

World Agroforestry Centre

TRANSFORMING LIVES AND LANDSCAPES

2ND WORLD CONGRESS OF AGROFORESTRY

23 – 28 August 2009, Nairobi, Kenya

Scientist Support Programme for Developing Countries

APPLICATION FORM

Important information

Objectives

- To stimulate and uplift the standard of Developing Country scientists' contributions at the WCA2; and
- To encourage and support the writing, presentation and publishing of agroforestry research results by Developing Country scientists.

Eligibility

Any developing country scientist currently undertaking agroforestry research may apply for support to carry out any of the following things:

1. Analyse data and write up the results as a scientific publication (support may include software and some training)
2. Attend the 2nd World Congress on Agroforestry and present their research results as papers or posters
3. Mentorship on any of the above.

You may apply for all items identified above or part thereof.

Conditions

- The applicant must have completed all data collection
- The relevance and quality of data will be important criteria for assessing applications
- A competitive process will be applied
- For applicants wishing to be supported to attend the Congress, the paper must be accepted for publication in the proceedings
- Graduate students, women, and scientists from partner institutions are encouraged to apply, but scientific excellence will be supreme
- Applications for retroactive coverage of any expenses will not be accepted
- It is inappropriate to apply for support for items covered by the project donor

Procedure

All applicants must fill in the attached application form. In addition, the following items must be attached:

1. A summary of the research being implemented (two pages only). This should answer the following 4 questions:
 - What is the problem your research will contribute to solving?
 - What are the research questions and hypotheses being tested?
 - How do you intend to use the findings?
 - What is your future plan following completion of this research?

2. A summary of progress on the research and expected outputs (one page)
3. A full curriculum vitae
4. A letter of endorsement by the employer or university (for students)

Application details: Please fill in all details (Missing out any details may delay consideration)
