

**Before and After Hurricane Gustav Images—South Pass, Louisiana  
(Landsat Thematic Mapper and Extended Thematic Mapper+ Satellite Imagery)**

May 19, 2008 Landsat 5 TM

September 9, 2008 Landsat 7 ETM+

Vegetation damage from high salinity water introduced by surge is indicated by a decrease in reflected near-infrared light by marsh vegetation as compared to the August 30, 2008 Landsat 5 TM image.
