

Table B.1. LTPP-CTDB Data Types Available

DATA TYPE	DESCRIPTION OF SUBTYPES AVAILABLE
Level 1	Annual axle loads, ESALs for all vehicles, and other summary statistics
Level 2	Annual axle loads, ESALs by vehicle class, and other summary statistics
Level 3	Volume (daily traffic volumes by lane)
	Vehicle class (daily traffic volumes by vehicle class)
	Weight (daily ESALs and weight ranges by vehicle class)
Level 4	Volume (hourly traffic volumes by lane; "3-card")
	Vehicle class (hourly volumes by vehicle class; "4-card")
	Weight (individual truck weight records; "7-card")
Level 5	Vehicle class data submittal forms
	Weight data submittal forms
	Historical data sheets (Sheets 1-9) plus monitoring estimates (Sheet 10)

Note: Levels 3 and 4 have three distinct data types: volume, vehicle classification, and weight. Likewise, Level 5 is composed of three different types. Record layouts will therefore vary.
