

UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES

JUN 15 2007

Honorable Carmen Hooker Odom
Secretary
North Carolina Department of Health and Human Services
2001 Main Service Center
Raleigh, NC 27699-2001

Dear Secretary Odom:

Thank you for the timely submission of North Carolina's Annual Performance Report (APR) and revised State Performance Plan (SPP) under Part C of the Individuals with Disabilities Education Act (IDEA), as amended in 2004.

As you know, under IDEA sections 616 and 642, each State has an SPP that evaluates the State's efforts to implement the requirements and purposes of Part C of the IDEA and describes how the State will improve its implementation of Part C. In the revised SPP due by February 1, 2007, States were required to provide information on: (1) specific new indicators; and (2) correction of any deficiencies identified in the Office of Special Education Programs' (OSEP's) SPP response letter sent to your State last year. States were also required to submit by February 1, 2007, an APR for Federal fiscal year (FFY) 2005 that describes the State's: (1) progress or slippage in meeting the measurable and rigorous targets established in the SPP; and (2) any revisions to the State's targets, improvement activities, timelines or resources in the SPP and justifications for the revisions. We appreciate the State's efforts in preparing the FFY 2005 APR and revised SPP.

The Department has reviewed the information provided in the State's FFY 2005 APR and revised SPP, other State-reported data, information obtained through monitoring visits, and other public information and has determined that, under IDEA section 616(d) and 642, North Carolina needs assistance in meeting the requirements of Part C of the IDEA. The State should review IDEA section 616(e) regarding the potential future impact of the Department's determination.

The Department's determination is based on the totality of the State's data in its SPP/APR and other publicly available information, including any compliance issues. The factors in States' FFY 2005 APR and February 1, 2007 SPP submissions that affected the Department's determinations were whether the State: (1) provided valid and reliable FFY 2005 data that reflect the measurement for each indicator, and if not, whether the State provided a plan to collect the missing or deficient data; and (2) for each compliance indicator that was not new (a) demonstrated compliance or timely corrected noncompliance, and (b) in instances where it did not demonstrate compliance, had nonetheless made progress in ensuring compliance over prior performance in that area.

400 MARYLAND AVE., S.W., WASHINGTON, D.C. 20202
www.ed.gov

Our mission is to ensure equal access to education and to promote educational excellence throughout the Nation.

We also considered whether the State had other IDEA compliance issues that were identified previously through the Department's monitoring, audit or other activities, and the State's progress in resolving those problems. See the enclosure entitled "How the Department Made Determinations under Section 616(d) of the IDEA in 2007" for further details.

Specific factors affecting OSEP's determination for North Carolina included the following: (1) for Indicator 8A, the State reported 90% compliance; (2) for Indicator 8B, the State reported 88% compliance; (3) for Indicator 8C, the State reported 81% compliance; and (4) for Indicator 9, the State reported 43% compliance for FFY 2005 (and at least 53.1% compliance based on subsequent correction of some findings of noncompliance). For Indicators 8A, 8B, and 8C, the State also did not demonstrate correction of prior findings of noncompliance. For these reasons, we were unable to determine that your State met requirements under IDEA sections 616(d) and 642. Balancing these factors were that the State: (1) provided FFY 2005 data for each indicator; and (2) reported correction or a high level of compliance for Indicators 1, 7, and 10. We hope that North Carolina will be able to demonstrate that it meets the requirements of Part C in its FFY 2006 APR. OSEP will respond in North Carolina's FFY 2007 grant letter on the State's progress under its FFY 2006 Part C grant special conditions regarding the 45-day timeline and timely transition conference requirements.

The table enclosed with this letter provides OSEP's analysis of the State's FFY 2005 APR and revised SPP and identifies, by indicator, OSEP's review and acceptance of any revisions made by the State to its targets, improvement activities (timelines and resources) and baseline data in the State's SPP. It also identifies, by indicator, the State's status in meeting its targets, and whether the State's data reflect progress or slippage, and whether the State corrected noncompliance and provided valid and reliable data. The table also lists, by indicator, any additional information the State must include in the FFY 2006 APR or, as needed, the SPP due February 1, 2008, to address the problems OSEP identified in the revised SPP or FFY 2005 APR. The State must provide this required information. We plan to factor into our determinations next year whether or not States provided the additional information requested in this table in their FFY 2006 APR, due February 1, 2008, and may take other actions as well, if the State's data, or lack of data, regarding these issues indicates continuing noncompliance.

As you know, your State must report annually to the public on the performance of each early intervention services (EIS) program located in the State on the targets in the SPP under IDEA section 616(b)(2)(C)(ii)(I) and 642. The requirement for public reporting on EIS programs' performance is a critical provision in ensuring accountability and focusing on improved results for infants and toddlers with disabilities. Please have your staff notify your OSEP State Contact when and where your State makes available its public report on EIS program performance. In addition, States must review EIS program performance against targets in the State's SPP, especially the compliance indicators, determine if each EIS program meets the requirements of the IDEA and inform each EIS program of its determination. For further information regarding these requirements, see the SPP/APR Guidance Materials at <http://www.rrfcnetwork.org/>.

We hope that the State found helpful, and was able to benefit from, the monthly technical assistance conference calls conducted by this Office, ongoing consultation with OSEP

State Contacts and OSEP-funded Technical Assistance Center staff, materials found on the IDEA 2004 website, and attendance at OSEP-sponsored conferences. OSEP will continue to provide technical assistance opportunities to assist your State as it works to improve performance under Part C of the IDEA. If you have any feedback on our past technical assistance efforts or the needs of States for guidance, we would be happy to hear from you as we work to develop further mechanisms to support State improvement activities.

OSEP is committed to supporting North Carolina's efforts to improve results for infants and toddlers with disabilities and their families and looks forward to working with your State over the next year. If you have any questions, would like to discuss this further, or want to request technical assistance, please do not hesitate to call Rhonda Spence, your OSEP State Contact, at 202-245-7382.

Sincerely,

A handwritten signature in cursive script that reads "Patricia J. Guard".
