U.S. DEPARTMENT OF HOMELAND SECURITY

Overview: FY 2007 Homeland Security Grant Program

January 5, 2007

Office of Grants and Training

Homeland Security Grant Program Overview

A core mission of the Department of Homeland Security (DHS) is to enhance the ability of State, local and tribal governments to prepare, prevent, and respond to terrorist attacks and other disasters. The Homeland Security Grant Program (HSGP) is a primary funding mechanism for building and sustaining national preparedness capabilities.

HSGP is comprised of five separate grant programs:

- Urban Areas Security Initiative (UASI)
- State Homeland Security Program (SHSP)
- Law Enforcement Terrorism Prevention Program (LETPP)
- Metropolitan Medical Response System (MMRS)
- Citizen Corps Program (CCP).

Together, these grants fund a range of preparedness activities, including planning, organization, equipment purchase, training, exercises, and management and administration costs.

HSGP programs support objectives outlined in the National Preparedness Goal and related national preparedness doctrine, such as the National Incident Management System, National Response Plan, and the National Infrastructure Protection Plan.

The FY07 HSGP contains significant improvements based upon extensive outreach to HSGP stakeholders. In addition, the risk assessments that form the basis for eligibility under the HSGP have been simplified, refined, and considerably strengthened.

Funding priorities for this year further improve our primary commitment to risk-based funding. We also continue to deepen our commitment to assisting with regional planning and security coordination. In response to requests from our Urban Areas Security Initiative partners, this year’s program includes a pilot test that gives the highest risk metropolitan areas additional flexibility in using their grant funds under that program to fund dedicated counterterrorism staff.

All potential applicants will have more time this year to complete the application process. DHS has also created multiple opportunities for applicants to have consultations with the Department’s grant program and subject matter experts prior to final review of applications.

This year’s HSGP grants strengthen DHS’s ability to protect security- and business-sensitive information that will be provided with grant applications from inappropriate public release. To increase program flexibility, the period for performance under HSGP grants has been extended to 36 months.

Homeland Security Grant Program Detail

Urban Areas Security Initiative (UASI) Program

Total Funding Available in FY 2007: \$746,900,000

Purpose: The UASI Program focuses on the unique planning, equipment, training and exercise needs of high-threat, high-density urban areas. It assists them in building sustainable capacity to prevent, protect, respond, and recover from acts of terrorism.

Eligible Applicants: Forty-five urban areas (see page 4 for complete list) are eligible for funding under the FY07 program. Six of these areas are designated as highest risk UASI jurisdictions and will be eligible to compete for \$410 million or 55 percent of available funds. The remaining UASI areas will compete for the remaining \$336 million or 45 percent of available funds. Funds will be allocated based on analysis of risk and the effectiveness of proposed investments by the applicants. Risk for UASI jurisdictions is evaluated using a consistent methodology of threat, vulnerability, and consequences.

State Homeland Security Program (SHSP)

Total Funding Available in FY 2007: \$509,250,000

Purpose: This core assistance program provides funds to build capabilities at the State and local levels through planning, equipment, training, and exercise activities. SHSP also supports the implementation of State homeland security strategies and key elements of the national preparedness architecture, including the National Preparedness Goal, the National Incident Management System and the National Response Plan.

Eligible Applicants: Eligible entities for SHSP are all 50 States, the District of Columbia, Puerto Rico, American Samoa, Guam, Northern Mariana Islands, and the Virgin Islands. Available funds are distributed to each State based upon the risk and effectiveness scores associated with each application and also on a minimum allocation consistent with the statutory formula set by the USA Patriot Act. Each State, the District of Columbia, and Puerto Rico will receive 0.75 percent of total available SHSP funds as a minimum allocation and the four territories will each receive 0.25 percent. Effectiveness scores are determined through a peer review of proposed State investments.

Law Enforcement Terrorism Prevention Program (LETPP)

Total Funding Available in FY 2007: \$363,750,000

Purpose: LETPP provides resources to law enforcement and public safety communities to support critical terrorism prevention activities, including establishing and enhancing fusion centers and collaborating with non-law enforcement partners, other government agencies and the private sector.

Eligible Applicants: LETPP eligibility mirrors that of the SHSP program: all 50 States, the District of Columbia, Puerto Rico, American Samoa, Guam, Northern Mariana Islands, and the Virgin Islands. Available funds are distributed to each State based upon the risk and

effectiveness scores associated with each application and also on a minimum allocation consistent with the statutory formula set by the USA Patriot Act.

Metropolitan Medical Response System (MMRS) Program

Total Funding Available in FY 2007: \$32,010,000

Purpose: MMRS funds support local preparedness efforts to respond to all-hazards mass casualty incidents, including CBRNE terrorism, epidemic disease outbreaks, natural disasters and large-scale hazardous materials incidents.

Eligible Applicants: As in past years, 124 cities are eligible for MMRS funding. See page 8, below, for a complete list of all eligible jurisdictions. Each of the 124 MMRS jurisdictions will receive \$258,145 to establish and sustain local capabilities.

Citizen Corps Program (CCP)

Total Funding Available in FY 2007: \$14,550,000

Purpose: The Citizen Corps mission is to bring community and government leaders together to coordinate community involvement in emergency preparedness, planning, mitigation, response and recovery.

Eligible Applicants: Like SHSP and LETPP, the Citizen Corps Program is open to 56 States and Territories using the USA Patriot Act formula. All 50 States, the District of Columbia and Puerto Rico will receive a minimum of 0.75 percent of the total available CCP grant funding. Four territories (American Samoa, Guam, Northern Mariana Islands, and the Virgin Islands) will receive a minimum amount of 0.25 percent of the total available grant funding. The balance of the CCP funds is distributed on a population-share basis.
