Economic Development Division

B-257247

May 12, 1994

The Honorable Patrick J. Leahy
Chairman, Committee on Agriculture,
Nutrition, and Forestry
United States Senate

Dear Mr. Chairman:

As agreed with your office, enclosed is information about the crops on which the U.S. Department of Agriculture's Agricultural Stabilization and Conservation Service (ASCS) made \$8.8 billion in disaster assistance payments for crop years 1988 through 1993. Table 1 presents summary information on the type and number of crops for which disaster payments were made and the total payments for those crops.

Table 1: Disaster Assistance Payments, Crop Years 1988-93

Type of crop	Number of crops	Total payments
Income and price support	14	\$4,961,531,626
Price support ^a	35	1,535,294,298
Nonprogram crops for which FCIC offers insurance ^b	369	1,535,897,449
Nonprogram crops for which FCIC does not offer insurance	847	814,803,824
Total	1,265	\$8,847,527,197

^aIncludes \$21.8 million in payments in counties in which the Federal Crop Insurance Corporation (FCIC) did not offer crop insurance in 1994.

^bIncludes \$741.1 million in payments in counties in which FCIC did not offer crop insurance in 1994.

B-257247

Detailed payment information on income and price support crops is presented in the enclosure on page 3. On pages 3 through 5, similar information is presented for crops receiving only price support. Pages 5 through 22 contain information on nonprogram crops for which FCIC offers crop insurance, and pages 22 through 59 contain information on nonprogram crops for which FCIC does not offer crop insurance.

This information was obtained directly from ASCS' and FCIC's centralized computer data bases. These data reflect payments made for disasters in 1988-89; payments through July 1993 for disasters in 1990-92; and payments through March 28, 1994, for disasters in 1993. To prepare this information, we linked data in ASCS' computer files, showing payments on 1,265 crops and aquaculture species, with data in FCIC's computer files, showing insurance offered for 51 major crop categories. To link data in the two systems, FCIC matched these 51 categories with about 400 crops listed in ASCS' records. We did not verify the accuracy of the information contained in the agencies' computer files.

- - - - -

As arranged with your office, we are sending copies of this correspondence to the Ranking Minority Member of the Senate Committee on Agriculture, Nutrition, and Forestry; other appropriate congressional committees; the Secretary of Agriculture; the Administrator of ASCS; the Manager of FCIC; the Director of the Office of Management and Budget; and other interested parties. We will also make copies available to others upon request.

Please contact me at (202) 512-5138 if you or your staff have any questions.

Sincerely yours,

for John W. Harman
Director, Food and
Agriculture Issues
