

3 COL application are 52-027 and 52-028, respectively.

The NRC staff will perform a detailed technical review of the application. Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The Commission will conduct a hearing in accordance with Subpart L, "Informal Hearing Procedures for NRC Adjudications," of 10 CFR Part 2 and will receive a report on the COL application from the Advisory Committee on Reactor Safeguards in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)." If the Commission finds that the COL application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

In accordance with 10 CFR Part 51, the Commission will also prepare an environmental impact statement for the proposed action. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future **Federal Register** notice.

Finally, the Commission will publish in the **Federal Register** a notice of hearing, which will notice the opportunity to petition to intervene.

## NUCLEAR WASTE TECHNICAL REVIEW BOARD

### Board Meeting

*Board meeting:* September 24, 2008—Las Vegas, Nevada; The U.S. Nuclear Waste Technical Review Board will meet to discuss Department of Energy plans for preclosure operations related to a proposed repository for spent nuclear fuel and high-level radioactive waste at Yucca Mountain in Nevada.

Pursuant to its authority under section 5051 of Public Law 100-203, Nuclear Waste Policy Amendments Act of 1987, the U.S. Nuclear Waste Technical Review Board will meet in Las Vegas, Nevada, on Wednesday, September 24, 2008. At the meeting, the Board will review U.S. Department of Energy (DOE) activities related to designing and operating a waste management system in connection with the proposed repository for spent nuclear fuel and high level radioactive waste (HLW) at Yucca Mountain in Nevada. Among the issues that will be discussed are acceptance of spent nuclear fuel or HLW at commercial reactors or defense facilities; packaging of commercial spent nuclear fuel in transportation, aging, and disposal (TAD) canisters; transportation of the waste, including construction of a Nevada rail line; throughput of the waste at repository surface facilities; and plans for prototyping and testing of waste management equipment and facilities. The Board was charged in the Nuclear Waste Policy Amendments Act of 1987 with conducting an independent review of the technical and scientific validity of DOE activities related to the implementation of the Nuclear Waste Policy Act, including disposing of, packaging, and transporting spent nuclear fuel and HLW.

The Board meeting will be held at the Suncoast Hotel & Casino, 9090 Alta

Drive, Las Vegas (Summerlin), Nevada 89145; (tel) 702-636-7111, (toll free) 877-677-7111.

The agenda also may be obtained by telephone request at that time. The meeting will be open to the public, and opportunities for public comment will be provided.

Board Chairman B. John Garrick will call the meeting to order at 8 a.m. Dr. Garrick's remarks will be followed by a DOE program overview and project status report. DOE then will make a presentation on issues related to waste acceptance, followed by a utility perspective on the same subject. After a break for lunch, the implications of TAD utilization for transportation and repository site operations will be discussed. A presentation on integrated systems' operations will follow. The last presentation of the day will be on DOE's prototyping and testing program for waste management equipment and facilities.

Time will be set aside at the end of the day for public comments. Those wanting to speak are encouraged to sign the "Public Comment Register" at the check-in table. A time limit may have to be set on individual remarks, but written comments of any length may be submitted for the record.

Transcripts of the meeting will be available on the Board's Web site, by e-mail, on computer disk, and on a library-loan basis in paper format from Davonya Barnes of the Board's staff no later than October 20, 2008.
