

FRUIT AND NUT CULTIVAR NURSERY SOURCES-2003

John Strang, Terry Jones,
April Sataneck and June Johnston Horticulturists,
Department of Horticulture
University of Kentucky

This fact sheet was developed to help locate nursery sources for fruit cultivars that are recommended in Kentucky Extension publications or commonly asked for in Kentucky.

Each cultivar name within the list is followed by a series of two letter abbreviations which specify nurseries that carry the cultivar. This is followed by a list of nursery addresses, phone numbers, e-mail and website addresses. Several of the nurseries that are listed cater primarily to commercial growers. A list of a few horticultural equipment suppliers is located at the end of the publication.

This compilation is not intended to list all the nurseries that may carry a certain cultivar, nor does it imply endorsement of particular nurseries by the Cooperative Extension Service.

The authors wish to thank Dr. Gerald R. Brown, U.K. Professor Emeritus, for his help in preparing this publication.
