott Riverfront was outstanding from every aspect. They even went so far as to provide hot tea with honey to an "under the weather" conference participant.

Thanks again for participating in the 2004 Conservation Conference. We hope you will take the information you have learned and use it in your everyday duties to continue to demonstrate the strong and positive linkage between proactive conservation management and enhanced military readiness.

Sincerely,

A handwritten signature in cursive script that reads "Peter".
