

Marion Pressure Treating Company Site

Marion, Union Parish, Louisiana

LAD00847314

Waste from a creosote treatment plant, currently on-site and deposited on a Waste Consolidation Area after a removal action was taken to address the abandoned facility.

(Photo January 12, 1999)

Erosion of contaminated soils could affect Wetland areas surrounding the site, including Big Creek, classified by LDEQ as a natural and scenic stream that empties into Bayou de Loutre.
