Subject: PCB cleanup

Good Morning,
Please add my name to the list of people who think that GE's proposal to cleanup the PCB's in the Housatonic River falls way short of what is needed. The River passes close to my house and it breaks my heart that you cannot eat the fish or swim in it. GE claims in their latest ads to be environmentally sensitive. Let them really prove it by cleaning all of the PCB's once and for all time. Please Dont let them get away with a quick fix.

Sincerely
TOM FARLEY
