

Tribal Assistance

EPA region staff have provided technical assistance and training to Tribes in Michigan, Minnesota, and Wisconsin for over 10 years.

**In order to ensure a safe
drinking water supply, we
work with Tribal Utilities and
their . . .**

... ground water supplies ...

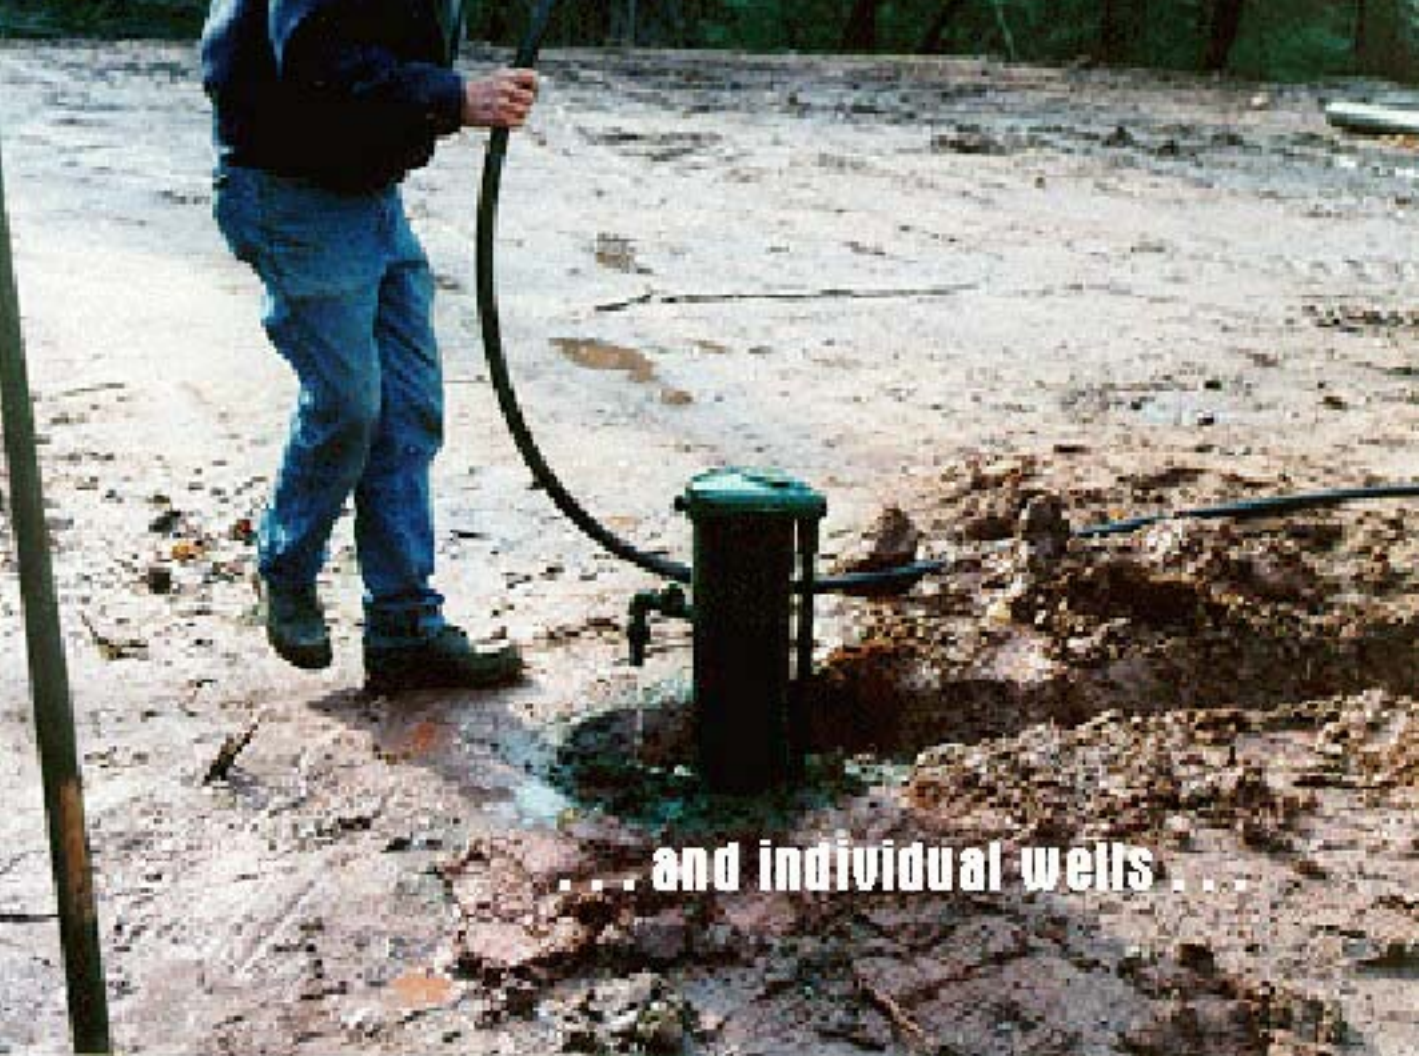

**... and Lake Superior
water supplies ...**

**We work to improve their drinking
water treatment processes for . . .**

... community water systems ...

... and individual wells ...

**Besides drinking water systems,
Tribal Utilities also manage
wastewater treatment facilities.
We help with trouble shooting . . .**

... biological treatment lagoons ...

... sewer system investigations ...

... aerated lagoons ...

... control structures ...

... ultraviolet disinfection ...

We work in partnership with State technicians, and Tribal operators and environmental planners . . .

... to do the field evaluations ...

**... to ensure proper treatment,
prior to discharge ...**

... to the Creek ...

A wide, shallow waterfall cascading over dark, jagged rocks in a forest. The water is white and frothy as it flows over the rocks. The background is a dense forest of tall, dark evergreen trees under a pale, overcast sky. The overall tone is somewhat muted and naturalistic.

... and on to the Ontonagon River ...

We present regular training seminars and workshops to insure that the Tribes have the training and tools to continue their jobs . . .
