

FY2000 Federal Fleet Report

Dear Reader:

We are pleased to present the Federal Fleet Report for fiscal year 2000. This is the first report to be produced using the Federal Automotive Statistical Tool (FAST). FAST is an Internet-based system that permits Federal fleet operators to satisfy several previously distinct manual reporting requirements, and also produces several reports, including the Federal Fleet Report. FAST replaces a number of paper forms and manual processes. FAST is a joint effort developed by GSA and the Department of Energy, and combines several different reporting requirements.

We experienced significant delays in publishing the report for fiscal year 2000, for which we apologize. Implementation of enhancements took considerably longer than expected, and produced some unanticipated effects on the data. Also, a major training effort for reporting agencies was interrupted by the events of September 11, 2001. In order to assist agencies, the report closing date was extended several times. On the bright side, the fiscal year 2001 report will benefit from the lessons learned in preparing this report, and is expected to be published much more quickly. Our goal is to publish the Federal Fleet Report as soon as possible after the close of each fiscal year.

The enhancements that were added to FAST this past year included a number of data quality checks. These are algorithms that alert agencies when their reported data appear to be outside of expected norms; for example, number of vehicles acquired exceeds reported fleet size. We expect to refine the data quality checks and implement additional ones in the future.

We continue to work to improve FAST and the Federal Fleet Report. Our goal is to make them both a convenient means of complying with Federal reporting requirements, as well as a useful and timely management tool.

We trust that this report will be of use to you.

William T. Rivers

GLOSSARY	55

FISCAL YEAR 2000 FEDERAL FLEET REPORT

INTRODUCTION

OVERVIEW

Federal departments and agencies and their contractors use motor vehicles to perform their missions. Vehicles are obtained from three primary sources: purchase, commercial lease, and lease from GSA Fleet. This report presents the inventory, utilization, cost, and fuel use associated with this large fleet of vehicles. Data are summarized by civilian, military, and Postal Service; as well as domestic, foreign, and worldwide. Tables of data, charts that display the data graphically, and trends are included as well.

Privately owned vehicles used by employees on official business are not included; neither are short-term commercial rentals (less than 60 days).

DATA COLLECTION

This report summarizes data reported by Federal agencies in the Federal Automotive Statistical Tool (FAST), an internet-based reporting platform, which replaced the old Standard Form 82, *Agency Report of Motor Vehicle Data*. It also includes data reported by GSA's Office of Vehicle Acquisition and Leasing Services, which includes both GSA Fleet and GSA Automotive. GSA Fleet is the component of GSA that manages a fleet of non-tactical vehicles for use by other Federal agencies and their contractors; GSA Automotive is the office that writes vehicle specifications and contracts for the purchase of non-tactical motor vehicles on behalf of all Federal activities.

As in previous editions of this report, fleet data for the General Services Administration is displayed in various ways, depending on the table or chart. In some cases, GSA is an agency like any other, using fleet vehicles to perform its mission; in other cases GSA is a fleet service provider to other agencies, much like a commercial leasing company. Consequently, entries for GSA sometimes show a fleet of over 150,000 vehicles, with corresponding miles traveled and fuel used; and at other times GSA's vehicles, miles, and fuel use are distributed among the agencies by which the vehicles are used.

All agencies are required to report vehicle inventory and commercial leasing information. Large fleets (over 2,000 vehicles) are also required to report on cost, mileage, and fuel used; small agencies may report these data voluntarily, in which case they are also included in this report. The determination that a fleet is large or small depends on the management structure within the agency; consequently, a single agency may have multiple fleets, including large, small, or both. In fiscal year 2000 there are 20 large and 19 small fleets represented in this report.

DISTRIBUTION

The Federal Fleet Report is available only via the internet. Printed copies are not produced. Members of the Congress, Federal agencies, libraries, private industry, researchers, and others are welcome to view, download, or print the report from the Federal Vehicle Policy Division homepage at <http://www.gsa.gov/vehiclepolicy>.

Questions and comments concerning this report may be addressed to:

FY2000 FEDERAL FLEET REPORT

EXECUTIVE SUMMARY

PURPOSE:

This annual report is designed to provide essential statistical data for worldwide Federal motor vehicle fleet operations. Review of the report assists Government agencies in evaluating the effectiveness of the operation and management of their individual fleets in order to determine whether vehicles are being utilized properly and to identify those high cost areas where fleet expenses can be reduced. The report is also used by various segments of private industry in addition to State and local governments.

BACKGROUND:

This report summarizes statistical data on agency-owned, GSA Fleet and commercially-leased vehicles. The data also details each agency's fleet categorizing their vehicles by civilian, military, postal service and domestic, foreign, and worldwide. This report includes sedans, station wagons, ambulances, buses, and trucks. Additional detail is provided for sedan class and truck subtypes (4x2, 4x4, medium and heavy truck). Charts and graphs present the trend and detailed table data. No data is available for privately-owned vehicles.

SUMMARY OF DATA:

- Federally operated vehicles totaled 602,626, an increase of 3.3 percent over FY 1999 (Chart 2).
- There were 20 large fleets (over 2,000 vehicles) (Table 16).
- 37 percent of the Federal fleet is used by the Postal Service, 32 percent by civilian agencies, and 31 percent by the military (Chart 1B).
- 73 percent of the Federal fleet is owned by the using agencies, 25 percent is leased from GSA Fleet, and 2 percent is leased commercially (Chart 1C).
- Mileage increased 2.9 percent, from 4.627 billion to 4.761 billion (Table 4).
- Gallons of fuel consumed increased 2.9 percent, from 346.3 million to 356.5 million (Table 6).
- Reported use of alternative fuels decreased 71.8 percent, from 6.485 million gallon-equivalents to 1.830 million (Chart 8). This is almost certainly due to reporting errors, as well as difficulties getting accurate data from fueling stations and credit card processors.
- Total cost of operation rose 8.9 percent, from \$2.10 billion to \$2.29 billion (Chart 10).
- Domestic average cost per mile rose 5 percent, from \$0.4369 to \$0.4586. Foreign cost per mile increased 44.6 percent, from \$0.5097 to \$0.7370 (Chart 12).
- The number of commercially leased vehicles rose 12 percent, from 13,140 to 14,732 (Table 12).
- The total worldwide cost of commercial leasing increased 19.4 percent from \$64.9 million to \$77.5 million (Table 13).

FY2000 FEDERAL FLEET REPORT Executive Summary (Continued)

LARGE FLEETS:

Those agencies operating fleets worldwide of over 2,000 vehicles (including GSA Fleet provided, agency-owned, and commercially leased vehicles) are listed below. Large Fleets represent 99% of the entire fleet. Please refer to Table 16 for a complete breakdown.

Agency	# of Vehicles		% Change
	FY99	FY00	
Corps of Engineers Civil	7,336	6,901	-5.93%
Defense Agencies	8,606	2,479	-71.19%
*Defense Logistics Agency	-	2,346	-
Department of Agriculture	39,985	40,055	0.18%
Department of Air Force	46,276	60,524	30.79%
Department of Army	63,356	64,102	1.18%
Department of Energy	15,870	16,351	3.03%
Department of Health and Human Services	5,675	3,847	-32.21%
Department of Justice	41,394	41,474	0.19%
Department of Labor	4,016	5,967	48.58%
Department of Navy	41,210	39,785	-3.46%
Department of State	5,853	6,058	3.50%
Department of the Interior	33,923	25,022	-26.24%
Department of Transportation	10,473	10,336	-1.31%
Department of Treasury	17,824	22,276	24.98%
Department of Veterans Affairs	8,386	7,177	-14.42%
General Services Administration	2,214	2,375	7.27%
Tennessee Valley Authority	3,119	2,838	-9.01%
U.S. Postal Service	206,869	225,749	9.13%
United States Marine Corps	6,261	11,151	78.10%
Total Large Fleets	568,646	596,813	4.95%

One large Fleet, Defense Agencies, did not enter data in FAST. Some small fleets also did not report: Export-Import Bank of the United States, Federal Deposit Insurance Corporation, Federal Election Commission, Federal Labor Relations Authority, Federal Mediation and Conciliation Service, General Accounting Office, Library of Congress, National Foundation on the Arts and the Humanities, National Labor Relations Board, Nuclear Regulatory Commission, Overseas Private Investment Corporation, Peace Corps, Railroad Retirement Board, Securities and Exchange Commission, and the Selective Service Commission.

* Defense Logistics Agency was included in Defense Agencies in prior years.

These figures were adjusted from the FY 98 FFR.

FEDERAL FLEET OPTIONS

GOVERNMENTWIDE FLEET MANAGEMENT SERVICES

The General Services Administration established the Office of Governmentwide Policy, which includes the Federal Vehicle Policy Division, in December 1995. The Division writes the regulations governing fleet operations throughout the Federal government, and provides policy guidance and advice on issues of concern to Federal fleet operators. Publication of this report is one of the services provided by the Division.

For more information, contact:

General Services Administration
Office of Governmentwide Policy
Federal Vehicle Policy Division – MTV
1800 F Street, NW, Room 1241
Washington, D.C. 20405

Or visit the Division's website at <http://www.gsa.gov/vehiclepolicy>.

US GOVERNMENT CHARGE CARD PROGRAM

GSA is responsible for administering the U.S. Government Charge Card Program. The program provides an efficient and convenient method of obtaining fuel and services for Federally owned and operated vehicles, including boats and aircraft, as well as powered equipment (lawn mowers, chain saws, etc.), while adhering to all regulations, policies, and statutory requirements. Cards issued under the program are accepted at over 120,000 fueling stations across the country.

More information about the U.S. Government Charge Card Program is available from:

General Services Administration
Federal Supply Service
Support Services Division-FCFX
Washington, D.C. 20406

Or at the website <http://www.fss.gsa.gov/services/gsa-smartpay>.

VEHICLE LEASING

GSA Fleet is part of GSA's Office of Vehicle Acquisition and Leasing Services, a component of the Federal Supply Service. GSA Fleet is a centralized source for obtaining fleet vehicles and management services for Federal agencies and authorized contractors. GSA Fleet provides nearly every sort of non-tactical vehicle, from sedans to heavy equipment, including alternative fuel vehicles, at monthly and per-mile rates that cover all elements of cost, including fuel and maintenance. GSA Fleet is a non-mandatory source of supply, and therefore aims to provide vehicles and services at the lowest possible cost and the greatest possible convenience. GSA Fleet services are provided through a network of Regional Fleet Management offices, local Fleet Management Centers, and a centralized Maintenance Control Center.

For additional information about GSA Fleet, contact:

General Services Administration
Federal Supply Service
Office of Vehicle Acquisition and Leasing Services
GSA Fleet – FFF
1941 Jefferson Davis Highway
Arlington, VA 22202

Or visit the GSA Fleet website, <http://www.fss.gsa.gov/vehicles>

VEHICLE PURCHASING

Another component of the Office of Vehicle Acquisition and Leasing Services is GSA Automotive, GSA's vehicle purchasing arm. This office writes the specifications for vehicles acquired by Federal agencies, and buys non-tactical vehicles on behalf of all Federal agencies, including GSA Fleet. Volume buys and skillful negotiating and contracting produce low prices.

For more about GSA Automotive, contact:

General Services Administration
Federal Supply Service
Office of Vehicle Acquisition and Leasing Services
GSA Automotive – FFA

Or see the GSA Automotive website at <http://www.fss.gsa.gov/vehicles>

Chart 7A: Average Miles per Vehicle by Vehicle Type

Source: Table 5

Dividing the in-use vehicle inventory (commercially leased plus federally owned) into total miles operated derives average miles per vehicle. Miles per vehicle is the primary measure of fleet utilization. The tables show the mile changes over the past five years. Please refer to Table 5 for a breakdown of the average miles per vehicle type.

Data on this table are from two sources: GSA Fleet provided the miles and cost, while individual agencies reported the number of vehicles. Average miles were calculated from these two sources. Due to differences in reporting, anomalies result in some cases.

Fuel Tables and Charts:

Fuels Used, Acquisitions, and Consumption

Chart 15: Total Vehicle Inventory by Fuel Type

Source: Table 17

Total: 602,626

Fuel	FY98 Vehicles using Fuel Type	FY99 Vehicles using Fuel Type	% Diff	FY2000 Vehicles using Fuel Type	% Diff
Biodiesel***	73	136	86.30%	-	-100.00%
Diesel	55,242	59,215	7.19%	67,691	14.31%
Electric	160	164	2.50%	1,090	564.63%
E-85	7,767	8,272	6.50%	35,804	332.83%
Gasoline	488,168	495,173	1.43%	479,757	-3.11%
LNG*	-	-	0.00%	59	0.00%
M-85	738	304	-58.81%	81	-73.36%
LPG	142	65	-54.23%	1,274	1860.00%
CNG	14,385	14,776	2.72%	16,870	14.17%
Other**	392	392	0.00%	-	-100.00%
Total	567,067	578,497	2.02%	602,626	4.17%

* CNG and LNG were not separately reported prior to FY 2000.

** Hydrogen use was not reported in FY2000 and dropped from this report - prior years values were consolidated under "Other."

*** For all alternative fuel vehicles except biodiesel, there is a corresponding alternative fuel vehicle for each alternative fuel. Biodiesel is unique in that it is an alternative fuel that is used in conventional diesel engines. Consequently there is no category for biodiesel as an alternative fuel vehicle. Reported acquisitions of biodiesel vehicles in prior years are erroneous.

Chart 16: Vehicle Acquisitions by Fuel Type

This Chart compares vehicle acquisitions by fuel type.

Total vehicle acquisitions are underreported as 1) this was a new reporting requirement in FY97, 2) foreign fleets are not required to provide this data and 3) some agencies are unable to provide the data. The FY97 figures for new acquisitions were very low due to the agencies' initial difficulty reporting this information

Acquisition Trends

	FY97	FY98	% Diff.	FY99	% Diff.	FY2000	% Diff.
Gasoline	14,097	48,338	242.90%	54,625	13.01%	38,561	-29.41%
Diesel	489	2,503	411.86%	3,100	23.85%	1,700	-45.16%
Biodiesel	-	-	-	5	-	-	-
Electric	139	36	-74.10%	11	-69.44%	620	5,536.36%
Ethanol/E-85	160	3,015	1,784.38%	3,886	28.89%	5,615	44.49%
Hydrogen	-	-	-	-	-	-	-
Methanol/M-85	9	104	1,055.56%	33	-68.27%	10	-69.70%
LPG	1	91	9,000.00%	33	-63.74%	63	90.91%
NG	172	1,139	562.21%	1,836	61.19%	1,469	-19.99%
Other	12	-	-	107	-	-	-
Total Acquisitions	15,079	55,226	266.24%	63,636	15.23%	48,038	-24.51%

For all alternative fuel vehicles except biodiesel, there is a corresponding alternative fuel vehicle for each alternative fuel. Biodiesel is unique in that it is an alternative fuel that is used in conventional diesel engines. Consequently there is no category for biodiesel as an alternative fuel vehicle. Reported acquisitions of biodiesel vehicles in prior years are erroneous.

For all alternative fuel vehicles except biodiesel, there is a corresponding alternative fuel vehicle for each alternative fuel. Biodiesel is unique in that it is an alternative fuel that is used in conventional diesel engines. Consequently there is no category for biodiesel as an alternative fuel vehicle. Reported acquisitions of biodiesel vehicles in prior years are erroneous.

GLOSSARY

ACQUISITION—For most agencies, vehicles purchased. GSA Fleet includes both vehicles it owns as well as vehicles acquired through volume leases; there is no difference to the using agency.

ACQUISITION COST—The initial purchase price of a vehicle, including all costs incidental to placing it in service, such as shipping and factory prep.

ASSIGNMENT—Another term for lease from GSA Fleet. Assignment can occur whenever one accountable organizational element makes its vehicle(s) available for use by another.

COMMERCIAL LEASE—Acquisition of a vehicle for 60 days or more from a commercial source. Acquisition of vehicles from commercial sources for less than 60 days is considered short-term rental, and not reported.

DEPRECIATION— A major component of vehicle cost; generally, the difference between acquisition cost and anticipated sales proceeds. For purposes of this report, GSA Fleet reports its depreciation cost expressed as a cost-per-mile, which is then applied to other agencies' reported mileage (except Postal Service, which supplies its own depreciation cost). Agencies on appropriated funds typically do not recognize depreciation expense or account for it in their internal accounting systems.

DIRECT COST—Operating expenses attributable to an individual vehicle or class of vehicles, such as maintenance and depreciation.

DISPOSAL—Removal of a vehicle from inventory, usually by sale, but also through transfers and donations. For activities on revolving funds, proceeds from disposal are available for the purchase of replacement vehicles. For agencies on appropriations, disposal proceeds usually do not return to the fleet activity.

DOMESTIC—Referring to any State, Commonwealth, territory, or possession of the United States.

FOREIGN—Outside any State, Commonwealth, territory, or possession of the United States.

GSA FLEET LEASE—A vehicle acquired by a Federal agency or authorized contractor from GSA Fleet. Such vehicles are usually Government owned, but are treated similarly to commercial leased vehicles by using agencies.

INDIRECT COST—Expenses that cannot be readily attributed to an individual vehicle or class of vehicles because they are incurred in connection with overall fleet operation: office supplies, printing, utilities, and other general management and overhead.

LARGE FLEET—2,000 or more reportable vehicles, domestic or foreign, for which accountability is held by a Federal agency's organizational element or by a contractor. Large fleets are required to report on inventory, commercial leasing, cost, mileage, and fuel used.

OWNING AGENCY—Federal agency or organizational element having accountability for Government owned vehicles. Characterized by the authority to take possession of, assign, reassign, or sell a vehicle, regardless of which agency or element is using the vehicle.

PASSENGER VEHICLE—Sedans and station wagons. Although passenger vans and sport utilities are sometimes considered passenger vehicles, Federal Standards and this report classify them as light trucks.

REPORTABLE VEHICLE—All commercial-design, non-tactical vehicles, excluding special-purpose equipment.

SMALL FLEET—Less than 2,000 reportable vehicles held by an organizational element of a Federal agency. Small fleets are required to report only vehicle inventory and commercial leasing information.

USING AGENCY—The Federal agency or organizational element with day-to-day use of a vehicle that it does not own. Agencies assigned vehicles by GSA Fleet are using agencies, GSA Fleet is the owning agency.

UTILIZATION—A measurement of a vehicle's rate of use, usually expressed in miles per vehicle per month or per year.

VEHICLE CLASS—A system of categorizing vehicles based on the Federal Standards.
