Inputs, Outputs, Activities:

FY 2004 Program:

International Fund for Ireland (\$18,391,000 ESF). The U.S. Government's contribution to the International Fund for Ireland (IFI), administered by USAID, is used in the following initiatives:

- 1) Disadvantaged Areas Initiative. This initiative targets funding at areas of greatest need. Projects under this initiative focus on economic regeneration and community improvement, with special emphasis on employment and business creation.
- 2) Economic Development Initiative. Projects are designed to strengthen the economic base by stimulating local enterprise and self-employment, encouraging the growth of small and medium sized companies, encouraging tourism, and providing support for the regeneration of derelict properties in towns and villages for commercial purposes.
- 3) Communities Initiative. This initiative provides people, particularly those in the most disadvantaged areas, with the skills, resources and self-confidence to undertake the social and economic regeneration of their communities. It also helps to improve the employability of disadvantaged young people by providing training, work experience and personal development. Special emphasis in the Communities Initiative is on leadership potential, reconciliation and conflict resolution.

The implementer is the International Fund for Ireland.

Irish Peace Process Cultural and Training Program Act of 1998 (Walsh Visa Program) (\$3,479,000 ESF). While FY 2003 is the last year in which new participants will arrive to work in the United States under current legislation, funds will be needed in FY 2004, FY 2005, and FY 2006 to provide social services and monitoring for participants until their return home. The components of the program include: 1) Targeting the long-term (three months or more) unemployed and those who have been made redundant or received redundancy notices. 2) Admission to the program of a small number of employed persons who have been nominated by their employers. 3) Equality of opportunity in relation to community background, ethnic origin, gender and disability throughout all phases of the Program. The implementers are expected to continue to be Northrop-Grumman Information Technology (prime), the Ireland Institute of Pittsburgh, PA (sub), the Irish Immigration Center of Boston, MA (sub), and the Metropolitan Development Agency of Syracuse, NY (sub).

The State Department has partnered with the Department of Employment and Learning of

Northern Ireland and the Training and Employment Authority of the Republic of Ireland to provide oversight of the program.
