

Agriculture and Natural Resources Extension

John Panuska

Extension Specialist-Natural Resource/Water Quality

Phone: 608-262-0605 FAX: 608-262-1228 [email John Panuska](mailto:jcpanuska@wisc.edu) jcpanuska@wisc.edu
Agricultural Engineering Building, 460 Henry Mall, Madison, WI 53706

Extension Expertise

- Phosphorus loss from agricultural management systems
- Watershed runoff computer modeling for management decision support
- Water quality management outreach
- Drainage and irrigation

Research Interests

- The transport and delivery of phosphorus from sources to receiving waters
- The development and application of water quality management models
- Erosion and sediment transport

Other Professional Experience

- Member, American Society of Agricultural Engineers
- Registered professional engineer, WI
- Registered professional hydrologist, WI

Education

- BS, SD School of Mines and Technology, Civil Engineering, 1985
- MS Agricultural Engineering, University of Minnesota, 1989
- PhD Biological Systems Engineering, UW-Madison, 2006
