## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (08-012)]

### Aerospace Safety Advisory Panel; Meeting

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of meeting; correction.

**Federal Register** Citation of Previous Announcement: 73 FR 4641, Notice Number 08-009, January 25, 2008.

**SUMMARY:** The National Aeronautics and Space Administration published a document in the **Federal Register** of January 25, 2008, announcing a meeting of the Aerospace Safety Advisory Panel (ASAP). The document did not announce the meeting date.

*Correction:* Date of ASAP meeting is Wednesday, February 13, 2008, 1 p.m. to 3 p.m.

**FOR FURTHER INFORMATION CONTACT:** Ms. Kathy Dakon, Aerospace Safety Advisory Panel Executive Director, National Aeronautics and Space Administration, Washington, DC 20546, (202) 358-0732.

Dated: January 28, 2008.

**P. Diane Rausch,**

*Advisory Committee Management Officer, National Aeronautics and Space Administration.*

## NATIONAL SCIENCE FOUNDATION

### Astronomy and Astrophysics Advisory Committee #13883; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following Astronomy and Astrophysics Advisory Committee (#13883) meeting:

*Date and Time:* February 11-12, 2008, 8:30 a.m.-5 p.m.

*Place:* National Science Foundation, Room 1235, Stafford I Building, 4201 Wilson Blvd., Arlington, VA 22230.

*Type of Meeting:* Open.

*Contact Person:* Dr. G. Wayne Van Citters, Director, Division of Astronomical Sciences, Suite 1045, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: 703-292-4908.

*Purpose of Meeting:* To provide advice and recommendations to the National Science Foundation (NSF), the National Aeronautics and Space Administration (NASA) and the U.S. Department of Energy (DOE) on issues within the field of astronomy and astrophysics that are of mutual interest and concern to the agencies.

*Agenda:* To hear presentations of current programming by representatives from NSF, NASA, DOE and other agencies relevant to astronomy and astrophysics; to discuss current and potential areas of cooperation between the agencies; to formulate recommendations for continued and new areas of cooperation and mechanisms for achieving them.

*Reason for Late Notice:* Scheduling conflicts and staff travel prevented the meeting notice to be posted earlier.

Dated: January 29, 2008.

**Susanne E. Bolton,**

*Committee Management Officer.*

## NUCLEAR REGULATORY COMMISSION

[EA-07-111,114,117]

### In the Matter of: Wackenhut Nuclear Services, Inc.; Confirmatory Order (Effective Immediately)

I

Wackenhut Nuclear Services, Inc. (WNS) provides security related services to the Turkey Point Nuclear Plant (Turkey Point), operated by Florida Power & Light Company (FPL or Licensee). FPL holds License Nos. DPR-31 and DPR-41, issued by the Nuclear Regulatory Commission (NRC or Commission) on July 19, 1972, and April 10, 1973, respectively, pursuant to 10 CFR Part 50. The license authorizes the operation of Turkey Point, Units 3 and 4, in accordance with the

conditions specified therein. Turkey Point is located on the Licensee's site in Florida City, Florida.

II

On February 24, 2006, the Nuclear Regulatory Commission (NRC) completed an on-site inspection of security-related matters at FPL's Turkey Point Nuclear Plant. During the inspection, an investigation was initiated by the NRC's Office of Investigations (OI), which was subsequently completed on August 23, 2006. The purpose of the investigation was to determine whether WNS security personnel rendered contingency response weapons non-functional and whether information in FPL documents was inaccurate or incomplete in some respect material to the Commission. The results of the OI investigation and additional in-office inspection activity were documented in a letter to WNS dated May 25, 2007, which identified three apparent violations involving the activities of WNS employees. The three apparent violations included:

A. In August 2005, a broken firing pin from a contingency response weapon was discovered at FPL's Turkey Point facility. Based on an investigation, the NRC's OI determined that a WNS security officer deliberately removed and broke a firing pin from a contingency response weapon, rendering the weapon non-functional. This activity caused FPL's Turkey Point Nuclear Plant to be in apparent violation of its Physical Security Plan, sections 4.1 and 5.4, Revision 0b, and Security Force Instruction (SFI) 2404, section 2.3, Revision 21, and caused WNS to be in apparent violation of 10 CFR 50.5.

B. In April of 2004, a WNS employee deliberately removed the firing pins from two contingency response weapons, rendering the weapons non-functional. These actions caused FPL to be in apparent violation of a February 25, 2002, NRC Order and Interim Compensatory Measures, section B.4(f), and caused WNS to be in apparent violation of 10 CFR 50.5.

C. On or about October 2004, the WNS Project Manager assigned to FPL's Turkey Point Nuclear Plant, provided the licensee with information in Condition Report (CR) 2004-13573, related to a damaged firing pin event, which was not complete or accurate in some respect material to the NRC. The CR was provided by FPL to NRC inspectors during a February 2006 inspection at Turkey Point, and was used to inform the NRC's inquiry regarding additional actions necessary to address serious security concerns.

The NRC preliminarily concluded that the WNS security project manager engaged in deliberate misconduct in apparent violation of 10 CFR 50.5, in that he was aware at the time that the information documented in the CR was not complete or accurate. As a result, the WNS security project manager's actions caused FPL to be in apparent violation of 10 CFR 50.9, and caused WNS to be in apparent violation of 10 CFR 50.5.

### III

The results of the NRC's preliminary conclusions, as discussed in Section II, were provided to WNS by NRC letter dated May 25, 2007. The NRC's letter informed WNS that the NRC was considering the apparent violations for escalated enforcement action in accordance with the NRC Enforcement Policy, and offered WNS a choice to: (1) Attend a Pre-decisional Enforcement Conference; (2) provide a written response; or (3) request ADR with the NRC in an attempt to resolve any disagreement on whether violations occurred, the appropriate enforcement action, and the appropriate corrective actions. In response, WNS requested ADR to resolve the matter. WNS and the NRC participated in an ADR session in Atlanta, Georgia, on August 27, 2007. As a result of the ADR session, WNS and the NRC reached an Agreement in Principle, which consisted of the following elements:

1. WNS agrees to the underlying facts which give rise to apparent violations (A) and (B) as discussed in section II. Regarding violation (C), WNS agreed to provide, within 10 business days of the date of the Agreement in Principle, subject to 10 CFR 2.390, information on the docket to support its view that the subject violation did not occur. NRC agrees to review and consider this information during the course of its deliberations in this and related matters prior to the issuance of a Confirmatory Order.

2. During the ADR, WNS described its implementation of enhanced employment selection programs, many of which are intended to address professionalism and high standards of integrity that exceed regulatory requirements. NRC and WNS reached a preliminary agreement that WNS will continue its initiatives in the following areas to achieve sustained enhancements in security:

1. WNS New Hire/Recruitment Policy; WNS 102, "New Hire Recruitment Policy";

2. Site Enhancement Plan related to the Turkey Point facility;

3. Development of an enhanced program for leadership development and WNS' desire to be "best in class";

4. Benchmarking to include audits, self-assessments, and Safety Conscious Work Environment;

5. Ideal Facility Performance Indicators for Turkey Point;

6. Continual Behavior Observation Program will include "one-on-one" discussions between supervisors and their direct reports to discuss behaviors that are adverse to security, and the obligation of officers to report adverse behavior and other actions which could jeopardize the safety and security of the plant;

7. Communications with the NRC, to include the following: Development and submittal to the NRC of an initial report detailing specific information on the above actions, within approximately three months of issuance of the Confirmatory Order. Subsequent status reports will be submitted to the NRC approximately every six months, for a period of two years (four reports in total). At the end of this period (approximately 27 months following issuance of the Confirmatory Order), a management meeting between the NRC and WNS will occur. The process will be completed after 27 months unless reasonable cause exists for continuing with required reporting;

3. The NRC and WNS agreed that the above elements will be incorporated into issuance of a Confirmatory Order.

4. The NRC and WNS agreed that the elements as discussed at the ADR meeting of August 27, 2007, are subject to change based on WNS operational, management or industry considerations and with prior notice to the NRC.

### IV

Because WNS has agreed to take actions to address the NRC's concerns, as set forth in section II above, the NRC has concluded that its concerns can be resolved through issuance of this Order.

I find that WNS' commitments set forth in section V below are acceptable and necessary, and I conclude that with these commitments the public health and safety are reasonably assured. In view of the foregoing, I have determined that public health and safety require that WNS' commitments be confirmed by this Order. Based on the above and WNS' consent, this Order is immediately effective upon issuance.

### V

Accordingly, pursuant to sections 104, 161b, 161i, 161o, and 186 of the Atomic Energy Act of 1954, as amended, the Commission's regulations in 10 CFR

2.202 and 10 CFR Part 50, *It is hereby ordered*, effective immediately, that:

WNS will continue its initiatives in the following areas to achieve sustained enhancements in security, including:

1. A WNS New Hire/Recruitment Policy; WNS 102, "New Hire Recruitment Policy";

2. A Site Enhancement Plan related to the Turkey Point facility;

3. Development of an enhanced program for leadership development and WNS' desire to be "best in class";

4. Benchmarking to include audits, self-assessments, and Safety Conscious Work Environment;

5. Ideal Facility Performance Indicators for Turkey Point;

6. Continual Behavior Observation Program will include "one-on-one" discussions between supervisors and their direct reports to discuss behaviors that are adverse to security, and the obligation of officers to report adverse behavior and other actions which could jeopardize the safety and security of the plant;

7. Communications with the NRC, to include the following: Development and submittal to the NRC of an initial report detailing specific information on the above actions, within approximately three months of issuance of the Confirmatory Order. Subsequent status reports will be submitted to the NRC approximately every six months, for a period of two years (four reports in total). At the end of this period (approximately 27 months following issuance of the Confirmatory Order), a management meeting between the NRC and WNS will occur. The process will be completed after 27 months unless reasonable cause exists for continuing with required reporting;

The Regional Administrator, NRC Region II, may relax or rescind, in writing, any of the above conditions upon a showing by WNS of good cause.

### VI

Any person adversely affected by this Confirmatory Order, other than WNS, may request a hearing within 20 days of its issuance. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and include a statement of good cause for the extension. Any request for a hearing shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, ATTN: Chief, Rulemakings and Adjudications Staff, Washington, DC 20555-0001. Copies of the hearing request shall also be sent to the Director,

Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; to the Assistant General Counsel for Materials Litigation and Enforcement, at the same address; to the Regional Administrator, NRC Region II, 61 Forsyth Street SW., Suite 23T85, Atlanta, GA 30303-8931; and to WNS. Because of the possible disruptions in delivery of mail to United States Government offices, it is requested that answers and requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to (301) 415-1101 or by e-mail to [hearingdocket@nrc.gov](mailto:hearingdocket@nrc.gov) and also to the Office of the General Counsel either by means of facsimile transmission to (301) 415-3725 or by e-mail to [OGCMailCenter@nrc.gov](mailto:OGCMailCenter@nrc.gov). If a person other than WNS requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309(d) and (f).

If a hearing is requested by a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Confirmatory Order should be sustained.

In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in section V above shall be final 20 days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in section V shall be final when the extension expires if a hearing request has not been received.

An answer or a request for hearing shall not stay the immediate effectiveness of this order.

Dated this 22nd day of January 2008.

For the Nuclear Regulatory Commission.

**Victor M. McCree,**

*Acting Regional Administrator.*

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

### Duke Energy Carolinas; Notice of Receipt and Availability of Application for a Combined License

By letter dated December 12, 2007, Duke Energy Carolinas (Duke, or the applicant) filed with the Nuclear Regulatory Commission (NRC, the

Commission) pursuant to section 103 of the Atomic Energy Act and 10 CFR part 52, an application for a combined license (COL) for two AP1000 advanced passive pressurized water nuclear power reactors at a site in the eastern portion of Cherokee County in north central South Carolina, approximately 35 miles southwest of Charlotte, North Carolina, and approximately 7.5 miles southeast of Gaffney, South Carolina. The reactors are to be identified as William States Lee III Units 1 and 2.

An applicant may seek a COL in accordance with Subpart C of 10 CFR Part 52. The information submitted by the applicant includes certain administrative information such as financial qualifications submitted pursuant to 10 CFR 52.77, as well as technical information submitted pursuant to 10 CFR 52.79. The applicant also requested exemptions from certain requirements of section IV.A.2 of Appendix A to 10 CFR part 52 and 10 CFR 52.79(a)(44), as documented in part 7 of the application.

Subsequent **Federal Register** notices will address the acceptability of the tendered COL application for docketing and provisions for participation of the public in the COL review process.

#### Further Information

A copy of the application is available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, members of the public can access the NRC's Agencywide Documents Access and Management System (ADAMS), which provides text and image files of the NRC's public documents. The ADAMS accession number for the application is ML073510494. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

The application may also be viewed electronically on the public computers located at the NRC's Public Document Room (PDR), O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee. The application is also available at <http://www.nrc.gov/reactors/new-licensing/col.html>.

Dated at Rockville, Maryland, this 23rd day of January, 2008.

For the Nuclear Regulatory Commission.

**Joelle L. Starefos,**

*Senior Project Manager, AP1000 Projects Branch 1, Division of New Reactor Licensing, Office of New Reactors.*

## NUCLEAR REGULATORY COMMISSION

### Sunshine Act Meeting Notice

**AGENCY HOLDING THE MEETING:** Nuclear Regulatory Commission.

**DATES:** Week of February 4, 2008.

**PLACE:** Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

**STATUS:** Public and Closed.

**ADDITIONAL MATTERS TO BE CONSIDERED:**

**Week of February 4, 2008**

*Thursday, February 7, 2008*

12:55 p.m.

Affirmation Session (Public Meeting).

a. *Final Rule*—10 CFR 2.311

“Interlocutory Review of Rulings on Requests for Hearings/Petitions to Intervene, Selection of Hearing Procedures, and Requests by Potential Parties for Access to SUNSI and Safeguards Information” (RIN 3150-A108).

b. *Final Rule*—Regulatory

Improvements to the Nuclear Materials Management and Safeguards System (RIN 3150-AH85).

\*The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (recording)—(301) 415-1292. Contact person for more information: Michelle Schroll, (301) 415-1662.

The NRC Commission Meeting Schedule can be found on the Internet at: <http://www.nrc.gov/about-nrc/policy-making/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings, or need this meeting notice or the transcript or other information from the public meetings in another format (e.g. braille, large print), please notify the NRC's Disability Program Coordinator, Rohn Brown, at 301-415-2279, TDD: 301-415-2100, or by e-mail at [REB3@nrc.gov](mailto:REB3@nrc.gov). Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

This notice is distributed by mail to several hundred subscribers; if you no longer wish to receive it, or would like
