

impacts because the proposed exemption is an administrative action that will not affect the physical design or operation of the Diablo Canyon ISFSI. Therefore, there are no radiological or non-radiological impacts from a one-time delay in submitting the updated FSAR, and the staff finds that the proposed exemption will not have any significant environmental impact.

Environmental Impacts of the Alternative to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Approval or denial of the exemption request would result in no change in the environmental impacts described in the October 24, 2003 EA and its Supplement. Therefore, the environmental impacts of the proposed action and the alternative action are similar.

Conclusion

The staff has reviewed the exemption request submitted by PG&E and has determined that allowing the licensee to delay the submittal of the updated Final Safety Analysis Report for the Diablo Canyon ISFSI by no more than approximately 100 days beyond the date required by 10 CFR 72.70(c)(6) is an administrative change, and would have no significant effect on the human environment.

Agencies and Persons Consulted

On March 10, 2008, Ms. Barbara Byron of the California Energy Commission was contacted regarding the environmental assessment for the proposed exemption and Ms. Byron had no comments. The NRC staff has determined that the proposed action is solely of a procedural nature and will not affect listed species or critical habitat. Therefore, no consultation is required under Section 7 of the Endangered Species Act. The NRC staff has also determined that the proposed action is not the type of activity that has the potential to cause effects on historic properties, assuming such historic properties were present at the Diablo Canyon ISFSI. Therefore, no consultation is required under Section 106 of the National Historic Preservation Act.

III. Finding of No Significant Impact

The environmental impacts of the proposed action have been reviewed in accordance with the requirements set forth in 10 CFR part 51. Based upon the foregoing environmental assessment, the NRC finds that the proposed action of granting the exemption from 10 CFR

72.70(c)(6), so that PG&E may delay the submittal of the updated FSAR for the Diablo Canyon ISFSI, will not have a significant effect on the quality of the human environment. Accordingly, pursuant to 10 CFR 50.31 and 51.119(a), the NRC has determined that a Final Finding of No Significant Impact is appropriate, and that an environmental impact statement for the proposed exemption is not necessary.

IV. Further Information

PG&E's application for exemption is available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS Accession number for the exemption request is ML080290634.

If you do not have access to ADAMS, or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov. These documents may also be viewed electronically on the public computers located at the NRC's PDR, O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee.

Dated at Rockville, Maryland, this 14th day of March, 2008.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-188]

Notice of Renewal of Facility License No. R-88; Kansas State University TRIGA Research Reactor

The U.S. Nuclear Regulatory Commission (the Commission) has issued renewed Facility License No. R-88 for the Kansas State University (the licensee), for operation of the Kansas State University TRIGA Research Reactor Facility located in Manhattan, Kansas.

The facility is a research reactor that has been operating at a power level not in excess of 250 kilowatts (thermal). The renewed Facility License No. R-88

allows operation at an increased power level not in excess of 1,250 kilowatts (thermal), and will expire twenty years from its effective date.

The renewed license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I. Those findings are set forth in the license renewal. Opportunity for hearing was afforded in the notice of the proposed issuance of this renewal in the **Federal Register** on October 6, 2005 (70 FR 58487) and on August 2, 2006 (71 FR 43816). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

Continued operation of the reactor will not require alteration of buildings or structures, will not lead to significant changes in effluents released from the facility to the environment, will not increase the probability or consequences of accidents, and will not involve any unresolved issues concerning alternative uses of available resources. Based on the foregoing and on the Environmental Assessment, the Commission concludes that renewal of the license and power increase will not result in any significant environmental impacts.

The Commission has prepared a "Safety Evaluation Report Related to the Renewal of the Facility License for the TRIGA Research Reactor at the Kansas State University" for the renewal of Facility License No. R-88 and has, based on that evaluation, concluded that the facility can continue to be operated by the licensee without endangering the health and safety of the public.

The Commission also prepared an Environmental Assessment which was published in the **Federal Register** on February 26, 2008 (73 FR 10308) for the renewal of Facility License No. R-88 and has concluded that this action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see: (1) The application for amendment dated September 12, 2002, as supplemented on November 11, 2002, November 13, 2002, December 21, 2004, July 6, 2005, September 27, 2005, March 20, 2006, March 30, 2006, June 28, 2006, September 28, 2006, May 17, 2007, and June 4, 2007, September 12, 2007, October 11, 2007, and February 6, 2008; (2) Renewal of Facility License No. R-88; (3) the related Safety Evaluation Report; and (4) the Environmental Assessment dated February 20, 2008. Documents may be examined, and/or

copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>.

If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the PDR Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland this 13th day of March, 2008.

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Privacy Act of 1974; Notice of Amended System of Records

ACTION: Notice to amend and republish system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974 (5 U.S.C. 552a), the Office of Personnel Management (OPM) is giving notice that it proposes to republish an amended system of records, OPM/Central-1, due to changes in technology by Retirement Systems Modernization (RSM). This system of records is an integrated application that works from one central database that allows OPM designated employees and contractors to access the records on a need to know basis in accordance with OPM and Federal rules, regulations and safeguard procedures for personally identifiable information. RSM will enhance the system's functionality to enable Federal employees and retirees to access personal and benefits-related information. This notice proposes to amend and republish an existing internal system of records.

DATE: The changes will be effective April 21, 2008, without further notice unless comments are received that would result in a contrary determination.

ADDRESSES: Send written comments to Office of Personnel Management, ATTN: Marc Flaster, Chief, Support Group, Center for Retirement and Insurance

Services, 1900 E Street, NW., Room 3313, Washington, DC 20415-7900.

FOR FURTHER INFORMATION CONTACT: Sharon Glick (412) 657-5013.

SUPPLEMENTARY INFORMATION: Notice to amend and republish system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974 (5 U.S.C. 552a), the Office of Personnel Management (OPM) is giving notice that it proposes to republish an amended system of records, OPM/Central-1, due to changes in technology by Retirement Systems Modernization (RSM). RSM is a strategic initiative of OPM to improve quality and timeliness of services to individuals covered by the Civil Service Retirement System (CSRS) and the Federal Employees' Retirement System (FERS), the Federal Employees' Group Life Insurance Program (FEGLI), and the Federal Employees Health Benefits Program (FEHBP) by modernizing business practices and technology that support the programs. The RSM program will transform the retirement process, and health and life insurance elections, by devising more efficient and effective business systems to respond to increased customer demand for higher levels of customer service and online self-service tools. This system of records reflects the republishing of the SORN from October 1999, as amended May 2000, inclusion of the prefatory uses as published in 1996 and the addition of two new routine uses.

U.S. Office of Personnel Management.

Linda M. Springer,
Director.

SYSTEM NAME:

Civil Service Retirement and Insurance Records.

SYSTEM LOCATION:

Deputy Associate Director, Center for Retirement and Insurance Services, Office of Personnel Management (OPM), 1900 E Street, NW., Washington, DC 20415-0001. Certain records pertaining to State income tax withholdings from annuitant payments are located with State Taxing Offices. Certain information concerning enrollment/change in enrollment in a health plan under the Federal Employees Health Benefits Program (FEHBP) may be located at other agencies. Certain records pertaining to overpayments must be forwarded to the Department of the Treasury for collection activity. Certain records pertaining to enrollment in a Preauthorized Debit Program (PAD) for sending recurring remittances to OPM for service credit and voluntary contributions accounts are maintained

with a lockbox bank, which operates the PAD program for OPM.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

a. Former Federal employees and members of Congress who performed service subject to the Civil Service Retirement System (CSRS) or Federal Employees' Retirement System (FERS).

b. Current Federal employees who have:

1. Performed Federal service subject to the CSRS or FERS other than with their present agency; or

2. Had data converted to the OPM Retirement Systems Modernization Program; or

3. Filed a designation of beneficiary for benefits payable under the CSRS; or

4. Requested OPM to review a claim for health benefits made under the FEHBP; or

5. Enrolled/changed enrollment in a plan under the FEHBP; or

6. Filed a service credit application in connection with former Federal service; or

7. Filed an application for disability retirement with OPM and are awaiting final decision, or whose disability retirement application has been disapproved by OPM.

c. Former Federal employees who died subject to or who retired under the CSRS or FERS, or their surviving spouses, and/or children who have received or are receiving CSRS or FERS benefits and/or benefits under the Federal Employees' Group Life Insurance (FEGLI) Program, or Federal Employees Health Benefits Program (FEHBP).

d. Former Federal employees who died subject to or who retired under a Federal Government retirement system other than CSRS or FERS, or their surviving spouses and/or children, who have received or are receiving benefits from FEGLI and/or FEHBP.

e. Applicants for Federal employment found unsuitable for employment on medical grounds.

f. Former spouses of Federal employees who have received or are receiving CSRS or FERS benefits, or who have filed a court order awarding future benefits.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system comprises those retirement service history records of employee's service in the Federal Government from their current employing agency if the employee has been converted to the Retirement Systems Modernization Program and/or an agency other than for the agency in which they may presently be employed.
