CURRENT HUMANITARIAN SITUATION

Government of National Unity (GONU)

On July 9, Sudan's new GONU was inaugurated and an interim constitution was signed by President al-Bashir during a ceremony attended by the heads of states and representatives of governments from more than 20 countries, including Deputy Secretary of State Robert B. Zoellick and USAID Administrator Andrew S. Natsios. The interim power-sharing constitution is the culmination of the Comprehensive Peace Agreement (CPA) signed in January that ended 21 years of civil war between North and South Sudan. On July 10, in accordance with the CPA, President al-Bashir lifted of the state of emergency in all areas of the country except for Darfur, Kassala, and Red Sea State.

Security

On July 11, the U.N. Office for the Coordination of Humanitarian Affairs (OCHA) reported that 6 of the 10 local non-governmental organization (NGO) staff abducted by the Sudan Liberation Movement/Army (SLM/A) have been released. The humanitarian workers were abducted in three separate incidents. The U.N. Department of Safety and Security (UNDSS) is negotiating with the SLM/A for the release of the four workers still being detained.

Re-registration

Violence on July 8 thwarted an attempt to re-register internally displaced persons (IDPs) for food distribution in the eight camps in and around Geneina town. Despite extensive preparations, crowds of youth and men threw rocks and wielded sticks and knives at registration teams comprised of local and international U.N. and NGO staff. As a result of the violence, 10 local staff members suffered minor injuries, at least a dozen cars were damaged, and the international community withdrew temporarily from the camps. A USAID Disaster Assistance Response Team (USAID/DART) member attended the re-registration attempt. At present, the situation in Geneina is reported to be calm and almost all NGOs have returned to the IDP camps to resume work. The UNDSS reported that the area has been reopened for U.N. travel.

Voluntary Relocations

The USAID/DART reports that as of July 12, 16,662 people had moved from Abu Shouk to the new Al Salaam IDP camp in North Darfur. Approximately 30,000 IDPs are expected to be relocated. The relocation process will be suspended for one week due to the lack of materials to finish the latrines, as well as the U.N. World Food Program's (WFP) ongoing July food distribution, which

will be better for the families to receive in Abu Shouk before departing. Al Salaam camp has benefited from pre-planning and good coordination. The camp is located in a flat area on the opposite side of a wadi (river) from Abu Shouk. A topographic survey and analysis indicated that water drainage would be toward the wadi and that flooding would not be a major risk. Most water and sanitation and health facilities, as well as relief commodities, were in place prior to the start of the relocations.

USAID/DART Assessment

• The USAID/DART recently completed an assessment of Zalingei in eastern West Darfur. IDP arrivals in camps are stabilizing, no major security issues have been reported recently, and food distributions are proceeding on schedule. Although the humanitarian situation has improved, largely due to the successful efforts of relief agencies, the situation remains fragile as the improvements are not sustainable and the reduction of access to health care due to funding constraints remains a concern. According to the USAID/DART, insecurity makes residents reluctant to move beyond the town and camps to reach outside areas that remain cut off from the economic linkages and assistance available in Zalingei.

U.N Delegation.

• According to the U.N., during a two-day visit to North Darfur, Special Representative of the U.N. Secretary General (SRSG) Jan Pronk met with SLM/A leadership. The USAID/DART reports that during a meeting with the international community in El Fasher, Mr. Pronk noted that the humanitarian situation in North Darfur has improved since last year due to increased security, the presence of the African Union (AU), a unified approach by the international community, and international political intervention. Although clashes between Government of Sudan (GOS), SLM/A, and Justice and Equality Movement (JEM) forces have diminished, banditry and looting are increasing. The SRSG strongly condemned SLM/A attacks on humanitarian workers.

Kalma Camp

- According to the USAID/DART, sheikhs (tribal leaders) and IDPs agreed to a headcount in Kalma camp in South Darfur within the next two weeks. Sheikhs offered to assign 150 IDPs to provide security for IDPs' homes while the occupants are participating in the headcount and to verify that residents from Nyala town are not attempting to be included in the registration lists. The sheikhs agreed to allow GOS police to provide security along the camp perimeter, to prevent outsiders from entering during the headcount.
- The GOS-imposed commercial blockade on Kalma camp, which began on May 19, remains in place. IDPs may hand carry a limited number of goods, but have been harassed when attempting to transport goods by donkey. As previously reported, NGOs and OCHA are engaged in negotiations with the GOS Humanitarian Aid Commission (HAC) and South Darfur officials to lift the blockade.

Humanitarian access

• Rains have begun to affect humanitarian access and conditions throughout Darfur. Road conditions are rapidly deteriorating due to rising flood waters and impassable wadis, hindering transportation and access. According to U.N. reports, the road to Sania Afundu in South Darfur is inaccessible due to heavy rains. The USAID/DART reported that an AU soldier recently drowned when his vehicle was hit by a flash flood in a wadi near Guldu, South Darfur. Following heavy rains and flooding in Mornei camp, West Darfur, and Danouj camp, North Darfur, some IDPs are being relocated to higher ground. Serious flooding has also been reported in sections of Kalma camp.

Health

According to the USAID/DART, the GOS Ministry of Health reported that the measles vaccination
in Abu Shouk camp scheduled for July has been postponed until August. The campaign will target
camp residents under 15 years of age.

PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for their humanitarian emergency response efforts in Darfur, Sudan can be found at www.interaction.org.
- USAID encourages cash donations because they: allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, warehouse space, etc); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; ensure culturally, dietary, and environmentally appropriate assistance.
- More information on making donations and volunteering can be found at:

²State/PRM figures do not include un-earmarked Africa-wide contributions to ICRC and UNHCR.
