Publications of the U.S. Geological Survey in the Arkansas District

The Arkansas District has been preparing reports on water resources for several years. Professional Papers, Water-Supply Papers, and Bulletins are sold by the U.S. Geological Survey, Earth Science Information Center; single copies of circulars still in print are available upon request from that address. Hydrologic Investigations Atlases, Hydrologic Unit Maps, and other maps pertaining to Arkansas are sold by the U.S. Geological Survey, Map Distribution. Requests for topographic and geologic maps are often received by the Arkansas District. These maps are sold by the Arkansas Geological Commission for a nominal fee. U.S. Geological Survey Water-Resources Investigations Reports and Open-File Reports pertaining to Arkansas are available from the Arkansas District Office. In addition, these reports may be purchased as paper copy or microfiche from the Branch of Information Services.
