

Program Overview

- Informational and peer exchange network:
 - Advance clean energy in local governments and their communities
 - Focus on established, cost-effective best practices
 - Serve as a Gateway to existing resources
 - Develop new tools, resources, and guidance
 - Facilitate peer to peer exchange

Energy Efficiency Resources Database

This searchable database describes key resources and documents relevant to the National Action Plan for Energy Efficiency, which addresses the following issues: Evaluation, Measurement and Verification; Energy Efficiency Potential Studies; Cost Effectiveness; Program Design and Implementation; Dynamic Rates; Resource Planning; Cost Recovery and Incentives; and Codes and Standards. The database also includes information on the following subjects: Funding and Incentives; Emissions Trading; State Management Best Practices; Air Quality; Clean Energy Supply; Local Government; and Portfolio Standards.

You can search the database and retrieve resources using one of three approaches:

1. Search by selecting one or more Subject Area(s).
2. Search by selecting one or more Subject Area(s) and refining your results by selecting one or more Search Topic(s) (on the next page).
3. Search by Keyword alone or in combination with one of the above search options.

Search Subject Area (Hold down CTRL or Mac command key to select/deselect multiple)

- Developing Energy Efficiency Policy
- Developing Renewable Energy Policy
- Supporting Effective Communication
- Supporting Heat Island Mitigation
- Local Government**
- EPA Guide to Action

Select Local Government from subject list

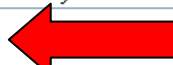

Keywords (Enter a word or phrase to match exactly)

Search Topic (Hold down CTRL or Mac command key to select/deselect multiple)

- LOCAL GOVERNMENT
- All
- Biofuels**
- Building Codes
- Combined Heat and Power
- Energy Efficiency

Select topic(s) of interest

Clean Energy Strategies Guide for Local Governments

- Covers 16 strategies
 - Energy Efficiency, Energy Supply, Transportation, and Urban Planning and Design
 - Benefits; measures; participants; mechanisms for implementation; costs; funding; interaction w/fed, regional, and state programs; case studies, and resources/references
- Launch draft chapters via this webcast series
- Complete guide and post on our website throughout 2008

Webcasts

- 2008 series will focus on energy efficiency and energy supply
 - Tentative topics: EE product procurement, EE in affordable housing, on-site renewable installation, CHP, landfill methane
 - Announced through our S&L Clean Energy-Environment Listserv
 - Local government presenters
 - Topics you would like us to cover
- Other EPA webcasts
 - Clean Energy-Environment Technical Forum Calls (state focus), Office of Waste
 - ENERGY STAR Training Center
