RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

PLACARDS TENDERED: YES ☒ NO ☐

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packaged, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packaged, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packaged, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

FREIGHT PREPAID except when box at right is checked ☐ Check box if charges are to be collect

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

PLACARDS TENDERED: YES ☐ NO ☐

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable International and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

FREIGHT PREPAID except when box at right is checked ☐ Check box if charges are to be collect

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

PLACARDS TENDERED: YES ☐ NO ☐

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

FREIGHT PREPAID except when box at right is checked ☐ Check box if charges are to be collect

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

FREIGHT PREPAID except when box at right is checked ☐ Check box if charges are to be collect

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable International and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

PLACARDS TENDERED: YES ☒ NO ☐

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

FREIGHT CHARGES
FREIGHT PREPAID except when box at right is checked ☐ Check box if charges are to be collect

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.

Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

		COMPANY: DRS				

PLACARDS TENDERED: YES ☒ NO ☐

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note — (1) Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property, as follows: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding _____ per _____."
(2) Where the applicable tariff provisions specify a limitation of the carrier's liability absent a release or a value declaration by the shipper and the shipper does not release the carrier's liability or declare a value, the carrier's liability shall be limited to the extent provided by such provisions. See NMFC Item 172.
(3) Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation. See Section 2(e) of Item 360, Bills of Lading, Freight Bills and Statements of Charges and Section 1(a) of the Contract Terms and Conditions for a list of such articles.

I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name and are classified, packed, marked and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Appendix G

Bills of Lading for Transport of Drums and Capacitors to Temporary Storage / Waste Manifests for Off-Site Transport of Drums and Capacitors

TABLE G-1
SUMMARY OF BILLS OF LADING FOR TRANSPORT OF EXCAVATED CAPACITORS AND DRUMS TO TEMPORARY STORAGE

FINAL COMPLETION REPORT FOR THE NEWELL STREET AREA I REMOVAL ACTION
GENERAL ELECTRIC COMPANY - PITTSFIELD, MASSACHUSETTS

Date	Overpack Drum ID(s)	Contents	Destination
10/22/2003	A0976, A0977	Capacitors	Building 78
10/23/2003	A0973, A0974, A0975	Capacitors	Building 78
10/30/2003	A0970	Capacitors	Building 78
11/3/2003	A0971	Capacitors	Building 78
11/5/2003	A0514, A0515, A0517, A0518, A1102	Capacitors	Building 78
11/5/2003	D0300	Drum	Building 78
11/11/2003	A0516	Capacitors	Building 78
11/12/2003	C0300, C0261	Capacitors	Building 78
11/4/2005	D0258	Drum	Building 78
11/9/2005	D0560	Drum	Building 78

Note:
1. As described in Section 4.5 of this report, capacitors and liquid-containing drums discovered during the course of remediation activities were placed into overpack drums, characterized (liquid-containing drums only), and staged within GE's on-plant hazardous waste storage facility (i.e., Building 78).

TABLE G-2
SUMMARY OF MANIFESTS FOR OFF-SITE TRANSPORT OF EXCAVATED CAPACITORS AND DRUMS

FINAL COMPLETION REPORT FOR THE NEWELL STREET AREA I REMOVAL ACTION
GENERAL ELECTRIC COMPANY - PITTSFIELD, MASSACHUSETTS

Date Shipped	Manifest ID	Overpack Drum ID(s)	Destination
12/19/2003	02047108	A0514, A0515, A0516, A0517, A0518, A0970, A0971, A0973, A0974, A0975, A0976, A0977, A1102, C0261, C0300	Port Arthur, Texas
7/20/2004	NYH0636066	D0300	Model City, New York
5/19/2006	OES00474	D0560, D0258	Port Arthur, Texas

Note:

1. As described in Section 4.5 of this report, overpack drums containing capacitors and liquid-containing drums discovered during the course of remediation activities were transported from temporary storage at Building 78 to Waste Management's disposal facility located in either: 1) Port Arthur, Texas; or 2) Model City, New York.

FREIGHT PREPAID except when box at right is checked ☐ Check box if charges are to be collect.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of, said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.
Shipper hereby certifies that he is familiar with all the lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Note:

1. The information presented in this table is based on calculations initially presented in the *Final RD/RA Work Plan for Newell Street Area I* (Final Work Plan; BBL, August 2003), excluding the calculations presented in that Work Plan for flood storage gained due to removal of the soil piles on Parcels J9-23-19 and J9-23-20. The Final Work Plan was conditionally approved by EPA in a letter to GE dated September 15, 2003, and finally approved by EPA in a letter to GE dated October 9, 2003. The remediation and restoration activities conducted at Newell Street Area I were performed in accordance with the Technical Drawings in the Final Work Plan. As a result, the calculations shown in this table should represent the flood storage gains and losses resulting from the activities actually performed, as reflected on the as-built survey drawings and engineered barrier plan.

Grant of Environmental Restriction and Easement – July 2, 2003

GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT
42 U.S.C. § 9601 *et seq.*, and M.G.L. c. 21E, § 6.

[Note: This instrument is established as an institutional control for a federal Superfund Removal Site, pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604.]

EPA Site Name: GE-Pittsfield Housatonic River Site (Newell Street Area I)
DEP Site Name: GE Pittsfield Disposal Sites (Newell Street Area I)
DEP Disposal Site No. GECD440

This GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT (the "Grant") is made as of this 2ND day of JULY, 2003, by Robert Stomsky, of Pittsfield, Berkshire County, Massachusetts ("Grantor").

WITNESSETH:

WHEREAS, Grantor is the owner in fee simple of a certain parcel of land located at 269 Newell Street in Pittsfield, Berkshire County, Massachusetts, with the buildings and improvements thereon; as evidenced by Certificate of Title No. 4898 in Book 22, Page 93, of the land court records in the Berkshire County (Middle District) Land Registration Office; RS 9-22-06

WHEREAS, said parcel of land, known and/or numbered as Tax Parcel No. J9-23-24, which is described and shown on a plan registered in the Berkshire County Land Registration Office as Land Court Plan No. 8372-I (a copy of a portion of which is filed with Certificate of Title No. 2535) and is more particularly bounded and described in Exhibit A attached hereto and made a part hereof (the "Property"), is subject to this Grant;

WHEREAS, the Property and certain restricted areas of the Property referred to as the Open Soil/Vegetated Area, the Other Ground Covering Feature Area, and the Groundwater Response Action Component Area (if any is established in the future), all as defined below (collectively, all of the foregoing restricted areas comprising the "Restricted Area"), are subject to covenants, restrictions, easements and other rights and obligations under this Grant; the Restricted Area being shown on a plan entitled "Sketch Plan" and consisting of one sheet, which is attached hereto as Exhibit B and is made a part hereof, as such plan shall be revised by the General Electric Company ("GE"), with notice to Grantor and written approval of Grantee, and in accordance with the Consent Decree and Statement of Work attached thereto (as such documents are defined below), to show: (i) any changes in, and the legal description by metes and bounds of, the boundary of the restricted areas resulting from completion of the non-groundwater Response Actions at the Property; and/or (ii) the location of any Groundwater Response Action Component Area, if and when any such Response Action to address groundwater contamination is undertaken at the Property; said plan, with any such revisions, being collectively referred to herein as the "Plan of Restricted Area";

LAND COURT DOCUMENT # 34518
PAGE 1 OF 31

WHEREAS, the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, a duly constituted agency organized under the laws of the United States of America and having a regional office at One Congress Street, Boston, Massachusetts 02114 ("EPA"), has identified a site, comprised of the GE facility in Pittsfield, Massachusetts, the Housatonic River adjacent to and downstream of the GE facility, and other areas, all as more particularly described in the Consent Decree (defined below), known as the "GE-Pittsfield Housatonic River Site" (the "Site"), as a result of the release of hazardous substances at or from the GE facility, as such terms are defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9601 et seq.;

WHEREAS, the MASSACHUSETTS DEPARTMENT OF ENVIRONMENTAL PROTECTION, a duly constituted agency organized under the laws of the Commonwealth of Massachusetts and having an office at One Winter Street, Boston, MA 02108 ("DEP"), as a result of the release of oil and/or hazardous materials at the Site, as those terms are defined in the Massachusetts Oil and Hazardous Materials Release, Prevention and Response Act, M.G.L. c. 21E ("Chapter 21E"), has placed the Site and/or portions of the Site on the Massachusetts List of Confirmed Disposal Sites and Locations To Be Investigated, pursuant to Chapter 21E, and has assigned to the portion of the Site containing the Property (known in the Consent Decree as Newell Street Area I) DEP Disposal Site Number GECD440, pursuant thereto;

WHEREAS, EPA regulates activities at hazardous substance disposal sites pursuant to CERCLA and the National Contingency Plan, 40 C.F.R. 300.400, *et seq.*, as amended (the "NCP"), and DEP regulates activities at disposal sites pursuant to Chapter 21E and the Massachusetts Contingency Plan, 310 C.M.R. 40.0000, as amended (the "MCP"), respectively;

WHEREAS, the Property is situated within the Site, and specifically within an area of the Site known as Newell Street Area I;

WHEREAS, GE has entered into a Consent Decree in connection with the Site with the United States, the State of Connecticut, and the Commonwealth of Massachusetts (the "Commonwealth") in United States of America, State of Connecticut, and Commonwealth of Massachusetts v. General Electric Company, Civil Action No. 99-30225-MAP et seq., entered by the United States District Court for the District of Massachusetts on October 27, 2000 (the "Consent Decree");

WHEREAS, the Consent Decree and an accompanying Statement of Work ("SOW") require the performance of certain Response Actions (as defined below) at the Site or portions thereof;

WHEREAS, the Response Actions are ongoing at the Site and include work at the Property;

WHEREAS, EPA has determined and the Consent Decree provides that certain easements, rights, obligations, covenants, and restrictions, as more particularly set forth below, at the Property and at certain restricted areas located within the Property, would ensure the protectiveness and integrity of the Response Actions;

LAND COURT DOCUMENT # 34518
PAGE 2 OF 31

WHEREAS, DEP has provided EPA with review and comment on the Response Actions, and agrees that such easements, rights, obligations, covenants, and restrictions, as aforesaid, would ensure the protectiveness and integrity of the Response Actions;

WHEREAS, because the Response Actions, as they affect the Property, are a Removal Action under CERCLA, EPA has requested that DEP accept the grant of such easements, rights, obligations, covenants, and restrictions, as aforesaid, pursuant to its authority under M.G.L. c. 21E, § 6;

WHEREAS, Grantor has agreed to grant the aforesaid easements, rights, obligations, covenants and restrictions, as more particularly set forth below, to DEP and its assigns, pursuant to an agreement between the Grantor and GE;

WHEREAS, EPA has taken into consideration the plans for the Response Actions at the Property and has determined, after DEP review and comment, that the covenants, restrictions and easements established herein shall be in full force and effect immediately, except that certain of said covenants and restrictions, identified below, shall not apply to activities at the Property prior to the Recording and/or Registration of a Notice of Completion (as defined below);

WHEREAS, upon completion of the Response Actions at the Property, GE shall Register a Notice of Completion (defined below), indicating that the Response Actions at the Property have been completed and that the covenants and restrictions that were not previously applicable to activities at the Property shall henceforth apply to such activities (including any such activities commenced prior to the Registration of the Notice of Completion); and

WHEREAS, GE shall also Register (i) a revised Plan of Restricted Area, as described above and referenced in the Notice of Completion, to show both any changes in the boundary of, and the legal metes and bounds description of, the restricted areas resulting from completion of the non-groundwater Response Actions at the Property; and/or (ii) a revised Plan of Restricted Area, as described above, to show the location of any Groundwater Response Action Component Area.

NOW, THEREFORE, GRANTOR does hereby COVENANT AND DECLARE that the Property shall be subject to the restrictions on activity and use set forth below, and does GIVE, GRANT AND CONVEY to DEP ("Grantee"), as a gift, with QUITCLAIM COVENANTS, (1) the perpetual right to enforce said activity and use restrictions, and (2) an environmental protection and access easement of the nature and character, and for the purposes hereinafter set forth, with respect to the Property (collectively, the "Environmental Restriction and Easement").

Said Environmental Restriction and Easement is subject to the following terms and conditions:

1. **Purpose.** It is the purpose of this instrument to establish covenants, restrictions and easements, all of which shall run with the land, to facilitate Response Actions to address

environmental contamination and to protect human health and the environment by reducing the risk of exposure to contaminants.

2. Definitions. For purposes of this instrument, the following terms shall have the following meanings:

A. "Groundwater Response Action Component Area" shall mean those areas of the Property (if any) designated as such on a revised Plan of Restricted Area; generally such areas contain components of the response action for groundwater at the Property, if any.

B. "Health and Safety Protocol" shall mean the Health and Safety Protocol attached hereto as Exhibit C and incorporated herein by reference.

C. "Licensed Site Professional" or "LSP" each shall mean a hazardous waste site cleanup professional, as defined in M.G.L. c. 21A, § 19, holding a valid license issued by the Board of Registration of Hazardous Waste Site Cleanup Professionals, pursuant to M.G.L. c. 21A, §§ 19 through 19J.

D. "Notice of Completion" shall mean a written notice applicable to the Property, executed by GE and bearing the signed approval of Grantee, which shall: (i) state that the Response Actions at the Property have been completed; (ii) state that certain provisions of this Grant that were not previously applicable to activities at the Property have become applicable to such activities in accordance with this Grant; (iii) reference a revised Plan of Restricted Area, note that such Plan has been revised to show the legal description of, and any changes in, the boundary of the restricted areas as a result of the completion of the Response Actions, and state that such revised Plan has been or will be Registered in accordance with this Grant; and (iv) include, as applicable, Registration information for said revised Plan, if available.

E. "Open Soil/Vegetated Area" shall mean, collectively, those areas of the Property designated as such on the Plan of Restricted Area; such areas consist of any and all areas of the Property other than the Other Ground Covering Feature Area.

F. "Other Ground Covering Feature Area" shall mean, collectively, those areas of the Property designated as such on the Plan of Restricted Area; such areas are where building foundations, interior slabs, exterior slabs, paving and concrete are located.

G. "Registered" and its various conjugations shall mean filed with the Berkshire County Land Registration Office, conjugated as appropriate;

H. "Response Actions" shall mean the environmental response actions required to be undertaken at the Site or portions thereof pursuant to the Consent Decree and SOW (designated as Removal Actions under CERCLA), including (but not limited to) source control measures, soil removal, capping of contaminated soil, groundwater monitoring and (if necessary) response actions to address groundwater contamination, other actions to address existing contamination, institutional controls in the nature of restrictive covenants to prevent certain activities and uses at

various properties, and certain operation and maintenance activities necessary to maintain the effectiveness of the response actions.

I. "Soil Management Protocol" shall mean the Soil Management Protocol attached hereto as Exhibit D and incorporated herein by reference.

J. "Statement of Work" or "SOW" shall mean the Statement of Work for Removal Actions Outside the River, which is Appendix E of the Consent Decree;

K. "Utility Work" shall mean the maintenance and repair of pipes, lines and other such conveyances for water, sewer, storm-water, steam, gas, fuel oil, electricity, and communications, but not the installation of new pipes, lines, or other such conveyances.

3. Restricted Activities and Uses. Except as provided in Paragraph 4 ("Permitted Activities and Uses"), Paragraph 7 ("Conditional Exceptions From Restricted Activities and Uses"), Paragraph 8 ("Applicability"), and/or Paragraph 9 ("Emergency Excavation"), Grantor shall not perform, suffer, allow or cause any person to perform any of the following activities or uses in, on, upon, through, over or under the Property or portions thereof:

A. residential activity or use;

B. day care and educational (for children under eighteen (18) years of age) activity or use;

C. community center (for children under eighteen (18) years of age) activity or use;

D. recreational activity or use;

E. agricultural activity or use;

F. extraction, consumption, or utilization of groundwater underlying the Property, including without limitation, extraction for potable, industrial, irrigation, or agricultural use;

G. excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil;

H. any activity or use that would interfere with, or would be reasonably likely to interfere with, the implementation, operation, or maintenance of any aspect or component of the Response Actions already constructed or under construction, or of which Grantor has notice, including, without limitation, any groundwater contaminant containment measures or barriers situated within the Groundwater Response Action Component Area (if any) or any groundwater monitoring wells.

The restriction set forth in subparagraph 3.G, above, shall not apply to activities which begin after the time that this Grant has been Registered and end before the time that the Notice of Completion has been Registered. Notwithstanding the foregoing, any interest in the Property

LAND COURT DOCUMENT # 34518
PAGE 5 OF 31

acquired during the aforesaid time period shall nonetheless be subject to the provisions of subparagraph 3.G when they become applicable. Furthermore, during the aforesaid time period, Grantor shall not perform, suffer, allow or cause any person to perform in, on, upon, through, or under the Property or portions thereof, any digging, drilling, excavating or other intrusive activity into, or any other disturbance of, the surface of the ground and/or underlying soil (apart from the activities described in Paragraph 8), unless Grantor first provides fourteen (14) days' advance written notice to Grantee and EPA.

4. Permitted Activities and Uses. Grantor reserves the right to perform, suffer, allow or to cause any person to perform any activity in, on, upon, through, over or under the Property, or make any use of the Property, that is not restricted by the provisions of this Environmental Restriction and Easement. In addition, subsequent to, but not before, such time as the Notice of Completion has been Registered, Grantor may perform, suffer, allow or cause any person to perform the uses and activities set forth below in, on, upon, through, over or under the Property or any portion thereof. Except for the permitted activities and uses allowed pursuant to subparagraphs 4.A and 4.B below, all such activities and uses shall only be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol, as applicable, as set forth below. Grantor shall restore the Property, or any portion thereof, affected by any activity or use permitted under subparagraphs 4.A through 4.E to its prior condition immediately upon completion of such activity or use, also in accordance with the Soil Management Protocol and the Health and Safety Protocol (except for permitted activities and uses allowed pursuant to subparagraph 4.A and 4.B).

A. Surface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.A. In conducting activities and uses pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Such surface excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored in the Open Soil/Vegetated Area to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation or storage shall not exceed fourteen (14) days.

ii. Grantor shall take appropriate measures to secure stored soil and to control erosion, dust, and runoff.

iii. Grantor shall (a) backfill excavations to the original surface grade with clean soil or soil excavated from the Open Soil/Vegetated Area solely from the top one (1) foot of the surface of the ground, and (b) reestablish any disturbed vegetation.

LAND COURT DOCUMENT # 34518
PAGE 6 OF 31

iv. Grantor shall provide Grantee with written notice of each such surface excavation project no later than thirty (30) days after completion, and shall use the form attached hereto as Exhibit E for such notice, as such form may be modified in writing from time to time by Grantee; provided, however, that any such project where the total amount of soil that has been or will be excavated is less than five (5) cubic feet shall not be subject to the foregoing notification requirement.

v. Grantor shall not store or dispose of any excavated material outside of the Open Soil/Vegetated Area.

B. Surface Excavation of any Volume. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of any volume of such materials shall be permitted. In conducting work pursuant to this subparagraph, Grantor shall comply with the requirements listed above in subparagraphs 4.A.i through 4.A.iv, and the following additional requirements:

i. Grantor shall engage an LSP to oversee the surface excavation permitted pursuant to this subparagraph.

ii. Disposal of excavated materials off of the Property shall be permitted provided that an LSP oversees such disposal and that the Grantor complies with the provisions of Paragraph 9 of the Soil Management Protocol regarding off-Property disposal of soil and other materials.

C. Surface and/or Subsurface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in either the Open Soil/Vegetated Area or the Other Ground Covering Feature Area, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.C. In conducting work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Grantor shall engage an LSP to oversee the excavation permitted pursuant to this subparagraph, including without limitation, the disposal of soil and other material. All activities and uses permitted pursuant to this subparagraph shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol.

ii. Such excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment)

LAND COURT DOCUMENT # 34518
PAGE 7 OF 31

excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit E for such notice, as such form may be modified in writing from time to time by Grantee.

D. Surface and/or Subsurface Excavation for Utility Work. Notwithstanding the restrictions set forth in subparagraph 3.G., excavation, digging, drilling, or other intrusive activity into or disturbance of surface of the ground and/or the underlying soil at the Property, for the purpose of Utility Work, shall be permitted. In conducting Utility Work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. All such Utility Work shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. Grantor shall engage an LSP to oversee all such activities and uses, including without limitation, the disposal of soil and other materials.

ii. Such Utility Work shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall give Grantee fifteen (15) days' advance written notice prior to conducting any activities and uses pursuant to this subparagraph 4.D.

E. Sampling. Notwithstanding the restrictions set forth in subparagraphs 3.F and 3.G, soil and groundwater sampling activities shall be permitted at the Property; provided that Grantor shall engage an LSP to oversee such sampling; and further provided that all such activities and uses shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol.

F. All other restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall apply to the activities and uses permitted to this Paragraph 4 ("Permitted Activities and Uses").

5. Assent to Registration of Notice of Completion and Revised Plan of Restricted Area. Grantor expressly assents to the Registration by GE, after completion of the Response Actions at the Property, and with notice to Grantor and written approval of Grantee, of a Notice

LAND COURT DOCUMENT # 34518
PAGE 8 OF 31

of Completion as defined herein and a revised Plan of Restricted Area (referenced in such Notice) indicating a legal metes and bounds description of, and any changes in, the boundary of the Restricted Area resulting from completion of the Response Actions at the Property. Upon the Registration of such Notice of Completion, and revised Plan, the provisions made applicable thereby shall apply to all subsequent activities at and uses of the Property by Grantor and his/her executors, administrators, heirs, successors, and assigns and all other holders of any interest in the Property, regardless of whether such activities and/or uses had commenced prior to such time and regardless of whether any interest holder in the Property acquired such interest before or after the Registration of the Notice of Completion and revised Plan. Grantor also expressly assents to the Registration by GE of a revised Plan of Restricted Area, if necessary, to show the location of any Groundwater Response Action Component Area, together with a notice, executed by GE and bearing the signed approval of Grantee, referencing such revised Plan and stating that it is being Registered in accordance with the Grant.

6. **Obligations and Conditions.** Grantor affirmatively agrees that any utility repair, maintenance or installation conducted in confined spaces at the Property shall comply with the Health and Safety Protocol.

7. **Conditional Exceptions from Restricted Activities and Uses.** Subsequent to, but not before, such time as the Notice of Completion has been Registered, Grantor may request from Grantee a conditional exception from one or more of the restricted activities or uses set forth in Paragraph 3 ("Restricted Activities and Uses") for a particular proposed activity or use and any related work, which would otherwise temporarily violate such restriction(s). Such request shall be submitted to Grantee in accordance with and shall be subject to all of the following:

A. Submittal Requirements. All requests for conditional exceptions shall, at a minimum:

i. include a written description and/or plans of the proposed activity or use and other relevant information;

ii. identify the type(s) of restricted area(s) for which the conditional exception is requested;

iii. identify the specific restriction(s) from which the conditional exception is requested, and explain the need for the exception;

iv. state the duration of the activity or use and any related work for which the conditional exception is requested, including a proposed termination date for the conditional exception; and

v. if required pursuant to subparagraph 7.B, below, include (a) a determination by an appropriately trained and licensed professional, such as an LSP, that the proposed activity and use and any related work for which the conditional exception is requested would satisfy the human health and environmental risk

standard set forth in subparagraph 7.C, and (b) supporting technical analysis upon which such determination is based.

B. Requirement to Use an Appropriately Trained and Licensed Professional; Request for Waiver. An appropriately trained and licensed professional, such as an LSP, shall make the risk determination required in subparagraph 7.A.v, unless waived by Grantee pursuant to this subparagraph 7.B. Grantor may request Grantee to waive such requirement, if appropriate under the circumstances, for example, if a particular proposed activity and use and any related work is de minimis. In the event of such a request or on its own initiative, Grantee, in its sole discretion, may waive such requirement taking into consideration the nature and scope of a particular proposed conditional exception request. Any such waiver must be in writing. A waiver for one conditional exception request shall not be deemed to be a waiver for any future conditional exception request.

C. Human Health and Environmental Risk Standard. Grantor shall demonstrate, in accordance with the procedures set forth in subparagraphs 7.A and 7.B, that the activity or use and any related work for which a particular conditional exception is requested would not result in an unacceptable risk to human health or the environment, pursuant to the criteria set forth at 40 C.F.R. § 300.430(e)(2)(i), as amended, or interfere with the integrity or effectiveness of the Response Actions. Such demonstration shall include, but not be limited to, consideration of the following factors, as applicable:

i. potential exposure to or release of hazardous substances;

ii. potential adverse impacts of the proposed activity or use on surface water runoff pathways;

iii. potential creation of pathways of contaminant migration;

iv. potential impact on groundwater and any nonaqueous-phase liquids (NAPL);

v. management plans for excavated contaminated materials, including handling and disposal;

vi. appropriate worker health and safety plans; and

vii. whether the proposed activity or use and any related work would interfere with the implementation, operation and/or maintenance of the Response Actions and if so, whether the proposed activity or use is necessary to reduce a threat to human health or the environment.

D. Other Relevant Considerations. In reviewing a proposed conditional exception request, Grantee may consider Grantor's financial and/or technical ability to perform the necessary response work in connection with such request. Grantee may also consider any other relevant matters related to the human health and environmental risk standard set forth in subparagraph 7.C, above.

LAND COURT DOCUMENT # 34518
PAGE 10 OF 31

E. Completeness Determination, Review and Response.

i. If Grantee determines that Grantor's conditional exception request is sufficient and complete for purposes of review, Grantee shall review such request. If necessary, Grantee may notify Grantor of any deficiencies in Grantor's request, and may provide Grantor with an opportunity to submit supplemental information.

ii. Except as provided for in subparagraph 7.G, Grantee, upon completion of its review of any conditional exception request, based upon whether the human health and environmental risk standard set forth in subparagraph 7.C would be satisfied, and upon the other relevant considerations set forth in subparagraph 7.D, shall determine whether the requested conditional exception is appropriate and, if so, shall issue the conditional exception. If Grantee determines that the requested conditional exception is not appropriate, then Grantee shall issue a written explanation. Grantee may condition its issuance of a conditional exception as appropriate, including without limitation, upon the results of future sampling and/or testing.

iii. All conditional exceptions must be in writing and signed by Grantee.

F. Interim and Closeout Report Requirements. During and/or upon completion of the activity or use and any related work for which the conditional exception was obtained, upon request by Grantee, Grantor shall submit a written report confirming that such activity or use and related work was or is being implemented in accordance with the conditional exception, including in accordance with the representations in Grantor's conditional exception request submittal regarding the requirements set forth in subparagraphs 7.C and 7.D. Such report shall be prepared and signed by an appropriately trained and licensed professional, such as an LSP, unless pursuant to subparagraph 7.B Grantee previously waived the requirement to include a risk determination and supporting technical analysis by such professional.

G. Applicability of Amendment Provision to Conditional Exception Requests. Any conditional exception request for an activity or use and any related work which, in the judgment of Grantee, would result in a permanent modification to an activity or use restriction established in Paragraph 3 ("Restricted Activities and Uses"), including without limitation, to the boundary of any restricted area, shall require an amendment to this instrument in lieu of a conditional exception, in accordance with Paragraph 16 ("Amendment and Release").

8. Applicability. The restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall not apply to any response action undertaken by EPA or DEP, or their respective agents, representatives, contractors, subcontractors or employees, pursuant to CERCLA or Chapter 21E, and their respective implementing regulations. In addition, the restrictions set forth in Paragraphs 3.F through 3.H shall not apply to any of the following activities conducted by GE, or its employees, contractors, or subcontractors, pursuant to the Consent Decree and/or the SOW, as approved by EPA (which approval shall be after a reasonable opportunity for review and

LAND COURT DOCUMENT # 34518
PAGE 11 OF 31

comment by DEP), for purposes of implementing or monitoring the Response Actions, provided that such activities do not permanently modify the boundary of any restricted area: soil or groundwater sampling; excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and/or groundwater extraction.

9. **Emergency Excavation.** If it becomes necessary to excavate a portion of the Property, as part of a response to an emergency (e.g., repair of utility lines or responding to fire or flood), any activity and use restriction provisions of Paragraph 3 ("Restricted Activities and Uses") above, which would otherwise restrict such excavation, shall be suspended with respect to such excavation for the duration of such emergency response, provided that Grantor:

A. Limits the actual disturbance involved in such excavation to the minimum reasonably necessary to adequately respond to the emergency;

B. Implements all measures necessary to limit actual or potential risk to the public health and environment arising from the emergency and the response thereto;

C. Undertakes precautions to minimize exposure of workers and neighbors of the Property to the hazardous substance or material; and

D. Engages an LSP to oversee the implementation of the terms of this Paragraph 9 ("Emergency Excavation") and to prepare and oversee the implementation of a written plan which, in said professional's opinion, will restore the Property to a condition consistent with its condition before the emergency excavation took place, with minimal disturbance of the contaminated soils; said plan to be subject to the Soil Management and the Health and Safety Protocols, as applicable; said plan to be promptly prepared and implemented; a copy of said plan to be submitted to EPA and DEP within ten (10) days of its performance, together with a completed Post-Work Notification Form, attached hereto as Exhibit E, with a statement from said LSP that the Property has been restored to said condition; provided, however, that in cases where only minimal excavation has occurred such that there has been no significant impact on the protectiveness of the Response Actions, Grantor may request Grantee to allow Grantor to prepare and submit the plan and statement, without engaging the services of the otherwise required LSP.

In addition, Grantor shall notify the EPA Emergency Response Unit and the DEP Western Regional Office Emergency Response Section, or such other party as EPA or DEP may identify in writing to Grantor, of such emergency as soon as possible but no more than two (2) hours after having learned of such emergency.

10. **Grant of Easements and Access Rights.** In establishing this Environmental Restriction and Easement, Grantor hereby grants the following easements and access rights for the term of this Grant:

A. Grantor grants to Grantee and its agents, representatives, contractors, subcontractors and employees an easement to pass and repass over the Property for the purpose of inspecting the

LAND COURT DOCUMENT # 34518
PAGE 12 OF 31

Property to ensure compliance with and fulfillment of the terms of this Environmental Restriction and Easement.

B. Grantor grants to Grantee and its agents, representatives, contractors, subcontractors and employees an easement in, on, upon, through, over and under the Property for the following purposes:

i. constructing, implementing, monitoring, and performing the Response Actions and operation and maintenance for the Response Actions;

ii. assessing the need for, planning, or implementing other response actions at the Site;

iii. verifying any data or information submitted to EPA or DEP;

iv. surveying and obtaining samples;

v. installing groundwater monitoring wells and extraction wells;

vi. conducting investigations relating to contamination at or near the Site; and

vii. determining whether additional activity or use restrictions are necessary.

11. Severability. Grantor agrees, in the event that a court or other tribunal determines that any provision of this instrument is invalid or unenforceable:

A. That any such provision shall be deemed to have been modified automatically to conform to the requirements for validity and enforceability as determined by such court or tribunal; or

B. That any such provision that, by its nature, cannot be so modified, shall be deemed deleted from this instrument as though it had never been included.

Such modifications and deletions shall be deemed effective as of the date of the determination of the court or other tribunal. In either case, the remaining provisions of this instrument shall remain in full force and effect.

12. Enforcement. Grantor expressly acknowledges that a violation of the terms of this instrument could result in the following:

A. The assessment of penalties and other action by DEP to enforce the terms of this Environmental Restriction and Easement, pursuant to Chapter 21E and the MCP; and/or

B. Upon a determination by a court of competent jurisdiction, the issuance of criminal and civil penalties, and/or equitable remedies, which could include the issuance of an order to (i) modify or remove any improvements constructed in violation of the terms of this Environmental

Restriction and Easement at Grantor's sole cost and expense or (ii) to reimburse the Commonwealth and the United States for any costs incurred in modifying or removing any improvement constructed in violation of the terms of this Environmental Restriction and Easement.

13. Provisions to Run With the Land. The land use restrictions, obligations, and access rights provided herein establish certain rights, liabilities, agreements and obligations upon and subject to which the Property, or any portion thereof, shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered, or conveyed. The rights, liabilities, agreements and obligations herein set forth shall run with the Property, or any portion thereof, for the term of this instrument, and shall inure to the benefit of Grantee and its assigns and be binding upon Grantor and all parties claiming by, through or under Grantor. Grantor hereby covenants for himself and his executors, administrators, heirs, successors and assigns, to stand seized and hold title to the Property, or any portion thereof, subject to these land use restrictions, access rights, and other provisions of this Grant; provided, however, that a violation of these land use restrictions, access rights, and other provisions shall not result in a forfeiture or reversion of Grantor's title to the Property.

14. Concurrence Presumed. It is agreed that:

A. Grantor and all parties claiming by, through or under Grantor shall be deemed to be in accord with the provisions herein set forth; and

B. Grantor and all such parties agree for and among themselves and any party claiming by, through or under them, and their respective agents, contractors, sub-contractors and employees, that the land use restrictions and access rights herein established shall be adhered to and not violated and that their respective interests in the Property shall be subject to the provisions herein set forth.

15. Incorporation into Deeds, Mortgages, Leases and Instruments of Transfer. Grantor hereby agrees to incorporate this instrument, in full or by reference, into all deeds, easements, mortgages, leases, licenses, occupancy agreements or any other instrument of transfer by which an interest in and/or a right to use the Property, or any portion thereof, is conveyed; provided, however, that any failure of Grantor to do so shall not affect the validity or applicability of the provisions of Paragraph 13.

16. Amendment and Release.

A. Amendment at Grantee's Request.

i. Grantee may request Grantor to amend this instrument. Grantor hereby further agrees to execute any such amendment which Grantee reasonably deems necessary for the effective administration of this instrument; provided, however, that such amendment shall be limited to procedural matters hereunder. Accordingly, the foregoing obligation shall not obligate Grantor to impose additional substantive restrictions on the Property, beyond those listed in

Paragraph 3 ("Restricted Activities and Uses"); nor to impose additional substantive limitations on the permitted activities and uses set forth in Paragraph 4 ("Permitted Activities and Uses"); nor to impose additional substantive obligations and conditions upon Grantor, beyond those set forth in Paragraph 6 ("Obligations and Conditions"). All amendments shall include Grantee's signed approval and shall become effective upon being Registered.

ii. Notwithstanding the foregoing, Grantor expressly acknowledges and agrees that the within Grant includes, as provided in Paragraph 5 herein, the right of GE, in accordance with the Consent Decree, with notice to Grantor and written approval of Grantee, to Register the following: (a) a Notice of Completion; and (b) a revised Plan of Restricted Area, indicating both the legal metes and bounds description of, and any changes in the boundary of, each restricted area resulting from completion of the Response Actions at the Property; and/or (c) a revised Plan of Restricted Area indicating the location of any Groundwater Response Action Component Area and any associated notice thereof. The Registration of any such Notice of Completion and revised Plan(s) of Restricted Area and any associated notice thereof shall not be deemed an amendment to this Grant, but rather the exercise of rights established by, and effective upon the Registration of, this Grant.

B. Amendment at Grantor's Request. Grantor may amend this instrument only with the prior, written approval of the Grantee. Grantor may propose to Grantee an amendment of an activity or use restriction set forth in Paragraph 3 ("Restricted Activities and Uses") or of a permitted use set forth in Paragraph 4 ("Permitted Activities and Uses"), based upon changed circumstances including, without limitation, new analytic and engineering data or a Grantor proposal to perform additional remediation at the Property. In the event that Grantor requests such an amendment, Grantor shall provide such information as Grantee may require for review of such a request, including without limitation, information that addresses the considerations set forth in Paragraph 7 ("Conditional Exceptions from Restricted Activities and Uses"), as applicable, and an explanation of the changed circumstances. If Grantee determines that any amendment to this Grant proposed by Grantor is not appropriate, then Grantee shall issue a written explanation.

C. Release. This instrument may be released, in whole or in part, by Grantee in Grantee's sole discretion, and in accordance with CERCLA, the NCP, Chapter 21E and the MCP, to the extent applicable. This instrument shall not be deemed released unless and until Grantee, its successors and assigns, and/or any other party claiming under Grantee, have released their respective interests. Said release shall become effective upon its Registration.

D. Registration. Grantor hereby agrees to Register any amendment to and/or release of this instrument, or other document created pursuant to this instrument for which Registration is required, within thirty (30) days of the date of having received from Grantee any such amendment or release and/or other such document. No more than thirty (30) days from the date of Registration, Grantor shall provide to Grantee a certified Land Registration Office copy of the amendment, release, and/or other such document. At that time, or as soon thereafter as it

becomes available, Grantor shall provide Grantee with the final registration information for the amendment, release, and/or other such document, certified by said Land Registration Office. Grantor shall pay any and all recording fees, land transfer taxes and other such transaction costs associated with any such amendment, release, and/or other document. Grantor further agrees to cooperate with GE in the Registration of a Notice of Completion and a revised Plan(s) of Restricted Area, as described above, and any other associated notices.

E. Notice to Local Officials. Grantor further agrees to notify local officials and the public of the amendment or release in accordance with the requirements set forth in 310 C.M.R. 40.1403(7), as amended. A copy of said regulation is attached hereto as Exhibit F.

17. No Dedication Intended. Nothing herein set forth shall be construed to be a gift or dedication of the Property to Grantee, its assigns or to the general public for any purpose whatsoever.

18. Term. This instrument shall run with the land in perpetuity and is intended to conform to the exception for "other restrictions held by any governmental body" set forth in clause (c) of the first paragraph of M.G.L. c. 184, § 26, as amended.

19. Rights Reserved. It is expressly agreed that acceptance of this instrument by Grantee or its assignment shall not operate to bar, diminish, or in any way affect any legal or equitable right that Grantee or its assigns may otherwise have to issue any future order or take response action with respect to the Property or in any way affect any other claim, action, suit, cause of action, or demand which Grantee or its assigns may otherwise possess or hereafter acquire with respect thereto.

Nothing in this instrument shall limit or otherwise affect any rights that the United States or the Commonwealth may otherwise have to obtain access to, or restrict the use of, the Property pursuant to CERCLA, Chapter 21E, or any other applicable statute or regulation.

Nothing in this instrument shall waive such liability as Grantor may otherwise have for any release or any threat of a release of hazardous substances, oil or hazardous materials occurring as a result of Grantor's exercise of any of its rights hereunder, nor shall any provision of this instrument excuse compliance with CERCLA, Chapter 21E, or any other applicable federal, State or local laws, regulations or ordinances.

The rights reserved to Grantee in this Paragraph 19 ("Rights Reserved") shall be in addition to any rights reserved to Grantee elsewhere in this instrument.

20. Assignment. This instrument, including without limitation all easements, rights, covenants, obligations and restrictions inuring to the benefit of Grantee, herein contained, shall be assignable by Grantee, in whole or in part, at any time. This instrument may only be assigned to EPA, the City of Pittsfield, or any state or federal agency with at least statewide jurisdiction that has statutory authority to hold property interests and to administer or to enforce property restrictions such as this Environmental Restriction and Easement on behalf of the State or the United States, or to any other appropriate entity upon the mutual agreement of Grantee, Grantor

and GE. In the event of any assignment, Grantee shall notify Grantor by notice sent by first-class mail, postage prepaid, to Grantor's address first above-written.

21. Agency Review and Comment; Notice. Prior to responding to any request for approval or taking any other action pursuant to this instrument, Grantee shall first provide EPA with a reasonable opportunity to review and comment upon the requested approval or proposed action. Grantor shall submit duplicate copies of any submissions or notices made to Grantee pursuant to this instrument to Grantee, with a copy to EPA, at the following addresses, by first class mail, postage prepaid:

A. to EPA:
U.S. Environmental Protection Agency
Office of Site Remediation and Restoration
One Congress Street,
Suite 1100 -- Mail Code HBT
Boston, MA 02114-2023
Attn: GE-Pittsfield Housatonic River Site

B. to DEP:
Department of Environmental Protection
Western Regional Office
436 Dwight Street
Springfield, MA 01103; and to

Department of Environmental Protection
Bureau of Waste Site Cleanup
One Winter Street
Boston, MA 02108

C. or as otherwise provided in writing by EPA or DEP.

Grantor shall submit any notices to GE made pursuant to this instrument to GE at the following address or such other address as provided in writing by GE, with a copy to Grantee and EPA:

General Electric Company
Corporate Environmental Programs
100 Woodlawn Avenue
Pittsfield, MA 01201

22. Effective Date. This instrument shall become effective upon its Registration.

No more than thirty (30) days from the date of Registration, Grantor shall provide Grantee with a certified Land Registration Office copy of this instrument. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final Registration information for this instrument, certified by said Land Registration Office.

LAND COURT DOCUMENT # 34518
PAGE 17 OF 31

As this instrument is granted to an agency of the Commonwealth of Massachusetts, no Massachusetts deed excise tax stamps are affixed hereto, none being required by law (M.G.L. Chapter 64D, Section 1, as amended).

WITNESS the execution hereof under seal this 2ND day of JULY, 2003.

GRANTOR

Robert Stomsky

COMMONWEALTH OF MASSACHUSETTS

County of Berkshire, ss July 2, 2003

Then personally appeared the above-named Robert Stomsky and acknowledged the foregoing instrument to be his/~~her~~ free act and deed before me,

Notary Public: Anthony G. McMinimo
My Commission Expires: 1/1/2004
[Seal]

Upon Registration, return to:

Robert Stomsky
269 Newell Street
Pittsfield, MA 01201

EXHIBIT A

Parcel J9-23-24: Stomsky Property

Parcel 1:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point in the supposed northerly sideline of Newell Street, said point being the southwest corner of the parcel herein described and is also located N 64° 15' E a distance of 144.82 feet from a stone monument found in the supposed northerly line of Newell Street;

Running thence N 24° 33' 53" W a distance of 200.00 feet to a point marking the northwest corner of said parcel;

Running thence N 64° 15' E a distance of 10.00 feet to the northeast corner of said parcel;

Running thence S 24° 33' 53" E a distance of 200.00 feet to a point in the supposed northerly line of Newell Street marking the southeast corner of said parcel;

Running thence S 64° 15' W along said northerly line of Newell Street a distance of 10.00 feet to the point of beginning.

The parcel above described is more particularly shown as lot B-16 on Land Court Plan No. 8372-I.

Parcel 2:

Land in the City of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point in the supposed northerly sideline of Newell Street, said point being the southwest corner of the parcel herein described and can further be described as the southeast corner of Parcel 1 hereinabove described;

Running thence N 24° 33' 53" W a distance of 200.00 feet to a point marking the northwest corner of the parcel herein described and the northeast corner of Parcel 1 hereinabove described;

Running thence N 64° 15' E a distance of 88.06 feet to a point marking the northeast corner of the parcel herein described (see Note 1);

Running thence S 27° 59' E a distance of 200.11 feet to a point marking the southeast corner of said parcel in the supposed northerly sideline of Newell Street;

EXHIBIT A

Running thence S 64° 15' W a distance of 100.00 feet along the supposed northerly line of Newell Street to the point of beginning.

The parcel above described is more particularly shown as lot B-14 on Land Court Plan No. 8372-I.

Note 1: This line is the same as the northerly line of lot B-14 as shown on Land Court Plan 8372-I . The dimension of this line shown on said Land Court Plan is 92.20 feet. However, it is believed that that dimension is in error. Based upon the original perimeter dimensions shown on Land Court Plan 8372- D for lot B-6 (which was later subdivided into lots B-13 and B-14 shown on Plan 8372-I), the northerly line of lot B-14 computes to be 88.06 feet, not 92.20 feet. Therefore, this line is described herein as having a dimension of 88.06 feet.

* * *

The foregoing constitutes a revised version of Exhibit A to the Grant of Environmental Restriction and Easement which I executed on July 2, 2003. I acknowledge and approve this revised version of Exhibit A as a replacement for the Exhibit A that was attached to the above-referenced document.

Dated: March 7, 2006

RESTRICTED AREAS

EXHIBIT C

HEALTH AND SAFETY PROTOCOL

1. This Health and Safety Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Except as provided, below, in Paragraph 3 of this Protocol, Grantor shall prepare and submit a Health and Safety Plan ("HSP") to Grantee and EPA pursuant to Paragraph 20 ("Agency Review and Comment; Notices") of the Grant, fifteen (15) days or more before conducting any permitted activity or use pursuant to Paragraph 4 ("Permitted Activities and Uses") of the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant. If appropriate, Grantor may submit a pre-existing health and safety plan in lieu of preparing a new plan to address this requirement and/or incorporate by reference a previously submitted HSP. Grantor shall comply with the HSP when conducting any permitted activity or use pursuant to the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant.

3. An HSP shall not be required for any excavation permitted pursuant to the following subparagraphs of the Grant: 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less"), 4.B ("Surface Excavation of any Volume"), and/or 4.D ("Surface and/or Subsurface Excavation for Utility Work"), provided that the excavation permitted under subparagraph 4.D is conducted solely within one (1) foot of the surface of the ground in the Open Soil/Vegetated Area.

4. The HSP shall be prepared in accordance with the occupational health and safety provisions of 29 Code of Federal Regulations § 1910.120 otherwise applicable to hazardous waste operations and emergency response, as amended, and, any other applicable federal, state or local law. For any utility repair, maintenance or installation in confined spaces, the HSP shall also be prepared in accordance with the provisions of 29 Code of Federal Regulations § 1910.146, otherwise applicable to work in confined spaces, as amended.

5. In addition to the requirements of Paragraph 4 of this Protocol, the HSP shall, without limitation, include the following items:

a. General information on the nature, extent, and concentrations of hazardous substances (as defined by CERCLA) and hazardous materials and oil (as defined by Chapter 21E) anticipated in the media to be impacted by the permitted activity and use, based upon existing information.

b. Description of tasks which may involve exposure to hazardous substances, hazardous materials, or oil.

c. Description of anticipated actions to protect the health, safety, and welfare of workers and the general public. Actions shall include, but not be limited to, dust control, odor control, personal protective equipment, and erosion and sedimentation control measures (as needed for the particular permitted activity and use).

d. Discussion of relevant physical, chemical, and biological hazards. (Relevant portions of Material Safety Data Sheets may be incorporated as appropriate.)

e. A requirement that all persons engaged in the work read and acknowledge the provisions of the HSP and document compliance with said provisions.

f. A requirement that all persons engaged in the work receive appropriate training in matters of health and safety in accordance with 29 Code of Federal Regulations Section 1910.120, as amended, and, any other applicable federal, state or local law.

6. The HSP shall be approved by a Certified Industrial Hygienist.

LAND COURT DOCUMENT # 34518
PAGE 25 OF 31

EXHIBIT D

SOIL MANAGEMENT PROTOCOL

1. This Soil Management Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Soil sampling and excavation shall be conducted with the oversight of a Licensed Site Professional, to the extent required by Paragraph 4 ("Permitted Activities and Uses") of the Grant.

3. Soil and materials from within the Open Soil/Vegetated Area which have been excavated solely within one (1) foot of the surface of the ground may be (i) disposed of in the Open Soil/Vegetated Area, with no sampling required; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; (iii) returned to the original excavation for use as backfill, with no sampling required; or (iv) a combination of the management options listed in this Paragraph 3 of this Protocol.

4. Soil and materials from within the Open Soil/Vegetated Area and excavated below one (1) foot of the surface of the ground, or from within the Other Ground Covering Feature Area and excavated from any depth, may be (i) returned to the original excavation, with no sampling required, to within one (1) foot of the surface of the ground, with the remaining one (1) foot of the original excavation backfilled with clean soil or with soil excavated solely from the top one (1) foot of the original excavation; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; or (iii) a combination of the management options listed in this Paragraph 4 of this Protocol.

5. As required by Paragraph 4 ("Permitted Activities and Uses") of the Grant, Grantor shall return the Property, or any portion thereof, to its prior condition immediately upon completion of such activity or use. Such restoration shall include, without limitation, (i) backfilling excavations to the original surface grade with clean soil, except for any soil that may be returned to the original excavation pursuant to this Protocol; (ii) replacing and repairing any aspects or component of the Other Ground Covering Feature Area disturbed by the activities and uses allowed hereunder; and (iii) reestablishing any disturbed vegetation.

6. Grantor shall implement the management procedures and measures required by the provisions of 310 Code of Massachusetts Regulations (CMR) Section 40.0018 (1) and (2) otherwise applicable to response actions, as amended. Excavations permitted under subparagraphs 4.A, 4.B, 4.C, 4.D and 4.E of the Grant shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Grantor shall, during excavation, use best management practices to control contaminant migration, exposure to contaminant material, and erosion, runoff, and dust emissions.

LAND COURT DOCUMENT # 34518
PAGE 26 OF 31

7. Grantor shall keep separate (i) soil excavated from within the top one (1) foot of the ground in the Open Soil/Vegetated Area; (ii) soil excavated from below the top one (1) foot of the ground in the Open Soil/Vegetated Area or, regardless of depth, from within the Other Ground Covering Feature Area; and (iii) clean backfill. Soil and other materials shall be stored in the same restricted area from which they were excavated. All soil and other material shall be stored in a manner consistent with 310 CMR § 40.0036 and 40 Code of Federal Regulations § 761.61(c) or § 761.65, all as amended.

8. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

9. All off-Property disposal of soil and other materials, including without limitation, used personal protective equipment, shall be: (i) at a facility licensed to accept such materials and in compliance with all applicable laws, rules and regulations; or (ii) at an EPA-approved on-plant consolidation area at the GE Plant if such consolidation area is in operation at the relevant time, and in compliance with all operating procedures for such consolidation area, but only with the approval of the owner of such consolidation area. All disposal of soil and other materials off-Property or outside the restricted area from which such soils and materials were excavated shall be conducted with the oversight of a Licensed Site Professional. In no case shall soil or other materials be disposed of or reused at locations, including, without limitation, schools, residences, or agricultural areas, where existing concentrations of oil and/or hazardous materials at the receiving location are significantly lower than the levels of those oil and/or hazardous materials present in the soil or such other materials being disposed of or reused, in accordance with 310 CMR § 40.0032(3)(b). Grantor shall conduct sampling sufficient to assure adequate characterization for off-Property disposal subject to oversight by an LSP and in accordance with state and federal laws and regulations, including, without limitation, 310 CMR § 40.0017.

EXHIBIT E

POST-WORK NOTIFICATION FORM

I. General Information.

Type of work: __ Surface *(top foot)* excavation of greater than five (5) cubic ft. and less than or equal to ten (10) cubic yds. (per Grant Paragraph 4.A.)

(check all that apply)

__ Surface *(top foot)* excavation of any volume (per Grant Paragraph 4.B.)

__ Subsurface *(deeper than top foot)* excavation of ten (10) cubic yards or less (per Grant Paragraph 4.C.)

__ Emergency excavation (per Grant Paragraph 9)

Property Address: _____
Tax Parcel ID: _____

II. Description of Excavation Activities.

Start date of excavation/soil disturbance: _____

End date of excavation/soil disturbance: _____

Amount of soil excavated or moved: _____

Any soil or other excavated material moved out of the Restricted Area? ___ Yes ___ No

Excavation dimensions *(approximate length x width x depth, in feet)* : _____

Description of project (*attach extra sheets, if necessary*): _____

_____

Final disposition of soil: *(attach bills of lading and certificates of disposals, if applicable)*: _____

_____

Attach a plan *(e.g., a copy of the Plan of Restricted Area)* showing:

(1) location of excavation(s) within the property
(2) direction
(3) major site features (*e.g., roads, buildings, edges of pavement/barriers, locations of utilities if known*)

Attach photographs of work area prior to work, during work and post-restoration work, if available (*optional*).

Was soil sampling and analysis conducted? __ Yes __ No
If Yes, attach analytical results and show sampling locations (*and indicate depths*) on an attached plan.

Were the Health and Safety Protocol and/or the Soil Management Protocol (*as defined in the ERE Grant*), if applicable, followed? (*check each that applies*[1])

__ Health and Safety Protocol was followed
__ Soil Management Protocol was followed
__Not Applicable

[1]See note 3 in Section V. ("Notes About the Use of this Form"), below.

III. Additional Information for Emergency Excavation.

If work was conducted as an Emergency Excavation (*see Paragraph 9 ("Emergency Excavation") of the ERE Grant*):

(1) Attach an opinion and completion report prepared by an appropriately trained and licensed professional (*including copy of written plan for restoration*).
(2) Date and time property owner first obtained knowledge of the Emergency:_____
(3) Date and time property owner provided oral notification of the emergency to DEP:_____

IV. Signature.

The property owner, or person conducting the work if other than the property owner, should complete and sign the statement, below.

I,_____, to the best of my knowledge and belief, state that the material information contained in this submittal is true, accurate and complete.

By: _____

Signature: _____

Name/Title: _____

Organization: _____

Address: _____

Telephone #: _____

Relationship to site: _____

V. Notes About the Use of this Form.

(1) The due date for this form varies for different types of excavation activity. For further information, please see Paragraph 4 ("Permitted Activities and Uses") of the ERE Grant.

(2) Separate, 15 days' advance written notice is required for Utility Work excavation activity, pursuant to Paragraph 4.D. ("Surface and/or Subsurface Excavation for Utility Work") of the ERE Grant.

(3) The Health and Safety Protocol and the Soil Management Protocol do not apply to the Permitted Activities and Uses set forth in Paragraphs 4.A. ("Surface Excavation of Ten (10) Cubic Yards or Less") and 4.B. ("Surface Excavation of any Volume") of the ERE Grant.

(4) Immediate notification is required for Emergency Excavation, pursuant to Paragraph 9 ("Emergency Excavation") of the ERE Grant; this form is for the post-emergency excavation notice requirement.

VI. Where to Submit this Form.

Submit this completed form, via certified mail, to: MA Department of Environmental Protection
Bureau of Waste Site Cleanup, Special Projects
436 Dwight Street
Springfield, Massachusetts 01103
(Attn.: GE-Pittsfield/Housatonic Project Manager)

310 CMR 40.1403: Minimum Public Involvement Activities in Response Actions

* * *

(7) Within thirty days after recording and/or registering any original, amended, released or terminated Activity and Use Limitation pursuant to 310 CMR 40.1070 through 40.1080, the following requirements shall be met to inform local officials and the public of the limitations which apply to activities and/or uses of the property subject to the Activity and Use Limitation:

(a) a copy of the recorded and/or registered Activity and Use Limitation shall be provided to:

1. the Chief Municipal Officer;
2. the Board of Health;
3. the Zoning Official; and
4. the Building Code Enforcement Official in the community(ies) in which the property subject to such Activity and Use Restriction is located.

(b) a legal notice which indicates the recording and/or registering of the original, amended, released or terminated Activity and Use Limitation shall be published in a newspaper which circulates in the community(ies) in which the property subject to the Activity and Use Limitation is located.

1. This notice shall be in a form established by the Department for such purpose and shall include, but not be limited to:
   a. the name, address, and Release Tracking Number(s) of the disposal site associated with the Activity and Use Limitation;
   b. the type of Activity and Use Limitation;
   c. information about where the Activity and Use Limitation instrument and disposal site file can be reviewed; and
   d. the name, address and telephone number of the person recording and/or registering the Activity and Use Limitation from whom the public can obtain additional information.
2. A copy of this legal notice shall be submitted to the Department within seven days of its publication.

SUBORDINATION AGREEMENT

EPA Site Name: GE-Pittsfield/Housatonic River Site (Newell Street Area I)
DEP Disposal Site Name: GE Pittsfield Disposal Sites (Newell Street Area I)
DEP Disposal Site No. GECD440

GENERAL ELECTRIC COMPANY, a New York corporation duly established by law and having an usual place of business in Pittsfield, Berkshire County, Massachusetts, is the owner of premises shown and more particularly described on Certificate of Title No. 6187 in Book 28, Page 125 of the Land Court Registration Office of the Berkshire Middle District Registry of Deeds and is the holder of a certain right of way easement for all the usual purposes of a way ("GE Easement") as shown and more particularly described on Certificate of Title No. 4898 in Book 22, Page 93 of the Land Court Registration Office of the Berkshire Middle District Registry of Deeds.

General Electric Company hereby assents to the Grant of Environmental Restriction and Easement ("Grant") granted by Robert Stomsky to the Massachusetts Department of Environmental Protection, dated July 2, 2003, and registered with the Land Court Registration Office of the Berkshire Middle District Registry of Deeds as Document No. 34518, noted on Certificate of Title No. 4898 in Book 22, Page 93, and agrees that the GE Easement shall be subject to said Grant and to the rights, covenants, restrictions and easements created by and under said Grant insofar as the interests created under the GE Easement affect the Property identified in the Grant and as if for all purposes said Grant had been executed, delivered and recorded or registered prior to the reservation, execution, delivery and registration of the GE Easement.

General Electric Company further assents specifically to its subsequent registration of a Notice of Completion to the Grant and a revised Plan of Restricted Area, in accordance with the terms of the Grant, and agrees that the GE Easement shall be subject to the Grant as modified by such Notice of Completion and said revised Plan and to the rights, covenants, restrictions and easements created thereby and thereunder insofar as the interests created under the GE Easement affect the Property identified in the Grant as so modified and as if for all purposes said Grant as modified by said Notice of Completion and said revised Plan had been executed, delivered and recorded or registered prior to the reservation, execution, delivery and registration of the GE Easement.

Appendix I-1 – Parcel J9-23-24

Notice of Completion –
June 27, 2006

NOTICE OF COMPLETION

EPA Site Name: GE-Pittsfield/Housatonic River Site (Newell Street Area I)
DEP Site Name: GE-Pittsfield Disposal Sites (Newell Street Area I)
DEP Disposal Site Number GECD440

This NOTICE OF COMPLETION is made as of this 27th day of June, 2006, by the General Electric Company ("GE") pursuant to, and relating to, the Grant of Environmental Restriction and Easement executed by Robert Stomsky ("Grantor") and described below.

WHEREAS, on July 2, 2003, Grantor executed a Grant of Environmental Restriction and Easement, which was amended by the Grantor on March 7, 2006, by the execution and substitution of a revised Exhibit A thereto and which, as so amended, is referred to herein as the "Grant", for that certain parcel of land, owned in fee simple by Grantor, that is located at 269 Newell Street in Pittsfield, Berkshire County, Massachusetts, numbered as Tax Parcel No. J9-23-24, and more particularly bounded and described in the Grant (the "Property");

WHEREAS the Grant was approved on behalf of the Massachusetts Department of Environmental Protection ("DEP" or "Grantee") by the Commissioner of the DEP on November 6, 2006, and was registered on November 29, 2006, as Document No. 34518, noted on Certificate of Title No. 4898 in Book 22, Page 93 of the Land Court Records of the Berkshire Middle District Registry of Deeds;

WHEREAS the Grant was established as an institutional control for the Site referenced above pursuant to Section 104 of the federal Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA") (42 U.S.C. § 9604), Section 6 of the Massachusetts Oil and Hazardous Materials Release Prevention and Response Act (M.G.L. c. 21E, § 6), and a Consent Decree executed by GE, the United States, the Commonwealth of Massachusetts, the State of Connecticut, and other parties and entered by the United States District Court for the District of Massachusetts on October 27, 2000, in *United States et al. v. General Electric Company* (Civil Action No. 99-30225-MAP *et seq.*) (the "Consent Decree");

WHEREAS the Grant establishes certain restrictions on activities and uses at the Property, as well environmental and access easements on the Property;

WHEREAS the Grant includes, as Exhibit B thereto, a Sketch Plan of Restricted Area, showing the specific restricted areas at the Property – namely, the Open Soil/Vegetated Area and the Other Ground Covering Feature Area (both as described in the Grant);

WHEREAS the Grant provides that certain of its provisions – namely, the restriction on excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil (as set forth in subparagraph 3.G of the Grant) and the permitted activities and uses that are exceptions to that restriction (as set forth in Paragraph 4

LAND COURT DOCUMENT # 34521
PAGE 1 OF 7

of the Grant) – shall not apply to activities that begin after the registration of the Grant and end before the time that a Notice of Completion (as described below) has been registered;

WHEREAS GE was required under the Consent Decree to perform certain Response Actions (as defined in the Grant) at the Property, including the removal and replacement of certain soil containing hazardous substances (as defined in CERCLA) and hazardous materials (as defined in M.G.L. c. 21E);

WHEREAS the Grant states that, following completion of the Response Actions at the Property (excluding any actions relating to groundwater), GE shall register: (a) a Notice of Completion, which shall (i) state that the Response Actions at the Property have been completed, (ii) state that the provisions of the Grant that were not previously applicable to activities at the Property shall henceforth apply to such activities, and (iii) reference a revised Plan of Restricted Area; and (b) a revised Plan of Restricted Area showing any changes in the boundaries of the restricted areas resulting from the completion of the non-groundwater Response Actions at the Property, as well as a legal description, by metes and bounds, of the boundaries (as so revised) of the restricted areas;

WHEREAS the Grantor has expressly assented in the Grant to the registration by GE, after completion of the Response Actions and with notice to Grantor and written approval of the Grantee, of a Notice of Completion and revised Plan of Restricted Area (as described above);

WHEREAS GE has completed the non-groundwater Response Actions at the Property, consisting of the removal and replacement of certain soil; and

WHEREAS GE notified the Grantor on November 29, 2006, that a Notice of Completion, including a revised Plan of Restricted Area, will be registered;

NOW, THEREFORE, GE has prepared this Notice of Completion, which states as follows:

1. GE has completed the non-groundwater Response Actions at the Property, consisting of the removal and replacement of certain soil in accordance with work plans submitted by GE and approved by the United States Environmental Protection Agency ("EPA") following an opportunity for review and comment by DEP. Those work plans include the *Conceptual Removal Design/Removal Action (RD/RA) Work Plan Addendum for Newell Street Area I*, dated April 2003 and approved by EPA by letter of May 13, 2003, and the *Final RD/RA Work Plan for Newell Street Area I*, dated August 2003 and supplemented by a *Supplemental Information Package* dated September 26, 2003, which were approved by EPA by letter of October 9, 2003.

2. The provisions of the Grant that were not previously applicable to activities at the Property – namely, the restriction on excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil (as set forth in subparagraph 3.G of the Grant) and the permitted activities and uses that are exceptions to that

LAND COURT DOCUMENT # 34521
PAGE 2 OF 7

restriction (as set forth in Paragraph 4 of the Grant) – shall henceforth, as of the effective date of this Notice of Completion, be applicable to activities at the Property in accordance with Paragraph 5 of the Grant.

3. GE has prepared a revised Plan of Restricted Area for the Property, showing the revised boundaries of the Open Soil/Vegetated Area and the Other Ground-Covering Feature Area following completion of the above-described Response Actions, and providing a legal description, by metes and bounds, of the boundaries of those restricted areas. That revised Plan of Restricted Area is attached hereto as Exhibit A and made a part hereof, and has also been separately recorded in the Berkshire Middle District Registry of Deeds in Plat H, No. 218. This revised Plan of Restricted Area supersedes and replaces the Sketch Plan of Restricted Area that is attached as Exhibit B to the Grant.

4. This Notice of Completion shall become effective upon its registration.

Within sixty (60) days from the date of registration of this Notice of Completion, GE will provide EPA, DEP, and Grantor with a certified Land Registration Office copy of this Notice of Completion. In addition, within sixty (60) days from the date of recordation of the revised Plan of Restricted Area, GE will provide EPA, DEP, and Grantor with a certified Registry copy of the revised Plan of Restricted Area.

WITNESS the execution hereof under seal this 27th day of June, 2006.

THE GENERAL ELECTRIC COMPANY

Re: Owner: Stomsky, Robert
Premises: 269 Newell Street, Pittsfield, MA 01201
Pittsfield Assessors Map/Block/Lot No. J090023024

CERTIFICATE OF TITLE

We have caused the records of the Berkshire Middle District Registry of Deeds and the Berkshire County Registry of Probate to be examined from October 19, 1948 to November 30, 2006 at 11:43 P.M., as to the above-captioned property.

Please note that all references herein to the term "recorded" shall mean recorded with the Land Court records of the Berkshire Middle District Registry of Deeds unless specified otherwise.

Based on our examination of said records, we certify that as of said date and time good, clear record title stood in ROBERT STOMSKY, free from all encumbrances which would materially affect the title, excepting only those matters which are expressly enumerated in Schedule A attached hereto and further excepting those matters set forth in paragraphs (1) through (10) hereof, by virtue of the following:

Certificate of Title No. 4898 in Book 22, Page 93.

We do not certify to or report upon any of the following matters:

(1) Those encumbrances referred to in Massachusetts General Laws Chapter 185, Section 46, whether or not title to the premises is registered, if record notice of such encumbrances is not recorded or filed with the Registry;

(2) Any encroachments, overlaps, boundary line disputes or other state of physical facts which may be revealed by a personal inspection or accurate survey of the premises;

(3) Rights or claims of parties in possession not shown by the public records;

(4) Roads, ways, streams, or easements if any not shown of record, and riparian rights;

(5) Any lien, or right to a lien, for services, labor, or materials heretofore or hereafter furnished, imposed by law and not shown by the public records;

(6) Any law, ordinance, by-law, or other governmental regulation affecting, restricting, prohibiting, or otherwise regulating the occupancy, use, or enjoyment of the premises, the character, dimensions, or location of any present or future improvements now existing or hereafter planned for the premises, or a separation in ownership or change in the dimensions or area of the premises (including, without limiting the generality of the foregoing, Zoning Laws, State Building Code, Wetlands Protection Act, Subdivision Control Law, Lead Paint Law, Smoke Detector Law, health laws, sewage disposal laws, historic districts, and pollution control laws;

(Your attention is drawn to the fact that this is a certificate of record, legal title and specifically does not address real estate taxes, highway district taxes, common area charges, building codes, environmental, zoning and subdivision control law issues or any issues other than record, legal title.)

(7) Any lien, encumbrance, defect or adverse claim or other matter, (including matters of bankruptcy of insolvency) that does not appear of record in the Registry or attached or was created subsequent to the date of this opinion;

(8) Rights of eminent domain or governmental police power unless notice of the exercise thereof appears of record at the Registry. Any adverse claims involving matters of bankruptcy or insolvency that do not appear of record at the Registry;

(9) Any state of facts disclosed by a current municipal lien certificate; and

(10) Possible unfiled liens or claims of the Commonwealth of Massachusetts relative to hazardous wastes, pursuant to M.G.L.A. Chapter 21E, as amended.

This opinion of title is delivered to you for your use only for the purpose of certification of title to you. The information contained herein is not intended for the use of anyone other than yourself. Anyone else relying on the information set forth herein does so at his, her or its own risk and peril. We suggest you advise any party, who in the future may be interested in this property, to conduct his, her or its own independent investigation of title.

insured title examiner

SCHEDULE "A"

(1) Reserved easement for right of way in common with the owner of adjacent parcel, its heirs, executors, administrators and assigns, "for all the usual purposes of a way, on foot and with horses and vehicles of all description in, over and upon [that portion of the premises designated as Lot B-16]."

Note: Adjacent parcel is Lot B-15 on Plan No. 8372-I, Assessors Map/Block/Lot J9-23-23, currently owned by General Electric Company. This easement is set forth in description of premises contained in Certificate of Title No. 4898. This easement is subordinate to the Grant of Environmental Easement and Restriction, dated July 2, 2003, executed by Robert Stomsky, as Grantor, as amended (referred to in No. 4 of this Schedule A below), by virtue of the registration of the Subordination of Easement, dated June 30, 2004, executed by General Electric Company, as Document 34520, noted on Certificate of Title No. 4898 in Book 22, Page 93 of the Land Court records of the Berkshire Middle District Registry of Deeds.

(2) Easement for flowage of water granted by John Todd to Thomas F. Plunkett by instrument dated April 20, 1849 and recorded in Book 130, Page 401 (Common Records of Berkshire Middle District Registry of Deeds), "if and insofar as the same may now be in effect".

Note: This easement is set forth in description of premises contained in Certificate of Title No. 4898. It is our opinion that this easement was the subject of a taking by eminent domain by the City of Pittsfield, pursuant to an Order of Taking, dated October 30, 1942, and recorded in Book 753, Page 60 (Common Records). By that taking, the City of Pittsfield acquired the Dale Brothers Laundry, Inc. dam across the Housatonic River near Deming Street and all water rights related thereto. Said easement was terminated by the City of Pittsfield by Termination of Rights and Easements, dated October 13, 2004, recorded February 10, 2005, in the Berkshire Middle District Registry of Deeds in Book 3156, Page 211; however, it will remain listed as an encumbrance in the description of premises contained in the Certificate of Title until action is taken by the record owner to have it removed (i.e., filing and allowance of an "S" Petition in the Massachusetts Land Court).

(3) Mutual Option Agreement, dated January 5, 1950, between William J. Christofaro and Sun Oil Company for lease of premises by Sun Oil Company, Document No. 7030, noted on Certificate of Title No. 4898 in Book 22, Page 93 of the Land Court records of the Berkshire Middle District Registry of Deeds.

Note: This Agreement, which involved a former owner of the premises, has expired by the express terms thereof; however, it will remain listed as an encumbrance in the Memorandum of

Encumbrances of the Certificate of Title until action is taken by the record owner to have it removed (i.e., filing and allowance of an "S" Petition in the Massachusetts Land Court).

(4) Grant of Environmental Easement and Restriction, dated July 2, 2003, executed by Robert Stomsky, as Grantor, as amended, and registered as Document No. 34518, noted on Certificate of Title No. 4898 in Book 22, Page 93 of the Land Court records of the Berkshire Middle District Registry of Deeds.

(5) Notice of Completion, dated June 27, 2006, made by General Electric Company, and registered as Document No. 34521, noted on Certificate of Title No. 4898 in Book 22, Page 93 of the Land Court records of the Berkshire Middle District Registry of Deeds.

Appendix I-1 – Parcel J9-23-24

Assessors Lot No. J9-23-24 – 269 Newell Street – Revised Plan of Restricted Area Showing Lots B14 & B16 on Land Court Plan No. 8372-1

NOTES:

1. THE RESTRICTED AREAS SHOWN HEREON ARE UPON LAND DESCRIBED IN LAND COURT TRANSFER CERTIFICATE NO. 4696 AND DESCRIBED AS LOTS B14 AND B16 ON LAND COURT PLAN NO. 8372-1.

2. DIMENSIONS DEFINING "OTHER GROUND-COVERING FEATURE AREA" SHOWN HEREON RUN ALONG EXISTING FACES OF CONCRETE AND EDGE OF PAVEMENT, AS SURVEYED IN SEPTEMBER-DECEMBER 2004.

3. THE NORTHERLY LINE OF THE "OPEN SOIL/VEGETATED AREA" SHOWN HEREON IS THE SAME AS THE NORTHERLY LINES OF PARCELS B16 AND B14 AS SHOWN ON LAND COURT PLAN 8372-1 . THE LAND COURT DIMENSIONS FOR THIS LINE ADD UP TO 102.20'. HOWEVER, IT IS BELIEVED THAT THE DIMENSION OF THE NORTHERLY LINE OF LOT B14 SHOWN ON SAID LAND COURT PLAN (92.20') IS IN ERROR. BASED UPON THE ORIGINAL PERIMETER DIMENSIONS SHOWN ON LAND COURT PLAN 8372- D FOR LOT B6 (WHICH WAS LATER SUBDIVIDED INTO LOTS B13 AND B14 SHOWN ON PLAN 8372-1), THE NORTHERLY LINE OF LOT B14 COMPUTES TO BE 88.06', NOT 92.20'. THEREFORE, THE TOTAL NORTHERLY LINE OF LOTS B14 AND B16 TOGETHER IS SHOWN HEREON AS 190.06' (102.00' + 88.06').

MASSACHUSETTS STATE PLAN, NAD 83(CORS96). THIS MERIDIAN IS ROTATED -11°26'24" FROM THAT OF THE LOCUS LAND COURT PLANS.

Appendix I-2 – Parcel J9-23-16

Grant of Environmental Restriction and Easement – July 12, 2007

GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT
42 U.S.C. § 9601, *et seq.*, and M.G.L. c. 21E, § 6.

[Note: This instrument is established as an institutional control for a federal Superfund Removal Site, pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604.]

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD440

This GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT (the "Grant") is made as of this 12th day of July, 2007, by the General Electric Company ("Grantor"), a corporation organized and existing under the laws of the State of New York, duly authorized to do business in Massachusetts, with a principal office in Pittsfield, Berkshire County, Massachusetts.

WITNESSETH:

WHEREAS, Grantor is the owner in fee simple of a certain parcel of land located at 191 Newell Street in Pittsfield, Berkshire County, Massachusetts, with the building foundations thereon, as evidenced by Certificate of Title No. 5955 in Book 27, Page 59, of the Land Court records in the Berkshire County Land Registration Office;

WHEREAS, said parcel of land, numbered as Tax Parcel No. J9-23-16, which is more particularly bounded and described in Exhibit A attached hereto and made a part hereof (the "Property"), is subject to this Grant. The Property is shown as Lot # 2 on a plan registered in the Berkshire County Land Registration Office as Land Court Plan No. 8372-J (a copy of a portion of which is filed with Certificate of Title No. 3488);

WHEREAS, the Property and certain restricted areas of the Property referred to as the Engineered Barrier Area, the Other Ground Covering Feature Area, the Open Soil/Vegetated Area, and the Groundwater Response Action Component Area (if any), all as defined below (collectively, all of the foregoing restricted areas comprising the "Restricted Area"), are subject to covenants, restrictions, easements and other rights and obligations under this Grant; the Restricted Area being shown on a plan entitled "Sketch Plan Showing Lot 2 on Land Court Plan No. 8372-J," dated June 25, 2007, and consisting of one sheet, which is attached hereto as Exhibit B and is made a part hereof and was also separately recorded in the Berkshire Middle District Registry of Deeds on September 26, 2007, in Plat H, No. 311; as such plan may be revised by Grantor (or, by the General Electric Company ("GE"), if GE is no longer the Grantor, with notice to Grantor), with the approval of Grantee and in accordance with the Consent Decree and the Statement of Work attached thereto (as defined below), to show the location of any Groundwater Response Action Component Area (to the extent that any such response action to address groundwater contamination at the Site has not been completed as of

LAND COURT DOCUMENT # 35065
PAGE 1 OF 45

the date of this instrument); said plan, with any such revision, being collectively referred to herein as the "Plan of Restricted Area";

WHEREAS, the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, a duly constituted agency organized under the laws of the United States of America and having a regional office at One Congress Street, Boston, Massachusetts 02114 ("EPA"), has identified a site, comprised of the GE facility in Pittsfield, Massachusetts, the Housatonic River adjacent to and downstream of the GE facility, and other areas, all as more particularly described in the Consent Decree (defined below), known as the "GE-Pittsfield/Housatonic River Site" (the "Site"), as a result of the release of hazardous substances at or from the GE facility, as such terms are defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9601 et seq.;

WHEREAS, the MASSACHUSETTS DEPARTMENT OF ENVIRONMENTAL PROTECTION, a duly constituted agency organized under the laws of the Commonwealth of Massachusetts and having an office at One Winter Street, Boston, MA 02108 ("DEP"), as a result of the release of oil and/or hazardous materials at the Site, as those terms are defined in the Massachusetts Oil and Hazardous Materials Release, Prevention and Response Act, M.G.L. c. 21E ("Chapter 21E"), has placed the Site and/or portions of the Site on the Massachusetts List of Confirmed Disposal Sites and Locations To Be Investigated, pursuant to Chapter 21E, and has assigned to the portion of the Site containing the Property DEP Disposal Site Number GECD440, pursuant thereto;

WHEREAS, EPA regulates activities at hazardous substance disposal sites pursuant to CERCLA and the National Contingency Plan, 40 C.F.R. 300.400, *et seq.*, as amended (the "NCP"), and DEP regulates activities at disposal sites pursuant to Chapter 21E and the Massachusetts Contingency Plan, 310 C.M.R. 40.0000, as amended (the "MCP"), respectively;

WHEREAS, the Property is situated within the Site and specifically within an area of the Site known as Newell Street Area I;

WHEREAS, GE has entered into a Consent Decree in connection with the Site with the United States, the State of Connecticut, and the Commonwealth of Massachusetts (the "Commonwealth") in United States of America, State of Connecticut, and Commonwealth of Massachusetts v. General Electric Company, Civil Action No. 99-30225-MAP et seq., entered by the United States District Court for the District of Massachusetts on October 27, 2000 (the "Consent Decree");

WHEREAS, the Consent Decree and an accompanying Statement of Work ("SOW") require the performance of certain Response Actions (as defined below) at the Site or portions thereof;

WHEREAS, the Response Actions are ongoing at the Site and include Response Actions at the Property;

WHEREAS, EPA has determined and the Consent Decree requires that certain easements, rights, obligations, covenants, and restrictions, as more particularly set forth below, are necessary at the Property to conduct and ensure the protectiveness and integrity of the Response Actions;

WHEREAS, DEP has provided EPA with review and comment on the Response Actions, and agrees with the need for easements, rights, obligations, covenants, and restrictions, as aforesaid;

WHEREAS, because the Response Actions, as they affect the Property, are a Removal Action under CERCLA, EPA has requested that DEP accept a grant of such easements, rights, obligations, covenants, and restrictions, as aforesaid, pursuant to its authority under M.G.L. c. 21E, § 6;

WHEREAS, Grantor has agreed to grant the aforesaid easements, rights, obligations, covenants and restrictions, as more particularly set forth below, to DEP and its assigns pursuant to the Consent Decree;

NOW, THEREFORE, pursuant to the terms of the Consent Decree and in consideration of EPA's and the Commonwealth's agreement on behalf of DEP to settle certain of their claims against Grantor pursuant thereto, the receipt and sufficiency of which consideration is hereby acknowledged, GRANTOR does hereby COVENANT AND DECLARE that the Property shall be subject to the restrictions on activity and use set forth below, and does GIVE, GRANT AND CONVEY to DEP ("Grantee"), with QUITCLAIM COVENANTS, (1) the perpetual right to enforce said activity and use restrictions, and (2) an environmental protection and access easement of the nature and character, and for the purposes hereinafter set forth, with respect to the Property (collectively, the "Environmental Restriction and Easement").

Said Environmental Restriction and Easement is subject to the following terms and conditions:

1. Purpose. It is the purpose of this instrument to establish covenants, restrictions and easements, all of which shall run with the land, to facilitate the cleanup of environmental contamination and to protect human health and the environment by reducing the risk of exposure to contaminants.

2. Definitions. For purposes of this instrument, the following terms shall have the following meanings:

A. "Engineered Barrier Area" shall mean those areas of the Property designated as such on the Plan of Restricted Area, as more particularly bounded and described in Exhibit C attached hereto and made a part hereof; generally such areas contain permanent caps designed, constructed, and maintained to isolate and contain underlying soils and other materials (the "Engineered Barrier"). Such caps include either a vegetated cover or an asphalt cover, a drainage layer, and an impermeable membrane liner, as described in Attachment G of the SOW;

B. "Grantor" includes the Grantor or any successor of Grantor in title to the Property.

C. "Groundwater Response Action Component Area" shall mean those areas of the Property (if any) designated as such on the Plan of Restricted Area; generally such areas contain components of the response action for groundwater at the Property, if any.

D. "Health and Safety Protocol" shall mean the Health and Safety Protocol attached hereto as Exhibit D and incorporated herein by reference.

E. "Licensed Site Professional" or "LSP" each shall mean a hazardous waste site cleanup professional, as defined in M.G.L. c. 21A, § 19, holding a valid license issued by the Board of Registration of Hazardous Waste Site Cleanup Professionals, pursuant to M.G.L. c. 21A, §§ 19 through 19J.

F. "Open Soil/Vegetated Area" shall mean, collectively, those areas of the Property designated as such on the Plan of Restricted Area, as more particularly bounded and described in Exhibit C attached hereto and made a part hereof; such areas consist of any and all areas of the Property other than the Engineered Barrier Area and the Other Ground Covering Feature Area.

G. "Other Ground Covering Feature Area" shall mean, collectively, those areas of the Property designated as such on the Plan of Restricted Area as more particularly bounded and described in Exhibit C attached hereto and made a part hereof; such areas are where building foundations, interior slabs, exterior slabs, or paving and concrete (other than those described in subparagraph 2.A above) are located.

H. "Recorded and/or Registered" and its various conjugations shall mean, as to unregistered land, recorded with the Berkshire Middle District Registry of Deeds, and as to registered land, filed with the Berkshire County Land Registration Office, each conjugated as appropriate.

I. "Response Actions" shall mean the environmental response actions required to be undertaken at the Site or portions thereof pursuant to the Consent Decree and SOW (designated as Removal Actions under CERCLA), including (but not limited to) source control measures, soil removal, capping of contaminated soil, groundwater monitoring and (if necessary) response actions to address groundwater contamination, other actions to address existing contamination, institutional controls in the nature of restrictive covenants to prevent certain activities and uses at various properties, and certain operation and maintenance activities necessary to maintain the effectiveness of the response actions.

J. "Soil Management Protocol" shall mean the Soil Management Protocol attached hereto as Exhibit E and incorporated herein by reference.

K. "Statement of Work" or "SOW" shall mean the Statement of Work for Removal Actions Outside the River, which is Appendix E of the Consent Decree.

L. "Utility Work" shall mean the maintenance and repair of pipes, lines and other such conveyances for water, sewer, storm-water, steam, gas, fuel oil, electricity, and communications, but not the installation of new pipes, lines, or other such conveyances.

3. Restricted Activities and Uses. Except as provided in Paragraph 4 ("Permitted Activities and Uses"), Paragraph 6 ("Conditional Exceptions From Restricted Activities and Uses"), Paragraph 7 ("Applicability"), and/or Paragraph 8 ("Emergency Excavation"), Grantor shall not perform, suffer, allow or cause any person to perform any of the following activities or uses in, on, upon, through, over or under the Property or portions thereof:

A. residential activity or use;

B. day care and educational (for children under eighteen (18) years of age) activity or use;

C. community center (for children under eighteen (18) years of age) activity or use;

D. recreational activity or use;

E. agricultural activity or use;

F. extraction, consumption, or utilization of groundwater underlying the Property, including without limitation, extraction for potable, industrial, irrigation, or agricultural use;

G. excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and

H. any activity or use that would interfere with, or would be reasonably likely to interfere with, the implementation, operation, or maintenance of any aspect or component of the Response Actions already constructed or under construction, or of which Grantor has notice, including, without limitation, interference with any component of the Response Actions situated within the Engineered Barrier Area, any groundwater contaminant containment measures or barriers situated within the Groundwater Response Action Component Area (if any), or any groundwater monitoring wells, or any activity that would exceed the bearing load of, or pierce, any barrier or membrane situated within the Engineered Barrier Area.

4. Permitted Activities and Uses. Grantor reserves the right to perform, suffer, allow or to cause any person to perform any activity in, on, upon, through, over or under the Property, or make any use of the Property, that is not restricted by the provisions of this Environmental Restriction and Easement. In addition, Grantor may perform, suffer, allow or cause any person to perform the uses and activities set forth below in, on, upon, through, over or under the Property and the Restricted Area or portions of either. Except for the permitted activities and uses allowed pursuant to subparagraphs 4.A and 4.B below, and except as otherwise provided in subparagraph 4.E below, all such activities and uses shall only be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol, as applicable, as set forth below. Grantor shall restore the Property, or any portion thereof, affected by any activity or use

permitted under subparagraphs 4.A through 4.E to its prior condition immediately upon completion of such activity or use, also in accordance with the Soil Management Protocol and the Health and Safety Protocol (except for permitted activities and uses allowed pursuant to subparagraph 4.A and 4.B and except as otherwise provided in subparagraph 4.E below).

A. Surface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.A. In conducting activities and uses pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Such surface excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored in the Open Soil/Vegetated Area to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation or storage shall not exceed fourteen (14) days.

ii. Grantor shall take appropriate measures to secure stored soil and to control erosion, dust, and runoff.

iii. Grantor shall (a) backfill excavations to the original surface grade with clean soil or soil excavated from the Open Soil/Vegetated Area solely from the top one (1) foot of the surface of the ground; and (b) reestablish any disturbed vegetation.

iv. Grantor shall provide Grantee with written notice of each such surface excavation project no later than thirty (30) days after completion, and shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee; provided, however, that any such project where the total amount of soil that has been or will be excavated is less than five (5) cubic feet shall not be subject to the foregoing notification requirement.

v. Grantor shall not store or dispose of any excavated material outside of the Open Soil/Vegetated Area.

B. Surface Excavation of any Volume. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of any volume of such materials shall be permitted. In conducting work pursuant to this subparagraph, Grantor shall comply with the requirements listed above in subparagraphs 4.A.i through 4.A.iv, and the following additional requirements:

i. Grantor shall utilize an LSP to oversee the surface excavation permitted pursuant to this subparagraph.

ii. Disposal of excavated materials off of the Property shall be permitted provided that an LSP oversees such disposal and that the Grantor complies with the provisions of Paragraph 9 of the Soil Management Protocol regarding off-Property disposal of soil and other materials.

C. Surface and/or Subsurface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area and the Other Ground Covering Feature Area, at any depth, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.C. In conducting work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Grantor shall utilize an LSP to oversee the excavation permitted pursuant to this subparagraph, including without limitation, the disposal of soil and other material. All activities and uses permitted pursuant to this subparagraph shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol.

ii. Such excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee.

D. Surface and/or Subsurface Excavation for Utility Work. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area and the Other Ground Covering Feature Area, at any depth, for the purpose of Utility Work, shall be permitted. In conducting Utility Work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. All such Utility Work shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. Grantor shall utilize an LSP to oversee

all such activities and uses, including without limitation, the disposal of soil and other materials.

ii. Such Utility Work shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall give Grantee fifteen (15) days' advance written notice prior to conducting any activities and uses pursuant to this subparagraph 4.D.

iv. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee.

E. Sampling. Notwithstanding the restrictions set forth in subparagraphs 3.F and 3.G, soil and groundwater sampling activities shall be permitted in the Open Soil/Vegetated Area and the Other Ground Covering Feature Area; provided that Grantor shall utilize an LSP to oversee such sampling; and further provided that all such activities and uses shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. While GE continues to own and control the Property, the foregoing requirements to utilize an LSP and to comply with the Soil Management Protocol shall not apply to soil or groundwater sampling activities conducted by or under the oversight of GE personnel or contractors familiar with the terms of this Grant and pursuant to a plan for sampling that takes into account contaminated media at the Property and has been approved by EPA or DEP, with notice to Grantee. The foregoing sentence shall run to the benefit of GE alone, not to any successors or assigns, and shall not run with the land.

F. All other restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall apply to the activities and uses permitted to this Paragraph 4 ("Permitted Activities and Uses").

5. Obligations and Conditions. Grantor affirmatively agrees to perform the following activities at the Property and/or Restricted Area:

A. If Grantor observes or otherwise becomes aware of evidence of any failure or other significant alteration of any Engineered Barrier, including without limitation (i) exposure of or damage to any drainage layer, synthetic barrier, or liner; (ii) uneven settlement relative to surrounding areas; or (iii) damage to the pavement cover of any paved portion of an Engineered

Barrier such as fissures, large cracks, or potholes; then Grantor shall notify Grantee and EPA thereof in writing within five (5) business days thereafter.

B. Any utility repair, maintenance or installation conducted in confined spaces shall comply with the Health and Safety Protocol.

6. Conditional Exceptions from Restricted Activities and Uses. Grantor may request from Grantee a conditional exception from one or more of the restricted activities or uses set forth in Paragraph 3 ("Restricted Activities and Uses") for a particular proposed activity or use and any related work, which would otherwise temporarily violate such restriction(s). Such request shall be submitted to Grantee in accordance with and shall be subject to all of the following:

A. Submittal Requirements. All requests for conditional exceptions shall, at a minimum:

i. include a written description and/or plans of the proposed activity or use and other relevant information;

ii. identify the Restricted Area or types of restricted areas for which the conditional exception is requested;

iii. identify the specific restriction(s) from which the conditional exception is requested, and explain the need for the exception;

iv. state the duration of the activity or use and any related work for which the conditional exception is requested, including a proposed termination date for the conditional exception; and

v. if required pursuant to subparagraph 6.B, below, include (a) a determination by an appropriately trained and licensed professional, such as an LSP, that the proposed activity and use and any related work for which the conditional exception is requested would satisfy the human health and environmental risk standard set forth in subparagraph 6.C, and (b) supporting technical analysis upon which such determination is based.

B. Requirement to Use an Appropriately Trained and Licensed Professional; Request for Waiver. An appropriately trained and licensed professional, such as an LSP, shall make the risk determination required in subparagraph 6.A.v, unless waived by Grantee pursuant to this subparagraph 6.B. Grantor may request Grantee to waive such requirement, if appropriate under the circumstances, for example, if a particular proposed activity and use and any related work is de minimis. In the event of such a request or on its own initiative, Grantee, in its sole discretion, may waive such requirement taking into consideration the nature and scope of a particular proposed conditional exception request. Any such waiver must be in writing. A waiver for one conditional exception request shall not be deemed to be a waiver for any future conditional exception request.

C. Human Health and Environmental Risk Standard. Grantor shall demonstrate, in accordance with the procedures set forth in subparagraphs 6.A and 6.B, that the activity or use and any related work for which a particular conditional exception is requested would not result in an unacceptable risk to human health or the environment, pursuant to the criteria set forth at 40 C.F.R. § 300.430(e)(2)(i), as amended, or interfere with the integrity or effectiveness of the Response Actions. Such demonstration shall include, but not be limited to, consideration of the following factors, as applicable:

i. potential exposure to or release of hazardous substances;

ii. potential adverse impacts of the proposed activity or use on any Engineered Barrier or on surface water runoff pathways;

iii. potential creation of pathways of contaminant migration;

iv. potential impact on groundwater and any nonaqueous-phase liquids (NAPL);

v. management plans for excavated contaminated materials, including handling and disposal;

vi. appropriate worker health and safety plans; and

vii. whether the proposed activity or use and any related work would interfere with the implementation, operation and/or maintenance of the Response Actions and if so, whether the proposed activity or use is necessary to reduce a threat to human health or the environment.

D. Other Relevant Considerations. In reviewing a proposed conditional exception request, Grantee may considér Grantor's financial and/or technical ability to perform the necessary response work in connection with such request. Grantee may also consider any other relevant matters related to the human health and environmental risk standard set forth in subparagraph 6.C, above.

E. Completeness Determination, Review and Response.

i. If Grantee determines that Grantor's conditional exception request is sufficient and complete for purposes of review, Grantee shall review such request. If necessary, Grantee may notify Grantor of any deficiencies in Grantor's request, and may provide Grantor with an opportunity to submit supplemental information.

ii. Except as provided for in subparagraph 6.G, Grantee, upon completion of its review of any conditional exception request, based upon whether the human health and environmental risk standard set forth in subparagraph 6.C would be satisfied, and upon the other relevant considerations set forth in subparagraph 6.D, shall determine whether the requested conditional exception is appropriate and, if so, shall issue the conditional exception. If Grantee determines that the requested conditional exception

is not appropriate, then Grantee shall issue a written explanation. Grantee may condition its issuance of a conditional exception as appropriate, including without limitation, upon the results of future sampling and/or testing.

iii. All conditional exceptions must be in writing and signed by Grantee.

F. Interim and Closeout Report Requirements. During and/or upon completion of the activity or use and any related work for which the conditional exception was obtained, upon request by Grantee, Grantor shall submit a written report confirming that such activity or use and related work was or is being implemented in accordance with the conditional exception, including in accordance with the representations in Grantor's conditional exception request submittal regarding the requirements set forth in subparagraphs 6.C and 6.D. Such report shall be prepared and signed by an appropriately trained and licensed professional, such as an LSP, unless pursuant to subparagraph 6.B Grantee previously waived the requirement to include a risk determination and supporting technical analysis by such professional.

G. Applicability of Amendment Provision to Conditional Exception Requests. Any conditional exception request for an activity or use and any related work which, in the judgment of Grantee, would result in a permanent modification to an activity or use restriction established in Paragraph 3 ("Restricted Activities and Uses"), including without limitation, to the boundary of the Restricted Area or any particular type of restricted area, shall require an amendment to this instrument in lieu of a conditional exception, in accordance with Paragraph 15 ("Amendment and Release").

7. **Applicability.** The restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall not apply to any response action undertaken by EPA or DEP, or their respective agents, representatives, contractors, subcontractors or employees, pursuant to CERCLA or Chapter 21E, and their respective implementing regulations. In addition, the restrictions set forth in subparagraphs 3.F through 3.H shall not apply to any of the following activities conducted by GE, or its employees, contractors, or subcontractors, pursuant to the Consent Decree and/or the SOW, as approved by EPA (which approval shall be after a reasonable opportunity for review and comment by DEP), for purposes of implementing or monitoring the Response Actions, provided that such activities do not permanently modify the boundary of the Restricted Area or of any particular type of restricted areas: soil or groundwater sampling; excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and/or groundwater extraction.

8. **Emergency Excavation.** If it becomes necessary to excavate a portion of the Property, as part of a response to an emergency (e.g., repair of utility lines or responding to fire or flood), any activity and use restriction provisions of Paragraph 3 ("Restricted Activities and Uses") above, which would otherwise restrict such excavation, shall be suspended with respect to such excavation for the duration of such emergency response, provided that Grantor:

A. Limits the actual disturbance involved in such excavation to the minimum reasonably necessary to adequately respond to the emergency;

B. Implements all measures necessary to limit actual or potential risk to the public health and environment arising from the emergency and the response thereto;

C. Undertakes precautions to minimize exposure of workers and neighbors of the Property to the hazardous substance or material; and

D. Utilizes an LSP (except as provided in the last sub-paragraph of this Paragraph 8) to oversee the implementation of the terms of this Paragraph 8 ("Emergency Excavation"), and to prepare and oversee the implementation of a written plan which, in said professional's opinion, will restore the Property to a condition consistent with its condition before the emergency excavation took place, with minimal disturbance of the contaminated soils; said plan to be subject to the Soil Management and the Health and Safety Protocols, as applicable; said plan to be promptly prepared and implemented; a copy of said plan to be submitted to EPA and DEP within ten (10) days of its performance, together with a completed Post-Work Notification Form, attached hereto as Exhibit F, with a statement from said LSP that the Property has been restored to said condition; provided, however, that in cases where only minimal excavation has occurred such that there has been no significant impact on the protectiveness of the Response Actions, Grantor may request Grantee to allow the Grantor to prepare and submit the plan and statement, without utilizing the services of the otherwise required LSP.

In addition, Grantor shall notify EPA and the DEP Western Regional Office Emergency Response Section, or such other party as EPA or DEP may identify in writing to Grantor, of such emergency as soon as possible but no more than two (2) hours after having learned of such emergency.

The following provisions shall run to the benefit of GE alone, but not to any successor or assign, and shall not run with the land:

i. While GE continues to own and control the Property, to the extent that GE is unable practicably to utilize an LSP to oversee the implementation of this Paragraph 8 (as required by subparagraph 8.D, above) due to the time-critical nature of the emergency, GE may instead utilize a similarly trained and experienced GE employee during the emergency to satisfy said requirement, provided that such employee:

(a) is experienced in overseeing excavation and management of contaminated media;

(b) is familiar with health and safety considerations, including proper use of personal protective equipment;

(c) is familiar with regulatory requirements for sampling and management of hazardous material;

(d) is familiar with the relevant requirements of this Grant, the Consent Decree and the SOW; and

LAND COURT DOCUMENT # 35065
PAGE 12 OF 45

(e) has appropriate environmental science or engineering training and experience and other appropriate educational background.

ii. While GE continues to own and control the Property, GE may, at its option, utilize a consultant, under the supervision of an LSP, to prepare the above-described written plan (as required by subparagraph 8.D, above).

9. Grant of Easements. In establishing this Environmental Restriction and Easement, Grantor hereby grants the following easements for the term of this Grant to Grantee, its agents, representatives, contractors, subcontractors and employees:

A. An easement to pass and repass over the Property for the purpose of inspecting the Property to ensure compliance with and fulfillment of the terms of this Environmental Restriction and Easement; and

B. An easement in, on, upon, through, over and under the Property for the following purposes:

i. constructing, implementing, monitoring, and performing the Response Actions and operation and maintenance for the Response Actions;

ii. assessing the need for, planning, or implementing other response actions at the Site;

iii. verifying any data or information submitted to EPA or DEP;

iv. surveying and obtaining samples;

v. installing groundwater monitoring wells and extraction wells;

vi. conducting investigations relating to contamination at or near the Site; and

vii. determining whether additional activity or use restrictions are necessary.

10. Severability. Grantor agrees, in the event that a court or other tribunal determines that any provision of this instrument is invalid or unenforceable:

A. That any such provision shall be deemed to have been modified automatically to conform to the requirements for validity and enforceability as determined by such court or tribunal; or

B. That any such provision that, by its nature, cannot be so modified, shall be deemed deleted from this instrument as though it had never been included.

Such modifications and deletions shall be deemed effective as of the date of the determination of the court or other tribunal. In either case, the remaining provisions of this instrument shall remain in full force and effect.

11. Enforcement. Grantor expressly acknowledges that a violation of the terms of this instrument could result in the following:

A. The assessment of penalties and other action by DEP to enforce the terms of this Environmental Restriction and Easement, pursuant to Chapter 21E and the MCP; and/or

B. Upon a determination by a court of competent jurisdiction, the issuance of criminal and civil penalties, and/or equitable remedies, which could include the issuance of an order to (i) modify or remove any improvements constructed in violation of the terms of this Environmental Restriction and Easement at Grantor's sole cost and expense or (ii) to reimburse the Commonwealth and the United States for any costs incurred in modifying or removing any improvement constructed in violation of the terms of this Environmental Restriction and Easement.

12. Provisions to Run With the Land. The land use restrictions, obligations, and access rights provided herein establish certain rights, liabilities, agreements and obligations upon and subject to which the Property or any portion thereof, shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered, or conveyed. The rights, liabilities, agreements and obligations herein set forth shall run with the Property for the term of this instrument, as applicable thereto, and any portion thereof, and shall inure to the benefit of Grantee and its assigns and be binding upon Grantor and all parties claiming by, through or under Grantor. Grantor hereby covenants for himself and his executors, administrators, heirs, successors and assigns, to stand seized and hold title to the Property, or any portion thereof, subject to these land use restrictions, access rights, and other provisions of this Grant; provided, however, that a violation of these land use restrictions, access rights, and other provisions shall not result in a forfeiture or reversion of Grantor's title to the Property.

13. Concurrence Presumed. It is agreed that:

A. Grantor and all parties claiming by, through or under Grantor shall be deemed to be in accord with the provisions herein set forth; and

B. Grantor and all such parties agree for and among themselves and any party claiming by, through or under them, and their respective agents, contractors, sub-contractors and employees, that the land use restrictions and access rights herein established shall be adhered to and not violated and that their respective interests in the Property shall be subject to the provisions herein set forth.

14. Incorporation into Deeds, Mortgages, Leases and Instruments of Transfer. Grantor hereby agrees to incorporate this instrument, in full or by reference, into all deeds, easements, mortgages, leases, licenses, occupancy agreements or any other instrument of transfer by which an interest in and/or a right to use the Property, or any portion thereof, is conveyed;

provided, however, that any failure of Grantor to do so shall not affect the validity or applicability of the provisions of Paragraph 12.

15. Amendment and Release.

A. Amendment at Grantee's Request.

i. Grantee may request Grantor to amend this instrument. Grantor hereby further agrees to execute any such amendment which Grantee reasonably deems necessary for the effective administration of this instrument; provided, however, that such amendment shall be limited to procedural matters hereunder. Accordingly, the foregoing obligation shall not obligate Grantor to impose additional substantive restrictions on the Property, beyond those listed in Paragraph 3 ("Restricted Activities and Uses"); nor to impose additional substantive limitations on the permitted activities and uses set forth in Paragraph 4 ("Permitted Activities and Uses"); nor to impose additional substantive obligations and conditions upon Grantor, beyond those set forth in Paragraph 5 ("Obligations and Conditions"). All amendments shall include Grantee's signed approval and shall become effective upon Recordation and/or Registration.

ii. Notwithstanding the foregoing, if Grantor is not GE, Grantor expressly acknowledges and agrees that the within Grant includes the right of GE, in accordance with the Consent Decree, with notice to Grantor and written approval of Grantee, to Record and/or Register a revised Plan of Restricted Area indicating the location of any Groundwater Response Action Component Area and associated notice thereof. The Recordation and/or Registration of any such revised Plan of Restricted Area and associated notice thereof shall not be deemed an amendment to this Grant, but rather the exercise of rights established by, and effective upon the Recording and/or Registration of, this Grant.

B. Amendment at Grantor's Request. Grantor may amend this instrument only with the prior, written approval of the Grantee. Grantor may propose to Grantee an amendment of an activity or use restriction set forth in Paragraph 3 ("Restricted Activities and Uses") or of a permitted use set forth in Paragraph 4 ("Permitted Activities and Uses"), based upon changed circumstances, including, without limitation, new analytical and engineering data or a Grantor proposal to perform additional remediation at the Property. In the event that Grantor requests such an amendment, Grantor shall provide such information as Grantee may require for review of such a request, including without limitation, information that addresses the considerations set forth in Paragraph 6 ("Conditional Exceptions from Restricted Activities and Uses"), as applicable, and an explanation of the changed circumstances. If Grantee determines that any amendment to this Grant proposed by Grantor is not appropriate, then Grantee shall issue a written explanation.

C. Release. This instrument may be released, in whole or in part, by Grantee in Grantee's sole discretion, and in accordance with CERCLA, the NCP, Chapter 21E and the MCP, to the extent applicable. This instrument shall not be deemed released unless and until Grantee,

its successors and assigns, and/or any other party claiming under Grantee, have released their respective interests. Said release shall become effective upon its Recordation and/or Registration.

D. Recordation and/or Registration. Grantor hereby agrees to Record and/or Register any amendment to and/or release of this instrument, and/or other document created pursuant to this instrument for which Recording and/or Registration is required, within thirty (30) days of the date of having received from Grantee any such amendment, release, and/or other document. No more than thirty (30) days from the date of Recording and/or Registration, Grantor shall provide to Grantee a certified Registry/Land Registration Office copy of the amendment, release, and/or other such document. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final recording and/or registration information for the amendment, release, and/or other such document, certified by said Registry/Land Registration Office. Grantor shall pay any and all recording fees, land transfer taxes and other such transaction costs associated with any such amendment, release, and/or other document. Grantor, if not GE, further agrees to cooperate with GE in the Recording and/or Registration of a revised Plan of Restricted Area, as described above, and any associated notice thereof.

E. Notice to Local Officials. Grantor further agrees to notify local officials and the public of the amendment or release in accordance with the requirements set forth in 310 C.M.R. 40.1403(7), as amended. A copy of said regulation is attached hereto as Exhibit G.

16. No Dedication Intended. Nothing herein set forth shall be construed to be a gift or dedication of the Property to Grantee, its assigns or to the general public for any purpose whatsoever.

17. Term. This instrument shall run with the land in perpetuity and is intended to conform to the exception for "other restrictions held by any governmental body" set forth in clause (c) of the first paragraph of M.G.L. c. 184, § 26, as amended.

18. Rights Reserved. It is expressly agreed that acceptance of this instrument by Grantee or its assignment shall not operate to bar, diminish, or in any way affect any legal or equitable right that Grantee or its assigns may otherwise have to issue any future order or take response action with respect to the Property or in any way affect any other claim, action, suit, cause of action, or demand which Grantee or its assigns may otherwise possess or hereafter acquire with respect thereto.

Nothing in this instrument shall limit or otherwise affect any rights that the United States or the Commonwealth may otherwise have to obtain access to, or restrict the use of, the Property pursuant to CERCLA, Chapter 21E, or any other applicable statute or regulation.

Nothing in this instrument shall waive such liability as Grantor may otherwise have for any release or any threat of a release of hazardous substances, oil or hazardous materials occurring as a result of Grantor's exercise of any of its rights hereunder, nor shall any provision of this instrument excuse compliance with CERCLA, Chapter 21E, or any other applicable federal, State or local laws, regulations or ordinances.

The rights reserved to Grantee in this Paragraph 18 ("Rights Reserved") shall be in addition to any rights reserved to Grantee elsewhere in this instrument.

19. Assignment. This instrument, including without limitation all easements, rights, covenants, obligations and restrictions inuring to the benefit of Grantee, herein contained, shall be assignable by Grantee, in whole or in part, at any time. This instrument may only be assigned to EPA, the City of Pittsfield, or any state or federal agency with at least statewide jurisdiction that has statutory authority to hold property interests and to administer or to enforce property restrictions such as this Environmental Restriction and Easement on behalf of the State or the United States, or to any other appropriate entity upon the mutual agreement of Grantee and Grantor. In the event of any assignment, Grantee shall notify Grantor by notice sent by first-class mail, postage prepaid, to Grantor's address.

20. Agency Review and Comment; Notice. Prior to responding to any request for approval or taking any other action pursuant to this instrument, Grantee shall first provide EPA with a reasonable opportunity to review and comment upon the requested approval or proposed action. Grantor shall submit duplicate copies of any submissions or notices made to Grantee pursuant to this instrument to Grantee, with a copy to EPA, at the following addresses by first-class mail, postage prepaid:

A. to EPA:
U.S. Environmental Protection Agency
Office of Site Remediation and Restoration
One Congress Street,
Suite 1100 -- Mail Code HBT
Boston, MA 02114-2023
Attn: GE-Pittsfield/Housatonic River Site

B. to DEP:
Department of Environmental Protection
Western Regional Office
436 Dwight Street
Springfield, MA 01103; and to

Department of Environmental Protection
Bureau of Waste Site Cleanup
One Winter Street
Boston, MA 02108

C. or as otherwise provided in writing by EPA or DEP.

If GE is not the Grantor, Grantor shall submit any notices to GE made pursuant to this instrument to GE at the following address or such other address as provided in writing by GE, with a copy to Grantee and EPA.

Pittsfield, MA 01201

21. **Effective Date.** This instrument shall become effective upon its Registration.

No more than thirty (30) days from the date of Registration, Grantor shall provide Grantee with a certified Land Registration Office copy of this instrument. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final Registration information for this instrument, certified by said Land Registration Office.

As this instrument is granted to an agency of the Commonwealth of Massachusetts, no Massachusetts deed excise tax stamps are affixed hereto, none being required by law (M.G.L. Chapter 64D, Section 1, as amended).

WITNESS the execution hereof under seal this 12th day of July, 2007.

GENERAL ELECTRIC COMPANY

By: Michael T. Carroll
Michael T. Carroll
Manager, Pittsfield Remediation Programs,
Corporate Environmental Programs

COMMONWEALTH OF MASSACHUSETTS

County of Berkshire, ss.

On this 12th day of July, 2007, before me, the undersigned notary public, personally appeared Michael T. Carroll, as Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the General Electric Company, a corporation, proved to me through satisfactory evidence of identification, which was NY Drivers License, to be the person whose name is signed on the preceding or attached document, and acknowledged to me that he signed it voluntarily for its stated purpose.

GENERAL ELECTRIC COMPANY

Certificate of Authorization

I, Laurence J. Bird, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify resolutions of the Board of Directors of the Company.

2. The following is a true and correct excerpt of a Resolution #10855 duly adopted by the Board of Directors of the Company on April 26, 1988, as such Resolution was duly amended and restated by the Board of Directors of the Company on December 20, 1991 (as so amended and restated, the "Resolution") dealing with the execution of contracts and other instruments on behalf of the Company. The Resolution is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked:

"RESOLVED, that

(A) Any contract, lease license, assignment, bond or other obligation, conveyance, power of attorney, guarantee, proxy, court pleading, release, tax return and related documents, or other instruments may be executed on behalf of this Company by the Chairman of the Board, a Vice Chairman of the Board, an Executive Vice President, a Senior Vice President, a Vice President reporting directly to the Chairman or a Vice Chairman of the Board, the Comptroller, the Treasurer, the Secretary or any Vice President who is a corporate staff officer of the Company, all of the above named individuals being hereinafter called "Authorized Persons".

. . . .

(C) Each Authorized Person is hereby authorized to delegate to others authority to execute on behalf of the Company the following types of contracts and other instruments which relate to the function or component for which such Authorized Person is responsible:

. . . .

4. Contracts, leases, deeds, or other instruments relating to real property or to any improvements thereon."

IN WITNESS WHEREOF, the undersigned has executed the Certificate of Authorization as of this 12th day of July, 2007.

GENERAL ELECTRIC COMPANY

Certificate of Incumbency

I, Laurence J. Bird, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify the incumbency of officers of the Company.

2. Stephen D. Ramsey is the duly qualified and appointed Vice President, Corporate Environmental Programs, of the Company, that he held that corporate staff office on April 10, 2003, and that he is an "Authorized Person" as defined in paragraph (A) of Resolution #10855 of the General Electric Board of Directors.

3. Attached as Exhibit 1 to this Certificate is a true and correct copy of a valid written delegation of authority dated February 7, 2003 by Stephen D. Ramsey, Vice President, Corporate Environmental Programs of the Company, to Michael T. Carroll, Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company. This written delegation is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked.

4. Michael T. Carroll is, and was on July 12, 2007 [date of execution] the duly qualified and appointed Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company.

IN WITNESS WHEREOF, the undersigned has executed this Certificate of Incumbency as of this 12th day of July, 2007.

EXHIBIT A

DESCRIPTION OF PROPERTY BY METES AND BOUNDS

Tax Parcel No. J9-23-16

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point in the northerly sideline of Newell Street, said point being the southwest corner of the parcel herein described and is also located S 87° 44' 00" W a distance of 12.00 feet from a highway bound in the northerly line of Newell Street;

Running thence N 02° 00' 00" W a distance of 130.00 feet to a point;

Running thence S 87° 44' 00" W a distance of 12.00 feet to a point;

Running thence N 02° 00' 00" W a distance of 245.33 feet to the northwest corner of the parcel herein described to a point;

Running thence S 74° 49' 40" E a distance of 35.54 feet to a point;

Running thence on a curve to the left having a radius of 535.00' and an arc length of 80.07 feet to a point at the northeast corner of the parcel herein described;

Running thence S 04° 09''40" E a distance of 346.67 feet to the southeast corner of the parcel herein described on the northerly streetline of said Newell Street to a point;

Running thence S 87° 44'00" W a distance of 113.00 feet along the northerly streetline of said Newell Street to the point of beginning.

The parcel above described is more particularly shown as Lot 2 on Land Court Plan No. 8372-J.

Excepting any and all interest of the Grantor in Newell Street.

Note: The above-described parcel shown as Lot 2 on Land Court Plan No. 8372-J is also shown on the plan entitled "Sketch Plan Showing Lot 2 on Land Court Plan No. 8372-J" ("Sketch Plan"), dated June 25, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which is attached as Exhibit B to the foregoing Grant of Environmental Restriction and Easement. Both plans depict the same parcel. The property boundary line dimensions shown above are based on Land Court Plan No. 8372-J. Those shown on the Sketch Plan are the result of an on-the-ground retracement survey of the lines shown on said Land Court Plan. The bearings shown on the Sketch Plan are rotated -11° 25' 29" from the meridian of said

LAND COURT DOCUMENT # 35065
PAGE 25 OF 45

Land Court Plan. Any differences between the distances shown above and those shown on the Sketch Plan are the result of the retracement survey of the lines shown on said Land Court Plan and are within the expected measurement tolerances which exist between the two surveys.

EXHIBIT C

DESCRIPTION OF RESTRICTED AREAS BY METES AND BOUNDS

This Exhibit describes, by metes and bounds, the restricted areas under the foregoing Grant of Environmental Restriction and Easement. The areas described below consist of portions of the Property subject to this Grant, which areas are identified and more particularly shown on a plan entitled "Sketch Plan Showing Lot 2 on Land Court Plan No. 8372-J" ("Sketch Plan"), dated June 25, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which plan is attached to the above-referenced Grant as Exhibit B.

ENGINEERED BARRIER AREA

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the Engineered Barrier Area herein described, thence running N 13° 25' 29" W a distance of 101.6 feet to a point;

Thence running N 75° 24' E a distance of 68.4 feet to a point;

Thence running N 77° 11' E a distance of 43.6 feet to a point;

Thence running N 09° 20' W a distance of 12.9 feet to a point;

Thence running N 76° 34' E a distance of 0.2 feet to a point;

Thence running S 15° 34' 24" E a distance of 114.1 feet to a point;

Thence running S 77° 32' W a distance of 20.2 feet to a point;

Thence running S 41° 22' E a distance of 14.3 feet to a point;

Thence running S 12° 51' E a distance of 9.2 feet to a point;

Thence running N 87° 48' W a distance of 21.9 feet to a point;

Thence running N 74° 43' W a distance of 27.4 feet to a point;

Thence running N 87° 15' W a distance of 3.8 feet to a point;

Thence running S 76° 35' W a distance of 55.0 feet to the point of beginning.

The above-described area of land contains 12,341 square feet and is more particularly shown as "Engineered Barrier Area" on the above-referenced Sketch Plan.

OPEN SOIL/VEGETATED AREA

Sub-Area A:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 31' W a distance of 40.8 feet to a point;

Thence running N 05° 12' E a distance of 2.4 feet to a point;

Thence running N 63° 22' E a distance of 2.6 feet to a point;

Thence running S 82° 34' E a distance of 2.4 feet to a point;

Thence running S 62° 13' E a distance of 3.1 feet to a point;

Thence running S 21° 39' E a distance of 2.9 feet to a point;

Thence running S 17° 13' E a distance of 7.3 feet to a point;

Thence running S 17° 57' E a distance of 12.0 feet to a point;

Thence running S 16° 32' E a distance of 14.5 feet to a point;

Thence running S 54° 35' E a distance of 3.9 feet to a point;

Thence running S 14° 45' W a distance of 2.5 feet to a point;

Thence running S 49° 31' W a distance of 3.0 feet to a point;

Thence running S 85° 18' W a distance of 1.8 feet to a point;

Thence running N 45° 36' W a distance of 2.5 feet to a point;

Thence running S 76° 34' W a distance of 5.9 feet to the point of beginning.

The above-described sub-area of land contains 417 square feet and is more particularly shown as Sub-Area A on the above-referenced Sketch Plan.

Sub-Area B:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

LAND COURT DOCUMENT # 35065
PAGE 30 OF 45

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 25° 19' W a distance of 3.1 feet to a point

Thence running N 76° 43' E a distance of 6.0 feet to a point;

Thence running N 12° 28' W a distance of 6.4 feet to a point;

Thence running N 76° 09' E a distance of 2.6 feet to a point;

Thence running N 13° 31' W a distance of 23.7 feet to a point;

Thence running N 78° 18' E a distance of 2.7 feet to a point;

Thence running S 39° 15' E a distance of 2.2 feet to a point;

Thence running S 14° 58' E a distance of 15.7 feet to a point;

Thence running S 09° 31' E a distance of 10.7 feet to a point;

Thence running S 15° 28' W a distance of 4.5 feet to a point;

Thence running S 71° 55' W a distance of 9.3 feet to the point of beginning.

The above-described sub-area of land contains 156 square feet and is more particularly shown as Sub-Area B on the above-referenced Sketch Plan.

Sub-Area C:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence

running N 46° 43' W a distance of 8.6 feet to a point;

Thence running N 76° 24' E a distance of 29.2 feet to a point;

Thence running S 28° 41' W a distance of 9.4 feet to a point;

Thence running S 77° 25' W a distance of 8.6 feet to a point;

Thence running S 74° 02' W a distance of 9.7 feet to the point of beginning.

The above-described sub-area of land contains 165 square feet and is more particularly shown as Sub-Area C on the above-referenced Sketch Plan.

LAND COURT DOCUMENT # 35065
PAGE 31 OF 45

Sub-Area D:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 15° 31' W a distance of 13.0 to a point;

Thence running N 12° 36' W a distance of 12.0 feet to a point;

Thence running N 13° 29' W a distance of 16.0 feet to a point

Thence running N 12° 01' W a distance of 12.2 feet to a point;

Thence running N 76° 31' E a distance of 8.7 feet to a point;

Thence running S 13° 38' E a distance of 29.1 feet to a point;

Thence running N 76° 42' E a distance of 12.0 feet to a point;

Thence running S 13° 15' E a distance of 6.0 feet to a point;

Thence running N 76° 02' E a distance of 5.8 feet to a point;

Thence running S 10° 12' E a distance of 3.5 feet to a point;

Thence running S 76° 18' W a distance of 10.3 feet to a point;

Thence running S 77° 47' W a distance of 12.1 feet to a point;

Thence running S 10° 04' E a distance of 15.7 feet to a point;

Thence running N 88° 33' W a distance of 3.3 to the point of beginning.

The above-described sub-area of land contains 540 square feet and is more particularly shown as Sub-Area D on the above-referenced Sketch Plan.

Sub-Area E:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 42' W a distance of 18.1 feet to a point;

Thence running N 75° 51' E a distance of 8.0 feet to a point:

LAND COURT DOCUMENT # 35065
PAGE 32 OF 45

Thence running S 13° 38' E a distance of 18.2 feet to a point;

Thence running S 76° 31' W a distance of 7.9 feet to the point of beginning.

The above-described sub-area of land contains 144 square feet and is more particularly shown as Sub-Area E on the above-referenced Sketch Plan.

Sub-Area F:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the northwest corner of the sub-area herein described, thence running S 86° 15' 09" E W a distance of 35.54 feet to a point;

Thence running along a curve to the left with a radius of 534.95 and arc distance of 80.06 feet to a point;

Thence running S 15° 34' 24" E a distance of 31.9 feet to a point;

Thence running S 76° 34' W a distance of 0.2 feet to a point;

Thence running S 09° 20' E a distance of 12.9 feet to a point;

Thence running S 77° 11' W a distance of 43.6 feet to a point;

Thence running S 75° 24' W a distance of 68.4 feet to a point;

Thence running N 13° 25' 29" W a distance of 74.0 feet to the point of beginning.

The above-described sub-area of land contains 6,443 square feet and is more particularly shown as Sub-Area F on the above-referenced Sketch Plan.

Sub-Area G:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the northwest corner of the Sub-Area herein described, thence running N 76° 35' E a distance of 55.0 feet to a point;

Thence running S 87° 15' E a distance of 3.8 feet to a point;

Thence running S 74° 43' E a distance of 27.4 feet to a point;

Thence running S 87° 48' E a distance of 21.9 feet to a point;

Thence running N 12° 51' W a distance of 9.2 feet to a point;

Thence running N 41° 22' W a distance of 14.3 feet to a point;

Thence running N 77° 32' E a distance of 20.2 feet to a point;

Thence running S 15° 34' 24" E a distance of 200.8 feet to a point;

Thence running S 76° 18' 18" W a distance of 3.6 feet to a point;

Thence running N 06° 26' W a distance of 3.4 feet to a point;

Thence running N 73° 16' E a distance of 0.7 feet to a point;

Thence running N 16° 07' W a distance of 13.7 feet to a point;

Thence running N 16° 02' W a distance of 12.8 feet to a point;

Thence running N 13° 05' W a distance of 20.3 feet to a point;

Thence running N 14° 45' W a distance of 11.9 feet to a point;

Thence running N 15° 13' W a distance of 20.4 feet to a point;

Thence running N 16° 09' W a distance of 26.2 feet to a point;

Thence running N 62° 42' W a distance of 1.0 feet to a point;

Thence running S 67° 36' W a distance of 1.1 feet to a point;

Thence running N 28° 46' W a distance of 3.8 feet to a point;

Thence running N 10° 54' W a distance of 23.0 feet to a point;

Thence running N 18° 03' W a distance of 11.2 feet to a point;

Thence running N 15° 51' W a distance of 29.9 feet to a point;

Thence running S 77° 23' W a distance of 45.4 feet to a point;

Thence running S 14° 53' E a distance of 19.8 feet to a point;

Thence running S 13° 44' E a distance of 8.1 feet to a point;

Thence running S 76° 31' W a distance of 55.3 feet to a point;

Thence running S 13° 30' E a distance of 20.1 feet to a point;

Thence running S 82° 02' W a distance of 3.0 feet to a point;

Thence running S 76° 18' 32" W a distance of 8.86 feet to a point;

Thence running N 19° 46' W a distance of 14.7 feet to a point;

Thence running N 17° 34' W a distance of 21.0 feet to a point;

Thence running N 13° 25' 29" W a distance of 34.1 feet to the point of beginning.

The above-described sub-area of land contains 4,734 square feet and is more particularly shown as Sub-Area G on the above-referenced Sketch Plan.

OTHER GROUND-COVERING FEATURE AREA

Sub-Area 1:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 25' 29" W a distance of 35.6 feet to a point;

Thence running S 17° 34' E a distance of 21.0 feet to a point;

Thence running S 19° 46' E a distance of 14.7 feet to a point;

Thence running S 76° 18' 32" W a distance of 3.2 feet to the point of beginning.

The above-described sub-area of land contains 50 square feet and is more particularly shown as Sub-Area 1 on the above-referenced Sketch Plan.

Sub-Area 2:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 25' 29" W a distance of 130.22 feet to a point;

Thence running N 82° 02' E a distance of 3.0 to a point;

Thence running N 13° 30' W a distance of 20.1 to a point;

Thence running N 76° 31' E a distance of 55.3 to a point;

Thence running N 13° 44' W a distance of 8.1 to a point;

Thence running N 14° 53' W a distance of 19.8 to a point;

Thence running N 77° 23' E a distance of 45.4 to a point;

Thence running S 15° 51' E a distance of 29.9 to a point;

Thence running S 18° 03' E a distance of 11.2 to a point;

Thence running S 10° 54' E a distance of 23.0 to a point;

Thence running S 28° 46' E a distance of 3.8 to a point;

Thence running N 67° 36' E a distance of 1.1 to a point;

Thence running S 62° 42' E a distance of 1.0 to a point;

Thence running S 16° 09' E a distance of 26.2 to a point;

Thence running S 15° 13' E a distance of 20.4 to a point;

Thence running S 14° 45' E a distance of 11.9 to a point;

Thence running S 13° 05' E a distance of 20.3 to a point;

Thence running S 16° 02' E a distance of 12.8 to a point;

Thence running S 16° 07' E a distance of 13.7 to a point;

Thence running S 73° 16' W a distance of 0.7 to a point;

Thence running S 06° 26' E a distance of 3.4 to a point;

Thence running S 76° 18' 18" W a distance of 109.3 to the point of beginning.

The above-described sub-area of land contains 15,931 square feet, which does not include Sub-Areas A through E of the Open Soil/Vegetated Area. Said parcel is more particularly shown as Sub-Area 2 on the above-referenced Sketch Plan.

LAND COURT DOCUMENT # 35065
PAGE 36 OF 45

EXHIBIT D

HEALTH AND SAFETY PROTOCOL

1. This Health and Safety Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Except as provided below, in Paragraph 3 of this Protocol, Grantor shall prepare and submit a Health and Safety Plan ("HSP") to Grantee and EPA pursuant to Paragraph 20 ("Agency Review and Comment; Notices") of the Grant, fifteen (15) days or more before conducting any permitted activity or use pursuant to Paragraph 4 ("Permitted Activities and Uses") of the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant. If appropriate, Grantor may submit a pre-existing health and safety plan in lieu of preparing a new plan to address this requirement and/or incorporate by reference a previously submitted HSP. Grantor shall comply with the HSP when conducting any permitted activity or use pursuant to the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant.

3. An HSP shall not be required for any excavation permitted pursuant to the following subparagraphs of the Grant: 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less"), 4.B ("Surface Excavation of any Volume"), and/or 4.D ("Surface and/or Subsurface Excavation for Utility Work"), provided that the excavation permitted under subparagraph 4.D is conducted solely within one (1) foot of the surface of the ground in the Open Soil/Vegetated Area.

4. The HSP shall be prepared in accordance with the occupational health and safety provisions of 29 Code of Federal Regulations § 1910.120 otherwise applicable to hazardous waste operations and emergency response, as amended, and, any other applicable federal, state or local law. For any utility repair, maintenance or installation in confined spaces, the HSP shall also be prepared in accordance with the provisions of 29 Code of Federal Regulations § 1910.146, otherwise applicable to work in confined spaces, as amended.

5. In addition to the requirements of Paragraph 4 of this Protocol, the HSP shall, without limitation, include the following items:

a. General information on the nature, extent, and concentrations of hazardous substances (as defined by CERCLA) and hazardous materials and oil (as defined by Chapter 21E) anticipated in the media to be impacted by the permitted activity and use, based upon existing information.

b. Description of tasks which may involve exposure to hazardous substances, hazardous materials, or oil.

c. Description of anticipated actions to protect the health, safety, and welfare of workers and the general public. Actions shall include, but not be limited to, dust control, odor control, personal protective equipment, and erosion and sedimentation control measures (as needed for the particular permitted activity and use).

LAND COURT DOCUMENT # 35065
PAGE 37 OF 45

d. Discussion of relevant physical, chemical, and biological hazards. (Relevant portions of Material Safety Data Sheets may be incorporated as appropriate.)

e. A requirement that all persons engaged in the work read and acknowledge the provisions of the HSP and document compliance with said provisions.

f. A requirement that all persons engaged in the work receive appropriate training in matters of health and safety in accordance with 29 Code of Federal Regulations Section 1910.120, as amended, and, any other applicable federal, state or local law.

6. The HSP shall be approved by a Certified Industrial Hygienist.

7. The Grant and this Health and Safety Protocol are in addition to and do not supersede or relieve Grantor, Grantor's contractors or subcontractors, or any other person or entity performing work on the Property from complying with any applicable federal, state, or local laws, rules or regulations regarding health and safety. Notwithstanding the Grant and this Health and Safety Protocol, it remains the responsibility of such parties to comply with any applicable federal, state, or local laws, rules or regulations regarding health and safety, even if they are more stringent than the requirements of the Grant and this Health and Safety Protocol.

LAND COURT DOCUMENT # 350655
PAGE 38 OF 45

EXHIBIT E

SOIL MANAGEMENT PROTOCOL

1. This Soil Management Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Soil sampling and excavation shall be conducted with the oversight of a Licensed Site Professional ("LSP"), to the extent required by Paragraph 4 ("Permitted Activities and Uses") of the Grant.

3. Soil and materials from within the Open Soil/Vegetated Area which have been excavated solely within one (1) foot of the surface of the ground may be (i) disposed of in the Open Soil/Vegetated Area, with no sampling required; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; (iii) returned to the original excavation for use as backfill, with no sampling required; or (iv) a combination of the management options listed in this Paragraph 3 of this Protocol.

4. Soil and materials from within the Open Soil/Vegetated Area, and excavated below one (1) foot of the surface of the ground, or from within the Engineered Barrier Area or the Other Ground Covering Feature Area and excavated from any depth, may be (i) returned to the original excavation, with no sampling required, to within one (1) foot of the surface of the ground, with the remaining one (1) foot of the original excavation backfilled with clean soil or with soil excavated solely from the top one (1) foot of the original excavation; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; or (iii) a combination of the management options listed in this Paragraph 4 of this Protocol.

5. As required by Paragraph 4 ("Permitted Activities and Uses") of the Grant, Grantor shall return the Property, or any portion thereof, to its prior condition immediately upon completion of such activity or use. Such restoration shall include, without limitation, (i) backfilling excavations to the original surface grade with clean soil, except for any soil that may be returned to the original excavation pursuant to this Protocol; (ii) replacing and repairing any aspects or component of the Other Ground Covering Feature Area and any aspect or component of the Response Action situated within the the Engineered Barrier Area disturbed by the activities and uses allowed hereunder; and (iii) reestablishing any disturbed vegetation.

6. Grantor shall implement the management procedures and measures required by the provisions of 310 Code of Massachusetts Regulations (CMR) Section 40.0018 (1) and (2) otherwise applicable to response actions, as amended. Excavations permitted under subparagraphs 4.A, 4.B, 4.C, 4.D and 4.E (except as otherwise provided in subparagraph 4.E) of the Grant shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Grantor shall, during excavation, use best management practices to control contaminant migration, exposure to contaminant material, and erosion, runoff, and dust emissions.

LAND COURT DOCUMENT # 35065

PAGE 39 OF 45

7. Grantor shall keep separate (i) soil excavated from within the top one (1) foot of the ground in the Open Soil/Vegetated Area; (ii) soil excavated from below the top one (1) foot of the ground in the Open Soil/Vegetated Area or, regardless of depth, from within the Engineered Barrier Area or the Other Ground Covering Feature Area; and (iii) clean backfill. The location of the storage of soil and other materials shall be either (i) in the same Restricted Area from which they were excavated, or (ii) as otherwise authorized by applicable state or federal laws and regulations. All soil and other material shall be stored in a manner consistent with 310 CMR § 40.0036 (as amended) and in accordance with: (a) EPA approval under 40 Code of Federal Regulations § 761.61(c) (as amended); or (b) 40 Code of Federal Regulations § 761.65 (as amended); or (c) the following requirements: Such materials shall be placed on an impermeable liner to prevent contact with the underlying ground surface, and shall then be covered by a second impermeable membrane. This cover shall remain in place at all times when the storage area is not actively being used, and shall be securely anchored to the ground using weight devices. The storage area shall be located such that potential impacts due to rainfall, wind, and surface runoff are minimized.

8. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

9. All off-Property disposal of soil and other materials, including without limitation, used personal protective equipment, shall be: (i) at a facility licensed to accept such materials and in compliance with all applicable laws, rules and regulations; or (ii) at an EPA-approved on-plant consolidation area at the GE Plant if such consolidation area is in operation at the relevant time and in compliance with all operating procedures for such consolidation area and with the approval of the owner of such consolidation area. All disposal of soil and other materials off-Property or outside the restricted area from which such soils and materials were excavated shall be conducted with the oversight of an LSP. All off-Property disposal shall comply with all applicable laws, rules, and regulations. Grantor shall conduct sampling sufficient to assure adequate characterization for off-Property disposal subject to oversight by an LSP and in accordance with state and federal laws and regulations, including, without limitation, 310 CMR § 40.0017.

EXHIBIT F

POST-WORK NOTIFICATION FORM FOR PROPERTY WITH ERE GRANT

I. General Information

Type of work: __ Surface *(top foot)* excavation of greater than five (5) cubic ft. and less than or equal to ten (10) cubic yards (per Grant Paragraph 4.A)

(check all that apply) __ Surface *(top foot)* excavation of any volume (per Grant Paragraph 4.B)

__ Subsurface *(deeper than top foot)* excavation of ten (10) cubic yards or less (per Grant Paragraph 4.C)

__ Surface or subsurface excavation for Utility Work (per Grant Paragraph 4.D)

__ Emergency excavation (per Grant Paragraph 8)

Property Address: _____
Tax Parcel ID: _____

II. Description of Excavation Activities

Start date of excavation/soil disturbance: _____

End date of excavation/soil disturbance: _____

Amount of soil excavated or moved: _____

Any soil or other excavated material moved out of the Restricted Area? ___ Yes ___ No

Description of project (*attach extra sheets, if necessary*): _____
_____

Final disposition of soil: *(attach bills of lading and certificates of disposals, if applicable)*: _____
_____

Attach a plan *(e.g., a copy of the Plan of Restricted Area)* showing:

(1) location of excavation(s) within the property
(2) direction
(3) major site features (*e.g., roads, buildings, edges of pavement/barriers, locations of utilities if known*)

Attach photographs of work area prior to work, during work and post-restoration work, if available (*optional*).

Was soil sampling and analysis conducted? __ Yes __ No
If Yes, attach analytical results and show sampling locations (*and indicate depths*) on an attached plan.

Were the Health and Safety Protocol and/or the Soil Management Protocol (*as defined in the ERE Grant*), if applicable, followed? (*check each that applies*[1]) __ Health and Safety Protocol was followed
__ Soil Management Protocol was followed
__ Not Applicable

[1] See note 3 in Section V ("Notes About the Use of this Form"), below.

III. Additional Information for Emergency Excavation

If work was conducted as an Emergency Excavation (*see Paragraph 8 ("Emergency Excavation") of the ERE Grant*):

(1) Attach an opinion and completion report prepared by an appropriately trained and licensed professional (*including copy of written plan for restoration*).
(2) Date and time property owner first obtained knowledge of the emergency:_____
(3) Date and time property owner provided oral notification of the emergency to DEP:_____

IV. Signature

Two signatures are required (except for excavations pursuant to Grant Paragraph 4.A or the last paragraph of Grant Paragraph 8, for which only the owner or person conducting the work must sign). The property owner, or person conducting the work if other than the property owner, and the Licensed Site Professional who has overseen the work (where required) must each complete and sign the statement, below.

Owner or person conducting the work if other than the property owner:

I,_____, to the best of my knowledge and belief, state that the material information contained in this submittal is true, accurate and complete.

V. Notes About the Use of this Form

(1) This form is due no later than thirty (30) days after completion of the permitted activities and uses under Paragraph 4 ("Permitted Activities and Uses") of the ERE Grant. For emergency excavations pursuant to Paragraph 8 of the ERE Grant ("Emergency Excavation"), verbal notification is required as soon as possible but no more than two hours after learning of the emergency, and this form is for the post-emergency excavation notice and is due within ten (10) days after completion of the necessary restoration in accordance with Paragraph 8 of the ERE Grant.

(2) Separate, 15 days' advance written notice is required for Utility Work excavation activity, pursuant to Paragraph 4.D ("Surface and/or Subsurface Excavation for Utility Work") of the ERE Grant.

(3) The Health and Safety Protocol and the Soil Management Protocol do not apply to the Permitted Activities and Uses set forth in Paragraph 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less") of the ERE Grant. These protocols also do not apply to the Permitted Activities and Uses set forth in Paragraph 4.B ("Surface Excavation of any Volume") of the ERE Grant, except for off-Property disposal, to which Paragraph 9 of the Soil Management Protocol applies.

VI. Where to Submit this Form

Submit this completed form, via certified mail, to:

MA Department of Environmental Protection
Bureau of Waste Site Cleanup, Special Projects
436 Dwight Street
Springfield, Massachusetts 01103
(Attn.: GE Housatonic Removal Action Project Manager)

Submit a copy of this form, via certified mail, to:

U.S. Environmental Protection Agency
Office of Site Remediation and Restoration
One Congress Street
Suite 1100 – Mail Code HIO
Boston, Massachusetts 02114-2023
(Attn.: GE-Pittsfield/Housatonic River Site)

EXHIBIT G

40.1403: Minimum Public Involvement Activities in Response Actions

* * *

(7) Within thirty days after recording and/or registering any original, amended, released or terminated Activity and Use Limitation pursuant to 310 CMR 40.1070 through 40.1080, the following requirements shall be met to inform local officials and the public of the limitations which apply to activities and/or uses of the property subject to the Activity and Use Limitation:

(a) a copy of the recorded and/or registered Activity and Use Limitation shall be provided to:

1. the Chief Municipal Officer;
2. the Board of Health;
3. the Zoning Official; and
4. the Building Code Enforcement Official in the community(ies) in which the property subject to such Activity and Use Restriction is located.

(b) a legal notice which indicates the recording and/or registering of the original, amended, released or terminated Activity and Use Limitation shall be published in a newspaper which circulates in the community(ies) in which the property subject to the Activity and Use Limitation is located.

1. This notice shall be in a form established by the Department for such purpose and shall include, but not be limited to:
   a. the name, address, and Release Tracking Number(s) of the disposal site associated with the Activity and Use Limitation;
   b. the type of Activity and Use Limitation;
   c. information about where the Activity and Use Limitation instrument and disposal site file can be reviewed; and
   d. the name, address and telephone number of the person recording and/or registering the Activity and Use Limitation from whom the public can obtain additional information.
2. A copy of this legal notice shall be submitted to the Department within seven days of its publication.

SUBORDINATION AGREEMENT FOR SEWER EASEMENT, PARCEL J9-23-16

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Disposal Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD 440

The City of Pittsfield (the "City"), Berkshire County, Massachusetts, is the holder of easements and rights acquired pursuant to a taking for a municipal purpose, by order dated June 4, 1960, and noted as Document No. 10300 on Certificate of Title No. 5955 in Book 27, Page 59 in the Land Court Records of the Berkshire Middle District Registry of Deeds, which allows the City to construct, reconstruct, repair and maintain a common sewer.

For the easements and rights referenced above, the City hereby assents to the Grant of Environmental Restriction and Easement (the "Grant") granted by the General Electric Company to the Commonwealth of Massachusetts Department of Environmental Protection dated July 12, 2007 and recorded in the Land Court Records of the Berkshire Middle District Registry of Deeds on Certificate 5955 as Document 35065 in Book 27, Page 59 / and agrees that the City shall be subject to the said Grant and to the rights, covenants, restrictions and easements created by and under the Grant insofar as the interests created under the above-referenced City taking of easements and rights affect the Property identified in the Grant and as if for all purposes said Grant had been executed, delivered and recorded prior to the execution, delivery and recordation of the said City taking of easements and rights.

In witness whereof, the CITY OF PITTSFIELD has caused this instrument to be executed, sealed with the City seal, acknowledged and delivered by JAMES M. RUBERTO, its Mayor and GERALD M. LEE, its City Council President, this 28th day of Sept., 2006.

Owner's Policy of Title Insurance

OWNER'S POLICY OF TITLE INSURANCE

Issued by **Commonwealth Land Title Insurance Company**

POLICY NUMBER

LandAmerica Commonwealth

Commonwealth Land Title Insurance Company is a member of the LandAmerica family of title insurance underwriters.

C30-Z021712

Any notice of claim and any other notice or statement in writing required to be given to the Company under this Policy must be given to the Company at the address shown in Section 18 of the Conditions.

COVERED RISKS

SUBJECT TO THE EXCLUSIONS FROM COVERAGE, THE EXCEPTIONS FROM COVERAGE CONTAINED IN SCHEDULE B, AND THE CONDITIONS, COMMONWEALTH LAND TITLE INSURANCE COMPANY, a Nebraska corporation (the "Company") insures, as of Date of Policy and, to the extent stated in Covered Risks 9 and 10, after Date of Policy, against loss or damage, not exceeding the Amount of Insurance, sustained or incurred by the Insured by reason of:

1. Title being vested other than as stated in Schedule A.
2. Any defect in or lien or encumbrance on the Title. This Covered Risk includes but is not limited to insurance against loss from
   (a) A defect in the Title caused by
      (i) forgery, fraud, undue influence, duress, incompetency, incapacity, or impersonation;
      (ii) failure of any person or Entity to have authorized a transfer or conveyance;
      (iii) a document affecting Title not properly created, executed, witnessed, sealed, acknowledged, notarized, or delivered;
      (iv) failure to perform those acts necessary to create a document by electronic means authorized by law;
      (v) a document executed under a falsified, expired, or otherwise invalid power of attorney;
      (vi) a document not properly filed, recorded, or indexed in the Public Records including failure to perform those acts by electronic means authorized by law; or
      (vii) a defective judicial or administrative proceeding.
   (b) The lien of real estate taxes or assessments imposed on the Title by a governmental authority due or payable, but unpaid.
   (c) Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land.
3. Unmarketable Title.
4. No right of access to and from the Land.
5. The violation or enforcement of any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (a) the occupancy, use, or enjoyment of the Land;
   (b) the character, dimensions, or location of any improvement erected on the Land;
   (c) the subdivision of land; or
   (d) environmental protection

   if a notice, describing any part of the Land, is recorded in the Public Records setting forth the violation or intention to enforce, but only to the extent of the violation or enforcement referred to in that notice.
6. An enforcement action based on the exercise of a governmental police power not covered by Covered Risk 5 if a notice of the enforcement action, describing any part of the Land, is recorded in the Public Records, but only to the extent of the enforcement referred to in that notice.
7. The exercise of the rights of eminent domain if a notice of the exercise, describing any part of the Land, is recorded in the Public Records.
8. Any taking by a governmental body that has occurred and is binding on the rights of a purchaser for value without Knowledge.
9. Title being vested other than as stated in Schedule A or being defective
   (a) as a result of the avoidance in whole or in part, or from a court order providing an alternative remedy, of a transfer of all or any part of the title to or any interest in the Land occurring prior to the transaction vesting Title as shown in Schedule A because that prior transfer constituted a fraudulent or preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws; or
   (b) because the instrument of transfer vesting Title as shown in Schedule A constitutes a preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws by reason of the failure of its recording in the Public Records
      (i) to be timely, or
      (ii) to impart notice of its existence to a purchaser for value or to a judgment or lien creditor.
10. Any defect in or lien or encumbrance on the Title or other matter included in Covered Risks 1 through 9 that has been created or attached or has been filed or recorded in the Public Records subsequent to Date of Policy and prior to the recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The Company will also pay the costs, attorneys' fees, and expenses incurred in defense of any matter insured against by this Policy, but only to the extent provided in the Conditions.

IN WITNESS WHEREOF, the Company has caused this Policy to be signed with the facsimile signatures of its President and Secretary and sealed as required by its By-Laws.

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

CONDITIONS

1 DEFINITION OF TERMS

The following terms when used in this policy mean:

(a) "Amount of Insurance": The amount stated in Schedule A, as may be increased or decreased by endorsement to this policy, increased by Section 8(b), or decreased by Sections 10 and 11 of these Conditions.

(b) "Date of Policy": The date designated as "Date of Policy" in Schedule A.

(c) "Entity": A corporation, partnership, trust, limited liability company, or other similar legal entity.

(d) "Insured": The Insured named in Schedule A.

(i) The term "Insured" also includes

(A) successors to the Title of the Insured by operation of law as distinguished from purchase, including heirs, devisees, survivors, personal representatives, or next of kin;

(B) successors to an Insured by dissolution, merger, consolidation, distribution, or reorganization;

(C) successors to an Insured by its conversion to another kind of Entity;

(D) a grantee of an Insured under a deed delivered without payment of actual valuable consideration conveying the Title

(1) if the stock, shares, memberships, or other equity interests of the grantee are wholly-owned by the named Insured,

(2) if the grantee wholly owns the named Insured,

(3) if the grantee is wholly-owned by an affiliated Entity of the named Insured, provided the affiliated Entity and the named Insured are both wholly-owned by the same person or Entity, or

(4) if the grantee is a trustee or beneficiary of a trust created by a written instrument established by the Insured named in Schedule A for estate planning purposes.

(ii) With regard to (A), (B), (C), and (D) reserving, however, all rights and defenses as to any successor that the Company would have had against any predecessor Insured.

(e) "Insured Claimant": An Insured claiming loss or damage.

(f) "Knowledge" or "Known": Actual knowledge, not constructive knowledge or notice that may be imputed to an Insured by reason of the Public Records or any other records that impart constructive notice of matters affecting the Title.

(g) "Land": The land described in Schedule A, and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is insured by this policy.

(h) "Mortgage": Mortgage, deed of trust, trust deed, or other security instrument, including one evidenced by electronic means authorized by law.

(i) "Public Records": Records established under state statutes at Date of Policy for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge. With respect to Covered Risk 5(d), "Public Records" shall also include environmental protection liens filed in the records of the clerk of the United States District Court for the district where the Land is located.

(j) "Title": The estate or interest described in Schedule A.

(k) "Unmarketable Title": Title affected by an alleged or apparent matter that would permit a prospective purchaser or lessee of the Title or lender on the Title to be released from the obligation to purchase, lease, or lend if there is a contractual condition requiring the delivery of marketable title.

2. CONTINUATION OF INSURANCE

The coverage of this policy shall continue in force as of Date of Policy in favor of an Insured, but only so long as the Insured retains an estate or interest in the Land, or holds an obligation secured by a purchase money Mortgage given by a purchaser from the Insured, or only so long as the Insured shall have liability by reason of warranties in any transfer or conveyance of the Title. This policy shall not continue in force in favor of any purchaser from the Insured of either (i) an estate or interest in the Land, or (ii) an obligation secured by a purchase money Mortgage given to the Insured.

3. NOTICE OF CLAIM TO BE GIVEN BY INSURED CLAIMANT

The Insured shall notify the Company promptly in writing (i) in case of any litigation as set forth in Section 5(a) of these Conditions, (ii) in case Knowledge shall come to an Insured hereunder of any claim of title or interest that is adverse to the Title, as insured, and that might cause loss or damage for which the Company may be liable by virtue of this policy, or (iii) if the Title, as insured, is rejected as Unmarketable Title. If the Company is prejudiced by the failure of the Insured Claimant to provide prompt notice, the Company's

liability to the Insured Claimant under the policy shall be reduced to the extent of the prejudice.

4. PROOF OF LOSS

In the event the Company is unable to determine the amount of loss or damage, the Company may, at its option, require as a condition of payment that the Insured Claimant furnish a signed proof of loss. The proof of loss must describe the defect, lien, encumbrance, or other matter insured against by this policy that constitutes the basis of loss or damage and shall state, to the extent possible, the basis of calculating the amount of the loss or damage.

5. DEFENSE AND PROSECUTION OF ACTIONS

(a) Upon written request by the Insured, and subject to the options contained in Section 7 of these Conditions, the Company, at its own cost and without unreasonable delay, shall provide for the defense of an Insured in litigation in which any third party asserts a claim covered by this policy adverse to the Insured. This obligation is limited to only those stated causes of action alleging matters insured against by this policy. The Company shall have the right to select counsel of its choice (subject to the right of the Insured to object for reasonable cause) to represent the Insured as to those stated causes of action. It shall not be liable for and will not pay the fees of any other counsel. The Company will not pay any fees, costs, or expenses incurred by the Insured in the defense of those causes of action that allege matters not insured against by this policy.

(b) The Company shall have the right, in addition to the options contained in Section 7 of these Conditions, at its own cost, to institute and prosecute any action or proceeding or to do any other act that in its opinion may be necessary or desirable to establish the Title, as insured, or to prevent or reduce loss or damage to the Insured. The Company may take any appropriate action under the terms of this policy, whether or not it shall be liable to the Insured. The exercise of these rights shall not be an admission of liability or waiver of any provision of this policy. If the Company exercises its rights under this subsection, it must do so diligently.

(c) Whenever the Company brings an action or asserts a defense as required or permitted by this policy, the Company may pursue the litigation to a final determination by a court of competent jurisdiction, and it expressly reserves the right, in its sole discretion, to appeal any adverse judgment or order.

6. DUTY OF INSURED CLAIMANT TO COOPERATE

(a) In all cases where this policy permits or requires the Company to prosecute or provide for the defense of any action or proceeding and any appeals, the Insured shall secure to the Company the right to so prosecute or provide defense in the action or proceeding, including the right to use, at its option, the name of the Insured for this purpose. Whenever requested by the Company, the Insured, at the Company's expense, shall give the Company all reasonable aid (i) in securing evidence, obtaining witnesses, prosecuting or defending the action or proceeding, or effecting settlement, and (ii) in any other lawful act that in the opinion of the Company may be necessary or desirable to establish the Title or any other matter as insured. If the Company is prejudiced by the failure of the Insured to furnish the required cooperation, the Company's obligations to the Insured under the policy shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation, with regard to the matter or matters requiring such cooperation.

(b) The Company may reasonably require the Insured Claimant to submit to examination under oath by any authorized representative of the Company and to produce for examination, inspection, and copying, at such reasonable times and places as may be designated by the authorized representative of the Company, all records, in whatever medium maintained, including books, ledgers, checks, memoranda, correspondence, reports, e-mails, disks, tapes, and videos whether bearing a date before or after Date of Policy, that reasonably pertain to the loss or damage. Further, if requested by any authorized representative of the Company, the Insured Claimant shall grant its permission, in writing, for any authorized representative of the Company to examine, inspect, and copy all of these records in the custody or control of a third party that reasonably pertain to the loss or damage. All information designated as confidential by the Insured Claimant provided to the Company pursuant to this Section shall not be disclosed to others unless, in the reasonable judgment of the Company, it is necessary in the administration of the claim. Failure of the Insured Claimant to submit for examination under oath, produce any reasonably requested information, or grant permission to secure reasonably necessary information from third parties as required in this subsection, unless prohibited by law or governmental regulation, shall terminate any liability of the Company under this policy as to that claim.

7. OPTIONS TO PAY OR OTHERWISE SETTLE CLAIMS; TERMINATION OF LIABILITY

In case of a claim under this policy, the Company shall have the following additional options:

(a) To Pay or Tender Payment of the Amount of Insurance.

To pay or tender payment of the Amount of Insurance under this policy together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment or tender of payment and that the Company is obligated to pay.

Upon the exercise by the Company of this option, all liability and obligations of the Company to the Insured under this policy, other than to make the payment required in this subsection, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

(b) To Pay or Otherwise Settle With Parties Other Than the Insured or With the Insured Claimant.

(i) To pay or otherwise settle with other parties for or in the name of an Insured Claimant any claim insured against under this policy. In addition, the Company will pay any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay; or

(ii) To pay or otherwise settle with the Insured Claimant the loss or damage provided for under this policy, together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay.

Upon the exercise by the Company of either of the options provided for in subsections (b)(i) or (ii), the Company's obligations to the Insured under this policy for the claimed loss or damage, other than the payments required to be made, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

8. DETERMINATION AND EXTENT OF LIABILITY

This policy is a contract of indemnity against actual monetary loss or damage sustained or incurred by the Insured Claimant who has suffered loss or damage by reason of matters insured against by this policy.

(a) The extent of liability of the Company for loss or damage under this policy shall not exceed the lesser of

(i) the Amount of Insurance; or

(ii) the difference between the value of the Title as insured and the value of the Title subject to the risk insured against by this policy.

(b) If the Company pursues its rights under Section 5 of these Conditions and is unsuccessful in establishing the Title, as insured,

(i) the Amount of Insurance shall be increased by 10%, and

(ii) the Insured Claimant shall have the right to have the loss or damage determined either as of the date the claim was made by the Insured Claimant or as of the date it is settled and paid.

(c) In addition to the extent of liability under (a) and (b), the Company will also pay those costs, attorneys' fees, and expenses incurred in accordance with Sections 5 and 7 of these Conditions.

9. LIMITATION OF LIABILITY

(a) If the Company establishes the Title, or removes the alleged defect, lien, or encumbrance, or cures the lack of a right of access to or from the Land, or cures the claim of Unmarketable Title, all as insured, in a reasonably diligent manner by any method, including litigation and the completion of any appeals, it shall have fully performed its obligations with respect to that matter and shall not be liable for any loss or damage caused to the Insured.

(b) In the event of any litigation, including litigation by the Company or with the Company's consent, the Company shall have no liability for loss or damage until there has been a final

determination by a court of competent jurisdiction, and disposition of all appeals, adverse to the Title, as insured.

(c) The Company shall not be liable for loss or damage to the Insured for liability voluntarily assumed by the Insured in settling any claim or suit without the prior written consent of the Company.

10. REDUCTION OF INSURANCE; REDUCTION OR TERMINATION OF LIABILITY

All payments under this policy, except payments made for costs, attorneys' fees, and expenses, shall reduce the Amount of Insurance by the amount of the payment.

11. LIABILITY NONCUMULATIVE

The Amount of Insurance shall be reduced by any amount the Company pays under any policy insuring a Mortgage to which exception is taken in Schedule B or to which the Insured has agreed, assumed, or taken subject, or which is executed by an Insured after Date of Policy and which is a charge or lien on the Title, and the amount so paid shall be deemed a payment to the Insured under this policy.

12. PAYMENT OF LOSS

When liability and the extent of loss or damage have been definitely fixed in accordance with these Conditions, the payment shall be made within 30 days.

13. RIGHTS OF RECOVERY UPON PAYMENT OR SETTLEMENT

(a) Whenever the Company shall have settled and paid a claim under this policy, it shall be subrogated and entitled to the rights of the Insured Claimant in the Title and all other rights and remedies in respect to the claim that the Insured Claimant has against any person or property, to the extent of the amount of any loss, costs, attorneys' fees, and expenses paid by the Company. If requested by the Company, the Insured Claimant shall execute documents to evidence the transfer to the Company of these rights and remedies. The Insured Claimant shall permit the Company to sue, compromise, or settle in the name of the Insured Claimant and to use the name of the Insured Claimant in any transaction or litigation involving these rights and remedies.

If a payment on account of a claim does not fully cover the loss of the Insured Claimant, the Company shall defer the exercise of its right to recover until after the Insured Claimant shall have recovered its loss.

(b) The Company's right of subrogation includes the rights of the Insured to indemnities, guaranties, other policies of insurance, or bonds, notwithstanding any terms or conditions contained in those instruments that address subrogation rights.

14. ARBITRATION

Either the Company or the Insured may demand that the claim or controversy shall be submitted to arbitration pursuant to the Title Insurance Arbitration Rules of the American Land Title Association ("Rules"). Except as provided in the Rules, there shall be no joinder or consolidation with claims or controversies of other persons. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the Insured arising out of or relating to this policy, any service in connection with its issuance or the breach of a policy provision, or to any other controversy or claim arising out of the transaction giving rise to this policy. All arbitrable matters when the Amount of Insurance is $2,000,000 or less shall be arbitrated at the option of either the Company or the Insured. All arbitrable matters when the Amount of Insurance is in excess of $2,000,000 shall be arbitrated only when agreed to by both the Company and the Insured. Arbitration pursuant to this policy and under the Rules shall be binding upon the parties. Judgment upon the award rendered by the Arbitrator(s) may be entered in any court of competent jurisdiction.

15. LIABILITY LIMITED TO THIS POLICY; POLICY ENTIRE CONTRACT

(a) This policy together with all endorsements, if any, attached to it by the Company is the entire policy and contract between the Insured and the Company. In interpreting any provision of this policy, this policy shall be construed as a whole.

(b) Any claim of loss or damage that arises out of the status of the Title or by any action asserting such claim shall be restricted to this policy.

(c) Any amendment of or endorsement to this policy must be in writing and authenticated by an authorized person, or expressly incorporated by Schedule A of this policy.

(d) Each endorsement to this policy issued at any time is made a part of this policy and is subject to all of its terms and provisions. Except as the endorsement expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsement, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance.

16. SEVERABILITY

In the event any provision of this policy, in whole or in part, is held invalid or unenforceable under applicable law, the policy shall be deemed not to include that provision or such part held to be invalid, but all other provisions shall remain in full force and effect.

17. CHOICE OF LAW; FORUM

(a) Choice of Law: The Insured acknowledges the Company has underwritten the risks covered by this policy and determined the premium charged therefor in reliance upon the law affecting interests in real property and applicable to the interpretation, rights, remedies, or enforcement of policies of title insurance of the jurisdiction where the Land is located.

Therefore, the court or an arbitrator shall apply the law of the jurisdiction where the Land is located to determine the validity of claims against the Title that are adverse to the Insured and to interpret and enforce the terms of this policy. In neither case shall the court or arbitrator apply its conflicts of law principles to determine the applicable law.

(b) Choice of Forum: Any litigation or other proceeding brought by the Insured against the Company must be filed only in a state or federal court within the United States of America or its territories having appropriate jurisdiction.

18. NOTICES, WHERE SENT

Any notice of claim and any other notice or statement in writing required to be given to the Company under this Policy must be given to the Company at: Consumer Affairs Department PO Box 27567 Richmond, Virginia 23261-7567.

THANK YOU.

Title insurance provides for the protection of your real estate investment. We suggest you keep this policy in a safe place where it can be readily available for future reference.

If you have questions about title insurance or the coverage provided by this policy, contact the office that issued this policy, or you may call or write:

COMMONWEALTH LAND TITLE INSURANCE COMPANY
OWNER'S POLICY
SCHEDULE B

FILE NUMBER	POLICY NUMBER
AGM06GEQP	C30-Z021712

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of the following:

1. Taxes assessed as of January 1, 2007, for the fiscal period beginning July 1, 2007, which are not yet due and payable, and for subsequent years.

   NOTE: This policy insures that the estimated quarterly taxes are paid through September 30, 2007.

2. Riparian rights of others.

3. A grant of flowage rights from John Todd to Thomas F. Plunkett, dated April 20, 1849, and recorded in the Berkshire Middle District Registry of Deeds in Book 130, Page 401.

   NOTE: The above encumbrance was terminated by instrument recorded in the Berkshire Middle District Registry of Deeds in Book 3156, Page 211. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 5955. This policy affirmatively insures that this encumbrance has been terminated and is of no further force and effect and unenforceable.

NOTE: This policy omits any covenants, condition or restriction referred to above, if any, which is based on race, color, religion, sex, handicap, familial status or national origin, unless and only to the extent that the restriction is not in violation of state or federal law, or relates to a handicap, but does not discriminate against handicapped people.

EXHIBIT A
Description of Insured Premises

Tax Parcel No. J9-23-16

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point in the northerly sideline of Newell Street, said point being the southwest corner of the parcel herein described and is also located S 87° 44' 00" W a distance of 12.00 feet from a highway bound in the northerly line of Newell Street;

Running thence N 02° 00' 00" W a distance of 130.00 feet to a point;

Running thence S 87° 44' 00" W a distance of 12.00 feet to a point;

Running thence N 02° 00' 00" W a distance of 245.33 feet to the northwest corner of the parcel herein described to a point;

Running thence S 74° 49' 40" E a distance of 35.54 feet to a point;

Running thence on a curve to the left having a radius of 535.00' and an arc length of 80.07 feet to a point at the northeast corner of the parcel herein described;

Running thence S 04° 09"40" E a distance of 346.67 feet to the southeast corner of the parcel herein described on the northerly streetline of said Newell Street to a point;

Running thence S 87° 44'00" W a distance of 113.00 feet along the northerly streetline of said Newell Street to the point of beginning.

The parcel above described is more particularly shown as Lot 2 on Land Court Plan No. 8372-J.

Excepting any and all interest of the grantor in Newell Street.

Note: The above described parcel shown as Lot 2 on Land Court Plan No. 8372-J is also shown on the plan entitled "Sketch Plan Showing Lot 2 on Land Court Plan No. 8372-J" ("Sketch Plan"), dated June 25, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which plan is attached as Exhibit B to the Grant of Environmental Restriction and Easement referenced in Schedule A, No. 2 of this Policy. Both plans depict the same parcel. The property boundary line dimensions shown above are based on Land Court Plan No. 8372-J. Those shown on the Sketch Plan are the result of an on-the-ground retracement survey of the lines shown on said Land Court Plan. The bearings shown on the Sketch Plan are rotated -11°25'29" from the meridian of said Land Court Plan. Any differences between the distances shown above and those shown on the Sketch Plan are the result of the retracement survey of the lines shown on said Land Court Plan and are within the expected measurement tolerances which exist between the two surveys.

NOTES:

1. THE RESTRICTED AREAS SHOWN HEREON ARE UPON LAND DESCRIBED IN LAND COURT TRANSFER CERTIFICATE NO. 5985 AND DESCRIBED AS LOT 2 ON LAND COURT PLAN NO. 8372-J.
2. DIMENSIONS DEFINING SUB-AREAS OF "OTHER GROUND-COVERING FEATURE AREA" SHOWN HEREON RUN ALONG EXISTING FACES OF CONCRETE AND EDGE OF PAVEMENT, AS SURVEYED IN SEPTEMBER-OCTOBER 2004. NO CHANGES HAVE OCCURED BASED UPON A VISIUAL INSPECTION PERFORMED IN JULY 2006.
3. THE PROPERTY BOUNDARY LINE DIMENSIONS SHOWN HEREON ARE THE RESULT OF AN ON-THE-GROUND RETRACEMENT SURVEY OF THE LINES AS DECREED BY THE MASSACHUSETTS LAND COURT AND SHOWN ON PLAN NO. 8372-J. THE BEARINGS SHOWN ON THIS PLAN ARE ROTATED -11°25'29" FROM THAT OF SAID LAND COURT PLAN. ANY DIFFERENCES BETWEEN THE DISTANCES SHOWN HEREON AND THOSE SHOWN ON SAID LAND COURT PLAN ARE A RESULT OF THE RETRACEMENT OF THESE LINES AND ARE WITHIN THE EXPECTED MEASUREMENT TOLERANCES WHICH EXIST BETWEEN THE TWO SURVEYS.

Grant of Environmental Restriction and Easement – July 12, 2007

GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT
42 U.S.C. § 9601 *et seq.*, and M.G.L. c. 21E, § 6.

[Note: This instrument is established as an institutional control for a federal Superfund Removal Site, pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604.]

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD440

This GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT (the "Grant") is made as of this 24th day of July, 2007, by the General Electric Company ("Grantor"), a corporation organized and existing under the laws of the State of New York, duly authorized to do business in Massachusetts, with a principal office in Pittsfield, Berkshire County, Massachusetts.

WITNESSETH:

WHEREAS, Grantor is the owner in fee simple of a certain parcel of land located at 261 Newell Street in Pittsfield, Berkshire County, Massachusetts, with the building foundations thereon, as evidenced by Certificate of Title No. 6187 in Book 28, Page 125, of the Land Court records in the Berkshire County Land Registration Office;

WHEREAS, said parcel of land, numbered as Tax Parcel No. J9-23-23, which is more particularly bounded and described in Exhibit A attached hereto and made a part hereof (the "Property"), is subject to this Grant. The Property is shown as Lots B-13 and B-15 on a plan registered in the Berkshire County Land Registration Office as Land Court Plan No. 8372-I;

WHEREAS, the Property and certain restricted areas of the Property referred to as the Engineered Barrier Area, the Other Ground Covering Feature Area, the Open Soil/Vegetated Area, and the Groundwater Response Action Component Area (if any), all as defined below (collectively, all of the foregoing restricted areas comprising the "Restricted Area"), are subject to covenants, restrictions, easements and other rights and obligations under this Grant; the Restricted Area being shown on a plan entitled "Sketch Plan Showing Lots B13 & B15 on Land Court Plan No. 8372-I," dated June 25, 2007, and consisting of one sheet, which is attached hereto as Exhibit B and is made a part hereof and was also separately recorded in the Berkshire Middle District Registry of Deeds on September 26, 2007, in Plat H, No. 312; as such plan may be revised by Grantor (or, by the General Electric Company ("GE"), if GE is no longer the Grantor, with notice to Grantor), with the approval of Grantee and in accordance with the Consent Decree and the Statement of Work attached thereto (as defined below), to show the location of any Groundwater Response Action Component Area (to the extent that any such response action to address groundwater contamination at the Site has not been completed as of the date of this instrument); said plan, with any such revision, being collectively referred to herein as the "Plan of Restricted Area";

LAND COURT DOCUMENT # 35067
PAGE 1 OF 43

WHEREAS, the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, a duly constituted agency organized under the laws of the United States of America and having a regional office at One Congress Street, Boston, Massachusetts 02114 ("EPA"), has identified a site, comprised of the GE facility in Pittsfield, Massachusetts, the Housatonic River adjacent to and downstream of the GE facility, and other areas, all as more particularly described in the Consent Decree (defined below), known as the "GE-Pittsfield/Housatonic River Site" (the "Site"), as a result of the release of hazardous substances at or from the GE facility, as such terms are defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9601 et seq.;

WHEREAS, the MASSACHUSETTS DEPARTMENT OF ENVIRONMENTAL PROTECTION, a duly constituted agency organized under the laws of the Commonwealth of Massachusetts and having an office at One Winter Street, Boston, MA 02108 ("DEP"), as a result of the release of oil and/or hazardous materials at the Site, as those terms are defined in the Massachusetts Oil and Hazardous Materials Release, Prevention and Response Act, M.G.L. c. 21E ("Chapter 21E"), has placed the Site and/or portions of the Site on the Massachusetts List of Confirmed Disposal Sites and Locations To Be Investigated, pursuant to Chapter 21E, and has assigned to the portion of the Site containing the Property DEP Disposal Site Number GECD440, pursuant thereto;

WHEREAS, EPA regulates activities at hazardous substance disposal sites pursuant to CERCLA and the National Contingency Plan, 40 C.F.R. 300.400, *et seq.*, as amended (the "NCP"), and DEP regulates activities at disposal sites pursuant to Chapter 21E and the Massachusetts Contingency Plan, 310 C.M.R. 40.0000, as amended (the "MCP"), respectively;

WHEREAS, the Property is situated within the Site and specifically within an area of the Site known as Newell Street Area I;

WHEREAS, GE has entered into a Consent Decree in connection with the Site with the United States, the State of Connecticut, and the Commonwealth of Massachusetts (the "Commonwealth") in United States of America, State of Connecticut, and Commonwealth of Massachusetts v. General Electric Company, Civil Action No. 99-30225-MAP et seq., entered by the United States District Court for the District of Massachusetts on October 27, 2000 (the "Consent Decree");

WHEREAS, the Consent Decree and an accompanying Statement of Work ("SOW") require the performance of certain Response Actions (as defined below) at the Site or portions thereof;

WHEREAS, the Response Actions are ongoing at the Site and include Response Actions at the Property;

WHEREAS, EPA has determined and the Consent Decree requires that certain easements, rights, obligations, covenants, and restrictions, as more particularly set forth below,

are necessary at the Property to conduct and ensure the protectiveness and integrity of the Response Actions;

WHEREAS, DEP has provided EPA with review and comment on the Response Actions, and agrees with the need for easements, rights, obligations, covenants, and restrictions, as aforesaid;

WHEREAS, because the Response Actions, as they affect the Property, are a Removal Action under CERCLA, EPA has requested that DEP accept a grant of such easements, rights, obligations, covenants, and restrictions, as aforesaid, pursuant to its authority under M.G.L. c. 21E, § 6;

WHEREAS, Grantor has agreed to grant the aforesaid easements, rights, obligations, covenants and restrictions, as more particularly set forth below, to DEP and its assigns pursuant to the Consent Decree;

NOW, THEREFORE, pursuant to the terms of the Consent Decree and in consideration of EPA's and the Commonwealth's agreement on behalf of DEP to settle certain of their claims against Grantor pursuant thereto, the receipt and sufficiency of which consideration is hereby acknowledged, GRANTOR does hereby COVENANT AND DECLARE that the Property shall be subject to the restrictions on activity and use set forth below, and does GIVE, GRANT AND CONVEY to DEP ("Grantee"), with QUITCLAIM COVENANTS, (1) the perpetual right to enforce said activity and use restrictions, and (2) an environmental protection and access easement of the nature and character, and for the purposes hereinafter set forth, with respect to the Property (collectively, the "Environmental Restriction and Easement").

Said Environmental Restriction and Easement is subject to the following terms and conditions:

1. Purpose. It is the purpose of this instrument to establish covenants, restrictions and easements, all of which shall run with the land, to facilitate the cleanup of environmental contamination and to protect human health and the environment by reducing the risk of exposure to contaminants.

2. Definitions. For purposes of this instrument, the following terms shall have the following meanings:

A. "Engineered Barrier Area" shall mean those areas of the Property designated as such on the Plan of Restricted Area, as more particularly bounded and described in Exhibit C attached hereto and made a part hereof; generally such areas contain permanent caps designed, constructed, and maintained to isolate and contain underlying soils and other materials (the "Engineered Barrier"). Such caps include either a vegetated cover or an asphalt cover, a drainage layer, and an impermeable membrane liner, as described in Attachment G of the SOW;

B. "Grantor" includes the Grantor or any successor of Grantor in title to the Property.

LAND COURT DOCUMENT # 35067
PAGE 3 OF 43

C. "Groundwater Response Action Component Area" shall mean those areas of the Property (if any) designated as such on the Plan of Restricted Area; generally such areas contain components of the response action for groundwater at the Property, if any.

D. "Health and Safety Protocol" shall mean the Health and Safety Protocol attached hereto as Exhibit D and incorporated herein by reference.

E. "Licensed Site Professional" or "LSP" each shall mean a hazardous waste site cleanup professional, as defined in M.G.L. c. 21A, § 19, holding a valid license issued by the Board of Registration of Hazardous Waste Site Cleanup Professionals, pursuant to M.G.L. c. 21A, §§ 19 through 19J.

F. "Open Soil/Vegetated Area" shall mean, collectively, those areas of the Property designated as such on the Plan of Restricted Area, as more particularly bounded and described in Exhibit C attached hereto and made a part hereof; such areas consist of any and all areas of the Property other than the Engineered Barrier Area and the Other Ground Covering Feature Area.

G. "Other Ground Covering Feature Area" shall mean, collectively, those areas of the Property designated as such on the Plan of Restricted Area as more particularly bounded and described in Exhibit C attached hereto and made a part hereof; such areas are where building foundations, interior slabs, exterior slabs, or paving and concrete (other than those described in subparagraph 2.A above) are located.

H. "Recorded and/or Registered" and its various conjugations shall mean, as to unregistered land, recorded with the Berkshire Middle District Registry of Deeds, and as to registered land, filed with the Berkshire County Land Registration Office, each conjugated as appropriate.

I. "Response Actions" shall mean the environmental response actions required to be undertaken at the Site or portions thereof pursuant to the Consent Decree and SOW (designated as Removal Actions under CERCLA), including (but not limited to) source control measures, soil removal, capping of contaminated soil, groundwater monitoring and (if necessary) response actions to address groundwater contamination, other actions to address existing contamination, institutional controls in the nature of restrictive covenants to prevent certain activities and uses at various properties, and certain operation and maintenance activities necessary to maintain the effectiveness of the response actions.

J. "Soil Management Protocol" shall mean the Soil Management Protocol attached hereto as Exhibit E and incorporated herein by reference.

K. "Statement of Work" or "SOW" shall mean the Statement of Work for Removal Actions Outside the River, which is Appendix E of the Consent Decree.

L. "Utility Work" shall mean the maintenance and repair of pipes, lines and other such conveyances for water, sewer, storm-water, steam, gas, fuel oil, electricity, and communications, but not the installation of new pipes, lines, or other such conveyances.

LAND COURT DOCUMENT # 35067
PAGE 4 OF 43

3. **Restricted Activities and Uses.** Except as provided in Paragraph 4 ("Permitted Activities and Uses"), Paragraph 6 ("Conditional Exceptions From Restricted Activities and Uses"), Paragraph 7 ("Applicability"), and/or Paragraph 8 ("Emergency Excavation"), Grantor shall not perform, suffer, allow or cause any person to perform any of the following activities or uses in, on, upon, through, over or under the Property or portions thereof:

A. residential activity or use;

B. day care and educational (for children under eighteen (18) years of age) activity or use;

C. community center (for children under eighteen (18) years of age) activity or use;

D. recreational activity or use;

E. agricultural activity or use;

F. extraction, consumption, or utilization of groundwater underlying the Property, including without limitation, extraction for potable, industrial, irrigation, or agricultural use;

G. excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and

H. any activity or use that would interfere with, or would be reasonably likely to interfere with, the implementation, operation, or maintenance of any aspect or component of the Response Actions already constructed or under construction, or of which Grantor has notice, including, without limitation, interference with any component of the Response Actions situated within the Engineered Barrier Area, any groundwater contaminant containment measures or barriers situated within the Groundwater Response Action Component Area (if any), or any groundwater monitoring wells, or any activity that would exceed the bearing load of, or pierce, any barrier or membrane situated within the Engineered Barrier Area.

4. **Permitted Activities and Uses.** Grantor reserves the right to perform, suffer, allow or to cause any person to perform any activity in, on, upon, through, over or under the Property, or make any use of the Property, that is not restricted by the provisions of this Environmental Restriction and Easement. In addition, Grantor may perform, suffer, allow or cause any person to perform the uses and activities set forth below in, on, upon, through, over or under the Property and the Restricted Area or portions of either. Except for the permitted activities and uses allowed pursuant to subparagraphs 4.A and 4.B below, and except as otherwise provided in subparagraph 4.E below, all such activities and uses shall only be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol, as applicable, as set forth below. Grantor shall restore the Property, or any portion thereof, affected by any activity or use permitted under subparagraphs 4.A through 4.E to its prior condition immediately upon completion of such activity or use, also in accordance with the Soil Management Protocol and

the Health and Safety Protocol (except for permitted activities and uses allowed pursuant to subparagraph 4.A and 4.B and except as otherwise provided in subparagraph 4.E below).

A. Surface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.A. In conducting activities and uses pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Such surface excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored in the Open Soil/Vegetated Area to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation or storage shall not exceed fourteen (14) days.

ii. Grantor shall take appropriate measures to secure stored soil and to control erosion, dust, and runoff.

iii. Grantor shall (a) backfill excavations to the original surface grade with clean soil or soil excavated from the Open Soil/Vegetated Area solely from the top one (1) foot of the surface of the ground; and (b) reestablish any disturbed vegetation.

iv. Grantor shall provide Grantee with written notice of each such surface excavation project no later than thirty (30) days after completion, and shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee; provided, however, that any such project where the total amount of soil that has been or will be excavated is less than five (5) cubic feet shall not be subject to the foregoing notification requirement.

v. Grantor shall not store or dispose of any excavated material outside of the Open Soil/Vegetated Area.

B. Surface Excavation of any Volume. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of any volume of such materials shall be permitted. In conducting work pursuant to this subparagraph, Grantor shall comply with the requirements listed above in subparagraphs 4.A.i through 4.A.iv, and the following additional requirements:

i. Grantor shall utilize an LSP to oversee the surface excavation permitted pursuant to this subparagraph.

ii. Disposal of excavated materials off of the Property shall be permitted provided that an LSP oversees such disposal and that the Grantor complies with the provisions of Paragraph 9 of the Soil Management Protocol regarding off-Property disposal of soil and other materials.

C. Surface and/or Subsurface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area and the Other Ground Covering Feature Area, at any depth, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.C. In conducting work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Grantor shall utilize an LSP to oversee the excavation permitted pursuant to this subparagraph, including without limitation, the disposal of soil and other material. All activities and uses permitted pursuant to this subparagraph shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol.

ii. Such excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee.

D. Surface and/or Subsurface Excavation for Utility Work. Notwithstanding the restrictions set forth in subparagraph 3.G, excavation, digging, drilling, or other intrusive activity into or disturbance of surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area and the Other Ground Covering Feature Area, at any depth, for the purpose of Utility Work, shall be permitted. In conducting Utility Work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. All such Utility Work shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. Grantor shall utilize an LSP to oversee all such activities and uses, including without limitation, the disposal of soil and other materials.

ii. Such Utility Work shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall give Grantee fifteen (15) days' advance written notice prior to conducting any activities and uses pursuant to this subparagraph 4.D.

iv. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee.

E. Sampling. Notwithstanding the restrictions set forth in subparagraphs 3.F and 3.G, soil and groundwater sampling activities shall be permitted in the Open Soil/Vegetated Area and the Other Ground Covering Feature Area; provided that Grantor shall utilize an LSP to oversee such sampling; and further provided that all such activities and uses shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. While GE continues to own and control the Property, the foregoing requirements to utilize an LSP and to comply with the Soil Management Protocol shall not apply to soil or groundwater sampling activities conducted by or under the oversight of GE personnel or contractors familiar with the terms of this Grant and pursuant to a plan for sampling that takes into account contaminated media at the Property and has been approved by EPA or DEP, with notice to Grantee. The foregoing sentence shall run to the benefit of GE alone, not to any successors or assigns, and shall not run with the land.

F. All other restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall apply to the activities and uses permitted to this Paragraph 4 ("Permitted Activities and Uses").

5. **Obligations and Conditions.** Grantor affirmatively agrees to perform the following activities at the Property and/or Restricted Area:

A. If Grantor observes or otherwise becomes aware of evidence of any failure or other significant alteration of any Engineered Barrier, including without limitation (i) exposure of or damage to any drainage layer, synthetic barrier, or liner; (ii) uneven settlement relative to surrounding areas; or (iii) damage to the pavement cover of any paved portion of an Engineered Barrier such as fissures, large cracks, or potholes; then Grantor shall notify Grantee and EPA thereof in writing within five (5) business days thereafter.

B. Any utility repair, maintenance or installation conducted in confined spaces shall comply with the Health and Safety Protocol.

6. Conditional Exceptions from Restricted Activities and Uses. Grantor may request from Grantee a conditional exception from one or more of the restricted activities or uses set forth in Paragraph 3 ("Restricted Activities and Uses") for a particular proposed activity or use and any related work, which would otherwise temporarily violate such restriction(s). Such request shall be submitted to Grantee in accordance with and shall be subject to all of the following:

A. Submittal Requirements. All requests for conditional exceptions shall, at a minimum:

i. include a written description and/or plans of the proposed activity or use and other relevant information;

ii. identify the Restricted Area or types of restricted areas for which the conditional exception is requested;

iii. identify the specific restriction(s) from which the conditional exception is requested, and explain the need for the exception;

iv. state the duration of the activity or use and any related work for which the conditional exception is requested, including a proposed termination date for the conditional exception; and

v. if required pursuant to subparagraph 6.B, below, include (a) a determination by an appropriately trained and licensed professional, such as an LSP, that the proposed activity and use and any related work for which the conditional exception is requested would satisfy the human health and environmental risk standard set forth in subparagraph 6.C, and (b) supporting technical analysis upon which such determination is based.

B. Requirement to Use an Appropriately Trained and Licensed Professional; Request for Waiver. An appropriately trained and licensed professional, such as an LSP, shall make the risk determination required in subparagraph 6.A.v, unless waived by Grantee pursuant to this subparagraph 6.B. Grantor may request Grantee to waive such requirement, if appropriate under the circumstances, for example, if a particular proposed activity and use and any related work is de minimis. In the event of such a request or on its own initiative, Grantee, in its sole discretion, may waive such requirement taking into consideration the nature and scope of a particular proposed conditional exception request. Any such waiver must be in writing. A waiver for one conditional exception request shall not be deemed to be a waiver for any future conditional exception request.

C. Human Health and Environmental Risk Standard. Grantor shall demonstrate, in accordance with the procedures set forth in subparagraphs 6.A and 6.B, that the activity or use and any related work for which a particular conditional exception is requested would not result in

an unacceptable risk to human health or the environment, pursuant to the criteria set forth at 40 C.F.R. § 300.430(e)(2)(i), as amended, or interfere with the integrity or effectiveness of the Response Actions. Such demonstration shall include, but not be limited to, consideration of the following factors, as applicable:

i. potential exposure to or release of hazardous substances;

ii. potential adverse impacts of the proposed activity or use on any Engineered Barrier or on surface water runoff pathways;

iii. potential creation of pathways of contaminant migration;

iv. potential impact on groundwater and any nonaqueous-phase liquids (NAPL);

v. management plans for excavated contaminated materials, including handling and disposal;

vi. appropriate worker health and safety plans; and

vii. whether the proposed activity or use and any related work would interfere with the implementation, operation and/or maintenance of the Response Actions and if so, whether the proposed activity or use is necessary to reduce a threat to human health or the environment.

D. Other Relevant Considerations. In reviewing a proposed conditional exception request, Grantee may consider Grantor's financial and/or technical ability to perform the necessary response work in connection with such request. Grantee may also consider any other relevant matters related to the human health and environmental risk standard set forth in subparagraph 6.C, above.

E. Completeness Determination, Review and Response.

i. If Grantee determines that Grantor's conditional exception request is sufficient and complete for purposes of review, Grantee shall review such request. If necessary, Grantee may notify Grantor of any deficiencies in Grantor's request, and may provide Grantor with an opportunity to submit supplemental information.

ii. Except as provided for in subparagraph 6.G, Grantee, upon completion of its review of any conditional exception request, based upon whether the human health and environmental risk standard set forth in subparagraph 6.C would be satisfied, and upon the other relevant considerations set forth in subparagraph 6.D, shall determine whether the requested conditional exception is appropriate and, if so, shall issue the conditional exception. If Grantee determines that the requested conditional exception is not appropriate, then Grantee shall issue a written explanation. Grantee may condition its issuance of a conditional exception as appropriate, including without limitation, upon the results of future sampling and/or testing.

LAND COURT DOCUMENT # 35067

PAGE 10 OF 43

iii. All conditional exceptions must be in writing and signed by Grantee.

F. Interim and Closeout Report Requirements. During and/or upon completion of the activity or use and any related work for which the conditional exception was obtained, upon request by Grantee, Grantor shall submit a written report confirming that such activity or use and related work was or is being implemented in accordance with the conditional exception, including in accordance with the representations in Grantor's conditional exception request submittal regarding the requirements set forth in subparagraphs 6.C and 6.D. Such report shall be prepared and signed by an appropriately trained and licensed professional, such as an LSP, unless pursuant to subparagraph 6.B Grantee previously waived the requirement to include a risk determination and supporting technical analysis by such professional.

G. Applicability of Amendment Provision to Conditional Exception Requests. Any conditional exception request for an activity or use and any related work which, in the judgment of Grantee, would result in a permanent modification to an activity or use restriction established in Paragraph 3 ("Restricted Activities and Uses"), including without limitation, to the boundary of the Restricted Area or any particular type of restricted area, shall require an amendment to this instrument in lieu of a conditional exception, in accordance with Paragraph 15 ("Amendment and Release").

7. **Applicability.** The restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall not apply to any response action undertaken by EPA or DEP, or their respective agents, representatives, contractors, subcontractors or employees, pursuant to CERCLA or Chapter 21E, and their respective implementing regulations. In addition, the restrictions set forth in subparagraphs 3.F through 3.H shall not apply to any of the following activities conducted by GE, or its employees, contractors, or subcontractors, pursuant to the Consent Decree and/or the SOW, as approved by EPA (which approval shall be after a reasonable opportunity for review and comment by DEP), for purposes of implementing or monitoring the Response Actions, provided that such activities do not permanently modify the boundary of the Restricted Area or of any particular type of restricted areas: soil or groundwater sampling; excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and/or groundwater extraction.

8. **Emergency Excavation.** If it becomes necessary to excavate a portion of the Property, as part of a response to an emergency (e.g., repair of utility lines or responding to fire or flood), any activity and use restriction provisions of Paragraph 3 ("Restricted Activities and Uses") above, which would otherwise restrict such excavation, shall be suspended with respect to such excavation for the duration of such emergency response, provided that Grantor:

A. Limits the actual disturbance involved in such excavation to the minimum reasonably necessary to adequately respond to the emergency;

B. Implements all measures necessary to limit actual or potential risk to the public health and environment arising from the emergency and the response thereto;

C. Undertakes precautions to minimize exposure of workers and neighbors of the Property to the hazardous substance or material; and

D. Utilizes an LSP (except as provided in the last sub-paragraph of this Paragraph 8) to oversee the implementation of the terms of this Paragraph 8 ("Emergency Excavation"), and to prepare and oversee the implementation of a written plan which, in said professional's opinion, will restore the Property to a condition consistent with its condition before the emergency excavation took place, with minimal disturbance of the contaminated soils; said plan to be subject to the Soil Management and the Health and Safety Protocols, as applicable; said plan to be promptly prepared and implemented; a copy of said plan to be submitted to EPA and DEP within ten (10) days of its performance, together with a completed Post-Work Notification Form, attached hereto as Exhibit F, with a statement from said LSP that the Property has been restored to said condition; provided, however, that in cases where only minimal excavation has occurred such that there has been no significant impact on the protectiveness of the Response Actions, Grantor may request Grantee to allow the Grantor to prepare and submit the plan and statement, without utilizing the services of the otherwise required LSP.

In addition, Grantor shall notify EPA and the DEP Western Regional Office Emergency Response Section, or such other party as EPA or DEP may identify in writing to Grantor, of such emergency as soon as possible but no more than two (2) hours after having learned of such emergency.

The following provisions shall run to the benefit of GE alone, but not to any successor or assign, and shall not run with the land:

i. While GE continues to own and control the Property, to the extent that GE is unable practicably to utilize an LSP to oversee the implementation of this Paragraph 8 (as required by subparagraph 8.D, above) due to the time-critical nature of the emergency, GE may instead utilize a similarly trained and experienced GE employee during the emergency to satisfy said requirement, provided that such employee:

(a) is experienced in overseeing excavation and management of contaminated media;

(b) is familiar with health and safety considerations, including proper use of personal protective equipment;

(c) is familiar with regulatory requirements for sampling and management of hazardous material;

(d) is familiar with the relevant requirements of this Grant, the Consent Decree and the SOW; and

(e) has appropriate environmental science or engineering training and experience and other appropriate educational background.

ii. While GE continues to own and control the Property, GE may, at its option, utilize a consultant, under the supervision of an LSP, to prepare the above-described written plan (as required by subparagraph 8.D, above).

9. Grant of Easements. In establishing this Environmental Restriction and Easement, Grantor hereby grants the following easements for the term of this Grant to Grantee, its agents, representatives, contractors, subcontractors and employees:

A. An easement to pass and repass over the Property for the purpose of inspecting the Property to ensure compliance with and fulfillment of the terms of this Environmental Restriction and Easement; and

B. An easement in, on, upon, through, over and under the Property for the following purposes:

i. constructing, implementing, monitoring, and performing the Response Actions and operation and maintenance for the Response Actions;

ii. assessing the need for, planning, or implementing other response actions at the Site;

iii. verifying any data or information submitted to EPA or DEP;

iv. surveying and obtaining samples;

v. installing groundwater monitoring wells and extraction wells;

vi. conducting investigations relating to contamination at or near the Site; and

vii. determining whether additional activity or use restrictions are necessary.

10. Severability. Grantor agrees, in the event that a court or other tribunal determines that any provision of this instrument is invalid or unenforceable:

A. That any such provision shall be deemed to have been modified automatically to conform to the requirements for validity and enforceability as determined by such court or tribunal; or

B. That any such provision that, by its nature, cannot be so modified, shall be deemed deleted from this instrument as though it had never been included.

Such modifications and deletions shall be deemed effective as of the date of the determination of the court or other tribunal. In either case, the remaining provisions of this instrument shall remain in full force and effect.

11. Enforcement. Grantor expressly acknowledges that a violation of the terms of this instrument could result in the following:

A. The assessment of penalties and other action by DEP to enforce the terms of this Environmental Restriction and Easement, pursuant to Chapter 21E and the MCP; and/or

B. Upon a determination by a court of competent jurisdiction, the issuance of criminal and civil penalties, and/or equitable remedies, which could include the issuance of an order to (i) modify or remove any improvements constructed in violation of the terms of this Environmental Restriction and Easement at Grantor's sole cost and expense or (ii) to reimburse the Commonwealth and the United States for any costs incurred in modifying or removing any improvement constructed in violation of the terms of this Environmental Restriction and Easement.

12. Provisions to Run With the Land. The land use restrictions, obligations, and access rights provided herein establish certain rights, liabilities, agreements and obligations upon and subject to which the Property or any portion thereof, shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered, or conveyed. The rights, liabilities, agreements and obligations herein set forth shall run with the Property for the term of this instrument, as applicable thereto, and any portion thereof, and shall inure to the benefit of Grantee and its assigns and be binding upon Grantor and all parties claiming by, through or under Grantor. Grantor hereby covenants for himself and his executors, administrators, heirs, successors and assigns, to stand seized and hold title to the Property, or any portion thereof, subject to these land use restrictions, access rights, and other provisions of this Grant; provided, however, that a violation of these land use restrictions, access rights, and other provisions shall not result in a forfeiture or reversion of Grantor's title to the Property.

13. Concurrence Presumed. It is agreed that:

A. Grantor and all parties claiming by, through or under Grantor shall be deemed to be in accord with the provisions herein set forth; and

B. Grantor and all such parties agree for and among themselves and any party claiming by, through or under them, and their respective agents, contractors, sub-contractors and employees, that the land use restrictions and access rights herein established shall be adhered to and not violated and that their respective interests in the Property shall be subject to the provisions herein set forth.

14. Incorporation into Deeds, Mortgages, Leases and Instruments of Transfer. Grantor hereby agrees to incorporate this instrument, in full or by reference, into all deeds, easements, mortgages, leases, licenses, occupancy agreements or any other instrument of transfer by which an interest in and/or a right to use the Property, or any portion thereof, is conveyed; provided, however, that any failure of Grantor to do so shall not affect the validity or applicability of the provisions of Paragraph 12.

15. **Amendment and Release.**

A. Amendment at Grantee's Request.

i. Grantee may request Grantor to amend this instrument. Grantor hereby further agrees to execute any such amendment which Grantee reasonably deems necessary for the effective administration of this instrument; provided, however, that such amendment shall be limited to procedural matters hereunder. Accordingly, the foregoing obligation shall not obligate Grantor to impose additional substantive restrictions on the Property, beyond those listed in Paragraph 3 ("Restricted Activities and Uses"); nor to impose additional substantive limitations on the permitted activities and uses set forth in Paragraph 4 ("Permitted Activities and Uses"); nor to impose additional substantive obligations and conditions upon Grantor, beyond those set forth in Paragraph 5 ("Obligations and Conditions"). All amendments shall include Grantee's signed approval and shall become effective upon Recordation and/or Registration.

ii. Notwithstanding the foregoing, if Grantor is not GE, Grantor expressly acknowledges and agrees that the within Grant includes the right of GE, in accordance with the Consent Decree, with notice to Grantor and written approval of Grantee, to Record and/or Register a revised Plan of Restricted Area indicating the location of any Groundwater Response Action Component Area and associated notice thereof. The Recordation and/or Registration of any such revised Plan of Restricted Area and associated notice thereof shall not be deemed an amendment to this Grant, but rather the exercise of rights established by, and effective upon the Recording and/or Registration of, this Grant.

B. Amendment at Grantor's Request. Grantor may amend this instrument only with the prior, written approval of the Grantee. Grantor may propose to Grantee an amendment of an activity or use restriction set forth in Paragraph 3 ("Restricted Activities and Uses") or of a permitted use set forth in Paragraph 4 ("Permitted Activities and Uses"), based upon changed circumstances, including, without limitation, new analytical and engineering data or a Grantor proposal to perform additional remediation at the Property. In the event that Grantor requests such an amendment, Grantor shall provide such information as Grantee may require for review of such a request, including without limitation, information that addresses the considerations set forth in Paragraph 6 ("Conditional Exceptions from Restricted Activities and Uses"), as applicable, and an explanation of the changed circumstances. If Grantee determines that any amendment to this Grant proposed by Grantor is not appropriate, then Grantee shall issue a written explanation.

C. Release. This instrument may be released, in whole or in part, by Grantee in Grantee's sole discretion, and in accordance with CERCLA, the NCP, Chapter 21E and the MCP, to the extent applicable. This instrument shall not be deemed released unless and until Grantee, its successors and assigns, and/or any other party claiming under Grantee, have released their respective interests. Said release shall become effective upon its Recordation and/or Registration.

D. Recordation and/or Registration. Grantor hereby agrees to Record and/or Register any amendment to and/or release of this instrument, and/or other document created pursuant to this instrument for which Recording and/or Registration is required, within thirty (30) days of the date of having received from Grantee any such amendment, release, and/or other document. No more than thirty (30) days from the date of Recording and/or Registration, Grantor shall provide to Grantee a certified Registry/Land Registration Office copy of the amendment, release, and/or other such document. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final recording and/or registration information for the amendment, release, and/or other such document, certified by said Registry/Land Registration Office. Grantor shall pay any and all recording fees, land transfer taxes and other such transaction costs associated with any such amendment, release, and/or other document. Grantor, if not GE, further agrees to cooperate with GE in the Recording and/or Registration of a revised Plan of Restricted Area, as described above, and any associated notice thereof.

E. Notice to Local Officials. Grantor further agrees to notify local officials and the public of the amendment or release in accordance with the requirements set forth in 310 C.M.R. 40.1403(7), as amended. A copy of said regulation is attached hereto as Exhibit G.

16. No Dedication Intended. Nothing herein set forth shall be construed to be a gift or dedication of the Property to Grantee, its assigns or to the general public for any purpose whatsoever.

17. Term. This instrument shall run with the land in perpetuity and is intended to conform to the exception for "other restrictions held by any governmental body" set forth in clause (c) of the first paragraph of M.G.L. c. 184, § 26, as amended.

18. Rights Reserved. It is expressly agreed that acceptance of this instrument by Grantee or its assignment shall not operate to bar, diminish, or in any way affect any legal or equitable right that Grantee or its assigns may otherwise have to issue any future order or take response action with respect to the Property or in any way affect any other claim, action, suit, cause of action, or demand which Grantee or its assigns may otherwise possess or hereafter acquire with respect thereto.

Nothing in this instrument shall limit or otherwise affect any rights that the United States or the Commonwealth may otherwise have to obtain access to, or restrict the use of, the Property pursuant to CERCLA, Chapter 21E, or any other applicable statute or regulation.

Nothing in this instrument shall waive such liability as Grantor may otherwise have for any release or any threat of a release of hazardous substances, oil or hazardous materials occurring as a result of Grantor's exercise of any of its rights hereunder, nor shall any provision of this instrument excuse compliance with CERCLA, Chapter 21E, or any other applicable federal, State or local laws, regulations or ordinances.

The rights reserved to Grantee in this Paragraph 18 ("Rights Reserved") shall be in addition to any rights reserved to Grantee elsewhere in this instrument.

19. **Assignment.** This instrument, including without limitation all easements, rights, covenants, obligations and restrictions inuring to the benefit of Grantee, herein contained, shall be assignable by Grantee, in whole or in part, at any time. This instrument may only be assigned to EPA, the City of Pittsfield, or any state or federal agency with at least statewide jurisdiction that has statutory authority to hold property interests and to administer or to enforce property restrictions such as this Environmental Restriction and Easement on behalf of the State or the United States, or to any other appropriate entity upon the mutual agreement of Grantee and Grantor. In the event of any assignment, Grantee shall notify Grantor by notice sent by first-class mail, postage prepaid, to Grantor's address.

20. **Agency Review and Comment; Notice.** Prior to responding to any request for approval or taking any other action pursuant to this instrument, Grantee shall first provide EPA with a reasonable opportunity to review and comment upon the requested approval or proposed action. Grantor shall submit duplicate copies of any submissions or notices made to Grantee pursuant to this instrument to Grantee, with a copy to EPA, at the following addresses by first-class mail, postage prepaid:

A. to EPA:
U.S. Environmental Protection Agency
Office of Site Remediation and Restoration
One Congress Street,
Suite 1100 -- Mail Code HBT
Boston, MA 02114-2023
Attn: GE-Pittsfield/Housatonic River Site

B. to DEP:
Department of Environmental Protection
Western Regional Office
436 Dwight Street
Springfield, MA 01103; and to

Department of Environmental Protection
Bureau of Waste Site Cleanup
One Winter Street
Boston, MA 02108

C. or as otherwise provided in writing by EPA or DEP.

If GE is not the Grantor, Grantor shall submit any notices to GE made pursuant to this instrument to GE at the following address or such other address as provided in writing by GE, with a copy to Grantee and EPA.

General Electric Company
Corporate Environmental Programs
159 Plastics Avenue
Pittsfield, MA 01201

LAND COURT DOCUMENT # 35067
PAGE 17 OF 43

21. **Effective Date.** This instrument shall become effective upon its Registration.

No more than thirty (30) days from the date of Registration, Grantor shall provide Grantee with a certified Land Registration Office copy of this instrument. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final Registration information for this instrument, certified by said Land Registration Office.

As this instrument is granted to an agency of the Commonwealth of Massachusetts, no Massachusetts deed excise tax stamps are affixed hereto, none being required by law (M.G.L. Chapter 64D, Section 1, as amended).

WITNESS the execution hereof under seal this 12th day of July, 2007.

GENERAL ELECTRIC COMPANY

By: Michael T. Carroll

Michael T. Carroll
Manager, Pittsfield Remediation Programs,
Corporate Environmental Programs

COMMONWEALTH OF MASSACHUSETTS

County of Berkshire, ss.

On this 12th day of July, 2007, before me, the undersigned notary public, personally appeared Michael T. Carroll, as Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the General Electric Company, a corporation, proved to me through satisfactory evidence of identification, which was My Drivers License, to be the person whose name is signed on the preceding or attached document, and acknowledged to me that he signed it voluntarily for its stated purpose.

_____, Notary Public

My commission expires: 12/17/2010

ANTHONY G. MASSIMIANO

GENERAL ELECTRIC COMPANY

Certificate of Authorization

I, Laurence J. Bird, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify resolutions of the Board of Directors of the Company.

2. The following is a true and correct excerpt of a Resolution #10855 duly adopted by the Board of Directors of the Company on April 26, 1988, as such Resolution was duly amended and restated by the Board of Directors of the Company on December 20, 1991 (as so amended and restated, the "Resolution") dealing with the execution of contracts and other instruments on behalf of the Company. The Resolution is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked:

"RESOLVED, that

(A) Any contract, lease license, assignment, bond or other obligation, conveyance, power of attorney, guarantee, proxy, court pleading, release, tax return and related documents, or other instruments may be executed on behalf of this Company by the Chairman of the Board, a Vice Chairman of the Board, an Executive Vice President, a Senior Vice President, a Vice President reporting directly to the Chairman or a Vice Chairman of the Board, the Comptroller, the Treasurer, the Secretary or any Vice President who is a corporate staff officer of the Company, all of the above named individuals being hereinafter called "Authorized Persons".

. . . .

(C) Each Authorized Person is hereby authorized to delegate to others authority to execute on behalf of the Company the following types of contracts and other instruments which relate to the function or component for which such Authorized Person is responsible:

. . . .

4. Contracts, leases, deeds, or other instruments relating to real property or to any improvements thereon."

IN WITNESS WHEREOF, the undersigned has executed the Certificate of Authorization as of this 12th day of July, 2007.

Laurence J. Bird, Attesting Secretary

GENERAL ELECTRIC COMPANY

Certificate of Incumbency

I, Laurence J. Bird, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify the incumbency of officers of the Company.

2. Stephen D. Ramsey is the duly qualified and appointed Vice President, Corporate Environmental Programs, of the Company, that he held that corporate staff office on April 10, 2003, and that he is an "Authorized Person" as defined in paragraph (A) of Resolution #10855 of the General Electric Board of Directors.

3. Attached as Exhibit 1 to this Certificate is a true and correct copy of a valid written delegation of authority dated February 7, 2003 by Stephen D. Ramsey, Vice President, Corporate Environmental Programs of the Company, to Michael T. Carroll, Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company. This written delegation is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked.

4. Michael T. Carroll is, and was on July 12, 2007 [date of execution] the duly qualified and appointed Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company.

IN WITNESS WHEREOF, the undersigned has executed this Certificate of Incumbency as of this 12th day of July, 2007.

Laurence J. Bird, Attesting Secretary

DELEGATION OF AUTHORITY

In accordance with the provisions of Paragraph (C) of the General Electric Company Board of Directors' Resolution #10855 dated April 26, 1988 relating to the Execution of Contracts and Other Instruments I, Stephen D. Ramsey, Vice President, Corporate Environmental Programs of the General Electric Company, hereby delegate to Michael T. Carroll, Manager, Pittsfield Remediation Programs, the authority to execute on behalf of the General Electric Company contracts, leases, deeds or other instruments relating to real property located within Berkshire County of Massachusetts, or to any improvements thereon (including, without limitation, instruments imposing environmental restrictions such as Activity and Use Limitations or Grants of Environmental Restrictions and Easements).

Dated this 7th day of February 2003

Stephen D. Ramsey
Vice President
Corporate Environmental Programs
General Electric Company

Attest:

Attesting Secretary

EXHIBIT A

DESCRIPTION OF PROPERTY BY METES AND BOUNDS

Tax Parcel No. J9-23-23

Parcel 1:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point in the northerly sideline of Newell Street, said point being the southwest corner of the parcel herein described and is also located N 64° 15' E a distance of 54.82 feet from a stone monument in the northerly line of Newell Street;

Running thence N 21° 50' 00" W a distance of 423.98 feet to a point marking the northwest corner of said parcel;

Running thence N 69° 42' E a distance of 80.00 feet to the northeast corner of said parcel;

Running thence S 24° 33' 53" E a distance of 215.45 feet to a point;

Running thence S 64° 15' W a distance of 10.00 feet to a point;

Running thence S 24° 33' 53" E a distance of 200.00 feet to the southeast corner of the parcel herein described in the northerly sideline of Newell Street;

Running thence S 64° 15' W a distance of 90.00 feet along the supposed northerly line of Newell Street to the point of beginning.

The parcel above described is more particularly shown as Lot B-15 on Land Court Plan No. 8372-I.

Excepting any and all interest of the Grantor in Newell Street.

Parcel 2:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at the northwest corner of the parcel herein described, said point is also the northeast corner of Parcel 1 herein described;

Running thence N 69° 42' E a distance of 40.00 feet to a point;

LAND COURT DOCUMENT # 35067
PAGE 25 OF 43

Running thence N 75° 24' 40" E a distance of 82.06 feet to the northeast corner of the parcel herein described to a point;

Running thence S 64° 15' W a distance of 44.35 feet to a point;

Running thence S 27° 59' E a distance of 195.89 feet to the southeast corner of the parcel herein described to a point;

Running thence S 64° 15' W a distance of 92.20 feet to the point of beginning.

The parcel above described is more particularly shown as Lot B-13 on Land Court Plan No. 8372-I.

Note:

The above-described property shown as Lots B-13 and B-15 on Land Court Plan No. 8372-I is also shown on the plan entitled "Sketch Plan Showing Lots B13 & B15 on Land Court Plan No. 8372-I" ("Sketch Plan"), dated June 25, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which is attached as Exhibit B to the foregoing Grant of Environmental Restriction and Easement. Both plans depict the same property. The property boundary line dimensions shown above are based on Land Court Plan No. 8372-I. Those shown on the Sketch Plan are the result of an on-the-ground retracement survey of the lines shown on said Land Court Plan. The bearings shown on the Sketch Plan are rotated -11° 25' 29" from the meridian of said Land Court Plan. Any differences between the distances shown above and those shown on the Sketch Plan are the result of the retracement survey of the lines shown on said Land Court Plan and are within the expected measurement tolerances which exist between the two surveys.

PAGE 38 OF 43

EXHIBIT C

DESCRIPTION OF RESTRICTED AREAS BY METES AND BOUNDS

This Exhibit describes, by metes and bounds, the restricted areas under the foregoing Grant of Environmental Restriction and Easement. The areas described below consist of portions of the Property subject to this Grant, which areas are identified and more particularly shown on a plan entitled "Sketch Plan Showing Lots B13 & B15 on Land Court Plan No. 8372-I" ("Sketch Plan"), dated June 25, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which plan is attached to the above-referenced Grant as Exhibit B.

ENGINEERED BARRIER AREA

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the Engineered Barrier Area herein described, thence running N 33-15-29 W a distance of 144.4 feet to a point;

Thence running N 67° 16' E a distance of 36.4 feet to a point;

Thence running N 70° 48' E a distance of 17.9 feet to a point;

Thence running N 66° 39' E a distance of 21.2 feet to a point;

Thence running N 63° 44' E a distance of 11.6 feet to a point;

Thence running S 32° 31' E a distance of 2.1 feet to a point;

Thence running S 36° 28' E a distance of 117.0 feet to a point;

Thence running S 50° 53' W a distance of 27.8 feet to a point;

Thence running N 37° 32' W a distance of 34.0 feet to a point;

Thence running N 50° 35' E a distance of 1.0 feet to a point;

Thence running N 37° 25' W a distance of 36.9 feet to a point;

Thence running S 52° 33' W a distance of 40.8 feet to a point;

Thence running S 37° 32' E a distance of 74.9 feet to a point;

Thence running S 62° 00' W a distance of 13.3 feet to a point;

LAND COURT DOCUMENT # 35067
PAGE 29 OF 43

Thence running S 51° 21' W a distance of 11.6 feet to the point of beginning.

The above-described area of land contains 8,755 square feet and is more particularly shown as "Engineered Barrier Area" on the above-referenced Sketch Plan.

OPEN SOIL/VEGETATED AREA

Sub-Area A:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 37° 32' W a distance of 109.2 feet to a point;

Thence running N 50° 53' E a distance of 27.8 feet to a point;

Thence running N 36° 28' W a distance of 117.0 feet to a point;

Thence running N 57° 27' E a distance of 40.0 feet to a point;

Thence running N 32° 31' W a distance of 30.0 feet to a point;

Thence running S 57° 31' W a distance of 40.0 feet to a point;

Thence running S 32° 31' E a distance of 27.9 feet to a point;

Thence running S 63° 44' W a distance of 11.6 feet to a point;

Thence running S 66° 39' W a distance of 21.2 feet to a point;

Thence running S 70° 48' W a distance of 17.9 feet to a point;

Thence running S 67° 16' W a distance of 36.4 feet to a point;

Thence running N 33° 15' 29" W a distance of 68.4 feet to a point;

Thence running N 58° 16' 31" E a distance of 79.99 feet to a point;

Thence running N 58° 16' 31" E a distance of 40.00 feet to a point;

Thence running N 63° 59' 11" E a distance of 82.00 feet to a point;

Thence running S 52° 49' 31" W a distance of 44.30 feet to a point;

LAND COURT DOCUMENT # 35067
PAGE 30 OF 43

Thence running S 39° 24' 29" E a distance of 195.87 feet to a point;

Thence running S 52° 49' 29" W a distance of 98.06 feet to a point;

Thence running S 35° 59' 22" E a distance of 96.2 feet to a point;

Thence running S 52° 40' W a distance of 5.2 feet to a point;

Thence running N 36° 35' W a distance of 2.8 feet to a point;

Thence running S 52° 32' W a distance of 4.0 feet to a point;

Thence running S 37° 42' E a distance of 2.8 feet to a point;

Thence running S 52° 16' W a distance of 3.3 feet to the point of beginning.

The above-described sub-area of land contains 23,844 square feet and is more particularly shown as Sub-Area A on the above-referenced Sketch Plan.

Sub-Area B:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 33° 15'29" W a distance of 156.8 feet to a point;

Thence running N 41° 19' E a distance of 2.6 feet to a point;

Thence running N 02° 05' E a distance of 6.9 feet to a point;

Thence running N 35° 19' W a distance of 37.6 feet to a point;

Thence running N 35° 29' W a distance of 10.9 feet to a point;

Thence running N 51° 21' E a distance of 6.8 feet to a point;

Thence running N 62° 00' E a distance of 13.3 feet to a point;

Thence running S 37° 32' E a distance of 47.5 feet to a point;

Thence running S 51° 38' W a distance of 16.4 feet to a point;

Thence running S 85° 19' W a distance of 0.4 feet to a point;

Thence running S 50° 58' W a distance of 3.1 feet to a point;

Thence running S 37° 18' E a distance of 15.0 feet to a point;

Thence running S 64° 02' E a distance of 0.5 feet to a point;

Thence running S 37° 18' E a distance of 43.5 feet to a point;

Thence running S 52° 38' W a distance of 10.4 feet to a point;

Thence running S 36° 52' E a distance of 23.9 feet to a point;

Thence running N 52° 37' E a distance of 10.1 feet to a point;

Thence running S 37° 47' E a distance of 37.9 feet to a point;

Thence running S 26° 17' E a distance of 41.0 feet to a point;

Thence running S 52° 49'17" W a distance of 12.3 feet to the point of beginning.

The above-described sub-area of land contains 2,931 square feet and is more particularly shown as Sub-Area B on the above-referenced Sketch Plan.

OTHER GROUND-COVERING FEATURE AREA

Sub-Area 1:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 26° 17' W a distance of 41.0 feet to a point;

Thence running N 37° 47' W a distance of 37.9' feet to a point;

Thence running S 52° 37' W a distance of 10.1' feet to a point;

Thence running N 36° 52' W a distance of 23.9' feet to a point;

Thence running N 52° 38' E a distance of 10.4' feet to a point;

Thence running N 37° 18' W a distance of 43.5' feet to a point;

Thence running N 64° 02' W a distance of 0.5' feet to a point;

LAND COURT DOCUMENT # 35067
PAGE 32 OF 43

Thence running N 37° 18' W a distance of 15.0' feet to a point;

Thence running N 50° 58' E a distance of 3.1' feet to a point;

Thence running N 85° 19' E a distance of 0.4' feet to a point;

Thence running N 51° 38' E a distance of 16.4' feet to a point;

Thence running N 37° 32' W a distance of 47.5' feet to a point;

Thence running N 37° 32' W a distance of 74.9' feet to a point;

Thence running N 52° 33' E a distance of 40.8' feet to a point;

Thence running S 37° 25' E a distance of 36.9' feet to a point;

Thence running S 50° 35' W a distance of 1.0' feet to a point;

Thence running S 37° 32' E a distance of 34.0' feet to a point;

Thence running S 37° 32' E a distance of 109.2' feet to a point;

Thence running N 52° 16' E a distance of 3.3 feet to a point;

Thence running N 37° 42' W a distance of 2.8 feet to a point;

Thence running N 52° 32' E a distance of 4.0 feet to a point;

Thence running S 36° 35' E a distance of 2.8 feet to a point;

Thence running N 52° 40' E a distance of 5.2 feet to a point;

Thence running S 35° 59' 22" E a distance of 103.8 feet to a point;

Thence running S 52° 49' 17" W a distance of 77.7 to the point of beginning.

The above-described sub-area of land contains 16,133 square feet and is more particularly shown as Sub-Area 1 on the above-referenced Sketch Plan.

Sub-Area 2:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 33° 15' 29" W a distance of 54.3 feet to a point;

Thence running N 51° 21' E a distance of 4.8 feet to a point;

Thence running S 35° 29' E a distance of 10.9 feet to a point;

Thence running S 35° 19' E a distance of 37.6 feet to a point;

Thence running S 02° 05' W a distance of 6.9 feet to a point;

Thence running S 41° 19' W a distance of 2.6 feet to the point of beginning.

The above-described sub-area of land contains 299 square feet and is more particularly shown as Sub-Area 2 on the above-referenced Sketch Plan.

Sub-Area 3:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 32° 31' W a distance of 30.0 feet to a point;

Thence running N 57° 31' E a distance of 40.0 feet to a point;

Thence running S 32° 31' E a distance of 30.0 feet to a point;

Thence running S 57° 27' W a distance of 40.0 feet to the point of beginning.

The above-described sub-area of land contains 1,199 square feet and is more particularly shown as Sub-Area 3 on the above-referenced Sketch Plan.

PAGE 34 OF 43

EXHIBIT D

HEALTH AND SAFETY PROTOCOL

1. This Health and Safety Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Except as provided below, in Paragraph 3 of this Protocol, Grantor shall prepare and submit a Health and Safety Plan ("HSP") to Grantee and EPA pursuant to Paragraph 20 ("Agency Review and Comment; Notices") of the Grant, fifteen (15) days or more before conducting any permitted activity or use pursuant to Paragraph 4 ("Permitted Activities and Uses") of the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant. If appropriate, Grantor may submit a pre-existing health and safety plan in lieu of preparing a new plan to address this requirement and/or incorporate by reference a previously submitted HSP. Grantor shall comply with the HSP when conducting any permitted activity or use pursuant to the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant.

3. An HSP shall not be required for any excavation permitted pursuant to the following subparagraphs of the Grant: 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less"), 4.B ("Surface Excavation of any Volume"), and/or 4.D ("Surface and/or Subsurface Excavation for Utility Work"), provided that the excavation permitted under subparagraph 4.D is conducted solely within one (1) foot of the surface of the ground in the Open Soil/Vegetated Area.

4. The HSP shall be prepared in accordance with the occupational health and safety provisions of 29 Code of Federal Regulations § 1910.120 otherwise applicable to hazardous waste operations and emergency response, as amended, and, any other applicable federal, state or local law. For any utility repair, maintenance or installation in confined spaces, the HSP shall also be prepared in accordance with the provisions of 29 Code of Federal Regulations § 1910.146, otherwise applicable to work in confined spaces, as amended.

5. In addition to the requirements of Paragraph 4 of this Protocol, the HSP shall, without limitation, include the following items:

a. General information on the nature, extent, and concentrations of hazardous substances (as defined by CERCLA) and hazardous materials and oil (as defined by Chapter 21E) anticipated in the media to be impacted by the permitted activity and use, based upon existing information.

b. Description of tasks which may involve exposure to hazardous substances, hazardous materials, or oil.

c. Description of anticipated actions to protect the health, safety, and welfare of workers and the general public. Actions shall include, but not be limited to, dust control, odor control, personal protective equipment, and erosion and sedimentation control measures (as needed for the particular permitted activity and use).

d. Discussion of relevant physical, chemical, and biological hazards. (Relevant portions of Material Safety Data Sheets may be incorporated as appropriate.)

e. A requirement that all persons engaged in the work read and acknowledge the provisions of the HSP and document compliance with said provisions.

f. A requirement that all persons engaged in the work receive appropriate training in matters of health and safety in accordance with 29 Code of Federal Regulations Section 1910.120, as amended, and, any other applicable federal, state or local law.

6. The HSP shall be approved by a Certified Industrial Hygienist.

7. The Grant and this Health and Safety Protocol are in addition to and do not supersede or relieve Grantor, Grantor's contractors or subcontractors, or any other person or entity performing work on the Property from complying with any applicable federal, state, or local laws, rules or regulations regarding health and safety. Notwithstanding the Grant and this Health and Safety Protocol, it remains the responsibility of such parties to comply with any applicable federal, state, or local laws, rules or regulations regarding health and safety, even if they are more stringent than the requirements of the Grant and this Health and Safety Protocol.

EXHIBIT E

SOIL MANAGEMENT PROTOCOL

1. This Soil Management Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Soil sampling and excavation shall be conducted with the oversight of a Licensed Site Professional ("LSP"), to the extent required by Paragraph 4 ("Permitted Activities and Uses") of the Grant.

3. Soil and materials from within the Open Soil/Vegetated Area which have been excavated solely within one (1) foot of the surface of the ground may be (i) disposed of in the Open Soil/Vegetated Area, with no sampling required; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; (iii) returned to the original excavation for use as backfill, with no sampling required; or (iv) a combination of the management options listed in this Paragraph 3 of this Protocol.

4. Soil and materials from within the Open Soil/Vegetated Area, and excavated below one (1) foot of the surface of the ground, or from within the Engineered Barrier Area or the Other Ground Covering Feature Area and excavated from any depth, may be (i) returned to the original excavation, with no sampling required, to within one (1) foot of the surface of the ground, with the remaining one (1) foot of the original excavation backfilled with clean soil or with soil excavated solely from the top one (1) foot of the original excavation; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; or (iii) a combination of the management options listed in this Paragraph 4 of this Protocol.

5. As required by Paragraph 4 ("Permitted Activities and Uses") of the Grant, Grantor shall return the Property, or any portion thereof, to its prior condition immediately upon completion of such activity or use. Such restoration shall include, without limitation, (i) backfilling excavations to the original surface grade with clean soil, except for any soil that may be returned to the original excavation pursuant to this Protocol; (ii) replacing and repairing any aspects or component of the Other Ground Covering Feature Area and any aspect or component of the Response Action situated within the the Engineered Barrier Area disturbed by the activities and uses allowed hereunder; and (iii) reestablishing any disturbed vegetation.

6. Grantor shall implement the management procedures and measures required by the provisions of 310 Code of Massachusetts Regulations (CMR) Section 40.0018 (1) and (2) otherwise applicable to response actions, as amended. Excavations permitted under subparagraphs 4.A, 4.B, 4.C, 4.D and 4.E (except as otherwise provided in subparagraph 4.E) of the Grant shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Grantor shall, during excavation, use best management practices to control contaminant migration, exposure to contaminant material, and erosion, runoff, and dust emissions.

LAND COURT DOCUMENT # 35067
PAGE 37 OF 43

7. Grantor shall keep separate (i) soil excavated from within the top one (1) foot of the ground in the Open Soil/Vegetated Area; (ii) soil excavated from below the top one (1) foot of the ground in the Open Soil/Vegetated Area or, regardless of depth, from within the Engineered Barrier Area or the Other Ground Covering Feature Area; and (iii) clean backfill. The location of the storage of soil and other materials shall be either (i) in the same Restricted Area from which they were excavated, or (ii) as otherwise authorized by applicable state or federal laws and regulations. All soil and other material shall be stored in a manner consistent with 310 CMR § 40.0036 (as amended) and in accordance with: (a) EPA approval under 40 Code of Federal Regulations § 761.61(c) (as amended); or (b) 40 Code of Federal Regulations § 761.65 (as amended); or (c) the following requirements: Such materials shall be placed on an impermeable liner to prevent contact with the underlying ground surface, and shall then be covered by a second impermeable membrane. This cover shall remain in place at all times when the storage area is not actively being used, and shall be securely anchored to the ground using weight devices. The storage area shall be located such that potential impacts due to rainfall, wind, and surface runoff are minimized.

8. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

9. All off-Property disposal of soil and other materials, including without limitation, used personal protective equipment, shall be: (i) at a facility licensed to accept such materials and in compliance with all applicable laws, rules and regulations; or (ii) at an EPA-approved on-plant consolidation area at the GE Plant if such consolidation area is in operation at the relevant time and in compliance with all operating procedures for such consolidation area and with the approval of the owner of such consolidation area. All disposal of soil and other materials off-Property or outside the restricted area from which such soils and materials were excavated shall be conducted with the oversight of an LSP. All off-Property disposal shall comply with all applicable laws, rules, and regulations. Grantor shall conduct sampling sufficient to assure adequate characterization for off-Property disposal subject to oversight by an LSP and in accordance with state and federal laws and regulations, including, without limitation, 310 CMR § 40.0017.

EXHIBIT F

POST-WORK NOTIFICATION FORM FOR PROPERTY WITH ERE GRANT

I. General Information.

Type of work: __ Surface *(top foot)* excavation of greater than five (5) cubic ft. and less than or equal to ten (10) cubic yards (per Grant Paragraph 4.A)

(check all that apply) __ Surface *(top foot)* excavation of any volume (per Grant Paragraph 4.B)

__ Subsurface *(deeper than top foot)* excavation of ten (10) cubic yards or less (per Grant Paragraph 4.C)

__ Surface or subsurface excavation for Utility Work (per Grant Paragraph 4.D)

__ Emergency excavation (per Grant Paragraph 8)

Property Address: _____
Tax Parcel ID: _____

II. Description of Excavation Activities.

Start date of excavation/soil disturbance: _____

End date of excavation/soil disturbance: _____

Amount of soil excavated or moved: _____

Any soil or other excavated material moved out of the Restricted Area? ___ Yes ___ No

Excavation dimensions *(approximate length x width x depth, in feet)* : _____

Description of project (*attach extra sheets, if necessary*): _____
_____

Final disposition of soil: *(attach bills of lading and certificates of disposals, if applicable)*: _____
_____

Attach a plan *(e.g., a copy of the Plan of Restricted Area)* showing:

(1) location of excavation(s) within the property
(2) direction
(3) major site features (*e.g., roads, buildings, edges of pavement/barriers, locations of utilities if known*)

Attach photographs of work area prior to work, during work and post-restoration work, if available (*optional*).

Was soil sampling and analysis conducted? __ Yes __ No
If Yes, attach analytical results and show sampling locations (*and indicate depths*) on an attached plan.

Were the Health and Safety Protocol and/or the Soil Management Protocol (*as defined in the ERE Grant*), if applicable, followed? (*check each that applies*[1])
__ Health and Safety Protocol was followed
__ Soil Management Protocol was followed
__ Not Applicable

[1] See note 3 in Section V ("Notes About the Use of this Form"), below.

LAND COURT DOCUMENT # 35067
PAGE 39 OF 43

III. Additional Information for Emergency Excavation.

If work was conducted as an Emergency Excavation (*see Paragraph 8 ("Emergency Excavation") of the ERE Grant*):

(1) Attach an opinion and completion report prepared by an appropriately trained and licensed professional (*including copy of written plan for restoration*).
(2) Date and time property owner first obtained knowledge of the emergency:_____
(3) Date and time property owner provided oral notification of the emergency to DEP:_____

IV. Signature.

Two signatures are required (except for excavations pursuant to Grant Paragraph 4.A or the last paragraph of Grant Paragraph 8, for which only the owner or person conducting the work must sign). The property owner, or person conducting the work if other than the property owner, and the Licensed Site Professional who has overseen the work (where required) must each complete and sign the statement, below.

Owner or person conducting the work if other than the property owner:

V. Notes About the Use of this Form.

(1) This form is due no later than thirty (30) days after completion of the permitted activities and uses under Paragraph 4 ("Permitted Activities and Uses") of the ERE Grant. For emergency excavations pursuant to Paragraph 8 of the ERE Grant ("Emergency Excavation"), verbal notification is required as soon as possible but no more than two hours after learning of the emergency, and this form is for the post-emergency excavation notice and is due within ten (10) days after completion of the necessary restoration in accordance with Paragraph 8 of the ERE Grant.

(2) Separate, 15 days' advance written notice is required for Utility Work excavation activity, pursuant to Paragraph 4.D ("Surface and/or Subsurface Excavation for Utility Work") of the ERE Grant.

(3) The Health and Safety Protocol and the Soil Management Protocol do not apply to the Permitted Activities and Uses set forth in Paragraph 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less") of the ERE Grant. These protocols also do not apply to the Permitted Activities and Uses set forth in Paragraph 4.B ("Surface Excavation of any Volume") of the ERE Grant, except for off-Property disposal, to which Paragraph 9 of the Soil Management Protocol applies.

VI. Where to Submit this Form.

Submit this completed form, via certified mail, to:

MA Department of Environmental Protection
Bureau of Waste Site Cleanup, Special Projects
436 Dwight Street
Springfield, Massachusetts 01103
(Attn.: GE Housatonic Removal Action Project Manager)

Submit a copy of this form, via certified mail, to:

U.S. Environmental Protection Agency
Office of Site Remediation and Restoration
One Congress Street
Suite 1100 – Mail Code HIO
Boston, Massachusetts 02114-2023
(Attn.: GE-Pittsfield/Housatonic River Site)

40.1403: Minimum Public Involvement Activities in Response Actions

* * *

(7) Within thirty days after recording and/or registering any original, amended, released or terminated Activity and Use Limitation pursuant to 310 CMR 40.1070 through 40.1080, the following requirements shall be met to inform local officials and the public of the limitations which apply to activities and/or uses of the property subject to the Activity and Use Limitation:

(a) a copy of the recorded and/or registered Activity and Use Limitation shall be provided to:

1. the Chief Municipal Officer;
2. the Board of Health;
3. the Zoning Official; and
4. the Building Code Enforcement Official in the community(ies) in which the property subject to such Activity and Use Restriction is located.

(b) a legal notice which indicates the recording and/or registering of the original, amended, released or terminated Activity and Use Limitation shall be published in a newspaper which circulates in the community(ies) in which the property subject to the Activity and Use Limitation is located.

1. This notice shall be in a form established by the Department for such purpose and shall include, but not be limited to:
   a. the name, address, and Release Tracking Number(s) of the disposal site associated with the Activity and Use Limitation;
   b. the type of Activity and Use Limitation;
   c. information about where the Activity and Use Limitation instrument and disposal site file can be reviewed; and
   d. the name, address and telephone number of the person recording and/or registering the Activity and Use Limitation from whom the public can obtain additional information.
2. A copy of this legal notice shall be submitted to the Department within seven days of its publication.

SUBORDINATION AGREEMENT FOR SEWER EASEMENT, PARCEL J9-23-23

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Disposal Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD 440

The City of Pittsfield (the "City"), Berkshire County, Massachusetts, is the holder of easements and rights acquired pursuant to a taking for a municipal purpose, by order dated June 4, 1960, and noted as Document No. 10306 on Certificate of Title No. 6187 in Book 28, Page 125 in the Land Court Records of the Berkshire Middle District Registry of Deeds, which allows the City to construct, reconstruct, repair and maintain a common sewer.

For the easements and rights referenced above, the City hereby assents to the Grant of Environmental Restriction and Easement (the "Grant") granted by the General Electric Company to the Commonwealth of Massachusetts Department of Environmental Protection dated July 12, 2007 and recorded in the Land Court Records of the Berkshire Middle District Registry of Deeds on Certificate 6187 as Document 35067 in Book 28 Page 125, and agrees that the City shall be subject to the said Grant and to the rights, covenants, restrictions and easements created by and under the Grant insofar as the interests created under the above-referenced City taking of easements and rights affect the Property identified in the Grant and as if for all purposes said Grant had been executed, delivered and recorded prior to the execution, delivery and recordation of the said City taking of easements and rights.

In witness whereof, the CITY OF PITTSFIELD has caused this instrument to be executed, sealed with the City seal, acknowledged and delivered by JAMES M. RUBERTO, its Mayor and GERALD M. LEE, its City Council President, this 26th day of Sept., 2006.

Owner's Policy of Title Insurance

OWNER'S POLICY OF TITLE INSURANCE

Issued by **Commonwealth Land Title Insurance Company**

POLICY NUMBER

LandAmerica Commonwealth

Commonwealth Land Title Insurance Company is a member of the LandAmerica family of title insurance underwriters.

C30-Z021711

Any notice of claim and any other notice or statement in writing required to be given to the Company under this Policy must be given to the Company at the address shown in Section 18 of the Conditions.

COVERED RISKS

SUBJECT TO THE EXCLUSIONS FROM COVERAGE, THE EXCEPTIONS FROM COVERAGE CONTAINED IN SCHEDULE B, AND THE CONDITIONS, COMMONWEALTH LAND TITLE INSURANCE COMPANY, a Nebraska corporation (the "Company") insures, as of Date of Policy and, to the extent stated in Covered Risks 9 and 10, after Date of Policy, against loss or damage, not exceeding the Amount of Insurance, sustained or incurred by the Insured by reason of:

1. Title being vested other than as stated in Schedule A.
2. Any defect in or lien or encumbrance on the Title. This Covered Risk includes but is not limited to insurance against loss from
   (a) A defect in the Title caused by
      (i) forgery, fraud, undue influence, duress, incompetency, incapacity, or impersonation;
      (ii) failure of any person or Entity to have authorized a transfer or conveyance;
      (iii) a document affecting Title not properly created, executed, witnessed, sealed, acknowledged, notarized, or delivered;
      (iv) failure to perform those acts necessary to create a document by electronic means authorized by law;
      (v) a document executed under a falsified, expired, or otherwise invalid power of attorney;
      (vi) a document not properly filed, recorded, or indexed in the Public Records including failure to perform those acts by electronic means authorized by law; or
      (vii) a defective judicial or administrative proceeding.
   (b) The lien of real estate taxes or assessments imposed on the Title by a governmental authority due or payable, but unpaid.
   (c) Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land.
3. Unmarketable Title.
4. No right of access to and from the Land.
5. The violation or enforcement of any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (a) the occupancy, use, or enjoyment of the Land;
   (b) the character, dimensions, or location of any improvement erected on the Land;
   (c) the subdivision of land; or
   (d) environmental protection

   if a notice, describing any part of the Land, is recorded in the Public Records setting forth the violation or intention to enforce, but only to the extent of the violation or enforcement referred to in that notice.
6. An enforcement action based on the exercise of a governmental police power not covered by Covered Risk 5 if a notice of the enforcement action, describing any part of the Land, is recorded in the Public Records, but only to the extent of the enforcement referred to in that notice.
7. The exercise of the rights of eminent domain if a notice of the exercise, describing any part of the Land, is recorded in the Public Records.
8. Any taking by a governmental body that has occurred and is binding on the rights of a purchaser for value without Knowledge.
9. Title being vested other than as stated in Schedule A or being defective
   (a) as a result of the avoidance in whole or in part, or from a court order providing an alternative remedy, of a transfer of all or any part of the title to or any interest in the Land occurring prior to the transaction vesting Title as shown in Schedule A because that prior transfer constituted a fraudulent or preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws; or
   (b) because the instrument of transfer vesting Title as shown in Schedule A constitutes a preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws by reason of the failure of its recording in the Public Records
      (i) to be timely, or
      (ii) to impart notice of its existence to a purchaser for value or to a judgment or lien creditor.
10. Any defect in or lien or encumbrance on the Title or other matter included in Covered Risks 1 through 9 that has been created or attached or has been filed or recorded in the Public Records subsequent to Date of Policy and prior to the recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The Company will also pay the costs, attorneys' fees, and expenses incurred in defense of any matter insured against by this Policy, but only to the extent provided in the Conditions.

IN WITNESS WHEREOF, the Company has caused this Policy to be signed with the facsimile signatures of its President and Secretary and sealed as required by its By-Laws.

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

CONDITIONS

1 DEFINITION OF TERMS

The following terms when used in this policy mean:

(a) "Amount of Insurance": The amount stated in Schedule A, as may be increased or decreased by endorsement to this policy, increased by Section 8(b), or decreased by Sections 10 and 11 of these Conditions.

(b) "Date of Policy": The date designated as "Date of Policy" in Schedule A.

(c) "Entity": A corporation, partnership, trust, limited liability company, or other similar legal entity.

(d) "Insured": The Insured named in Schedule A.

(i) The term "Insured" also includes

(A) successors to the Title of the Insured by operation of law as distinguished from purchase, including heirs, devisees, survivors, personal representatives, or next of kin;

(B) successors to an Insured by dissolution, merger, consolidation, distribution, or reorganization;

(C) successors to an Insured by its conversion to another kind of Entity;

(D) a grantee of an Insured under a deed delivered without payment of actual valuable consideration conveying the Title

(1) if the stock, shares, memberships, or other equity interests of the grantee are wholly-owned by the named Insured,

(2) if the grantee wholly owns the named Insured,

(3) if the grantee is wholly-owned by an affiliated Entity of the named Insured, provided the affiliated Entity and the named Insured are both wholly-owned by the same person or Entity, or

(4) if the grantee is a trustee or beneficiary of a trust created by a written instrument established by the Insured named in Schedule A for estate planning purposes.

(ii) With regard to (A), (B), (C), and (D) reserving, however, all rights and defenses as to any successor that the Company would have had against any predecessor Insured.

(e) "Insured Claimant": An Insured claiming loss or damage.

(f) "Knowledge" or "Known": Actual knowledge, not constructive knowledge or notice that may be imputed to an Insured by reason of the Public Records or any other records that impart constructive notice of matters affecting the Title.

(g) "Land": The land described in Schedule A, and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is insured by this policy.

(h) "Mortgage": Mortgage, deed of trust, trust deed, or other security instrument, including one evidenced by electronic means authorized by law.

(i) "Public Records": Records established under state statutes at Date of Policy for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge. With respect to Covered Risk 5(d), "Public Records" shall also include environmental protection liens filed in the records of the clerk of the United States District Court for the district where the Land is located.

(j) "Title": The estate or interest described in Schedule A.

(k) "Unmarketable Title": Title affected by an alleged or apparent matter that would permit a prospective purchaser or lessee of the Title or lender on the Title to be released from the obligation to purchase, lease, or lend if there is a contractual condition requiring the delivery of marketable title.

2. CONTINUATION OF INSURANCE

The coverage of this policy shall continue in force as of Date of Policy in favor of an Insured, but only so long as the Insured retains an estate or interest in the Land, or holds an obligation secured by a purchase money Mortgage given by a purchaser from the Insured, or only so long as the Insured shall have liability by reason of warranties in any transfer or conveyance of the Title. This policy shall not continue in force in favor of any purchaser from the Insured of either (i) an estate or interest in the Land, or (ii) an obligation secured by a purchase money Mortgage given to the Insured.

3. NOTICE OF CLAIM TO BE GIVEN BY INSURED CLAIMANT

The Insured shall notify the Company promptly in writing (i) in case of any litigation as set forth in Section 5(a) of these Conditions, (ii) in case Knowledge shall come to an Insured hereunder of any claim of title or interest that is adverse to the Title, as insured, and that might cause loss or damage for which the Company may be liable by virtue of this policy, or (iii) if the Title, as insured, is rejected as Unmarketable Title. If the Company is prejudiced by the failure of the Insured Claimant to provide prompt notice, the Company's

liability to the Insured Claimant under the policy shall be reduced to the extent of the prejudice.

4. PROOF OF LOSS

In the event the Company is unable to determine the amount of loss or damage, the Company may, at its option, require as a condition of payment that the Insured Claimant furnish a signed proof of loss. The proof of loss must describe the defect, lien, encumbrance, or other matter insured against by this policy that constitutes the basis of loss or damage and shall state, to the extent possible, the basis of calculating the amount of the loss or damage.

5. DEFENSE AND PROSECUTION OF ACTIONS

(a) Upon written request by the Insured, and subject to the options contained in Section 7 of these Conditions, the Company, at its own cost and without unreasonable delay, shall provide for the defense of an Insured in litigation in which any third party asserts a claim covered by this policy adverse to the Insured. This obligation is limited to only those stated causes of action alleging matters insured against by this policy. The Company shall have the right to select counsel of its choice (subject to the right of the Insured to object for reasonable cause) to represent the Insured as to those stated causes of action. It shall not be liable for and will not pay the fees of any other counsel. The Company will not pay any fees, costs, or expenses incurred by the Insured in the defense of those causes of action that allege matters not insured against by this policy.

(b) The Company shall have the right, in addition to the options contained in Section 7 of these Conditions, at its own cost, to institute and prosecute any action or proceeding or to do any other act that in its opinion may be necessary or desirable to establish the Title, as insured, or to prevent or reduce loss or damage to the Insured. The Company may take any appropriate action under the terms of this policy, whether or not it shall be liable to the Insured. The exercise of these rights shall not be an admission of liability or waiver of any provision of this policy. If the Company exercises its rights under this subsection, it must do so diligently.

(c) Whenever the Company brings an action or asserts a defense as required or permitted by this policy, the Company may pursue the litigation to a final determination by a court of competent jurisdiction, and it expressly reserves the right, in its sole discretion, to appeal any adverse judgment or order.

6. DUTY OF INSURED CLAIMANT TO COOPERATE

(a) In all cases where this policy permits or requires the Company to prosecute or provide for the defense of any action or proceeding and any appeals, the Insured shall secure to the Company the right to so prosecute or provide defense in the action or proceeding, including the right to use, at its option, the name of the Insured for this purpose. Whenever requested by the Company, the Insured, at the Company's expense, shall give the Company all reasonable aid (i) in securing evidence, obtaining witnesses, prosecuting or defending the action or proceeding, or effecting settlement, and (ii) in any other lawful act that in the opinion of the Company may be necessary or desirable to establish the Title or any other matter as insured. If the Company is prejudiced by the failure of the Insured to furnish the required cooperation, the Company's obligations to the Insured under the policy shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation, with regard to the matter or matters requiring such cooperation.

(b) The Company may reasonably require the Insured Claimant to submit to examination under oath by any authorized representative of the Company and to produce for examination, inspection, and copying, at such reasonable times and places as may be designated by the authorized representative of the Company, all records, in whatever medium maintained, including books, ledgers, checks, memoranda, correspondence, reports, e-mails, disks, tapes, and videos whether bearing a date before or after Date of Policy, that reasonably pertain to the loss or damage. Further, if requested by any authorized representative of the Company, the Insured Claimant shall grant its permission, in writing, for any authorized representative of the Company to examine, inspect, and copy all of these records in the custody or control of a third party that reasonably pertain to the loss or damage. All information designated as confidential by the Insured Claimant provided to the Company pursuant to this Section shall not be disclosed to others unless, in the reasonable judgment of the Company, it is necessary in the administration of the claim. Failure of the Insured Claimant to submit for examination under oath, produce any reasonably requested information, or grant permission to secure reasonably necessary information from third parties as required in this subsection, unless prohibited by law or governmental regulation, shall terminate any liability of the Company under this policy as to that claim.

7. OPTIONS TO PAY OR OTHERWISE SETTLE CLAIMS; TERMINATION OF LIABILITY

In case of a claim under this policy, the Company shall have the following additional options:

(a) To Pay or Tender Payment of the Amount of Insurance.

To pay or tender payment of the Amount of Insurance under this policy together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment or tender of payment and that the Company is obligated to pay.

Upon the exercise by the Company of this option, all liability and obligations of the Company to the Insured under this policy, other than to make the payment required in this subsection, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

(b) To Pay or Otherwise Settle With Parties Other Than the Insured or With the Insured Claimant.

(i) To pay or otherwise settle with other parties for or in the name of an Insured Claimant any claim insured against under this policy. In addition, the Company will pay any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay; or

(ii) To pay or otherwise settle with the Insured Claimant the loss or damage provided for under this policy, together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay.

Upon the exercise by the Company of either of the options provided for in subsections (b)(i) or (ii), the Company's obligations to the Insured under this policy for the claimed loss or damage, other than the payments required to be made, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

8. DETERMINATION AND EXTENT OF LIABILITY

This policy is a contract of indemnity against actual monetary loss or damage sustained or incurred by the Insured Claimant who has suffered loss or damage by reason of matters insured against by this policy.

(a) The extent of liability of the Company for loss or damage under this policy shall not exceed the lesser of

(i) the Amount of Insurance; or

(ii) the difference between the value of the Title as insured and the value of the Title subject to the risk insured against by this policy.

(b) If the Company pursues its rights under Section 5 of these Conditions and is unsuccessful in establishing the Title, as insured,

(i) the Amount of Insurance shall be increased by 10%, and

(ii) the Insured Claimant shall have the right to have the loss or damage determined either as of the date the claim was made by the Insured Claimant or as of the date it is settled and paid.

(c) In addition to the extent of liability under (a) and (b), the Company will also pay those costs, attorneys' fees, and expenses incurred in accordance with Sections 5 and 7 of these Conditions.

9. LIMITATION OF LIABILITY

(a) If the Company establishes the Title, or removes the alleged defect, lien, or encumbrance, or cures the lack of a right of access to or from the Land, or cures the claim of Unmarketable Title, all as insured, in a reasonably diligent manner by any method, including litigation and the completion of any appeals, it shall have fully performed its obligations with respect to that matter and shall not be liable for any loss or damage caused to the Insured.

(b) In the event of any litigation, including litigation by the Company or with the Company's consent, the Company shall have no liability for loss or damage until there has been a final

determination by a court of competent jurisdiction, and disposition of all appeals, adverse to the Title, as insured.

(c) The Company shall not be liable for loss or damage to the Insured for liability voluntarily assumed by the Insured in settling any claim or suit without the prior written consent of the Company.

10. REDUCTION OF INSURANCE; REDUCTION OR TERMINATION OF LIABILITY

All payments under this policy, except payments made for costs, attorneys' fees, and expenses, shall reduce the Amount of Insurance by the amount of the payment.

11. LIABILITY NONCUMULATIVE

The Amount of Insurance shall be reduced by any amount the Company pays under any policy insuring a Mortgage to which exception is taken in Schedule B or to which the Insured has agreed, assumed, or taken subject, or which is executed by an Insured after Date of Policy and which is a charge or lien on the Title, and the amount so paid shall be deemed a payment to the Insured under this policy.

12. PAYMENT OF LOSS

When liability and the extent of loss or damage have been definitely fixed in accordance with these Conditions, the payment shall be made within 30 days.

13. RIGHTS OF RECOVERY UPON PAYMENT OR SETTLEMENT

(a) Whenever the Company shall have settled and paid a claim under this policy, it shall be subrogated and entitled to the rights of the Insured Claimant in the Title and all other rights and remedies in respect to the claim that the Insured Claimant has against any person or property, to the extent of the amount of any loss, costs, attorneys' fees, and expenses paid by the Company. If requested by the Company, the Insured Claimant shall execute documents to evidence the transfer to the Company of these rights and remedies. The Insured Claimant shall permit the Company to sue, compromise, or settle in the name of the Insured Claimant and to use the name of the Insured Claimant in any transaction or litigation involving these rights and remedies.

If a payment on account of a claim does not fully cover the loss of the Insured Claimant, the Company shall defer the exercise of its right to recover until after the Insured Claimant shall have recovered its loss.

(b) The Company's right of subrogation includes the rights of the Insured to indemnities, guaranties, other policies of insurance, or bonds, notwithstanding any terms or conditions contained in those instruments that address subrogation rights.

14. ARBITRATION

Either the Company or the Insured may demand that the claim or controversy shall be submitted to arbitration pursuant to the Title Insurance Arbitration Rules of the American Land Title Association ("Rules"). Except as provided in the Rules, there shall be no joinder or consolidation with claims or controversies of other persons. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the Insured arising out of or relating to this policy, any service in connection with its issuance or the breach of a policy provision, or to any other controversy or claim arising out of the transaction giving rise to this policy. All arbitrable matters when the Amount of Insurance is $2,000,000 or less shall be arbitrated at the option of either the Company or the Insured. All arbitrable matters when the Amount of Insurance is in excess of $2,000,000 shall be arbitrated only when agreed to by both the Company and the Insured. Arbitration pursuant to this policy and under the Rules shall be binding upon the parties. Judgment upon the award rendered by the Arbitrator(s) may be entered in any court of competent jurisdiction.

15. LIABILITY LIMITED TO THIS POLICY; POLICY ENTIRE CONTRACT

(a) This policy together with all endorsements, if any, attached to it by the Company is the entire policy and contract between the Insured and the Company. In interpreting any provision of this policy, this policy shall be construed as a whole.

(b) Any claim of loss or damage that arises out of the status of the Title or by any action asserting such claim shall be restricted to this policy.

(c) Any amendment of or endorsement to this policy must be in writing and authenticated by an authorized person, or expressly incorporated by Schedule A of this policy.

(d) Each endorsement to this policy issued at any time is made a part of this policy and is subject to all of its terms and provisions. Except as the endorsement expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsement, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance.

16. SEVERABILITY

In the event any provision of this policy, in whole or in part, is held invalid or unenforceable under applicable law, the policy shall be deemed not to include that provision or such part held to be invalid, but all other provisions shall remain in full force and effect.

17. CHOICE OF LAW; FORUM

(a) Choice of Law: The Insured acknowledges the Company has underwritten the risks covered by this policy and determined the premium charged therefor in reliance upon the law affecting interests in real property and applicable to the interpretation, rights, remedies, or enforcement of policies of title insurance of the jurisdiction where the Land is located.

Therefore, the court or an arbitrator shall apply the law of the jurisdiction where the Land is located to determine the validity of claims against the Title that are adverse to the Insured and to interpret and enforce the terms of this policy. In neither case shall the court or arbitrator apply its conflicts of law principles to determine the applicable law.

(b) Choice of Forum: Any litigation or other proceeding brought by the Insured against the Company must be filed only in a state or federal court within the United States of America or its territories having appropriate jurisdiction.

18. NOTICES, WHERE SENT

Any notice of claim and any other notice or statement in writing required to be given to the Company under this Policy must be given to the Company at: Consumer Affairs Department PO Box 27567 Richmond, Virginia 23261-7567.

THANK YOU.

Title insurance provides for the protection of your real estate investment. We suggest you keep this policy in a safe place where it can be readily available for future reference.

If you have questions about title insurance or the coverage provided by this policy, contact the office that issued this policy, or you may call or write:

SCHEDULE B

FILE NUMBER	POLICY NUMBER
AGM06GEFWW	C30-Z021711

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of the following:

1. Taxes assessed as of January 1, 2007, for the fiscal period beginning July 1, 2007, which are not yet due and payable, and for subsequent years.

   NOTE: This policy insures that the estimated quarterly taxes are paid through September 30, 2007.

2. Riparian rights of others.

3. A grant of flowage rights from John Todd to Thomas F. Plunkett, dated April 20, 1849, and recorded in the Berkshire Middle District Registry of Deeds in Book 130, Page 401.

   NOTE: The above encumbrance was terminated by instrument recorded in the Berkshire Middle District Registry of Deeds in Book 3156, Page 211. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 6187. This policy affirmatively insures that this encumbrance has been terminated and is of no further force and effect and unenforceable.

NOTE: This policy omits any covenants, condition or restriction referred to above, if any, which is based on race, color, religion, sex, handicap, familial status or national origin, unless and only to the extent that the restriction is not in violation of state or federal law, or relates to a handicap, but does not discriminate against handicapped people.

EXHIBIT A
Description of Insured Premises
Tax Parcel No. J9-23-23

Parcel 1:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point in the northerly sideline of Newell Street, said point being the southwest corner of the parcel herein described and is also located N 64° 15' E a distance of 54.82 feet from a stone monument in the northerly line of Newell Street;

Running thence N 21° 50' 00" W a distance of 423.98 feet to a point marking the northwest corner of said parcel;

Running thence N 69° 42' E a distance of 80.00 feet to the northeast corner of said parcel;

Running thence S 24° 33' 53" E a distance of 215.45 feet to a point;

Running thence S 64° 15' W a distance of 10.00 feet to a point;

Running thence S 24° 33' 53" E a distance of 200.00 feet to the southeast corner of the parcel herein described in the northerly sideline of Newell Street;

Running thence S 64° 15' W a distance of 90.00 feet along the supposed northerly line of Newell Street to the point of beginning.

The parcel above described is more particularly shown as Lot B-15 on Land Court Plan No. 8372-I.

Excepting any and all interest of the grantor in Newell Street.

Parcel 2:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at the northwest corner of the parcel herein described, said point is also the northeast corner of Parcel 1 herein described;

Running thence N 69° 42' E a distance of 40.00 feet to a point;

Running thence N 75° 24' 40" E a distance of 82.06 feet to the northeast corner of the parcel herein described to a point;

Running thence S 64° 15' W a distance of 44.35 feet to a point;

Running thence S 27° 59' E a distance of 195.89 feet to the southeast corner of the parcel herein described to a point;

Running thence S 64° 15' W a distance of 92.20 feet to the point of beginning.

The parcel above described is more particularly shown as Lot B-13 on Land Court Plan No. 8372-I.

Note: The above described parcels shown as Lots B-13 and B-15 on Land Court Plan No. 8372-I are also shown on the plan entitled "Sketch Plan Showing Lots B13 and B15 on Land Court Plan No. 8372-I" ("Sketch Plan"), dated June 25, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which plan is attached as Exhibit B to the Grant of Environmental Restriction and Easement referenced in Schedule A, No. 2 of this Policy. Both plans depict the same parcel. The property boundary line dimensions shown above are based on Land Court Plan No. 8372-I. Those shown on the Sketch Plan are the result of an on-the-ground retracement survey of the lines shown on said Land Court Plan. The bearings shown on the Sketch Plan are rotated -11°25'29" from the meridian of said Land Court Plan. Any differences between the distances shown above and those shown on the Sketch Plan are the result of the retracement survey of the lines shown on said Land Court Plan and are within the expected measurement tolerances which exist between the two surveys.

Appendix I-4 – Riparian Strip

Grant of Environmental Restriction and Easement – July 12, 2007

GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT
42 U.S.C. § 9601 *et seq.*, and M.G.L. c. 21E, § 6.

[Note: This instrument is established as an institutional control for a federal Superfund Removal Site, pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604.]

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD440

This GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT (the "Grant") is made as of this 12th day of July, 2007, by the General Electric Company ("Grantor"), a corporation organized and existing under the laws of the State of New York, duly authorized to do business in Massachusetts, with a principal office in Pittsfield, Berkshire County, Massachusetts.

WITNESSETH:

WHEREAS, Grantor is the owner in fee simple of certain parcels of land located adjacent to the Housatonic River in Pittsfield, Berkshire County, Massachusetts, with any buildings and improvements thereon, as evidenced by the following Certificates of Title in the Land Court records of the Berkshire County Land Registration Office: Certificate of Title No. 1105 in Book 6, Page 417; Certificate of Title No. 3699 in Book 17, Page 767; and Certificate of Title No. 4558 in Book 20, Page 605;

WHEREAS, said parcels of land are known and/or numbered as Lot A on Plan 8372B (a copy of a portion of which is filed with Certificate of Title No. 1105) and Lots 3 and 4 on Plan 8372K (a copy of a portion of which is filed with Certificate of Title No. 3288), all as registered in the Berkshire County Land Registration Office;

WHEREAS, portions of said parcels of land, which portions are more particularly bounded and described in Exhibit A attached hereto and made a part hereof (hereinafter collectively the "Property"), are subject to this Grant. The Property is shown on a plan entitled "Sketch Plan Showing the Property Subject to Grant of Environmental Restriction and Easement" ("Sketch Plan"), dated July 3, 2007, and consisting of one sheet, which is attached hereto as Exhibit B and made a part hereof and was also separately recorded in the Berkshire Middle District Registry of Deeds on September 26, , 2007, in Plat H , No. 313 ;

WHEREAS, the Property and certain restricted areas of the Property referred to as the Open Soil/Vegetated Area and the Groundwater Response Action Component Area (if any such area is established in the future), as defined below (jointly, the foregoing restricted areas comprising the "Restricted Area"), are subject to covenants, restrictions, easements and other rights and obligations under this Grant; the Restricted Area being shown on the above-referenced Sketch Plan; as such plan may be revised by Grantor (or, by the General Electric Company

LAND COURT DOCUMENT # 35072
PAGE 1 OF 37

("GE"), if GE is no longer the Grantor, with notice to Grantor), with the approval of Grantee and in accordance with the Consent Decree and the Statement of Work attached thereto (as defined below), to show the location of any Groundwater Response Action Component Area (to the extent that any such response action to address groundwater contamination at the Site has not been completed as of the date of this instrument); said plan, with any such revision, being collectively referred to herein as the "Plan of Restricted Area";

WHEREAS, the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, a duly constituted agency organized under the laws of the United States of America and having a regional office at One Congress Street, Boston, Massachusetts 02114 ("EPA"), has identified a site, comprised of the GE facility in Pittsfield, Massachusetts, the Housatonic River adjacent to and downstream of the GE facility, and other areas, all as more particularly described in the Consent Decree (defined below), known as the "GE-Pittsfield/Housatonic River Site" (the "Site"), as a result of the release of hazardous substances at or from the GE facility, as such terms are defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9601 et seq.;

WHEREAS, the MASSACHUSETTS DEPARTMENT OF ENVIRONMENTAL PROTECTION, a duly constituted agency organized under the laws of the Commonwealth of Massachusetts and having an office at One Winter Street, Boston, MA 02108 ("DEP"), as a result of the release of oil and/or hazardous materials at the Site, as those terms are defined in the Massachusetts Oil and Hazardous Materials Release, Prevention and Response Act, M.G.L. c. 21E ("Chapter 21E"), has placed the Site and/or portions of the Site on the Massachusetts List of Confirmed Disposal Sites and Locations To Be Investigated, pursuant to Chapter 21E, and has assigned to the portion of the Site containing the Property DEP Disposal Site Number GECD440 pursuant thereto;

WHEREAS, EPA regulates activities at hazardous substance disposal sites pursuant to CERCLA and the National Contingency Plan, 40 C.F.R. 300.400, *et seq.*, as amended (the "NCP"), and DEP regulates activities at disposal sites pursuant to Chapter 21E and the Massachusetts Contingency Plan, 310 C.M.R. 40.0000, as amended (the "MCP"), respectively;

WHEREAS, the Property is situated within the Site and specifically within an area of the Site known as Newell Street Area I;

WHEREAS, GE has entered into a Consent Decree in connection with the Site with the United States, the State of Connecticut, and the Commonwealth of Massachusetts (the "Commonwealth") in United States of America, State of Connecticut, and Commonwealth of Massachusetts v. General Electric Company, Civil Action No. 99-30225-MAP et seq., entered by the United States District Court for the District of Massachusetts on October 27, 2000 (the "Consent Decree");

WHEREAS, the Consent Decree and an accompanying Statement of Work ("SOW") require the performance of certain Response Actions (as defined below) at the Site or portions thereof;

LAND COURT DOCUMENT # 35072
PAGE 2 OF 37

WHEREAS, the Response Actions are ongoing at the Site and include Response Actions at the Property;

WHEREAS, EPA has determined and the Consent Decree requires that certain easements, rights, obligations, covenants, and restrictions, as more particularly set forth below, are necessary at the Property to conduct and ensure the protectiveness and integrity of the Response Actions;

WHEREAS, DEP has provided EPA with review and comment on the Response Actions, and agrees with the need for easements, rights, obligations, covenants, and restrictions, as aforesaid;

WHEREAS, because the Response Actions, as they affect the Property, are a Removal Action under CERCLA, EPA has requested that DEP accept a grant of such easements, rights, obligations, covenants, and restrictions, as aforesaid, pursuant to its authority under M.G.L. c. 21E, § 6;

WHEREAS, Grantor has agreed to grant the aforesaid easements, rights, obligations, covenants and restrictions, as more particularly set forth below, to DEP and its assigns pursuant to the Consent Decree;

NOW, THEREFORE, pursuant to the terms of the Consent Decree and in consideration of EPA's and the Commonwealth's agreement on behalf of DEP to settle certain of their claims against Grantor pursuant thereto, the receipt and sufficiency of which consideration is hereby acknowledged, GRANTOR does hereby COVENANT AND DECLARE that the Property shall be subject to the restrictions on activity and use set forth below, and does GIVE, GRANT AND CONVEY to DEP ("Grantee"), with QUITCLAIM COVENANTS, (1) the perpetual right to enforce said activity and use restrictions, and (2) an environmental protection and access easement of the nature and character, and for the purposes hereinafter set forth, with respect to the Property (collectively, the "Environmental Restriction and Easement").

Said Environmental Restriction and Easement is subject to the following terms and conditions:

1. Purpose. It is the purpose of this instrument to establish covenants, restrictions and easements, all of which shall run with the land, to facilitate the cleanup of environmental contamination and to protect human health and the environment by reducing the risk of exposure to contaminants.

2. Definitions. For purposes of this instrument, the following terms shall have the following meanings:

A. "Grantor" includes the Grantor or any successor of Grantor in title to the Property.

LAND COURT DOCUMENT # 35072
PAGE 3 OF 37

B. "Groundwater Response Action Component Area" shall mean those areas of the Property (if any) designated as such on the Plan of Restricted Area; generally such areas contain components of the response action for groundwater at the Property, if any.

C. "Health and Safety Protocol" shall mean the Health and Safety Protocol attached hereto as Exhibit C and incorporated herein by reference.

D. "Licensed Site Professional" or "LSP" each shall mean a hazardous waste site cleanup professional, as defined in M.G.L. c. 21A, § 19, holding a valid license issued by the Board of Registration of Hazardous Waste Site Cleanup Professionals, pursuant to M.G.L. c. 21A, §§ 19 through 19J.

E. "Open Soil/Vegetated Area" shall mean the entire area of the Property, as shown on the Plan of Restricted Area;

F. "Recorded and/or Registered" and its various conjugations shall mean, as to unregistered land, recorded with the Berkshire Middle District Registry of Deeds, and as to registered land, filed with the Berkshire County Land Registration Office; each conjugated as appropriate;

G. "Response Actions" shall mean the environmental response actions required to be undertaken at the Site or portions thereof pursuant to the Consent Decree and SOW (designated as Removal Actions under CERCLA), including (but not limited to) source control measures, soil removal, capping of contaminated soil, groundwater monitoring and (if necessary) response actions to address groundwater contamination, other actions to address existing contamination, institutional controls in the nature of restrictive covenants to prevent certain activities and uses at various properties, and certain operation and maintenance activities necessary to maintain the effectiveness of the response actions.

H. "Soil Management Protocol" shall mean the Soil Management Protocol attached hereto as Exhibit D and incorporated herein by reference.

I. "Statement of Work" or "SOW" shall mean the Statement of Work for Removal Actions Outside the River, which is Appendix E of the Consent Decree.

J. "Utility Work" shall mean the maintenance and repair of pipes, lines and other such conveyances for water, sewer, storm-water, steam, gas, fuel oil, electricity, and communications, but not the installation of new pipes, lines, or other such conveyances.

3. Restricted Activities and Uses. Except as provided in Paragraph 4 ("Permitted Activities and Uses"), Paragraph 6 ("Conditional Exceptions From Restricted Activities and Uses"), Paragraph 7 ("Applicability"), and/or Paragraph 8 ("Emergency Excavation"), Grantor shall not perform, suffer, allow or cause any person to perform any of the following activities or uses in, on, upon, through, over or under the Property or portions thereof:

LAND COURT DOCUMENT # 35022
PAGE 4 OF 37

A. residential activity or use;

B. day care and educational (for children under eighteen (18) years of age) activity or use;

C. agricultural activity or use;

D. extraction, consumption, or utilization of groundwater underlying the Property, including without limitation, extraction for potable, industrial, irrigation, or agricultural use;

E. excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and

F. any activity or use that would interfere with, or would be reasonably likely to interfere with, the implementation, operation, or maintenance of any aspect or component of the Response Actions already constructed or under construction, or of which Grantor has notice, including without limitation, interference with any groundwater contaminant containment measures or barriers situated within the Groundwater Response Action Component Area (if any) or any groundwater monitoring wells.

4. Permitted Activities and Uses. Grantor reserves the right to perform, suffer, allow or to cause any person to perform any activity in, on, upon, through, over or under the Property, or make any use of the Property, that is not restricted by the provisions of this Environmental Restriction and Easement. In addition, Grantor may perform, suffer, allow or cause any person to perform the uses and activities set forth below in, on, upon, through, over or under the Property or portions thereof. Except for the permitted activities and uses allowed pursuant to subparagraphs 4.A and 4.B below, and except as otherwise provided in subparagraph 4.E below, all such activities and uses shall only be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol, as applicable, as set forth below. Grantor shall restore the Property, or any portion thereof, affected by any activity or use permitted under subparagraphs 4.A through 4.E to its prior condition immediately upon completion of such activity or use, also in accordance with the Soil Management Protocol and the Health and Safety Protocol (except for permitted activities and uses allowed pursuant to subparagraph 4.A and 4.B and except as otherwise provided in subparagraph 4.E below).

A. Surface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil, solely within the top one (1) foot of the surface of the ground, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.A. In conducting activities and uses pursuant to this subparagraph, Grantor shall comply with the following requirements:

LAND COURT DOCUMENT # 35072
PAGE 5 OF 37

i. Such surface excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation or storage shall not exceed fourteen (14) days.

ii. Grantor shall take appropriate measures to secure stored soil and to control erosion, dust, and runoff.

iii. Grantor shall (a) backfill excavations to the original surface grade with clean soil or with soil excavated from the Property solely from the top one (1) foot of the surface of the ground; and (b) reestablish any disturbed vegetation.

iv. Grantor shall provide Grantee with written notice of each such surface excavation project no later than thirty (30) days after completion, and shall use the form attached hereto as Exhibit E for such notice, as such form may be modified in writing from time to time by Grantee; provided, however, that any such project where the total amount of soil that has been or will be excavated is less than five (5) cubic feet shall not be subject to the foregoing notification requirement.

v. Grantor shall not store or dispose of any excavated material outside of the Property.

B. Surface Excavation of any Volume. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil, solely within the top one (1) foot of the surface of the ground, of any volume of such materials shall be permitted. In conducting work pursuant to this subparagraph, Grantor shall comply with the requirements listed above in subparagraphs 4.A.i through 4.A.iv, and the following additional requirements:

i. Grantor shall utilize an LSP to oversee the surface excavation permitted pursuant to this subparagraph.

ii. Disposal of excavated materials off of the Property shall be permitted provided that an LSP oversees such disposal and that the Grantor complies with the provisions of Paragraph 9 of the Soil Management Protocol regarding off-Property disposal of soil and other materials.

C. Surface and/or Subsurface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil, at any depth, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.C. In conducting work pursuant to this subparagraph, Grantor shall comply with the following requirements:

LAND COURT DOCUMENT # 35072
PAGE 6 OF 37

i. Grantor shall utilize an LSP to oversee the excavation permitted pursuant to this subparagraph, including without limitation, the disposal of soil and other material. All activities and uses permitted pursuant to this subparagraph shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol.

ii. Such excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit E for such notice, as such form may be modified in writing from time to time by Grantee.

D. Surface and/or Subsurface Excavation for Utility Work. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of surface of the ground and/or the underlying soil, at any depth, for the purpose of Utility Work, shall be permitted. In conducting Utility Work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. All such Utility Work shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. Grantor shall utilize an LSP to oversee all such activities and uses, including without limitation, the disposal of soil and other materials.

ii. Such Utility Work shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

LAND COURT DOCUMENT # 35072
PAGE 7 OF 37

iii. Grantor shall give Grantee fifteen (15) days' advance written notice prior to conducting any activities and uses pursuant to this subparagraph 4.D.

iv. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit E for such notice, as such form may be modified in writing from time to time by Grantee.

E. Sampling. Notwithstanding the restrictions set forth in subparagraphs 3.D and 3.E, soil and groundwater sampling activities shall be permitted at the Property; provided that Grantor shall utilize an LSP to oversee such sampling; and further provided that all such activities and uses shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. While GE continues to own and control the Property, the foregoing requirements to utilize an LSP and to comply with the Soil Management Protocol shall not apply to soil or groundwater sampling activities conducted by or under the oversight of GE personnel or contractors familiar with the terms of this Grant and pursuant to a plan for sampling that takes into account contaminated media at the Property and has been approved by EPA or DEP, with notice to Grantee. The foregoing sentence shall run to the benefit of GE alone, not to any successors or assigns, and shall not run with the land.

F. All other restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall apply to the activities and uses permitted to this Paragraph 4 ("Permitted Activities and Uses").

5. Obligations and Conditions. Grantor affirmatively agrees that any utility repair, maintenance or installation conducted in confined spaces at the Property shall comply with the Health and Safety Protocol.

6. Conditional Exceptions from Restricted Activities and Uses. Grantor may request from Grantee a conditional exception from one or more of the restricted activities or uses set forth in Paragraph 3 ("Restricted Activities and Uses") for a particular proposed activity or use and any related work, which would otherwise temporarily violate such restriction(s). Such request shall be submitted to Grantee in accordance with and shall be subject to all of the following:

A. Submittal Requirements. All requests for conditional exceptions shall, at a minimum:

i. include a written description and/or plans of the proposed activity or use and other relevant information;

ii. identify the Restricted Area or types of restricted areas for which the conditional exception is requested;

iii. identify the specific restriction(s) from which the conditional exception is requested, and explain the need for the exception;

LAND COURT DOCUMENT # 350722
PAGE 8 OF 37

iv. state the duration of the activity or use and any related work for which the conditional exception is requested, including a proposed termination date for the conditional exception; and

v. if required pursuant to subparagraph 6.B, below, include (a) a determination by an appropriately trained and licensed professional, such as an LSP, that the proposed activity and use and any related work for which the conditional exception is requested would satisfy the human health and environmental risk standard set forth in subparagraph 6.C, and (b) supporting technical analysis upon which such determination is based.

B. Requirement to Use an Appropriately Trained and Licensed Professional; Request for Waiver. An appropriately trained and licensed professional, such as an LSP, shall make the risk determination required in subparagraph 6.A.v, unless waived by Grantee pursuant to this subparagraph 6.B. Grantor may request Grantee to waive such requirement, if appropriate under the circumstances, for example, if a particular proposed activity and use and any related work is de minimis. In the event of such a request or on its own initiative, Grantee, in its sole discretion, may waive such requirement taking into consideration the nature and scope of a particular proposed conditional exception request. Any such waiver must be in writing. A waiver for one conditional exception request shall not be deemed to be a waiver for any future conditional exception request.

C. Human Health and Environmental Risk Standard. Grantor shall demonstrate, in accordance with the procedures set forth in subparagraphs 6.A and 6.B, that the activity or use and any related work for which a particular conditional exception is requested would not result in an unacceptable risk to human health or the environment, pursuant to the criteria set forth at 40 C.F.R. § 300.430(e)(2)(i), as amended, or interfere with the integrity or effectiveness of the Response Actions. Such demonstration shall include, but not be limited to, consideration of the following factors, as applicable:

i. potential exposure to or release of hazardous substances;

ii. potential adverse impacts of the proposed activity or use on surface water runoff pathways;

iii. potential creation of pathways of contaminant migration;

iv. potential impact on groundwater and any nonaqueous-phase liquids (NAPL);

v. management plans for excavated contaminated materials, including handling and disposal;

vi. appropriate worker health and safety plans; and

LAND COURT DOCUMENT # 35072
PAGE 9 OF 37

vii. whether the proposed activity or use and any related work would interfere with the implementation, operation and/or maintenance of the Response Actions and if so, whether the proposed activity or use is necessary to reduce a threat to human health or the environment.

D. Other Relevant Considerations. In reviewing a proposed conditional exception request, Grantee may consider Grantor's financial and/or technical ability to perform the necessary response work in connection with such request. Grantee may also consider any other relevant matters related to the human health and environmental risk standard set forth in subparagraph 6.C, above.

E. Completeness Determination, Review and Response.

i. If Grantee determines that Grantor's conditional exception request is sufficient and complete for purposes of review, Grantee shall review such request. If necessary, Grantee may notify Grantor of any deficiencies in Grantor's request, and may provide Grantor with an opportunity to submit supplemental information.

ii. Except as provided for in subparagraph 6.G, Grantee, upon completion of its review of any conditional exception request, based upon whether the human health and environmental risk standard set forth in subparagraph 6.C would be satisfied, and upon the other relevant considerations set forth in subparagraph 6.D, shall determine whether the requested conditional exception is appropriate and, if so, shall issue the conditional exception. If Grantee determines that the requested conditional exception is not appropriate, then Grantee shall issue a written explanation. Grantee may condition its issuance of a conditional exception as appropriate, including without limitation, upon the results of future sampling and/or testing.

iii. All conditional exceptions must be in writing and signed by Grantee.

F. Interim and Closeout Report Requirements. During and/or upon completion of the activity or use and any related work for which the conditional exception was obtained, upon request by Grantee, Grantor shall submit a written report confirming that such activity or use and related work was or is being implemented in accordance with the conditional exception, including in accordance with the representations in Grantor's conditional exception request submittal regarding the requirements set forth in subparagraphs 6.C and 6.D. Such report shall be prepared and signed by an appropriately trained and licensed professional, such as an LSP, unless pursuant to subparagraph 6.B Grantee previously waived the requirement to include a risk determination and supporting technical analysis by such professional.

G. Applicability of Amendment Provision to Conditional Exception Requests. Any conditional exception request for an activity or use and any related work which, in the judgment of Grantee, would result in a permanent modification to an activity or use restriction established

LAND COURT DOCUMENT # 350722
PAGE 10 OF 37

in Paragraph 3 ("Restricted Activities and Uses"), including without limitation, to the boundary of the Restricted Area or any particular type of restricted area, shall require an amendment to this instrument in lieu of a conditional exception, in accordance with Paragraph 15 ("Amendment and Release").

7. **Applicability.** The restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall not apply to any response action undertaken by EPA or DEP, or their respective agents, representatives, contractors, subcontractors or employees, pursuant to CERCLA or Chapter 21E, and their respective implementing regulations. In addition, the restrictions set forth in subparagraphs 3.D through 3.F shall not apply to any of the following activities conducted by GE, or its employees, contractors, or subcontractors, pursuant to the Consent Decree and/or the SOW, as approved by EPA (which approval shall be after a reasonable opportunity for review and comment by DEP), for purposes of implementing or monitoring the Response Actions, provided that such activities do not permanently modify the boundary of the Restricted Area or of any particular type of restricted areas: soil or groundwater sampling; excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and/or groundwater extraction.

8. **Emergency Excavation.** If it becomes necessary to excavate a portion of the Property, as part of a response to an emergency (e.g., repair of utility lines or responding to fire or flood), any activity and use restriction provisions of Paragraph 3 ("Restricted Activities and Uses") above, which would otherwise restrict such excavation, shall be suspended with respect to such excavation for the duration of such emergency response, provided that Grantor:

A. Limits the actual disturbance involved in such excavation to the minimum reasonably necessary to adequately respond to the emergency;

B. Implements all measures necessary to limit actual or potential risk to the public health and environment arising from the emergency and the response thereto;

C. Undertakes precautions to minimize exposure of workers and neighbors of the Property to the hazardous substance or material; and

D. Utilizes an LSP (except as provided in the last sub-paragraph of this Paragraph 8) to oversee the implementation of the terms of this Paragraph 8 ("Emergency Excavation"), and to prepare and oversee the implementation of a written plan which, in said professional's opinion, will restore the Property to a condition consistent with its condition before the emergency excavation took place, with minimal disturbance of the contaminated soils; said plan to be subject to the Soil Management and the Health and Safety Protocols, as applicable; said plan to be promptly prepared and implemented; a copy of said plan to be submitted to EPA and DEP within ten (10) days of its performance, together with a completed Post-Work Notification Form, attached hereto as Exhibit E, with a statement from said LSP that the Property has been restored to said condition; provided, however, that in cases where only minimal excavation has occurred such that there has been no significant impact on the protectiveness of the Response Actions,

LAND COURT DOCUMENT # 35072
PAGE 11 OF 37

Grantor may request Grantee to allow the Grantor to prepare and submit the plan and statement, without utilizing the services of the otherwise required LSP.

In addition, Grantor shall notify EPA and the DEP Western Regional Office Emergency Response Section, or such other party as EPA or DEP may identify in writing to Grantor, of such emergency as soon as possible but no more than two (2) hours after having learned of such emergency.

The following provisions shall run to the benefit of GE alone, but not to any successor or assign, and shall not run with the land:

i. While GE continues to own and control the Property, to the extent that GE is unable practicably to utilize an LSP to oversee the implementation of this Paragraph 8 (as required by subparagraph 8.D, above) due to the time-critical nature of the emergency, GE may instead utilize a similarly trained and experienced GE employee during the emergency to satisfy said requirement, provided that such employee:

(a) is experienced in overseeing excavation and management of contaminated media;

(b) is familiar with health and safety considerations, including proper use of personal protective equipment;

(c) is familiar with regulatory requirements for sampling and management of hazardous material;

(d) is familiar with the relevant requirements of this Grant, the Consent Decree and the SOW; and

(e) has appropriate environmental science or engineering training and experience and other appropriate educational background.

ii. While GE continues to own and control the Property, GE may, at its option, utilize a consultant, under the supervision of an LSP, to prepare the above-described written plan (as required by subparagraph 8.D, above).

9. **Grant of Easements.** In establishing this Environmental Restriction and Easement, Grantor hereby grants the following easements for the term of this Grant to Grantee, its agents, representatives, contractors, subcontractors and employees:

A. An easement to pass and repass over the Property for the purpose of inspecting the Property to ensure compliance with and fulfillment of the terms of this Environmental Restriction and Easement; and

B. An easement in, on, upon, through, over and under the Property for the following purposes:

i. constructing, implementing, monitoring, and performing the Response Actions and operation and maintenance for the Response Actions;

ii. assessing the need for, planning, or implementing other response actions at the Site;

iii. verifying any data or information submitted to EPA or DEP;

iv. surveying and obtaining samples;

v. installing groundwater monitoring wells and extraction wells;

vi. conducting investigations relating to contamination at or near the Site; and

vii. determining whether additional activity or use restrictions are necessary.

10. Severability. Grantor agrees, in the event that a court or other tribunal determines that any provision of this instrument is invalid or unenforceable:

A. That any such provision shall be deemed to have been modified automatically to conform to the requirements for validity and enforceability as determined by such court or tribunal; or

B. That any such provision that, by its nature, cannot be so modified, shall be deemed deleted from this instrument as though it had never been included.

Such modifications and deletions shall be deemed effective as of the date of the determination of the court or other tribunal. In either case, the remaining provisions of this instrument shall remain in full force and effect.

11. Enforcement. Grantor expressly acknowledges that a violation of the terms of this instrument could result in the following:

A. The assessment of penalties and other action by DEP to enforce the terms of this Environmental Restriction and Easement, pursuant to Chapter 21E and the MCP; and/or

B. Upon a determination by a court of competent jurisdiction, the issuance of criminal and civil penalties, and/or equitable remedies, which could include the issuance of an order to (i) modify or remove any improvements constructed in violation of the terms of this Environmental Restriction and Easement at Grantor's sole cost and expense or (ii) to reimburse the Commonwealth and the United States for any costs incurred in modifying or removing any improvement constructed in violation of the terms of this Environmental Restriction and Easement.

LAND COURT DOCUMENT # 35072
PAGE 13 OF 37

12. **Provisions to Run With the Land.** The land use restrictions, obligations, and access rights provided herein establish certain rights, liabilities, agreements and obligations upon and subject to which the Property or any portion thereof, shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered, or conveyed. The rights, liabilities, agreements and obligations herein set forth shall run with the Property for the term of this instrument, as applicable thereto, and any portion thereof, and shall inure to the benefit of Grantee and its assigns and be binding upon Grantor and all parties claiming by, through or under Grantor. Grantor hereby covenants for himself and his executors, administrators, heirs, successors and assigns, to stand seized and hold title to the Property, or any portion thereof, subject to these land use restrictions, access rights, and other provisions of this Grant; provided, however, that a violation of these land use restrictions, access rights, and other provisions shall not result in a forfeiture or reversion of Grantor's title to the Property.

13. **Concurrence Presumed.** It is agreed that:

A. Grantor and all parties claiming by, through or under Grantor shall be deemed to be in accord with the provisions herein set forth; and

B. Grantor and all such parties agree for and among themselves and any party claiming by, through or under them, and their respective agents, contractors, sub-contractors and employees, that the land use restrictions and access rights herein established shall be adhered to and not violated and that their respective interests in the Property shall be subject to the provisions herein set forth.

14. **Incorporation into Deeds, Mortgages, Leases and Instruments of Transfer.** Grantor hereby agrees to incorporate this instrument, in full or by reference, into all deeds, easements, mortgages, leases, licenses, occupancy agreements or any other instrument of transfer by which an interest in and/or a right to use the Property, or any portion thereof, is conveyed; provided, however, that any failure of Grantor to do so shall not affect the validity or applicability of the provisions of Paragraph 12.

15. **Amendment and Release.**

A. Amendment at Grantee's Request.

i. Grantee may request Grantor to amend this instrument. Grantor hereby further agrees to execute any such amendment which Grantee reasonably deems necessary for the effective administration of this instrument; provided, however, that such amendment shall be limited to procedural matters hereunder. Accordingly, the foregoing obligation shall not obligate Grantor to impose additional substantive restrictions on the Property, beyond those listed in Paragraph 3 ("Restricted Activities and Uses"); nor to impose additional substantive limitations on the permitted activities and uses set forth in Paragraph 4 ("Permitted Activities and Uses"); nor to impose additional substantive obligations and conditions upon Grantor, beyond those set forth in Paragraph 5 ("Obligations and

LAND COURT DOCUMENT # 350702
PAGE 14 OF 37

Conditions"). All amendments shall include Grantee's signed approval and shall become effective upon Recordation and/or Registration.

ii. Notwithstanding the foregoing, if Grantor is not GE, Grantor expressly acknowledges and agrees that the within Grant includes the right of GE, in accordance with the Consent Decree, with notice to Grantor and written approval of Grantee, to Record and/or Register a revised Plan of Restricted Area indicating the location of any Groundwater Response Action Component Area and associated notice thereof. The Recordation and/or Registration of any such revised Plan of Restricted Area and associated notice thereof shall not be deemed an amendment to this Grant, but rather the exercise of rights established by, and effective upon the Recording and/or Registration of, this Grant.

B. Amendment at Grantor's Request. Grantor may amend this instrument only with the prior, written approval of the Grantee. Grantor may propose to Grantee an amendment of an activity or use restriction set forth in Paragraph 3 ("Restricted Activities and Uses") or of a permitted use set forth in Paragraph 4 ("Permitted Activities and Uses"), based upon changed circumstances, including, without limitation, new analytic and engineering data or a Grantor proposal to perform additional remediation at the Property. In the event that Grantor requests such an amendment, Grantor shall provide such information as Grantee may require for review of such a request, including without limitation, information that addresses the considerations set forth in Paragraph 6 ("Conditional Exceptions from Restricted Activities and Uses"), as applicable, and an explanation of the changed circumstances. If Grantee determines that any amendment to this Grant proposed by Grantor is not appropriate, then Grantee shall issue a written explanation.

C. Release. This instrument may be released, in whole or in part, by Grantee in Grantee's sole discretion, and in accordance with CERCLA, the NCP, Chapter 21E and the MCP, to the extent applicable. This instrument shall not be deemed released unless and until Grantee, its successors and assigns, and/or any other party claiming under Grantee, have released their respective interests. Said release shall become effective upon its Recordation and/or Registration.

D. Recordation and/or Registration. Grantor hereby agrees to Record and/or Register any amendment to and/or release of this instrument, and/or other document created pursuant to this instrument for which Recording and/or Registration is required, within thirty (30) days of the date of having received from Grantee any such amendment, release, and/or other document. No more than thirty (30) days from the date of Recording and/or Registration, Grantor shall provide to Grantee a certified Registry/Land Registration Office copy of the amendment, release, and/or other such document. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final recording and/or registration information for the amendment, release, and/or other such document, certified by said Registry/Land Registration Office. Grantor shall pay any and all recording fees, land transfer taxes and other such transaction costs associated with any such amendment, release, and/or other document. Grantor, if not GE, further agrees to cooperate with GE in the Recording and/or Registration of a revised Plan of Restricted Area, as described above, and any associated notice thereof.

LAND COURT DOCUMENT # 35072
PAGE 15 OF 37

E. Notice to Local Officials. Grantor further agrees to notify local officials and the public of the amendment or release in accordance with the requirements set forth in 310 C.M.R. 40.1403(7), as amended. A copy of said regulation is attached hereto as Exhibit F.

16. No Dedication Intended. Nothing herein set forth shall be construed to be a gift or dedication of the Property to Grantee, its assigns or to the general public for any purpose whatsoever.

17. Term. This instrument shall run with the land in perpetuity and is intended to conform to the exception for "other restrictions held by any governmental body" set forth in clause (c) of the first paragraph of M.G.L. c. 184, § 26, as amended.

18. Rights Reserved. It is expressly agreed that acceptance of this instrument by Grantee or its assignment shall not operate to bar, diminish, or in any way affect any legal or equitable right that Grantee or its assigns may otherwise have to issue any future order or take response action with respect to the Property or in any way affect any other claim, action, suit, cause of action, or demand which Grantee or its assigns may otherwise possess or hereafter acquire with respect thereto.

Nothing in this instrument shall limit or otherwise affect any rights that the United States or the Commonwealth may otherwise have to obtain access to, or restrict the use of, the Property pursuant to CERCLA, Chapter 21E, or any other applicable statute or regulation.

Nothing in this instrument shall waive such liability as Grantor may otherwise have for any release or any threat of a release of hazardous substances, oil or hazardous materials occurring as a result of Grantor's exercise of any of its rights hereunder, nor shall any provision of this instrument excuse compliance with CERCLA, Chapter 21E, or any other applicable federal, State or local laws, regulations or ordinances.

The rights reserved to Grantee in this Paragraph 18 ("Rights Reserved") shall be in addition to any rights reserved to Grantee elsewhere in this instrument.

19. Assignment. This instrument, including without limitation all easements, rights, covenants, obligations and restrictions inuring to the benefit of Grantee, herein contained, shall be assignable by Grantee, in whole or in part, at any time. This instrument may only be assigned to EPA, the City of Pittsfield, or any state or federal agency with at least statewide jurisdiction that has statutory authority to hold property interests and to administer or to enforce property restrictions such as this Environmental Restriction and Easement on behalf of the State or the United States, or to any other appropriate entity upon the mutual agreement of Grantee and Grantor. In the event of any assignment, Grantee shall notify Grantor by notice sent by first-class mail, postage prepaid, to Grantor's address.

20. Agency Review and Comment; Notice. Prior to responding to any request for approval or taking any other action pursuant to this instrument, Grantee shall first provide EPA

LAND COURT DOCUMENT # 35072
PAGE 16 OF 37

with a reasonable opportunity to review and comment upon the requested approval or proposed action. Grantor shall submit duplicate copies of any submissions or notices made to Grantee pursuant to this instrument to Grantee, with a copy to EPA, at the following addresses by first-class mail, postage prepaid:

A. to EPA:

U.S. Environmental Protection Agency
Office of Site Remediation and Restoration
One Congress Street,
Suite 1100 -- Mail Code HBT
Boston, MA 02114-2023
Attn: GE-Pittsfield/Housatonic River Site

B. to DEP:

Department of Environmental Protection
Western Regional Office
436 Dwight Street
Springfield, MA 01103;

and

Department of Environmental Protection
Bureau of Waste Site Cleanup
One Winter Street
Boston, MA 02108

C. or as otherwise provided in writing by EPA or DEP.

If GE is not the Grantor, Grantor shall submit any notices to GE made pursuant to this instrument to GE at the following address or such other address as provided in writing by GE, with a copy to Grantee and EPA.

General Electric Company
Corporate Environmental Programs
159 Plastics Avenue
Pittsfield, MA 01201

21. Effective Date. This instrument shall become effective upon its Registration.

No more than thirty (30) days from the date of Registration, Grantor shall provide Grantee with a certified Land Registration Office copy of this instrument. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final Registration information for this instrument, certified by said Land Registration Office.

As this instrument is granted to an agency of the Commonwealth of Massachusetts, no Massachusetts deed excise tax stamps are affixed hereto, none being required by law (M.G.L. Chapter 64D, Section 1, as amended).

WITNESS the execution hereof under seal this 12th day of July, 2007

GENERAL ELECTRIC COMPANY

By: Michael T. Carroll

Michael T. Carroll
Manager, Pittsfield Remediation Programs,
Corporate Environmental Programs

COMMONWEALTH OF MASSACHUSETTS

County of Berkshire, ss.

On this 12th day of July, 2007, before me, the undersigned notary public, personally appeared Michael T. Carroll, as Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the General Electric Company, a corporation, proved to me through satisfactory evidence of identification, which was MA Drivers Lic-se, to be the person whose name is signed on the preceding or attached document, and acknowledged to me that he signed it voluntarily for its stated purpose.

ANTHONY G. MASSIMIANO

GENERAL ELECTRIC COMPANY

Certificate of Authorization

I, Laurence J. Bird, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify resolutions of the Board of Directors of the Company.

2. The following is a true and correct excerpt of a Resolution #10855 duly adopted by the Board of Directors of the Company on April 26, 1988, as such Resolution was duly amended and restated by the Board of Directors of the Company on December 20, 1991 (as so amended and restated, the "Resolution") dealing with the execution of contracts and other instruments on behalf of the Company. The Resolution is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked:

"RESOLVED, that

(A) Any contract, lease license, assignment, bond or other obligation, conveyance, power of attorney, guarantee, proxy, court pleading, release, tax return and related documents, or other instruments may be executed on behalf of this Company by the Chairman of the Board, a Vice Chairman of the Board, an Executive Vice President, a Senior Vice President, a Vice President reporting directly to the Chairman or a Vice Chairman of the Board, the Comptroller, the Treasurer, the Secretary or any Vice President who is a corporate staff officer of the Company, all of the above named individuals being hereinafter called "Authorized Persons".

. . . .

(C) Each Authorized Person is hereby authorized to delegate to others authority to execute on behalf of the Company the following types of contracts and other instruments which relate to the function or component for which such Authorized Person is responsible:

. . . .

4. Contracts, leases, deeds, or other instruments relating to real property or to any improvements thereon."

IN WITNESS WHEREOF, the undersigned has executed the Certificate of Authorization as of this 24th day of July, 2007.

Laurence J. Bird, Attesting Secretary

GENERAL ELECTRIC COMPANY

Certificate of Incumbency

I, Laurence J. Bird, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify the incumbency of officers of the Company.

2. Stephen D. Ramsey is the duly qualified and appointed Vice President, Corporate Environmental Programs, of the Company, that he held that corporate staff office on April 10, 2003, and that he is an "Authorized Person" as defined in paragraph (A) of Resolution #10855 of the General Electric Board of Directors.

3. Attached as Exhibit 1 to this Certificate is a true and correct copy of a valid written delegation of authority dated February 7, 2003 by Stephen D. Ramsey, Vice President, Corporate Environmental Programs of the Company, to Michael T. Carroll, Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company. This written delegation is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked.

4. Michael T. Carroll is, and was on July 12, 2007 [date of execution] the duly qualified and appointed Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company.

IN WITNESS WHEREOF, the undersigned has executed this Certificate of Incumbency as of this 12th day of July, 2007.

Laurence J. Bird, Attesting Secretary

DELEGATION OF AUTHORITY

In accordance with the provisions of Paragraph (C) of the General Electric Company Board of Directors' Resolution #10855 dated April 26, 1988 relating to the Execution of Contracts and Other Instruments I, Stephen D. Ramsey, Vice President, Corporate Environmental Programs of the General Electric Company, hereby delegate to Michael T. Carroll, Manager, Pittsfield Remediation Programs, the authority to execute on behalf of the General Electric Company contracts, leases, deeds or other instruments relating to real property located within Berkshire County of Massachusetts, or to any improvements thereon (including, without limitation, instruments imposing environmental restrictions such as Activity and Use Limitations or Grants of Environmental Restrictions and Easements).

Dated this 7th day of February 2003

Stephen D. Ramsey
Vice President
Corporate Environmental Programs
General Electric Company

Attest:

Elizabeth W. Fran

EXHIBIT A

LEGAL DESCRIPTION OF THE PROPERTY BY METES AND BOUNDS

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the northwest corner of land of General Electric Company shown as Lot 2 on Land Court Plan No. 8372-J; said point is also at the southwesterly corner of other land of General Electric Company shown as Lot 3 on Land Court Plan No. 8372-K;

Thence running N 13°25'29" W along the westerly line of said Lot 3 and along the westerly line of other land of General Electric Company shown as Lot A on Land Court Plan No. 8372-B, a distance of 48 feet, more or less, to a point at the southerly edge of the water of the Housatonic River;

Thence running easterly along the southerly edge of the water of the Housatonic River, a distance of 754', more or less, to a point in the westerly line of land of the City of Pittsfield shown as Lot C on Land Court Plan No. 8372-E; said point is also in the easterly line of Lot 4 shown on Land Court Plan No. 8372-K;

Thence running S 39°24'29" E along the westerly line of said Lot C, a distance of 57', more or less, to a point at the northeast corner of land now or formerly of Allegrone Real Estate, LLC, and described in a deed recorded in the Berkshire Middle District Registry of Deeds in Book 2186, Page 2; said point is also at the southeast corner of said Lot 4 shown on Land Court Plan No. 8372-K;

Thence running S 52°49'30" W along the northerly line of said land now or formerly of Allegrone Real Estate, LLC, and along the southerly line of said Lot 4, a distance of 29.94 to a point; said point is also at the northeast corner of other land of General Electric Company shown as Lot B-13 on Land Court Plan No. 8372-I;

Thence running S 63°59'11" W along the northerly line of said Lot B-13 and along the southerly line of said Lot 4, a distance of 82.00 to a point;

Thence running S 58°16'31" W along the northerly lines of said Lot B-13, other land of General Electric Company shown as Lot B-15 on Land Court Plan No. 8372-I, land now or formerly of Marchetto shown as Lot B-11 on Land Court Plan No. 8372-H, and land now or formerly of Stracuzzi shown as Lot B-12 on Land Court Plan No. 8372-H and Lots B-10 and B-9 on Land Court Plan No. 8372-G, a distance of 297.50 feet to a point;

Thence running along a curve to the right with a radius of 534.95 feet, an arc length of 331.19 feet and a chord distance of 325.93 feet on a bearing of S 76°00'41" W along the northerly lines of said Lot B-9, land now or formerly of Curro, shown as Lot B-8 on Land Court Plan No. 8372-F, land now or formerly of Italian American Club of Pittsfield, Inc. shown as Lot B-2 on Land

LAND COURT DOCUMENT # 35022
PAGE 25 OF 37

Court Plan No. 8372-D, and said other land of General Electric Company shown as Lot 2 on Land Court Plan No. 8372-J to a point;

Thence running N 86°15'09" W along said Lot 2, a distance of 35.54 to the point of beginning.

Excepting any and all interest of the Grantor in the Housatonic River.

The parcel above described contains portions of Lots 3 and 4 as shown on Land Court Plan No. 8372-K and a portion of Lot A as shown on Land Court Plan No. 8372-B. Said parcel is shown on the plan entitled "Sketch Plan Showing the Property Subject to Grant of Environmental Restriction and Easement" (Sketch Plan), dated July 3, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which plan is attached to the foregoing Grant of Environmental Restriction and Easement as Exhibit B. The property boundary line dimensions described above and shown on the Sketch Plan are the result of an on-the-ground retracement survey of the lines shown on said Land Court Plans. The bearings shown on the Sketch Plan are rotated -11°25'29" from the meridian of said Land Court Plans. Any differences between the distances shown on the Sketch Plan and those shown on said Land Court Plans are the result of the retracement survey of the lines shown on said Land Court Plans and are within the expected measurement tolerances which exist between the two surveys.

EXHIBIT C

HEALTH AND SAFETY PROTOCOL

1. This Health and Safety Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Except as provided below, in Paragraph 3 of this Protocol, Grantor shall prepare and submit a Health and Safety Plan ("HSP") to Grantee and EPA pursuant to Paragraph 20 ("Agency Review and Comment; Notices") of the Grant, fifteen (15) days or more before conducting any permitted activity or use pursuant to Paragraph 4 ("Permitted Activities and Uses") of the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant. If appropriate, Grantor may submit a pre-existing health and safety plan in lieu of preparing a new plan to address this requirement and/or incorporate by reference a previously submitted HSP. Grantor shall comply with the HSP when conducting any permitted activity or use pursuant to the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant.

3. An HSP shall not be required for any excavation permitted pursuant to the following subparagraphs of the Grant: 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less"), 4.B ("Surface Excavation of any Volume"), and/or 4.D ("Surface and/or Subsurface Excavation for Utility Work"), provided that the excavation permitted under subparagraph 4.D is conducted solely within one (1) foot of the surface of the ground.

4. The HSP shall be prepared in accordance with the occupational health and safety provisions of 29 Code of Federal Regulations § 1910.120 otherwise applicable to hazardous waste operations and emergency response, as amended, and, any other applicable federal, state or local law. For any utility repair, maintenance or installation in confined spaces, the HSP shall also be prepared in accordance with the provisions of 29 Code of Federal Regulations § 1910.146, otherwise applicable to work in confined spaces, as amended.

5. In addition to the requirements of Paragraph 4 of this Protocol, the HSP shall, without limitation, include the following items:

a. General information on the nature, extent, and concentrations of hazardous substances (as defined by CERCLA) and hazardous materials and oil (as defined by Chapter 21E) anticipated in the media to be impacted by the permitted activity and use, based upon existing information.

b. Description of tasks which may involve exposure to hazardous substances, hazardous materials, or oil.

c. Description of anticipated actions to protect the health, safety, and welfare of workers and the general public. Actions shall include, but not be limited to, dust control, odor control, personal protective equipment, and erosion and sedimentation control measures (as needed for the particular permitted activity and use).

LAND COURT DOCUMENT # 35072
PAGE 29 OF 37

d. Discussion of relevant physical, chemical, and biological hazards. (Relevant portions of Material Safety Data Sheets may be incorporated as appropriate.)

e. A requirement that all persons engaged in the work read and acknowledge the provisions of the HSP and document compliance with said provisions.

f. A requirement that all persons engaged in the work receive appropriate training in matters of health and safety in accordance with 29 Code of Federal Regulations Section 1910.120, as amended, and, any other applicable federal, state or local law.

6. The HSP shall be approved by a Certified Industrial Hygienist.

7. The Grant and this Health and Safety Protocol are in addition to and do not supersede or relieve Grantor, Grantor's contractors or subcontractors, or any other person or entity performing work on the Property from complying with any applicable federal, state, or local laws, rules or regulations regarding health and safety. Notwithstanding the Grant and this Health and Safety Protocol, it remains the responsibility of such parties to comply with any applicable federal, state, or local laws, rules or regulations regarding health and safety, even if they are more stringent than the requirements of the Grant and this Health and Safety Protocol.

LAND COURT DOCUMENT # 35072
PAGE 30 OF 37

EXHIBIT D

SOIL MANAGEMENT PROTOCOL

1. This Soil Management Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Soil sampling and excavation shall be conducted with the oversight of a Licensed Site Professional ("LSP"), to the extent required by Paragraph 4 ("Permitted Activities and Uses") of the Grant.

3. Soil and materials which have been excavated solely within one (1) foot of the surface of the ground may be (i) disposed of at the Property, with no sampling required; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; (iii) returned to the original excavation for use as backfill, with no sampling required; or (iv) a combination of the management options listed in this Paragraph 3 of this Protocol.

4. Soil and materials excavated below one (1) foot of the surface of the ground may be (i) returned to the original excavation, with no sampling required, to within one (1) foot of the surface of the ground, with the remaining one (1) foot of the original excavation backfilled with clean soil or with soil excavated solely from the top one (1) foot of the original excavation; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; or (iii) a combination of the management options listed in this Paragraph 4 of this Protocol.

5. As required by Paragraph 4 ("Permitted Activities and Uses") of the Grant, Grantor shall return the Property, or any portion thereof, to its prior condition immediately upon completion of such activity or use. Such restoration shall include, without limitation, (i) backfilling excavations to the original surface grade with clean soil, except for any soil that may be returned to the original excavation pursuant to this Protocol; and, (ii) reestablishing any disturbed vegetation.

6. Grantor shall implement the management procedures and measures required by the provisions of 310 Code of Massachusetts Regulations (CMR) Section 40.0018 (1) and (2) otherwise applicable to response actions, as amended. Excavations permitted under subparagraphs 4.A, 4.B, 4.C, 4.D and 4.E (except as otherwise provided in subparagraph 4.E) of the Grant shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Grantor shall, during excavation, use best management practices to control contaminant migration, exposure to contaminant material, and erosion, runoff, and dust emissions.

7. Grantor shall keep separate (i) soil excavated from within the top one (1) foot of the ground at the Property; (ii) soil excavated from below the top one (1) foot of the ground at the Property; and (iii) clean backfill. The location of the storage of soil and other materials shall be either (i) at the Property, or (ii) as otherwise authorized by applicable state or federal laws and regulations.

LAND COURT DOCUMENT # 35072
PAGE 31 OF 37

All soil and other material shall be stored in a manner consistent with 310 CMR § 40.0036 (as amended) and in accordance with: (a) EPA approval under 40 Code of Federal Regulations § 761.61(c) (as amended); or (b) 40 Code of Federal Regulations § 761.65 (as amended); or (c) the following requirements: Such materials shall be placed on an impermeable liner to prevent contact with the underlying ground surface, and shall then be covered by a second impermeable membrane. This cover shall remain in place at all times when the storage area is not actively being used, and shall be securely anchored to the ground using weight devices. The storage area shall be located such that potential impacts due to rainfall, wind, and surface runoff are minimized.

8. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

9. All off-Property disposal of soil and other materials, including without limitation, used personal protective equipment, shall be: (i) at a facility licensed to accept such materials and in compliance with all applicable laws, rules and regulations; or (ii) at an EPA-approved on-plant consolidation area at the GE Plant if such consolidation area is in operation at the relevant time and in compliance with all operating procedures for such consolidation area and with the approval of the owner of such consolidation area. All disposal of soil and other materials off-Property or outside the restricted area from which such soils and materials were excavated shall be conducted with the oversight of an LSP. All off-Property disposal shall comply with all applicable laws, rules, and regulations. Grantor shall conduct sampling sufficient to assure adequate characterization for off-Property disposal subject to oversight by an LSP and in accordance with state and federal laws and regulations, including, without limitation, 310 CMR § 40.0017.

POST-WORK NOTIFICATION FORM FOR PROPERTY WITH ERE GRANT

I. General Information

Type of work: __ Surface *(top foot)* excavation of greater than five (5) cubic ft. and less than or equal to ten (10) cubic yds. (per Grant Paragraph 4.A)

(check all that apply) __ Surface *(top foot)* excavation of any volume (per Grant Paragraph 4.B)

__ Subsurface *(deeper than top foot)* excavation of ten (10) cubic yards or less (per Grant Paragraph 4.C)

__ Surface or subsurface excavation for Utility Work (per Grant Paragraph 4.D)

__ Emergency excavation (per Grant Paragraph 8)

Property Address: _____
Tax Parcel ID: _____

II. Description of Excavation Activities

Start date of excavation/soil disturbance: _____

End date of excavation/soil disturbance: _____

Amount of soil excavated or moved: _____

Any soil or other excavated material moved out of the Restricted Area? ___ Yes ___ No

Excavation dimensions *(approximate length x width x depth, in feet)* : _____

Description of project (*attach extra sheets, if necessary*): _____
_____

Final disposition of soil: *(attach bills of lading and certificates of disposals, if applicable)*: _____
_____

Attach a plan *(e.g., a copy of the Plan of Restricted Area)* showing:

(1) location of excavation(s) within the property
(2) direction
(3) major site features (*e.g., roads, buildings, edges of pavement/barriers, locations of utilities if known*)

Attach photographs of work area prior to work, during work and post-restoration work, if available (*optional*).

Was soil sampling and analysis conducted? __ Yes __ No
If Yes, attach analytical results and show sampling locations (*and indicate depths*) on an attached plan.

Were the Health and Safety Protocol and/or the Soil Management Protocol (*as defined in the ERE Grant*), if applicable, followed? (*check each that applies*[1]) __ Health and Safety Protocol was followed
__ Soil Management Protocol was followed
__ Not Applicable

[1] See note 3 in Section V ("Notes About the Use of this Form"), below.

III. Additional Information for Emergency Excavation

If work was conducted as an Emergency Excavation (*see Paragraph 8 ("Emergency Excavation") of the ERE Grant*):

(1) Attach an opinion and completion report prepared by an appropriately trained and licensed professional (*including copy of written plan for restoration*).
(2) Date and time property owner first obtained knowledge of the emergency:_____
(3) Date and time property owner provided oral notification of the emergency to DEP:_____

IV. Signature

Two signatures are required (except for excavations pursuant to Grant Paragraph 4.A or the last paragraph of Grant Paragraph 8, for which only the owner or person conducting the work must sign). The property owner, or person conducting the work if other than the property owner, and the Licensed Site Professional who has overseen the work (where required) must each complete and sign the statement, below.

Owner or person conducting the work if other than the property owner:

I,_____, to the best of my knowledge and belief, state that the material information contained in this submittal is true, accurate and complete.

By: _____

Signature: _____

Name/Title: _____

Organization: _____

Address: _____

Telephone #: _____

Relationship to site: _____

V. Notes About the Use of this Form

(1) This form is due no later than thirty (30) days after completion of the permitted activities and uses under Paragraph 4 ("Permitted Activities and Uses") of the ERE Grant. For emergency excavations pursuant to Paragraph 8 of the ERE Grant ("Emergency Excavation"), verbal notification is required as soon as possible but no more than two hours after learning of the emergency, and this form is for the post-emergency excavation notice and is due within ten (10) days after completion of the necessary restoration in accordance with Paragraph 8 of the ERE Grant.

(2) Separate, 15 days' advance written notice is required for Utility Work excavation activity, pursuant to Paragraph 4.D ("Surface and/or Subsurface Excavation for Utility Work") of the ERE Grant.

(3) The Health and Safety Protocol and the Soil Management Protocol do not apply to the Permitted Activities and Uses set forth in Paragraph 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less") of the ERE Grant. These protocols also do not apply to the Permitted Activities and Uses set forth in Paragraph 4.B ("Surface Excavation of any Volume") of the ERE Grant, except for off-Property disposal, to which Paragraph 9 of the Soil Management Protocol applies.

VI. Where to Submit this Form.

Submit this completed form, via certified mail, to:

MA Department of Environmental Protection
Bureau of Waste Site Cleanup, Special Projects
436 Dwight Street
Springfield, Massachusetts 01103
(Attn.: GE Housatonic Removal Action Project Manager)

Submit a copy of this form, via certified mail, to:

U.S. Environmental Protection Agency
Office of Site Remediation and Restoration
One Congress Street
Suite 1100 – Mail Code HIO
Boston, Massachusetts 02114-2023
(Attn.: GE-Pittsfield/Housatonic River Site)

40.1403: Minimum Public Involvement Activities in Response Actions

* * *

(7) Within thirty days after recording and/or registering any original, amended, released or terminated Activity and Use Limitation pursuant to 310 CMR 40.1070 through 40.1080, the following requirements shall be met to inform local officials and the public of the limitations which apply to activities and/or uses of the property subject to the Activity and Use Limitation:

(a) a copy of the recorded and/or registered Activity and Use Limitation shall be provided to:

1. the Chief Municipal Officer;
2. the Board of Health;
3. the Zoning Official; and
4. the Building Code Enforcement Official in the community(ies) in which the property subject to such Activity and Use Restriction is located.

(b) a legal notice which indicates the recording and/or registering of the original, amended, released or terminated Activity and Use Limitation shall be published in a newspaper which circulates in the community(ies) in which the property subject to the Activity and Use Limitation is located.

1. This notice shall be in a form established by the Department for such purpose and shall include, but not be limited to:
   a. the name, address, and Release Tracking Number(s) of the disposal site associated with the Activity and Use Limitation;
   b. the type of Activity and Use Limitation;
   c. information about where the Activity and Use Limitation instrument and disposal site file can be reviewed; and
   d. the name, address and telephone number of the person recording and/or registering the Activity and Use Limitation from whom the public can obtain additional information.
2. A copy of this legal notice shall be submitted to the Department within seven days of its publication.

SUBORDINATION AGREEMENT FOR DRAIN PIPE

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Disposal Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD 440

The City of Pittsfield (the "City"), Berkshire County, Massachusetts, is the holder of an easement granted to it by E.D. Jones & Sons Company dated July 14, 1925, noted as Document No. 1754 on Certificate of Title No. 3699 in Book 17, Page 767 and as Document No. 1754 on Certificate of Title No. 4558 in Book 20, Page 605 in the Land Court Records of the Berkshire Middle District Registry of Deeds allowing the City to lay and maintain a drain pipe in the center line of a strip of land six feet in width.

For the easement referenced above, the City hereby assents to the Grant of Environmental Restriction and Easement (the "Grant") granted by the General Electric Company to the Commonwealth of Massachusetts Department of Environmental Protection dated July 12, 2007 and recorded in the Land Court Records of the Berkshire Middle District Registry of Deeds on Certificates 3699 and 4558 in Books 17/20, Pages 767/605, Document 35072 and agrees that the City shall be subject to the said Grant and to the rights, covenants, restrictions and easements created by and under the Grant insofar as the interests created under the above-referenced easement affect the Property identified in the Grant and as if for all purposes said Grant had been executed, delivered and recorded prior to the execution, delivery and recordation of the said City easement.

In witness whereof, the CITY OF PITTSFIELD has caused this instrument to be executed, sealed with the City seal, acknowledged and delivered by JAMES M. RUBERTO, its Mayor and GERALD M. LEE, its City Council President, this 28th day of Sept., 2006.

DEP Disposal Site No. GECD 440

The City of Pittsfield (the "City"), Berkshire County, Massachusetts, is the holder of easements and rights for protection against floods acquired pursuant to a taking for a municipal purpose, notice of which is dated October 23, 1940, and is noted as Document No. 4602 on Certificate of Title No. 3699 in Book 17, Page 767 and as Document No. 4602 on Certificate of Title No. 4558 in Book 20, Page 605 in the Land Court Records of the Berkshire Middle District Registry of Deeds.

For the easements and rights referenced above, the City hereby assents to the Grant of Environmental Restriction and Easement (the "Grant") granted by the General Electric Company to the Commonwealth of Massachusetts Department of Environmental Protection dated July 12, 2007 and recorded in the Land Court Records of the Berkshire Middle District Registry of Deeds in Books 17/20 Pages 767/605 on Certificates 3699 and 4558 Document 35072 and agrees that the City shall be subject to the said Grant and to the rights, covenants, restrictions and easements created by and under the Grant insofar as the interests created under the above-referenced City taking of easements and rights affect the Property identified in the Grant and as if for all purposes said Grant had been executed, delivered and recorded prior to the execution, delivery and recordation of the said City taking of easements and rights.

In witness whereof, the CITY OF PITTSFIELD has caused this instrument to be executed, sealed with the City seal, acknowledged and delivered by JAMES M. RUBERTO, its Mayor and GERALD M. LEE, its City Council President, this 28th day of Sept., 2006.

Sewer Easement –
September 28, 2006

SUBORDINATION AGREEMENT FOR SEWER EASEMENT

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Disposal Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD 440

The City of Pittsfield (the "City"), Berkshire County, Massachusetts, is the holder of easements and rights acquired pursuant to a taking for a municipal purpose, by order dated June 4, 1960, and noted as Document No. 10299 on Certificate of Title No. 3699 in Book 17, Page 767 and as Document No. 10299 on Certificate of Title No. 4558 in Book 20, Page 605 in the Land Court Records of the Berkshire Middle District Registry of Deeds, which allows the City to construct, reconstruct, repair and maintain a sewer.

For the easements and rights referenced above, the City hereby assents to the Grant of Environmental Restriction and Easement (the "Grant") granted by the General Electric Company to the Commonwealth of Massachusetts Department of Environmental Protection dated July 12, 2007 and recorded in the Land Court Records of the Berkshire Middle District Registry of Deeds in Book 17/20 Pages 767/605 on Certificates 3699 and 4558 Document 35072 and agrees that the City shall be subject to the said Grant and to the rights, covenants, restrictions and easements created by and under the Grant insofar as the interests created under the above-referenced City taking of easements and rights affect the Property identified in the Grant and as if for all purposes said Grant had been executed, delivered and recorded prior to the execution, delivery and recordation of the said City taking of easements and rights.

In witness whereof, the CITY OF PITTSFIELD has caused this instrument to be executed, sealed with the City seal, acknowledged and delivered by JAMES M. RUBERTO, its Mayor and GERALD M. LEE, its City Council President, this 28th day of Sept., 2006.

Owner's Policy of Title Insurance

OWNER'S POLICY OF TITLE INSURANCE

Issued by **Commonwealth Land Title Insurance Company**

POLICY NUMBER

C30-Z021713

LandAmerica Commonwealth

Commonwealth Land Title Insurance Company is a member of the LandAmerica family of title insurance underwriters.

Any notice of claim and any other notice or statement in writing required to be given to the Company under this Policy must be given to the Company at the address shown in Section 18 of the Conditions.

COVERED RISKS

SUBJECT TO THE EXCLUSIONS FROM COVERAGE, THE EXCEPTIONS FROM COVERAGE CONTAINED IN SCHEDULE B, AND THE CONDITIONS, COMMONWEALTH LAND TITLE INSURANCE COMPANY, a Nebraska corporation (the "Company") insures, as of Date of Policy and, to the extent stated in Covered Risks 9 and 10, after Date of Policy, against loss or damage, not exceeding the Amount of Insurance, sustained or incurred by the Insured by reason of:

1. Title being vested other than as stated in Schedule A.
2. Any defect in or lien or encumbrance on the Title. This Covered Risk includes but is not limited to insurance against loss from
   (a) A defect in the Title caused by
      (i) forgery, fraud, undue influence, duress, incompetency, incapacity, or impersonation;
      (ii) failure of any person or Entity to have authorized a transfer or conveyance;
      (iii) a document affecting Title not properly created, executed, witnessed, sealed, acknowledged, notarized, or delivered;
      (iv) failure to perform those acts necessary to create a document by electronic means authorized by law;
      (v) a document executed under a falsified, expired, or otherwise invalid power of attorney;
      (vi) a document not properly filed, recorded, or indexed in the Public Records including failure to perform those acts by electronic means authorized by law; or
      (vii) a defective judicial or administrative proceeding.
   (b) The lien of real estate taxes or assessments imposed on the Title by a governmental authority due or payable, but unpaid.
   (c) Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land.
3. Unmarketable Title.
4. No right of access to and from the Land.
5. The violation or enforcement of any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (a) the occupancy, use, or enjoyment of the Land;
   (b) the character, dimensions, or location of any improvement erected on the Land;
   (c) the subdivision of land; or
   (d) environmental protection

   if a notice, describing any part of the Land, is recorded in the Public Records setting forth the violation or intention to enforce, but only to the extent of the violation or enforcement referred to in that notice.
6. An enforcement action based on the exercise of a governmental police power not covered by Covered Risk 5 if a notice of the enforcement action, describing any part of the Land, is recorded in the Public Records, but only to the extent of the enforcement referred to in that notice.
7. The exercise of the rights of eminent domain if a notice of the exercise, describing any part of the Land, is recorded in the Public Records.
8. Any taking by a governmental body that has occurred and is binding on the rights of a purchaser for value without Knowledge.
9. Title being vested other than as stated in Schedule A or being defective
   (a) as a result of the avoidance in whole or in part, or from a court order providing an alternative remedy, of a transfer of all or any part of the title to or any interest in the Land occurring prior to the transaction vesting Title as shown in Schedule A because that prior transfer constituted a fraudulent or preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws; or
   (b) because the instrument of transfer vesting Title as shown in Schedule A constitutes a preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws by reason of the failure of its recording in the Public Records
      (i) to be timely, or
      (ii) to impart notice of its existence to a purchaser for value or to a judgment or lien creditor.
10. Any defect in or lien or encumbrance on the Title or other matter included in Covered Risks 1 through 9 that has been created or attached or has been filed or recorded in the Public Records subsequent to Date of Policy and prior to the recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The Company will also pay the costs, attorneys' fees, and expenses incurred in defense of any matter insured against by this Policy, but only to the extent provided in the Conditions.

IN WITNESS WHEREOF, the Company has caused this Policy to be signed with the facsimile signatures of its President and Secretary and sealed as required by its By-Laws.

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

CONDITIONS

1 DEFINITION OF TERMS

The following terms when used in this policy mean:

(a) "Amount of Insurance": The amount stated in Schedule A, as may be increased or decreased by endorsement to this policy, increased by Section 8(b), or decreased by Sections 10 and 11 of these Conditions.

(b) "Date of Policy": The date designated as "Date of Policy" in Schedule A.

(c) "Entity": A corporation, partnership, trust, limited liability company, or other similar legal entity.

(d) "Insured": The Insured named in Schedule A.

(i) The term "Insured" also includes

(A) successors to the Title of the Insured by operation of law as distinguished from purchase, including heirs, devisees, survivors, personal representatives, or next of kin;

(B) successors to an Insured by dissolution, merger, consolidation, distribution, or reorganization;

(C) successors to an Insured by its conversion to another kind of Entity;

(D) a grantee of an Insured under a deed delivered without payment of actual valuable consideration conveying the Title

(1) if the stock, shares, memberships, or other equity interests of the grantee are wholly-owned by the named Insured,

(2) if the grantee wholly owns the named Insured,

(3) if the grantee is wholly-owned by an affiliated Entity of the named Insured, provided the affiliated Entity and the named Insured are both wholly-owned by the same person or Entity, or

(4) if the grantee is a trustee or beneficiary of a trust created by a written instrument established by the Insured named in Schedule A for estate planning purposes.

(ii) With regard to (A), (B), (C), and (D) reserving, however, all rights and defenses as to any successor that the Company would have had against any predecessor Insured.

(e) "Insured Claimant": An Insured claiming loss or damage.

(f) "Knowledge" or "Known": Actual knowledge, not constructive knowledge or notice that may be imputed to an Insured by reason of the Public Records or any other records that impart constructive notice of matters affecting the Title.

(g) "Land": The land described in Schedule A, and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is insured by this policy.

(h) "Mortgage": Mortgage, deed of trust, trust deed, or other security instrument, including one evidenced by electronic means authorized by law.

(i) "Public Records": Records established under state statutes at Date of Policy for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge. With respect to Covered Risk 5(d), "Public Records" shall also include environmental protection liens filed in the records of the clerk of the United States District Court for the district where the Land is located.

(j) "Title": The estate or interest described in Schedule A.

(k) "Unmarketable Title": Title affected by an alleged or apparent matter that would permit a prospective purchaser or lessee of the Title or lender on the Title to be released from the obligation to purchase, lease, or lend if there is a contractual condition requiring the delivery of marketable title.

2. CONTINUATION OF INSURANCE

The coverage of this policy shall continue in force as of Date of Policy in favor of an Insured, but only so long as the Insured retains an estate or interest in the Land, or holds an obligation secured by a purchase money Mortgage given by a purchaser from the Insured, or only so long as the Insured shall have liability by reason of warranties in any transfer or conveyance of the Title. This policy shall not continue in force in favor of any purchaser from the Insured of either (i) an estate or interest in the Land, or (ii) an obligation secured by a purchase money Mortgage given to the Insured.

3. NOTICE OF CLAIM TO BE GIVEN BY INSURED CLAIMANT

The Insured shall notify the Company promptly in writing (i) in case of any litigation as set forth in Section 5(a) of these Conditions, (ii) in case Knowledge shall come to an Insured hereunder of any claim of title or interest that is adverse to the Title, as insured, and that might cause loss or damage for which the Company may be liable by virtue of this policy, or (iii) if the Title, as insured, is rejected as Unmarketable Title. If the Company is prejudiced by the failure of the Insured Claimant to provide prompt notice, the Company's

liability to the Insured Claimant under the policy shall be reduced to the extent of the prejudice.

4. PROOF OF LOSS

In the event the Company is unable to determine the amount of loss or damage, the Company may, at its option, require as a condition of payment that the Insured Claimant furnish a signed proof of loss. The proof of loss must describe the defect, lien, encumbrance, or other matter insured against by this policy that constitutes the basis of loss or damage and shall state, to the extent possible, the basis of calculating the amount of the loss or damage.

5. DEFENSE AND PROSECUTION OF ACTIONS

(a) Upon written request by the Insured, and subject to the options contained in Section 7 of these Conditions, the Company, at its own cost and without unreasonable delay, shall provide for the defense of an Insured in litigation in which any third party asserts a claim covered by this policy adverse to the Insured. This obligation is limited to only those stated causes of action alleging matters insured against by this policy. The Company shall have the right to select counsel of its choice (subject to the right of the Insured to object for reasonable cause) to represent the Insured as to those stated causes of action. It shall not be liable for and will not pay the fees of any other counsel. The Company will not pay any fees, costs, or expenses incurred by the Insured in the defense of those causes of action that allege matters not insured against by this policy.

(b) The Company shall have the right, in addition to the options contained in Section 7 of these Conditions, at its own cost, to institute and prosecute any action or proceeding or to do any other act that in its opinion may be necessary or desirable to establish the Title, as insured, or to prevent or reduce loss or damage to the Insured. The Company may take any appropriate action under the terms of this policy, whether or not it shall be liable to the Insured. The exercise of these rights shall not be an admission of liability or waiver of any provision of this policy. If the Company exercises its rights under this subsection, it must do so diligently.

(c) Whenever the Company brings an action or asserts a defense as required or permitted by this policy, the Company may pursue the litigation to a final determination by a court of competent jurisdiction, and it expressly reserves the right, in its sole discretion, to appeal any adverse judgment or order.

6. DUTY OF INSURED CLAIMANT TO COOPERATE

(a) In all cases where this policy permits or requires the Company to prosecute or provide for the defense of any action or proceeding and any appeals, the Insured shall secure to the Company the right to so prosecute or provide defense in the action or proceeding, including the right to use, at its option, the name of the Insured for this purpose. Whenever requested by the Company, the Insured, at the Company's expense, shall give the Company all reasonable aid (i) in securing evidence, obtaining witnesses, prosecuting or defending the action or proceeding, or effecting settlement, and (ii) in any other lawful act that in the opinion of the Company may be necessary or desirable to establish the Title or any other matter as insured. If the Company is prejudiced by the failure of the Insured to furnish the required cooperation, the Company's obligations to the Insured under the policy shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation, with regard to the matter or matters requiring such cooperation.

(b) The Company may reasonably require the Insured Claimant to submit to examination under oath by any authorized representative of the Company and to produce for examination, inspection, and copying, at such reasonable times and places as may be designated by the authorized representative of the Company, all records, in whatever medium maintained, including books, ledgers, checks, memoranda, correspondence, reports, e-mails, disks, tapes, and videos whether bearing a date before or after Date of Policy, that reasonably pertain to the loss or damage. Further, if requested by any authorized representative of the Company, the Insured Claimant shall grant its permission, in writing, for any authorized representative of the Company to examine, inspect, and copy all of these records in the custody or control of a third party that reasonably pertain to the loss or damage. All information designated as confidential by the Insured Claimant provided to the Company pursuant to this Section shall not be disclosed to others unless, in the reasonable judgment of the Company, it is necessary in the administration of the claim. Failure of the Insured Claimant to submit for examination under oath, produce any reasonably requested information, or grant permission to secure reasonably necessary information from third parties as required in this subsection, unless prohibited by law or governmental regulation, shall terminate any liability of the Company under this policy as to that claim.

7. OPTIONS TO PAY OR OTHERWISE SETTLE CLAIMS; TERMINATION OF LIABILITY

In case of a claim under this policy, the Company shall have the following additional options:

(a) To Pay or Tender Payment of the Amount of Insurance.

To pay or tender payment of the Amount of Insurance under this policy together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment or tender of payment and that the Company is obligated to pay.

Upon the exercise by the Company of this option, all liability and obligations of the Company to the Insured under this policy, other than to make the payment required in this subsection, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

(b) To Pay or Otherwise Settle With Parties Other Than the Insured or With the Insured Claimant.

(i) To pay or otherwise settle with other parties for or in the name of an Insured Claimant any claim insured against under this policy. In addition, the Company will pay any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay; or

(ii) To pay or otherwise settle with the Insured Claimant the loss or damage provided for under this policy, together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay.

Upon the exercise by the Company of either of the options provided for in subsections (b)(i) or (ii), the Company's obligations to the Insured under this policy for the claimed loss or damage, other than the payments required to be made, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

8. DETERMINATION AND EXTENT OF LIABILITY

This policy is a contract of indemnity against actual monetary loss or damage sustained or incurred by the Insured Claimant who has suffered loss or damage by reason of matters insured against by this policy.

(a) The extent of liability of the Company for loss or damage under this policy shall not exceed the lesser of

(i) the Amount of Insurance; or

(ii) the difference between the value of the Title as insured and the value of the Title subject to the risk insured against by this policy.

(b) If the Company pursues its rights under Section 5 of these Conditions and is unsuccessful in establishing the Title, as insured,

(i) the Amount of Insurance shall be increased by 10%, and

(ii) the Insured Claimant shall have the right to have the loss or damage determined either as of the date the claim was made by the Insured Claimant or as of the date it is settled and paid.

(c) In addition to the extent of liability under (a) and (b), the Company will also pay those costs, attorneys' fees, and expenses incurred in accordance with Sections 5 and 7 of these Conditions.

9. LIMITATION OF LIABILITY

(a) If the Company establishes the Title, or removes the alleged defect, lien, or encumbrance, or cures the lack of a right of access to or from the Land, or cures the claim of Unmarketable Title, all as insured, in a reasonably diligent manner by any method, including litigation and the completion of any appeals, it shall have fully performed its obligations with respect to that matter and shall not be liable for any loss or damage caused to the Insured.

(b) In the event of any litigation, including litigation by the Company or with the Company's consent, the Company shall have no liability for loss or damage until there has been a final

determination by a court of competent jurisdiction, and disposition of all appeals, adverse to the Title, as insured.

(c) The Company shall not be liable for loss or damage to the Insured for liability voluntarily assumed by the Insured in settling any claim or suit without the prior written consent of the Company.

10. REDUCTION OF INSURANCE; REDUCTION OR TERMINATION OF LIABILITY

All payments under this policy, except payments made for costs, attorneys' fees, and expenses, shall reduce the Amount of Insurance by the amount of the payment.

11. LIABILITY NONCUMULATIVE

The Amount of Insurance shall be reduced by any amount the Company pays under any policy insuring a Mortgage to which exception is taken in Schedule B or to which the Insured has agreed, assumed, or taken subject, or which is executed by an Insured after Date of Policy and which is a charge or lien on the Title, and the amount so paid shall be deemed a payment to the Insured under this policy.

12. PAYMENT OF LOSS

When liability and the extent of loss or damage have been definitely fixed in accordance with these Conditions, the payment shall be made within 30 days.

13. RIGHTS OF RECOVERY UPON PAYMENT OR SETTLEMENT

(a) Whenever the Company shall have settled and paid a claim under this policy, it shall be subrogated and entitled to the rights of the Insured Claimant in the Title and all other rights and remedies in respect to the claim that the Insured Claimant has against any person or property, to the extent of the amount of any loss, costs, attorneys' fees, and expenses paid by the Company. If requested by the Company, the Insured Claimant shall execute documents to evidence the transfer to the Company of these rights and remedies. The Insured Claimant shall permit the Company to sue, compromise, or settle in the name of the Insured Claimant and to use the name of the Insured Claimant in any transaction or litigation involving these rights and remedies.

If a payment on account of a claim does not fully cover the loss of the Insured Claimant, the Company shall defer the exercise of its right to recover until after the Insured Claimant shall have recovered its loss.

(b) The Company's right of subrogation includes the rights of the Insured to indemnities, guaranties, other policies of insurance, or bonds, notwithstanding any terms or conditions contained in those instruments that address subrogation rights.

14. ARBITRATION

Either the Company or the Insured may demand that the claim or controversy shall be submitted to arbitration pursuant to the Title Insurance Arbitration Rules of the American Land Title Association ("Rules"). Except as provided in the Rules, there shall be no joinder or consolidation with claims or controversies of other persons. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the Insured arising out of or relating to this policy, any service in connection with its issuance or the breach of a policy provision, or to any other controversy or claim arising out of the transaction giving rise to this policy. All arbitrable matters when the Amount of Insurance is $2,000,000 or less shall be arbitrated at the option of either the Company or the Insured. All arbitrable matters when the Amount of Insurance is in excess of $2,000,000 shall be arbitrated only when agreed to by both the Company and the Insured. Arbitration pursuant to this policy and under the Rules shall be binding upon the parties. Judgment upon the award rendered by the Arbitrator(s) may be entered in any court of competent jurisdiction.

15. LIABILITY LIMITED TO THIS POLICY; POLICY ENTIRE CONTRACT

(a) This policy together with all endorsements, if any, attached to it by the Company is the entire policy and contract between the Insured and the Company. In interpreting any provision of this policy, this policy shall be construed as a whole.

(b) Any claim of loss or damage that arises out of the status of the Title or by any action asserting such claim shall be restricted to this policy.

(c) Any amendment of or endorsement to this policy must be in writing and authenticated by an authorized person, or expressly incorporated by Schedule A of this policy.

(d) Each endorsement to this policy issued at any time is made a part of this policy and is subject to all of its terms and provisions. Except as the endorsement expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsement, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance.

16. SEVERABILITY

In the event any provision of this policy, in whole or in part, is held invalid or unenforceable under applicable law, the policy shall be deemed not to include that provision or such part held to be invalid, but all other provisions shall remain in full force and effect.

17. CHOICE OF LAW; FORUM

(a) Choice of Law: The Insured acknowledges the Company has underwritten the risks covered by this policy and determined the premium charged therefor in reliance upon the law affecting interests in real property and applicable to the interpretation, rights, remedies, or enforcement of policies of title insurance of the jurisdiction where the Land is located.

Therefore, the court or an arbitrator shall apply the law of the jurisdiction where the Land is located to determine the validity of claims against the Title that are adverse to the Insured and to interpret and enforce the terms of this policy. In neither case shall the court or arbitrator apply its conflicts of law principles to determine the applicable law.

(b) Choice of Forum: Any litigation or other proceeding brought by the Insured against the Company must be filed only in a state or federal court within the United States of America or its territories having appropriate jurisdiction.

18. NOTICES, WHERE SENT

Any notice of claim and any other notice or statement in writing required to be given to the Company under this Policy must be given to the Company at: Consumer Affairs Department PO Box 27567 Richmond, Virginia 23261-7567.

THANK YOU.

Title insurance provides for the protection of your real estate investment. We suggest you keep this policy in a safe place where it can be readily available for future reference.

OWNER'S POLICY
SCHEDULE B

FILE NUMBER	POLICY NUMBER
AGM06GENIS	C30-Z021713

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of the following:

1. Taxes assessed as of January 1, 2007, for the fiscal period beginning July 1, 2007, which are not yet due and payable, and for subsequent years.

   NOTE: This policy insures that the estimated quarterly taxes are paid through September 30, 2007.

2. Riparian rights of others.

3. Such flowage rights, if any, as may be owned by the Proprietors of the Van Seckler mill property, so called" as referred to in deed from Frederick C. Peck to the Pittsfield Coal Gas Company, dated July 26, 1900, and recorded in the Berkshire Middle District Registry of Deeds in Book 311, Page 35.

   NOTE: The above encumbrance was terminated by instrument recorded in the Berkshire Middle District Registry of Deeds in Book 3156, Page 211. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 3699 and Certificate of Title No. 4558. This policy affirmatively insures that this encumbrance has been terminated and is of no further force and effect and unenforceable.

4. A grant of flowage rights from John Todd to Thomas F. Plunkett, dated April 20, 1849, and recorded in the Berkshire Middle District Registry of Deeds in Book 130, Page 401.

   NOTE: The above encumbrance was terminated by instrument recorded in the Berkshire Middle District Registry of Deeds in Book 3156, Page 211. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 3699 and Certificate of Title No. 4558. This policy affirmatively insures that this encumbrance has been terminated and is of no further force and effect and unenforceable.

5. A receipt and grant (of rights, i.e. easement, for poles, wires, fixtures, etc.)from Margaret Bailey to the American Telephone and Telegraph Company, dated August 20, 1906, and recorded in the Berkshire Middle District Registry of Deeds in Book 337, Page 159, as modified by agreement by and between the American Telephone and Telegraph Company and E.D. Jones Company and the Pittsfield Coal Gas Company, dated January 1, 1915, recorded in Book 385, Page 66.

   NOTE: The above encumbrances were released by instrument recorded in the Berkshire Middle District Registry of Deeds in Book 1048, Page 390. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 3699 and Certificate of Title No. 4558. This policy affirmatively insures that these encumbrances have been released and are of no further force and effect and unenforceable.

6. Flowage rights as referred to in a deed from the Pittsfield Coal Gas Company to E. D. Jones & Sons Company, dated September 13, 1913, and recorded in the Berkshire Middle District Registry of Deeds in Book 376, Page 257.

   NOTE: The above encumbrance was terminated by instrument recorded in the Berkshire Middle District Registry of Deeds in Book 3156, Page 211. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 3699 and Certificate of Title No. 4558. This policy affirmatively insures that this encumbrance has been terminated and is of no further force and effect and unenforceable.

7. An agreement by and between E. D. Jones & Sons Company and the Pittsfield Coal Gas Company, dated September 13, 1913, and recorded in the Berkshire Middle District Registry of Deeds in Book 410, Page 44.

NOTE: The above encumbrance was extinguished by merger of title of dominant and servient estates, both now owned by General Electric Company. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 3699 and Certificate of Title No. 4558. This policy affirmatively insures that this encumbrance has been extinguished and is of no further force and effect and unenforceable.

NOTE: This policy omits any covenants, condition or restriction referred to above, if any, which is based on race, color, religion, sex, handicap, familial status or national origin, unless and only to the extent that the restriction is not in violation of state or federal law, or relates to a handicap, but does not discriminate against handicapped people.

EXHIBIT A
Description of Insured Premises

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the northwest corner of land of General Electric Company shown as Lot 2 on Land Court Plan No. 8372-J; said point is also at the southwesterly corner of other land of General Electric Company shown as Lot 3 on Land Court Plan No. 8372-K;

Thence running N 13°25'29" W along the westerly line of said Lot 3 and along the westerly line of other land of General Electric Company shown as Lot A on Land Court Plan No. 8372-B, a distance of 48 feet, more or less, to a point at the southerly edge of the water of the Housatonic River;

Thence running easterly along the southerly edge of the water of the Housatonic River, a distance of 754', more or less, to a point in the westerly line of land of the City of Pittsfield shown as Lot C on Land Court Plan No. 8372-E; said point is also in the easterly line of Lot 4 shown on Land Court Plan No. 8372-K;

Thence running S 39°24'29" E along the westerly line of said Lot C, a distance of 57', more or less, to a point at the northeast corner of land now or formerly of Allegrone Real Estate, LLC, and described in a deed recorded in the Berkshire Middle District Registry of Deeds in Book 2186, Page 2; said point is also at the southeast corner of said Lot 4 shown on Land Court Plan No. 8372-K;

Thence running S 52°49'30" W along the northerly line of said land now or formerly of Allegrone Real Estate, LLC, and along the southerly line of said Lot 4, a distance of 29.94 to a point; said point is also at the northeast corner of other land of General Electric Company shown as Lot B-13 on Land Court Plan No. 8372-I;

Thence running S 63°59'11" W along the northerly line of said Lot B-13 and along the southerly line of said Lot 4, a distance of 82.00 to a point;

Thence running S 58°16'31" W along the northerly lines of said Lot B-13, other land of General Electric Company shown as Lot B-15 on Land Court Plan No. 8372-I, land now or formerly of Marchetto shown as Lot B-11 on Land Court Plan No. 8372-H, and land now or formerly of Stracuzzi shown as Lot B-12 on Land Court Plan No. 8372-H and Lots B-10 and B-9 on Land Court Plan No. 8372-G, a distance of 297.50 feet to a point;

Thence running along a curve to the right with a radius of 534.95 feet, an arc length of 331.19 feet and a chord distance of 325.93 feet on a bearing of S 76°00'41" W along the northerly lines of said Lot B-9, land now or formerly of Curro, shown as Lot B-8 on Land Court Plan No. 8372-F, land now or formerly of Italian American Club of Pittsfield, Inc. shown as Lot B-2 on Land Court Plan No. 8372-D, and said other land of General Electric Company shown as Lot 2 on Land Court Plan No. 8372-J to a point;

Thence running N 86°15'09" W along said Lot 2, a distance of 35.54 to the point of beginning.

Excepting any and all interest of the Grantor in the Housatonic River.

The parcel above described contains portions of Lots 3 and 4 as shown on Land Court Plan No. 8372-K and a portion of Lot A as shown on Land Court Plan No. 8372-B. Said parcel is shown on the plan entitled "Sketch Plan Showing the Property Subject to Grant of Environmental Restriction and Easement" (Sketch Plan), dated July 3, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which plan is attached as Exhibit B to the Grant of Environmental Restriction and Easement referenced in Schedule A, No. 2 of this Policy. The property boundary line dimensions described above and shown on the Sketch Plan are the result of an on-the-ground retracement survey of the lines shown on said Land Court Plans. The bearings shown on the Sketch Plan are rotated -11°25'29" from the meridian of said Land Court Plans. Any differences between the distances shown on the Sketch Plan and those shown on said Land Court Plans are the result of the retracement survey of the lines shown on said Land Court Plans and are within the expected measurement tolerances which exist between the two surveys.

First Amendment to Grant of Environmental Restriction and Easement –
September 26, 2007

FIRST AMENDMENT TO GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT

42 U.S.C. § 9601 *et seq.*, and M.G.L. c. 21E, § 6.

EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD440

191 Newell Street, Pittsfield, MA 01201

WHEREAS, a Grant of Environmental Restriction and Easement from the General Electric Company ("Grantor"), a corporation organized and existing under the laws of the State of New York, duly authorized to do business in Massachusetts, with a principal office in Pittsfield, Berkshire County, Massachusetts, to the Massachusetts Department of Environmental Protection ("Grantee" or "DEP"), an agency established under the laws of the Commonwealth of Massachusetts, having its principal office at One Winter Street, Boston, MA 02108, executed by Grantor on July 12, 2007, and approved by DEP on September 11, 2007, was registered on September 26, 2007, as Document No. 35065, noted on Certificate of Title No. 5955 in Book 27, Page 59, of the Land Court records in the Berkshire County Land Registration Office;

WHEREAS, said Grant imposes certain restrictions on activities and uses, conditions, obligations, covenants, and easements upon that certain parcel of land located at 191 Newell Street in Pittsfield, Berkshire County, Massachusetts, with the building foundations thereon, which parcel of land is owned in fee simple by Grantor, as evidenced by Certificate of Title No. 5955 in Book 27, Page 59, of the Land Court records in the Berkshire County Land Registration Office;

WHEREAS, said parcel of land, numbered as Tax Parcel No. J9-23-16, is more particularly bounded and described in Exhibit A attached hereto and made a part hereof (the "Property");

WHEREAS, said restrictions, conditions, obligations, covenants, and easements are imposed on the Property to ensure the protectiveness of Response Actions (as defined in said Grant) pursuant to a Consent Decree that GE has entered into with the United States, the State of Connecticut, and the Commonwealth of Massachusetts in *United States of America, State of Connecticut, and Commonwealth of Massachusetts v. General Electric Company*, Civil Action No. 99-30225-MAP *et seq.*, entered by the United States District Court for the District of Massachusetts on October 27, 2000;

WHEREAS, under said Grant, the Property contains certain restricted areas, referred to as the Engineered Barrier Area, the Other Ground Covering Feature Area, and the Open Soil/Vegetated Area, which were shown on a plan entitled "Sketch Plan Showing Lot 2 on Land

LAND COURT DOCUMENT # 35333
PAGE 1 OF 22

Court Plan No. 8372-J," dated June 25, 2007, attached to said Grant as Exhibit B, which was also separately recorded in the Berkshire Middle District Registry of Deeds on September 26, 2007, in Plat H, No. 311;

WHEREAS, following the registration of said Grant, a certain portion of the Property that was previously unpaved was paved, which caused a modification of the boundaries of certain restricted areas at the Property – namely, the Other Ground Covering Feature Area and the Open Soil/Vegetated Area;

NOW, THEREFORE, with the written approval of Grantee, Grantor hereby amends said Grant as follows:

1. Exhibit B to said Grant is replaced by a plan entitled "Revised Sketch Plan Showing Lot 2 on Land Court Plan No. 8372-J," dated June 25, 2007, revised November 15, 2007, which is attached hereto as Exhibit B and is made a part hereof and was also separately recorded in the Berkshire Middle District Registry of Deeds on February 1 2008, in Plat H, No. 351.

2. Exhibit C to said Grant, entitled "Description of Restricted Areas by Metes and Bounds," is replaced by a revised version of that exhibit, entitled "Revised Description of Restricted Areas by Metes and Bounds," which is attached hereto as Exhibit C and made a part hereof.

In all other respects the provisions of said Grant remain unchanged

This First Amendment to said Grant shall become effective upon its Registration.

No more than thirty (30) days from the date of Registration of this First Amendment, Grantor shall provide Grantee with a certified Land Registration Office copy of this instrument. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final Registration information for this instrument, certified by said Land Registration Office.

WITNESS the execution hereof under seal this 20th day of December, 2007.

Certificate of Authorization

I, James E. Warczak, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify resolutions of the Board of Directors of the Company.

2. The following is a true and correct excerpt of a Resolution #10855 duly adopted by the Board of Directors of the Company on April 26, 1988, as such Resolution was duly amended and restated by the Board of Directors of the Company on December 20, 1991 (as so amended and restated, the "Resolution") dealing with the execution of contracts and other instruments on behalf of the Company. The Resolution is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked:

"RESOLVED, that

(A) Any contract, lease license, assignment, bond or other obligation, conveyance, power of attorney, guarantee, proxy, court pleading, release, tax return and related documents, or other instruments may be executed on behalf of this Company by the Chairman of the Board, a Vice Chairman of the Board, an Executive Vice President, a Senior Vice President, a Vice President reporting directly to the Chairman or a Vice Chairman of the Board, the Comptroller, the Treasurer, the Secretary or any Vice President who is a corporate staff officer of the Company, all of the above named individuals being hereinafter called "Authorized Persons".

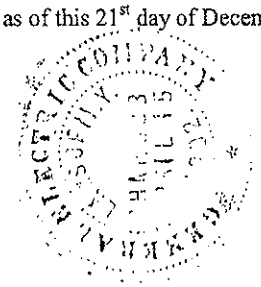
. . . .

(C) Each Authorized Person is hereby authorized to delegate to others authority to execute on behalf of the Company the following types of contracts and other instruments which relate to the function or component for which such Authorized Person is responsible:

. . . .

4. Contracts, leases, deeds, or other instruments relating to real property or to any improvements thereon."

IN WITNESS WHEREOF, the undersigned has executed the Certificate of Authorization as of this 21st day of December, 2007.



James E Warczak
Attesting Secretary

Certificate of Incumbency

I, James E. Warczak, do hereby certify that I am an Attesting Secretary of General Electric Company, a New York corporation (the "Company"), and, in my capacity as such, further certify that:

1. I am duly authorized to certify the incumbency of officers of the Company.

2. Stephen D. Ramsey is the duly qualified and appointed Vice President, Corporate Environmental Programs, of the Company, that he held that corporate staff office on April 10, 2003, and that he is an "Authorized Person" as defined in paragraph (A) of Resolution #10855 of the General Electric Board of Directors.

3. Attached as Exhibit 1 to this Certificate is a true and correct copy of a valid written delegation of authority dated February 7, 2003 by Stephen D. Ramsey, Vice President, Corporate Environmental Programs of the Company, to Michael T. Carroll, Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company. This written delegation is in full force and effect as of the date hereof and has not been further amended, modified, rescinded or revoked.

4. Michael T. Carroll is, and was on December 20, 2007 [date of execution] the duly qualified and appointed Manager, Pittsfield Remediation Programs, Corporate Environmental Programs, of the Company.

IN WITNESS WHEREOF, the undersigned has executed this Certificate of Incumbency as of this 21st day of December, 2007.

EXHIBIT A

DESCRIPTION OF PROPERTY BY METES AND BOUNDS

Tax Parcel No. J9-23-16

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point in the northerly sideline of Newell Street, said point being the southwest corner of the parcel herein described and is also located S 87° 44' 00" W a distance of 12.00 feet from a highway bound in the northerly line of Newell Street;

Running thence N 02° 00' 00" W a distance of 130.00 feet to a point;

Running thence S 87° 44' 00" W a distance of 12.00 feet to a point;

Running thence N 02° 00' 00" W a distance of 245.33 feet to the northwest corner of the parcel herein described to a point;

Running thence S 74° 49' 40" E a distance of 35.54 feet to a point;

Running thence on a curve to the left having a radius of 535.00' and an arc length of 80.07 feet to a point at the northeast corner of the parcel herein described;

Running thence S 04° 09''40" E a distance of 346.67 feet to the southeast corner of the parcel herein described on the northerly streetline of said Newell Street to a point;

Running thence S 87° 44'00" W a distance of 113.00 feet along the northerly streetline of said Newell Street to the point of beginning.

The parcel above described is more particularly shown as Lot 2 on Land Court Plan No. 8372-J.

Excepting any and all interest of the Grantor in Newell Street.

Note: The above-described parcel shown as Lot 2 on Land Court Plan No. 8372-J is also shown on the plan entitled "Revised Sketch Plan Showing Lot 2 on Land Court Plan No. 8372-J" ("Revised Sketch Plan"), dated June 25, 2007, revised November 15, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which is attached as Exhibit B to the foregoing First Amendment to Grant of Environmental Restriction and Easement. Both plans depict the same parcel. The property boundary line dimensions shown above are based on Land Court Plan No. 8372-J. Those shown on the Revised Sketch Plan are the result of an on-the-

NOTES:
1. THE RESTRICTED AREAS SHOWN HEREON ARE UPON CERTIFICATE NO. 8572, AND DESCRIBED AS LOT 2 ON LAND COURT PLAN NO. 8572-J.
2. DIFFERING DESIGNS SUB-AREAS OF "OTHER GROUND-COVERING FEATURE AREA" SHOWN HEREON ARE AS SHOWN ON PLAN NO. 8572-J, AS REVISED SEPTEMBER-OCTOBER 2004, NO CHANGES HAVE OCCURRED IN LOT 2(A).
3. THE PROPERTY BOUNDARY LINE DESIGNATED AS SHOWN HEREON ARE THE RESULT OF AN ON-THE-GROUND SURVEY PERFORMED BY THE GRANTEE AND BOUNDARY ESTABLISHMENT SURVEY OF THE GRANTOR'S LAND AS SHOWN ON PLAN NO. 8572-J. THE BEARINGS SHOWN ON THIS PLAN ARE ROTATED -7°30'00" FROM THAT OF PLAN NO. 8572-J. THE DISTANCES SHOWN HEREON AND THOSE SHOWN ON SAID LAND COURT PLAN ARE A RESULT OF THE AFOREMENTIONED SURVEY. THE MAXIMUM ALLOWABLE DISTANCE TOLERANCE BETWEEN THE TWO SURVEYS.

EXHIBIT C

REVISED DESCRIPTION OF RESTRICTED AREAS BY METES AND BOUNDS

This Exhibit describes, by metes and bounds, the restricted areas under the Grant of Environmental Restriction and Easement ("Grant") that has been amended by the foregoing First Amendment to Grant of Environmental Restriction and Easement ("First Amendment"). The areas described below consist of portions of the Property subject to the Grant, which areas are identified and more particularly shown on a plan entitled "Revised Sketch Plan Showing Lot 2 on Land Court Plan No. 8372-J" ("Revised Sketch Plan"), dated June 25, 2007, revised November 15, 2007, prepared for General Electric Company by Hill Engineers, Architects, Planners, which plan is attached to the foregoing First Amendment as Exhibit B.

ENGINEERED BARRIER AREA

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the Engineered Barrier Area herein described, thence running N 13° 25' 29" W a distance of 101.6 feet to a point;

Thence running N 75° 24' E a distance of 68.4 feet to a point;

Thence running N 77° 11' E a distance of 43.6 feet to a point;

Thence running N 09° 20' W a distance of 12.9 feet to a point;

Thence running N 76° 34' E a distance of 0.2 feet to a point;

Thence running S 15° 34' 24" E a distance of 114.1 feet to a point;

Thence running S 77° 32' W a distance of 20.2 feet to a point;

Thence running S 41° 22' E a distance of 14.3 feet to a point;

Thence running S 12° 51' E a distance of 9.2 feet to a point;

Thence running N 87° 48' W a distance of 21.9 feet to a point;

Thence running N 74° 43' W a distance of 27.4 feet to a point;

Thence running N 87° 15' W a distance of 3.8 feet to a point;

Thence running S 76° 35' W a distance of 55.0 feet to the point of beginning.

LAND COURT DOCUMENT # 35333
PAGE 13 OF 22

The above-described area of land contains 12,341 square feet and is more particularly shown as "Engineered Barrier Area" on the above-referenced Revised Sketch Plan.

OPEN SOIL/VEGETATED AREA

Sub-Area A:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 31' W a distance of 40.8 feet to a point;

Thence running N 05° 12' E a distance of 2.4 feet to a point;

Thence running N 63° 22' E a distance of 2.6 feet to a point;

Thence running S 82° 34' E a distance of 2.4 feet to a point;

Thence running S 62° 13' E a distance of 3.1 feet to a point;

Thence running S 21° 39' E a distance of 2.9 feet to a point;

Thence running S 17° 13' E a distance of 7.3 feet to a point;

Thence running S 17° 57' E a distance of 12.0 feet to a point;

Thence running S 16° 32' E a distance of 14.5 feet to a point;

Thence running S 54° 35' E a distance of 3.9 feet to a point;

Thence running S 14° 45' W a distance of 2.5 feet to a point;

Thence running S 49° 31' W a distance of 3.0 feet to a point;

Thence running S 85° 18' W a distance of 1.8 feet to a point;

Thence running N 45° 36' W a distance of 2.5 feet to a point;

Thence running S 76° 34' W a distance of 5.9 feet to the point of beginning.

The above-described sub-area of land contains 417 square feet and is more particularly shown as Sub-Area A on the above-referenced Revised Sketch Plan.

LAND COURT DOCUMENT # 35333
PAGE 14 OF 22

Sub-Area B:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 25° 19' W a distance of 3.1 feet to a point

Thence running N 76° 43' E a distance of 6.0 feet to a point;

Thence running N 12° 28' W a distance of 6.4 feet to a point;

Thence running N 76° 09' E a distance of 2.6 feet to a point;

Thence running N 13° 31' W a distance of 23.7 feet to a point;

Thence running N 78° 18' E a distance of 2.7 feet to a point;

Thence running S 39° 15' E a distance of 2.2 feet to a point;

Thence running S 14° 58' E a distance of 15.7 feet to a point;

Thence running S 09° 31' E a distance of 10.7 feet to a point;

Thence running S 15° 28' W a distance of 4.5 feet to a point;

Thence running S 71° 55' W a distance of 9.3 feet to the point of beginning.

The above-described sub-area of land contains 156 square feet and is more particularly shown as Sub-Area B on the above-referenced Revised Sketch Plan.

Sub-Area C:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 46° 43' W a distance of 8.6 feet to a point;

Thence running N 76° 24' E a distance of 29.2 feet to a point;

Thence running S 28° 41' W a distance of 9.4 feet to a point;

Thence running S 77° 25' W a distance of 8.6 feet to a point;

Thence running S 74° 02' W a distance of 9.7 feet to the point of beginning.

LAND COURT DOCUMENT # 35333
PAGE 15 OF 22

The above-described sub-area of land contains 165 square feet and is more particularly shown as Sub-Area C on the above-referenced Revised Sketch Plan.

Sub-Area D:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 15° 31' W a distance of 13.0 to a point;

Thence running N 12° 36' W a distance of 12.0 feet to a point;

Thence running N 13° 29' W a distance of 16.0 feet to a point

Thence running N 12° 01' W a distance of 12.2 feet to a point;

Thence running N 76° 31' E a distance of 8.7 feet to a point;

Thence running S 13° 38' E a distance of 29.1 feet to a point;

Thence running N 76° 42' E a distance of 12.0 feet to a point;

Thence running S 13° 15' E a distance of 6.0 feet to a point;

Thence running N 76° 02' E a distance of 5.8 feet to a point;

Thence running S 10° 12' E a distance of 3.5 feet to a point;

Thence running S 76° 18' W a distance of 10.3 feet to a point;

Thence running S 77° 47' W a distance of 12.1 feet to a point;

Thence running S 10° 04' E a distance of 15.7 feet to a point;

Thence running N 88° 33' W a distance of 3.3 to the point of beginning.

The above-described sub-area of land contains 540 square feet and is more particularly shown as Sub-Area D on the above-referenced Revised Sketch Plan.

Sub-Area E:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 42' W a distance of 18.1 feet to a point;

LAND COURT DOCUMENT # 35333
PAGE 16 OF 22

Thence running N 75° 51' E a distance of 8.0 feet to a point:

Thence running S 13° 38' E a distance of 18.2 feet to a point;

Thence running S 76° 31' W a distance of 7.9 feet to the point of beginning.

The above-described sub-area of land contains 144 square feet and is more particularly shown as Sub-Area E on the above-referenced Revised Sketch Plan.

Sub-Area F:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the northwest corner of the sub-area herein described, thence running S 86° 15' 09" E W a distance of 35.54 feet to a point;

Thence running along a curve to the left with a radius of 534.95 and arc distance of 80.06 feet to a point;

Thence running S 15° 34' 24" E a distance of 31.9 feet to a point;

Thence running S 76° 34' W a distance of 0.2 feet to a point;

Thence running S 09° 20' E a distance of 12.9 feet to a point;

Thence running S 77° 11' W a distance of 43.6 feet to a point;

Thence running S 75° 24' W a distance of 68.4 feet to a point;

Thence running N 13° 25' 29" W a distance of 74.0 feet to the point of beginning.

The above-described sub-area of land contains 6,443 square feet and is more particularly shown as Sub-Area F on the above-referenced Revised Sketch Plan.

Sub-Area G:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the northwest corner of the sub-area herein described, thence running N 76° 35' E a distance of 55.0 feet to a point;

Thence running S 87° 15' E a distance of 3.8 feet to a point;

Thence running S 74° 43' E a distance of 7.1 feet to a point;

Thence running S 11° 36' E a distance of 18.0 feet to a point;

Thence running S 15° 59' E a distance of 19.5 feet to a point;

Thence running N 72° 39' E a distance of 5.0 feet to a point;

Thence running S 13° 44' E a distance of 8.1 feet to a point;

Thence running S 76° 31' W a distance of 55.3 feet to a point;

Thence running S 13° 30' E a distance of 20.1 feet to a point;

Thence running S 82° 02' W a distance of 3.0 feet to a point;

Thence running S 76° 18' 32" W a distance of 8.86 feet to a point;

Thence running N 19° 46' W a distance of 14.7 feet to a point;

Thence running N 17° 34' W a distance of 21.0 feet to a point;

Thence running N 13° 25' 29" W a distance of 34.1 feet to the point of beginning.

The above-described sub-area of land contains 3,490 square feet and is more particularly shown as Sub-Area G on the above-referenced Revised Sketch Plan.

Sub-Area H:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the northwest corner of the sub-area herein described, thence running N 77° 32' E a distance of 3.2 feet to a point;

Thence running S 15° 34' 24" E a distance of 200.8 feet to a point;

Thence running S 76° 18' 18" W a distance of 3.6 feet to a point;

Thence running N 06° 26' W a distance of 3.4 feet to a point;

Thence running N 73° 16' E a distance of 0.7 feet to a point;

Thence running N 16° 07' W a distance of 13.7 feet to a point;

Thence running N 16° 02' W a distance of 12.8 feet to a point;

LAND COURT DOCUMENT # 35333

Thence running N 13° 05' W a distance of 20.3 feet to a point;

Thence running N 14° 45' W a distance of 11.9 feet to a point;

Thence running N 15° 13' W a distance of 20.4 feet to a point;

Thence running N 16° 09' W a distance of 26.2 feet to a point;

Thence running N 62° 42' W a distance of 1.0 feet to a point;

Thence running S 67° 36' W a distance of 1.1 feet to a point;

Thence running N 28° 46' W a distance of 3.8 feet to a point;

Thence running N 10° 54' W a distance of 23.0 feet to a point;

Thence running N 18° 03' W a distance of 11.2 feet to a point;

Thence running N 15° 51' W a distance of 29.9 feet to a point;

Thence running N 15° 30' W a distance of 24.0 feet to the point of beginning.

The above-described sub-area of land contains 507 square feet and is more particularly shown as Sub-Area H on the above-referenced Revised Sketch Plan.

OTHER GROUND-COVERING FEATURE AREA

Sub-Area 1:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 25' 29" W a distance of 35.6 feet to a point;

Thence running S 17° 34' E a distance of 21.0 feet to a point;

Thence running S 19° 46' E a distance of 14.7 feet to a point;

Thence running S 76° 18' 32" W a distance of 3.2 feet to the point of beginning.

The above-described sub-area of land contains 50 square feet and is more particularly shown as Sub-Area 1 on the above-referenced Revised Sketch Plan.

PAGE 19 OF 22

Sub-Area 2:

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a point at the southwest corner of the sub-area herein described, thence running N 13° 25' 29" W a distance of 130.22 feet to a point;

Thence running N 82° 02' E a distance of 3.0 to a point;

Thence running N 13° 30' W a distance of 20.1 to a point;

Thence running N 76° 31' E a distance of 55.3 to a point;

Thence running N 13° 44' W a distance of 8.1 to a point;

Thence running S 72° 39' W a distance of 5.0 feet to a point;

Thence running N 15° 59' W a distance of 19.5 feet to a point;

Thence running N 11° 36' W a distance of 18.0 feet to a point;

Thence running S 74° 43' E a distance of 20.3 feet to a point;

Thence running S 87° 48' E a distance of 21.9 feet to a point;

Thence running N 12° 51' W a distance of 9.2 feet to a point;

Thence running N 41° 22' W a distance of 14.3 feet to a point;

Thence running N 77° 32' E a distance of 17.0 feet to a point;

Thence running S 15° 30' E a distance of 24.0 feet to a point;

Thence running S 15° 51' E a distance of 29.9 to a point;

Thence running S 18° 03' E a distance of 11.2 to a point;

Thence running S 10° 54' E a distance of 23.0 to a point;

Appendix I-6 – Parcel J9-23-26

Grant of Environmental Restriction and Easement – December 5, 2007

GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT
42 U.S.C. § 9601, *et seq.*, and M.G.L. c. 21E, § 6.

[Note: This instrument is established as an institutional control for a federal Superfund Removal Site, pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604.]
EPA Site Name: GE-Pittsfield/Housatonic River Site
DEP Site Name: GE Pittsfield Disposal Sites
DEP Disposal Site No. GECD440

This GRANT OF ENVIRONMENTAL RESTRICTION AND EASEMENT (the "Grant") is made as of this 5th day of December, 2007, by the City of Pittsfield, Massachusetts ("Grantor").

WITNESSETH:

WHEREAS, Grantor is the owner in fee simple of a parcel of recreational land known as Lakewood Playground located at Newell Street in Pittsfield, Berkshire County, Massachusetts, as evidenced by the following Certificates of Title registered in the land court records of the Berkshire County Land Registration Office: Transfer Certificate of Title No. 2560, dated June 7, 1951, in Book 13, Page 737;

WHEREAS, portions of said parcel of land, numbered as Tax Parcel No. J9-23-26, which is more particularly bounded and described in Exhibit A attached hereto and made a part hereof (the "Property"), are subject to this Grant. The Property is shown as Lot C on a plan registered in the Berkshire County Land Registration Office as Land Court Plan No. 8372-E (a copy of which is filed with Certificate of Title No. 2099);

WHEREAS, the Property and certain restricted areas of the Property referred to as the Open Soil/Vegetated Area and the Groundwater Response Action Component Area, (if any such area is established in the future) as defined below (jointly, the foregoing restricted areas comprising the "Restricted Area"), are subject to covenants, restrictions, easements and other rights and obligations under this Grant; the Restricted Area being shown on a plan entitled "Sketch Plan," and consisting of one sheet, which is attached hereto as Exhibit B and is made a part hereof; as such plan may be revised by the General Electric Company ("GE"), with 30-days prior notice to Grantor, with the approval of Grantee and in accordance with the Consent Decree and the Statement of Work attached thereto (as defined below), to show the location of any Groundwater Response Action Component Area, if and when any such Response Action to address groundwater contamination is undertaken at the Property; said plan, with any such revision, being collectively referred to herein as the "Plan of Restricted Area";

WHEREAS, the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, a duly constituted agency organized under the laws of the United States of America and having a regional office at One Congress Street, Boston, Massachusetts 02114 ("EPA"), has identified a site, comprised of the GE facility in Pittsfield, Massachusetts, the Housatonic River adjacent to and downstream of the GE facility, and other areas, all as more particularly described in the

LAND COURT DOCUMENT # 35294
PAGE 1 OF 34

Consent Decree (defined below), known as the "GE-Pittsfield/Housatonic River Site" (the "Site"), as a result of the release of hazardous substances at or from the GE facility, as such terms are defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9601 et seq.;

WHEREAS, the MASSACHUSETTS DEPARTMENT OF ENVIRONMENTAL PROTECTION, a duly constituted agency organized under the laws of the Commonwealth of Massachusetts and having an office at One Winter Street, Boston, Massachusetts 02108 ("DEP"), as a result of the release of oil and/or hazardous materials at the Site, as those terms are defined in the Massachusetts Oil and Hazardous Materials Release, Prevention and Response Act, M.G.L. c. 21E ("Chapter 21E"), has placed the Site and/or portions of the Site on the Massachusetts List of Confirmed Disposal Sites and Locations To Be Investigated, pursuant to Chapter 21E, and has assigned to the portion of the Site containing the Property DEP Disposal Site Number GECD440, pursuant thereto;

WHEREAS, EPA regulates activities at hazardous substance disposal sites pursuant to CERCLA and the National Contingency Plan, 40 C.F.R. 300.400, *et seq.*, as amended (the "NCP"), and DEP regulates activities at disposal sites pursuant to Chapter 21E and the Massachusetts Contingency Plan, 310 C.M.R. 40.0000, as amended (the "MCP"), respectively;

WHEREAS, the Property is situated within the Site and specifically within an area of the Site known as Newell Street Area I;

WHEREAS, GE has entered into a Consent Decree in connection with the Site with the United States, the State of Connecticut, and the Commonwealth of Massachusetts (the "Commonwealth") in United States of America, State of Connecticut, and Commonwealth of Massachusetts v. General Electric Company, Civil Action No. 99-30225-MAP et seq., entered by the United States District Court for the District of Massachusetts on October 27, 2000 (the "Consent Decree");

WHEREAS, the Consent Decree and an accompanying Statement of Work ("SOW") require the performance of certain Response Actions (as defined below) at the Site or portions thereof;

WHEREAS, the Response Actions are ongoing at the Site and include Response Actions at the Property;

WHEREAS, EPA has determined and the Consent Decree requires that certain easements, rights, obligations, covenants, and restrictions, as more particularly set forth below, are necessary at the Property to conduct and ensure the protectiveness and integrity of the Response Actions;

WHEREAS, DEP has provided EPA with review and comment on the Response Actions, and agrees with the need for easements, rights, obligations, covenants, and restrictions, as aforesaid;

LAND COURT DOCUMENT # 35294
PAGE 2 OF 34

WHEREAS, because the Response Actions, as they affect the Property, are a Removal Action under CERCLA, EPA has requested that DEP accept a grant of such easements, rights, obligations, covenants, and restrictions, as aforesaid, pursuant to its authority under M.G.L. c. 21E, § 6;

WHEREAS, Grantor has agreed to grant the aforesaid easements, rights, obligations, covenants and restrictions, as more particularly set forth below, to DEP and its assigns pursuant to the Consent Decree;

NOW, THEREFORE, pursuant to the terms of the Consent Decree and in consideration of EPA's and the Commonwealth's agreement on behalf of DEP to settle certain of their claims against Grantor pursuant thereto, the receipt and sufficiency of which consideration is hereby acknowledged, GRANTOR does hereby COVENANT AND DECLARE that the Property shall be subject to the restrictions on activity and use set forth below, and does GIVE, GRANT AND CONVEY to DEP ("Grantee"), with QUITCLAIM COVENANTS, (1) the perpetual right to enforce said activity and use restrictions, and (2) an environmental protection and access easement of the nature and character, and for the purposes hereinafter set forth, with respect to the Property (collectively, the "Environmental Restriction and Easement").

Said Environmental Restriction and Easement is subject to the following terms and conditions:

1. **Purpose.** It is the purpose of this instrument to establish covenants, restrictions and easements, all of which shall run with the land, to facilitate the cleanup of environmental contamination and to protect human health and the environment by reducing the risk of exposure to contaminants.

2. **Definitions.** For purposes of this instrument, the following terms shall have the following meanings:

A. "Grantor" includes the Grantor and any successor of Grantor in title to the Property.

B. "Groundwater Response Action Component Area" shall mean those areas of the Property (if any) designated as such on the Plan of Restricted Area; generally such areas contain components of the response action for groundwater at the Property, if any.

C. "Health and Safety Protocol" shall mean the Health and Safety Protocol attached hereto as Exhibit D and incorporated herein by reference.

D. "Licensed Site Professional" or "LSP" each shall mean a hazardous waste site cleanup professional, as defined in M.G.L. c. 21A, § 19, holding a valid license issued by the Board of Registration of Hazardous Waste Site Cleanup Professionals, pursuant to M.G.L. c. 21A, §§ 19 through 19J.

LAND COURT DOCUMENT # 35294
PAGE 3 OF 34

E. "Open Soil/Vegetated Area" shall mean the area of the Property designated as such on the Plan of Restricted Area, as more particularly bounded and described in Exhibit C attached hereto and made a part hereof.

F. "Recorded and/or Registered" and its various conjugations shall mean, as to unregistered land, recorded with the appropriate registry of deeds; and as to registered land, filed with the Land Registration Office, conjugated as appropriate;

G. "Response Actions" shall mean the environmental response actions required to be undertaken at the Site or portions thereof pursuant to the Consent Decree and SOW (designated as Removal Actions under CERCLA), including (but not limited to) source control measures, soil removal, capping of contaminated soil, groundwater monitoring and (if necessary) response actions to address groundwater contamination, other actions to address existing contamination, institutional controls in the nature of restrictive covenants to prevent certain activities and uses at various properties, and certain operation and maintenance activities necessary to maintain the effectiveness of the response actions.

H. "Soil Management Protocol" shall mean the Soil Management Protocol attached hereto as Exhibit E and incorporated herein by reference.

I. "Statement of Work" or "SOW" shall mean the Statement of Work for Removal Actions Outside the River, which is Appendix E of the Consent Decree.

J. "Utility Work" shall mean the maintenance and repair of pipes, lines and other such conveyances for water, sewer, storm-water, steam, gas, fuel oil, electricity, and communications, but not the installation of new pipes, lines, or other such conveyances.

3. **Restricted Activities and Uses.** Except as provided in Paragraph 4 ("Permitted Activities and Uses"), Paragraph 6 ("Conditional Exceptions From Restricted Activities and Uses"), Paragraph 7 ("Applicability"), and/or Paragraph 8 ("Emergency Excavation"), Grantor shall not perform, suffer, allow or cause any person to perform any of the following activities or uses in, on, upon, through, over or under the Restricted Area or portions thereof:

A. residential activity or use;

B. day care and educational facility (for children under eighteen (18) years of age);

C. agricultural activity or use;

D. extraction, consumption, or utilization of groundwater underlying the Property, including without limitation, extraction for potable, industrial, irrigation, or agricultural use;

E. excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and

LAND COURT DOCUMENT # 35394
PAGE 4 OF 34

F. any activity or use that would interfere with, or would be reasonably likely to interfere with, the implementation, operation, or maintenance of any aspect or component of the Response Actions already constructed or under construction, or of which Grantor has notice, including without limitation, interference with any groundwater contaminant containment measures or barriers situated within the Groundwater Response Action Component Area (if any), or any groundwater monitoring wells.

4. Permitted Activities and Uses. Grantor reserves the right to perform, suffer, allow or to cause any person to perform any activity in, on, upon, through, over or under the Property, or make any use of the Property, that is not restricted by the provisions of this Environmental Restriction and Easement. In addition, Grantor may perform, suffer, allow or cause any person to perform the uses and activities set forth below in, on, upon, through, over or under the Property or portions thereof. Except for the permitted activities and uses allowed pursuant to subparagraphs 4.A and 4.B below, all such activities and uses shall only be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol, as applicable, as set forth below. Grantor shall restore the Property, or any portion thereof, affected by any activity or use permitted under subparagraphs 4.A through 4.E to its prior condition immediately upon completion of such activity or use, also in accordance with the Soil Management Protocol and the Health and Safety Protocol (except for permitted activities and uses allowed pursuant to subparagraph 4.A and 4.B).

A. Surface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.A. In conducting activities and uses pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Such surface excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored in the Open Soil/Vegetated Area to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation or storage shall not exceed fourteen (14) days.

ii. Grantor shall take appropriate measures to secure stored soil and to control erosion, dust, and runoff.

iii. Grantor shall (a) backfill excavations to the original surface grade with clean soil or with soil excavated from the Open Soil/Vegetated Area solely from the top one (1) foot of the surface of the ground; and (b) reestablish any disturbed vegetation.

iv. Grantor shall provide Grantee with written notice of each such surface excavation project no later than thirty (30) days after completion, and shall use the

LAND COURT DOCUMENT # 35294
PAGE 5 OF 34

form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee; provided, however, that any such project where the total amount of soil that has been or will be excavated is less than five (5) cubic feet shall not be subject to the foregoing notification requirement.

v. Grantor shall not store or dispose of any excavated material outside of the Open Soil/Vegetated Area.

B. Surface Excavation of any Volume. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, solely within the top one (1) foot of the surface of the ground, of any volume of such materials shall be permitted. In conducting work pursuant to this subparagraph, Grantor shall comply with the requirements listed above in subparagraphs 4.A.i through 4.A.iv, and the following additional requirements:

i. Grantor shall utilize an LSP to oversee the surface excavation permitted pursuant to this subparagraph.

ii. Disposal of excavated materials off of the Property shall be permitted provided that an LSP oversees such disposal and that the Grantor complies with the provisions of Paragraph 9 of the Soil Management Protocol regarding off-Property disposal of soil and other materials.

C. Surface and/or Subsurface Excavation of Ten (10) Cubic Yards or Less. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, at any depth, of no more than ten (10) cubic yards of such materials, in the aggregate, on a per project basis, shall be permitted. Grantor shall not segment a project to avoid the ten (10) cubic yard limitation established by this subparagraph 4.C. In conducting work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. Grantor shall utilize an LSP to oversee the excavation permitted pursuant to this subparagraph, including without limitation, the disposal of soil and other material. All activities and uses permitted pursuant to this subparagraph shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol.

ii. Such excavation shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or

LAND COURT DOCUMENT # 35294
PAGE 6 OF 34

removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee.

D. Surface and/or Subsurface Excavation for Utility Work. Notwithstanding the restrictions set forth in subparagraph 3.E, excavation, digging, drilling, or other intrusive activity into or disturbance of surface of the ground and/or the underlying soil in the Open Soil/Vegetated Area, at any depth, for the purpose of Utility Work, shall be permitted. In conducting Utility Work pursuant to this subparagraph, Grantor shall comply with the following requirements:

i. All such Utility Work shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol. Grantor shall utilize an LSP to oversee all such activities and uses, including without limitation, the disposal of soil and other materials.

ii. Such Utility Work shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity or use; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

iii. Grantor shall give Grantee fifteen (15) days' advance written notice prior to conducting any activities and uses pursuant to this subparagraph 4.D.

iv. Grantor shall provide Grantee with written notice of each such project no later than thirty (30) days after completion. Grantor shall use the form attached hereto as Exhibit F for such notice, as such form may be modified in writing from time to time by Grantee.

E. Sampling. Notwithstanding the restrictions set forth in subparagraphs 3.D and 3.E, soil and groundwater sampling activities shall be permitted in the Open Soil/Vegetated Area; provided that Grantor shall utilize an LSP to oversee such sampling; and further provided that all such activities and uses shall be conducted in accordance with the Soil Management Protocol and the Health and Safety Protocol.

LAND COURT DOCUMENT # 35294
PAGE 7 OF 34

F. All other restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall apply to the activities and uses permitted pursuant to this Paragraph 4 ("Permitted Activities and Uses").

5. **Obligations and Conditions.** Grantor affirmatively agrees that any utility repair, maintenance or installation conducted in confined spaces at the Property shall comply with the Health and Safety Protocol.

6. **Conditional Exceptions from Restricted Activities and Uses.** Grantor may request from Grantee a conditional exception from one or more of the restricted activities or uses set forth in Paragraph 3 ("Restricted Activities and Uses") for a particular proposed activity or use and any related work, which would otherwise temporarily violate such restriction(s). Such request shall be submitted to Grantee in accordance with and shall be subject to all of the following:

A. Submittal Requirements. All requests for conditional exceptions shall, at a minimum:

i. include a written description and/or plans of the proposed activity or use and other relevant information;

ii. identify the Restricted Area or types of restricted areas for which the conditional exception is requested;

iii. identify the specific restriction(s) from which the conditional exception is requested, and explain the need for the exception;

iv. state the duration of the activity or use and any related work for which the conditional exception is requested, including a proposed termination date for the conditional exception; and

v. if required pursuant to subparagraph 6.B, below, include (a) a determination by an appropriately trained and licensed professional, such as an LSP, that the proposed activity and use and any related work for which the conditional exception is requested would satisfy the human health and environmental risk standard set forth in subparagraph 6.C, and (b) supporting technical analysis upon which such determination is based.

B. Requirement to Use an Appropriately Trained and Licensed Professional; Request for Waiver. An appropriately trained and licensed professional, such as an LSP, shall make the risk determination required in subparagraph 6.A.v, unless waived by Grantee pursuant to this subparagraph 6.B. Grantor may request Grantee to waive such requirement, if appropriate under the circumstances, for example, if a particular proposed activity and use and any related work is de minimis. In the event of such a request or on its own initiative, Grantee, in its sole discretion, may waive such requirement taking into consideration the nature and scope of a particular proposed conditional exception request. Any such waiver must be in writing. A waiver for one

LAND COURT DOCUMENT # 35294
PAGE 8 OF 34

conditional exception request shall not be deemed to be a waiver for any future conditional exception request.

C. Human Health and Environmental Risk Standard. Grantor shall demonstrate, in accordance with the procedures set forth in subparagraphs 6.A and 6.B, that the activity or use and any related work for which a particular conditional exception is requested would not result in an unacceptable risk to human health or the environment, pursuant to the criteria set forth at 40 C.F.R. § 300.430(e)(2)(i), as amended, or interfere with the integrity or effectiveness of the Response Actions. Such demonstration shall include, but not be limited to, consideration of the following factors, as applicable:

i. potential exposure to or release of hazardous substances;

ii. potential adverse impacts of the proposed activity or use on surface water runoff pathways;

iii. potential creation of pathways of contaminant migration;

iv. potential impact on groundwater and any nonaqueous-phase liquids ("NAPL");

v. management plans for excavated contaminated materials, including handling and disposal;

vi. appropriate worker health and safety plans; and

vii. whether the proposed activity or use and any related work would interfere with the implementation, operation and/or maintenance of the Response Actions and if so, whether the proposed activity or use is necessary to reduce a threat to human health or the environment.

D. Other Relevant Considerations. In reviewing a proposed conditional exception request, Grantee may consider Grantor's financial and/or technical ability to perform the necessary response work in connection with such request. Grantee may also consider any other relevant matters related to the human health and environmental risk standard set forth in subparagraph 6.C, above.

E. Completeness Determination, Review and Response.

i. If Grantee determines that Grantor's conditional exception request is sufficient and complete for purposes of review, Grantee shall review such request. If necessary, Grantee may notify Grantor of any deficiencies in Grantor's request, and may provide Grantor with an opportunity to submit supplemental information.

LAND COURT DOCUMENT # 35294
PAGE 9 OF 34

ii. Except as provided for in subparagraph 6.G, Grantee, upon completion of its review of any conditional exception request, based upon whether the human health and environmental risk standard set forth in subparagraph 6.C would be satisfied, and upon the other relevant considerations set forth in subparagraph 6.D, shall determine whether the requested conditional exception is appropriate and, if so, shall issue the conditional exception. If Grantee determines that the requested conditional exception is not appropriate, then Grantee shall issue a written explanation. Grantee may condition its issuance of a conditional exception as appropriate, including without limitation, upon the results of future sampling and/or testing.

iii. All conditional exceptions must be in writing and signed by Grantee.

F. Interim and Closeout Report Requirements. During and/or upon completion of the activity or use and any related work for which the conditional exception was obtained, upon request by Grantee, Grantor shall submit a written report confirming that such activity or use and related work was or is being implemented in accordance with the conditional exception, including in accordance with the representations in Grantor's conditional exception request submittal regarding the requirements set forth in subparagraphs 6.C and 6.D. Such report shall be prepared and signed by an appropriately trained and licensed professional, such as an LSP, unless pursuant to subparagraph 6.B Grantee previously waived the requirement to include a risk determination and supporting technical analysis by such professional.

G. Applicability of Amendment Provision to Conditional Exception Requests. Any conditional exception request for an activity or use and any related work which, in the judgment of Grantee, would result in a permanent modification to an activity or use restriction established in Paragraph 3 ("Restricted Activities and Uses"), including without limitation, to the boundary of the Restricted Area or any particular type of restricted area, shall require an amendment to this instrument in lieu of a conditional exception, in accordance with Paragraph 15 ("Amendment and Release").

7. **Applicability.** The restrictions set forth in Paragraph 3 ("Restricted Activities and Uses") shall not apply to any response action undertaken by EPA or DEP, or their respective agents, representatives, contractors, subcontractors or employees, pursuant to CERCLA or Chapter 21E, and their respective implementing regulations. In addition, the restrictions set forth in subparagraphs 3.D through 3.F shall not apply to any of the following activities conducted by GE, or its employees, contractors, or subcontractors, pursuant to the Consent Decree and/or the SOW, as approved by EPA (which approval shall be after a reasonable opportunity for review and comment by DEP), for purposes of implementing or monitoring the Response Actions, provided that such activities do not permanently modify the boundary of the Restricted Area or of any particular type of restricted areas: soil or groundwater sampling; excavation, digging, drilling, or other intrusive activity into or disturbance of the surface of the ground and/or the underlying soil; and/or groundwater extraction.

8. **Emergency Excavation.** If it becomes necessary to excavate a portion of the Property, as part of a response to an emergency (e.g., repair of utility lines or responding to fire

LAND COURT DOCUMENT # 35294
PAGE 10 OF 34

or flood), any activity and use restriction provisions of Paragraph 3 ("Restricted Activities and Uses") above, which would otherwise restrict such excavation, shall be suspended with respect to such excavation for the duration of such emergency response, provided that Grantor:

A. Limits the actual disturbance involved in such excavation to the minimum reasonably necessary to adequately respond to the emergency;

B. Implements all measures necessary to limit actual or potential risk to the public health and environment arising from the emergency and the response thereto;

C. Undertakes precautions to minimize exposure of workers and neighbors of the Property to the hazardous substance or material; and

D. Engages an LSP to oversee the implementation of the terms of this Paragraph 8 ("Emergency Excavation"), and to prepare and oversee the implementation of a written plan which, in said professional's opinion, will restore the Property to a condition consistent with its condition before the emergency excavation took place, with minimal disturbance of the contaminated soils; said plan to be subject to the Soil Management and the Health and Safety Protocols, as applicable; said plan to be promptly prepared and implemented; a copy of said plan to be submitted to EPA and DEP within ten (10) days of its performance, together with a completed Post-Work Notification Form, attached hereto as Exhibit F, with a statement from said LSP that the Property has been restored to said condition; provided, however, that in cases where only minimal excavation has occurred such that there has been no significant impact on the protectiveness of the Response Actions, Grantor may request Grantee to allow the Grantor to prepare and submit the plan and statement, without utilizing the services of the otherwise required LSP.

In addition, Grantor shall notify EPA and the DEP Western Regional Office Emergency Response Section, or such other party as EPA or DEP may identify in writing to Grantor, of such emergency as soon as possible but no more than two (2) hours after having learned of such emergency.

9. Grant of Easements. In establishing this Environmental Restriction and Easement, Grantor hereby grants the following easements for the term of this Grant to Grantee, its agents, representatives, contractors, subcontractors and employees:

A. An easement to pass and repass over the Property for the purpose of inspecting the Property to ensure compliance with and fulfillment of the terms of this Environmental Restriction and Easement; and

B. An easement in, on, upon, through, over and under the Property for the following purposes:

i. constructing, implementing, monitoring, and performing the Response Actions and operation and maintenance for the Response Actions;

LAND COURT DOCUMENT # 35294
PAGE 11 OF 34

ii. assessing the need for, planning, or implementing other response actions at the Site;

iii. verifying any data or information submitted to EPA or DEP;

iv. surveying and obtaining samples;

v. installing groundwater monitoring wells and extraction wells;

vi. conducting investigations relating to contamination at or near the Site; and

vii. determining whether additional activity or use restrictions are necessary.

10. Severability. Grantor agrees, in the event that a court or other tribunal determines that any provision of this instrument is invalid or unenforceable:

A. That any such provision shall be deemed to have been modified automatically to conform to the requirements for validity and enforceability as determined by such court or tribunal; or

B. That any such provision that, by its nature, cannot be so modified, shall be deemed deleted from this instrument as though it had never been included.

Such modifications and deletions shall be deemed effective as of the date of the determination of the court or other tribunal. In either case, the remaining provisions of this instrument shall remain in full force and effect.

11. Enforcement. Grantor expressly acknowledges that a violation of the terms of this instrument could result in the following:

A. The assessment of penalties and other action by DEP to enforce the terms of this Environmental Restriction and Easement, pursuant to Chapter 21E and the MCP; and/or

B. Upon a determination by a court of competent jurisdiction, the issuance of criminal and civil penalties, and/or equitable remedies, which could include the issuance of an order to (i) modify or remove any improvements constructed in violation of the terms of this Environmental Restriction and Easement at Grantor's sole cost and expense or (ii) to reimburse the Commonwealth and the United States for any costs incurred in modifying or removing any improvement constructed in violation of the terms of this Environmental Restriction and Easement.

12. Provisions to Run With the Land. The land use restrictions, obligations, and access rights provided herein establish certain rights, liabilities, agreements and obligations upon and subject to which the Property or any portion thereof, shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered, or conveyed. The rights, liabilities, agreements and obligations herein set forth shall run with the Property for the term of this instrument, as applicable thereto, and any portion thereof, and shall inure to the benefit of Grantee and its

LAND COURT DOCUMENT # 35294
PAGE 12 OF 34

assigns and be binding upon Grantor and all parties claiming by, through or under Grantor. Grantor hereby covenants for himself and his executors, administrators, heirs, successors and assigns, to stand seized and hold title to the Property, or any portion thereof, subject to these land use restrictions, access rights, and other provisions of this Grant; provided, however, that a violation of these land use restrictions, access rights, and other provisions shall not result in a forfeiture or reversion of Grantor's title to the Property.

13. **Concurrence Presumed.** It is agreed that:

A. Grantor and all parties claiming by, through or under Grantor shall be deemed to be in accord with the provisions herein set forth; and

B. Grantor and all such parties agree for and among themselves and any party claiming by, through or under them, and their respective agents, contractors, sub-contractors and employees, that the land use restrictions and access rights herein established shall be adhered to and not violated and that their respective interests in the Property shall be subject to the provisions herein set forth.

14. **Incorporation into Deeds, Mortgages, Leases and Instruments of Transfer.** Grantor hereby agrees to incorporate this instrument, in full or by reference, into all deeds, easements, mortgages, leases, licenses, occupancy agreements or any other instrument of transfer by which an interest in and/or a right to use the Property, or any portion thereof, is conveyed; provided, however, that any failure of Grantor to do so shall not affect the validity or applicability of the provisions of Paragraph 12 ("Provisions to Run With the Land").

15. **Amendment and Release.**

A. Amendment at Grantee's Request.

i. Grantee may request Grantor to amend this instrument. Grantor hereby further agrees to execute any such amendment which Grantee reasonably deems necessary for the effective administration of this instrument; provided, however, that such amendment shall be limited to procedural matters hereunder. Accordingly, the foregoing obligation shall not obligate Grantor to impose additional substantive restrictions on the Property, beyond those listed in Paragraph 3 ("Restricted Activities and Uses"); nor to impose additional substantive limitations on the permitted activities and uses set forth in Paragraph 4 ("Permitted Activities and Uses"); nor to impose additional substantive obligations and conditions upon Grantor, beyond those set forth in Paragraph 5 ("Obligations and Conditions"). All amendments shall include Grantee's signed approval and shall become effective upon Recordation and/or Registration.

ii. Notwithstanding the foregoing, Grantor expressly acknowledges and agrees that the within Grant includes the right of GE, in accordance with the Consent Decree, with 30-days prior notice to Grantor and written approval of Grantee, to Record and/or Register a revised Plan of Restricted Area indicating the location of

LAND COURT DOCUMENT # 35294
PAGE 13 OF 34

any Groundwater Response Action Component Area and associated notice thereof. The Recordation and/or Registration of any such revised Plan of Restricted Area and associated notice thereof shall not be deemed an amendment to this Grant, but rather the exercise of rights established by, and effective upon the Recordation and/or Registration of, this Grant.

B. Amendment at Grantor's Request. Grantor may amend this instrument only with the prior, written approval of the Grantee. Grantor may propose to Grantee an amendment of an activity or use restriction set forth in Paragraph 3 ("Restricted Activities and Uses") or of a permitted use set forth in Paragraph 4 ("Permitted Activities and Uses"), based upon changed circumstances, including, without limitation, new analytic and engineering data or a Grantor proposal to perform additional remediation at the Property. In the event that Grantor requests such an amendment, Grantor shall provide such information as Grantee may require for review of such a request, including without limitation, information that addresses the considerations set forth in Paragraph 6 ("Conditional Exceptions from Restricted Activities and Uses"), as applicable, and an explanation of the changed circumstances. If Grantee determines that any amendment to this Grant proposed by Grantor is not appropriate, then Grantee shall issue a written explanation.

C. Release. This instrument may be released, in whole or in part, by Grantee in Grantee's sole discretion, and in accordance with CERCLA, the NCP, Chapter 21E and the MCP, to the extent applicable. This instrument shall not be deemed released unless and until Grantee, its successors and assigns, and/or any other party claiming under Grantee, have released their respective interests. Said release shall become effective upon its Recordation and/or Registration.

D. Recordation and/or Registration. Grantor hereby agrees to Record and/or Register any amendment to and/or release of this instrument, and/or other document created pursuant to this instrument for which Recordating and/or Registration is required, within thirty (30) days of the date of having received from Grantee any such amendment, release, and/or other document. No more than thirty (30) days from the date of Recordating and/or Registration, Grantor shall provide to Grantee a certified Registry/Land Registration Office copy of the amendment, release, and/or other such document. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final recording and/or registration information for the amendment, release, and/or other such document, certified by said Registry and/or Land Registration Office. Grantor shall pay any and all recording fees, land transfer taxes and other such transaction costs associated with any such amendment, release, and/or other document. Grantor further agrees to cooperate with GE in the Recordation and/or Registration of a revised Plan of Restricted Area, as described above, and any associated notice thereof.

E. Notice to Local Officials. Grantor further agrees to notify local officials and the public of the amendment or release in accordance with the requirements set forth in 310 C.M.R. 40.1403(7), as amended. A copy of said regulation is attached hereto as Exhibit G.

LAND COURT DOCUMENT #35294
PAGE 14 OF 34

16. **No Dedication Intended.** Nothing herein set forth shall be construed to be a gift or dedication of the Property to Grantee, its assigns or to the general public for any purpose whatsoever.

17. **Term.** This instrument shall run with the land in perpetuity and is intended to conform to the exception for "other restrictions held by any governmental body" set forth in clause (c) of the first paragraph of M.G.L. c. 184, § 26, as amended.

18. **Rights Reserved.** It is expressly agreed that acceptance of this instrument by Grantee or its assignment shall not operate to bar, diminish, or in any way affect any legal or equitable right that Grantee or its assigns may otherwise have to issue any future order or take response action with respect to the Property or in any way affect any other claim, action, suit, cause of action, or demand which Grantee or its assigns may otherwise possess or hereafter acquire with respect thereto.

Nothing in this instrument shall limit or otherwise affect any rights that the United States or the Commonwealth may otherwise have to obtain access to, or restrict the use of, the Property pursuant to CERCLA, Chapter 21E, or any other applicable statute or regulation.

Nothing in this instrument shall waive such liability as Grantor may otherwise have for any release or any threat of a release of hazardous substances, oil or hazardous materials occurring as a result of Grantor's exercise of any of its rights hereunder, nor shall any provision of this instrument excuse compliance with CERCLA, Chapter 21E, or any other applicable federal, State or local laws, regulations or ordinances.

The rights reserved to Grantee in this Paragraph 18 ("Rights Reserved") shall be in addition to any rights reserved to Grantee elsewhere in this instrument.

19. **Assignment.** This instrument, including without limitation all easements, rights, covenants, obligations and restrictions inuring to the benefit of Grantee, herein contained, shall be assignable by Grantee, in whole or in part, at any time. This instrument may only be assigned to EPA, or any state or federal agency with at least statewide jurisdiction that has statutory authority to hold property interests and to administer or to enforce property restrictions such as this Environmental Restriction and Easement on behalf of the State or the United States, or to any other appropriate entity upon the mutual agreement of Grantee and Grantor. In the event of any assignment, Grantee shall notify Grantor by notice sent by first-class mail, postage prepaid, to Grantor's address first above-written.

20. **Agency Review and Comment; Notice.** Prior to responding to any request for approval or taking any other action pursuant to this instrument, Grantee shall first provide EPA with a reasonable opportunity to review and comment upon the requested approval or proposed action. Grantor shall submit duplicate copies of any submissions or notices made to Grantee pursuant to this instrument to Grantee, with a copy to EPA at the following addresses, by first class mail, postage prepaid:

A. to EPA: U.S. Environmental Protection Agency

21. Effective Date. This instrument shall become effective upon its Recordation and/or Registration.

No more than thirty (30) days from the date of Recording and/or Registration, Grantor shall provide Grantee with a certified Registry/Land Registration Office copy of this instrument. At that time, or as soon thereafter as it becomes available, Grantor shall provide Grantee with the final Recording and/or Registration information for this instrument, certified by said Registry/Land Registration Office.

As this instrument is granted to an agency of the Commonwealth of Massachusetts, no Massachusetts deed excise tax stamps are affixed hereto, none being required by law (M.G.L. Chapter 64D, Section 1, as amended).

LEGAL DESCRIPTION OF THE PROPERTY BY METES AND BOUNDS

Parcel J9-23-26: Lakewood Park Perimeter

Land in the city of Pittsfield, Berkshire County, Massachusetts, bounded and described as follows:

Beginning at a monument in the supposed northerly sideline of Newell Street;

Running thence N 41° 50' E along the supposed northerly sideline of Newell Street a distance of 488.17 feet a to a monument;

Running thence N 24° 10'E along the supposed northerly sideline of Newell Street a distance of 98.25 feet to the northeasterly corner of the parcel herein described. Said point is also the southeasterly corner of land formerly of E.D. Jones & Sons Company;

Running thence along said formerly E.D. Jones & Sons Company on a curve to the left with a radius of 1144.92 feet, an arc distance of 568.45 feet and a chord distance of 562.61 on a direction of S 83° 55' 24" W to a point;

Running thence S 69° 42' W along said formerly E.D. Jones & Sons Company a distance of 402.10 feet to the northwest corner of the parcel herein described;

Running thence S 27° 59' E along said formerly E.D. Jones & Sons Company and land formerly of Ernest Marchiceo et al a distance of 477.34 feet to a point in the supposed northerly line of said Newell Street marking the southeast corner of said parcel;

Running thence N 64° 15' E along the northerly line of Newell Street a distance of 384.96 feet to the point of beginning.

The parcel above described is more particularly shown as lot C on Land Court plan no. 8372E.

EXHIBIT C

LEGAL DESCRIPTION OF THE RESTRICTED AREA BY METES AND BOUNDS

Lot J9-23-26
Open Soil/Vegetated Area

Land in the city of Pittsfield, Berkshire County, Massachusetts bounded and described as follows:

Commencing from the southwest corner of the premises described in Exhibit A and in the Land Court Certificate No. 2560, thence running 151.00 feet along the westerly line of the premises to the point of beginning of the Restricted Area herein described at the southwest corner thereof, said point is in the easterly boundary line of land described in a deed to Allegrone Real Estate, LLC, recorded in the Berkshire Middle District Registry of Deeds in Book 2186, Page 2;

Running thence N 39 24' 29" W along said Allegrone Real Estate, LLC a distance of 302 feet, more or less, to the southerly edge of the Housatonic River;

Running thence easterly along the southerly edge of the Housatonic River a distance of 268 feet, more or less, to a point;

Running thence S 05 03'00" W a distance of 381 feet, more or less, to the point of beginning.

The above described Area of land contains 40,260 square feet and is more particularly shown as Open Soil/Vegetated Area on a plan entitled "Sketch Plan Showing Lot C on Land Court Plan No. 8372-E", prepared for City of Pittsfield, dated March 12, 2007, Drawing No. VE101, and prepared by Hill Engineers, Architects, Planners, which plan is recorded in the Berkshire Middle District Registry Of Deeds in Plat H, number 344.

EXHIBIT D

HEALTH AND SAFETY PROTOCOL

1. This Health and Safety Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Except as provided below, in Paragraph 3 of this Protocol, Grantor shall prepare and submit a Health and Safety Plan ("HSP") to Grantee and EPA pursuant to Paragraph 20 ("Agency Review and Comment; Notices") of the Grant, fifteen (15) days or more before conducting any permitted activity or use pursuant to Paragraph 4 ("Permitted Activities and Uses") of the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant. If appropriate, Grantor may submit a pre-existing health and safety plan in lieu of preparing a new plan to address this requirement and/or incorporate by reference a previously submitted HSP. Grantor shall comply with the HSP when conducting any permitted activity or use pursuant to the Grant that is subject to this Health and Safety Protocol or as otherwise required by the Grant.

3. An HSP shall not be required for any excavation permitted pursuant to the following subparagraphs of the Grant: 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less"), 4.B ("Surface Excavation of any Volume"), and/or 4.D ("Surface and/or Subsurface Excavation for Utility Work"), provided that the excavation permitted under subparagraph 4.D is conducted solely within one (1) foot of the surface of the ground.

4. The HSP shall be prepared in accordance with the occupational health and safety provisions of 29 Code of Federal Regulations § 1910.120 otherwise applicable to hazardous waste operations and emergency response, as amended, and, any other applicable federal, state or local law. For any utility repair, maintenance or installation in confined spaces, the HSP shall also be prepared in accordance with the provisions of 29 Code of Federal Regulations § 1910.146, otherwise applicable to work in confined spaces, as amended.

5. In addition to the requirements of Paragraph 4 of this Protocol, the HSP shall, without limitation, include the following items:

a. General information on the nature, extent, and concentrations of hazardous substances (as defined by CERCLA) and hazardous materials and oil (as defined by Chapter 21E) anticipated in the media to be impacted by the permitted activity and use, based upon existing information.

b. Description of tasks which may involve exposure to hazardous substances, hazardous materials, or oil.

c. Description of anticipated actions to protect the health, safety, and welfare of workers and the general public. Actions shall include, but not be limited to, dust control, odor

LAND COURT DOCUMENT # 35294
PAGE 26 OF 34

control, personal protective equipment, and erosion and sedimentation control measures (as needed for the particular permitted activity and use).

d. Discussion of relevant physical, chemical, and biological hazards. (Relevant portions of Material Safety Data Sheets may be incorporated as appropriate.)

e. A requirement that all persons engaged in the work read and acknowledge the provisions of the HSP and document compliance with said provisions.

f. A requirement that all persons engaged in the work receive appropriate training in matters of health and safety in accordance with 29 Code of Federal Regulations Section 1910.120, as amended, and, any other applicable federal, state or local law.

6. The HSP shall be approved by a Certified Industrial Hygienist.

7. The Grant and this Health and Safety Protocol are in addition to and do not supersede or relieve Grantor, Grantor's contractors or subcontractors, or any other person or entity performing work on the Property from complying with any applicable federal, state, or local laws, rules or regulations regarding health and safety. Notwithstanding the Grant and this Health and Safety Protocol, it remains the responsibility of such parties to comply with any applicable federal, state, or local laws, rules or regulations regarding health and safety, even if they are more stringent than the requirements of the Grant and this Health and Safety Protocol.

LAND COURT DOCUMENT # 35294
PAGE 27 OF 34

EXHIBIT E

SOIL MANAGEMENT PROTOCOL

1. This Soil Management Protocol is an Exhibit to a certain Grant of Environmental Restriction and Easement (the "Grant") relating to the GE-Pittsfield/Housatonic River Site. All terms used in this Protocol shall have the same meaning as defined in the Grant.

2. Soil sampling and excavation shall be conducted with the oversight of a Licensed Site Professional ("LSP"), to the extent required by Paragraph 4 ("Permitted Activities and Uses") of the Grant.

3. Soil and materials from within the Open Soil/Vegetated Area which have been excavated solely within one (1) foot of the surface of the ground may be (i) disposed of within the Open Soil/Vegetated Area, with no sampling required; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; (iii) returned to the original excavation for use as backfill, with no sampling required; or (iv) a combination of the management options listed in this Paragraph 3 of this Protocol.

4. Soil and materials from within the Open Soil/Vegetated Area excavated below one (1) foot of the surface of the ground may be (i) returned to the original excavation, with no sampling required, to within one (1) foot of the surface of the ground, with the remaining one (1) foot of the original excavation backfilled with clean soil or with soil excavated solely from the top one (1) foot of the original excavation; (ii) disposed of off-Property, in accordance with Paragraph 9 of this Protocol; or (iii) a combination of the management options listed in this Paragraph 4 of this Protocol.

5. As required by Paragraph 4 ("Permitted Activities and Uses") of the Grant, Grantor shall return the Property, or any portion thereof, to its prior condition immediately upon completion of such activity or use. Such restoration shall include, without limitation, (i) backfilling excavations to the original surface grade with clean soil, except for any soil that may be returned to the original excavation pursuant to this Protocol; and, (ii) reestablishing any disturbed vegetation.

6. Grantor shall implement the management procedures and measures required by the provisions of 310 Code of Massachusetts Regulations (CMR) Section 40.0018 (1) and (2) otherwise applicable to response actions, as amended. Excavations permitted under subparagraphs 4.A, 4.B, 4.C, 4.D and 4.E of the Grant shall be conducted in a timely fashion so as to minimize the time when excavated areas are open and/or excavated materials are stored on the Property to the minimum time practicable for such activity; provided, however, that the duration of such excavation shall not exceed fourteen (14) days. Grantor shall, during excavation, use best management practices to control contaminant migration, exposure to contaminant material, and erosion, runoff, and dust emissions.

7. Grantor shall keep separate (i) soil excavated from within the top one (1) foot of the ground within the Open Soil/Vegetated Area; (ii) soil excavated from below the top one (1) foot of the

LAND COURT DOCUMENT # 35294
PAGE 28 OF 34

ground within the Open Soil/Vegetated Area; and (iii) clean backfill. Soil and other material shall be stored in the same Restricted Area from which they were excavated. All soil and other material shall be stored in a manner consistent with 310 CMR § 40.0036 (as amended) and in accordance with: (a) EPA approval under 40 Code of Federal Regulations § 761.61(c) (as amended); or (b) 40 Code of Federal Regulations § 761.65 (as amended); or (c) the following requirements: Such materials shall be placed on an impermeable liner to prevent contact with the underlying ground surface, and shall then be covered by a second impermeable membrane. This cover shall remain in place at all times when the storage area is not actively being used, and shall be securely anchored to the ground using weight devices. The storage area shall be located such that potential impacts due to rainfall, wind, and surface runoff are minimized.

8. Any materials (e.g., soils, sediments, and personal protective equipment) excavated, collected, placed, used and/or stored on the Property or elsewhere, in connection with such excavation, shall be properly disposed of, or shipped or removed from the Property for proper disposal, within ninety (90) days from the date of such initial storage or within such longer time as is permitted under any applicable state or federal law or regulation.

9. All off-Property disposal of soil and other materials, including without limitation, used personal protective equipment, shall be: (i) at a facility licensed to accept such materials and in compliance with all applicable laws, rules and regulations; or (ii) at an EPA-approved on-plant consolidation area at the GE Plant if such consolidation area is in operation at the relevant time and in compliance with all operating procedures for such consolidation area and with the approval of the owner of such consolidation area. All disposal of soil and other materials off-Property or outside the restricted area from which such soils and materials were excavated shall be conducted with the oversight of an LSP. All off-Property disposal shall comply with all applicable laws, rules, and regulations. Grantor shall conduct sampling sufficient to assure adequate characterization for off-Property disposal subject to oversight by an LSP and in accordance with state and federal laws and regulations, including, without limitation, 310 CMR § 40.0017.

POST-WORK NOTIFICATION FORM FOR PROPERTY WITH ERE GRANT

I. General Information.

Type of work: ___ Surface *(top foot)* excavation of greater than five (5) cubic ft. and less than or equal to ten (10) cubic yds. (per Grant Paragraph 4.A)

(check all that apply) ___ Surface *(top foot)* excavation of any volume (per Grant Paragraph 4.B)

___ Subsurface *(deeper than top foot)* excavation of ten (10) cubic yards or less (per Grant Paragraph 4.C)

___ Surface or subsurface excavation for Utility Work (per Grant Paragraph 4.D)

___ Emergency excavation (per Grant Paragraph 8)

Property Address: _____

Tax Parcel ID: _____

II. Description of Excavation Activities.

Start date of excavation/soil disturbance: _____

End date of excavation/soil disturbance: _____

Amount of soil excavated or moved: _____

Any soil or other excavated material moved out of the Restricted Area? ___ Yes ___ No

Excavation dimensions *(approximate length x width x depth, in feet)* : _____

Description of project (*attach extra sheets, if necessary*): _____

_____

Final disposition of soil: *(attach bills of lading and certificates of disposals, if applicable)*: _____

_____

Attach a plan *(e.g., a copy of the Plan of Restricted Area)* showing:

(1) location of excavation(s) within the property
(2) direction
(3) major site features (*e.g., roads, buildings, edges of pavement/barriers, locations of utilities if known*)

Attach photographs of work area prior to work, during work and post-restoration work, if available (*optional*).

Was soil sampling and analysis conducted? ___ Yes ___ No
If Yes, attach analytical results and show sampling locations (*and indicate depths*) on an attached plan.

Were the Health and Safety Protocol and/or the Soil Management Protocol (*as defined in the ERE Grant*), if

LAND COURT DOCUMENT # 35294
PAGE 30 OF 34

applicable, followed? (*check each that applies*[1])

__ Health and Safety Protocol was followed
__ Soil Management Protocol was followed
__ Not Applicable

III. Additional Information for Emergency Excavation.

If work was conducted as an Emergency Excavation (*see Paragraph 8 ("Emergency Excavation") of the ERE Grant*):

(1) Attach an opinion and completion report prepared by an appropriately trained and licensed professional (*including copy of written plan for restoration*).
(2) Date and time property owner first obtained knowledge of the emergency:_____
(3) Date and time property owner provided oral notification of the emergency to DEP:_____

IV. Signature.

Two signatures are required (except for excavations pursuant to Grant Paragraph 4.A). The property owner, or person conducting the work if other than the property owner, and the Licensed Site Professional who has overseen the work (where required) must each complete and sign the statement, below.

Owner or person conducting the work if other than the property owner:

I,_____, to the best of my knowledge and belief, state that the material information contained in this submittal is true, accurate and complete.

By: _____

Signature: _____

V. Notes About the Use of this Form.

(1) This form is due no later than thirty (30) days after completion of the permitted activities and uses under Paragraph 4 ("Permitted Activities and Uses") of the ERE Grant. Immediate notification is required for Emergency Excavation pursuant to Paragraph 8 ("Emergency Excavation") of the ERE Grant. This form is required for the post-emergency excavation notice required by Paragraph 8 of the ERE Grant.

(2) Separate, fifteen (15) days' advance written notice is required for Utility Work excavation activity, pursuant to Paragraph 4.D ("Surface and/or Subsurface Excavation for Utility Work") of the ERE Grant.

(3) The Health and Safety Protocol and the Soil Management Protocol do not apply to the Permitted Activities and Uses set forth in Paragraph 4.A ("Surface Excavation of Ten (10) Cubic Yards or Less") of the ERE Grant. These protocols also do not apply to the Permitted Activities and Uses set forth in Paragraph 4.B ("Surface Excavation of any Volume") of the ERE Grant, except for off-Property disposal, to which Paragraph 9 of the Soil Management Protocol applies.

VI. Where to Submit this Form.

Submit this completed form, via certified mail, to:	MA Department of Environmental Protection Bureau of Waste Site Cleanup, Special Projects 436 Dwight Street Springfield, Massachusetts 01103 *(Attn.: GE Housatonic Removal Action Project Manager)*
Submit a copy of this form, via certified mail, to:	U.S. Environmental Protection Agency Office of Site Remediation and Restoration One Congress Street Suite 1100 – Mail Code HIO Boston, Massachusetts 02114-2023 *(Attn.: GE-Pittsfield/Housatonic River Site)*

40.1403: Minimum Public Involvement Activities in Response Actions

* * *

(7) Within thirty days after recording and/or registering any original, amended, released or terminated Activity and Use Limitation pursuant to 310 CMR 40.1070 through 40.1080, the following requirements shall be met to inform local officials and the public of the limitations which apply to activities and/or uses of the property subject to the Activity and Use Limitation:

(a) a copy of the recorded and/or registered Activity and Use Limitation shall be provided to:

1. the Chief Municipal Officer;
2. the Board of Health;
3. the Zoning Official; and
4. the Building Code Enforcement Official in the community(ies) in which the property subject to such Activity and Use Restriction is located.

(b) a legal notice which indicates the recording and/or registering of the original, amended, released or terminated Activity and Use Limitation shall be published in a newspaper which circulates in the community(ies) in which the property subject to the Activity and Use Limitation is located.

1. This notice shall be in a form established by the Department for such purpose and shall include, but not be limited to:
   a. the name, address, and Release Tracking Number(s) of the disposal site associated with the Activity and Use Limitation;
   b. the type of Activity and Use Limitation;
   c. information about where the Activity and Use Limitation instrument and disposal site file can be reviewed; and
   d. the name, address and telephone number of the person recording and/or registering the Activity and Use Limitation from whom the public can obtain additional information.
2. A copy of this legal notice shall be submitted to the Department within seven days of its publication.

OWNER'S POLICY OF TITLE INSURANCE

Issued By

First American Title Insurance Company

Any notice of claim and any other notice or statement in writing required to be given to the Company under this policy must be given to the Company at the address shown in Section 18 of the Conditions.

COVERED RISKS

SUBJECT TO THE EXCLUSIONS FROM COVERAGE, THE EXCEPTIONS FROM COVERAGE CONTAINED IN SCHEDULE B AND THE CONDITIONS, FIRST AMERICAN TITLE INSURANCE COMPANY, a California corporation (the "Company") Insures, as of Date of Policy and, to the extent stated in Covered Risks 9 and 10, after Date of Policy, against loss or damage, not exceeding the Amount of Insurance, sustained or incurred by the Insured by reason of:

1. Title being vested other than as stated in Schedule A.
2. Any defect in or lien or encumbrance on the Title. This Covered Risk includes but is not limited to insurance against loss from
   (a) A defect in the Title caused by
      (i) forgery, fraud, undue influence, duress, incompetency, incapacity, or impersonation;
      (ii) failure of any person or Entity to have authorized a transfer or conveyance;
      (iii) a document affecting Title not properly created, executed, witnessed, sealed, acknowledged, notarized, or delivered;
      (iv) failure to perform those acts necessary to create a document by electronic means authorized by law;
      (v) a document executed under a falsified, expired, or otherwise invalid power of attorney;
      (vi) a document not properly filed, recorded, or indexed in the Public Records including failure to perform those acts by electronic means authorized by law; or
      (vii) a defective judicial or administrative proceeding.
   (b) The lien of real estate taxes or assessments imposed on the Title by a governmental authority due or payable, but unpaid.
   (c) Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land.
3. Unmarketable Title.
4. No right of access to and from the Land.
5. The violation or enforcement of any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (a) the occupancy, use, or enjoyment of the Land;
   (b) the character, dimensions, or location of any improvement erected on the Land;
   (c) the subdivision of land; or
   (d) environmental protection if a notice, describing any part of the Land, is recorded in the Public Records setting forth the violation or intention to enforce, but only to the extent of the violation or enforcement referred to in that notice.
6. An enforcement action based on the exercise of a governmental police power not covered by Covered Risk 5 if a notice of the enforcement action, describing any part of the Land, is recorded in the Public Records, but only to the extent of the enforcement referred to in that notice.
7. The exercise of the rights of eminent domain if a notice of the exercise, describing any part of the Land, is recorded in the Public Records.
8. Any taking by a governmental body that has occurred and is binding on the rights of a purchaser for value without Knowledge.
9. Title being vested other than as stated in Schedule A or being defective
   (a) as a result of the avoidance in whole or in part, or from a court order providing an alternative remedy, of a transfer of all or any part of the title to or any interest in the Land occurring prior to the transaction vesting Title as shown in Schedule A because that prior transfer constituted a fraudulent or preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws; or
   (b) because the instrument of transfer vesting Title as shown in Schedule A constitutes a preferential transfer under federal bankruptcy, state insolvency, or similar creditors' rights laws by reason of the failure of its recording in the Public Records
      (i) to be timely, or
      (ii) to impart notice of its existence to a purchaser for value or to a judgment or lien creditor.
10. Any defect in or lien or encumbrance on the Title or other matter included in Covered Risks 1 through 9 that has been created or attached or has been filed or recorded in the Public Records subsequent to Date of Policy and prior to the recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The Company will also pay the costs, attorneys' fees, and expenses incurred in defense of any matter insured against by this policy, but only to the extent provided in the Conditions.

First American Title Insurance Company

BY: Curt B. Johnson PRESIDENT

ATTEST: Brian T. Kingsley SECRETARY

This Jacket was created electronically and constitutes an original document

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

CONDITIONS

1. DEFINITION OF TERMS

The following terms when used in this policy mean:

(a) "Amount of Insurance": The amount stated in Schedule A, as may be increased or decreased by endorsement to this policy, increased by Section 8(b), or decreased by Sections 10 and 11 of these Conditions.
(b) "Date of Policy": The date designated as "Date of Policy" in Schedule A.
(c) "Entity": A corporation, partnership, trust, limited liability company, or other similar legal entity.
(d) "Insured": The Insured named in Schedule A.
   (i) The term "Insured" also includes
      (A) successors to the Title of the Insured by operation of law as distinguished from purchase, including heirs, devisees, survivors, personal representatives, or next of kin;
      (B) successors to an Insured by dissolution, merger, consolidation, distribution, or reorganization;
      (C) successors to an Insured by its conversion to another kind of Entity;
      (D) a grantee of an Insured under a deed delivered without payment of actual valuable consideration conveying the Title
         (1) if the stock, shares, memberships, or other equity interests of the grantee are wholly-owned by the named Insured,
         (2) if the grantee wholly owns the named Insured,
         (3) if the grantee is wholly-owned by an affiliated Entity of the named Insured, provided the affiliated Entity and the named Insured are both wholly-owned by the same person or Entity, or
         (4) if the grantee is a trustee or beneficiary of a trust created by a written instrument established by the Insured named in Schedule A for estate planning purposes.
   (ii) With regard to (A), (B), (C), and (D) reserving, however, all rights and defenses as to any successor that the Company would have had against any predecessor Insured.
(e) "Insured Claimant": An Insured claiming loss or damage.
(f) "Knowledge" or "Known": Actual knowledge, not constructive knowledge or notice that may be imputed to an Insured by reason of the Public Records or any other records that impart constructive notice of matters affecting the Title.
(g) "Land": The land described in Schedule A, and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is insured by this policy.
(h) "Mortgage": Mortgage, deed of trust, trust deed, or other security instrument, including one evidenced by electronic means authorized by law.
(i) "Public Records": Records established under state statutes at Date of Policy for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge. With respect to Covered Risk 5(d), "Public Records" shall also include environmental protection liens filed in the records of the clerk of the United States District Court for the district where the Land is located.
(j) "Title": The estate or interest described in Schedule A.
(k) "Unmarketable Title": Title affected by an alleged or apparent matter that would permit a prospective purchaser or lessee of the Title or lender on the Title to be released from the obligation to purchase, lease, or lend if there is a contractual condition requiring the delivery of marketable title.

2. CONTINUATION OF INSURANCE

The coverage of this policy shall continue in force as of Date of Policy in favor of an Insured, but only so long as the Insured retains an estate or interest in the Land, or holds an obligation secured by a purchase money Mortgage given by a purchaser from the Insured, or only so long as the Insured shall have liability by reason of warranties in any transfer or conveyance of the Title. This policy shall not continue in force in favor of any purchaser from the Insured of either (i) an estate or interest in the Land, or (ii) an obligation secured by a purchase money Mortgage given to the Insured.

3. NOTICE OF CLAIM TO BE GIVEN BY INSURED CLAIMANT

The Insured shall notify the Company promptly in writing (i) in case of any litigation as set forth in Section 5(a) of these Conditions, (ii) in case Knowledge shall come to an Insured hereunder of any claim of title or interest that is adverse to the Title, as insured, and that might cause loss or damage for which the Company may be liable by virtue of this policy, or (iii) if the Title, as insured, is rejected as Unmarketable Title. If the Company is prejudiced by the failure of the Insured Claimant to provide prompt notice, the Company's liability to the Insured Claimant under the policy shall be reduced to the extent of the prejudice.

4. PROOF OF LOSS

In the event the Company is unable to determine the amount of loss or damage, the Company may, at its option, require as a condition of payment that the Insured Claimant furnish a signed proof of loss. The proof of loss must describe the defect, lien, encumbrance, or other matter insured against by this policy that constitutes the basis of loss or damage and shall state, to the extent possible, the basis of calculating the amount of the loss or damage.

5. DEFENSE AND PROSECUTION OF ACTIONS

(a) Upon written request by the Insured, and subject to the options contained in Section 7 of these Conditions, the Company, at its own cost and without unreasonable delay, shall provide for the defense of an Insured in litigation in which any third party asserts a claim covered by this policy adverse to the Insured. This obligation is limited to only those stated causes of action alleging matters insured against by this policy. The Company shall have the right to select counsel of its choice (subject to the right of the Insured to object for reasonable cause) to represent the Insured as to those stated causes of action. It shall not be liable for and will not pay the fees of any other counsel. The Company will not pay any fees, costs, or expenses incurred by the Insured in the defense of those causes of action that allege matters not insured against by this policy.
(b) The Company shall have the right, in addition to the options contained in Section 7 of these Conditions, at its own cost, to institute and prosecute any action or proceeding or to do any other act that in its opinion may be necessary or desirable to establish the Title, as insured, or to prevent or reduce loss or damage to the Insured. The Company may take any appropriate action under the terms of this policy, whether or not it shall be liable to the Insured. The exercise of these rights shall not be an admission of liability or waiver of any provision of this policy. If the Company exercises its rights under this subsection, it must do so diligently.
(c) Whenever the Company brings an action or asserts a defense as required or permitted by this policy, the Company may pursue the litigation to a final determination by a court of competent jurisdiction, and it expressly reserves the right, in its sole discretion, to appeal any adverse judgment or order.

This Jacket was created electronically and constitutes an original document

6. DUTY OF INSURED CLAIMANT TO COOPERATE

(a) In all cases where this policy permits or requires the Company to prosecute or provide for the defense of any action or proceeding and any appeals, the Insured shall secure to the Company the right to so prosecute or provide defense in the action or proceeding, including the right to use, at its option, the name of the Insured for this purpose. Whenever requested by the Company, the Insured, at the Company's expense, shall give the Company all reasonable aid (i) in securing evidence, obtaining witnesses, prosecuting or defending the action or proceeding, or effecting settlement, and (ii) in any other lawful act that in the opinion of the Company may be necessary or desirable to establish the Title or any other matter as insured. If the Company is prejudiced by the failure of the Insured to furnish the required cooperation, the Company's obligations to the Insured under the policy shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation, with regard to the matter or matters requiring such cooperation.

(b) The Company may reasonably require the Insured Claimant to submit to examination under oath by any authorized representative of the Company and to produce for examination, inspection, and copying, at such reasonable times and places as may be designated by the authorized representative of the Company, all records, in whatever medium maintained, including books, ledgers, checks, memoranda, correspondence, reports, e-mails, disks, tapes, and videos whether bearing a date before or after Date of Policy, that reasonably pertain to the loss or damage. Further, if requested by any authorized representative of the Company, the Insured Claimant shall grant its permission, in writing, for any authorized representative of the Company to examine, inspect, and copy all of these records in the custody or control of a third party that reasonably pertain to the loss or damage. All information designated as confidential by the Insured Claimant provided to the Company pursuant to this Section shall not be disclosed to others unless, in the reasonable judgment of the Company, it is necessary in the administration of the claim. Failure of the Insured Claimant to submit for examination under oath, produce any reasonably requested information, or grant permission to secure reasonably necessary information from third parties as required in this subsection, unless prohibited by law or governmental regulation, shall terminate any liability of the Company under this policy as to that claim.

7. OPTIONS TO PAY OR OTHERWISE SETTLE CLAIMS; TERMINATION OF LIABILITY

In case of a claim under this policy, the Company shall have the following additional options:

(a) To Pay or Tender Payment of the Amount of Insurance.

To pay or tender payment of the Amount of Insurance under this policy together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment or tender of payment and that the Company is obligated to pay.

Upon the exercise by the Company of this option, all liability and obligations of the Company to the Insured under this policy, other than to make the payment required in this subsection, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

(b) To Pay or Otherwise Settle With Parties Other Than the Insured or With the Insured Claimant.

(i) To pay or otherwise settle with other parties for or in the name of an Insured Claimant any claim insured against under this policy. In addition, the Company will pay any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay; or

(ii) To pay or otherwise settle with the Insured Claimant the loss or damage provided for under this policy, together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay.

Upon the exercise by the Company of either of the options provided for in subsections (b)(i) or (ii), the Company's obligations to the Insured under this policy for the claimed loss or damage, other than the payments required to be made, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

8. DETERMINATION AND EXTENT OF LIABILITY

This policy is a contract of indemnity against actual monetary loss or damage sustained or incurred by the Insured Claimant who has suffered loss or damage by reason of matters insured against by this policy.

(a) The extent of liability of the Company for loss or damage under this policy shall not exceed the lesser of

(i) the Amount of Insurance; or

(ii) the difference between the value of the Title as insured and the value of the Title subject to the risk insured against by this policy.

(b) If the Company pursues its rights under Section 5 of these Conditions and is unsuccessful in establishing the Title, as insured,

(i) the Amount of Insurance shall be increased by 10%, and

(ii) the Insured Claimant shall have the right to have the loss or damage determined either as of the date the claim was made by the Insured Claimant or as of the date it is settled and paid.

(c) In addition to the extent of liability under (a) and (b), the Company will also pay those costs, attorneys' fees, and expenses incurred in accordance with Sections 5 and 7 of these Conditions.

9. LIMITATION OF LIABILITY

(a) If the Company establishes the Title, or removes the alleged defect, lien, or encumbrance, or cures the lack of a right of access to or from the Land, or cures the claim of Unmarketable Title, all as insured, in a reasonably diligent manner by any method, including litigation and the completion of any appeals, it shall have fully performed its obligations with respect to that matter and shall not be liable for any loss or damage caused to the Insured.

(b) In the event of any litigation, including litigation by the Company or with the Company's consent, the Company shall have no liability for loss or damage until there has been a final determination by a court of competent jurisdiction, and disposition of all appeals, adverse to the Title, as insured.

(c) The Company shall not be liable for loss or damage to the Insured for liability voluntarily assumed by the Insured in settling any claim or suit without the prior written consent of the Company.

10. REDUCTION OF INSURANCE; REDUCTION OR TERMINATION OF LIABILITY

All payments under this policy, except payments made for costs, attorneys' fees, and expenses, shall reduce the Amount of Insurance by the amount of the payment.

11. LIABILITY NONCUMULATIVE

The Amount of Insurance shall be reduced by any amount the Company pays under any policy insuring a Mortgage to which exception is taken in Schedule B or to which the Insured has agreed, assumed, or taken subject, or which is executed by an Insured after Date of Policy and which is a charge or lien on the Title, and the amount so paid shall be deemed a payment to the Insured under this policy.

12. PAYMENT OF LOSS

When liability and the extent of loss or damage have been definitely fixed in accordance with these Conditions, the payment shall be made within 30 days.

13. RIGHTS OF RECOVERY UPON PAYMENT OR SETTLEMENT

(a) Whenever the Company shall have settled and paid a claim under this policy, it shall be subrogated and entitled to the rights of the Insured Claimant in the Title and all other rights and remedies in respect to the claim that the Insured Claimant has against any person or property, to the extent of the amount of any loss, costs, attorneys' fees, and expenses paid by the Company. If requested by the Company, the Insured Claimant shall execute documents to evidence the transfer to the Company of these rights and remedies. The Insured Claimant shall permit the Company to sue, compromise, or settle in the name of the Insured Claimant and to use the name of the Insured Claimant in any transaction or litigation involving these rights and remedies.

If a payment on account of a claim does not fully cover the loss of the Insured Claimant, the Company shall defer the exercise of its right to recover until after the Insured Claimant shall have recovered its loss.

(b) The Company's right of subrogation includes the rights of the Insured to indemnities, guaranties, other policies of insurance, or bonds, notwithstanding any terms or conditions contained in those instruments that address subrogation rights.

14. ARBITRATION

Either the Company or the Insured may demand that the claim or controversy shall be submitted to arbitration pursuant to the Title Insurance Arbitration Rules of the American Land Title Association ("Rules"). Except as provided in the Rules, there shall be no joinder or consolidation with claims or controversies of other persons. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the Insured arising out of or relating to this policy, any service in connection with its issuance or the breach of a policy provision, or to any other controversy or claim arising out of the transaction giving rise to this policy. All arbitrable matters when the Amount of Insurance is $2,000,000 or less shall be arbitrated at the option of either the Company or the Insured. All arbitrable matters when the Amount of Insurance is in excess of $2,000,000 shall be arbitrated only when agreed to by both

This Jacket was created electronically and constitutes an original document

the Company and the Insured. Arbitration pursuant to this policy and under the Rules shall be binding upon the parties. Judgment upon the award rendered by the Arbitrator(s) may be entered in any court of competent jurisdiction.

15. LIABILITY LIMITED TO THIS POLICY; POLICY ENTIRE CONTRACT

(a) This policy together with all endorsements, if any, attached to it by the Company is the entire policy and contract between the Insured and the Company. In interpreting any provision of this policy, this policy shall be construed as a whole.
(b) Any claim of loss or damage that arises out of the status of the Title or by any action asserting such claim shall be restricted to this policy.
(c) Any amendment of or endorsement to this policy must be in writing and authenticated by an authorized person, or expressly incorporated by Schedule A of this policy.
(d) Each endorsement to this policy issued at any time is made a part of this policy and is subject to all of its terms and provisions. Except as the endorsement expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsement, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance.

16. SEVERABILITY

In the event any provision of this policy, in whole or in part, is held invalid or unenforceable under applicable law, the policy shall be deemed not to include that provision or such part held to be invalid, but all other provisions shall remain in full force and effect.

17. CHOICE OF LAW; FORUM

(a) Choice of Law: The Insured acknowledges the Company has underwritten the risks covered by this policy and determined the premium charged therefor in reliance upon the law affecting interests in real property and applicable to the interpretation, rights, remedies, or enforcement of policies of title insurance of the jurisdiction where the Land is located.
Therefore, the court or an arbitrator shall apply the law of the jurisdiction where the Land is located to determine the validity of claims against the Title that are adverse to the Insured and to interpret and enforce the terms of this policy. In neither case shall the court or arbitrator apply its conflicts of law principles to determine the applicable law.
(b) Choice of Forum: Any litigation or other proceeding brought by the Insured against the Company must be filed only in a state or federal court within the United States of America or its territories having appropriate jurisdiction.

18. NOTICES, WHERE SENT

Any notice of claim and any other notice or statement in writing required to be given to the Company under this policy must be given to the Company at 1 First American Way, Santa Ana, CA 92707, Attn: Claims Department.

SCHEDULE B - PART I

File Agent No. _____

Owner's Policy No. 360009909-MAO

Loan Policy No. _____

EXCEPTIONS FROM COVERAGE

This Policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees or expenses that arise by reason of:

1. Any facts, rights, interest, or claims that are not shown in the public records but that could be ascertained by an inspection of the Land or by making inquiry of persons in possession of the Land.
2. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the title, including discrepancies, conflicts in boundary lines, shortages in area, or any other facts that would be disclosed by an accurate and complete land survey of the Land, and that are not shown in the public records.
3. Any lien, or right to a lien, for services, labor or material heretofore or hereafter furnished, imposed by law and not shown by the public records.
4. The mortgage, if any, referred to in Item 4 of Schedule A. (This exception does NOT apply to Loan Policies.)
5. Liens for taxes and assessments which become due and payable subsequent to the date of policy.
6. IF THE INSURED PREMISES IS A CONDOMINIUM UNIT: Covenants, conditions, restrictions, reservations, easements, liens for assessments, options, powers of attorney, and limitations on title, created by the laws of the State of the insured premises or set forth in the Master Deed or Declaration of Condominium, in the related By-Laws, in the Declaration of Trust, or Site Plans and Floor Plans as duly recorded in the appropriate land records office and as the same may have been lawfully amended, and in any instrument creating the estate or interest insured by this policy.
7. A grant of flowage rights from John Todd to Thomas F. Plunkett, dated April 20, 1849, and recorded in the Berkshire Middle District Registry of Deeds in Book 130, Page 401.

   NOTE: The above encumbrance was terminated by instrument recorded in the Berkshire Middle District Registry of Deeds in Book 3156, Page 211. This exception is included for the technical reason that it appears in Land Court Certificate of Title No. 2560. This policy affirmatively insures that this encumbrance has been terminated and is of no further force and effect and unenforceable."

☑ For additional exceptions see attached Schedule B-Part I Continuation Sheet.

September 6, 2006

Mr. Thomas Kushi, President
Moldmaster Engineering, Inc.
187 Newell Street
Pittsfield, Massachusetts 01201

Re: Your Property at 187 Newell Street (Tax Parcel No. J9-23-13)

Dear Mr. Kushi:

On behalf of the General Electric Company (GE), I am providing this letter to you as a follow-up to the soil cleanup activities that GE performed on your above-referenced property in 2005. (In this letter, the terms "you" and "your" refer to Moldmaster Engineering.) As you know, those cleanup activities, as well as the preceding soil sampling activities, were performed by GE under its Consent Decree with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies. The Consent Decree requires that, following cleanup at commercial properties like yours, which are subject to what the Consent Decree calls a "Conditional Solution," GE must provide you with a letter explaining your rights under the Conditional Solution, as well as describing the remaining levels of chemicals in soil at your property.

You will recall that GE conducted extensive sampling of the soil at your property to determine whether it contained concentrations of polychlorinated biphenyls (PCBs) and other chemicals that would require cleanup under the standards in the Consent Decree. During this process, GE submitted to EPA a number of work plans and reports relating to that sampling and GE's evaluations of the sampling results, and has provided copies to you. All of these submittals were approved by EPA.

In addition, GE sent you a letter dated February 28, 2001, explaining the options that the Consent Decree provides for the owners of commercial properties like yours. To review briefly, the Consent Decree provides that, for such properties, the owner has two options relating to the cleanup and future use of the property (assuming that the property does not already meet the Consent Decree standards for residential properties). One of those options would involve the owner's execution of a legal deed restriction on the property, known as a "Grant of Environmental Restriction and Easement" (or "ERE" for short), which would allow continuation of the current commercial use of the property, but would place restrictions on future changes to different types of use (e.g., residential or recreational use) and on future excavations. Alternatively, if the owner elects not to execute an ERE for the property, GE would implement what is called a Conditional Solution. Under a Conditional Solution, GE would clean up the property to standards protective of its current commercial use and would agree to conduct additional cleanup (if necessary) in the future if the owner meets certain

conditions demonstrating a commitment to implement a future use for which additional cleanup is necessary.

Our letter to you of February 28, 2001 explained these options in more detail. Subsequently, by letter of July 25, 2001, your attorney advised GE that you had decided not to execute an ERE on your property. Accordingly, GE informed EPA and MassDEP, by letter of August 15, 2001 (with a copy to you), that GE would implement a Conditional Solution at your property.

In 2003, GE submitted work plans to EPA describing the cleanup work at your property. These included the *Conceptual RD/RA Work Plan Addendum for Newell Street Area I* (Conceptual Work Plan Addendum), submitted in April 2003, and the *Final RD/RA Work Plan for Newell Street Area I* (Final Work Plan), submitted in August 2003. Copies of these reports were sent to you. Those work plans provided for the implementation of a Conditional Solution at your property and were subsequently approved by EPA.

The Conceptual Work Plan Addendum included a detailed evaluation showing that, after performance of the cleanup proposed in that plan, the concentrations of PCBs and other chemicals in soil at your property would meet the applicable cleanup standards for commercial properties, as set forth in the Consent Decree, which were determined by EPA and MassDEP to be fully protective of human health and the environment at such properties. For PCBs, those standards require that: (a) the average PCB concentrations must not exceed 25 parts per million (ppm) in the top foot of soil or the top three feet of soil or 200 ppm in the 1- to 6-foot depth interval; (b) no individual PCB concentration in the top foot of soil in unpaved areas may exceed 125 ppm; and (c) if the remaining average PCB concentration in the top 15 feet of soil exceeds 100 ppm, an "engineered barrier" must be installed over the area causing the average concentration to exceed that level. (An engineered barrier is a permanent cover designed to isolate and contain the underlying soils and materials.) For other chemicals in soil at commercial properties, the cleanup standards consist of certain risk-based criteria set forth in the Consent Decree, as described in GE's Conceptual Work Plan Addendum.

As you know, following EPA's approval of these work plans, you and GE executed an agreement in December 2004, under which you agreed to allow GE, EPA, and MassDEP and their representatives and contractors access to your property to perform and oversee the required cleanup.

As you also know, GE performed the cleanup actions at your property in 2005. These actions included the removal and replacement of approximately 1,250 cubic yards of soil to meet the above-referenced cleanup standards for the top foot and top three feet of soil. In addition, an engineered barrier covered with asphalt pavement was installed in the rear of your property. The location of the engineered barrier at your property is shown on the attached Figure 1, along with the location of the groundwater monitoring well that remains on your property. At the conclusion of the cleanup actions, your property was restored based on the discussions between you and GE.

Now that the cleanup at your property has been completed, GE is providing this letter, as required by the Consent Decree, to explain: (1) the terms of the Conditional Solution, including the requirements applicable to GE and you regarding future cleanup activities at the property; and (2) the levels of PCBs and other chemicals remaining at the property.

1. Requirements for Implementing Future Cleanup

As noted above and shown in the Conceptual Work Plan Addendum, the soil cleanup actions that GE performed at your property have resulted in a condition in which the current concentrations of PCBs and other chemicals in the soil at your property satisfy the applicable cleanup standards for commercial properties. As a result, no further actions are required at your property at this time. However, the levels of certain chemicals at your property would not satisfy the standards that would apply if the property were ever used for residential or, potentially, recreational purposes. Accordingly, a Conditional Solution will be implemented for your property, effective immediately, to address future uses and activities at the property. Under the Consent Decree requirements for Conditional Solutions, this means the following:

If, in the future, you should decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective for such future use, provided that certain conditions specified in the Consent Decree are met. Specifically, those conditions require that you satisfy the following criteria:

- First, you must show that you have submitted a plan to the appropriate governmental authorities to authorize the future use (if such a plan or authorization is necessary for the use) and that such plan (if required) has been approved by the governmental authorities. Such governmental approvals may include zoning approval, Conservation Commission approval, building permits, and any other necessary approvals.

- In addition, you must provide to EPA and to GE (directly or through EPA) "other documented evidence of a commitment to such use," such as, for example, evidence of financing or other financial assurance for the project, other plans for implementing the project (such as architectural plans, contracts for performance of the project, or other similar plans), or an affidavit that you intend to go forward with the project or other change in use if the necessary cleanup actions are taken.

If you provide this required documentation and EPA determines that you have satisfied the above criteria and that cleanup is necessary to allow such use, EPA will notify GE. GE will then be required to submit work plans for any necessary additional sampling and/or cleanup actions to allow such use and, upon EPA approval, to implement those plans. Such cleanup may include soil removal or other remediation as necessary to meet the applicable cleanup standards under the Consent Decree for the new use, or may include, for activities that involve excavation or off-property disposition of soils, actions to ensure the proper excavation,

management, and disposition of such soils. While GE is required to conduct such additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

In the event that you sell your property, these same requirements will continue to apply, provided that the successor owner meets the criteria specified above.

In addition, you should be aware that the Consent Decree requires GE to conduct annual inspections of your property to determine whether there has been any changes in activities and uses that would be inconsistent with current uses or would involve exposure to soils greater than three feet in depth. These inspections may require us to contact you further in the future.

For purposes of providing the documentation described above or if you have any question about this matter, the following are the relevant contact persons:

For GE: Richard W. Gates
Remediation Manager
General Electric Company
159 Plastics Avenue
Pittsfield, MA 01201
(413) 448-5909

For EPA: Dean Tagliaferro
GE-Pittsfield Team Leader
U.S. Environmental Protection Agency
EPA New England

Bureau of Waste Site Cleanup
Massachusetts Department of Environmental Protection
436 Dwight Street
Springfield, Massachusetts 01103
(413) 755-2264

2. Existing Levels of PCBs and Other Chemicals

GE is also required to notify the owner of the remaining levels of PCBs and other chemicals on a property where a Conditional Solution is implemented. For your property, the results of GE's soil sampling were described in prior reports submitted to EPA, copies of which were

sent to you. These include *GE's Pre-Design Investigation Report for Newell Street Area I Removal Action*, submitted in May 2001, with a supplemental report in July 2001, as well as the above-mentioned Conceptual Work Plan Addendum, submitted in April 2003.

Under the Consent Decree, GE was required to evaluate the concentrations of various constituents at your property for certain specified depth intervals, both before and after the cleanup. For your convenience, the attached Table 1 summarizes, for each of the relevant depth intervals evaluated, the average post-cleanup concentrations of PCBs and of the other chemicals that were retained for evaluation after an initial screening step. The attached table also shows that, for PCBs, the post-cleanup concentrations in each relevant depth interval are less than the cleanup standards in the Consent Decree for PCBs at commercial properties. It further shows that, for another set of constituents, known as polychlorinated dibenzo-*p*-dioxin and polychlorinated dibenzofuran toxicity equivalency quotients (PCDD/PCDF TEQs), the post-cleanup concentrations are likewise below the Consent Decree cleanup standards for such compounds at commercial properties. Finally, for the remaining chemicals that were retained for evaluation, the table notes that a risk assessment performed by GE, as set forth in the approved Conceptual Work Plan Addendum, demonstrated that, for a commercial property, those constituents at their post-cleanup concentrations pose no risk above the risk benchmarks set forth in the Consent Decree.

Therefore, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. You and any successor owners should, however, take into account the existence of these substances on your property in conducting any activities such as excavation or digging in the future. In this connection, EPA has prepared a Fact Sheet relating to future uses and activities at this property. A copy of that Fact Sheet is also attached to this letter.

Finally, you should be aware that GE is also required to notify any other entity with an interest in your property, such as the holders of easements or mortgages, of the Conditional Solution implemented at the property. GE will provide those notifications in the near future, with copies to you.

Please call Dick Gates at 413-448-5909 if you have any questions about the information in this letter.

Very truly yours,

Michael T. Carroll/lek

	PCBs[2]	PCDD/PCDF TEQs[3]	Benzo(a)-anthracene[4]	Benzo(a)-pyrene[4]	Benzo(b)-fluoranthene[4]	Dibenzo(a,h)-anthracene[4]	Indeno(1,2,3-cd)pyrene[4]	Arsenic[4]	Lead[4]
0- to 1-foot depth	1.3	0.00022	0.3	0.3	0.2	0.2	0.2	6.6	66
0- to 3-foot depth	3.4	0.00022	0.3	0.3	0.2	0.2	0.2	6.5	65
1- to 6-foot depth	22	N/A	2.7	3.3	3.9	0.7	1.5	13	3,343
0- to 15-foot depth	32	0.00015 (for 1-15 ft depth)	1.2	1.4	1.6	0.4	0.7	9.1	1,185

Notes:

1. This table includes those chemical constituents that were retained for evaluation at this property after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration is given. The concentrations shown are those calculated to be present after the soil cleanup.
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth.
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals).
4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-13, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

FACT SHEET RELATING TO FUTURE PROPERTY USES AND ACTIVITIES

Prepared by:
United States Environmental Protection Agency

This Fact Sheet is an attachment to a letter that the General Electric Company (GE) is sending to you as a follow-up to the soil cleanup activities that GE performed on your property. The federal Environmental Protection Agency (EPA) has prepared this Fact Sheet to inform you and successor owners of future uses and activities that you should not conduct on your property due to the levels of remaining contamination.

As GE has described in its letter, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. Because the evaluation and cleanup of your property currently does not allow for unlimited uses, however, you and any successor owners should observe the following regarding your property:

- The property should only be used for commercial uses. It should not be used for residential or recreational uses.

- Except for emergency excavations, you should not excavate or dig below three feet of the surface of the ground. You may perform limited excavation and work in the top three feet of the surface of the ground. Please contact EPA and the Massachusetts Department of Environmental Protection (MassDEP) before excavating or moving any amount of soil below three feet and/or before excavating or moving more than ten (10) cubic yards of soil in the top three feet of the surface of the ground. Ten (10) cubic yards is approximately one-half of a standard dump truck of soil. Also, please contact EPA and MassDEP after any emergency excavations.

- An engineered barrier is located on your property that isolates contamination. This barrier, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work. To our knowledge, there are no utilities located beneath the engineered barrier.

- A groundwater monitoring well is located on your property. This well, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work.

- Please contact GE, EPA, and the MassDEP before disposing of any soil off of the property. Governmental regulations may restrict the off-site disposal of soil from your property.

- Please contact GE before any subsurface utility excavations for any new or existing utilities. Under the Consent Decree, GE is required to ensure that the

spatial average PCB concentration of any utility backfill material is at or below 25 parts per million of PCBs.

As stated in GE's letter and as required by the Consent Decree, if, in the future, you decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective of such future use, provided that certain conditions specified in the Consent Decree are met. Please refer to the letter from GE for more information.

If you have any questions about this Fact Sheet, please call Dean Tagliaferro, of EPA, at 617-918-1282, or Susan Steenstup, Special Projects Coordinator, MassDEP, at 413-784-1100.

Pittsfield, MA 01201
USA

September 6, 2006

Richard Belora, President
Italian American Club
P.O. Box 327
Pittsfield, Massachusetts 01202

Re: **Property at 203 Newell Street (Tax Parcel No. J9-23-17)**

Dear Mr. Belora:

On behalf of the General Electric Company (GE), I am providing this letter to you as a follow-up to the soil cleanup activities that GE performed on the above-referenced property of the Italian American Club (Club) in 2003 and 2004. As you know, those cleanup activities, as well as the preceding soil sampling activities, were performed by GE under its Consent Decree with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies. The Consent Decree requires that, following cleanup at recreational properties like that of the Club, which are subject to what the Consent Decree calls a "Conditional Solution," GE must provide the owner with a letter explaining its rights under the Conditional Solution, as well as describing the remaining levels of chemicals in soil at the property.

You will recall that GE conducted extensive sampling of the soil at the Club's property to determine whether it contained concentrations of polychlorinated biphenyls (PCBs) and other chemicals that would require cleanup under the standards in the Consent Decree. During this process, GE submitted to EPA a number of work plans and reports relating to that sampling and GE's evaluations of the sampling results, and has provided copies to the Club. All of these submittals were approved by EPA.

In addition, GE explained to the Club the options that the Consent Decree provides for the owners of recreational properties like the Club's. To review briefly, the Consent Decree provides that, for such properties, the owner has two options relating to the cleanup and future use of the property (assuming that the property does not already meet the Consent Decree standards for residential properties). One of those options would involve the owner's execution of a legal deed restriction on the property, known as a "Grant of Environmental Restriction and Easement" (or "ERE" for short), which would allow continuation of the current recreational use of the property, but would place restrictions on future changes to different types of use (i.e., residential use) and on future excavations. Alternatively, if the owner elects not to execute an ERE for the property, GE would implement what is called a Conditional Solution. Under a Conditional Solution, GE would clean up the property to standards protective of its current recreational use and would agree to conduct additional cleanup (if

necessary) in the future if the owner meets certain conditions demonstrating a commitment to implement a future use for which additional cleanup is necessary.

Although the Club had initially advised GE that it was willing to execute an ERE on its property, the Club subsequently notified GE by letter dated July 21, 2003, of the Club's decision not to execute an ERE and instead to elect the Conditional Solution approach. Accordingly, GE informed EPA and MassDEP that GE would implement a Conditional Solution at the Club's property.

In 2003, GE submitted work plans to EPA describing the cleanup work at the Club's property. These included the *Conceptual RD/RA Work Plan Addendum for Newell Street Area I* (Conceptual Work Plan Addendum), submitted in April 2003, and the *Final RD/RA Work Plan for Newell Street Area I* (Final Work Plan), submitted in August 2003. Copies of these reports were sent to the Club and were subsequently approved by EPA. Consistent with the Club's July 2003 decision, the Final Work Plan provided for the implementation of a Conditional Solution at the Club's property.

The Conceptual Work Plan Addendum included a detailed evaluation showing that, after performance of the cleanup proposed in that plan, the concentrations of PCBs in soil at the Club's property would (under either the Conditional Solution or the ERE approach) meet the applicable PCB cleanup standards for recreational properties, as set forth in the Consent Decree, which were determined by EPA and MassDEP to be fully protective of human health and the environment at such properties. For recreational properties with a Conditional Solution, those standards require that: (a) the average PCB concentrations must not exceed 10 parts per million (ppm) in the top foot of soil or the top three feet of soil; (b) no individual PCB concentration in the top foot of soil in unpaved areas may exceed 50 ppm; and (c) if the remaining average PCB concentration in the top 15 feet of soil exceeds 100 ppm, an "engineered barrier" must be installed over the area causing the average concentration to exceed that level. (An engineered barrier is a permanent cover designed to isolate and contain the underlying soils and materials.) The Conceptual Work Plan Addendum also showed that the then-existing concentrations of other chemicals in the soil at the Club's property were already below the applicable Consent Decree standards for those chemicals at recreational properties, and that thus no cleanup was necessary for those chemicals. EPA approved the Conceptual Work Plan Addendum, including the above-stated conclusions.

As you know, GE performed the cleanup actions at the Club's property in 2003 and 2004. These actions included the removal and replacement of approximately 2,120 cubic yards of soil to meet the above-referenced PCB cleanup standards. In addition, an engineered barrier was installed at the Club's property, covered in part with sod, in part with asphalt pavement, and in part (within a portion of the bocce courts) with concrete or compacted gravel. The location and types of the engineered barrier at the Club's property are shown on the attached Figure 1, along with the location of the groundwater monitoring well that remains on the property. At the conclusion of the cleanup actions, the property was restored in accordance with the agreement between the Club and GE, including restoration of the bocce courts.

Now that the cleanup at the Club's property has been completed, GE is providing this letter, as required by the Consent Decree, to explain: (1) the terms of the Conditional Solution, including the requirements applicable to GE and the Club regarding future cleanup activities at the property; and (2) the levels of PCBs and other chemicals remaining at the property.

1. Requirements for Implementing Future Cleanup

As noted above and shown in the Conceptual Work Plan Addendum, the soil cleanup actions that GE performed at the Club's property have resulted in a condition in which the current concentrations of PCBs and other chemicals in the soil at the Club's property satisfy the applicable cleanup standards for recreational properties. As a result, no further actions are required at the Club's property at this time. However, the levels of certain chemicals at the Club's property would not satisfy the standards that would apply if the property were ever used for residential purposes. Accordingly, a Conditional Solution will be implemented for the Club's property, effective immediately, to address future uses and activities at the property. Under the Consent Decree requirements for Conditional Solutions, this means the following:

If, in the future, the Club should decide to change the current use of the property to residential use or to expand its facilities or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at the property, if necessary, to be protective for such future use, provided that certain conditions specified in the Consent Decree are met. Specifically, those conditions require that the Club satisfy the following criteria:

- First, the Club must show that it has submitted a plan to the appropriate governmental authorities to authorize the future use (if such a plan or authorization is necessary for the use) and that such plan (if required) has been approved by the governmental authorities. Such governmental approvals may include zoning approval, Conservation Commission approval, building permits, and any other necessary approvals.

- In addition, the Club must provide to EPA and to GE (directly or through EPA) "other documented evidence of a commitment to such use," such as, for example, evidence of financing or other financial assurance for the project, other plans for implementing the project (such as architectural plans, contracts for performance of the project, or other similar plans), or an affidavit that the Club intends to go forward with the project or other change in use if the necessary cleanup actions are taken.

If the Club provides this required documentation and EPA determines that the Club has satisfied the above criteria and that cleanup is necessary to allow such use, EPA will notify GE. GE will then be required to submit work plans for any necessary additional sampling and/or cleanup actions to allow such use and, upon EPA approval, to implement those plans. Such cleanup may include soil removal or other remediation as necessary to meet the applicable cleanup standards under the Consent Decree for the new use, or may include, for activities that

involve excavation or off-property disposition of soils, actions to ensure the proper excavation, management, and disposition of such soils. While GE is required to conduct such additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

In the event that the Club sells its property, these same requirements will continue to apply, provided that the successor owner meets the criteria specified above.

In addition, the Club should be aware that the Consent Decree requires GE to conduct annual inspections of the Club's property to determine whether there has been any changes in activities and uses that would be inconsistent with current uses or would involve exposure to soils greater than three feet in depth. These inspections may require us to contact the Club further in the future.

For purposes of providing the documentation described above or if you have any question about this matter, the following are the relevant contact persons:

Springfield, Massachusetts 01103
(413) 755-2264

2. Existing Levels of PCBs and Other Chemicals

GE is also required to notify the owner of the remaining levels of PCBs and other chemicals on a property where a Conditional Solution is implemented. For the Club's property, the results of GE's soil sampling were described in prior reports submitted to EPA, copies of which were sent to the Club. These include *GE's Pre-Design Investigation Report for Newell Street Area I Removal Action*, submitted in May 2001, with a supplemental report in July 2001, as well as the above-mentioned Conceptual Work Plan Addendum, submitted in April 2003.

Under the Consent Decree, GE was required to evaluate the concentrations of various constituents at the Club's property for certain specified depth intervals, both before and after the cleanup. For your convenience, the attached Table 1 summarizes, for each of the relevant depth intervals applicable to a Conditional Solution, the average post-cleanup concentrations of PCBs, as well as the average pre-cleanup concentrations of the other chemicals that were retained for evaluation (after an initial screening step), since cleanup was not necessary to address those other chemicals. (Although the cleanup conducted by GE also undoubtedly removed other constituents besides PCBs, GE conservatively did not consider such removal in evaluating residual concentrations of non-PCB constituents.) The attached table also shows that, for PCBs, the post-cleanup concentrations in each relevant depth interval are less than the cleanup standards in the Consent Decree for PCBs at recreational properties. It further shows that, for another set of constituents, known as polychlorinated dibenzo-*p*-dioxin and polychlorinated dibenzofuran toxicity equivalency quotients (PCDD/PCDF TEQs), the current concentrations are likewise below the Consent Decree cleanup standards for such compounds at recreational properties. Finally, for the remaining chemicals that were retained for evaluation, the table notes that a risk assessment performed by GE, as set forth in the approved Conceptual Work Plan Addendum, demonstrated that, for a recreational property, those constituents pose no risk above the risk benchmarks set forth in the Consent Decree.

Therefore, for all of the substances evaluated, the Club's property currently satisfies the Consent Decree standards for properties in recreational use. The Club and any successor owners should, however, take into account the existence of these substances on the property in conducting any activities such as excavation or digging in the future. In this connection, EPA has prepared a Fact Sheet relating to future uses and activities at this property. A copy of that EPA Fact Sheet is also attached to this letter.

Finally, you should be aware that since the City of Pittsfield holds an easement on your property, GE is also required to notify the City of the Conditional Solution implemented at the property. GE will provide that notification in the near future, with a copy to you.

Please call Dick Gates at 413-448-5909 if you have any questions about the information in this letter.

Very truly yours,

Michael T. Carroll/mk

TABLE 1: RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-17[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]						
	PCBs[2]	PCDD/PCDF TEQs[3]	Vinyl Chloride	1,4-Dichloro-benzene[4]	Benzo(a)-anthracene[4]	Benzo(a)-pyrene[4]	Benzo(b)-fluoranthene[4]
0- to 1-foot depth	7.6	0.0005	0.008	0.2	0.4	0.4	0.5
0- to 3-foot depth	9.9	0.0004	0.009	0.2	0.6	0.7	0.8
0- to 15-foot depth	42	0.013 (for 3-15 ft depth)	0.01	0.6	1.4	1.6	1.9

Depth Interval (feet below ground)	Benzo(k)-fluoranthene[4]	Dibenzo(a,h)-anthracene[4]	Indeno(1,2,3-cd)pyrene[4]	Antimony[4]	Arsenic[4]	Chromium[4]	Copper[4]	Lead[4]
0- to 1-foot depth	0.3	0.3	0.4	7.6	15	43	1,407	934
0- to 3-foot depth	0.4	0.3	0.6	8.2	13	34	1,098	684
0- to 15-foot depth	1.2	0.6	1.3	8.9	14	63	1,398	1,335

1. This table includes those chemical constituents that were retained for evaluation at this parcel after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration (or, in some cases, a statistically calculated "upper confidence limit") is given. For PCBs, the concentrations shown are those calculated to be present after the soil cleanup. For the other constituents, the concentrations shown are pre-cleanup concentrations. Although the soil removal did in fact remove other constituents present in the same areas as the PCBs being removed, GE conservatively has not considered that removal in evaluating the remaining concentrations of the other constituents.

2. For comparison, the cleanup standards in the Consent Decree for PCBs at recreational properties are 10 ppm for the 0-1 foot and 0-3 foot depths and 100 ppm for the 0-15 foot depth.

3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at recreational properties are 0.001 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 3-15 foot depth (there is no separate standard for the 0-15 foot depth interval).

4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-17, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

FACT SHEET RELATING TO FUTURE PROPERTY USES AND ACTIVITIES

Prepared by:
United States Environmental Protection Agency

This Fact Sheet is an attachment to a letter that the General Electric Company (GE) is sending to you as a follow-up to the soil cleanup activities that GE performed on your property. The federal Environmental Protection Agency (EPA) has prepared this Fact Sheet to inform you and successor owners of future uses and activities that you should not conduct on your property due to the levels of remaining contamination.

As GE has described in its letter, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in recreational use. Because the evaluation and cleanup of your property currently does not allow for unlimited uses, however, you and any successor owners should observe the following regarding your property:

- The property should only be used for commercial and/or recreational uses. It should not be used for residential uses.

- Except for emergency excavations, you should not excavate or dig below three feet of the surface of the ground. You may perform limited excavation and work in the top three feet of the surface of the ground. Please contact EPA and the Massachusetts Department of Environmental Protection (MassDEP) before excavating or moving any amount of soil below three feet and/or before excavating or moving more than ten (10) cubic yards of soil in the top three feet of the surface of the ground. Ten (10) cubic yards is approximately one-half of a standard dump truck of soil. Also, please contact EPA and MassDEP after any emergency excavations.

- An engineered barrier is located on your property that isolates contamination. This barrier, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work. To our knowledge, there are no utilities located beneath the engineered barrier.

- A groundwater monitoring well is located on your property. This well, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work.

- Please contact GE, EPA, and the MassDEP before disposing of any soil off of the property. Governmental regulations may restrict the off-site disposal of soil from your property.

- Please contact GE before any subsurface utility excavations for any new or existing utilities. Under the Consent Decree, GE is required to ensure that the

spatial average PCB concentrations of any utility backfill material are at or below 10 parts per million (ppm) in the top three feet of soil and 25 ppm in deeper soil.

As stated in GE's letter and as required by the Consent Decree, if, in the future, you decide to change the current use of your property to residential use or to expand your operations or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective of such future use, provided that certain conditions specified in the Consent Decree are met. Please refer to the letter from GE for more information.

If you have any questions about this Fact Sheet, please call Dean Tagliaferro, of EPA, at 617-918-1282, or Susan Steenstup, Special Projects Coordinator, MassDEP, at 413-784-1100.

Naples, Florida 34112

Re: Your Property at 217 Newell Street (Tax Parcel No. J9-23-18), Pittsfield, MA

Dear Mr. Curro:

On behalf of the General Electric Company (GE), I am providing this letter to you as a follow-up to the soil cleanup activities that GE performed on your above-referenced property in 2003 and 2004. As you know, those cleanup activities, as well as the preceding soil sampling activities, were performed by GE under its Consent Decree with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies. The Consent Decree requires that, following cleanup at commercial properties like yours, which are subject to what the Consent Decree calls a "Conditional Solution," GE must provide you with a letter explaining your rights under the Conditional Solution, as well as describing the remaining levels of chemicals in soil at your property.

You will recall that GE conducted extensive sampling of the soil at your property to determine whether it contained concentrations of polychlorinated biphenyls (PCBs) and other chemicals that would require cleanup under the standards in the Consent Decree. During this process, GE submitted to EPA a number of work plans and reports relating to that sampling and GE's evaluations of the sampling results, and has provided copies to you. All of these submittals were approved by EPA.

In addition, GE sent you a letter dated February 28, 2001, explaining the options that the Consent Decree provides for the owners of commercial properties like yours. To review briefly, the Consent Decree provides that, for such properties, the owner has two options relating to the cleanup and future use of the property (assuming that the property does not already meet the Consent Decree standards for residential properties). One of those options would involve the owner's execution of a legal deed restriction on the property, known as a "Grant of Environmental Restriction and Easement" (or "ERE" for short), which would allow continuation of the current commercial use of the property, but would place restrictions on future changes to different types of use (e.g., residential or recreational use) and on future excavations. Alternatively, if the owner elects not to execute an ERE for the property, GE would implement what is called a Conditional Solution. Under a Conditional Solution, GE would clean up the property to standards protective of its current commercial use and would agree to conduct additional cleanup (if necessary) in the future if the owner meets certain

conditions demonstrating a commitment to implement a future use for which additional cleanup is necessary.

Our letter to you of February 28, 2001 explained these options in more detail. Following your receipt of that letter, Dick Gates of GE discussed this matter with you by telephone. In that conversation, you advised GE that you did not wish to execute an ERE on your property. GE confirmed that understanding in a letter to you dated May 15, 2001. Subsequently, by letter of July 25, 2001, your attorney confirmed to GE that you had decided not to execute an ERE on your property. Accordingly, GE informed EPA and MassDEP, by letter of August 15, 2001 (with a copy to you), that GE would implement a Conditional Solution at your property.

In 2003, GE submitted work plans to EPA describing the cleanup work at your property. These included the *Conceptual RD/RA Work Plan Addendum for Newell Street Area I* (Conceptual Work Plan Addendum), submitted in April 2003, and the *Final RD/RA Work Plan for Newell Street Area I* (Final Work Plan), submitted in August 2003. Copies of these reports were sent to you. Those work plans provided for the implementation of a Conditional Solution at your property and were subsequently approved by EPA.

The Conceptual Work Plan Addendum included a detailed evaluation showing that, after performance of the cleanup proposed in that plan, the concentrations of PCBs in soil at your property would be below the applicable cleanup standards set forth in the Consent Decree for PCBs at commercial properties, which were determined by EPA and MassDEP in the Consent Decree to be fully protective of human health and the environment at such properties. Those standards require that: (a) the average PCB concentrations must not exceed 25 parts per million (ppm) in the top foot of soil or the top three feet of soil or 200 ppm in the 1- to 6-foot depth interval; and (b) if the remaining average PCB concentration in the top 15 feet of soil exceeds 100 ppm, an "engineered barrier" must be installed over the area causing the average concentration to exceed that level. (An engineered barrier is a permanent cover designed to isolate and contain the underlying soils and materials.) GE's Conceptual Work Plan Addendum also showed that the then-existing concentrations of other chemicals in the soil at your property were already below the applicable Consent Decree standards for those chemicals at commercial properties, and that thus no cleanup was necessary for those chemicals. EPA approved the Conceptual Work Plan Addendum, including the above-stated conclusions.

As you know, GE performed the cleanup actions at your property in 2003 and 2004. These actions included the removal and replacement of approximately 325 cubic yards of soil in the rear of your property to meet the above-referenced PCB cleanup standards. In addition, an engineered barrier covered with asphalt pavement was installed in the rear of your property. The location of the engineered barrier at your property is shown on the attached Figure 1. At the conclusion of the cleanup actions, your property was restored in accordance with the agreement between you and GE.

Now that the cleanup at your property has been completed, GE is providing this letter, as required by the Consent Decree, to explain: (1) the terms of the Conditional Solution,

including the requirements applicable to GE and you regarding future cleanup activities at the property; and (2) the levels of PCBs and other chemicals remaining at the property.

1. Requirements for Implementing Future Cleanup

As noted above and shown in the Conceptual Work Plan Addendum, the soil cleanup actions that GE performed at your property have resulted in a condition in which the current concentrations of PCBs and other chemicals in the soil at your property satisfy the applicable cleanup standards for commercial properties. As a result, no further actions are required at your property at this time. However, the levels of certain chemicals at your property would not satisfy the standards that would apply if the property were ever used for residential or recreational purposes. Accordingly, a Conditional Solution will be implemented for your property, effective immediately, to address future uses and activities at the property. Under the Consent Decree requirements for Conditional Solutions, this means the following:

If, in the future, you should decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective for such future use, provided that certain conditions specified in the Consent Decree are met. Specifically, those conditions require that you satisfy the following criteria:

- First, you must show that you have submitted a plan to the appropriate governmental authorities to authorize the future use (if such a plan or authorization is necessary for the use) and that such plan (if required) has been approved by the governmental authorities. Such governmental approvals may include zoning approval, Conservation Commission approval, building permits, and any other necessary approvals.

- In addition, you must provide to EPA and to GE (directly or through EPA) "other documented evidence of a commitment to such use," such as, for example, evidence of financing or other financial assurance for the project, other plans for implementing the project (such as architectural plans, contracts for performance of the project, or other similar plans), or an affidavit that you intend to go forward with the project or other change in use if the necessary cleanup actions are taken.

If you provide this required documentation and EPA determines that you have satisfied the above criteria and that cleanup is necessary to allow such use, EPA will notify GE. GE will then be required to submit work plans for any necessary additional sampling and/or cleanup actions to allow such use and, upon EPA approval, to implement those plans. Such cleanup may include soil removal or other remediation as necessary to meet the applicable cleanup standards under the Consent Decree for the new use, or may include, for activities that involve excavation or off-property disposition of soils, actions to ensure the proper excavation, management, and disposition of such soils. While GE is required to conduct such additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may

have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

In the event that you sell your property, these same requirements will continue to apply, provided that the successor owner meets the criteria specified above.

In addition, you should be aware that the Consent Decree requires GE to conduct annual inspections of your property to determine whether there has been any changes in activities and uses that would be inconsistent with current uses or would involve exposure to soils greater than three feet in depth. These inspections may require us to contact you further in the future.

For purposes of providing the documentation described above or if you have any question about this matter, the following are the relevant contact persons:

For GE: Richard W. Gates
Remediation Manager
General Electric Company
159 Plastics Avenue
Pittsfield, MA 01201
(413) 448-5909

For EPA: Dean Tagliaferro

2. Existing Levels of PCBs and Other Chemicals

GE is also required to notify the owner of the remaining levels of PCBs and other chemicals on a property where a Conditional Solution is implemented. For your property, the results of GE's soil sampling were described in prior reports submitted to EPA, copies of which were sent to you. These include *GE's Pre-Design Investigation Report for Newell Street Area I*

Removal Action, submitted in May 2001, with a supplemental report in July 2001, as well as the above-mentioned Conceptual Work Plan Addendum, submitted in April 2003.

Under the Consent Decree, GE was required to evaluate the concentrations of various constituents at your property for certain specified depth intervals, both before and after the cleanup. For your convenience, the attached Table 1 summarizes, for each of the relevant depth intervals evaluated, the average post-cleanup concentrations of PCBs, as well as the average pre-cleanup concentrations of the other chemicals that were retained for evaluation (after an initial screening step), since cleanup was not necessary to address those other chemicals. (Although the cleanup conducted by GE also undoubtedly removed other constituents besides PCBs, GE conservatively did not consider such removal in evaluating residual concentrations of non-PCB constituents.) The attached table also shows that, for PCBs, the post-cleanup concentrations in each relevant depth interval are less than the cleanup standards in the Consent Decree for PCBs at commercial properties. It further shows that, for another set of constituents, known as polychlorinated dibenzo-*p*-dioxin and polychlorinated dibenzofuran toxicity equivalency quotients (PCDD/PCDF TEQs), the current concentrations are likewise below the Consent Decree cleanup standards for such compounds at commercial properties. Finally, for the remaining chemicals that were retained for evaluation, the table notes that a risk assessment performed by GE, as set forth in the approved Conceptual Work Plan Addendum, demonstrated that, for a commercial property, those constituents pose no risk above the risk benchmarks set forth in the Consent Decree.

Therefore, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. You and any successor owners should, however, take into account the existence of these substances on your property in conducting any activities such as excavation or digging in the future. In this connection, EPA has prepared a Fact Sheet relating to future uses and activities at this property. A copy of that Fact Sheet is also attached to this letter.

Finally, you should be aware that GE is also required to notify the holders of any easements on your property of the Conditional Solution implemented at the property. GE will provide those notifications in the near future, with copies to you.

Please call Dick Gates at 413-448-5909 if you have any questions about the information in this letter.

Very truly yours,

Michael T. Carroll/erk

TABLE 1

RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-18[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]								
	PCBs[2]	PCDD/PCDF TEQs[3]	Benzo(a)-anthracene[4]	Benzo(a)-pyrene[4]	Benzo(b)-fluoranthene[4]	Dibenzo(a,h)-anthracene[4]	Indeno(1,2,3-cd)pyrene[4]	Arsenic[4]	Lead[4]
0- to 1-foot depth	5.2	0.0001	1.5	1.6	1.5	0.4	1.0	6.8	204
0- to 3-foot depth	23	0.00012	1.3	1.4	1.4	0.3	0.9	6.9	168
1- to 6-foot depth	86	N/A	3.0	2.9	3.2	0.5	1.4	6.4	363
0- to 15-foot depth	77	0.0016 (for 1-15 ft depth)	1.7	1.7	1.8	0.4	0.9	5.5	341

Notes:

1. This table includes those chemical constituents that were retained for evaluation at this property after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration is given. For PCBs, the concentrations shown are those calculated to be present after the soil cleanup. For the other constituents, the concentrations shown are pre-cleanup concentrations. Although the soil removal did in fact remove other constituents present in the same areas as the PCBs being removed, GE conservatively has not considered that removal in evaluating the remaining concentrations of the other constituents.
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth.
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals).
4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-18, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

FACT SHEET RELATING TO FUTURE PROPERTY USES AND ACTIVITIES

Prepared by:
United States Environmental Protection Agency

This Fact Sheet is an attachment to a letter that the General Electric Company (GE) is sending to you as a follow-up to the soil cleanup activities that GE performed on your property. The federal Environmental Protection Agency (EPA) has prepared this Fact Sheet to inform you and successor owners of future uses and activities that you should not conduct on your property due to the levels of remaining contamination.

As GE has described in its letter, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. Because the evaluation and cleanup of your property currently does not allow for unlimited uses, however, you and any successor owners should observe the following regarding your property:

- The property should only be used for commercial uses. It should not be used for residential or recreational uses.

- Except for emergency excavations, you should not excavate or dig below three feet of the surface of the ground. You may perform limited excavation and work in the top three feet of the surface of the ground. Please contact EPA and the Massachusetts Department of Environmental Protection (MassDEP) before excavating or moving any amount of soil below three feet and/or before excavating or moving more than ten (10) cubic yards of soil in the top three feet of the surface of the ground. Ten (10) cubic yards is approximately one-half of a standard dump truck of soil. Also, please contact EPA and MassDEP after any emergency excavations.

- An engineered barrier is located on your property that isolates contamination. This barrier, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work. To our knowledge, except for a City of Pittsfield sewer easement and a drainage line running from that sewer line to Newell Street, there are no utilities located beneath the engineered barrier.

- Please contact GE, EPA, and the MassDEP before disposing of any soil off of the property. Governmental regulations may restrict the off-site disposal of soil from your property.

- Please contact GE before any subsurface utility excavations for any new or existing utilities. Under the Consent Decree, GE is required to ensure that the spatial average PCB concentration of any utility backfill material is at or below 25 parts per million of PCBs.

As stated in GE's letter and as required by the Consent Decree, if, in the future, you decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective of such future use, provided that certain conditions specified in the Consent Decree are met. Please refer to the letter from GE for more information.

If you have any questions about this Fact Sheet, please call Dean Tagliaferro, of EPA, at 617-918-1282, or Susan Steenstup, Special Projects Coordinator, MassDEP, at 413-784-1100.

Appendix J-1 – Parcels J9-23-19, -20, and -21

GE
159 Plastics Avenue
Pittsfield, MA 01201
USA

September 6, 2006

Vincent F. and Cheryl E. Stracuzzi
P.O. Box 711
Pittsfield, Massachusetts 01202

Re: Your Property at 221, 229, and 230 Newell Street, Pittsfield, MA (Tax Parcel Nos. J9-23-19, -20, and -21)

Dear Mr. and Mrs. Stracuzzi:

On behalf of the General Electric Company (GE), I am providing this letter to you as a follow-up to the soil cleanup activities that GE performed on your above-referenced property in 2005 and 2006. As you know, those cleanup activities, as well as the preceding soil sampling activities, were performed by GE under its Consent Decree with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies. The Consent Decree requires that, following cleanup at commercial properties like yours, which are subject to what the Consent Decree calls a "Conditional Solution," GE must provide you with a letter explaining your rights under the Conditional Solution, as well as describing the remaining levels of chemicals in soil at your property.

You will recall that GE conducted extensive sampling of the soil at your property to determine whether it contained concentrations of polychlorinated biphenyls (PCBs) and other chemicals that would require cleanup under the standards in the Consent Decree. During this process, GE submitted to EPA a number of work plans and reports relating to that sampling and GE's evaluations of the sampling results, and has provided copies to you. All of these submittals were approved by EPA.

In addition, GE sent you a letter dated February 28, 2001, explaining the options that the Consent Decree provides for the owners of commercial properties like yours. To review briefly, the Consent Decree provides that, for such properties, the owner has two options relating to the cleanup and future use of the property (assuming that the property does not already meet the Consent Decree standards for residential properties). One of those options would involve the owner's execution of a legal deed restriction on the property, known as a "Grant of Environmental Restriction and Easement" (or "ERE" for short), which would allow continuation of the current commercial use of the property, but would place restrictions on future changes to different types of use (e.g., residential or recreational use) and on future excavations. Alternatively, if the owner elects not to execute an ERE for the property, GE would implement what is called a Conditional Solution. Under a Conditional Solution, GE would clean up the property to standards protective of its current commercial use and would agree to conduct additional cleanup (if necessary) in the future if the owner meets certain

conditions demonstrating a commitment to implement a future use for which additional cleanup is necessary.

Our letter to you of February 28, 2001 explained these options in more detail. Subsequently, by letter of July 25, 2001, your attorney advised GE that you had decided not to execute an ERE on your property. Accordingly, GE informed EPA and MassDEP, by letter of August 15, 2001 (with a copy to you), that GE would implement a Conditional Solution at your property.

In 2003, GE submitted work plans to EPA describing the cleanup work at your property. These included the *Conceptual RD/RA Work Plan Addendum for Newell Street Area I* (Conceptual Work Plan Addendum), submitted in April 2003, and the *Final RD/RA Work Plan for Newell Street Area I* (Final Work Plan), submitted in August 2003. Copies of these reports were sent to you. Those work plans provided for the implementation of a Conditional Solution at your property and were subsequently approved by EPA.

The Conceptual Work Plan Addendum included a detailed evaluation showing that, after performance of the cleanup proposed in that plan, the concentrations of PCBs and other chemicals in soil at each of the three parcels that comprise your property would meet the applicable cleanup standards for commercial properties, as set forth in the Consent Decree, which were determined by EPA and MassDEP to be fully protective of human health and the environment at such properties. For PCBs, those standards require that: (a) the average PCB concentrations must not exceed 25 parts per million (ppm) in the top foot of soil or the top three feet of soil or 200 ppm in the 1- to 6-foot depth interval; (b) no individual PCB concentration in the top foot of soil in unpaved areas may exceed 125 ppm; and (c) if the remaining average PCB concentration in the top 15 feet of soil exceeds 100 ppm, an "engineered barrier" must be installed over the area causing the average concentration to exceed that level. (An engineered barrier is a permanent cover designed to isolate and contain the underlying soils and materials.) For other chemicals in soil at commercial properties, the cleanup standards consist of certain risk-based criteria set forth in the Consent Decree, as described in GE's Conceptual Work Plan Addendum.

As you will recall, following EPA's approval of these work plan, you and GE executed an Agreement in September 2004, under which you agreed to allow GE, EPA, and MassDEP and their representatives and contractors access to your property to perform and oversee the required cleanup, and GE agreed to implement certain restoration and enhancement measures at the property, as specified in the Agreement.

As you also know, GE performed the cleanup and restoration actions at your property mainly in 2005, with certain remaining activities completed in 2006. These actions included the removal of a total approximately 2,400 cubic yards of soil from your three parcels (combined), including not only the removal and replacement of soil to meet the cleanup standards, but also the additional removal of the three soil/debris piles previously located on your Parcels J9-23-19 and J9-23-20. In addition, an engineered barrier, composed of compacted gravel, was installed in the rear of Parcel J9-23-19 and a portion of J9-23-20. The location of the engineered barrier

at your property is shown on the attached Figure 1, along with the locations of two groundwater monitoring wells that remain on your property. Further, concrete floors were installed over the previous dirt floor areas inside the storage building at the rear of Parcel J9-23-19 and inside the northern portion of the building on Parcel J9-23-20. Finally, as part of the restoration of the property (although not part of the required cleanup), GE installed additional pavement in previously unpaved areas outside the existing buildings in accordance with the September 2004 Agreement between you and GE.

Now that the cleanup and restoration at your property have been completed, GE is providing this letter, as required by the Consent Decree, to explain: (1) the terms of the Conditional Solution, including the requirements applicable to GE and you regarding future cleanup activities at the property; and (2) the levels of PCBs and other chemicals remaining at the property.

1. Requirements for Implementing Future Cleanup

As noted above and shown in the Conceptual Work Plan Addendum, the soil cleanup actions that GE performed at your property have resulted in a condition in which the current concentrations of PCBs and other chemicals in the soil at your property satisfy the applicable cleanup standards for commercial properties. As a result, no further actions are required at your property at this time. However, the levels of certain chemicals at your property would not satisfy the standards that would apply if the property were ever used for residential or recreational purposes. Accordingly, a Conditional Solution will be implemented for your property, effective immediately, to address future uses and activities at the property. Under the Consent Decree requirements for Conditional Solutions, this means the following:

If, in the future, you should decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective for such future use, provided that certain conditions specified in the Consent Decree are met. Specifically, those conditions require that you satisfy the following criteria:

- First, you must show that you have submitted a plan to the appropriate governmental authorities to authorize the future use (if such a plan or authorization is necessary for the use) and that such plan (if required) has been approved by the governmental authorities. Such governmental approvals may include zoning approval, Conservation Commission approval, building permits, and any other necessary approvals.

- In addition, you must provide to EPA and to GE (directly or through EPA) "other documented evidence of a commitment to such use," such as, for example, evidence of financing or other financial assurance for the project, other plans for implementing the project (such as architectural plans, contracts for performance of the project, or other

similar plans), or an affidavit that you intend to go forward with the project or other change in use if the necessary cleanup actions are taken.

If you provide this required documentation and EPA determines that you have satisfied the above criteria and that cleanup is necessary to allow such use, EPA will notify GE. GE will then be required to submit work plans for any necessary additional sampling and/or cleanup actions to allow such use and, upon EPA approval, to implement those plans. Such cleanup may include soil removal or other remediation as necessary to meet the applicable cleanup standards under the Consent Decree for the new use, or may include, for activities that involve excavation or off-property disposition of soils, actions to ensure the proper excavation, management, and disposition of such soils. While GE is required to conduct such additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

In the event that you sell your property, these same requirements will continue to apply, provided that the successor owner meets the criteria specified above.

In addition, you should be aware that the Consent Decree requires GE to conduct annual inspections of your property to determine whether there has been any changes in activities and uses that would be inconsistent with current uses or would involve exposure to soils greater than three feet in depth. These inspections may require us to contact you further in the future.

For purposes of providing the documentation described above or if you have any question about this matter, the following are the relevant contact persons:

For GE: Richard W. Gates
Remediation Manager
General Electric Company
159 Plastics Avenue
Pittsfield, MA 01201
(413) 448-5909

For EPA: Dean Tagliaferro
GE-Pittsfield Team Leader
U.S. Environmental Protection Agency
EPA New England
One Congress Street, Suite 1100 (Mail Code: HBO)
Boston, MA 02114
(617) 918-1282

For MassDEP: Susan Steenstrup
Project Coordinator, Special Projects
Bureau of Waste Site Cleanup
Massachusetts Department of Environmental Protection
436 Dwight Street
Springfield, Massachusetts 01103
(413) 755-2264

2. Existing Levels of PCBs and Other Chemicals

GE is also required to notify the owner of the remaining levels of PCBs and other chemicals at a property where a Conditional Solution is implemented. For your property, the results of GE's soil sampling were described in prior reports submitted to EPA, copies of which were sent to you. These include *GE's Pre-Design Investigation Report for Newell Street Area I Removal Action*, submitted in May 2001, with a supplemental report in July 2001, as well as the above-mentioned Conceptual Work Plan Addendum, submitted in April 2003.

Under the Consent Decree, GE was required to evaluate the concentrations of various constituents in soil in certain specified depth intervals at each of the three parcels that comprise your property, both before and after the cleanup. For your convenience, the attached Tables 1, 2, and 3 summarize, for Parcels J9-23-19, J9-23-20, and J9-23-21, respectively, the average concentrations of PCBs, as well as the other chemicals retained for evaluation after an initial screening step, that have been calculated to remain in each of the relevant depth intervals after the cleanup. The attached tables also show that, for PCBs, the post-cleanup concentrations in each relevant depth interval at each parcel are less than the cleanup standards in the Consent Decree for PCBs at commercial properties. They further show that, for another set of constituents, known as polychlorinated dibenzo-*p*-dioxin and polychlorinated dibenzofuran toxicity equivalency quotients (PCDD/PCDF TEQs), the current concentrations likewise meet the Consent Decree cleanup standards for such compounds at commercial properties. Finally, for the remaining chemicals that were retained for evaluation, the table notes that a risk assessment performed by GE, as set forth in the approved Conceptual Work Plan Addendum, demonstrated that, for each of your parcels in its current use, those constituents pose no risk above the risk benchmarks set forth in the Consent Decree.

Therefore, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. You and any successor owners should, however, take into account the existence of these substances on your property in conducting any activities such as excavation or digging in the future. In this connection, EPA has prepared a Fact Sheet relating to future uses and activities at this property. A copy of that Fact Sheet is also attached to this letter.

Finally, you should be aware that since the City of Pittsfield holds easements on your property, GE is also required to notify the City of the Conditional Solution implemented at the property. GE will provide that notification in the near future, with a copy to you.

Please call Dick Gates at 413-448-5909 if you have any questions about the information in this letter.

Very truly yours,

Michael T. Carroll/tsk

Michael T. Carroll

TABLE 1: RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-19[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]						
	PCBs[2]	PCDD/PCDF TEQs[3]	Benzene[4]	Benzo(a)-anthracene[4]	Benzo(a)-pyrene[4]	Benzo(b)-fluoranthene[4]	Benzo(k)-fluoranthene[4]
0- to 1-foot depth	1.5	0.00002	0.003	1.8	1.5	1.5	1.2
0- to 3-foot depth	13	0.00078	0.01	3.1	2.4	2.4	2.0
1- to 6-foot depth	90	N/A	0.01	3.6	2.8	2.6	2.4
0- to 15-foot depth	34	0.00078 (for 1-15 ft depth)	0.24	3.7	3.2	3.1	2.9

Depth Interval (feet below ground)	Dibenzo(a,h)-anthracene[4]	1,4-Dichloro-benzene[4]	Indeno(1,2,3-cd)pyrene[4]	Phenanthrene[4]	Vinyl Chloride[4]	Arsenic[4]	Lead[4]
0- to 1-foot depth	0.4	0.6	0.8	2.9	0.003	5.7	46
0- to 3-foot depth	0.6	0.5	1.3	5.1	0.01	11	52
1- to 6-foot depth	0.7	0.4	1.5	6.1	0.02	16	50
0- to 15-foot depth	1.7	2.9	2.3	5.4	0.07	9.4	121

1. This table includes those chemical constituents that were retained for evaluation at this parcel after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration is given. The concentrations shown are those calculated to be present after the soil cleanup.
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth.
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals).
4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-19, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

TABLE 2: RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-20[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]				
	PCBs[2]	PCDD/PCDF TEQs[3]	Benzo(a)anthracene[4]	Benzo(a)pyrene[4]	Benzo(b)fluoranthene[4]
0- to 1-foot depth	1.9	0.000014	0.4	0.3	0.5
0- to 3-foot depth	11	0.000014	0.7	3.2	3.3
1- to 6-foot depth	55	N/A	2.0	4.5	4.5
0- to 15-foot depth	70	0.0038 (for 1-15 ft depth)	1.1	2.1	2.2

Depth Interval (feet below ground)	Dibenzo(a,h)-anthracene[4]	Indeno(1,2,3-cd)pyrene[4]	Vinyl Chloride[4]	Arsenic[4]	Lead[4]
0- to 1-foot depth	0.1	0.2	0.003	4.4	24
0- to 3-foot depth	3.1	3.2	0.06	5.3	57
1- to 6-foot depth	3.5	4.0	0.05	5.6	131
0- to 15-foot depth	1.5	1.8	0.04	5.7	236

1. This table includes those chemical constituents that were retained for evaluation at this parcel after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration is given. For PCBs, the concentrations shown are those calculated to be present after the soil cleanup. For the other constituents, the concentrations shown are pre-cleanup concentrations, since cleanup was not required to address those constituents (although the soil cleanup for PCBs did in fact remove other concentrations present in the same areas as the PCBs being removed).
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth.
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals).
4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-20, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

TABLE 3: RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-21[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]							
	PCBs[2]	PCDD/PCDF TEQs[3]	Benzo(a)-anthracene[4]	Benzo(a)-pyrene[4]	Benzo(b)-fluoranthene[4]	Dibenzo(a,h)-anthracene[4]	Indeno(1,2,3-cd)pyrene[4]	Arsenic[4]
0- to 1-foot depth	3.1	0.00001	0.6	0.6	0.5	0.3	0.4	7.9
0- to 3-foot depth	21	0.0005	1.0	0.7	0.7	0.4	0.5	7.0
1- to 6-foot depth	72	N/A	1.3	0.8	0.8	0.3	0.4	5.0
0- to 15-foot depth	35	0.016 (for 1-15 ft depth)	0.9	0.6	0.6	0.3	0.4	5.4

1. This table includes those chemical constituents that were retained for evaluation at this parcel after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration (or, in some cases, a statistically calculated "upper confidence limit") is given. The concentrations shown are those calculated to be present after the soil cleanup.
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth.
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals).
4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-21, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

FACT SHEET RELATING TO FUTURE PROPERTY USES AND ACTIVITIES

Prepared by:
United States Environmental Protection Agency

This Fact Sheet is an attachment to a letter that the General Electric Company (GE) is sending to you as a follow-up to the soil cleanup activities that GE performed on your property. The federal Environmental Protection Agency (EPA) has prepared this Fact Sheet to inform you and successor owners of future uses and activities that you should not conduct on your property due to the levels of remaining contamination.

As GE has described in its letter, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. Because the evaluation and cleanup of your property currently does not allow for unlimited uses, however, you and any successor owners should observe the following regarding your property:

- The property should only be used for commercial uses. It should not be used for residential or recreational uses.

- Except for emergency excavations, you should not excavate or dig below three feet of the surface of the ground. You may perform limited excavation and work in the top three feet of the surface of the ground. Please contact EPA and the Massachusetts Department of Environmental Protection (MassDEP) before excavating or moving any amount of soil below three feet and/or before excavating or moving more than ten (10) cubic yards of soil in the top three feet of the surface of the ground. Ten (10) cubic yards is approximately one-half of a standard dump truck of soil. Also, please contact EPA and MassDEP after any emergency excavations.

- An engineered barrier is located on your property that isolates contamination. This barrier, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work. To our knowledge, except for a City of Pittsfield sewer easement, there are no utilities located beneath the engineered barrier.

- Two groundwater monitoring wells are located on your property. These wells, which are shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work.

- Please contact GE, EPA, and the MassDEP before disposing of any soil off of the property. Governmental regulations may restrict the off-site disposal of soil from your property.

- Please contact GE before any subsurface utility excavations for any new or existing utilities. Under the Consent Decree, GE is required to ensure that the spatial average PCB concentration of any utility backfill material is at or below 25 parts per million of PCBs.

As stated in GE's letter and as required by the Consent Decree, if, in the future, you decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective of such future use, provided that certain conditions specified in the Consent Decree are met. Please refer to the letter from GE for more information.

If you have any questions about this Fact Sheet, please call Dean Tagliaferro, of EPA, at 617-918-1282, or Susan Steenstup, Special Projects Coordinator, MassDEP, at 413-784-1100.

September 6, 2006

Anthony J. and Grace Marchetto
247/249 Newell Street
Pittsfield, Massachusetts 01201

Re: **Your Property at 247/249 Newell Street (Tax Parcel No. J9-23-22)**

Dear Mr. and Mrs. Marchetto:

On behalf of the General Electric Company (GE), I am providing this letter to you as a follow-up to the soil cleanup activities that GE performed on your above-referenced property in 2004. As you know, those cleanup activities, as well as the preceding soil sampling activities, were performed by GE under its Consent Decree with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies. The Consent Decree requires that, following cleanup at commercial properties like yours, which are subject to what the Consent Decree calls a "Conditional Solution," GE must provide you with a letter explaining your rights under the Conditional Solution, as well as describing the remaining levels of chemicals in soil at your property.

You will recall that GE conducted extensive sampling of the soil at your property to determine whether it contained concentrations of polychlorinated biphenyls (PCBs) and other chemicals that would require cleanup under the standards in the Consent Decree. During this process, GE submitted to EPA a number of work plans and reports relating to that sampling and GE's evaluations of the sampling results, and has provided copies to you. All of these submittals were approved by EPA.

In addition, GE sent you a letter dated February 28, 2001, explaining the options that the Consent Decree provides for the owners of commercial properties like yours. To review briefly, the Consent Decree provides that, for such properties, the owner has two options relating to the cleanup and future use of the property (assuming that the property does not already meet the Consent Decree standards for residential properties). One of those options would involve the owner's execution of a legal deed restriction on the property, known as a "Grant of Environmental Restriction and Easement" (or "ERE" for short), which would allow continuation of the current commercial use of the property, but would place restrictions on future changes to different types of use (e.g., residential or recreational use) and on future excavations. Alternatively, if the owner elects not to execute an ERE for the property, GE would implement what is called a Conditional Solution. Under a Conditional Solution, GE would clean up the property to standards protective of its current commercial use and would agree to conduct additional cleanup (if necessary) in the future if the owner meets certain conditions demonstrating a commitment to implement a future use for which additional cleanup is necessary.

Our letter to you of February 28, 2001 explained these options in more detail. Following your receipt of that letter, Dick Gates of GE discussed this matter with your son-in-law, Richard Lohr, on March 30, 2001. In that conversation, Mr. Lohr advised GE that you had decided not to execute an ERE on your property. GE confirmed that understanding in a letter to you dated April 12, 2001, and again in letter dated May 15, 2001. Accordingly, GE thereafter informed EPA that GE would implement a Conditional Solution at your property.

In 2003, GE submitted work plans to EPA describing the cleanup work at your property. These included the *Conceptual RD/RA Work Plan Addendum for Newell Street Area I* (Conceptual Work Plan Addendum), submitted in April 2003, and the *Final RD/RA Work Plan for Newell Street Area I* (Final Work Plan), submitted in August 2003. Copies of these reports were sent to you. Those work plans provided for the implementation of a Conditional Solution at your property and were subsequently approved by EPA.

The Conceptual Work Plan Addendum included a detailed evaluation showing that, after performance of the cleanup proposed in that plan, the concentrations of PCBs in soil at your property would be below the applicable cleanup standards set forth in the Consent Decree for PCBs at commercial properties, which were determined by EPA and MassDEP in the Consent Decree to be fully protective of human health and the environment at such properties. Those standards require that: (a) the average PCB concentrations must not exceed 25 parts per million (ppm) in the top foot of soil or the top three feet of soil or 200 ppm in the 1- to 6-foot depth interval; (b) no individual PCB concentration in the top foot of soil in unpaved areas may exceed 125 ppm; and (c) if the remaining average PCB concentration in the top 15 feet of soil exceeds 100 ppm, an "engineered barrier" must be installed over the area causing the average concentration to exceed that level. (An engineered barrier is a permanent cover designed to isolate and contain the underlying soils and materials.) GE's Conceptual Work Plan Addendum also showed that the then-existing concentrations of other chemicals in the soil at your property were already below the applicable Consent Decree standards for those chemicals at commercial properties, and that thus no cleanup was necessary for those chemicals. EPA approved the Conceptual Work Plan Addendum, including the above-stated conclusions.

Following submittal of the Final Work Plan, GE submitted supplemental letters to EPA, dated May 28 and June 22, 2004, explaining certain relatively minor modifications to the cleanup and final surface covers at your property. Those modifications did not change the fact that the cleanup would achieve the applicable standards, described above.

As you know, GE performed the cleanup work at your property in 2004. These actions included the removal and replacement of approximately 2,500 cubic yards of soil to meet the above-referenced PCB cleanup standards for the top foot, top three feet and 1- to 6-foot depth interval of soil. In addition, an engineered barrier was installed in the rear of your property, consisting of compacted gravel and, along a portion of the restored drainage swale, asphalt pavement. The location and types of the engineered barrier at your property are shown on the

attached Figure 1. At the conclusion of the cleanup actions, your property was restored in accordance with the agreement between you and GE.

Now that the cleanup at your property has been completed, GE is providing this letter, as required by the Consent Decree, to explain: (1) the terms of the Conditional Solution, including the requirements applicable to GE and you regarding future cleanup activities at the property; and (2) the levels of PCBs and other chemicals remaining at the property.

1. Requirements for Implementing Future Cleanup

As noted above and shown in the Conceptual Work Plan Addendum, the soil cleanup actions that GE performed at your property have resulted in a condition in which the current concentrations of PCBs and other chemicals in the soil at your property satisfy the applicable cleanup standards for commercial properties. As a result, no further actions are required at your property at this time. However, the levels of certain chemicals at your property would not satisfy the standards that would apply if the property were ever used for residential or recreational purposes. Accordingly, a Conditional Solution will be implemented for your property, effective immediately, to address future uses and activities at the property. Under the Consent Decree requirements for Conditional Solutions, this means the following:

If, in the future, you should decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective for such future use, provided that certain conditions specified in the Consent Decree are met. Specifically, those conditions require that you satisfy the following criteria:

- First, you must show that you have submitted a plan to the appropriate governmental authorities to authorize the future use (if such a plan or authorization is necessary for the use) and that such plan (if required) has been approved by the governmental authorities. Such governmental approvals may include zoning approval, Conservation Commission approval, building permits, and any other necessary approvals.

- In addition, you must provide to EPA and to GE (directly or through EPA) "other documented evidence of a commitment to such use," such as, for example, evidence of financing or other financial assurance for the project, other plans for implementing the project (such as architectural plans, contracts for performance of the project, or other similar plans), or an affidavit that you intend to go forward with the project or other change in use if the necessary cleanup actions are taken.

If you provide this required documentation and EPA determines that you have satisfied the above criteria and that cleanup is necessary to allow such use, EPA will notify GE. GE will then be required to submit work plans for any necessary additional sampling and/or cleanup actions to allow such use and, upon EPA approval, to implement those plans. Such cleanup

may include soil removal or other remediation as necessary to meet the applicable cleanup standards under the Consent Decree for the new use, or may include, for activities that involve excavation or off-property disposition of soils, actions to ensure the proper excavation, management, and disposition of such soils. While GE is required to conduct such additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

In the event that you sell your property, these same requirements will continue to apply, provided that the successor owner meets the criteria specified above.

In addition, you should be aware that the Consent Decree requires GE to conduct annual inspections of your property to determine whether there has been any changes in activities and uses that would be inconsistent with current uses or would involve exposure to soils greater than three feet in depth. These inspections may require us to contact you further in the future.

For purposes of providing the documentation described above or if you have any question about this matter, the following are the relevant contact persons:

For GE: Richard W. Gates

Springfield, Massachusetts 01103
(413) 755-2264

2. Existing Levels of PCBs and Other Chemicals

GE is also required to notify the owner of the remaining levels of PCBs and other chemicals on a property where a Conditional Solution is implemented. For your property, the results of GE's soil sampling were described in prior reports submitted to EPA, copies of which were sent to you. These include *GE's Pre-Design Investigation Report for Newell Street Area I Removal Action*, submitted in May 2001, with a supplemental report in July 2001, as well as the above-mentioned Conceptual Work Plan Addendum, submitted in April 2003.

Under the Consent Decree, GE was required to evaluate the concentrations of various constituents at your property for certain specified depth intervals, both before and after the cleanup. For your convenience, the attached Table 1 summarizes, for each of the relevant depth intervals evaluated, the average post-cleanup concentrations of PCBs, as well as the average pre-cleanup concentrations of the other chemicals that were retained for evaluation (after an initial screening step), since cleanup was not necessary to address those other chemicals. (Although the cleanup conducted by GE also undoubtedly removed other constituents besides PCBs, GE conservatively did not consider such removal in evaluating residual concentrations of non-PCB constituents.) The attached table also shows that, for PCBs, the post-cleanup concentrations in each relevant depth interval are less than the cleanup standards in the Consent Decree for PCBs at commercial properties. It further shows that, for another set of constituents, known as polychlorinated dibenzo-*p*-dioxin and polychlorinated dibenzofuran toxicity equivalency quotients (PCDD/PCDF TEQs), the current concentrations are likewise below the Consent Decree cleanup standards for such compounds at commercial properties. Finally, for the remaining chemicals that were retained for evaluation, the table notes that a risk assessment performed by GE, as set forth in the approved Conceptual Work Plan Addendum, demonstrated that, for a commercial property, those constituents pose no risk above the risk benchmarks set forth in the Consent Decree.

Therefore, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. You and any successor owners should, however, take into account the existence of these substances on your property in conducting any activities such as excavation or digging in the future. In this connection, EPA has prepared a Fact Sheet relating to future uses and activities at this property. A copy of that Fact Sheet is also attached to this letter.

Finally, you should be aware that since the City of Pittsfield holds an easement on your property, GE is also required to notify the City of the Conditional Solution implemented at the property. GE will provide that notification in the near future, with a copy to you.

Please call Dick Gates at 413-448-5909 if you have any questions about the information in this letter.

Very truly yours,

Michael T. Carroll/lrk

TABLE 1
RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-22[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]							
	PCBs[2]	PCDD/PCDF TEQs[3]	Benzo(a)-anthracene[4]	Benzo(a)-pyrene[4]	Benzo(b)-fluoranthene[4]	Dibenzo(a,h)-anthracene[4]	Arsenic[4]	Lead[4]
0- to 1-foot depth	2.9	0.0009	0.2	0.2	0.2	0.1	5.5	136
0- to 3-foot depth	17	0.0032	1.7	1.1	1.6	0.3	5.8	179
1- to 6-foot depth	160	N/A	2.0	1.2	1.9	0.4	9.9	1119
0- to 15-foot depth	70	0.0111 (for 1-15 ft depth)	1.1	0.7	1.1	0.3	7.4	524

Notes:

1. This table includes those chemical constituents that were retained for evaluation at this property after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration (or, in some cases, a statistically calculated "upper confidence limit") is given. For PCBs, the concentrations shown are those calculated to be present after the soil cleanup. For the other constituents, the concentrations shown are pre-cleanup concentrations. Although the soil removal did in fact remove other constituents present in the same areas as the PCBs being removed, GE conservatively has not considered that removal in evaluating the remaining concentrations of the other constituents.
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth.
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals).
4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-22, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

FACT SHEET RELATING TO FUTURE PROPERTY USES AND ACTIVITIES

Prepared by:
United States Environmental Protection Agency

This Fact Sheet is an attachment to a letter that the General Electric Company (GE) is sending to you as a follow-up to the soil cleanup activities that GE performed on your property. The federal Environmental Protection Agency (EPA) has prepared this Fact Sheet to inform you and successor owners of future uses and activities that you should not conduct on your property due to the levels of remaining contamination.

As GE has described in its letter, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. Because the evaluation and cleanup of your property currently does not allow for unlimited uses, however, you and any successor owners should observe the following regarding your property:

- The property should only be used for commercial uses. It should not be used for residential or recreational uses.

- Except for emergency excavations, you should not excavate or dig below three feet of the surface of the ground. You may perform limited excavation and work in the top three feet of the surface of the ground. Please contact EPA and the Massachusetts Department of Environmental Protection (MassDEP) before excavating or moving any amount of soil below three feet and/or before excavating or moving more than ten (10) cubic yards of soil in the top three feet of the surface of the ground. Ten (10) cubic yards is approximately one-half of a standard dump truck of soil. Also, please contact EPA and MassDEP after any emergency excavations.

- An engineered barrier is located on your property that isolates contamination. This barrier, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work. To our knowledge, there are no utilities located beneath the engineered barrier.

- Please contact GE, EPA, and the MassDEP before disposing of any soil off of the property. Governmental regulations may restrict the off-site disposal of soil from your property.

- Please contact GE before any subsurface utility excavations for any new or existing utilities. Under the Consent Decree, GE is required to ensure that the spatial average PCB concentration of any utility backfill material is at or below 25 parts per million of PCBs.

As stated in GE's letter and as required by the Consent Decree, if, in the future, you decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective of such future use, provided that certain conditions specified in the Consent Decree are met. Please refer to the letter from GE for more information.

If you have any questions about this Fact Sheet, please call Dean Tagliaferro, of EPA, at 617-918-1282, or Susan Steenstup, Special Projects Coordinator, MassDEP, at 413-784-1100.

Louis J. and George C. Allegrone
273 Newell Street
Pittsfield, Massachusetts 01201

Re: **Your Property at 273 Newell Street (Tax Parcel No. J9-23-25)**

Dear Messrs. Allegrone:

On behalf of the General Electric Company (GE), I am providing this letter to you as a follow-up to the soil investigations and evaluations that GE performed for your above-referenced property in 2000-2003. As you know, those soil sampling and evaluation activities were performed by GE under its Consent Decree with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies. These activities included extensive sampling of the soil at your property to determine whether it contained concentrations of polychlorinated biphenyls (PCBs) and other chemicals that would require cleanup under the standards in the Consent Decree. The results of that sampling, as well as GE's evaluation of the sampling results, were provided in a number of work plans and reports submitted to EPA, with copies to you. All of these submittals were approved by EPA.

As you will recall, GE's evaluation of the soil sampling results from your property, as approved by EPA, indicated that cleanup was not necessary at your property to meet the cleanup standards set forth in the Consent Decree for commercial properties like yours. However, the levels of PCBs at your property would not satisfy the standards that would apply if the property were ever used for residential purposes. In these circumstances, the Consent Decree requires that certain measures be implemented to address future uses and activities at the property. For your property, as discussed further below, those measures consist of implementation of what the Consent Decree calls a "Conditional Solution." Under the Consent Decree, GE is required to provide you with a letter explaining your rights under the Conditional Solution and describing the remaining levels of chemicals in soil at your property. This letter provides that information.

As background, the Consent Decree provides that, for non-residential properties like yours, the owner has two options for addressing future use of the property (following any required cleanup or a determination that cleanup is not necessary), assuming that the property does not meet the standards for residential use. GE described those options to you in a letter dated February 28, 2001. One of those options would involve the owner's execution of a legal deed restriction on the property, known as a "Grant of Environmental Restriction and Easement" (or "ERE" for short), which would allow continuation of the current commercial use of the property, but would place restrictions on future changes to different types of use (e.g.,

residential use) and on future excavations. Alternatively, if the owner elects not to execute an ERE for the property, GE would implement what is called a Conditional Solution. Under a Conditional Solution, for properties already meeting the standards for commercial use, GE would agree to conduct cleanup (if necessary) in the future if the owner meets certain conditions demonstrating a commitment to implement a future use for which cleanup is necessary.

Following your receipt of GE's February 28, 2001 letter, Dick Gates of GE discussed this matter with Louis Allegrone on April 23, 2001. Based on that conversation, it was GE's understanding that you decided not to execute an ERE on your property and, instead, to have a Conditional Solution implemented at the property. GE confirmed that understanding in a letter to you dated May 15, 2001, and thereafter informed EPA that GE would implement a Conditional Solution at your property.

GE reported on its evaluation of your property in work plans prepared by GE and approved by EPA, including a document titled *Conceptual RD/RA Work Plan Addendum for Newell Street Area I* (Conceptual Work Plan Addendum), submitted in April 2003, with a copy to you. The Conceptual Work Plan Addendum included a detailed evaluation showing that the existing concentrations of PCBs and other chemicals in soil at your property are already below the applicable cleanup standards set forth in the Consent Decree for commercial properties, which were determined by EPA and MassDEP to be fully protective of human health and the environment at such properties. For PCBs, those standards consist of average PCB concentrations of 25 parts per million (ppm) in the top foot of soil and the top three feet of soil, 200 ppm in the 1- to 6-foot depth interval, and 100 ppm in the top 15 feet of soil, as well as a requirement that no individual PCB concentration in the top foot of soil in unpaved areas may exceed 125 ppm. For other chemicals in soil at commercial properties, the cleanup standards consist of certain risk-based criteria set forth in the Consent Decree, as described in GE's Conceptual Work Plan Addendum. Since your property already met these standards, GE concluded that no cleanup was necessary, and that a Conditional Solution would be implemented to address future use. EPA approved those conclusions.

GE is now providing this letter, as required by the Consent Decree, to explain: (1) the terms of the Conditional Solution, including the requirements applicable to GE and you regarding future cleanup activities at the property; and (2) the levels of PCBs and other chemicals remaining at the property.

1. Requirements for Implementing Future Cleanup

As described above, the current concentrations of PCBs and other chemicals in the soil at your property satisfy the applicable cleanup standards for commercial properties. However, as also noted above, the levels of PCBs at your property would not satisfy the standard that would apply if the property were ever used for residential purposes (2 ppm). Accordingly, a Conditional Solution will be implemented for your property, effective immediately, to address

future uses and activities at the property. Under the Consent Decree requirements for Conditional Solutions, this means the following:

If, in the future, you should decide to change the current use of your property (e.g., to residential use) or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct cleanup actions at your property, if necessary, to be protective for such future use, provided that certain conditions specified in the Consent Decree are met. Specifically, those conditions require that you satisfy the following criteria:

- First, you must show that you have submitted a plan to the appropriate governmental authorities to authorize the future use (if such a plan or authorization is necessary for the use) and that such plan (if required) has been approved by the governmental authorities. Such governmental approvals may include zoning approval, Conservation Commission approval, building permits, and any other necessary approvals.

- In addition, you must provide to EPA and to GE (directly or through EPA) "other documented evidence of a commitment to such use," such as, for example, evidence of financing or other financial assurance for the project, other plans for implementing the project (such as architectural plans, contracts for performance of the project, or other similar plans), or an affidavit that you intend to go forward with the project or other change in use if the necessary cleanup actions are taken.

If you provide this required documentation and EPA determines that you have satisfied the above criteria and that cleanup is necessary to allow such use, EPA will notify GE. GE will then be required to submit work plans for any necessary additional sampling and/or cleanup actions to allow such use and, upon EPA approval, to implement those plans. Such cleanup may include soil removal or other remediation as necessary to meet the applicable cleanup standards under the Consent Decree for the new use, or may include, for activities that involve excavation or off-property disposition of soils, actions to ensure the proper excavation, management, and disposition of such soils. While GE is required to conduct such additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

In the event that you sell your property, these same requirements will continue to apply, provided that the successor owner meets the criteria specified above.

In addition, you should be aware that the Consent Decree requires GE to conduct annual inspections of your property to determine whether there has been any changes in activities and uses that would be inconsistent with current uses or would involve exposure to soils greater than three feet in depth. These inspections may require us to contact you further in the future.

For purposes of providing the documentation described above or if you have any question about this matter, the following are the relevant contact persons:

For GE: Richard W. Gates
Remediation Manager
General Electric Company
159 Plastics Avenue
Pittsfield, MA 01201
(413) 448-5909

For EPA: Dean Tagliaferro
GE-Pittsfield Team Leader
U.S. Environmental Protection Agency
EPA New England
One Congress Street, Suite 1100 (Mail Code: HBO)
Boston, MA 02114
(617) 918-1282

For MassDEP: Susan Steenstrup
Project Coordinator, Special Projects
Bureau of Waste Site Cleanup
Massachusetts Department of Environmental Protection
436 Dwight Street
Springfield, Massachusetts 01103
(413) 755-2264

2. Existing Levels of PCBs and Other Chemicals

GE is also required to notify the owner of the levels of PCBs and other chemicals on a property where a Conditional Solution is implemented. For your property, those levels have been described in prior reports submitted to EPA, copies of which were sent to you. These include *GE's Pre-Design Investigation Report for Newell Street Area I Removal Action*, submitted in May 2001, with a supplemental report in July 2001, as well as the above-mentioned Conceptual Work Plan Addendum, submitted in April 2003.

Under the Consent Decree, GE was required to evaluate the concentrations of various constituents at your property for certain specified depth intervals. For your convenience, the attached Table 1 summarizes, for each of the relevant depth intervals evaluated, the average existing concentrations of PCBs and other chemicals that were retained for evaluation after an initial conservative screening step established in the Consent Decree. The attached table also shows that, for PCBs, the current concentrations in each relevant depth interval are less than the cleanup standards in the Consent Decree for PCBs at commercial properties. It further shows that, for another set of constituents, known as polychlorinated dibenzo-*p*-dioxin and polychlorinated dibenzofuran toxicity equivalency quotients (PCDD/PCDF TEQs), the current

concentrations are likewise below the Consent Decree cleanup standards for such compounds. Finally, for the remaining chemicals that were retained for evaluation (benzo(a)pyrene and arsenic), the table shows that the average concentrations of those chemicals are below the applicable cleanup standards under the Consent Decree.

Therefore, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. You and any successor owners should, however, take into account the existence of these substances on your property in conducting any activities such as excavation or digging in the future. In this connection, EPA has prepared a Fact Sheet relating to future uses and activities at this property. A copy of that Fact Sheet is also attached to this letter.

Finally, you should be aware that GE is also required to notify any other entity with an interest in your property, such as the holders of easements or mortgages, of the Conditional Solution implemented at the property. GE will provide those notifications in the near future, with copies to you.

Please call Dick Gates at 413-448-5909 if you have any questions about the information in this letter.

Very truly yours,

Michael T. Carroll

TABLE 1

RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-25[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]			
	PCBs[2]	PCDD/PCDF TEQs[3]	Benzo(a)-pyrene[4]	Arsenic[4]
0- to 1-foot depth	2.1	0.000007	0.2	7.9
0- to 3-foot depth	3.8	0.00044	0.2	7.5
1- to 6-foot depth	9.9	N/A	0.3	6.2
0- to 15-foot depth	21	0.00044 (for 1-15 ft depth)	0.2	6.4

Notes:

1. This table includes those chemical constituents that were retained for evaluation at this property after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which maximum concentration is given. The concentrations shown are existing concentrations calculated based on the sampling data.
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth. (For residential properties, the cleanup standard is 2 ppm.)
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals). (For residential properties, the cleanup standard is 0.001 ppm.)
4. For these substances, the cleanup standards used for this property under the Consent Decree are the "Method 1" soil standards adopted by the MassDEP. For benzo(a)pyrene, the current Method 1 soil standards applicable to commercial properties are 4 ppm for the 0-1 foot, 0-3 foot, and 1-6 foot depth intervals and 30 ppm for the 0-15 foot depth interval (while the standard for residential properties is 2 ppm). For arsenic, the current Method 1 soil standard is 20 ppm for all depth intervals at commercial properties (as well as for residential properties).

FACT SHEET RELATING TO FUTURE PROPERTY USES AND ACTIVITIES

Prepared by:
United States Environmental Protection Agency

This Fact Sheet is an attachment to a letter that the General Electric Company (GE) is sending to you as a follow-up to the soil cleanup activities that GE performed on your property. The federal Environmental Protection Agency (EPA) has prepared this Fact Sheet to inform you and successor owners of future uses and activities that you should not conduct on your property due to the levels of remaining contamination.

As GE has described in its letter, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. Because the evaluation and cleanup of your property currently does not allow for unlimited uses, however, you and any successor owners should observe the following regarding your property:

- The property should not be used for residential uses.

- Except for emergency excavations, you should not excavate or dig below three feet of the surface of the ground. You may perform limited excavation and work in the top three feet of the surface of the ground. Please contact EPA and the Massachusetts Department of Environmental Protection (MassDEP) before excavating or moving any amount of soil below three feet and/or before excavating or moving more than ten (10) cubic yards of soil in the top three feet of the surface of the ground. Ten (10) cubic yards is approximately one-half of a standard dump truck of soil. Also, please contact EPA and MassDEP after any emergency excavations.

- Please contact GE, EPA, and the MassDEP before disposing of any soil off of the property. Governmental regulations may restrict the off-site disposal of soil from your property.

- Please contact GE before any subsurface utility excavations for any new or existing utilities. Under the Consent Decree, GE is required to ensure that the spatial average PCB concentration of any utility backfill material is at or below 25 parts per million of PCBs.

As stated in GE's letter and as required by the Consent Decree, if, in the future, you decide to change the current use of your property to residential use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective of such future use, provided that certain conditions specified in the Consent Decree are met. Please refer to the letter from GE for more information.

If you have any questions about this Fact Sheet, please call Dean Tagliaferro, of EPA, at 617-918-1282, or Susan Steenstup, Special Projects Coordinator, MassDEP, at 413-784-1100.

ARCADIS

Appendix J-1 – Parcel J9-23-18

GE
159 Plastics Avenue
Pittsfield, MA 01201

December 14, 2007

217 Newell Street, LLC
Attention: Patrick Sheehan, Manager
c/o Sugar Hill
45 Main Street
Dalton, MA 01226

Re: Your Property at 217 Newell Street (Tax Parcel No. J9-23-18), Pittsfield, MA

Dear Mr. Sheehan:

It has recently come to the attention of the General Electric Company (GE) that the above-referenced property in Pittsfield was sold by Vincent J. Curro to 217 Newell Street, LLC, of which you are manager. I am writing because this property is located in an area, known as Newell Street Area I, which is subject to a Consent Decree that GE has executed with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies, governing the investigation and cleanup of a number of areas in Pittsfield. That Consent Decree was approved by the federal district court in Springfield in October 2000 in *United States et al. v. General Electric Company* (Civil Action No. 99-30225-MAP *et seq.*).

Under the terms of the Consent Decree, GE conducted extensive soil sampling activities at this property to determine whether it contained concentrations of polychlorinated biphenyls (PCBs) and other chemicals that would require cleanup under the standards in the Consent Decree. Following evaluation of the results of that sampling, GE conducted soil cleanup activities at the property in 2003 and 2004. These sampling, evaluation, and cleanup activities were performed by GE in accordance with work plans that were approved by EPA, and were conducted under EPA oversight. Those plans demonstrated that the cleanup of the property achieved the soil cleanup standards established by the Consent Decree for commercial properties like this one. However, because the cleanup did not achieve the standards that would be applicable to properties in unrestricted (e.g., residential) use, the Consent Decree requires that certain measures be implemented to address future uses and activities at the property. Specifically, the Consent Decree provides two options for addressing future use at such properties. The first involves the owner's execution of a legal deed restriction on the property, known as a "Grant of Environmental Restriction and Easement" (ERE), which would allow continuation of the current commercial use of the property, but would place restrictions on future changes to different types of use (e.g., residential or recreational use) and on future excavations. If the owner elects not to execute an ERE for the property, GE is required to implement what is called a "Conditional Solution."

Mr. Curro elected not to execute an ERE for this property. As a result, GE implemented a Conditional Solution at the property. The Consent Decree requires that, in the event of a change in ownership of a property subject to a Conditional Solution, GE must provide the new owner with a letter explaining its rights under the Conditional Solution, as well as describing the remaining levels of chemicals in soil at the property. This letter provides that information.

As background, we note that prior work plans submitted by GE and approved by EPA described the scope of the proposed cleanup at this property and the standards that it would achieve. In particular, a document titled *Conceptual Removal Design/Removal Action Work Plan Addendum for Newell Street Area I* (Conceptual Work Plan Addendum), submitted in April 2003, included a detailed evaluation showing that, after performance of the cleanup proposed in that plan, the concentrations of PCBs in soil at the property would be below the applicable cleanup standards set forth in the Consent Decree for PCBs at commercial properties, which were determined by EPA and MassDEP in the Consent Decree to be fully protective of human health and the environment at such properties. Those standards require that the average PCB concentrations must not exceed 25 parts per million (ppm) in the top foot of soil or the top three feet of soil or 200 ppm in the 1- to 6-foot depth interval, and that if the remaining average PCB concentration in the top 15 feet of soil exceeds 100 ppm, an "engineered barrier" must be installed over the area causing the average concentration to exceed that level. (An engineered barrier is a permanent cover designed to isolate and contain the underlying soils and materials.) GE's Conceptual Work Plan Addendum also showed that the then-existing concentrations of other chemicals in the soil at the property were already below the applicable Consent Decree standards for those chemicals at commercial properties, and that thus no cleanup was necessary for those chemicals. EPA approved the Conceptual Work Plan Addendum, including the above-stated conclusions.

GE performed the cleanup actions at this property in 2003 and 2004. These actions included the removal and replacement of approximately 325 cubic yards of soil in the rear of the property to meet the above-referenced PCB cleanup standards. In addition, an engineered barrier covered with asphalt pavement was installed in the rear of the property. The location of the engineered barrier at the property is shown on the attached Figure 1. At the conclusion of the cleanup actions, the property was restored in accordance with an agreement between Mr. Curro and GE.

Subsequently, by letter dated September 6, 2006, GE advised Mr. Curro of the implementation of a Conditional Solution at the property. In addition, by letters dated September 20, 2006, GE advised the holders of easements on the property – namely, the City of Pittsfield, Western Massachusetts Electric Company, and Verizon New England, Inc. – of that Conditional Solution.

Given that you are now the owner of this property, the remaining sections of this letter explain the following, as required by the Consent Decree: (1) the terms of the Conditional Solution, including the requirements applicable to GE and you regarding future cleanup activities at the property; and (2) the levels of PCBs and other chemicals remaining at the property.

1. Requirements for Implementing Future Cleanup

As noted above and shown in the Conceptual Work Plan Addendum, the soil cleanup actions that GE performed at your property resulted in a condition in which the current concentrations of PCBs and other chemicals in the soil at your property satisfy the applicable cleanup standards for commercial properties. However, the levels of certain chemicals at your property would not satisfy the standards that would apply if the property were ever used for residential or recreational purposes. Accordingly, a Conditional Solution has been implemented for your property to address future uses and activities at the property. Under the Consent Decree requirements for Conditional Solutions, this means the following:

If, in the future, you should decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective for such future use, provided that certain conditions specified in the Consent Decree are met. Specifically, those conditions require that you satisfy the following criteria:

- First, you must show that you have submitted a plan to the appropriate governmental authorities to authorize the future use (if such a plan or authorization is necessary for the use) and that such plan (if required) has been approved by the governmental authorities. Such governmental approvals may include zoning approval, Conservation Commission approval, building permits, and any other necessary approvals, as applicable.

- In addition, you must provide to EPA and to GE (directly or through EPA) "other documented evidence of a commitment to such use," such as, for example, evidence of financing or other financial assurance for the project, other plans for implementing the project (such as architectural plans, contracts for performance of the project, or other similar plans), or an affidavit that you intend to go forward with the project or other change in use if the necessary cleanup actions are taken.

If you provide this required documentation and EPA determines that you have satisfied the above criteria and that cleanup is necessary to allow such use, EPA will notify GE. GE will then be required to submit work plans for any necessary additional sampling and/or cleanup actions to allow such use and, upon EPA approval, to implement those plans. Such cleanup may include soil removal or other remediation as necessary to meet the applicable cleanup standards under the Consent Decree for the new use, or may include, for activities that involve excavation or off-property disposition of soils, actions to ensure the proper excavation, management, and disposition of such soils. While GE is required to conduct such additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

In the event that you sell your property, these same requirements will continue to apply, provided that the successor owner meets the criteria specified above.

In addition, you should be aware that the Consent Decree requires GE to conduct annual inspections of your property to determine whether there has been any changes in activities and uses that would be inconsistent with current uses or would involve exposure to soils greater than three feet in depth. These inspections may require us to contact you further in the future.

For purposes of providing the documentation described above or if you have any question about this matter, the following are the relevant contact persons:

For GE: Richard W. Gates
Remediation Manager
General Electric Company
159 Plastics Avenue
Pittsfield, MA 01201
(413) 448-5909

For EPA: Dean Tagliaferro
GE Pittsfield Team Leader
U.S. Environmental Protection Agency
EPA New England
One Congress Street, Suite 1100 (Mail Code HBO)
Boston, MA 02114
(617) 918-1282

For MassDEP: Susan Steenstrup
Project Coordinator, Special Projects
Bureau of Waste Site Cleanup
Massachusetts Department of Environmental Protection
436 Dwight Street
Springfield, Massachusetts 01103
(413) 755-2264

2. Existing Levels of PCBs and Other Chemicals

GE is also required to notify the owner of the remaining levels of PCBs and other chemicals on a property where a Conditional Solution is implemented. For your property, under the Consent Decree, GE was required to evaluate the concentrations of various constituents for certain specified depth intervals, both before and after the cleanup. The attached Table 1 summarizes, for each of the relevant depth intervals evaluated, the average post-cleanup concentrations of PCBs, as well as the average pre-cleanup concentrations of the other chemicals that were retained for evaluation (after an initial screening step), since cleanup was not necessary to address those other chemicals. (Although the cleanup conducted by GE also undoubtedly removed other constituents besides PCBs, GE conservatively did not consider such removal in evaluating residual concentrations of non-PCB constituents.) The average concentrations listed in this table were taken from the Conceptual Work Plan Addendum.

The attached table also shows that, for PCBs, the post-cleanup concentrations in each relevant depth interval are less than the cleanup standards in the Consent Decree for PCBs at commercial properties. It further shows that, for another set of constituents, known as polychlorinated dibenzo-*p*-dioxin and polychlorinated dibenzofuran toxicity equivalency quotients (PDCC/PCDF TEQs), the current concentrations are likewise below the Consent Decree cleanup standards for such compounds at commercial properties. For the remaining chemicals that were retained for evaluation, the table notes that a risk assessment performed by GE, as set forth in the approved Conceptual Work Plan Addendum, demonstrated that, for a commercial property, those constituents pose no risk above the risk benchmarks set forth in the Consent Decree.

Therefore, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. You and any successor owners should, however, take into account the existence of these substances on your property in conducting any activities such as excavation or digging in the future. In this connection, EPA and MassDEP have prepared a Fact Sheet relating to future uses and activities at this property. A copy of that Fact Sheet is attached to this letter. Please also advise any tenants or other occupants of this property of this letter and the information in that Fact Sheet.

Please call Dick Gates at 413-448-5909 if you have any questions about the information in this letter or would like copies of any documents that GE submitted to EPA.

Very truly yours,

Michael T. Carroll/erk

TABLE 1

RESIDUAL CONCENTRATIONS IN SOIL AT PARCEL J9-23-18[1]

Depth Interval (feet below ground)	Constituent Concentration (in parts per million - ppm)[1]								
	PCBs[2]	PCDD/PCDF TEQs[3]	Benzo(a)-anthracene[4]	Benzo(a)-pyrene[4]	Benzo(b)-fluoranthene[4]	Dibenzo(a,h)-anthracene[4]	Indeno(1,2,3-cd)pyrene[4]	Arsenic[4]	Lead[4]
0- to 1-foot depth	5.2	0.0001	1.5	1.6	1.5	0.4	1.0	6.8	204
0- to 3-foot depth	23	0.00012	1.3	1.4	1.4	0.3	0.9	6.9	168
1- to 6-foot depth	86	N/A	3.0	2.9	3.2	0.5	1.4	6.4	363
0- to 15-foot depth	77	0.0016 (for 1-15 ft depth)	1.7	1.7	1.8	0.4	0.9	5.5	341

Notes:

1. This table includes those chemical constituents that were retained for evaluation at this property after an initial conservative screening step. All concentrations listed are averages except for PCDD/PCDF TEQs, for which the maximum concentration is given. For PCBs, the concentrations shown are those calculated to be present after the soil cleanup. For the other constituents, the concentrations shown are pre-cleanup concentrations. Although the soil removal did in fact remove other constituents present in the same areas as the PCBs being removed, GE conservatively has not considered that removal in evaluating the remaining concentrations of the other constituents.
2. For comparison, the cleanup standards in the Consent Decree for PCBs at commercial properties are 25 ppm for the 0-1 foot and 0-3 foot depths, 200 ppm for the 1-6 foot depth, and 100 ppm for the 0-15 foot depth.
3. For comparison, the cleanup standards under the Consent Decree for PCDD/PCDF TEQs at commercial properties are 0.005 ppm for the 0-1 foot and 0-3 foot depths and 0.02 ppm for the 1-15 foot depth (there are no separate standards for the 1-6 foot or 0-15 foot depth intervals).
4. For substances other than PCBs and PCDD/PCDF TEQs, the Consent Decree allows a property-specific risk assessment to be performed. The property-specific risk assessment performed for these constituents in soils at Parcel J9-23-18, as presented in GE's Conceptual Work Plan Addendum and approved by EPA, shows that these constituents do not pose risks above the risk benchmarks set forth in the Consent Decree.

FACT SHEET RELATING TO FUTURE PROPERTY USES AND ACTIVITIES

Prepared by:
United States Environmental Protection Agency

This Fact Sheet is an attachment to a letter that the General Electric Company (GE) is sending to you as a follow-up to the soil cleanup activities that GE performed on your property. The federal Environmental Protection Agency (EPA) has prepared this Fact Sheet to inform you and successor owners of future uses and activities that you should not conduct on your property due to the levels of remaining contamination.

As GE has described in its letter, for all of the substances evaluated, your property currently satisfies the Consent Decree standards for properties in commercial use. Because the evaluation and cleanup of your property currently does not allow for unlimited uses, however, you and any successor owners should observe the following regarding your property:

- The property should only be used for commercial uses. It should not be used for residential or recreational uses.

- Except for emergency excavations, you should not excavate or dig below three feet of the surface of the ground. You may perform limited excavation and work in the top three feet of the surface of the ground. Please contact EPA and the Massachusetts Department of Environmental Protection (MassDEP) before excavating or moving any amount of soil below three feet and/or before excavating or moving more than ten (10) cubic yards of soil in the top three feet of the surface of the ground. Ten (10) cubic yards is approximately one-half of a standard dump truck of soil. Also, please contact EPA and MassDEP after any emergency excavations.

- An engineered barrier is located on your property that isolates contamination. This barrier, which is shown on the plan attached to GE's letter, should not be disturbed in any manner, such as through digging or excavation work. To our knowledge, except for a City of Pittsfield sewer easement and a drainage line running from that sewer line to Newell Street, there are no utilities located beneath the engineered barrier.

- Please contact GE, EPA, and the MassDEP before disposing of any soil off of the property. Governmental regulations may restrict the off-site disposal of soil from your property.

- Please contact GE before any subsurface utility excavations for any new or existing utilities. Under the Consent Decree, GE is required to ensure that the spatial average PCB concentration of any utility backfill material is at or below 25 parts per million of PCBs.

As stated in GE's letter and as required by the Consent Decree, if, in the future, you decide to change the current use of your property to residential or recreational use or to expand your business or to perform construction or excavation activities, and if that new or changed use is legally permissible, GE will conduct additional cleanup actions at your property, if necessary, to be protective of such future use, provided that certain conditions specified in the Consent Decree are met. Please refer to the letter from GE for more information.

If you have any questions about this Fact Sheet, please call Dean Tagliaferro, of EPA, at 617-918-1282, or Susan Steenstup, Special Projects Coordinator, MassDEP, at 413-784-1100.

Re: Tax Parcel No. J9-23-13 (187 Newell Street), Pittsfield, Massachusetts

Dear Sir or Madam:

Our review of the title records for the above-referenced property (the "Property"), which is a commercial property in Pittsfield, Massachusetts, owned by Moldmaster Engineering, Inc. (Moldmaster), indicates that Bank of America, as successor to First Agricultural Bank of Berkshire County, may hold a mortgage on the Property. Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, including the above-referenced Property, GE is required to provide a notice to the holders of interests in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. Based on an evaluation of the sampling results, GE subsequently performed cleanup actions at the Property consisting of the removal and replacement of certain soil and installation of an asphalt-covered engineered barrier in a portion of the Property. GE performed these activities under the oversight of EPA. The cleanup performed at the Property achieved the standards set forth in the Consent Decree for commercial properties. However, since the cleanup was not required to meet the standards that would apply if the Property were ever used for residential or, potentially, recreational purposes, the Consent Decree requires implementation of an approach known as a Conditional Solution to address future uses and activities at the Property.

The purpose of this letter is to provide notice that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more detail in a September 6, 2006 letter from GE to Moldmaster, a copy of which letter is attached. As discussed in that letter, while the Property currently meets the standards that have been determined to be protective for its current commercial uses, GE is required to conduct additional cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property from commercial to residential or recreational use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that additional cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes the levels of PCBs and other chemicals that remain in the soils at the Property. If Bank of America holds an interest in this Property, it should be aware that these substances remain in the soils at the Property and should take such substances into account in the event that it should ever take actions on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to Moldmaster.

Please call Richard Gates of my staff at 413-448-5909 if you have any questions about the information in this letter or the attached letter.

Very truly yours,

Michael T. Carroll

TD Banknorth, N.A.
Commercial Loan Department
99 West Street
Pittsfield, MA 01201

Re: Tax Parcel No. J9-23-13 (187 Newell Street), Pittsfield, Massachusetts

Dear Sir or Madam:

Our review of the title records for the above-referenced property (the "Property"), which is a commercial property in Pittsfield owned by Moldmaster Engineering, Inc. (Moldmaster), indicates that TD Banknorth may be the holder of a mortgage loan on the Property that was originally made by First Agricultural Bank of Berkshire County. Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, including the above-referenced Property, GE is required to provide a notice to the holders of interests in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. Based on an evaluation of the sampling results, GE subsequently performed cleanup actions at the Property consisting of the removal and replacement of certain soil and installation of an asphalt-covered engineered barrier in a portion of the Property. GE performed these activities under the oversight of EPA. The cleanup performed at the Property achieved the standards set forth in the Consent Decree for commercial properties. However, since the cleanup was not required to meet the standards that would apply if the Property were ever used for residential or, potentially, recreational purposes, the Consent Decree requires implementation of an approach known as a Conditional Solution to address future uses and activities at the Property.

The purpose of this letter is to provide notice that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more detail in a September 6, 2006 letter from GE to Moldmaster, a copy of which letter is attached. As discussed in that letter, while the Property currently meets the standards that have been determined to be protective for its current commercial uses, GE is required to conduct additional cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property from commercial to residential or recreational use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that additional cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes the levels of PCBs and other chemicals that remain in the soils at the Property. If TD Banknorth holds an interest in this Property, it should be aware that these substances remain in the soils at the Property and should take such substances into account in the event that it should ever take actions on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to Moldmaster.

Please call Richard Gates of my staff at 413-448-5909 if you have any questions about the information in this letter or the attached letter.

Very truly yours,

Michael T. Carroll

Appendix J-2 – Parcel J9-23-18

GE
159 Plastics Avenue
Pittsfield, MA 01201
USA

September 20, 2006

David M. Feldman, Esq.
Assistant General Counsel, Environmental
William J. Balcerski, Esq.
Senior Counsel (Rights of Way)
Verizon Communications
1095 Avenue of the Americas
New York, New York 10036

Re: Tax Parcel No. J9-23-18 (217 Newell Street), Pittsfield, Massachusetts

Dear Messrs. Feldman and Balcerski:

Our review of the title records for the above-referenced property (the "Property"), which is a commercial property owned by Vincent J. Curro, indicates that Verizon New England Inc. (formerly known as New England Telephone and Telegraph Company) (Verizon) holds or may hold an easement on the Property. Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, Massachusetts, including the above-referenced Property, GE is required to provide a notice to Verizon as the holder of an interest in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. Based on an evaluation of the sampling results, GE subsequently, in 2003-2004, performed cleanup actions at the Property consisting of the removal and replacement of certain soil and installation of an asphalt-covered engineered barrier in a portion of the Property. GE performed these activities under the oversight of EPA. The cleanup performed at the Property achieved the standards set forth in the Consent Decree for commercial properties. However, since the cleanup was not required to meet the standards that would apply if the Property were ever used for residential or recreational purposes, the Consent Decree requires implementation of an approach known as a Conditional Solution to address future uses and activities at the Property.

The purpose of this letter is to provide notice to Verizon that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more detail in a September 6, 2006 letter from GE to Mr. Curro, a copy of which

letter is attached. As discussed in that letter, while the Property currently meets the standards that have been determined to be protective for its current commercial uses, GE is required to conduct additional cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property from commercial to residential or recreational use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that additional cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes, for informational purposes, the levels of PCBs and other chemicals that remain in the soils at the Property. Verizon should be aware that these substances remain in the soils at the Property and should take such substances into account when conducting activities, such as excavation and/or digging, on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to Mr. Curro.

Please call Richard Gates of my staff at 413-448-5909 if you have any questions about the information in this letter or the attached letter.

Very truly yours,

Michael T. Carroll

Ms. Denise Vogel
Division Manager, Northern Division.
Western Massachusetts Electric Company
c/o Northeast Utilities
P.O. Box 670
55 Russell Street
Hadley, MA 01035

Re: Tax Parcel No. J9-23-18 (217 Newell Street), Pittsfield, Massachusetts

Dear Ms. Vogel:

Our review of the title records for the above-referenced property (the "Property"), which is a commercial property owned by Vincent J. Curro, indicates that Western Massachusetts Electric Company (WMECo) holds or may hold an easement on the Property. Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, Massachusetts, including the above-referenced Property, GE is required to provide a notice to WMECo as the holder of an interest in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. Based on an evaluation of the sampling results, GE subsequently, in 2003-2004, performed cleanup actions at the Property consisting of the removal and replacement of certain soil and installation of an asphalt-covered engineered barrier in a portion of the Property. GE performed these activities under the oversight of EPA. The cleanup performed at the Property achieved the standards set forth in the Consent Decree for commercial properties. However, since the cleanup was not required to meet the standards that would apply if the Property were ever used for residential or recreational purposes, the Consent Decree requires implementation of an approach known as a Conditional Solution to address future uses and activities at the Property.

The purpose of this letter is to provide notice to WMECo that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more detail in a September 6, 2006 letter from GE to Mr. Curro, a copy of which letter is attached. As discussed in that letter, while the Property currently meets the standards

that have been determined to be protective for its current commercial uses, GE is required to conduct additional cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property from commercial to residential or recreational use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that additional cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct additional cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes, for informational purposes, the levels of PCBs and other chemicals that remain in the soils at the Property. WMECo should be aware that these substances remain in the soils at the Property and should take such substances into account when conducting activities, such as excavation and/or digging, on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to Mr. Curro.

Please call Dick Gates of my staff at 413-448-5909 if you have any questions about the information in this letter or the attached letter.

Very truly yours,

Michael T. Carroll

Re: Tax Parcel No. J9-23-25 (273 Newell Street), Pittsfield, Massachusetts

Dear Sir or Madam:

Our review of the title records for the above-referenced property (the "Property") indicates that Bank of America, as successor to First Agricultural Bank of Berkshire County, may potentially hold an interest (Collateral Assignment of Leases and Tenancies) in this Property. This Property is a commercial property in Pittsfield, Massachusetts, that was previously owned by Louis J. and George C. Allegrone and is currently owned by Allegrone Real Estate, LLC.

Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, including the above-referenced Property, GE is required to provide a notice to the holders of interests in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. These activities were performed under the oversight of EPA. Based on an evaluation of the sampling results, GE concluded that: (a) no cleanup actions were necessary at the Property to meet the applicable cleanup standards for properties in commercial use; but (b) since the levels of PCBs on the Property would not meet the standards that would apply if the Property were ever used for residential purposes, an approach known as a Conditional Solution in the Consent Decree must be implemented to address future uses and activities at the Property. EPA has approved this conclusion.

The purpose of this letter is to provide notice that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more detail in a September 6, 2006 letter from GE to the Allegrones, a copy of which letter is attached. As discussed in that letter, while no cleanup was necessary at the Property to meet the standards that have been determined to be protective for its current uses, GE is required to conduct cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property to residential use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes the levels of PCBs and other chemicals that were found in the soils at the Property. If Bank of America holds an interest in this Property, it should be aware that these substances remain in the soils at the Property and should take such substances into account in the event that it should ever take actions on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to the Allegrones.

Please call Richard Gates of my staff at 413-448-5909 if you have any questions about the information in this letter or the attached letter.

Very truly yours,

Michael T. Carroll

Legacy Banks
99 North Street
Pittsfield, MA 01201

Re: Tax Parcel No. J9-23-25 (273 Newell Street), Pittsfield, Massachusetts

Dear Sir or Madam:

Our review of the title records for the above-referenced property (the "Property"), which is a commercial property in Pittsfield owned by Allegrone Real Estate, LLC, indicates that Legacy Banks holds a mortgage on the Property, as well as an assignment of rents. Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, including the above-referenced Property, GE is required to provide a notice to Legacy Banks as the holder of an interest in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. These activities were performed under the oversight of EPA. Based on an evaluation of the sampling results, GE concluded that: (a) no cleanup actions were necessary at the Property to meet the applicable cleanup standards for properties in commercial use; but (b) since the levels of PCBs on the Property would not meet the standards that would apply if the Property were ever used for residential purposes, an approach known as a Conditional Solution in the Consent Decree must be implemented to address future uses and activities at the Property. EPA has approved this conclusion.

The purpose of this letter is to provide notice to Legacy Banks that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more detail in a September 6, 2006 letter from GE to Louis and George Allegrone, a copy of which letter is attached. As discussed in that letter, while no cleanup was necessary at the Property to meet the standards that have been determined to be protective for its current uses, GE is required to conduct cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property to residential use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary

governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes the levels of PCBs and other chemicals that were found in the soils at the Property. Legacy Banks should be aware that these substances remain in the soils at the Property and should take such substances into account in the event that it should ever take actions on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to the Allegrones.

Please call Richard Gates of my staff at 413-448-5909 if you have any questions about the information in this letter or the attached letter.

State Street Bank and Trust Company
Trustee for the benefit of the Holders of the BKB Commercial Mortgage Trust Multiclass Pass-Through Certificates, Series 1997-C1
225 Franklin Street
Boston, MA 02110

Re: Tax Parcel No. J9-23-25 (273 Newell Street), Pittsfield, Massachusetts

Dear Sir or Madam:

Our review of the title records for the above-referenced property (the "Property") indicates that State Street Bank and Trust Company, as Trustee for the benefit of the Holders of the BKB Commercial Mortgage Trust Multiclass Pass-Through Certificates, Series 1997-C1 under a Pooling and Servicing Agreement dated March 1, 1997, without recourse, may hold a mortgage on the Property, as well as a Collateral Assignment of Leases and Tenancies, through an assignment from First Agricultural Bank of Berkshire County. This Property is a commercial property in Pittsfield, Massachusetts, that was previously owned by Louis J. and George C. Allegrone and is currently owned by Allegrone Real Estate, LLC.

Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, including the above-referenced Property, GE is required to provide a notice to the holders of interests in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. These activities were performed under the oversight of EPA. Based on an evaluation of the sampling results, GE concluded that: (a) no cleanup actions were necessary at the Property to meet the applicable cleanup standards for properties in commercial use; but (b) since the levels of PCBs on the Property would not meet the standards that would apply if the Property were ever used for residential purposes, an approach known as a Conditional Solution in the Consent Decree must be implemented to address future uses and activities at the Property. EPA has approved this conclusion.

The purpose of this letter is to provide notice that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more

detail in a September 6, 2006 letter from GE to the Allegrones, a copy of which letter is attached. As discussed in that letter, while no cleanup was necessary at the Property to meet the standards that have been determined to be protective for its current uses, GE is required to conduct cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property to residential use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes the levels of PCBs and other chemicals that were found in the soils at the Property. If State Street Bank and Trust Company, Trustee, holds an interest in this Property, it should be aware that these substances remain in the soils at the Property and should take such substances into account in the event that it should ever take actions on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to the Allegrones.

TD Banknorth, N.A.
Commercial Loan Department
99 West Street
Pittsfield, MA 01201

Re: Tax Parcel No. J9-23-25 (273 Newell Street), Pittsfield, Massachusetts

Dear Sir or Madam:

Our review of the title records for the above-referenced property (the "Property") indicates that TD Banknorth may potentially hold an interest (Collateral Assignment of Leases and Tenancies) in this Property that was originally held by First Agricultural Bank of Berkshire County. This Property is a commercial property in Pittsfield that was previously owned by Louis J. and George C. Allegrone and is currently owned by Allegrone Real Estate, LLC.

Under a Consent Decree that the General Electric Company (GE) has entered into with the U.S. Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (MassDEP), and other governmental bodies covering the environmental investigation and cleanup of various properties in and around Pittsfield, including the above-referenced Property, GE is required to provide a notice to the holders of interests in this Property.

Pursuant to the above-mentioned Consent Decree, GE conducted sampling of the soils at the Property for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. These activities were performed under the oversight of EPA. Based on an evaluation of the sampling results, GE concluded that: (a) no cleanup actions were necessary at the Property to meet the applicable cleanup standards for properties in commercial use; but (b) since the levels of PCBs on the Property would not meet the standards that would apply if the Property were ever used for residential purposes, an approach known as a Conditional Solution in the Consent Decree must be implemented to address future uses and activities at the Property. EPA has approved this conclusion.

The purpose of this letter is to provide notice that a Conditional Solution has been implemented at the Property and to describe what that approach means. These matters are discussed in more detail in a September 6, 2006 letter from GE to the Allegrones, a copy of which letter is attached. As discussed in that letter, while no cleanup was necessary at the Property to meet

the standards that have been determined to be protective for its current uses, GE is required to conduct cleanup actions at the Property in the future if:

(1) the owner should decide to change the current use of the Property to residential use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letter provides additional information regarding these conditions. While GE is required to conduct cleanup actions in the event that the above conditions are met, GE also retains any rights it may have under the law to seek contribution from others for costs incurred by GE to clean up contaminants not related to GE.

The attached letter also describes the levels of PCBs and other chemicals that were found in the soils at the Property. If TD Banknorth holds an interest in this Property, it should be aware that these substances remain in the soils at the Property and should take such substances into account in the event that it should ever take actions on the Property. A Fact Sheet prepared by EPA relating to future uses and activities at the Property is attached to the letter to the Allegrones.

Re: Properties at Newell Street Area I with Conditional Solutions
Tax Parcel Nos. J9-23-13, J9-23-17, J9-23-18, J9-23-19, -20 & -21, J9-23-22, and J9-23-25

Dear Mayor Ruberto:

This letter relates to the above-referenced non-residential properties located on Newell Street in Pittsfield, at which Conditional Solutions have been implemented under the Consent Decree for the GE-Pittsfield/Housatonic River Site. Our review of the title records for these properties indicates that the City of Pittsfield holds or may hold easements on these properties, as follows:

- Parcel J9-23-13 – City sewer easement
- Parcel J9-23-17 – City sewer easement
- Parcel J9-23-18 – City sewer easement and City drain pipe easement
- Parcel J9-23-19, -20 & -21 (commonly owned) – City sewer easements and City drain pipe easement
- Parcel J9-23-22 – City sewer easement
- Parcel J9-23-25 – City sewer easement

Pursuant to the Consent Decree, GE conducted sampling of the soils at these properties for polychlorinated biphenyls (PCBs) and other chemicals to determine whether soil cleanup actions would be necessary to meet the cleanup standards established in the Consent Decree. Based on an evaluation of the sampling results, GE conducted soil cleanup actions at all of these properties except Parcel J9-23-25, consisting of the removal and replacement of certain soil and/or the installation of engineered barriers, to achieve the standards set forth in the Consent Decree for the pertinent types of non-residential properties. For Parcel J9-23-25, cleanup was not necessary to meet those standards. However, for all of these properties, since the levels of PCBs or other chemicals that remain would not meet the standards that would apply if the properties were ever converted to less restrictive (e.g., residential) uses, and since these property owners did not elect to execute Grants of Environmental Restrictions and

Easements (EREs), the Consent Decree requires implementation of a Conditional Solution to address future uses and activities at the properties.

Under the Consent Decree, GE is required to provide notice to the City, as the holder of an interest in these properties, that a Conditional Solution has been implemented at these properties. The Conditional Solutions for these properties are described in letters, dated September 6, 2006, from GE to each of these properties owners, copies of which letters are attached. As discussed in those letters, while each of these properties currently meets the standards that have been determined to be protective for its current uses, GE is required to conduct additional cleanup actions at such a property in the future if:

(1) the owner should decide to change the current use of the property to a less restrictive (e.g., residential or, for commercial properties, recreational) use or to expand operations or perform construction or excavation activities;

(2) the owner submits certain documentation specified in the Consent Decree relating to that future use to EPA and GE, including evidence that the owner has obtained all necessary governmental approvals for the future use and other documented evidence of the owner's commitment to the future use (e.g., evidence of financing, building plans, etc.), and EPA determines that that documentation is sufficient; and

(3) EPA determines that additional cleanup is necessary to allow that future use under the standards in the Consent Decree.

The attached letters provide additional information regarding these conditions. They also describe the levels of PCBs and other chemicals that remain in the soils at the properties. The City and its contractors should be aware that these substances remain in the soils at the properties and should take such substances into account when conducting activities, such as excavation and/or digging, on its easements on the properties. A Fact Sheet prepared by EPA relating to future uses and activities is attached to each of the letters to the property owners.

Please call me or Dick Gates of my staff if you have any questions about the information in this letter or the attached letters.

Very truly yours,

Michael T. Carroll

Inspection Summary and Checklist

INSPECTION SUMMARY AND CHECKLIST

NEWELL STREET AREA I

PARCEL _____

I. GENERAL INFORMATION

Inspection Date: _____

Conducted By/Phone Number: _____

Weather Conditions: _____

Date of Last Inspection: _____

II. INSPECTION SUMMARY

1. Engineered Barriers - *Check applicable Barrier Types for this Parcel and Complete Inspection for each:*

___ ***Vegetative***
___ ***Gravel-Covered***
___ ***Asphalt-Covered***

A. Vegetative Engineered Barriers *(Note any physical changes since last inspection; note evidence of any of the following: soil cover erosion, areas of bare/sparse vegetation, uneven settlement, surface water ponding, burrows, vehicle ruts, exposed synthetic cover components, proper functioning of water management features, unauthorized excavation, unauthorized uses of areas, tree and shrub growth, etc.)*

B. Gravel-Covered Engineered Barriers *(Note any physical changes since last inspection; note evidence of any of the following: gravel cover erosion/displacement, presence of nuisance vegetation (weeds), uneven settlement, surface water ponding, burrows, vehicle ruts, exposed synthetic cover components, proper functioning of water management features, unauthorized excavation, unauthorized uses of areas, tree and shrub growth, etc.)*

C. Asphalt-Covered Engineered Barriers *(Note any physical changes since last inspection; note evidence of any of the following: excessive cracking, fissures, spalling, or potholes; presence of nuisance vegetation (weeds); uneven settlement, surface water ponding; burrows; vehicle ruts; exposed synthetic cover components; proper functioning of water management features; unauthorized excavation; unauthorized uses of areas; etc.)*

2. Other Soil Backfill Areas *(Note any physical changes since last inspection; note evidence of any of the following: excessive settlement, soil erosion, surface water ponding, burrows, vehicle ruts, unauthorized excavations, unauthorized uses of areas, erosion around drainage outlets, drainage swales, or edges of paved areas, etc.)*

3. Other Vegetation Areas *(Note any physical changes since last inspection; note general condition of vegetative cover (e.g., evidence of stressed/sparse cover) and other landscaping items (trees, shrubs, etc.)*

INSPECTION SUMMARY AND CHECKLIST

NEWELL STREET AREA I

PARCEL _____

II. INSPECTION SUMMARY (continued)

4. Areas Potentially Susceptible to Erosion *(Inspect any other areas that are potentially subject to erosion as a result of the remediation, including drainage outlets, drainage swales, and edges of pavement, and note evidence of any erosion. Include, where relevant, an inspection of the drainage outlets/splash pad behind Parcel J9-23-16, the drainage outlet behind the border of Parcels J9-23-17 and J9-23-18, the drainage outlet behind Parcel J9-23-18, the drainage outlet behind and asphalt swale on Parcel J9-23-22, and the drainage outlet and catch basin on Parcel J9-23-23; verify the integrity of these structures and evaluate whether drainage through or discharges from these outlets are causing erosion.)*

5. Paved Areas Subject to Inspection *(Inspect the paved areas on Parcel J9-23-16 that are identified on Figure 3 of the Final Completion Report, and note evidence of any locations where the pavement is broken up and/or missing and soil is clearly visible.)*

6. Other Observations *(Confirm that repair/maintenance measures identified during prior inspection have been performed; note any other general observations, including parcel-specific restoration activities.)*

III. FOLLOW-UP MAINTENANCE AND REPAIR ACTIVITIES

DOCUMENT REVIEW

Conducted By: _____ Phone Number: _____

Representing: _____ Review Start Date: _____

1. ☐ Check here to confirm that the Grant of Environmental Restriction and Easement has been reviewed.

2. ☐ Check here to confirm that the Plan of Restricted Area (as revised if appropriate) has been reviewed.

3. ☐ Check here to confirm that the description of this property in the Final Completion Report and the as-built survey drawings provided in Appendix E of the Final Completion Report (and any alternative plan proposed by GE for the comparison described in Item 7 on next page) have been reviewed.

4. Are there any recorded amendments to or releases from the ERE, and/or any known conditional exceptions under the ERE, and/or any Post-Work Notification Forms which have been submitted by the Grantor under the ERE and of which the reviewing party has a copy, and/or any other documents in GE's possession relevant to the ERE or the use of the property?

☐ No

☐ Yes - If yes, review those items for background informational purposes and list them below (along with the book and page reference in the Registry of Deeds where applicable). (Note that the document reviewer has no obligation to verify the accuracy or completeness of any of these documents, either as of the time they were prepared or as compared to current conditions).

NEWELL STREET AREA I - PARCEL _____

3. Is there any visual evidence of utility work or building construction, modification, addition, or demolition since the last inspection?
   - ☐ No
   - ☐ Yes - If yes, describe below and show the location(s) of such activity on a plan.

4. Is there any visual evidence of soil excavation that generated more than 10 cubic yards of soil since the last inspection?
   - ☐ No
   - ☐ Yes - If yes, describe below and show the location(s) of such activity on a plan.

5. Is there any visual evidence of significant soil erosion since the last inspection?
   - ☐ No
   - ☐ Yes - If yes, describe below and show the location(s) of such erosion on a plan.

6. Is there any visual evidence of significant pavement construction, disturbance, or excavations since the last inspection?
   - ☐ No
   - ☐ Yes - If yes, describe below and show the location(s) of such activity on a plan.

7. If any of the conditions listed in the responses to Questions 3 through 6 appears to have altered the surface grade of the the property compared to the surface grade shown on the as-built survey drawings included in Appendix E of the Final Completion Report (or an alternative, more recent plan proposed by GE), identify the approximate area/location(s) of such grade change on a plan and compare the new surface grade in such area(s) to the surface grade on the above-listed drawings and/or plan. (If GE proposes use of an alternative plan for this comparison, include a copy of that plan and describe the rationale for its proposed use.)
