

### Idaho Part C FFY 2005 SPP/APR Response Table

Monitoring Priorities and Indicators	Status	OSEP Analysis/Next Steps
<p>1. Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner. [Compliance Indicator]</p>	<p>The State's FFY 2005 reported data for this indicator are 72%. OSEP could not determine whether the State made progress because baseline data from the SPP were not comparable to the FFY 2005 data. The State did not meet its FFY 2005 target of 100%.</p> <p>The State reported that noncompliance identified in FFY 2004 was partially corrected in a timely manner.</p> <p>The State submitted data beyond the FFY 2005 reporting period indicating 83.3% compliance as of December 1, 2006.</p>	<p>As requested in OSEP's March 24, 2006 SPP response letter, the State revised its timely definition for this indicator in its SPP. The State also revised its SPP improvement activities. OSEP accepts those revisions.</p> <p>As requested in OSEP's March 24, 2006 SPP response letter, the State included in its calculation (both in the numerator and the denominator) those children for whom delays are attributable to documented exceptional family circumstances.</p> <p>OSEP's March 24, 2006 SPP response letter also required the State to submit, in its FFY 2005 APR, its final progress report, which was due October 29, 2006, demonstrating compliance with the requirements in 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1). The data in the FFY 2005 APR show continuing noncompliance.</p> <p>In addition, the State reported that of the six regions in which noncompliance was identified during FFY 2004, one region corrected the noncompliance within 12 months, and another region came into compliance during the reporting year. (page 35 of APR) It appears that the State also reported updated information regarding findings made in FFY 2005, but it is unclear if the findings were made in the same regions in which the noncompliance was identified in FFY 2004, and it is unclear which regions corrected the noncompliance (pages 5 and 37 of APR).</p> <p>The State must implement and evaluate its improvement activities and revise the activities, if appropriate, to ensure they will enable the State to include data in the FFY 2006 APR, due February 1, 2008, that demonstrate compliance with the requirements in 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1), including correction of noncompliance identified in FFY 2005 and the remaining noncompliance identified in FFY 2004.</p>
<p>2. Percent of infants and toddlers with IFSPs who primarily receive early intervention</p>	<p>The State's FFY 2005 reported data for this indicator are 92.5%. The State met its FFY 2005 target of</p>	<p>The State revised the improvement activities for this indicator in its SPP and OSEP accepts those revisions.</p>

It is also important that the State monitor to ensure that IFSP teams make individualized decisions regarding the settings in which infants and toddlers receive early intervention services, in accordance with Part C natural environment requirements.</p>
<p>3. Percent of infants and toddlers with IFSPs who demonstrate improved:</p> <p>A. Positive social-emotional skills (including social relationships);</p> <p>B. Acquisition and use of knowledge and skills (including early language/communication); and</p> <p>C. Use of appropriate behaviors to meet their needs.</p> <p>[Results Indicator; New]</p>	<p>Entry data provided.</p>	<p>The State reported the required entry data and activities. The State must provide progress data and improvement activities in the FFY 2006 APR, due February 1, 2008.</p>
<p>4. Percent of families participating in Part C who report that early intervention services have helped the family:</p> <p>A. Know their rights;</p> <p>B. Effectively communicate their children's needs; and</p> <p>C. Help their children develop</p>	<p>The State's reported baseline data for this indicator are:</p> <p>4A. 56%</p> <p>4B. 52%</p> <p>4C. 68%</p>	<p>The State provided baseline data, targets and improvement activities and OSEP accepts the SPP for this indicator.</p>

In its response to Indicator 9 in the FFY 2006 APR due February 1, 2008, the State must disaggregate by APR indicator the status of timely correction of the noncompliance findings identified by the State during FFY 2005. In addition, the State must, in responding to Indicators 1, 7, 8A, 8B, and 8C, specifically identify and address the noncompliance identified in this table under those indicators.</p>
