

UNITED STATES DEPARTMENT OF EDUCATION
OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES

MAR 23 2006

Honorable Joseph Chiaro, M.D.
Deputy Secretary of Health
Florida Department of Health Children's Medical Services
4052 Bald Cypress Way
Tallahassee, Florida 32399-1707

Dear Deputy Secretary Chiaro:

Thank you for your timely submission of Florida Department of Health's (FDOH's) State Performance Plan (SPP) for review under Part C of the Individuals with Disabilities Education Act (IDEA). Section 616(b) of the Act requires States to submit, within one year after the date of enactment of the reauthorized IDEA, an SPP that evaluates the State's efforts to implement the requirements and purposes of IDEA and describes how the State will improve implementation. We appreciate the State's efforts in preparing the SPP under a short timeline and in the face of many other competing priorities. In the SPPs, due by December 2, 2005, States were to include: (1) baseline data that reflect the State's efforts to implement Part C of the IDEA; (2) measurable and rigorous targets for the next six years for each of the indicators established by the Secretary in the priority areas under section 616(a) of the IDEA; and (3) activities the State will undertake to improve implementation of Part C.

The SPP included a description of the broad stakeholder input that went into its development and clearly delineated both how the State solicited that involvement and how the State used the responses received through the process. The Florida Department of Health (FDOH) solicited ongoing input from the Early Steps Continuous Improvement Workgroup, Technical Assistance Liaison and the National Early Childhood Technical Assistance Center in the development of a draft SPP. The draft SPP was reviewed by the Florida Interagency Coordinating Council, that developed a process to reach consensus regarding the content for final submission of the SPP to OSEP.

The Office of Special Education Programs (OSEP) is pleased to inform you that your State's SPP under Part C meets the requirements of section 616(b) to include measurable and rigorous targets and improvement activities. The State must make its SPP available through public means, including posting on the State lead agency's website, distribution to the media, and distribution through public agencies. (Section 616(b)(2)(C)(ii)(I))

Under section 616(b)(2)(C)(ii)(II) of the Act, the State must annually report to OSEP on its performance under the SPP. The State's first Annual Performance Report (APR) on its progress in meeting its targets is due to OSEP by February 1, 2007. Attached to this letter you will find Table A that addresses issues identified during our review of the SPP that – while not requiring disapproval of your plan – will affect our annual determination of State performance and compliance based on data presented in the State's APR. As a result, your State needs to provide additional information as part of its FFY 2005 APR submission due February 1, 2007. Table B

includes OSEP's analysis of your submission related to previously-identified noncompliance or other issues included in our November 8, 2005 letter that responded to your State's FFY 2003 APR, that also may require additional reporting.

OSEP's March 25, 2004 letter directed the State to submit documentation of correction of noncompliance in the SPP with the longstanding issues related to the requirements in Indicators 1, 2, 7 and 8C, which are reported in Table B. The State must provide OSEP the correction data requested in Table B by June 1, 2006. Failure to provide such data by that time may result in the State's being designated a "high risk" grantee or otherwise affect its FFY 2006 grant award.

In addition to reporting to OSEP, the State must report annually to the public on the performance of each early intervention service (EIS) program located in the State on the targets in the State's performance plan. (Section 616(b)(2)(C)(ii)(I)) The requirement for public reporting on EIS program performance is a critical provision related to ensuring accountability and focusing on improved results for infants and toddlers with disabilities. OSEP will be providing technical assistance regarding the reporting on EIS program performance at the National Accountability Conference, September 18 and 19, 2006 in Denver and through periodic technical assistance conference calls.

We hope that your State found the August 5, 2005 guidance on submission of the SPPs and the technical assistance that we provided through the August 11-12, 2005 Summer Institute, periodic conference calls, and the [SPP Resources](#) website helpful in this endeavor. If you have any feedback on our past technical assistance efforts or the needs of States for guidance, we would be happy to hear from you as we work to develop further mechanisms to support State improvement activities.

Thank you for your continued work to improve results for infants and toddlers with disabilities and their families. We encourage you to work closely with your State Contact as you proceed in implementing improvement activities and developing your APR. If you have any questions regarding the SPP or the APR, please contact Alma McPherson at 202-245-7443.

Sincerely,

Troy R. Justesen
