GREGG A. ROTHSCCHILD, CHIEF COUNSEL

Mr. Gary E. McCullough  
President  
Ross Products Division, Abbott  
625 Cleveland Avenue  
Columbus, OH 43215

Dear Mr. McCullough:

Under Rules X and XI of the Rules of the U.S. House of Representatives, the Committee on Energy and Commerce and the Subcommittee on Oversight and Investigations are investigating the use of the chemical bisphenol A (BPA), particularly in products intended for use by infants and children.

We have learned that BPA may be contained in the material used to line cans that contain infant formula and that BPA from this lining may leach into the formula itself, thereby exposing babies to BPA. We are interested to know how often BPA is used in such lining, whether the companies that produce the infant formula are aware that BPA is being used in this manner, and if they have tested their product for the presence of BPA.

Therefore, we ask that you provide written responses to the following questions:

1. Does your company use BPA in the lining of metal cans used to hold liquid infant formula? Please provide the specific names of which brands do or do not use BPA in their can lining.
2. Have you ever tested your infant formula for BPA?
3. If you did test your infant formula for BPA, what was the specific methodology used (e.g., gas chromatography-mass spectrometry, liquid chromatography-mass spectrometry, high performance liquid chromatography, or enzyme-linked immunosorbent assay, etc.) and what was the detection limit for the assay used?

Mr. Gary E. McCullough

4. If you tested your infant formula for BPA, what were the specific results for each test given the methodology used?

Please respond to this request no later than two weeks from the date of this letter. Please note that for the purpose of responding to this request, the terms “record” and “relating” should be interpreted in accordance with the attachment to this letter. After review of your response, we may require additional records and/or staff interviews with company officers and/or employees.

In addition to Ross Products Division, Abbott, this letter has been sent to the following companies: Nestlé USA, Inc.; Wyeth Nutrition; PBM Products; Mead Johnson & Company; Hain-Celestial Group, Inc.; and Solus Products, LLC.

Thank you for your prompt attention to this matter. If you have any questions related to this request, please contact us or have your staff contact John F. Sopko or Paul Jung of the Committee staff at (202) 226-2424.

Sincerely,

John D. Dingell  
Chairman
