

ACKNOWLEDGMENTS

This report was prepared by the U.S. Environmental Protection Agency, Office of Water, Fish Contaminant Section. The EPA Work Assignment Manager for this document was Jeffrey Bigler who provided overall project coordination as well as technical direction. EPA was supported in the development of the third edition of this document by the Research Triangle Institute (RTI), Inc. (EPA Contract No. 68-C7-0056). Patricia Cunningham and Susan Goldhaber of RTI prepared this third edition. EPA was supported in the development of the original document by Abt Associates and Tetra Tech, Inc. Kathleen Cunningham of Abt Associates was the contractor's Project Manager. Preparation of the first edition of this guidance document was facilitated by the substantial efforts of the numerous Workgroup members and reviewers (see Appendix A).
