

other programmatic elements “to develop an integral human dimensions research focus in NCCOS—including its component research centers, laboratories, and partnerships with cooperating institutions such as NCCOS’ coral reef research institutes.”

Comment 54: One commenter noted that the workforce needed to support ecosystem science must be interdisciplinary.

Response: NCCOS agrees with this comment. This objective focuses on development of human dimensions capabilities that complement NCCOS’ existing technical workforce, which is predominantly comprised of biological, physical, and ecological scientists.

Comments on Appendix 1

Comment 55: One commenter stated that the 2006 National Research Council report, *Facing Hazards and Disasters*, does not (as described in the draft) recommend “that future social science research treat hazards and disaster research interchangeably and view the five core topics of hazards and disaster research within a single overarching framework.”

Response: NCCOS points out that this is a direct quote from an Executive Summary of *Facing Hazards and Disasters* provided by the National Research Council Committee on Disaster Research in the Social Sciences: <http://www.nap.edu/catalog/11671.html>. However, NCCOS eliminated this quote in the process of reducing the length of the document.

Comment 56: One commenter recommended expanding the discussion of “Balancing Societal Objectives” and moving it to the front material of the document.

Response: As recommended, NCCOS moved a substantive part of this section to a discussion of the “Human Dimensions of Ecosystems” in the “Overview.”

Comments on Appendix 2

Comment 57: One commenter noted that the entry for the 2006 National Research Council report, *Facing Hazards and Disasters*, mistakenly includes information related to a 2005 National Science and Technology Council report, *Grand Challenges for Disaster Reduction*.

Response: NCCOS regrets this mistake and eliminated the misplaced information from the entry for the 2006 National Research Council report, *Facing Hazards and Disasters*.

Comment 58: One commenter recommended duplicating the entry for the Harmful Algal Bloom and Hypoxia Research and Control Act in the table of

drivers related to pollution (in addition to harmful algal blooms).

Response: As recommended, NCCOS included the Harmful Algal Bloom and Hypoxia Research and Control Act in the table of drivers related to pollution.

Comments on Appendix 3

Comment 59: Several commenters requested inclusion of specific additional references.

Response: NCCOS included suggested references where appropriate. NCCOS notes that this document is not intended to provide an exhaustive literature review.
