PGI 211—Describing Agency Needs

(Added May 12, 2006)

PGI 211.2—USING AND MAINTAINING REQUIREMENTS DOCUMENTS

PGI 211.201 Identification and availability of specifications.

(1) Specifications, standards, and data item descriptions are indexed in the Acquisition Streamlining and Standardization Information System (ASSIST).

(2) Specifications, standards, and data item descriptions that are not indexed in ASSIST should be included in the solicitation, if feasible, or made available at the contracting activity.

(3) Most unclassified specifications, standards, and data item descriptions may be downloaded from the ASSIST database (<http://assist.daps.dla.mil>). Documents not available for download from ASSIST may be ordered using the ASSIST Shopping Wizard (<http://assist.daps.dla.mil/wizard>) or by contacting the Department of Defense Single Stock Point (DoDSSP), Building 4, Section D, 700 Robbins Avenue, Philadelphia, PA 19111-5094; telephone (215) 697-2179. When contacting the DoDSSP, include with each request—

- (i) The requester's customer number; and
- (ii) A complete return mailing address, including any "mark for" instructions.

PGI 211.273 Substitutions for military or Federal specifications and standards.

PGI 211.273-3 Procedures.

(1) Solicitations for previously developed items shall encourage offerors to identify Single Process Initiative (SPI) processes for use instead of military or Federal specifications and standards cited in the solicitation. Use of the clause at DFARS 252.211-7005, Substitutions for Military or Federal Specifications and Standards, satisfies this requirement.

(2) Contracting officers shall ensure that—

(i) Concurrence of the requiring activity is obtained for any proposed substitutions prior to contract award;

(ii) Any necessary additional information regarding the SPI process identified in the proposal is obtained from the cognizant administrative contracting officer; and

(iii) In competitive procurements, prospective offerors are provided the opportunity to obtain verification that an SPI process is an acceptable replacement for a military or Federal specification or standard for the particular procurement prior to the date specified for receipt of offers.
