### CURRENT SITUATION

#### Regional Update

- From February 19 to 21, former Presidents George Bush and Bill Clinton are scheduled to visit tsunami-affected areas in Thailand, Indonesia, Sri Lanka, and Maldives.
- On February 17, the U.N. Food and Agriculture Organization (FAO) announced that damage to fishing industries in India, Indonesia, Maldives, Burma, Somalia, Sri Lanka, and Thailand totaled \$520 million. FAO reported that the tsunami damaged or destroyed 111,073 fishing vessels; 36,235 engines; and 1.7 million units of fishing gear - such as nets, tackle, and similar equipment. FAO estimates the cost of repairs to fishing industry infrastructure to be approximately \$200 million. FAO noted that assistance must ensure sustainable fishing in the region by not surpassing the level of fishing capacity prior to the tsunami.
- On February 17, the Asian Development Bank (ADB) approved an emergency fund to restore vital services and rebuild infrastructure in tsunami-affected countries and contributed \$600 million in seed money. The Asian Tsunami Fund will be used to pool contributions from other donors and deliver grants for rehabilitation efforts.

#### Indonesia Update

- According to local media sources, more than 11,500 people moved into temporary barracks in Banda Aceh, Aceh Besar, Sigli, North Aceh, Aceh Jaya, and West Aceh on February 15. The Banda Aceh Mayor has stated that each barracks consists of 12 to 20 rooms and costs approximately \$22,000 to \$27,000. According to the USAID/Disaster Assistance Response Team (DART), the Government of Indonesia (GOI) plans to pay host communities \$16 per month per person hosted. In addition, the GOI will register orphaned children and provide \$16 per month to families hosting children.
- The GOI estimates that approximately 400,000 internally displaced persons (IDPs) will be relocated as follows: 14,000 households in barracks-style shelter at 37 sites; 11,000 households in prefabricated houses supplied by the International Organization for Migration (IOM); and 10,000 households in locations yet to be decided.
- On February 16, the Banda Aceh Mayor reported that the tsunami killed approximately 40 percent of the municipal employees and badly damaged approximately 90 percent of public buildings and offices. In addition, the tsunami damaged or destroyed 12 of 21 public health centers, 5 of 7 hospitals, and approximately 100 school buildings in the city. The Mayor stated that public services, particularly education, health and transportation, had been entrusted to

<sup>1</sup> President Bush's supplemental budget request to Congress was for \$950 million.

<sup>2</sup> The value of assistance provided by the U.S. Department of Defense is not included in this figure.

local and foreign non-governmental organizations (NGOs), foreign forces, and other civilian volunteers. The Aceh Provincial Secretary has requested that civil servants return to work next week following the end of the mourning and emergency period.

- The U.N. World Food Program (WFP) is developing a strategy to address food insecurity during the recovery and rehabilitation phase. Initial analysis identifies short- and medium-term food gaps through December 2005. General food distributions will be provided to IDPs as long as required (approximately one to three months) and to host communities through February. Afterwards, eligibility criteria will be developed to target those most in need.
- On February 15, international media sources reported that the U.N. Children's Fund (UNICEF) estimates that 8,000 children may have lost parents in Aceh, while the GOI Ministry of Social Affairs estimates the number at 10,000. Approximately 350 Acehnese children have lost both parents and are without support from an adult known prior to the tsunami. To prevent child trafficking, parents seeking lost children must successfully answer key identifying questions about their children. In addition, the GOI has suspended adoptions in Aceh and mandated that children under sixteen be accompanied by a parent when leaving the country.

#### *Sri Lanka Update*

- The USAID/DART reports the humanitarian community is exploring the possibility of conducting general distributions in Jaffna District, to avoid disparities not only between conflict- and tsunami-affected IDPs, but also within the general population.
- USAID/OFDA partner UNICEF is the sector leader for education and health in Jaffna District. UNICEF is constructing temporary classrooms and distributing school-in-a-box kits. UNICEF has provided two 4,000-liter water trucks to the Water Board; 53 1,000-liter water tanks, buckets, and cups to schools; and cleaned and rehabilitated latrines in 38 schools in Jaffna. In addition, UNICEF continues monitoring unaccompanied children with particular emphasis on the vulnerability of tsunami-affected children. For psychological and social activities, UNICEF is working with local partners to provide recreation kits, recreational programs, and group and individual therapy. USAID/OFDA has provided \$1.5 million to support UNICEF's activities in Sri Lanka.

#### *India Update*

- According to USAID/India, the Chief Minister of Tamil Nadu State recently announced relief and reconstruction assistance for affected populations. The next of kin for each deceased person will receive a relief package from the state that includes: approximately \$230; clothing and linens; rice, kerosene, and money; and a temporary hut. The state government also announced plans to provide fishermen with new nets and grants for rebuilding boats. In addition, the state government plans to provide affected families with permanent housing, as well as replacement identification cards, replacement textbooks, school supplies, and school uniforms for those in government-affiliated schools.

#### *Maldives Update*

- According to a February 14 U.N. Country Team report, the Government of the Republic of Maldives (GORM) plans to implement a series of austerity measures designed to decrease public expenditures in response to the high cost of reconstruction activities. The new measures will reduce the number of receptions, celebrations, and tournaments hosted by government offices. In addition, the report states that UNICEF and the Ministry of Gender, Family Affairs, and Social Security are conducting a joint three-day assessment mission on psychological and social counseling in order to develop a longer term action plan, including building capacity for protective services for women and children. According to the report, the U.N. World Health Organization (WHO) has secured two boats for use as sea ambulances as well as 2,000 drums for hazardous waste collection.

## **USG ASSISTANCE**

### *USAID Regional Response*

- As the transition from relief to recovery continues, eight USAID/DART members remain in tsunami-affected countries. USAID/DART members are focused on monitoring USAID/OFDA's grant portfolio, coordinating with other donors, and transitioning activities to USAID Missions.

### *Indonesia*

- To date, the USG has provided more than \$42.1 million in emergency food assistance, relief supplies, shelter, water and sanitation, health, livelihoods recovery, psychological and social support, logistics and coordination, and rehabilitation activities for affected communities in Indonesia.

### *Sri Lanka*

- To date, the USG has provided nearly \$62.0 million in emergency food assistance, relief supplies, shelter, water and sanitation, health, livelihoods recovery, psychological and social support, protection and anti-trafficking, logistics and coordination, and cleanup and rehabilitation activities for affected communities in Sri Lanka. USAID/OFDA-funded cash-for-work and micro-finance programs are fully operational. The USAID/DART in Sri Lanka is now focusing on program monitoring and evaluation and ongoing situational assessments.

### *India*

- On January 31, the USAID/DART in India closed out more than four weeks of operations, after providing approximately \$4.1 million for shelter, water and sanitation, cleanup and rehabilitation, education, and cash for work activities for tsunami-affected residents. During the transition to the recovery phase, USAID/India will oversee USAID/OFDA-funded programs, and USAID/OFDA and USAID/India will share responsibility for monitoring.

*Department of Defense (DOD) Humanitarian Assistance*

- As of February 14, 683 U.S. military personnel are involved in delivering more than 24.5 million pounds of relief supplies and equipment to the affected region. All 411 military personnel currently on the ground are in Thailand. The U.S. military has delivered a total of 9,487,681 pounds of relief supplies to the governments of Indonesia, Sri Lanka, Thailand, and other affected nations.

**BACKGROUND**

- A magnitude 9.0 earthquake on December 26, off the west coast of Northern Sumatra, Indonesia, triggered massive tsunamis that affected several countries throughout South and Southeast Asia, as well as Somalia, Tanzania, Kenya, and the Seychelles in East Africa. Aftershocks from the December 26 earthquake continue to occur in the region.
- Based on initial findings of USG assessment teams and on the recommendation of Secretary of State Colin Powell and USAID Administrator Andrew Natsios, on December 31, President George W. Bush committed \$350 million toward earthquake and tsunami relief and recovery efforts. Dollar amounts in this Fact Sheet are part of the total pledge of \$350 million and refer to specific funding actions that have been committed and programmed.
- On February 9, President Bush announced that he is seeking \$950 million as part of the supplemental appropriations request to support the rehabilitation and reconstruction of areas devastated by the Indian Ocean tsunami and to cover the costs of relief efforts to date. This amount includes an additional \$600 million above the President's initial commitment of \$350 million.

**FURTHER INFORMATION ON USG RESPONSE**

More detailed information on USG assistance already provided, including DOD resources, in response to the disaster may be found in previous USAID/OFDA Fact Sheets:

[http://www.usaid.gov/our\\_work/humanitarian\\_assistance/disaster\\_assistance/countries/indian\\_ocean/et\\_index.html](http://www.usaid.gov/our_work/humanitarian_assistance/disaster_assistance/countries/indian_ocean/et_index.html)

**PUBLIC DONATION INFORMATION***Making a Donation to Relief Efforts*

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations.
- For a list of humanitarian organizations accepting donations for South Asia relief operations, please see “Tsunami Relief” at [www.usaid.gov](http://www.usaid.gov) or [www.usafreedomcorps.gov](http://www.usafreedomcorps.gov). Or call the Center for International Disaster Information at (703) 276-1914.
- USAID encourages cash donations because they allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, warehouse space, etc); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; and ensure culturally, dietary, and environmentally appropriate assistance.

*Additional Information*

- Information on making effective donations can be found on the following websites:
